A sprightly controversy has been going on for some time in the English newspapers relative to the somewhat intimate subject of the young English woman's foot, or, rather, her shoe, says a shoe journal. The modern English girl is tall—tall in a sense and to a degree that the Gibson cartoon of the stately American girl do not even adumbrate. In the aristocratic set more often than not, she towers over the heads of foreign gentlemen. Long generations of descent from tall fathers and mothers and vigorous years of outdoor exercise have made her what she is—very occasionally a six-footer, and with hands and feet in due proportion.

The note of alarm has at last been sounded. It is held that "the daughters of Anak" are exercising too freely, if they would wear the dainty shoes that are women's traditional adornment. While the answer is made that the apparent size of the English girl's foot is due to her sensible preference for loose, easy shoes, it is admittedly an incomplete explanation. One reason for the growing popularity of the American shoe in London, is that it looks neater and trimmer and decidedly smaller than the English shoe of the same size.

FOR AN IDEAL SHAVE.

Ideal Regulations for Barbers May Be Adopted in the City of Washington.

Washington will be an ideal town in which to get shaved if a proposition submitted to the knights of the razor is adopted, says a report from that city. The regulations provide that barbers shall not annoy their customers by excessive conversation, that mugs and shaving brushes shall be sterilized by immersion in boiling water or a five per cent. solution of carbolic acid; that razors shall be wiped with 95 per cent. alcohol after being used; that floors and woodwork must be mopped with an antiseptic solution; that sanitary hair brushes must be used and regularly sterilized; that combs must be kept clean and never wiped off with the hand or blown upon with the breath; that a separate clean towel shall be used for each customer, and that clean towels or absorbent cotton shall be used in place of powder puffs. Barbers are also ordered to keep their teeth clean and their finger nails short and clean, and are directed to keep their mouths closed when leaning over a customer who is being shaved.

Duke Who Praises His Cook.

The duke of Cambridge is the only member of the royal family who employs a woman cook, and no one appreciates her very admirable cooking more than his royal highness. The duke frequently shows his appreciation of her culinary efforts in a very practical way, and before now has been known, after a dinner which has particularly pleased him, to go straight away to the kitchen and in a few kind words offer his congratulations to his cook.

An Orderly Family.

The gold medal offered by the Paris council for the most numerous and best behaved family of children has been won by a couple named Vallez, parents of 13 youngsters.

Tunes of the Terrible Turk.

The sultan of Turkey is an excellent pianist and spends five hours every day practicing. He devotes a couple of hours daily to teaching his daughter how to play.

SPORTING NEWS

ON THE DIAMOND.

The Y. M. C. A. nine is scheduled to play Rutgers' consolidated team next Saturday. Game called at 3:45 o'clock.

The Watchung Field Club defeated the Eagles Saturday afternoon by a score of 28 to 11. The game was played on the Westervelt avenue grounds.

Manager Muir, of the Safe Works, is negotiating with the Summit A. C., for a game in this city Saturday. They have practically accepted and he expects them to wire today.

Much to the regret of his many friends, Fred Dixon has resigned as a member of the Hope team. He has been covering first base in good shape. At present he will not play the game at all, but may return later in the season.

The Rahway Field Club will again visit this city, Saturday, and cross bats with the St. Mary nine. It will be the third and deciding game between the two nines. Both the previous contests were very good and as the players are well acquainted with each other's methods the last should prove exciting.

In recounting the baseball game between the Scotch Plains-Safe Works team, Saturday, a mistake was made in the summary in regard to the number of men struck out by each pitcher. Malay, the Scotch Plains man, struck out eight, and Finnerty, of the Safe Works, three. A mistaken idea seems to prevail that the 'Plains team was padded for the occasion, but such is not the fact. The players, although most of them came from the city, were those announced two weeks ago as being the personnel of the team.

WHIST.

The Baltimore Whist Club won another victory for the American Whist League challenge trophy by again defeating the Walbrook Whist Club, of Baltimore. The score was 33 tricks to 13.

The Newark Bay Boat Club still retains possession of the Metropolitan challenge trophy. They defeated the Elizabeth Chess and Whist Club by the score of 18 tricks to 10. The Cosmopolitan Whist Club, of New York, is next on the list of challengers.

In the contest for permanent possession of the Metropolitan challenge trophy the Cosmopolitan Whist Club, of New York, is in the lead with eight wins, closely followed by the Brooklyn Whist Club and the Knickerbocker Whist Club with seven wins each. It is necessary to win the cup fifteen times to obtain permanent possession. The order of challenges for the trophy is as follows: Cosmopolitan, Ackquackanonk, New Jersey Whist, Forest Hill, Brooklyn, Knickerbocker, Jersey City, Plainfield Camera Club and Elizabeth.

GOLF.

There is likely to be some slicing in the handicaps for the boys' tournament on the Hillside Tennis and Golf Club course. The young fellows are playing a strong game, much to the surprise of the committee and other members of the club.

It was to be regretted that illness prevented J. Whitney Baker from taking a part in the recent intercollegiate golf tournament at Garden City. His recent playing gave promise of making him a strong contestant in the big match. Reinhart entered and played great golf throughout, though he failed to land in first position.

AMONG THE STEPPERS.

Within a short time a number of the well-known lovers of trotting matches in this city and vicinity will meet and arrange for a meet to be held on the track of the Plainfield Driving Club a little later in the season. It is proposed to secure a large number of entries, including some of the best horses in the State.

POLICEMAN SUES.

Doorman McCue Wants Damages From Street Railway Company.

Action for $300 damages against the Elizabeth, Plainfield and Central Jersey Street Railway has been commenced by Police Headquarters Doorman Thomas McCue through Attorney Francis J. Blatz.

In his complaint Doorman McCue declares that as he was stepping on a car on East Front street, February 7, the motorman started it suddenly, throwing him to the ground. His kneecap was injured and his side painfully bruised so that he has suffered greatly since. He was also confined to his home for several days and is still under the care of a physician.

Debate on Cuban Question.

Next Tuesday the pupils of the North Plainfield High School will hold a special debate. "Resolved that it would be best for the United States and Cuba, if Cuba should be annexed." Tuesday is the date of President Palma's inauguration and besides other exercises there will be a short sketch of the distinguished Cuban's career.

One Candidate Initiated.

Queen City Lodge, No. 226, I. O. O. F., conferred the initiatory degree on one candidate, last evening. Afterward a smoker was held, during which addresses were made by Noble Grand B. W. Hand, Past Grands J. D. Brown and H. DeMott and Secretary R. E. Humphrey.

TOOK ENOUGH TO KILL FOUR

MISS CARTHERINE HARVEY ATTEMPTED SUICIDE AT NEW YORK.

She Has Been Employed as Chambermaid in a Borough Home—Had Grown Morose.

Miss Catherine Harvey, a young woman eighteen years of age, recently a resident of North Plainfield and very well known in the borough, attempted suicide in New York last evening.

Miss Harvey was employed as a chambermaid by Mrs. M. H. Ewart, of 44 Fairview avenue. Because she occupied such a position it is said some of her friends frequently and inconsiderately taunted her. The girl was of a very sensitive disposition and the jibes of her friends preyed on her mind to such an extent that it is supposed she finally decided to put an end to her existence. Although morose at times, it was observed yesterday afternoon that she seemed more than usually light-hearted—in fact, vivacious. She announced her intention of going on a short visit to a sister, Mrs. Eleanor Fuchs, living at Dunellen.

Instead of going to see her sister, she went to New York, and took sufficient poison to kill four persons. Strange to say she survived the ordeal and was removed to a New York hospital in an agonizing condition. At latest accounts, Miss Harvey still lingered and some hopes are entertained for her recovery.

The parents of Miss Harvey reside in Quarryville, in the Catskills, New York State. The family is well-known in that part of the country, very well-to-do, and highly respected. A brother, Thos. Harvey, is located in Brooklyn.

PERSONAL.

William Sweeney, of West Second street, has returned from a three days' stay at Asbury Park.

Mr. and Mrs. A. V. Utzinger, of Grandview avenue, spent Sunday with friends at Hoboken.

Mrs. D. J. O'Neil, of Ridgewood, returned home yesterday after a pleasant visit with her sister, Mrs. E. L. Earp, of Park place.

Michael Winn, formerly of this city but now of Orange, is spending a few days with his friend, Patrick Marron, of West Second street.

Mr. and Mrs. Charles E. Morey, of Troy, N. Y., who were guests of Rev. and Mrs. W. C. Nelson at the celebration of their wedding anniversary, have returned home. Mr. and Mrs. Morey were best man and bridemaid for Mr. and Mrs. Nelson when they were maried forty-four years ago.

LAMP EXPLODED.

Fire Department Called Out, But Was Not Needed.

A lamp in the hallway of No. 134 of the flat building at Central avenue and Second street, exploded early last evening setting fire to the carpets and woodwork. An alarm was sent in from box No. 42 but before the arrival of the department, some thoughtful person rolled the carpet up and smothered the flame. The loss will not exceed $30. James McGinley occupies the flat on the second floor and James Barr on the third.

After One Who Stabbed Dog.

Robert Crane, of Codington & Swackhamer's offices, whose pet dog was stabbed unwarrantedly, has offered a reward for the capture of the miscreant. He has asked the police to help him in his search.

Wants Damages.

B. D. Edwards, colored, of Westfield, who fell about two weeks ago from the top of a scaffold on a new building at the Safe Works, will attempt to secure damages on account of his injuries.

Decoration Shoot.

The Independent Shooting Club held its regular business meeting at the Arlington Hotel last evening. Decoration Day it will hold a trap and rifle shooting contest on the range, Maple avenue.

Alumni Meeting.

The annual business meeting of the North Plainfield High School Alumni Association will be held in the High School building this evening. All members are requested to be present.

Engagement Announced.

Mrs. Ida A. Luckey, of Craig place, announces the engagement of her daughter, Miss Mary Adelaide, to Charles Edward Hazeltine, of Westervelt avenue.

—The auditing committee of the Firemen's Relief Association met last evening in Chief Doane's office.

—Plainfield Lodge, No. 44, I. O. O. F., met last evening and conferred the second and third degree on one candidate.

Wants Others to Know.

"I have used DeWitt's Little Early Risers for constipation and torpid liver and they are all right. I am glad to indorse them for I think when we find a good thing we ought to let others know it," writes Alfred Heinze, Quincy, Ill. They never gripe or distress. Sure, safe pills. L. W. Randolph.

NEWARK'S BEER NOT STRONG

THREE GLASSES OF PLAINFIELD'S ARTICLE PUT NEWARK MAN OUT.

Mistook a Lawn on West Seventh Street for His Bed and Swore at Policeman Who Disturbed Him.

According to John Graham, of Newark, who was arraigned in the city court, this morning, for drunkenness and disorderly conduct, the beer retailed in Plainfield is much stronger than that dispensed over bars in his native city. He took three glasses yesterday and it overcame him to such an extent that he mistook a lawn at West Seventh and Division streets for his bed and lay down. In Newark, he says, it would take five times that amount to stupefy him.

Patrolman Higgins, who arrested him, said John's language was stronger than that generally heard in Newark and City Judge Runyon gave him thirty days.

Patrolman Higgins, also arrested yesterday afternoon, August Krowl, of Oak Tree, who started for home after taking three drinks, but was overcome at Park and Crescent avenues. He had to be taken to headquarters in a wagon. As there was no disorder connected with his jag, sentence was suspended.

NEW PASTOR.

Rev. John Bean Has Been Assigned to the Mt. Zion A. M. E. Church.

Mr. and Mrs. Edwin B. Maynard, of the Mt. Zion A. M. E. church, returned last evening from Camden, where they attended the annual conference of the church. They report the convention to be one of the best ever held. Rev. John Bean, formerly of Bordentown, was assigned to the Plainfield church, while Rev. Mr. Smith, who was pastor last year, has been sent to Wrightfield. Mr. Bean will preach Sunday for the first.

CLERGYMEN ENTERTAINED.

Ministers' Association Met at the Home of Rev. C. L. Goodrich.

The Plainfield Ministers' Association was entertained yesterday afternoon by Rev. Charles L. Goodrich, of the Congregational church. The paper was presented by Rev. E. M. Rodman, of Grace Episcopal church, the topic being "The Need of a Creed." An informal discussion of the paper followed. The place for the June meeting was not decided upon yesterday. This will be considered later.

Plainfield Knights There.

The Grand Commandery, Knights Templar, is in session at Trenton today. Among those present from Trinity Commandery, No. 17, K. T., this city, are W. H. Sebring, Jacob Kirkner, Dr. D. C. Adams, H. W. Marshall, B. Frank Coriell and Robt. A. Meeker.

Child Culture.

The midweek service at the Congregational church, tomorrow evening will consist of readings from a new book on the training of children, by Mrs. Chenery, entitled "As the Twig is Bent." The meeting will be of special interest to parents and teachers.

At Diocesan Convention.

The Diocesan convention of the Episcopal church is being held this week at Trenton, those present from this city being Rev. E. M. Rodman, Rev. Wm. M. Downey, Rev. Harris C. Rush, Rev. Wm. Vincent Dawson and Rev. Dr. J. P. Taylor.

Becomes Americanized.

A Madison (Kan.) girl, who is attending school in Washington, went to the reception recently given by the wife of Minister Wu, at the Chinese legation, and of her observations she writes as follows:

"The house is very much like an American one. The servants were English, and the few Chinamen scattered about seemed out of place. I found myself wondering that the servants didn't give the Chinamen the family wash, and put them out. The Wus are becoming more like us every year. Formerly Minister Wu received, and his wife was poked back in a corner. Now she receives, and he merely wanders around and looks lonesome, all the same like American man when his wife gives a party."

Rapid Transit.

A gentleman traveling on the New Jersey Central flyer put his head out of the window to bid his wife goodby, as the train was moving out of the Jersey City station. Instead of succeeding in his purpose, however, he found that he had kissed a strange lady standing on the platform at the next station. This is one of the New York Times' prize stories and as the Boston Herald suggests the only improper thing about it is that it only got a second prize.

"COUNTY FAIR" ON THE FOURTH

Hope Chapel Y. M. A. Makes Great Preparations for Celebrating Independence Day.

THE PLANS OUTLINED.

Wide Variety of Attractions Mapped Out by Committee and Approved at a Special Meeting of the Young Men's Association Last Night—What's to be Done.

Independence Day, or the glorious Fourth of July, will not be allowed to pass in this city this year without a demonstration befitting the occasion. At a special meeting of the Young Men's Association, of Hope chapel, held last evening, a committee composed of William N. Runyon, chairman; George E. Firstbrook, John H. Cose, Thomas Muir and D. Brittin Martin, appointed one week ago for the purpose, reported that it had decided upon a public celebration.

The committee's idea is to hold a typical "county fair" on a small scale but with all the leading features, in connection with the two baseball games to be played on Hope common. The report of the committee was accepted by the association and preparations were at once made to execute the preliminary plans. Five committees of three members each will be appointed by Chairman Runyon today to assist in the work, the original committee continuing to have general supervision.

Among the attractions to be offered on the day are fakirs, lemonade, refreshments and candy butchers, a side show with vaudeville attractions forming a half hour's entertainment, throwing rings for canes and knives and other devices for catching the elusive nickel, a balloon ascension, speech making by prominent orators and many others yet to be decided upon.

One of the principal features will be the two ball games, one in the morning and the other in the afternoon between the Hope Y. M. A. nine and the strong Decatur team of New York. The later nine is one of the foremost in the semi-professional ranks in the Metropolitan district and has been secured for the occasion by Manager Cose after much negotiating. As the strength of the Hope team is not to be underestimated, the contests are bound to be exciting. The day's fun will close with a grand finale in the evening, but just what the committee is not prepared to state at present. It will include a reception in honor of the visiting Decaturs and their friends who accompany them.

Hope Common is admirably suited for just such a demonstration and those who attend can remain all day. The common is bounded on the west side by a pretty wood, in the cool depths of which tables will be erected for basket parties and where refreshmenets can be served. The common itself is much larger than the ordinary circus lot and richly carpeted with grass. In fact there is every advantage on the side of the Y. M. A. in its plans and it needs but a large attendance to make the affair a success. The fact that the young men gave, last March, what is considered to be the best amateur minstrel entertainment ever seen in the city, demonstrates that the public will not be disappointed in expecting an enjoyable day.

Chairman Runyon announced the various committees today as follows:

Refreshment committee, Fred Wharton, chairman, H. D. Thompson, Harvey Moynihan; entertainment committee, George Cose, chairman, B. Collins Firstbrook, Arthur Fritts; athletic committee, Albert Grieb, chairman, Frank Whitley, Walter Foster; fake committee, Matthew D. Sweeney, chairman, Archibald Hacquer, Alfred B. Marsh.

Made Favorable Impression.

Rev. Mr. Grol, the student from the Theological Seminary at Nsw Brunswick, will occupy the pulpit at the German Reformed church until next September, and he has already made a favorable impression. Last Sunday evening he preached in English and the edifice was filled with worshippers.

Camp Changes Hands.

Camp Champlain, which was last year conducted by the State Y. M. C. A. committee of New Jersey, will this year be in charge of the Montclair Y. M. C. A. with the approval of the State committee.

MUST KEEP OFF SIDEWALK

POLICE DETERMINED THAT THE CITY ORDINANCE SHALL BE OBEYED.

Great Trouble on LaGrande Avenue, Between Woodland Avenue and Richmond Street.

The two boys arraigned in the city court, Monday morning for riding their wheels on the sidewalk, are the first, the police declare, of many others unless the practice is stopped.

Complaints against the nuisance have been pouring in for several weeks, especially for the section where Monday's culprits were taken, LaGrande avenue from Woodland avenue to Richmond street. There is nothing the matter with the street, yet wheelmen have become so accustomed to riding on the sidewalk that they regard it as perfectly proper to race down it without regard to pedestrians. The police propose to alter their opinion.

Every patrolman has been instructed to watch out for just such offenders and accept no excuses. The police have been promised the support of the city judge and when an arrest is made, it will not merely mean an entry in the court blotter but a heavy fine will serve to remind the offenders that sidewalks were not made for bicycles.

OUTING FOR REPUBLICANS

UNION COUNTY COMMITTEE APPOINTED COMMITTTEE TO CONSIDER IT.

Gift Received From the Congressman—Want County Organizations to Meet in One Place.

The Union county Republican executive committee met last evening at Elizabeth and transacted considerable business. A committee consisting of Charles N. Codding, Westfield; J. S. Tucker and W. E. Seymour, Elizabeth, to draft resolutions condemning the beef trust, was appointed.

The advisability of holding an outing this year in Union county was considered favorably and the following committee was appointed: J. S. Tucker, James White, Elizabeth; Wm. Brown, S. Rusling Ryno, Rahway; Chas. N. Codding, Westfield; Andrew McCardell and F. H. Smith, of Plainfield. The committe will hold its first meeting in Plainfield next week to arrange for the outing.

Another committee, consisting of Chas. N. Codding, of Westfield; George Ball, of Scotch Plains, and Andrew McCardell, of Plainfield, was appointed to arrange for one meeting place for the McKinley Club, of Union county, the Elizabeth central committee and the Union county committee.

Congressman Fowler presented the committee with a handsome coat of arms of the United States, framed, and the thanks of the committee were given to the Congressman. F. H. Smith nominated J. W. Murray, Jr., of this city, for a re-appointement to membership on the county board of elections, and Gov. Murphy will undoubtedly re-appoint him to the position.

BITTEN BY DOG.

Son of G. F. Watts Was Visiting at Warrenville Where It Happened.

The five-year-old son of Mr. and Mrs. George F. Watts, of Chatham street, was badly bitten by a dog last Thursday. Mr. Watts and the boy were visiting in Warrenville. The child was playing in the yard where a large dog grabbed him in the face, inflicting an ugly wound. He was brought hurriedly to Plainfield and taken to Dr. Tomlinson's home, where the wound was canterized.

Street Work in Borough.

In addition to the street improvements already progresing in the borough, a much-needed crosswalk has been placed at the corner of Watchung and Manning avenues, opposite St. Joseph's church. Also a broken stone at the corner of Duer street and Park place, leading from the crosswalk to the curb over the gutter, has been removed and another put down.

Gaub Will Offered for Probate.

The will of the late Jacob Gaub was offered yesterday for probate in the surrogate's office of Somerset county at Somerville. John Gaub, a son of the deceased, is made executor by the will and Francis J. Blatz is the counsel, representing the estate.

Celebrated Birthday.

Catherine, the three-year-old daughter of Mr. and Mrs. Fred Endress, of West Front street, celebrated her birthday Sunday in a quiet, but pleasant way. She was nicely remembered with gifts.

MANY BROKEN HEARTS AT TRINITY CHURCH

Such a State of Affairs Failed to Mar the Pleasure of Last Evening's Endeavor Social.

"BROKEN HEART" SOCIAL

DIVIDED HEARTS CONTAINED QUOTATIONS THAT HAD TO BE MATCHED.

Other Pleasurable Means of Divertisement Were Arranged by Endeavorers of Trinity Reformed Church for Affair of Last Night.

Although there were many "broken hearts" at Trinity Reformed church last evening, this did not interfere with the good time that the Christian Endeavor Society and its many friends had at the social given under the auspices of the social and reception committee of the society. It was a "broken heart" social and there were many features which combined to give everyone present a pleasant evening.

The first part of the evening was devoted to a guessing contest. Pictures representing twelve well-known American rivers, which were taken from The Ladies' Home Journal, were placed about the room and they afforded all much amusement. Nearly all guessed the correct names, with the assistance of one another. Following this portion of the programme two pleasing soprano solos were given by Miss Ethel Derby, accompanied by Miss Ida May Tallamy.

After a slight intermission the "broken heart" feature of the evening was introduced. There were a number of paper hearts cut in two and on each was written quotations corresponding in questions and answers. These were distributed among the young folks, the object being to mend the hearts by finding one's partner holding the part which matched the other half. A sign on the blackboard read "Broken hearts mended, but lost hearts not recovered."

Another feature of the evening were the piano duets rendered on the piano by Dr. J. Hervey Buchanan and Louis M. Hummer. They were obliged to respond to several encores.

The last part of the entertainment was another game entitled "Who Am I?" This consisted of the pinning of slips of paper on the back, the wearer being obliged to guess that which was written on the paper. On these papers were the names of well-known men and women. After successfully guessing the name the paper could then be pinned on the front of the dress of lapel of the coat.

The remainder of the evening was spent in a social way and glaces and cake were served by the committees in charge. Albert Utzinger and Fred Dunavan assisted in serving glaces.

The social committee consisted of Miss Nettie Krietling, chairman; Miss Bessie Martin, Miss Nettie Young, Miss Jessie Hockridge, Miss Kate Bodine, Miss Emma Lindsay and Fred Dunavan. The reception committee was composed of Charles M. Dolliver, chairman; Clarence Rittenhouse, Charles Zimmer, H. B. Dennis, Edgar F. Sheppard and Wm. M. Latourette.

HAVE OWN PLUMBERS.

Action Taken by the Pond Tool Works As a Result of Strike Among Local Plumbers.

As a development of the present strike among the plumbers, one local manfacturing firm has taken steps to protect itself against inconvenience from any such contingency in the future. As a result of the same strike Plainfield plumbers will hereafter be devoid of the work formerly supplied them by the firm referred to.

Last Thursday a plumber from Newark was employed doing some steam fitting in the Pond Tool Works. A delegation of local plumbers waited on the Newark man, and invited him to discontinue on the ground that he should not come from an outside city to ply his trade in a place where a strike is in progress. The stranger threw down his tools, went back to Newark, resigned his position with his employers there, returned immediately to Plainfield and accepted a permanent situation with the Pond people. The man has had experience on machine work of a general kind, and when there is no steam fitting to be done he can utilize his time in another direction.

Previous to this occurence the steam fitting and like work for the Pond Tool Works was done by A. M. Griffen.

ROBERT RUSHTON IS MISSING

HAS NOT BEEN SEEN IN THIS CITY SINCE LAST SATURDAY.

Had a Large Roll of Bills When Last Seen—Various Theories As to His Absence.

Friends of Robert Rushton, of the firm of Rushton & Hansen, are greatly worried over his protracted absence from business. He has not been seen in the city since Saturday and it has been stated by several people that he has gone to Europe, although they are unable to give their authority for the allegation.

Rushton was about the store of the firm on Saturday afternoon and he was seen by several to have a large roll of bills, topped off by a $100 dollar note. The theory of foul play is scouted, however, as he is a man not easily led into any trap.

He has been rather sick of late and it is thought he may have gone out of the city temporarily. His two children are in charge of his sister-in-law, Mrs. Thatcher, of West Front street.

MANUAL TRAINING QUESTION

SUPERVISING PRINCIPAL WIGHTMAN'S REPORT IS SUMMARIZED.

The School Journal's Account of Manual Training in North Plainfield.

The current number of the School Journal, a publication devoted mainly to school work, has taken some interesting excerpts from Supervising Principal Homer J. Wightman's annual report, submitted in March last. Mr. Wightman's report dealt with the progress of the past five years, teaching and teachers, and besides other matters, a most interesting section on manual training. It is in this latter portion of the report that the School Journal is especially interested.

Following is the condensation of Mr. Wightman's report as it appears in the School Journal:

"The old education gave us the three R's and the new gives us the three H's—the education of the head, the hand, and the heart. Manual training cultivates the genius for doing, and doing well, in his belief. It gives tact, adaptability, self-control, and a knack for doing what emergencies demand. It helps towards earning an honest living. Labor is dignified, the body is set to work, eye and hand and brain together. Judgment is cultivated. It develops those who are 'handy' and who have the power to grasp any occupation. An education which is wholly mental leaves out a most important part.

"In our theories as to what a school should be we are shifting over from a basis of How much do you know? to How much can you do? From an education that emphasizes information and bookishness to an education that gives a masterful acquaintance with action, with things.

"Principal Wightman says, in reviewing the progress of the last five years, that during this time an entirely new course of study has been gradually worked out. By the elimination of obsolete matter and the lessening of waste through faulty methods and commonplace teaching, the grading in North Plainfield has been raised at least one year so that the eighth grade now covers the ground formerly reached only by the ninth grade.

"An attractive building for manual training has been erected on the Vine street front of the high school lot. This building contains a kitchen, equipped with twenty-four individual outfits; a wood shop, with eighteen benches, lockers, and complete tool sets for sloyd, joinery, and carving; a laboratory with twelve individual desks for experimental work in chemistry and physics, and a large kindergarten room accommodating seventy pupils.

"The cooking department receives especial commendation from Mr. Wightman, as it is doing excellent work. The girls constituting the class are intelligent and enthusiastic. The work being done is fully appreciated in North Plainfield."

New House Planned.

Estimates are being taken for the erection of a two story frame building, 52x97 feet, to be erected by F. DeL. Hyde on Norwood avenue. The house will be built in the simple colonial style of architecture, having a portico with a colonnade of four columns in front. Walker & Morris, of New York, are the architects.

VETERANS MADE PLANS FOR MEMORIAL DAY

Winfield Scott Post Completed Arrangements At Its Meeting Last Evening.

THE PARADE PLANNED.

DETAILS WERE APPOINTED TO VISIT THE PUBLIC SCHOOLS.

Details to Decorate Graves Will Soon be Announced—Flag Purchased to Wave Over Soldiers' Plot at Hillside Cemetery.

Winfield Scott Post, No. 73, G. A. R., met last evening and furthered plans for the observance of Memorial Day and the day previous when the various public schools will be visited by veterans

Those appointed to visit the schools include W. C. Smith, William Hand, H. C. Smith, W. W. Corriell, L. V. F. Randolph, W. D. W. Miller, Mason W. Tyler, M. C. Dobbins, J. N. Bogart, Charles F. Stephens, S. D. Reese, S. W. Milliken and I. L. McVoy The exercises at the schools will be held at 9 o'clock in the morning of May 29.

The officer-of-the-day will in a few days appoint details to visit the cemeteries and decorate the soldier's graves J. Worth Coddington was appointed marshal of the day for May 30 and Commander J. F. Berg will issue his annual orders within a few days. The Post accepted an invitation from Rev. Cornelius Schenck, D. D., to attend divine services at Trinity Reformed church the Sunday evening before Memorial Day, when Dr. Schenck will preach an appropriate sermon.

The Sons of Veterans, Company K and the High School cadets are requested to join the short parade to be held on the morning of May 30. It was reported that an American flag, 12x20 had been purchased for the soldier's plot at Hillside cemetery. This flag will be displayed on Memorial Day and whenever a soldier is buried. It was decided to have a short parade this year and hold the principal exercises at some nearby cemetery, probably the one in North Plainfield.

VOTE ON CONSOLIDATION.

Paughcaughnaughsingue Tribe Will be First to Act on It.

Paughcaughnaughsinque Tribe, Improved Order Red Men, has issued notices to the members for a meeting to be held next Wednesday evening, when the vote on consolidating with the other two tribes will be taken. Miantonomo and Wetumpkah Tribes will take similar action very soon. There now seems to be no doubt but what all three tribes will consolidate and thus make a stronger organization.

FLOWERS STOLEN.

Residents on Mountain and Summit Avenues Have Been Suffering.

Residents on Mountain and Summit avenues in the borough are justly incensed over the depredations of flower thieves committed during the past week. Beds and plants arranged with great care have been ruthlessly destroyed for the sake of a few blossoms while the damage is irreparable. Complaint has been made to the borough police and it is purposed to keep a watch on the infested section.

Son Made Surrogate.

(Special to The Daily Press.)

Trenton, May 14—Governor Murphy yesterday announced the appointment of Deputy Surrogate Spencer, of Somerset county, to succeed his father, the late Henry N. Spencer, as surrogate.

Little Brick Addition.

Building Inspector T. O. Doane has granted a permit to the Hibbard-Rodman-Ely Safe Company for the erection of a small brick addition, one story, on the centre of the lot at the corner of Clinton avenue and South Second street.

To Arrange for Anniversary.

REUNION AND MASS-MEETING

TO BE HELD BY THE COLORED PEOPLE OF THIS CITY IN REFORM HALL.

All Colored Churches and Organizations Will Unite—Will Have Representative Men to Speak.

The colored people of the city are making preparations for a reunion and mass meeting to be held in Reform Hall, next Tuesday. All the colored churches and organizations are to assist and will have large delegations present.

Representative men of the race will speak and there will be interesting addresses. Professor G. W. Hays, of Lynchburg, Va., will speak on "The Kind of Education for the Negro." G. L. P. Talliaferro, of Philadelphia, well known to Plainfielders, has promised to be present and deliver his famous address, "The Negro in Business." Mr. Talliaferro is himself a successful banker and business man. A chorus of forty voices will furnish music and Professor G. A. Morris, baritone, and "Black Hattie" soprano will contest for a gold medal.

Rev. E. E. Jackson, who is to have entire charge of the affair, states that a portion of the receipts will be donated to Muhlenberg hospital in return for the generous treatment accorded colored patients.

EXPRESS RATES ARE RAISED

CHANGES MADE TO SECURE UNIFORMITY FOR SUBURBAN BUSINESS.

Plainfield Gets an Increase—Comparison of the Old Rates and the New.

The officials of the United States Express Company have decided to readjust the rates on the suburban lines, thereby increasing them to some extent. In this adjustment Plainfield is affected and from May 1 and thereafter the new rates will be in effect. The old rate was packages from 1 to 30 pounds, 25 cents; 30 to 50 pounds, 30 cents; 50 to 70 pounds, 35 cents; 70 to 100 pounds, 40 cents. The new rate is as follows: 1 to 5 pounds, 25 cents; 5 to 20 pounds, 30 cents; 20 to 30 pounds, 35 cents; 30 to 45 pounds, 40 cents; 45 to 55 pounds, 45 cents; 55 to 100 pounds, 50 cents.

A representative of The Daily Press saw Manager Mills of the company this morning and was informed that the company had decided to readjust its rates to compare with Morristown, Rahway and New Brunswick, where the rate to New York is 50 cents a hundred. The new rate does not apply to produce, that rate still being the same.

FUNERAL OF W. W. WOODEN.

Held From the East Front Street Home Yesterday Afternoon.

Many relatives and friends and his comrades in the Exempt Firemen's Association attended the funeral services of William W. Wooden, which were held from his late residence on East Front street, yesterday.

They were in charge of Rev. Charles E. Herring, pastor of the First Presbyterian church, who spoke impressively on his sterling worth and offered words of condolence to the bereaved relatives. During the service, two solos were rendered, "The Hymn of the Homeland" and "Abide With Me."

At the close of the obsequies the remains were taken to the North Plainfield cemetery for interment. Those who acted as pall bearers were D. W. Littell, Guillermo Thorn, William A. Woodruff, Edward Vermeule, Theodore French and E. M. Laing, all members of the Exempt Firemen's Association.

Firemen Were Busy.

The local fire department was kept busy all last week answering alarms. In all nine were received at headquarters in the seven days, five box and four stills. One box alarm has already been received this week, and the firemen are wondering how long the busy spell is going to last.

Epworth League Social.

Arrangements have been made by the Epworth League of the First Methodist church for a social in Vincent chapel, Friday evening. It will be replete with the usual entertaining features.

Law Examinations.

Law examinations will be held at Trenton early in June and it it is expected that several students from this city will try their luck.

Engagement Is Announced.

The engagement has been announced of Miss Mayme E. Donahue, formerly of this city, and Joseph S. Hamilton, of New York.

FLAT THIEF HAD HEARING

Evidence Against Him Was Strong and He Was Held in $500 Bail for Grand Jury.

PLEADED NOT GUILTY.

John B. McGlinchey Was Positively Identified as Man Who Robbed Symons' Flat—Still Declared His Inocence—Conducted His Own Case—Said to be Clever Crook.

In the face of three witnesses whose testimony was unfaltering and straightforward John B. McGlinchey, the captured flat thief, stoutly maintained he was innocent of the charges preferred against him when he was given a hearing before Justice Nash, this morning. He conducted his defense unaided and attempted to disconcert those who appeared against him by asking questions with the tact of a lawyer. His game of "bluff" failed to impress the court and he was held in $500 bail to await the action of the Grand Jury.

Mrs. and Mrs. William Symons, of North avenue, from whose flat, McGlinchey is alleged to have taken several watches, rings, coins and a revolver on May 9, were the principal witnesses for the prosecution. Mr. Symons identified the articles as being those taken from his home and his wife related her unexpected meeting with McGlinchey in her front room and the manner in which he gained the stairway and access to the street. She positively indentified McGlinchey as the man.

Patrolman George Lunger testified to his arresting McGlinchey from Mrs. Symons' description and also to finding the Symons jewelry and other trinkets on McGlinchey's person when that officer searched him at police headquarters.

McGlinchey cross examined each of the witnesses in a manner which showed he had definitely mapped out his course and also that he has had some experience in the methods employed by criminal lawyers. In his own defense he cooly stated that he did not take the jewelry but he failed to explain how they came to be on his person. A mental affliction troubles him, he said, and his mission in this city was to secure signatures to a petition, for what he did not say. He did not deny being in the Symons flat.

In closing he bemoaned the fact that he was unfortunate in not having any of his friends in this city who could attest to his excellent character as he was positive they could clear him. They bail was fixed at his own request although he declared he couldn't furnish it.

Chief Kiely states that McGlinchey is an old "second-story man" and is acquainted with every branch of the craft. He landed in this city at 12 o'clock noon, the cief says, and before he was arrested at 3 o'clock had visited ten flats at nearly all of which he got away with small articles. It is thought some of them were shipped away in a basket which he expressed to New York shortly before he entered the Symons flat. The chief has asked the express company to hold the basket for his inspection.

THIRTY-FOURTH YEAR.

J. Frank Hubbard Re-elected Director of Union County Board of Chosen Freeholders.

(Special to The Daily Press.)

The Union county Board of Freeholders for last year held its final meeting at Elizabeth yesterday and this morning the new board met for organiaztion at the same place. J. Frank Hubbar was re-elected director of the board for the thirty-fourth consecutive year, and C. Russling Ryno was re-elected clerk. W. R. Codington, of this city, was re-appointed attorney. All of the county papers were re-appointed, including The Daily Press. A strong effort was made to have The Eliazbeth Times made a county paper, but the request was denied.

After the board re-organized, a dinner was given to the members by Clerk Ryno, when there was an exchange of good fellowship and several speeches were made.

LEHIGH'S STANDING.

Register of That University, Just Issued, Gives Some Very Interesting Facts.

The register of Lehigh University, South Bethlehem, Pa., just issued, shows the attendance of 554 students, from twenty-six States and nine foreign countries. There are forty-nine in the teaching staff.

Eleven courses of instruction are offered at the university: The classical course, the Latin-scientific course, the courses in civil engineering, mechanical engineering, metallurgical engineering, mining engineering, electrical engineering, analytical chemistry, geology, physics and electro-metallurgy.

A list of the graduates of the university, 1203 in number during the 36 years of its existence, indicates that this institution is exerting a very marked influence on the industrial development of the United States, and also of foreign countries.

The following scholarships will be open to competition at the annual examinations in June: Two in the classical course of $150 and $100 each. One in the Latin-scientific course of $125. Five in the following courses: Civil engineering, mechanical engineering, electrical engineering, mining and metallurgical engineering, and chemistry of $150 each.

Provision is made for worthy and needy students whereby they may postpone payment of tuition until after graduation.

AT ADAM AGAIN.

Noah W. Pike Gives Reason From Scripture for Belief of Allegory Theory.

To the Editor of The Daily Press:—The incentive for Rev. J. W. Richardson's subject of discourse on Sunday last, evidently arose out of the several contradictions upon the subject of Adam being the first man, in the theological examination of candidates before the Presbyterian Assembly.

Mr. Richardson indicts the gentleman who asserts the matter at issue as being an allegory. But the Bible gives the wise student the key for its interpretation as we find in the twelfth of Hosea: "I have spoken by the prophets, and I have multiplied visions and used similitudes by their ministry."

Adam was the first of his kind. The same as Christ was of his kind—the one by nature unto death—the other, life eternal. But as to Eden's transgression; Gen. 3: Paul—in the fifth of Romans, refers to it, as a similitude and figure of Him that was to come—Webster defines similitude and figure as describing by resemblance or allegory. So we have Paul and Webster as well as the prophetic key, as evidence in favor of the gentlemen whom Mr. Richardson indicts for monumental contradictions.

FAMOUS SOLO.

Will be Rendered by P. L. Conde on a Valuable Instrument at His Concert.

P. Ludwig Conde will render a very difficult and beautiful violin solo at his concert tomorrow evening in Y. M. C. A. hall. The composition is by H. W. Ernst, one of the great old masters, who was a great admirer of Paganini, the Italian violin wizard. Ernst followed him for years on his concert tours to get his style.

The solo is a great favorite of Jean Kubelick, the Bohemian violinist, who won many laurels with it during his first and late tour through the United States. Mr. Conde will use for this solo a $2,000 violin from John Friedrich & Bro., the famous violin experts, Cooper Institute, New York.

At this concert W. Paulding DeNike will be the 'cello soloist. Miss Charlotte Cave and Miss Virginia Ketcham, of Westfield, two skillful pupils of Mr. Conde will render a violin duet.

BRINGS SUMMER BOARDERS.

A Large Metropolitan Newspaper Which is Helping the Summer Resorts.

The Brooklyn Eagle several years ago established a Bureau of Information in Brooklyn, where the public could, free of charge, secure details of hotels and boarding houses for the summer. The idea at once became popular, and branch bureaus were opened in Manhattan and other cities. Country hotels and boarding houses by sending to this Bureau can secure a listing blank, fill it out and return it and then be represented free of cost, and send their circulars and cards for free disribution.

The Brooklyn Eagle has also been considered for years the best medium for summer boarders in New York City.

The Rocky Point Inn, in the Adirondacks, said: "We are giving the Eagle a larger share of advertising than most other papers, as experience has demonstrated its value to us in past seasons."

Chauncey B. Newkirk, of Wurtsboro, Sullivan, county, said: "Last season one small ad brought me five guests."

La Rue Bros., proprietors of the American Hotel of Sharon Springs, N. Y., wrote: "Our house is full and mostly by Brooklyn people. Daily we recieve applications for rooms, and all on account of our standing ad. in the Eagle."

MORE ABOUT CICADAS EXPECTED HERE SOON

State Entomologist J. B. Smith Gives Some Information Regarding These Insects.

NO FIGHT AGAINT THEM.

SOME STRANGE THINGS ABOUT THESE "SEVENTEEN YEAR" LOCUSTS.

Expects That They Will Appear in This Neighborhood About Memorial Day—Description of Them—Sparrows Enemies.

Professor John B. Smith, of Rutgers College, New Jersey State entomologist, whose crusade against mosquitoes has made him prominent for some time, has another insect brood under his attention just now. In the forest and orchard lands of New York, New Jersey, Pennsylvania and many other states, the periodical cicada, or "seventeen-year locusts," are slowing maturing, and about the 1st of June will leave their earthy beds for an upward flight.

This insect, of which Professor Smith has a number of fine specimens, is one of the most curious creatures in existence. It is from an inch to an inch and a half long, the body being dark, while the wings are glassy, with delicately defined veins. The eyes are orange color. With the exception of butterflies, there are scarcely any insects known that are more beautiful.

The brood due this year last appeared in 1885 and attacked young trees. The tender shoots were split by the cicadas, and in the cavities eggs were deposited. The trees attacked were killed, and the falling branches left the eggs in the ground. There for seventeen years the insects have been developing.

By June 1 the brood in New Jersey will leave the earth, and its brethren in New York a little later. Millions upon millions of the insect will proceed to attack the trees to deposit their eggs. For a month the ravages will continue, then the cicada will disappear almost as suddenly as it arrived. The creatures do not live long after depositing the eggs.

Their short month of life after seventeen years of inactivity in the sod is devoted entirely to the perpetuation of the species. The last big invasion of the cicada was in 1894. This, of course, was a different brood from the one due this year, and its successors will arrive in 1911. These two broods are the largest known in New Jersey. There are two others, but so small as to be hardly noticeable.

"The present brood," said Professor Smith when asked if he could give any information about the cicada, "will extend throughout New Jersey, the southern part of New York, the northern part of Pennsylvania and westward about to the Mississippi, and more or less south.

"In New York State the insects will be most plentiful along the Hudson river and in New Jersey along the Delaware. Warnings have been issued to fruit raisers in New Jersey not to set out any young trees this spring because of the coming of the insects.

"No steps will be taken to destroy the brood. In the first place it would be impossible to successfully combat them, and in the second place the evil is greatly counteracted by the English sparrows, which attack and destroy the cicada in large numbers.

"The sparrows do not devour the insects, but simply kill and tear them to pieces.

"Why the sparrows do this I do not know, but there seems to be some strong natural antipathy between the two.

"There are twenty-one known broods of cicada in this country. The colonies in the north appear at intervals of seventeen years, while those in the south develop every thirteen years.

"I do not know just why the present brood will appear in greatest abundance in New Jersey, since I was not in the State in 1885 when it came before. I look for the cicada to appear about Memorial Day."

The male cicada is a singer, and his clicking note in the woods is a sound that once heard in not soon forgotten.

The female cicada is a stinger, while the male is not, so that people desiring to examine the cicada closely should be careful to handle the ones that sing.

On the left wings of all the insects that appeared in 1894 was the letter "W" clearly defined by veins in the filmy structure.

Throughout the country the superstitious declared that this was an indication that there would be a war before the cicadas again appeared, a prophecy that has been curiously fulfilled.

FAMINE THREATENED

Provisions Needed For 100,000 Persons at Once.

THE POTOMAC REACHES MARTINIQUE

Situation at St. Pierre Indescribable—Many Strange Incidents Recorded of Terrible Visitation. St. Vincent's Death List.

FORT DE FRANCE, Martinique, May 14.—The United States government tug Potomac, which came to Martinique from San Juan, Porto Rico, cruised along the coast of this island during the afternoon. She encountered an inky black column of smoke, which made it necessary for her to go five miles out of her course.

Words fail to describe the present situation at St. Pierre. A small detachment of French troops is making efforts to inter the dead, although the government seems to be strikingly unconcerned as to what is done in this direction.

The looting of the dead has already begun. While coming to Fort de France the Potomac picked up a boat containing five colored and one white man, whose pockets were filled with coin and jewelry, the latter evidently stripped from the fingers of the dead. Lieutenant B. B. McCormick, the commander of the Potomac, arrested these men and turned them over to the commander of the French cruiser Suchet for punishment.

The Potomac also brought a ton of supplies to Martinique, consisting in part of codfish and flour.

A famine here is imminent. The northern section of the island is depopulated.

Business here is suspended. The people of the city have assembled in the churches, and the cathedral, where special services are being held for the St. Pierre dead, has been thronged since daylight.

The United States government tug Potomac will sail for St. Vincent, where conditions are reported to be worse. La Soufriere, on St. Vincent, was in full eruption May 10. A stream of stone and mud half a mile wide was then issuing from the volcano. Stones two inches in diameter fell twelve miles away. At Kingstown, the capital of the island, the ashes were two inches deep. Seven hundred dead were reported Sunday, May 11. It is estimated that the total number of deaths on St. Vincent reaches 2,000. Most of the victims are said to be Carib Indians. Seven estates on the island have been burned to ashes, and it is authentically reported that two earthquakes occurred there. It is believed the submarine cables in St. Vincent have been broken by the disturbances. The present volcanic eruption on St. Vincent is the first since 1812. The northern section of the island is depopulated.

Provisions are needed here for 100,000 people immediately. A shipload of lime is also needed at St. Pierre for sanitary purposes. The stench there from the dead bodies is overpowering. Mont Pelee is still erupting smoke and fire.

It was reported here yesterday from the British island of Dominica that 300 survivors of the St. Pierre disaster had reached there in canoes.

Many strange and incomprehensible incidents are recounted of St. Pierre. The charred remains of a woman with a silk handkerchief unburned and in perfect condition held to her lips have been found there. The crisped bodies of young girls have been found, but the shoes they wore were unhurt.

Every praise is given United States Consul Ayme. He has worked indefatigably to succor the survivors. He has bandaged the limbs of the wounded and has worked without sleep and without food. He is now thoroughly exhausted. Forty persons rescued from the city are now in the hospital here.

In addition to the specie already secured, jewels to the value of $200,000 were rescued from the bank at St. Pierre Monday.

The Italian consul at Barbados has recovered the body of his daughter, who was visiting in St. Pierre at the time of the disaster.

Margaret Stokes, the nine-year-old daughter of the late Clement Stokes of New York, who, with her mother, a brother, aged four years, and a sister, aged three years, was on the ill fated British steamer Roraima, is in the hospital here. The child is not expected to live.

Admiral Evans at Yokohama.

YOKOHAMA, via Victoria, B. C., May 14.—Rear Admiral Robley Evans, accompanied by Mrs. Evans, their daughter and Miss Taylor, has arrived here on the Pacific and Orient steamship Gaelic from San Francisco. Admiral Evans, who comes to relieve Admiral Frank Wildes as senior commander of the American squadron in Chinese waters, was very cordially welcomed by American residents and his many Japanese friends.

Waterworks For Charleston.

CHARLESTON, S. C., May 14.—The city council has closed a contract for a new system of waterworks subject to ratification by the citizens at an election to be held within thirty days. The cost of the new plant is to be $1,250,000, and the city is to pay a maximum rental of $44,000 a year for thirty years, when it may, under certain conditions, purchase the plant.

Passenger Trains Collide.

GREENWOOD, Neb., May 14.—Passenger trains Nos. 1 and 6, west and east bound, on the Burlington road, collided head on yesterday as the result of a switch failing to work properly. Eight persons were more or less injured, but none fatally.

AGAINST BEEF TRUST

Attorney General of New York Begins Action.

REFEREE NAMED TO TAKE TESTIMONY

Application Made Under the Donnelly Antitrust Law—Proceedings Being Carefully Guarded Until Subpœnas Are Served.

ALBANY, N. Y., May 14.—Attorney General Davies personally made application to Supreme Justice Chester at his chamber late in the afternoon for the appointment of a referee to take the testimony of certain witnesses in the matter of the so called beef trust preliminary to framing a complaint.

The application was granted, and ex-Justice Landon of Schenectady was appointed referee, and a hearing will be had before the said referee in this city tomorrow.

Governor Odell has been fully advised of the result of the investigation made by the attorney general to date, and the proceedings by the attorney general meet with his entire approval.

Attorney General Davies said that an attache of his office had been dispatched to subpœna the various witnesses upon whose evidence his department intends to prove its case. He declined to make public at present either the names of the firms that he is proceeding against or the men that he intends to call as witnesses.

His application to Judge Chester was made under the provisions of the Donnelly antitrust law, and the department intends to guard all of the particulars of the action until a personal service of the papers in the case has been secured. He stated that eight persons are named in the moving papers and intimated that additional witnesses would be called should it be deemed advisable. The attorney general was accompanied by Judge J. Newton Fiero when he appeared before Justice Chester in his chamber to move the case. The proceedings were secret, and every effort was made to carefully guard against the names of the interested parties leaking out.

The action is entitled, "John C. Davies as attorney general in behalf of the state of New York in the matter of the application to hear and determine."

The action is directed against Arthur Colby, who is believed by the attorney general's department to be the agent of the combine in fixing prices in New York state and vicinity. Swift & Co., Armour & Co. and four other western beef companies.

Bloody Riots In Haiti.

WASHINGTON, May 14.—The secretary of state has received a dispatch from the American minister in Haiti, dated Tuesday, as follows: "The chambers have been closed by a mob. Much firing ensued, and one deputy was mortally wounded. The populace attacked the palace and the arsenal during the night. Several were killed and wounded. The diplomatic corps embarks the president at 12 o'clock today. The minister for foreign affairs and the minister of war have taken refuge at the American legation. Firmin, with his army, is marching on Port au Prince. Great excitement prevails at Port au Prince, and business is suspended for the present."

Alleged Embezzler Arrested.

PHILADELPHIA, May 14.—Harry G. Bell, who until March 29 last was receiving, teller of the Riverside National bank of New York, was arrested here on a fugitive warrant charging him with the larceny of bank funds to the extent of $40,000. The original warrant charged Bell with embezzling $23,000, but a further examination of the books of the institution showed a deficit of $40,000. Bell was captured at one of the entrances to Fairmount park by Detectives McClay and Kelly of New York and Tate of this city. He was arraigned before a magistrate and committed to await requisition papers from New York.

Son of Late Earl Li Dead.

TOKYO, via Victoria, B. C., May 14.—The death is announced at Peking after a long illness of Marquis Li, the oldest son and heir of the late first marquis, Li Hung Chang, at the age of forty. He died of diphtheria and leaves a son aged twenty-one to inherit the title and vast wealth left by the first marquis. Before inheriting the title the last Marquis Li was known as Li Ching She. It is reported that Field Marshal Marquis Saigo is seriously ill.

Ware Succeeds Evans.

WASHINGTON, May 14.—Eugene F. Ware of Kansas has taken the oath of office as commissioner of pensions and this morning assumed active charge of his new duties. Mr. Ware has determined, for the present at least, to make no announcement of the policy of his administration of the office. Mr. Evans will not leave for his post as consul general to London for several weeks.

Queen Wilhelmina Much Better.

THE HAGUE, May 14.—It is announced from Castle Loo that the condition of Queen Wilhelmina continues to improve. It is understood that with the departure of Dr. Roessinghs the bulletins concerning her majesty's health will be discontinued. Messages congratulating her majesty upon her improvement have been received from all the foreign courts.

Asphyxiated In Church.

TROY, N. Y., May 14.—John McAuley, sexton of the Memorial Presbyterian church, was found dead in the church from asphyxiation. He had gone to sleep, accidentally leaving one of the chandelier valves open.

THE SHERIDAN HORROR.

Twenty-three Dead and Many Others Likely to Die From Injuries.

PITTSBURG, May 14.—A careful and systematic search for the dead and injured in the Sheridan horror reveals a list of 23 dead and 202 injured. The complete list of the injured may never be known, as many were able to get away without making known their identity. A conservative estimate made by those thoroughly familiar with the situation places the number more or less seriously hurt at not less than 300.

The death list will likely be added to, as quite a number of the victims at the hospitals are reported by the physicians to be in such serious condition that it will be a miracle if they survive.

The scenes in and around Sheridan are pitiful in the extreme. Practically every house in the village has one or more injured inmates, and in many homes mourning families are gathered about the charred and distorted remains of loved ones who were victims of the terrible calamity.

The damage to property by the explosions and fire were heavy. The loss at the mouth of Cork's Run tunnel alone will probably exceed $100,000. In addition to the heavy loss by the railroad company twenty-five houses were destroyed either by the force of the explosions or by the fire which followed.

HALF A MILLION VOTED.

Senate Follows President's Recommendation For Relief.

WASHINGTON, May 14.—An additional appropriation of $300,000 was made by the senate for the stricken people of the French West Indies, in accordance with the recommendation of the president that $500,000 be appropriated. The agricultural appropriation bill was passed, and then Mr. Stewart (Nev.) in supporting the Philippine bill warned the minority that no political gain would accrue to them from their attack on the army.

The American people, he said, always had supported the army and always would. He declared that for us now to take down the American flag from the Philippines would be a national disgrace.

While discussing the proposed coinage of the silver dollar for the Philippines Mr. Stewart declared that the silver question in this country was dead, at least for the present, on account of the large output of gold.

The bill providing for the construction of a union railway station in Washington was under discussion.

The naval appropriation bill, which provides for two new battleships, two armored cruisers and two gunboats and carries a total of $77,650,000, was taken up in the house.

Preparing For the Shah.

BERLIN, May 14.—A special exhibition of arms, automobiles and electric machinery is now being prepared for the edification of the shah of Persia, who is expected to arrive at Potsdam May 29. The exhibition adjoins the Persian embassy here. German industry is making unusual efforts to impress the shah. He will spend one day visiting the works of an electrical company in Berlin, another in seeing the vast iron and steel works of Herr Krupp at Essen and a third in witnessing the operation of wireless telegraphy. The Persian potentate will also be present at the annual spring parades of the garrisons at Potsdam and Berlin.

Turks After an Egyptian Isle.

LONDON, May 14.—According to the Cairo correspondent of The Daily Mail, Turkey has sent troops to occupy the island of Thasos, in European Turkey, which belongs to the khedive of Egypt. It was reported May 5 from Athens that the inhabitants of the island of Thasos had rebelled against the collection of vexatious taxes. The governor of the island was reported to have ordered the gendarmes to fire on the demonstrators, with the result that a great number of men, women and children were killed. The island of Thasos is in the Ægean sea. It is administered by an Egyptian governor.

More Russian Riots.

ST. PETERSBURG, May 14.—Serious Russian Easter riots have occurred in the province of Kuban, north Caucasia, between Russians and Armenians. The latter were outnumbered and routed. The Russians then stoned the houses of the Armenians and pillaged their shops. The Armenians would undoubtedly have been massacred but for the timely arrival of troops. Many arrests were made.

Palma and Wood to Confer.

HAVANA, May 14.—Governor General Wood and President Elect Palma have arranged to hold daily conferences in the palace here until next Saturday. These meetings will take place at 2 o'clock. Governor General Wood, Senor Palma and Gonzalez de Quesada visited the public buildings of Havana. Salvador Cisneros and the president elect were together for two hours.

Electric Light For Havana.

HAVANA, May 14.—An electric lighting company has been formed here, with a capital of $2,000,000. This company will operate under an old Spanish concession, which has been recognized by the military government. The capital interested is Cuban and English. The company will lay its wires under ground.

WEST INDIAN RELIEF

Government and Citizens Join In the Work.

THE DIXIE LOADING IN SUPPLIES.

President Names Committees to Receive Funds to Alleviate Distress of the Survivors of the Volcanic Upheaval.

WASHINGTON, May 14.—From this point on the war and navy departments have decided to divide the work of West Indian relief between them so as to give the navy full charge of the general subject of transportation and intrust the war department with the accumulation of the supplies.

Of the little fleet of naval colliers which was placed at the disposal of the relief workers by Admiral Bradford, the Leonidas, which is now discharging her cargo of coal at Port Royal, has been selected as the most suitable one to dispatch to Martinique, and orders have gone forward to load her with supplies and get her under way as soon as possible. The question of chartering merchant vessels to carry supplies to the desolate island has now arisen, but will depend upon the extent of the voluntary contributions asked for by the president and upon the further reports of the situation in the island.

Secretary Hay has telegrahped to Consul Ayme to ascertain the conditions on Martinique with regard to the fresh water supply, and if it be found that such water is needed the tenders at Norfolk and at Key West, which already are being loaded by orders from Admiral Bradford in anticipation of need for them, will immediately make for the little island.

A telegram was received from the Dixie saying that she was at pier 15, Brooklyn, loading the supplies of food and clothing which have been so diligently gathered by the army officers in charge of that work. She probably will be able to get under way for Martinique during the day.

Offers of assistance for the Martinique sufferers continue to pour in. Dr. Louis Klopsch, proprietor of The Christian Herald, New York, telegraphed the war department offering to furnish fifty nurses, thirty male and twenty female, and 1,000 barrels of flour for the stricken islands, to be contributed by The Christian Herald.

The president has appointed a committee to receive funds for the relief of the sufferers from the recent catastrophes in Martinique and St. Vincent. The men appointed from each city are asked to collect and receive the funds from their localities and neighborhoods as expeditiously as possible and forward them to Cornelius N. Bliss, treasurer of the New York committee, which committee will act as the central distributing point for the country.

The president directs all the postmasters throughout the country and requests the presidents of all the national banks to act as agents for the collection of contributions and forward the same at once to Mr. Bliss at New York. The postmasters are also directed to report to the postmaster general within ten days any funds collected on this account.

The president appeals to the public to contribute generously for the relief of those upon whom this appalling calamity has fallen and asks that the contributions be sent in as speedily as possible.

President Roosevelt has approved the bill passed by congress appropriating $200,000 for the relief of the citizens of the French West Indies who have suffered from the volcanic disturbances.

Generous Flour Millers.

MINNEAPOLIS, Minn., May 14.—The flour millers here have wired their New York representatives to ship as large consignments of flour as they think proper to the Martinique sufferers.

Locomotive Engineers at Norfolk.

NORFOLK, Va., May 14.—All the many hundred delegates to the fifth biennial convention of the Brotherhood of Locomotive Engineers are quietly awaiting the opening session, which begins at 2 o'clock this afternoon in the Granby theater. The lady delegates to the convention of the G. I. A., an auxiliary of the brotherhood, are here several hundred strong. Governor A. J. Montague will deliver the address of welcome to the convention on behalf of the state. State Treasurer Lacy of North Carolina will address the gathering.

Railroad Men Thrown Out.

SUSQUEHANNA, Pa., May 14.—As a result of the strike among the coal miners the Erie Railroad company is curtailing its working forces along the entire system. The locomotive and car repair shops at Dunmore, Pa., and Elmira, N. Y., were closed on Saturday night, and yesterday one-half of the working force in all the shops on the system were suspended until further notice. About 450 men are affected in Susquehanna. Yard forces will also be materially decreased along the line.

Admiral Coghlan May Choose.

WASHINGTON, May 14.—Rear Admiral J. B. Coghlan has been detached from duty as captain of the yard at New York and ordered to Washington for special duty. Admiral Coghlan has his choice of the League Island navy yard or second in command of the north Atlantic squadron, but he has not yet indicated his selection.

Escaped Prisoner Captured.

PLATTSBURG, N. Y., May 14.—James Concannon of New York city, who broke from Clinton prison, at Dannemora, has been captured in John Harney's barn, about seven miles from the prison.

STREET SPRINKLING.

Tomorrow will be the day set by the Common Council in its agreement with the local trolley company when the company shall begin the sprinkling of the city streets where the car tracks go. Everybody now concedes that it was a great mistake putting the date so late in the spring but it's there now and it looks as if the city would have to make the best of it for the present. It should see, however, that the trolley company is held strictly to its contract in this respect.

For over a month, the passage of a trolley car along the city streets at any speed at all has been the signal for a huge cloud of dust which has swept over everything in the vicinity. One might wonder why the company did not take pity on the neighbors and order out its water car. Somehow, the company does not seem to be working for its health and mistakes made by past Common Councils are not rectified until under compulsion.

When one notices, however, the condition of the roadway close to the trolley tracks in places, there cannot be suppressed a slight wonderment as to why the company does not put the thoroughfare back in as good shape as it was found, according to the terms of the ordinance on that subject. If the city is willing to overlook a few irregularities until the company gets a chance to put them in proper condition, why should not the company give Plainfield a little more than is actually nominated in the bond.

While the mosquito has roamed at will over the Communipaw meadows there is a fair prospect that his rule there is nearing its end. One of the most effectual methods of driving out the State bird is that now in progress by the Jersey Central Railroad. The meadows are being filled up and converted into a huge railroad yard and shipping station. There is a day coming sometime when hundreds of acres of the Newark and Hackensack meadows will be reclaimed in the same fashion and the mosquito will be compelled to take a back seat.

Baseball is generally played to please the public but the public is expected to do its share in contributing to the support of the teams which play. While the local nines, that is the four in the city league and the school teams, are all strictly amateur organizations, it costs money to meet the running expenses of the teams. If the people will only appreciate that fact and assist in a very small way each week, there will be no trouble about the financial success of baseball in Plainfield.

The express company is "adjusting" its rates in somewhat the same fashion as did the water company a year ago. The increase, in this case, will probably fall the heaviest on the local merchants who are least prepared to bear it. As with the water company, it looks as if there would be no use in objecting. While the water meters offer a means of relieving the high rates for water, meters and express companies cannot be made to work together.

The annexationists of North Plainfield have perfected their plans for a mass meeting. It is to be held Thursday evening of next week. On that occasion, four of their cleverest speakers will refute the arguments of the "antis." Every man, who heard the speeches made at the "anti" mass meeting, should be present at the one now planned so that he may have ample opportunity to compare the arguments for and against.

There has been no end of newspaper talk about this new trolley line which is conducting operations on such a large scale through the central and eastern sections of this State.

TEA TABLE TALK.

Short Sketches That Are Not Always News, But Just as Interesting.

The Venezuelan Herald, a prominent and influential paper published at Caracas, published the following interesting item April 30 under the head of diplomatic news: "The Misses Marion and Ethel Bowen, the charming nieces of the Hon. Herbert W. Bowen, United States Minister, left Caracas on the 21st instant for New York. A large number of friends went to the station to bid them goodbye. Mrs. Zoila de Castro, wife of President Castro, who never allows an occasion to slip by for showing her amiability, sent the Misses Bowen two magnificent bouquets exhibiting the colors of the United States and of Venezuela, with her best wishes on their departure. Harry Almond, the affable manager of the LaGuaira Railroad, placed its private car at their disposal and many friends accompanied them to LaGuaira."

W. C. T. U. TEA.

Will be Held This Afternoon at Residence of Mrs. Stephen Cahoone.

The work of the W. C. T. U. is steadily advancing, although greatly inconvenienced by the late fire in the Babcock building. The work is largely carried on by committees, one of which having finished the work of securing thirty-three new members, will give a social tea this afternoon at the residence of Mrs. Stephen Cahoone, of Watchung avenue. At the social topics pertaining to the cause of total abstinence will be discussed.

Death of Theo. J. Gillies, Jr.

Theodore J. Gillies, Jr., son of the late Theodore J. Gillies, died yesterday after an illness extending over a period of five years. He was thirty-five years old and was quite well known. He leaves two sisters, Mrs. Edward Ryder and Mrs. Nelson Van-Winkle, both of this city. Funeral services over his remains will be held from the home of his mother, Mrs. Mary B. Gillies, of 310 Central avenue, Friday afternoon at 3 o'clock.

THE GREAT HOSIERY SALE

CONTINUED THIS WEEK.

We have a large Hosiery business, but it should be larger. No department in our large establishment receives more careful attention, or is more elaborately stocked. We place Import orders for nearly all our goods, thus saving the jobbers' profit. This enables us to sell a superior article for a given price. Our Spring Importations are now ready and to quickly introduce them we shall offer extraordinary inducements.

At 98c all over lace patterns of fine Silk finished Lisle Thread, with white tipped heel and toe. This stocking is of exquisite beauty and guaranteed to be worth 1.25 pair.

At 89c all over lace of brilliant Lisle Thread, all black, beautifully shaped and superior in finish to silk goods. Real value 1.00 pair.

At 75c lace stripe brilliant Lisle, with white tipped heel and toe, finished with high lustre and daintily fashioned. Many a store would have no difficulty in getting 98c pair for them.

At 50c lace stripe Lisle Thread in 9 dainty fine patterns. This is one of our star numbers and is extremely popular for summer use.

At 50c Gauze Cotton and Gauze Lisle, of unusual beauty and very fine gauze. Color is perfect.

At 50c a full bleached foot black Lisle Stocking of remarkable beauty. High spliced heel and double sole. When visiting our hosiery counter ask to see this particular number.

At 39c pr or 5 pairs for 1.00 black Gauze Lisle and Gauze Cotton of very fine gauze. This stocking retails in many places for 50c pair.

At 39c pr or 3 prs for 1.00 medium weight white sole hose of great durability.

At 25c excellent white foot and white sole hose. Splendid shape, splendid color, splendid goods.

At 25c plain blk Lisle Thread, of medium weight and beautiful finish. This stocking is far superior to the average 25c hose and sells in many places at 35c pair.

At 25c pair our No. 114½. This hose is worth 39c pair or money will be refunded. It is better than any 25c hose sold in New York city and we know it. Extra length, high spliced heel, double sole, etc. Don't fail to ask for it.

At 25c drop stitch Lisle Thread, with pattern running to toe. Color excellent, pattern choice. A very desirable stocking.

At 25c pr lace stripe Lisle Thread, of unusually attractive pattern; fine quality and looks like a 50c stocking.

At 2 pairs for 25c a lace pattern cotton hose of very fair quality and excellent color.

At 10c and 15c good quality, well shaped hose; full sizes and fast black color. These are goods bought directly from the mills and are better than goods at these prices generally are.

At 25c our popular No. 1590½ boys' extra ribbed hose. These goods are made for the hardest kind of wear, yet they are well fashioned, finely finished and absolutely fast black color.

At 25c our celebrated No. 412 ribbed for either boys or girls. Made by same mill as above but lighter in weight and finely finished.

At 25c misses' extra fine light weight lisle thread ribbed hose. This stocking is silk finished and would deceive even a careful observer at first sight into believing it silk.

At 25c the newest lace stripe lisle thread for misses, sizes from 5½ to 8½. This stocking we have waited a year for, the demand for it being so great. It is one of exceptional beauty and cannot be equalled.

FOR STOUT LADIES—Outsizes in plain black and with white soles, at 25c. In drop stitch, plain blk 39c, or 3 for $1. In split sole plain cotton, 39c or 3 for $1. In drop stitch black lisle thread at 50c.

At 10c and 15c pair—Childs' fast black ribbed Hose, with double knee, high spliced heel and double sole. These goods are from a Southern mill, where the cotton grows and labor is cheap. They are much better than you have been buying for these prices.

NEW MARKET.

Under a law, recently passed, the township is now divided into three districts called electric light districts. The purpose of these districts is to secure electric lights. The districts in Piscataway are East Bound Brook, New Market and South Plainfield, and all three have applied to the Township Committee, by petition, for the lighting privileges. For a petition to have any effect a majority of the names of the voters in the designated districts must be secured, and then the petition is presented to the Township Committee who call a special meeting in the district that applies and the matter is then voted upon. It is said that in East Bound Brook the name of every voter was secured.

A very successful strawberry and ice cream festival was held in Friendship Hall, last evening, by the members of the baseball team. A considerable sum was realized as the result of the sale.

Moderate prices for all frame work prevail at the store of the Plainfield Art Company, in the Y. M. C. A. building. Grasp the opportunity and have those pictures place in condition to hang up.

In giving a reception, tea or if it is a wedding you want the best decorations to make it a success. Mrs. L. J. Denton, of West Front street, does this work in a most satisfactory and reasonable manner.

Plainfield is considered to be a music-loving city and this fact being established it is indeed fortunate that the people are able to secure the best make of pianos without going to New York. G. H. Kenyon, of West Front street, carries several of the most renowned makes.

The Great A. and P. Tea Company's local store is having a special sale of canned corn, Schumaker's Farina and George's codfish bricks, all this week. All these goods are guaranteed to be fresh and of the best quality. A saving of from twenty-five to fifty per cent. is made by dealing with this store.

TWO WERE HONORED.

Plainfielders Were Given Important Offices in Grand Commandery of Knights Templar of New Jersey.

(Special to The Daily Press.)

Trenton, May 14—At the forty-fourth annual conclave of the Knights Templar yesterday afternoon the following officers of the Grand Commandery of New Jersey for the ensuing year were elected:

Daniel Demarest, Newark, grand commander; Daniel C. Adams, Plainfield, deputy grand commander; John J. Henry, Newark, grand generalissimo; Jacob Kirkner, Plainfield, grand captain-general; William Carman, Metuchen, grand senior warden; George C. Maddock, Trenton, grand junior warden; Frederick G. Wiese, Bordentown, grand prelate; Charles Bechtel, Trenton, grand treasurer; Herman H. Mithoefer, Camden, grand recorder; John B. Bertholf, Jersey City, grand standard bearer; Charles A. Mohn, Hoboken, grand sword bearer; Alfred T. Osmund, Trenton, grand warden.

The fourteenth annual meeting of the Past Commanders' Association, Knights Templar, was held Monday evening in the asylum of Palestine Commandery, in Masonic Temple. The business session was followed by the annual banquet given in the handsome dining-room of Hotel Windsor.

Hospital Nearly Filled.

There are now twenty-five patients at Muhlenberg Hospital, about the limit for accommodation. All are doing very well with fair chances for recovery.

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. W. Randolph.

The Misses Douglas, of Harlem, N. Y., are spennding several weeks at the home of Mrs. W. F. Hamilton, of Verdon street. They will afterward go to Washington, D. C., for an extended stay.

TOLD OF INDIA.

Miss Forman, a Missionary, Spoke at Meeting at the Crescent Avenue Church Yesterday Afternoon.

A interesting meeting was held yesterday afternoon in the chapel of the Crescent Avenue church under the auspices of the Woman's Foreign Missionary Society, of the church. Miss Forman, who has been a missionary in India for twelve years, was present and gave a talk about the mission work being done among the women of India, especially among the widows, of which there are so many. Miss Forman said that the work presented many hopeful signs and was encouraging.

After the meeting tea was served by Miss Anna Miller, the Misses Caboone, Miss Bowen and Miss Helen Martin, who were attired in the native dress of the women of India. Mrs. James W. Graff and Mrs. Daniel Ginna poured tea.

May Meet on Mountain.

The June meeting of the Plainfield Ministers' Association is usually held at the cottage of Mr. and Mrs. F. O. Herring on Johnston's Drive and it is quite likely that the next meeting will be held at that place.

Birthday Party.

A birthday party in honor of Mrs. Henry Rummel, of Park place, will be given by the ladies' society of the Saengerbund in Saengerbund Hall tomorrow afternoon.

PLAYED EUCHRE.

That Was Chief Attraction at the Bazaar of St. Joseph's Parish Last Evening.

The bazaar in aid of the Sisters' Academy of St. Joseph's church, last evening, the time was given over to euchre. A large number were present and a very enjoyable evening was spent.

Some ornamental as well as useful articles were carried away by the winners. The list is as follows: First men's prize, a brass inkstand, H. Berkhan; first woman's prize, a hand kerchief sachet box, Mrs. Robert M. Clark; second men's prize, fancy shaving case, Thomas Hughes; second women's prize, embroidered flannel skirt, Mrs. Brought, New York; third men's prize, hand-painted card case, William Bunn; third women's prize, steel coin purse, Mrs. H. Berkhan; consolation men's prize, bisque boy pen-wiper, Joseph A. Blatz; consolation women's prize, bisque girl pen-wiper, Miss Josie Buscher. Also during the evening Mrs. Bunn won an Irish point lace handkerchief.

After the card-playing was over Robt. M. Clark and Thomas Hughes entertained the audience with a number of vocal selections. This evening there will be vocal and instrumental music and Friday evening another euchre.

INFANT SUCCUMBED.

Youngest Victim of Small-Pox at Isolation Hospital Died Last Night.

Anna, the one-year-old daughter of Mr. and Mrs. John Crowley, died last evening at the isolation hospital, where she, with other members of the family, had been ill with small-pox. The infant had a very severe attack of the disease, although there seemed to be fair chances for recovery. Mrs. Crowley, who is at the hospital, also ill, is heart-broken over the death of her child. The little one was buried last night. The other patients at the hospital, although very sick, are doing well.

To Describe His Travels.

Whitfield Ray, for many years a missionary in darkest South America and an explorer of its hitherto unknown regions, will give an account of his travels at the Gospel Hall, Liberty street, Thursday evening at 8 o'clock. All welcome; no collection.

Funeral of C. C. Lister.

Funeral services over the remains of Charles C. Lister, who died yesterday morning, will be held from the First M. E. church, tomorrow afternoon at 3 o'clock. Interment will be made at Milestown, Pa.

—Neuman Brothers import their own olive oil. They guarantee it to be absolutely pure and of the best quality.

From Hot to Cold.

Dysentery is prevalent everywhere in summer and is due to miasmatic poisons, and begins abruptly with inflammation of the mucous lining of the large bowel. In America the disease is common, but properly treated does not result as seriously as in the tropics. Perry Davis' Painkiller is the best known remedy and the most efficacious in the treatment of dysentery.

A STRIKE LIKELY.

Miners' Convention at Scranton Appears to Have Majority For Fight.

HAZLETON, Pa., May 14.—The miners' convention met at 10 a. m. and is conducting its business behind closed doors. President Mitchell was elected chairman and made an address, in which he gave in detail all that has transpired between himself and the coal presidents since the Shamokin convention.

The situation regarding the continuation of the present total suspension of work in the anthracite coalfields of Pennsylvania is a trifle clouded. The apparent overwhelming sentiment for a strike which was in evidence Monday is not quite so prominent now, and predictions are freely made that whatever the delegates in the convention determine upon the winning side will have only a bare majority. President Mitchell and his fellow officials still maintain their silence, and every attempt that has been made to get their opinion of the situation has proved futile.

The indications are, however, that the delegates favoring a strike are in the majority and will win their fight in the convention. The upper district, it is known, is not a unit on the question of a permanent strike, but it is confidently believed that the prostrike delegates in the middle and lower regions are numerous enough to overcome the considerable antistrike sentiment in the upper region.

BICYCLE RIDER KILLED.

Archie McEachern Meets With a Fatal Accident.

ATLANTIC CITY, N. J., May 14.—Archie McEachern, the well known champion bicycle rider of Toronto, while being paced by a motor tandem at the Coliseum track met with an accident which resulted in his death twenty minutes later.

The accident was the result of the breaking of the chain on the motor cycle. Riding the tandem were Alf Boake and Robert B. Thompson, who have raced with McEachern for ten years past. The effort was to establish a new mile record.

Several miles had been covered when the chain broke, and in the sudden slowing up of the damaged tandem McEachern collided with it and shot in the air like a rocket. His head struck against a projecting board which cut a gash in his neck from which blood spurted in a stream. The jugular vein had been torn open. He expired shortly after his removal to a hospital. Boake and Thompson were uninjured.

German Steamer Lost.

VALPARAISO, Chile, May 14.—The German steamer Sakkarah, Captain Piening, has become a total loss at Huamblin island, off the coast of Chile. The fate of the Sakkarah's crew and passengers is not known. The cargo of the Sakkarah included $1,500,000 in gold specie which was being remitted by the Chilean government. The Sakkarah left here April 24 for Hamburg.

President Loubet Off For Russia.

PARIS, May 14.—President Loubet, who is on his way to visit the czar of Russia, left here for Brest last evening from the Depot St. Lazare. He arrived at Brest this morning, and the French cruiser Montcalm, which is to take the president to Russia, will leave that port at 5 o'clock this afternoon.

RECENT RUMOR DENIED.

President Will Not Appoint Special Commission to Treat with Philippine Friars.

The authoritative statement is made by the Washington Star that there is no foundation for a story from Sioux Falls, S. D., that Rt. Rev. Thomas O'Gorman, Catholic bishop of South Dakota, has received notification of his appointment by the president as a member of a commission to visit Rome and confer with the pope and other officials of the Roman church for the purchase of the lands in the Philippines owned by the friars. On the same authority

BISHOP THOMAS O'GORMAN.
(One of the Most Powerful Prelates of the American Church.)

the statement is made that the selection of such a commission has been proposed to the president and has been under consideration by him. He has not been able to take any action, however, owing to the fact that Judge Taft has been kept exceedingly busy and has had little time to talk over this matter with the president. When they do have time for a talk something definite may be determined upon by the president. The friars hold many thousand acres of the best lands in the Philippines, and this fact is recognized as a notable source of disturbance in the islands. It is generally conceded that such of the lands as are already the property of the monastic orders should be purchased after negotiations, but the necessity and the wisdom of sending a commission to Rome for this purpose are seriously questioned, and vigorously disputed.

Secretary Root is also authority for the statement that no commission or any similar body has been appointed by the president or any of his representatives for the purpose of negotiating with the pope at Rome or with anybody else for the purchase of the friars' land in the Philippines. He says that congress has been asked to provide for the purchase of these lands, and that whatever action is taken will be based entirely upon legislative authority. If congress makes the desired provision the lands will be purchased from the owners by the representatives of the Philippine government. The policy of the administration in this matter is embodied in the bill introduced by Representative Cooper, one section of which provides for the issue of bonds by the Philippine government for the acquirement of the land of the friars in that country. That bill is now pending in congress and nothing will be done in the matter until that body has declared its purpose respecting these lands.

CIGAR LIGHTER TRICK.

The Picture Shows How It Can Be Played Without Arousing Suspicion of Victim.

"If you have a niggardly uncle and you want to play a trick on him," says a German humorist, "just wait until

CIGAR LIGHTER TRICK.
(Picture Shows Just How It Can Be Played Successfully.)

he asks you to give him a light for his pipe or cigar.

"Then get two strips of strong paper, of equal length, and twist each of them separately into a spiral form. Next you must twist the two together, taking care, however, that during the operation they do not lose any of their elasticity, and when this is done you must break off the two ends. When you hand it to your uncle he will think it an ordinary cigar light, but as soon as he lights his pipe, or cigar, he will find out the difference.

The picture shows clearly how this trick is played. If the strips of paper are twisted properly, one of them, as may be seen, will curl upward as soon as the upper end is lit, and the smoker's wrist is very likely to be scorched, if he does not quickly take it out of harm's way.

Require Lots of Help.

A first-class ocean steamer requires the services of about 120 firemen.

FOR STREET WEAR.

Voiles, Eolienne and Etamines Lead the Fashion.

There is no doubt that voile and eolienne, which is a silkier make of voile, are favorite materials for day wear, though the hopsackings and canvases are having great vogue with the tailors, while curious mixed tweeds and cloths are still in the fashion. Etamine, a material a cross between a crepon and a veiling, is very popular made up over shiny taffeta which can be discerned through the meshes. All the canvas and veiling gowns are trimmed with bands of moire or glace taffeta.

Blue in all shades is very stylish this spring, and the blue cheviot coat and skirt are universally becoming as well as smart for traveling. Alpaca will be worn later on, but it will be very much tucked and trimmed with heavy lace. Plain alpaca as a rule does not give a sufficiently rich effect. A fine, silky

ETAMINE SUIT.

alpaca in one of the many shades of red makes a delightfully cool and smart gown for summer outings. Pin spotted and striped alpacas are among the novelties.

The etamine tailor made in the illustration is a good model. The jacket is blouse shaped, and the sleeves flare considerably at the wrist. It is trimmed with bands of moire held down by steel buttons. The skirt has perpendicular strappings and a herringbone effect of the moire strappings around the bottom.

The hat which goes with this is of black chiffon and white lace.

JUDIC CHOLLET.

FOR THE LITTLE ONES.

Attractive Little Dresses and Coat and Skirt Suits.

Children's dresses this summer are to be fluffier than ever. Like those of their elders, they will be made up of veilings and soft crepe de chines made over taffeta linings and embellished with many ruffles. The necks will be cut round, without collars, and with these will be worn light gold chains or single strings of fine artificial pearls. Some of the prettiest dresses are made entirely of fine ruffles and have narrow sashes of black velvet with embroidered ends.

Pongee is particularly useful as well as pretty for a child's dress, and with

CHILD'S COSTUME.

these little gowns ecru lace hats trimmed with scarfs of soft white louisine ribbon are pretty.

Three-quarter length black taffeta coats which allow a peep of the fluffy skirts beneath are chic when they are livened up by large steel buttons and collars of fine lace.

For the older children little jacket and skirt costumes of cheviot are worn with soft white china silk and muslin waists trimmed with insertion.

The child's costume shown is of blue cheviot trimmed with stitched bands of black taffeta.

[Copyright, 1899, by Frederick A. Stokes Company.]

"That is just the point," replied Sturgis; "another witness will be biased by his interests or prejudices, blinded by jealousy, love or hatred, or handicapped by overzealousness, stupidity, lack of memory, or what not. Circumstantial evidence is always impartial, truthful, absolute. When the geologist reads the history of the earth, as it is written in its crust; when a Kepler or a Newton formulates the immutable laws of the universe, as they are recorded in the motions of the heavenly bodies, they draw their conclusions from evidence which is entirely circumstantial."

"Yes; but you forget that science has often been mistaken in its conclusions," interrupted Sprague, "so that it has constantly been necessary to alter theories to fit newly acquired or better understood facts."

"Granted," rejoined Sturgis, "but that is because the interpreters of the evidence are fallible; not because the evidence itself is incomplete. The same cause will always produce the same effect; the same chain of events will invariably terminate in one and the same catastrophe. The apparent deviations from this law are due to unrecognized differences in the producing causes, to additional or missing links in the chain of evidence. Therefore I hold that a criminal, however clever he may be, leaves behind him a complete trace of his every act, from which his crime may be reconstructed with absolute certainty by a competent detective."

"In short, 'Murder will out!'" said a man who had been a silent listener to the conversation up to this point. He spoke with a quiet smile, which barely escaped being a polite sneer.

Sturgis' keen eyes met his interlocutor's as he replied gravely:

"I should hardly care to make so sweeping an affirmation, Dr. Murdock. I have merely stated that the history of every crime is indelibly written in tangible evidence. The writing is on the wall, but of course a blind man cannot see it, nor can an illiterate man understand it. Every event, however trivial, owes its occurrence to a natural cause, and leaves its indelible impress upon nature. The Indian on the trail reads with an experienced eye the story of his enemy's passage, as it has been recorded in trodden turf and broken twigs; while the bloodhound follows, with unerring judgment, a still surer though less tangible trail. The latter's quarry has left behind, at every step, an invisible, imponderable, and yet unmistakable part of itself. Perhaps my meaning can be made clear by an illustration. When a photographer in his dark room takes an exposed plate from his camera, it is apparently a blank; but in reality there is upon this plate the minutely detailed history of an event, which, in proper hands, can be brought before the least competent of observers as irrefutable evidence. Here, the actinic rays of the sunlight are the authors of the evidence; but every natural force, in one way or another, conspires with the detective to run the criminal to earth."

"Unless," suggested Murdock, "the ability happens to be on the side of the quarry; in which case, the conspiracy of nature's forces turns against the hunter."

"Ah!" retorted the reporter, "the game is not an equal one. The dice are loaded. For while on the one hand the detective, if he falls into an error, has a lifetime in which to correct it, any misstep on the part of the criminal is fatal. And who is infallible?"

"Not the detective, at any rate," answered Murdock, with suave irony. "It has always seemed to me that the halo which has been conferred upon him, chiefly through the efforts of imaginative writers of sensational fiction, is entirely undeserved. In the first place, most of the crimes of which we hear are committed either by men of a low order of intelligence or else by madmen, in which latter category I include all criminals acting under the impulse of any of the passions—hatred, love, jealousy, anger. And then, while the detective takes good care that his successes shall be proclaimed from the housetops, he is equally careful to smother all accounts, or to suppress every detail, of his failures, whenever there is any possibility of so doing. You can cite, I know, plenty of cases in which, even after the lapse of years, the crime has been discovered and the criminal has been confronted with his guilt, but—"

"In my opinion," piped the shrill voice of an elderly man of clerical aspect, "conscience is the surest detective, after all."

"Conscience!" retorted Murdock, calmly; "the word is a euphemism. Man gives the name of conscience to his fear of discovery and punishment. There is no such thing as conscience in the criminal who has absolute confidence in his power to escape detection."

"But where is the man who can have that superb confidence in himself?" asked Sprague.

"His name is probably legion," answered Murdock, quickly. "He is the author of every crime whose history remains forever unwritten."

"And are these really so numerous.?"

"Let us see how the case stands in one single class of crime—say, for instance, murder. Whenever the solution of a sensational murder mystery is effected by the detectives, or by their allies, the gentlemen of the press, like our friend Mr. Sturgis, we, the gullible public, vociferously applaud the achievements of these guardians of the public safety, and forthwith proceed to award them a niche in the temple of Fame. So far, so good. But what of the dark mysteries which remain forever unsolved? What of the numerous crimes of which no one ever even knows?"

"Oh! come now, doctor," laughed Sprague, "isn't it rather paradoxical to base your argument on the assumption of crimes of whose very existence you admit you have no knowledge?"

Murdock smiled grimly as he replied:

"Go to the morgue of any large city, where the unrecognized dead are exposed for identification. Aside from the morbid crowd which is drawn to such a place by uncanny curiosity, you will find that each corpse is anxiously scanned by numbers of people, each of whom is seeking a missing friend or relative. At the most each body can furnish the key to only one mystery. Then what of the scores, ay, the hundreds of others?"

After a short pause, he continued:

"No; murder will not out—at least not when the criminal is what I might call a professional, a man of genius in his vocation, educated, intelligent, dispassionate, scientific. Fortunately for the reputation of the detective, amateur and professional, the genius in the criminal line is necessarily of a modest and retiring disposition. He cannot call the public attention to his ingenuity and skill; he cannot puff his achievements in the daily press. Not only are his masterpieces unsigned, but they remain forever unheard of. The detective is known only by his successes; the criminal's reputation is based solely upon his failures."

Dr. Murdock delivered this parting shot with the cool deliberateness which was characteristic of the man. The insolent irony of his words was emphasized by the calmness of his bearing.

"I say, doctor," laughed Sprague, "you have missed your vocation. You should have adopted the profession of scientific criminal yourself. You seem to possess the theory of the science as it is, and a little experience would no doubt have made you an adept in the practice as well."

A look of mild amusement passed over Murdock's countenance.

"Perhaps you are right, Mr. Sprague. At any rate, I think I may affirm, without overweening conceit, that if I had followed the course you suggest, I could have prepared for your friend Mr. Sturgis some pretty little problems on which to sharpen his wits. I feel that I could have been an artist as well as a scientist in that line."

"You might console yourself by writing an interesting and valuable book, under some such title as 'Hints to the Young Criminal,' or 'Crime as a Fine Art.' At all events, your criminals of genius have a stanch advocate in you. But what on earth have the detectives done to you to call forth this wholesale vituperation?"

"Nothing. But, as a disinterested observer, I like to see fair play. If I am mistaken in my estimation of the modern detective, I am open to conviction. I have $5,000 to wager against $100 that I can pick up any daily paper and from its columns select an unsolved riddle, to which no detective on the face of the earth can give the answer. Have I any taker, gentlemen?"

As he spoke, his eyes met Sturgis' and suddenly seemed to flash with an earnest defiance, which instantly melted into the calm, cynical smile of the man of the world.

"Done," said Sturgis, quietly.

"Very well, Mr. Sturgis," observed Dr. Murdock, indifferently. "I shall confine myself to the columns of your own newspaper for the selection of the problem upon which you are to work.

"And," he added, with a supercilious smile, "you are at liberty to fix the limit of time in which the wager must be decided."

"Hear! hear!" exclaimed a young broker. "This is becoming interesting, and promises some sport for those of us who are giddy enough to enjoy staking something on this novel contest. I, for one, am willing to lay reasonable odds on the side of law and order, as represented by the enlightened press, in the person of our clever friend Sturgis. Come, Chadwick, will two to one against the scientific criminal tempt you to champion the cause of that apparently unappreciated individual?"

"Very well, Fred," answered the man addressed; "I'll take you for a hundred."

A few similar bets were laughingly arranged and a copy of the Evening Tempest was sent for.

MURDERER GARROTED.

Officials Think Spanish Mode Revolting—The Cholera Death List.

MANILA, May 14.—A man named Ricafort, convicted of murder, was executed at Lingayen, the capital of the province of Pangasinan, Luzon. Ricafort was the first murderer to be garroted since American authority has been established in the Philippine Islands. The officials who witnessed this execution think the system employed insures a quick and humane death, but that such an execution is revolting to see.

Within the last few days petitions against the removal of American troops have been received from sixteen towns and villages. The reason for these petitions is said to be fear of bandits after the troops have left.

It is believed in some quarters that the petitioners are more probably influenced by a desire to retain the trade of the American soldiers in the places in question than by fear of robber depredations.

There have been 900 cases of cholera, with 769 deaths, in Manila. The provinces report 2,883 cases and 2,092 deaths from the disease.

Chaffee Sends Report.

WASHINGTON, May 14.—General Chaffee has made the following cable report to the war department of the progress of the negotiations with the dattos in Mindanao: "Been here past three days studying situation with Brigadier General George W. Davis. Think two battalions should remain if they can be supplied. Genassi trail very difficult, but another trail promises much better. Think withdrawal from lake would seriously jeopardize safety weaker dattos. Would have given friendly assistance, but believe that if we remain the more powerful dattos will come in when it is apparent our mission is friendly. The lake country is beautiful and more suitable for the occupancy of Americans than any part of archipelago. Elevation, soil, climate perfect, comparing favorably with any valley of the Alleghanies."

SPORTING NEWS

ON THE DIAMOND.

Hope will play a return game with the Dunellen A. C. on the former's grounds. The game will be called at 3:45. Montross will pitch.

The choir boys of the Holy Cross and Grace P. E. churches will cross bats on the North Plainfield cricket field, Saturday morning. The game will be called at 10 o'clock.

The St. Mary's baseball team will play the Rahway Field Club on the former's grounds Saturday. These teams have met twice this season, and so far honors are even. Saturday's game will decide the question of superiority.

The fact that a circus will encamp on the St. Mary ball field, Friday, will not interfere with Saturday's scheduled game. Early Saturday morning workmen will be on the ground and will clear it up and place it in its original shape.

Small boy teams in the West End have taken to playing baseball on Sunday, especially in the morning, with the result that complaints are being made to the police. A noisy game last Sunday greatly annoyed the congregation of Hope Memorial chapel. The police have been instructed to stop the practice.

Harvey Moynihan, who has been catching for the High School team, has joined forces with the Hope nine and will be seen with them shortly. He has always played on the rear end of the battery but will probably be tried on first, which position is now unfilled on the Hopes. He will make a valuable addition for the West End team.

All League managers are notified that their list of fifteen players must be in the hands of Secretary G. E. Firstbrook, tomorrow evening, to insure their being registered. If it becomes necessary to substitute other names during the season, two week's notice must be given, the players to be debarred from games in the meantime. A meeting of the League will be held Saturday evening, at which time all the players will be passed upon.

TENNIS.

Within a few days the work of putting the tennis courts adjoining Grace M. E. church in condition for play will begin. The recent dry weather has made it difficult to roll the ground satisfactorily and yesterday's rain proved very beneficial.

SCRUBS DEFEATED.

Lincoln High School Won by One Run From City High School Scrub Team.

The scrubs from the Plainfield High School and a team from the Lincoln High School, of Westfield, met to decide the question of baseball superiority on Pittis field yesterday afternoon. The Westfielders were victorious by a score of 9 to 8.

As the score indicates the game was very exciting at times and well contested. Denton and Bock were the battery for Plainfield, and although their work was not the strongest, the field showed up well and the whole team batted better than Westfield Denton gave eight bases on balls, nearly all expensive. Ortlet and Clark were the battery for Westfield.

The batting order follows:

Scrubs.	L. H. S.
Bock, c	Dilmore, 2b
Conant, rf	Meyer, lf
Denton, p	Ortlet, p
Miner, ss	Slick, rf
Smith, 3b	Adams, ss
Anderson, 2b	Clark, c

LOVELL DIDN'T APPEAR.

Will Not Appear Before Presbytery Again Until Fall—Mr. Wright to be Ordained.

(Special to The Daily Press.)

Elizabeth, May 14—At a meeting of the Presbytery of Elizabeth, held Monday, the case of Gilbert Lovell, of Plainfield, who was refused a license to preach because he declared his belief that Adam and Eve were mythical characters, did not come up for consideration, owing to the non-arrival of the candidate. It is said he will not appear for examination again before fall.

Harrison K. Wright, also of Plainfield, who was set back with Mr. Lovell, recanted his opinion and was given a license. He will be ordained in the Crescent Avenue church on May 29 and will be sent to the Korean mission field.

SCHOOL EXHIBIT.

First Will Be Held at the Lincoln Building Tomorrow Afternoon.

The first of the exhibits of pupils' work arranged by Superintendent Maxson to take place in the various city schools, will be held in the Lincoln building, tomorrow afternoon from 2 until 6 o'clock, and in the evening from 8 until 10 o'clock. Unusual interest is attached to this exhibit, as it is the first to be held in the Lincoln building, the school having been erected but five years ago. Miss Shattuck, the principal of the Lincoln and Bryant Schools, will be in charge and will receive visitors.

FREEDOM CASTLE ELECTS.

Knights of Gold Eagle Held Election of Officers and Mock Trial.

The Knights of the Golden Eagle, Freedom Castle, met last evening and elected officers as follows: Captain, Dr. J. H. Buchanan; first lieutenant, Dr. C. N. Luckey; second lieutenant, Horace J. Martin. A mock trial was afterwards held, Horace Martin having charged Dr. Luckey with entering his shop and stealing a pair of pincers and a mare's tooth. Justice Buchanan presided.

Next Sunday the commandery will accept an invitation to attend the Y. M. C. A. meeting in a body.

GASOLINE LAMP BURST.

And Antone Siriski's Barber Shop Had Narrow Escape.

(Special to The Daily Press.)

Scotch Plains, May 14—The barber shop of Antone Siriski, on Park avenue, narrowly escaped destruction by fire, last evening. A large gasolene lamp used for illumination, exploded, throwing flame in all directions. Quick assistance was lent by bystanders in getting the remains of the lamp to the street and the fire department was called out to save the building. The flames were extinguished before the interior of the shop was greatly injured.

PREPARING FOR INSPECTION.

The Non-Commissioned Officers Will Have Final Instruction Tonight.

This evening in Saengerbund Hall there will be a school of non-commissioned officers of Company K and an informal drill in manoeuvres to be taken up at the annual inspection and drill on Friday evening. The drill will commence at 8:30 o'clock and the hall will be opened in time to allow the members of the company to clean their guns and prepare for inspection. Lieut.-Col. Bryant, of Atlantic City, will have charge of the inspection Friday evening.

In Mattison's Court.

Two cases are returnable in Justice Mattison's court this afternoon at 2 o'clock. The first was that of Wm. and Peter Scheker, known as the Trenton Abattoir Company, against Edward Mercier and Sylvester B. Scribner, and the second that of the Trenton Abattoir Company against Edward Mercier singly.

Borough Alumni Met.

At the meeting of the North Plainfield High School Alumni Association last evening Walter Hamilton was elected president; Francis E. Bach, vice president; and Miss Carrie Pangborn treasurer. The meeting was adjourned to convene again next Tuesday evening.

Neck-Tie and Apron Social.

Miss Rose Thomas and Miss Martha Seals will give an entertainment at the Calvary Baptist church tomorrow evening, to be known as a necktie and apron social.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. Randolph.

BRIEF LOCAL HAPPENINGS

MENTION OF MINOR EVENTS PAST AND PRESENT.

Items of Interest Gathered Up Within the Boundaries of Greater Plainfield.

—Frank G. Pruchnow and family, of Brooklyn, have taken up their residence in the house formerly occupied by Rev. G. Hauser on Duer street. Mr. Pruchnow is interested in the shoe business in New York.

Receiver Appointed.

In the case of the Standard Butter Company, of New York, and Wilkinson, Gaddis & Company, of Newark, against the Rockfellow Grocery Company, of Park avenue, in which the complainants asked for the appointment of a receiver, the Court of Chancery granted the request last week and it was made absolute, granting an injunction and appointing George M. Macintyre, of Park avenue, receiver. G. W. V. Moy is counsel for the complainants.

Progressive Whist.

Mr. and Mrs. Chauncey F. Stout, of Madison avenue, entertained a dozen friends at a progressive whist party at their home, last evening. After seueral games had been played, dancing was taken up and was continued until a late hour. Several vocal and instrumental selections were also rendered by various members of the party.

Other Lodges Invited.

The members of Somerset Council, Jr. O. U. A. M., extend an invitation to the members of Franklin and Benevolent Councils to join with them tomorrow afternoon in attending the funeral service of their late member, Charles C. Lister. The members will meet at the lodge rooms at 1:30 o'clock.

More Members Received.

The membership list of the I. C. T. Club continues to grow. At a business meeting held last evening, two candidates were admitted and two propositions were received. It is thought before the warm weather sets in the organization will have passed the half hundred mark.

Funeral of Mrs. Stewart.

The funeral services of the late Mrs. Matilda A. Stewart were held this afternoon at 2:30 o'clock at the residence of her daughter, Mrs. Andrew Wilson, of Craig place. Rev. Dr. W. C. Snodgrass officiated. The interment was in the Methodist cemetery.

In Huff's Court.

Judgment was given the plaintiff yesterday in Justice Huff's court in the case of Laggren & Ball against the Rockfellow Grocery Company, for $41.39 and execution was issued. Francis J. Blatz represented the plaintiff.

Tell of His Work.

Trust Company's New Quarters.

The building on East Front street to be used by the Plainfield Trust Company is gradually being put in condition for occupancy. The company expects to begin business about June 1.

Discord Among 'Smiths.

Some of the blacksmiths are complaining that a few members of the craft are not adhering to the agreement made to keep their shops closed on Saturday afternoon.

Inspection of Company K.

The annual inspection of Company K will take place Friday evening. It will be held in Saengerbund Hall and several of the State officers will be present.

May Queen Festival.

Miss Cora Cary is completing arrangements for the May Queen festival to be held at the Calvary Baptist church Thursday evening, May 22.

Elston M. French, of Somerset street, is able to be out again after a short illness.

DEATH OF MRS. THAIN.

She Passed Away Last Night at Muhlenberg Hospital.

The death occurred last evening at Muhlenberg hospital of Mrs. Susanah Thain. She had been ill of pneumonia and died after suffering a relapse.

Two sons and two daughters, besides a brother and three sisters, survive Mrs. Thain. One son, Harry Thain, lives in Orange; the other, Ernest, is in Australia. The daughters are Annie, and Mrs. Christopher Stahl, of Manning avenue.

Mrs. Thain came to this country from London, England, and took up her residence in Plainfield about ten years ago. Her brothers and sisters reside in England. They are Robert Brown, and M. A. Brown, of London; Mrs. Jno. Tricker, Suffolk; Mrs. H. Smith, Wales.

The funeral services will be held at the home of her daughter, Mrs. Christopher Stahl, of Manning avenue, Friday afternoon at 2:30 o'clock. The funeral will be in charge of the Plymouth Brethren.

Temperance Speaker.

The temperance committee of the Christian Endeavor Society of the Crescent Avenue church has arranged to have Miss Elizabeth Goodwin, a well-known member of the Y. W. C. T. U., speak at the meeting of the society Friday evening, June 6.

Attend Divine Service.

Union Lodge, No. 4026, Grand United Order of Odd Fellows, will attend divine service at the Calvary Baptist church, Sunday evening.

THE SPANIARD AT HOME.

Shares His Bread and Wine with Every Stranger and Stabs a Friend Over a Trifle.

The Spaniard at home is not understandable. He loves flowers and carries a pistol. He is passionately fond of the theater, but does not keep quiet that he or his neighbors may hear. He is charmingly courteous and inexcusably cruel. He shares his bread and wine with every stranger and stabs a friend over a trifle. Such are the traits of some. The bullfight is the favorite amusement of this class, and the bullfight, though declining somewhat in popularity, is yet the national diversion. A distinguished member of the present ministry has made a large fortune and is adding to it yearly by breeding fighting bulls.

The proverbial Spanish courtesy has not diminished toward Americans by reason of the recent little war. The American—the North American, as he calls the voyager from the United States, in distinction from his kinsman from South America—is given a most cordial greeting throughout Spain. The English are not liked, but the dislike of the English does not extend to their American cousins. There is, on the contrary, a real admiration, such as one brave man may feel for another, no matter what the result of a combat between them. The Spaniard goes out of his way to do the American visitor a kindness. True, he has not many American visitors; not nearly so many as the other European countries, but he exerts himself to the utmost for those he has.

MILLIONS FOR BEAUTY.

Leakage of American Income Through Citizens Who Spend Their Time and Money Abroad.

The greatest economic pitfall of our western civilization is, in my judgment, waste, and our chief item of waste is the leakage of income to Europe, through citizens who live wholly or partially abroad, says Brooks Adams, in Municipal Affairs. These individuals live abroad because they find their senses gratified in Europe more perfectly than in the United States, because in some respects Europeans are more intelligent than Americans. Bankers estimate that Americans spend upward of $100,000,000 annually in foreign countries—a sum, possibly, not far from the net earnings of the United States Steel company, after deducting the cost of the renewal of the plant. For the most part, this enormous outlay is dead loss. We have nothing to show for it. It has been absorbed by foreign railways, hotels, theaters and dressmakers. Were New York as attractive to our own people as Paris, much of this money would stay at home, and we should also attract strangers hither. In reality, New York somewhat resembles a gigantic railway junction. New York is thronged, but those who visit her are apt to come for business, and not to tarry for pleasure. The same thing is true of most American cities.

Birthday of a Nation.

The new Australian federal government is appointing a Commonwealth day on the lines of the American Independence day. It is now engaged in weighing the claims of July 1, when Queen Victoria assented to the constitution; September 30, the date of the proclamation; January 1, the inauguration of the commonwealth, and May 9, the date of the duke of Cornwall's opening of the first federal parliament. The January date is the one most favored.

MARTIN ACT MADE TROUBLE

But Common Council Finally Arranged for Sale of Portion of Martine Estate to Suit All.

THE SEWER BONDS SOLD.

Meeting Was Called to Dispose of Bonds, Which Was Done, But This Other Matter Threatened for a Time to Furnish Considerable Excitement.

There were ten bids received for the $41,000 4 per cent. sewer improvement bonds at the adjourned meeting of the Common Council last evening and the bid of Parson, Leach & Company, of New York, was accepted. The bid was 107.25 on the hundred with accrued interest from May 1 last. The premium amounts to $43,972.50 and the bid is considered an exceedingly good one. The bonds were sold on about a 3.60 per cent. basis.

Among the other bids was those of Harvey Fisk & Sons, 106.777; Plainfield Dime Savings' Institution, 107.-235; Dick Brothers & Company, New York and Philadelphia, 103; Thompson, Tenney & Crawford, New York, 102.91; J. D. Everitt & Company, New York, par with accrued interest; W. R. Todd & Company, New York, 102.51; Ladenburg, Thalmann & Company, New York, 101.93; George C. White, Jr., New York, 104½; Lawrence, Barnum & Company, New York, 104.04. All of these bids included accrued interest.

After the bids were read by the city clerk, with the assistance of Councilmen Mellick and Tolles, who helped to open them, they were referred to the finance committee. A recess, which lasted nearly two hours, was then taken. During that time the Council decided to award the bonds to Parson, Leach & Company and they will be delivered at the City National Bank, as per resolution offered by Mr. Mellick which awarded the bonds to the successful firm. Mr. Warner represented the firm of Parson, Leach & Company, and he waited to get a certified copy of the resolution and a receipt for the firm's check, which accompanied the bid.

While the members of the Council were taking a recess there was another important matter being considered that proved to be far more difficult to settle. The Martin Act was responsible for this disturbance. It appears that about twenty-five acres of land formerly owned by James E. Martine and his sisters, the Misses Martine, who have an interest in it, were purchased on May 7 by Otto Arens under foreclosure proceedings under the Martin Act, the time for redeeming the property having expired. For this property, worth about $20,000, Mr. Arens paid $1,300. After purchasing the same Mr. Arens demanded a deed for the property.

In the meantime Mr. Martine saw Mayor Jenkins and secured a few days' grace. The matter was then referred to the Corporation Counsel, who stated that the deed had been out and it was up to Collector F. H. Smith to close the transaction. Mr. Smith, not wishing to involve himself in any trouble, held the matter up a few days preferring the wait until the Council meeting so that the matter might be referred to that body. In the interim the Council was communicated with, as was also the other interested parties.

Mr. Arens threatended to resort to mandamus proceedings to compel Mr. Smith to give the deed for the property, but this preceeding was not taken. Both Mr. Martine and Mr. Arens were written to and invited to be present in the Council chamber last evening, when an adjustment would be made of the matter.

As soon as the Council took a recess Mr. Martine retired to the anteroom and was holding a conference at least a half hour, while Mr. Arens was in waiting in the lobby. Presently, while in conversation with Former Mayor Charles J. Fisk, Mr. Arens very decidedly asserted himself and declared that he considered the action of the Council an insult to him in allowing an audience for Mr. Martine and barring him out. He requested Clerk MacMurray to convey to Mr. Coriell, president of the Council, his sentiments that he considered the Council's action an insult and asked to be admitted to the ante-room.

Presently Mr. Mellick appeared and

COUNTY OFFICERS ELECTED

COUNTY ATTORNEY CODINGTON AND PHYSICIAN WESTCOTT RETURNED.

Only One Change in the Board—Twelve Republicans and Six Democrats in Board.

The organization of the new Board of Freeholders of Union county was noted in The Daily Press of yesterday. In addition to the re-election of Director J. Frank Hubbard, of this city, and Clerk S. Rusling Ryno, of Rahway, Former Assemblyman W. R. Codington was re-elected county attorney for two years at the old salary of $300 a year. Mr. Codington has been elected to this position four times.

Dr. F. W. Westcott, of Fanwood, was again made county physician for a term of three years at a salary of $700, an increase of $100. He has been elected to the place five times. Clerk Ryno had his salary raised $100, making it $600 a year. There is but one change among the eighteen members who constituted the board last year. W. W. Connolly, Republican, of Westfield, succeeds M. M. Scudder, Democrat, whom he defeated at the polls last election. The board now stands twelve Republicans and six Democrats, a Republican gain of one. E. K. Adams, R., Cranford; N. W. Bonnel, D., Springfield; Henry Krouse, R., Roselle; Benjamin King, R., Clark; John Robinson, R., Fanwood; John F. Wahl, R., New Providence., and Noah Woodruff, D., Roselle, were re-elected.

DEATH CLAIMS OLD CITIZEN

EDWARD M. THORN PASSED AWAY AFTER A LONG ILLNESS.

Was a Carpenter by Trade—Came Here Forty Years Ago—Leaves a Large Family.

Following a long and tedious illness attended with much suffering, Edward M. Thorn, aged seventy-three years, one of Plainfield's best known and most respected citizens, died at his home on East Second street last evening at 9 o'clock. Death was due to heart trouble and a complication of diseases.

Mr. Thorn was born in Rahway and spent his boyhood days there. Forty years ago he came to Plainfield and learned the carpenter's trade with Jacob Thorn, one of the best known contractors of his day. He worked with him several years, after which he was employed by the late William C. Ayers, of West Second street, where he remained for many years. Mr. Thorn was a devout Christian and was always especially fond of his home life. For thirty years he was a faithful member of the First Baptist church.

Besides a wife, Mr. Thorn leaves a brother, Linton Thorn, of Rahway; a sister, Miss Rachael Thorn, of West Farms, N. Y.; four children, Mrs. William Perrine, of New York; Mrs. Robert Carson and Mrs. William LaRue, of this city, and Mrs. H. C. Thompson, of East Orange. He also leaves nine grandchildren and two great grandchildren.

The funeral services will be held Saturday afternoon from the late home at 2:30 and Rev. Dr. A. H. Lewis will officiate. Interment will be in the North Plainfield cemetery.

SUCCESS CONTINUES.

Bazaar at St. Joseph's Church Still Attracts Many Visitors.

The bazaar, in aid of the Sister's Academy of St. Joseph's church, was continued yesterday afternoon and evening and with the same brilliant success as on the two previous days.

Last evening dancing was enjoyed, and a most agreeable time was spent. Geo. Pierre on the piano, A. B. Naylor on the violin and Jas. Hewitt, clarionet were an orchestra that discoursed delightful music for the occasion. A number of vocal selections were also on the programme, which were heartily appreciated.

This evening, besides the usual features, another short entertainment will be given, and tomorrow is set aside for progressive euchre.

Bishop Expected.

Right Rev. John Scarborough, bishop of the Diocese of New Jersey, will administer the apostolic rite of confirmation in the Church of the Heavenly Rest, Sunday afternoon at 4 o'clock.

A Mock Trial.

Freedom Castle, Knights of the Golden Eagle, is preparing a mock trial to be held in the rooms May 27. Dr. J. Hervey Buchanan is in charge of the arrangements.

TOUR THROUGH JERSEY BY FIELD SECRETARY

Prominent Endeavorer is to Make a Trip Through This State Making Addresses.

ITINERARY PLANNED.

REV. C. B. EBERMAN, OF THE UNITED SOCIETY, COMING IN JUNE.

His Plans as Arranged by the State Executive Committee—He Will Speak at Union County Union Convention at Elizabeth June 2.

An event in which New Jersey Christian Endeavorers are taking much interest is the tour of this State to be made the first week in June by the United Society's field secretary, Rev. Clarence B. Eberman, who will be accompanied by Rev. W. T. S. Lumbar, of Moorestown, president of the State Union.

Mr. Eberman, who was formerly president of the Pennsylvania State Union, was appointed to the newly-made office of field secretary last year, and since then has been visiting the various States addressing rallies of the societies and observing conditions of the organization in different sections of the country. With his wife he is finishing a four months' tour in the Southern States, where he addressed large conventions, notably those in Florida, Mississippi, Texas and Virginia, and will begin his tour in this State Monday, June 2. The State executive committee, represented by President Lumbar, Secretary Ida B. Stephens and Rev. Titus E. Davis, of Bound Brook, has arranged the itinerary of his trip through New Jersey.

Monday, June 2, Mr. Eberman will address an all-day rally in Elizabeth, when the Union county local union will hold its annual convention. Tuesday afternoon and evening he will meet the Hudson county Endeavorers in Jersey City and Hoboken. The Sussex and Warren county societies will greet him on Wednesday, when he will speak at Hackettstown. Thursday will be devoted to a rally of the Mercer county societies, to be held in Trenton. At New Brunswick, Friday, Mr. Eberman will speak to the Middlesex Endeavorers, and on Saturday he is expected to be in Camden. Sunday, the last day of his New Jersey trip, will be spent in Orange and East Orange, where he will address the East Orange societies in the morning in the First Congregational church, and at night will speak in the First Presbyterian church, Orange. The officers of the Orange local Endeavor Union will probably arrange for a rally Sunday afternoon.

MEN'S MEETING.

Popular Speaker and Soloist Who Will be Here Sunday Afternoon.

Rev. Frederick E. Taylor, of Brooklyn, has been secured as the speaker at the Y. M. C. A. meeting Sunday afternoon at 4 o'clock. Mr. Taylor has had a large and successful experience in the conduct of men's meetings, and is a powerful speaker. Harper G. Smythe, a splendid baritone, will be the soloist. Mr. Smythe is the leader of the choir in Dr. J. Wilbur Chapman's church and has been his soloist in various parts of the country. He sang all last winter with Mr. Taylor in Sunday afternoon meetings. Mr. Smythe will not only sing solos, but will also lead the singing.

Some Interesting Cuts.

In the recently issued prospectus of Camp Wawayanda, there are some very interesting cuts illustrative of camp life. Among others is one of "Morning Bible Study," showing the boys seated on the grass around the pleasant lake, each with a Bible in his hand, and discussing among themselves the chapter set apart for the day's consideration.

Musical Programme.

The members of the Woman's Relief Corps are arranging a programme of music to be presented at Reform Hall Memorial Day, when a large number of children will occupy seats on the platform and sing patriotic songs.

Want Improvements.

Residents of Pearl street, Steiner place and Race street, having in view the present activity in the matter of street improvement in the borough, are asking that some attention be paid to the thoroughfares named.

Exempt's Smoker.

The Exempt Firemen's Association will hold a smoker and entertainment Monday evening, June 2

COUNTY WORK SUMMED UP FOR FREEHOLDERS

Fiscal Year for County Closed and Reports Were Presented to the Freeholders.

REPORTS SUMMED UP.

LAST MEETING OF OLD BOARD WAS HELD TUESDAY AFTERNOON.

Meeting Was Almost Entirely Devoted to the Reports for the Fiscal Year—About County Insane and County Roads—Taxes Collected.

(Special to The Daily Press.)

Elizabeth, May 5—The last meeting of the Board of Chosen Freeholders for the fiscal year was held Tuesday afternoon. The meeting was devoted almost entirely to the reports for the year ending May 13.

The county physician reported that during the year he had investigated 220 cases. This number was made up of 60 railroad accidents, 16 suicides, 20 other accidents, 80 from natural causes, 18 from drowning, 6 from alcoholism, 5 from burns, 15 stillborn.

The printing committee reported that the amount expended for printing was $1,580.91; the stationery committee reported the cost of maintaining the jail $4,545.21. There were 746 prisoners during the year, the average number per day being 51. The average cost per prisoner per day was .2157. Warden Dodd was also complimented upon the successful manner in which he had conducted the jail during the year.

The commitee on public grounds and buildings reported an expenditure during the year for general repairs, fuel, etc., of $4,925.59.

The committee on lunacy reported tht the county had 228 patients, 107 meals and 121 females, in the hospital. Of the above number Elizabeth has 139, Plainfield 30, Rahway 23, Summit 8, Union and Linden each 6, Westfield and Springfield each 5, Roselle 2, Lyons Farms, New Providence, Clark and Cranford each 1. Seventeen county patients died during the year, 12 were discharged and 2 eloped.

The county road committee reported 8 miles and 176 feet of 1½-inch work, 3 miles and 330 feet of top dressing, 22 miles and 629 feet of gutters cleaned, 2.707 feet of 2½-inch work and 950 feet of drain pipe laid. The total cost of this work was $16,268.86.

The county collector reported: Total amount of taxes levied, State school, $688,14.82; county, $200,000. There was also asessed against cities and townships as their portion of county road bond, a total of $4,638.54. The county received in the apportionment of the State school fund, $10,006.58., The county also received in the apportionment of the appropriation of $800,588.25 from State fund the sum of $37.054.13.

The total receipts for the year were $542,939.67; the total expenditures, $527,094.39; balance in bank, $15,-845.28.

JERSEY GOLFERS TO DECIDE CHAMPIONSHIP

New Jersey Golf Association Decided on June 5-7 for Its Annual Championship.

PROGRAMME IN DETAIL.

BESIDES INDIVIDUAL CHAMPIONSHIP THERE WILL BE A TEAM MATCH.

Events Are Announced—The Scheme of Competition is an Elaborate One—An Open Handicap is Also to be Held.

The executive committee of the New Jersey State Golf Association has decided on June 5, 6 and 7 for the association's third annual championship. This will bring it at a time when the Montclair course, which has been chosen for the tournament, will be at its best. All residents of the State of New Jersey who are members of golf clubs belonging to the association, and all non-residents who belong to no clubs other than New Jersey clubs members of the association, are eligible to compete.

The programme has been arranged with the most careful attention to detail. Evidently the views which have been ventilated of late regarding the undesirability of too many matches in a championship contest have failed to impress the committee, for the scheme of competition is one of the most elaborate ever attempted in such a meet. It has been worked out with the most painstaking foresight, but though it looks attractive on paper its practical operation seems likely to involve some confusion.

The qualifying round is to be at eighteen holes, medal play, the first sixteen qualifying in one division and the second sixteen in another. These sixteens will be still further divided into eights, and each eight will compete separately at eighteen holes, match play, except in the finals, which will be at thirty-six holes. Besides these contests, there will be a team match for teams of four from each club in the league, and an open handicap at eighteen holes, medal play, with handicaps limited to eighteen strokes. In this latter affair the official ratings prepared by the State handicap committee will govern.

The prizes are as elaborate as the programme. The winner of the championship will receive outright a gold medal, while the club from which he enters will have the custody of the State Championship cup for the ensuing year. This cup is to go ultimately to the club whose players first win it three times. The runner up will have a gold medal, each of the members of the winning team will have another, and three more will be awarded, respectively, to the winner of the second eight of the first sixteen, the winner of the first eight of the second sixteen and to the winner of the second eight of the second sixteen. The handicap winner will have a silver cup, and a banner will be given to the club represented by the winners in the team match.

All entries should be made through the secretaries of the various clubs, and must be received by the secretary, H. H. Spies, at Montclair, on or before June 2. The executive committee which will have full charge of the affair consists of Lionel H. Graham, Paul Wilcox, C. F. Watson, R. Bage Kerr and B. F. Reinmund.

Still in Jail.

The man, who was associated with Chief Doane, City Collector F. H. Smith and other Plainfielders in the formation of a company for the manufacture of a fire-proof brick, is still locked up in New York, where he was arrested on the charge of trying to circulate bogus checks. The chances are the company will continue and, in the near future, engage in the manufacture of the brick.

For All Clerks.

The entertainment to be held by the Retail Clerks' Mutual Benefit Association Monday evening, May 26, will be for the members and retail clerks of the city who are not members. An attractive programme is being arranged for the affair.

Preached Here Before.

Rev. Frank Smith, of Somerville, who will preach at the First Baptist church next Sunday, has occupied the pulpit at that church before. He is a strong and influential divine and no doubt many people will be present to hear him.

—Neuman Brothers' pure olive oil cannot be surpassed. They guarantee it, as they import it themselves.

INTER-CLUB TENNIS MATCHES

HAVE BEEN ARRANGED BY THE PARK CLUB'S TENNIS COMMITTEE.

Park Club Will Entertain Hillside Saturday and the Cedar Brook Club May 31.

A decided impetus has been given to the local interest in tennis by the Park Club. The tennis committee has been planning an active campaign, one of the principal events of which is a series of interclub matches. Challenges have been sent to the Cedar Brook Tennis Club and the Hillside Tennis and Golf Club and have been accepted and dates set for the meetings.

The Cedar Brook Tennis Club was invited to send several teams to meet the Park Club experts on the latter club's courts last Saturday. The Cedar Brook players could not be gotten together in time and the day of meeting has been changed to Saturday, May 31. There was some question as to the ability of the Hillside Club to make a respectable showing so early in the season but the invitation for Saturday has been accepted and that club will send several teams to the Park Club courts for an informal meeting

In a few weeks, the tennis committee of the Park Club will have its plans completed sufficiently to allow an announcement of other events for later in the season. A number of club and open tournaments are under consideration.

BUILDING ANOTHER HUGE SAFE

HIBBARD-RODMAN-ELY COMPANY HAS A MONSTER UNDER CONSTRUCTION.

It Will Weigh 192 Tons and is to be Shipped to California in Special Cars.

Although the seventy-five ton safe recently shipped from the Hibbard-Rodman-Ely Safe Works was so large as to attract widespread attention, another one is now in course of construction which will make its predecessor in comparison look like a diminutive toy bank.

When completed it will aggregate the astounding weight of 192 tons, making it one of the largest ever built by any firm in this or any other country. It will be composed entirely of steel hardened by the Taylor and Hibbard process, impervious to anything but emery wheels.

To make matters more difficult, this monstrous vault has to go entirely across the continent before it reaches its destination. It is intended for a banking institution in San Francisco and the builders have guaranteed to transport it safely and erect it in as good condition as when it leaves the Plainfield factory.

It will be impossible to fit the huge pieces together before sending them out as no cars could be obtained to hold them. Neither are the western railroad bridges, or tracks either, for that matter, constructed to carry such a weight at one time. The parts will be evenly distributed over several specially constructed cars and will be in charge of competent men from the local factory all the way. The safe will not be ready for shipment yet for several months.

IN CITY COURT.

Several Were Arraigned This Morning and Held for Trial Later in the Day.

In the city court, this morning, Harry Huff was remanded until tomorrow morning, for trial. He was arrested at the depot, last evening, by Patrolman Lunger, on complaint of John Lynch. The latter charges him with using profane and indecent language.

John Callahan, of Richmond street, was also remanded until tomorrow morning. He was arrested on complaint of his father.

Abraham Cohen was released to appear for trial this afternoon. He was found on Richmond street, yesterday afternoon, by Patrolman Mattox, peddling without a license.

Abraham Kowdsky, of New York, was given ample time to leave town. He was arrested by Patrolman McCarthy for peddling neckties without a license.

Last Meeting.

The last meeting for the season of the Current Events Club was held yesterday afternoon at the home of Mrs. Henry A. McGee, of Orchard place. A number of former members, now resident out of town, were present.

FAMOUS WOMAN MET HER LOCAL FRIENDS

Reception Given to Mrs. Julia Ward Howe by Her Daughter, Mrs. Florence H. Hall.

STILL YOUNG IN HEART.

MRS. HOWE ENTERTAINED HER GUESTS BY SINGING SCOTCH BALLADS.

Remarkable Sprightliness for One of Her Years Was Noted by All—Was Highly Pleased With Glimpse of the City.

Local society folk were given a delightful reception last evening by Mrs. Florence Howe Hall, of Madison avenue, in honor of her mother, Mrs. Julia Ward Howe, of Boston, who is visiting her. It was thoroughly enjoyed by Mrs. Howe despite the fact that she has passed the allotted three score and ten mark by thirteen. She was everywhere among the guests during the evening and laughed and chatted with the vivacity of far younger women.

Mrs. Howe sang a number of Scotch ballads for the delectation of her admiring friends, acting as her own accompanist. It was a rare treat as her voice is almost as fresh as when she composed the "Battle Hymn of the Republic."

Among the guests present were many members of the local branch of the Woman's Suffrage Association, of which Mrs. Hall is president. The Monday Afternoon Club, of which Mrs. Howe is an honorary member, was also well represented.

Yesterday afternoon, Mrs. Howe visited a number of Plainfield's institutions, among them being the Job Male Library and Art Gallery. She was greatly pleased with what she saw and insisted on walking to and from the building. The handsome residences in the vicinity of her daughter's home also caught her fancy and she passed many complimentary remarks on their appearance.

Mrs. Howe will leave for her home in Boston today where next Tuesday evening she will be tendered a banquet by the New England Women's Club of which she is president. It will be in the nature of a celebration of her eighty-fourth birthday anniversary, although the event does not take place until one week later.

SAYS SHE DIDN'T.

But Hospital Physicians Declare Miss Harvey Took Enough Laudanum to Kill Two.

Miss Catherine Harvey, the former Plainfield girl, who the New York police say attempted suicide in the "Lumber" district, early Tuesday morning, was discharged from Gouveneur hospital, yesterday afternoon. She returned to this city and is now at the home of her brother-in-law, Charles Fuchs, of Rock avenue.

The girl denies taking poison or medicine in any way but the hospital physicians say that she had enough laudanum in her, which, if properly divided, would have killed two girls. When found by a policeman staggering about the street, she said she was in great pain and at the Delance street station, the officers aver she confessed to poisoning herself.

Men's Choral Club.

Another pleasing musical event of the present season, is the announcement of the second concert of the Men's Choral Club, to take place at the Casion, Tuesday, May 27. On this occasion they will have the assistance of A. Hobart Smock, tenor, of New York, and the Misses Helen and Mabel Reynolds, violin and 'cello performers, also of New York. Prof. Wm. E. MacClymont will officiate as conductor. The net proceeds of the concert will be given to the Young Men's Club, and tickets are now on sale at all the drug stores.

Meeting of Rescue Mission.

New members will be welcomed at the Rescue Mission meeting at the First Church of Christ this evening. There will be a very interesting programme of vocal and instrumental music; President John Goodwin will sing "The Drunkard's Dream." After the programme refreshments will be served free to all.

BRIDGE IS READY TO MOVE

REMARKABLE FEAT PLANNED BY THE PENNSYLVANIA AT NEW BRUNSWICK.

Will Move Bridge Fifteen Feet to Make Room for a New Stone Arch Bridge.

(Special to The Daily Press.)

New Brunswick, May 15—The Pennsylvania Railroad bridge over the Raritan river here has been raised from the stone piers upon which it ordinarily rested, and has been placed upon steel rails lying at right angles to the bridge and constituting the cradle or carriage on which it is to be held while being moved from its present position to a position fifteen feet to the south, so as to clear the site for the new high stone arch bridge to be built by the railroad company to permit of widening and elevating its tracks.

This work was done several days ago, and it would appear that everything is in readiness for the moving of the bridge. The piers have been completed, and everything is in shape. The officials of the railroad company say that the bridge will not be moved until May 25, some time during the afternoon, but it is thought that the real date will not be announced, as the company is not anxious to be troubled with sight-seers when the shifting of the bridge is undertaken. It is generally understood that the bridge will be moved next Sunday.

A small army of workmen have been busy for months working at the bridge, building new piers and false work, but the actual operation of picking the bridge up and shifting it to its new position will take only a few minutes, it is expected.

LITERARY.

Apropos of the coronation, the June Century will have a double frontispiece consisting of portraits of the King and Queen, printed in tint, and a paper on "The Royal Family of England" by Prof. Oscar Browning, who, it is announced, writes from a forty years' personal acquaintance with the court, and records interesting characteristics of Queen Victoria, the Prince Consort, and the present rulers of England. Prof. Browning says that the late Queen's papers were most methodically preserved by Her Majesty, while hardly a scrap relating to George III can be found. Prof. Browning's first recollection as a child is of the fireworks at Windsor on the evening of the Queen's marriage.

CATHOLIC CONVENTION.

State Assembly of Societies to be Held in Newark.

Arrangements are being made to hold a State convention in Newark of the American Federation of Catholic Societies. It will take place in Institute hall, Sunday, June 15. Circulars have been sent out by the temporary State officers, who were elected on April 27, and it is requested that each Catholic society send five delegates to the State convention. The American Federation of Catholic Societies was recently formed, and has been very successful in many states. The organization was formed in Newark, with a temporary staff of officers, and it is desired to make a permanent body, so that there may be participation in the national association's convention to be held in Chicago soon.

The temporary officers are: Dr. Martin J. Synott, president, John B. Oelkers, first vice president; John J. Burleigh, second vice president; Michael O'Donnell, secretary, and Peter J. Goodman, treasurer.

ASBURY'S PLANS FOR ITS SUMMER EVENTS

One Project Made Regarding the Conducting of the Baby Parade.

BAND HAS BEEN HIRED.

DR. CONTERNO'S BAND, OF NEW YORK, HAS AGAIN SECURED CONTRACT.

Decoration Day Carnival at Bicycle Track—The Growth of Deal and Bradley Beach During the Year —Plans for the Future.

(Special to The Daily Press.)

Asbury Park, May 15—The City Council last week engaged Dr. G. E. Conterno's Band, of New York, for the season. Thus the much discussed question of music on the beach this summer is satisfactorily settled. Dr. Conterno supplied the beach music last season, and gave such general satisfaction that his re-engagement was almost a foregone conclusion. Nevertheless, there were twenty-six applications from bandmasters throughout the country, all of whom volunteered to furnish the best and most tuneful bands that had ever played on the beach. Next in favor to Dr. Conterno was Voss, of Newark, who secured a complimentary vote from the Council.

The concerts will begin June 28 and will continue for a period of twelve weeks. There is some talk of a new band stand on the beach, but Founder Bradley's well-known conservatism, it is feared, will nip this ambitious project in the bud.

While the question of music has been finally disposed of, the matter of the coming baby parade is still a thorn in the sides of the city fathers. The failure of the Legislature last winter to pass a bill providing for a $1,500 appropriation for this event was a great disappointment to the people of Asbury Park, who had hoped in this way to perpetuate the baby parade for all time. Just as the disappointment was felt most keenly, and when every resource seemed exhausted, a new leader, in the person of Alfred Chassaud, who was last year director of the amusements of the Atlantic Coast Electric Railway Company, stepped forward with a proposition, which was also laid before the council, to take sole charge of the baby parade and manage the event on his own responsibility.

Mr. Chassaud's proposition is a broad and liberal one, and includes an agreement to raise the necessary funds for the midsummer fete. His offer was referred to the music committee and will probably be acted upon at the next meeting of the council. There is no disposition in Asbury Park to give up the baby parade or to abandon any of the summer carnivals and pageants which have made the place so famous in former years. They will all be given this year on schedule time and with a degree of magnificence unsurpassed.

Decoration Day the first great bicycle meet of the season will take place on the Asbury Park athletic grounds, under the auspices of "little" Joe Harrison, who has arranged a varied programme, including tandem and team races, handicaps and "opens," and contests for time records. Many well-known riders may be seen daily on the third-mile track, and several are now in training for the races.

The little suburb of Deal, made famous by the golf links, has taken a fresh start, and, as stated, will now press forward vigorously in the contest for precedence along the chain of North Jersey summer resorts. It leaked out last week that the Atlantic Coast Realty Company, which has been lying dormant for some time past, has awakened into life, and that several of the original stockholders, among whom are Daniel O'Day, H. H. Rogers and Judge Morgan J. O'Brien, have subscribed $50,000 toward reorganizing the company and for the rapid development of Deal as a summer resort. The amount stated has already been subscribed, but the story is that $100,000 more will soon be placed in the hands of the directors with a view to complete the improvements already begun in this beautiful suburb.

While Deal and Allenhurst on the north are thus joining hands in earnest competition for first place, little Bradley Beach on the south is agitated like Asbury Park over the question of beach purchase. It is claimed that the borough is being rapidly built up while the beach front is standing still and is behind the times. There are few if any amusements or attractions for summer visitors, and the future of the place seems to require municipal ownership of the beach front before the town can progress and keep pace with its neighbors. At Avon negotiations for the purchase of the beach front have already been begun and are progressing favorably.

TROLLEY RESORT ON BANKS OF RARITAN

The Middlesex and Somerset Traction Co. Has Elaborate Plans for a Summer Resort.

NEAR BOUND BROOK.

ALSO PLAN TO BUILD A SUMMER HOTEL ON SAME TRACT OF LAND.

Site Chosen is at Five-Mile Lock, Just Below Bound Brook—Manager Walsh Outlines His Plans and Proposed Attractions.

Preparations are being made by the Middlesex and Somerset Traction Company to locate at Five Mile Lock on the Raritan River, near Bound Brook, a picnic ground and summer resort that will exceed in largeness and attractions any similar enterprise in the State. Laborers are now at work preparing the site and it is hoped to open the grounds to the public by the middle of June. Manager Walsh, of the trolley company, said to a reporter in speaking of the project:

"The trolley company for a long time has recognized the necessity of a place of public recreation and amusement in the summer in or near New Brunswick. Almost every day last summer we received calls on the telephone from people who wanted to know if we hadn't some place for a Sunday-school or family picnic. This year we have decided to start such a place. Our park will lie along the river on both sides of the dam. For the past ten days a force of men has been at work draining the land along the river, trimming the briars, etc. The land will now be filled in. If we had been able to start earlier we would have set out a thousand catalpa trees, which are rapid growers and give abundant shade, having leaves two feet long. They will be set out next fall.

"Above the dam we expect to have a dock for boating. In the park will be a summer theatre and one of the finest dancing pavilions in the State, measuring 65 by 110 feet. Under the pavilion on the ground floor will be space for tables for picnickers. The grounds will contain swings and a merry-go-round for the young people and such other booths and buildings as may be needed."

Besides giving this comprehensive description of the place, Mr. Walsh said that if the patronage warranted it there would be a band at the park every night in the week. On Sunday there will be sacred concerts, in any case. There will not be the slightest objectionable feature of any kind on the grounds, no intoxicating drinks and no games of chance.

The theatre will be devoted to light opera and drama. Even vaudeville which might be called questionable will be eschewed. The company's aim is to make the park a place where anybody will feel safe at any and all times. Plans for the buildings are now being prepared by Architects Parsell and Blish, of New Brunswick, and work on the buidings will be begun at once. The buildings, of course, will not be very elaborate structures, although thoroughly suited to the purpose. They will be completed by June 15, Mr. Walsh says, when the park will be opened to the public. There will be no charge of admission to the grounds, but a nominal admission will be charged to the theatre and dancing pavilion. Refreshments, such as soda and other soft drinks will be sold.

The tract purchased by the Traction Company comprises sixty acres of what is known as the Woolsey farm, on both sides of the River road. The part on the river side will be devoted to the park, and next year, on the opposite side of the road, the company intends to erect a large summer hotel. The plans call for a large outlay of money and will mean a consequent heavy travel on the Bound Brook lines. Laborers are now at work on this road straightening it out and grading. By the time the park is opened Mr. Walsh expects to have all of the curves eliminated. At the park extra switches will be laid and there will be every facility for handling the crowds which are expected at the resort.

WHAT OTHERS SAY.

Clippings From Other Newspapers Which May be of Interest to Plainfield and Its Citizens.

The effect of the annual report of the New Jersey Central Railroad Company is to again remind the people of this city of the marvelous changes that are constantly going on along the Hudson shore front. The Central has distributed 1,496,336 yards of filling along the Communipaw shore of New York Bay, and yet the work is not half completed. New piers are still to come and more meadow land is to be reclaimed.

All this is good news.

Jersey City can well afford to watch with pleasure the stupendous modern undertakings by which miles of useless meadow land are being converted into profitable real estate and by which millions of dollars are being invested in projects which have for their object large profits for their investors and the building up of the greatest commercial port in the world on the west bank of the Hudson.—Jersey City Journal.

Even in the present advanced stage of the mechanic arts it takes seven or eight years to build a great bridge like that over the East river in Greater New York, at a cost of not less than $15,000,000. But a tunnel subserving the same purpose could be completed for $4,000,000 or $5,000,000. Wherever abutting land is of great value the question of tunnel versus bridge is thus forced upon public consideration. Underground ways can be bored under city streets, while bridge approaches must be acquired by a tedious and costly process of condemnation and purchase. While a tunnel costs little or nothing for maintenance, the repair account of bridges is large and imperative. Modern methods of subway construction and equipment have operated to dispel much of the traditional popular aversion to underground travel, and in many large cities the tunnel has become a familiar convenience, used as freely and with as little thought of surroundings as would be a hotel lobby or a railway train shed. There are many present indications that the era of tunnels for local transportation is shortly to dawn upon the civilized world.—New Brunswick Times.

THEATRICAL.

At Proctor's Twenty-third Street Theatre, New York, the continuous performance of refined vaudeville will have Hill and Silviany's sensational bicycle exhibition as its topping feature. Jaques Inaudi, the "Human Arithmetic," will be an extra attraction presenting his wondrous display of mental mathematics. Up in Harlem the Proctor Stock Company will present a popular dramatization of "Carmen" with Edna Archer Crawford in the leading role. The Fifth Avenue stage will be occupied by the Proctor Stock Company in presentations of "Lord Chumley" with Wallace Erskin and Mabel Montgomery in leading roles. The between act vaudeville which keeps the performance continuous will have Picollo's Midgets and Ritter's dogs as features. Other entertainers will be Eddie De Foe, the Lovenberg Sisters and Kennedy and James. "Box and Cox" will be the curtain raiser. The Proctor Stock Company will present "The Deacon's Daughter" at the Fifty-eighth Street. The scenic effects have been especially executed and the Proctor players give a fine performance of this amusing piece. Al Leech and the Three Rosebuds will top the vaudeville section of the entertainment. Proctor's Newark, will have an especially attractive bill. Esau, the man-ape, will be a novel feature and F. F. Proctor's $20,000 production of Living Art Studies will be an extra attraction. Souvenirs are distributed at the daily matinees.

ST. VINCENT SUFFERS

Northern End of Island Shares St. Pierre's Fate.

SOUFRIERE SPREADING DESTRUCTION

A State of Suspense and Terror Prevails In Parts Remote From the Volcano—Starvation and Suffering Follow Disaster.

CASTRIES, Island of St. Lucia, May 15.—The fate of Martinique has befallen the northern end of the island of St. Vincent.

It is all aflame. La Soufriere is still in eruption and is belching forth miles of smoke and fire. It is impossible to get within miles of the volcano, and there is no hope that any of the inhabitants of that section are alive.

Kingstown, with its 6,000 inhabitants, is still safe, but there is a rain of ashes falling, and the air is full of sulphurous fumes. The people are panic stricken.

Refugees from all parts of the island are crowding into the capital and clamoring for a means of escape. They have heard of the wiping out of St. Pierre, and they are in constant fear that a final outburst of the grim monster mountain will overwhelm them.

A tremendous cannonading is going on all the time. The noise of the eruptions of La Soufriere is so great that it is difficult at times to hear anything at all in Kingstown. Far out at sea the explosions of the mountain warn merchant ships away from the island.

Those who approach close enough see with each outburst of sound a tremendous upheaval of subterranean terrors. Great balls of fire are shot miles into the air with each explosion. In the darkness of night caused by the dense cloud of smoke and ashes the spectacle is magnificent, but fearful. It is like a giant Roman candle shooting continuously.

Between the firing of the fire balls there come flashes of winding flames which run down the side of the mountain and sweep out landward and seaward. These flames are caused by the belched out gases, which are ignited and burn as they sweep onward. In the intervals of darkness vivid electrical outbursts zigzag over the volcano's top and sides, adding to the dangers and the terrors.

Kingstown sees and hears all this and hourly grows more desperate. To add to the horrors of the situation the sorrowing, frightened people who know not what has become of their friends and relatives in the northern part of the island and who are constantly expecting to be themselves buried or burned to death are now in danger of starvation. The food supply is limited, and it is reported that unless urgent steps are taken to succor the inhabitants of Kingstown horrible misery will be entailed.

The British steamer Savas, Captain Hunter, has arrived here and reports Mont Pelee to be still in eruption. The trend of the flow from the volcano is to the north.

The search parties which are removing the dead from St. Pierre have discovered safes and molten precious metal in stores and dwellings of the town.

A SHARP CONTRAST.

America's Prompt Action and England's Lack of Effort to Lead Aid.

LONDON, May 15.—At a dinner of the West Indian club held in London the Hon. Arthur Ponsonby declared that in view of the generosity shown by President Roosevelt and the American people toward the Martinique sufferers the people of Great Britain should not be behindhand in emulating President Roosevelt's example and help their own countrymen on the island of St. Vincent. Sir Arthur said he feared, however, that the fashion of donating funds for the succor of the victims of the disaster on the French island set by King Edward might lead Englishmen to overlook their suffering kinsmen at St. Vincent.

C. T. Cox, the administrator of the island of St. Kitts, in the Leeward group, spoke in the same strain as had Sir Arthur Ponsonby. Mr. Cox said:

"American philanthropy showers upon Martinique, yet no one in England has any idea how severely the inhabitants of the island of St. Vincent suffer not only from loss of life, but from the loss of their trade, which in normal times is carried on on the hand to mouth basis."

Mr. Cox, who is on leave in England, expressed on behalf of the British administrators of West Indian islands the deepest sympathy for both the French and British sufferers from the volcanic eruptions.

Upon all sides bitter comparisons between the British government's lack of action in regard to the sufferers in the West Indies and the prompt material response of the United States to the emergency are being made.

France Active In Relief Work.

PARIS, May 15.—Municipal organizations, the chambers of commerce, religious bodies and public organizations throughout France are sending the government resolutions of sympathy concerning the Martinique disaster and are appointing committees to further the collection of funds to aid the West Indian sufferers. Barnum & Bailey's circus, which is to give performances at Toulouse next Saturday, will turn over the receipts collected at the evening show to the Martinique fund.

The Dixie Sails.

NEW YORK, May 15.—The United States auxiliary cruiser Dixie, which has on board almost 3,000 tons of supplies, consisting of provisions and clothing, for the relief of the people on the island of Martinique, passed out of quarantine at 10:12 o'clock last night for Fort de France. It is probable that the Dixie will reach that place next Tuesday. The vessel also carries a number of surgeons and about $5,000 worth of medical supplies.

Philadelphia Collecting Funds.

PHILADELPHIA, May 15.—A special committee of five citizens appointed by Mayor Ashbridge held a conference with Charles Emory Smith, John H. Converse and Joseph G. Darlington, three of the local committee of five selected by President Roosevelt to receive funds for the relief of the Martinique sufferers. Cash contributions amounting to over $3,000 have thus far been received.

BANQUET TO REID.

Farewell to Special Embassador to the Coronation.

NEW YORK, May 15.—The Hon. Whitelaw Reid was the guest of honor at a farewell banquet given at the Union League club last night in anticipation of his approaching departure for London as special embassador of the United States at the coronation of King Edward VII.

The banquet was attended by about a hundred gentlemen, including many prominent figures in politics, finance and journalism from all sections of the country. A full length oil painting of Embassador Reid which was draped with the American and British colors overhung the seat of the guest of the evening.

Among the guests invited to meet Embassador Reid were Sir Percy Sanderson, the British consul general, and the Hon. Cornelius N. Bliss, who sat respectively at the right and left of Mr. Reid; Senator Chauncey M. Depew, Hon. Henry C. Payne, Hon. John W. Griggs, Hon. N. N. Stranahan, President Nicholas Murray Butler, John A. McCall, Hon. Charles Emory Smith, Clark Howell of the Atlanta Constitution, Melville E. Stone, Frank B. Noyes of the Chicago Record-Herald, J. Edward Simmons, Austin B. Fletcher, George W. Scott of the Portland Oregonian, Herman Ridder of the New York Staats Zeitung, Bradford Merrill of the New York World, Charles W. Knapp of the St. Louis Republic, W. L. McLean of the Philadelphia Bulletin, Charles W. Grasty of the Baltimore News and George Thompson of the St. Paul Dispatch.

Speeches were made by Hon. Chauncey M. Depew, Whitelaw Reid, Hon. Charles Emory Smith and others.

Palma Has Hard Task.

HAVANA, May 15.—The house of representatives has elected Pelayo Garcia president, President Elect Palma says that the matter of making up the Cuban cabinet is causing him much worry and trouble. He wants to surround himself with men of experience and ability in whom he has confidence, but he also desires to maintain harmony among the political leaders. The president elect held a long conference with the leaders, and it is understood they then objected to the men Senor Palma said he intended to appoint to the cabinet. Another meeting between the president elect and the Cuban leaders will be held.

Costly Fire In West Virginia.

HUNTINGTON, W. Va., May 15.—Fire in R. W. Kennedy & Co.'s lumber mills at Ceredo, six miles west of here, has destroyed the entire plant, the substation of the Camden Interstate railway, twenty dwelling houses and all the lumber in the millyards. The loss is estimated at $220,000, probably one-third covered by insurance. More than $80,000 worth of cigar box lumber alone was consumed. The fire has temporarily suspended street car traffic here and in half a dozen other river towns. No fatalities are reported. Various West Virginia and Kentucky towns sent in assistance to Ceredo on special trains.

Tax Riots In Italy.

ROME, May 15.—Newspaper telegrams which have reached here from Bari, on the Adriatic, report the rioting of 5,000 peasants at Putignano, in the district of Apulia, as a result of labor disputes. The rioters burned the houses where the octroi taxes are collected and attacked the town hall. Seven gendarmes were wounded in a vain attempt to quell the rioting. The gendarmes then had recourse to their firearms, and as a result a woman was wounded. Forty arrests were made, and order was finally restored.

The New Revenue Stamps.

WASHINGTON, May 15.—The bureau of engraving and printing has begun the delivery to the treasury department of internal revenue stamps as provided in the new revenue reduction act. Sixty thousand sheets aggregating 2,400,000 stamps for packages containing one and two third ounces of tobacco were delivered yesterday, and other deliveries will follow almost daily. The act calls for sixty-five varieties of stamps.

The Nawab Dislikes Sea Travel.

BOMBAY, May 15.—The nawab of Bhawulpur has arrived here by steamer from Karachi, in the province of Sind, on his way to attend the coronation of King Edward. This is the nawab's first sea voyage, and he is trying to cancel his engagement to proceed to London because his passage from Karachi was so rough that he shrinks from further sea travel.

Appointment For Minister Wu.

PEKING, May 15.—An imperial edict has been issued appointing Wu Ting Fang, the Chinese minister at Washington, and Sheng Chia Pong to prepare a code of Chinese laws on modern lines. Wu Ting Fang will probably soon be recalled to China to undertake this work.

MINERS CONVENE.

Two Secret Sessions Held Without Definite Results.

HAZLETON, Pa., May 15.—The convention of the anthracite mine workers called at the instance of the executive boards of the three districts comprising the Pennsylvania hard coal fields held two sessions yesterday and without taking any action on the question of inaugurating a permanent strike adjourned until this morning.

The convention is meeting behind closed doors, and, although nothing officially was given out, it is known that the all important question was not reached, the two sessions being devoted entirely to the organization of the meeting and the report of the committee on credentials.

President Mitchell said that all hope of any concessions from the operators was gone. He has had no recent communication, he said, with the mine owners, Senator Hanna or any other members of the National Civic federation. Mr. Mitchell admitted that he had some advice to give to the delegates at the proper time, but what it is he will not say. In an interview he said that there was no doubt that the sentiment of the men is in favor of a strike, but he refused to make any reply when asked if he would give advice that would come in conflict with their sentiments.

Wireless Telegraph For Alaska.

WASHINGTON, May 15.—General Greely states that the board of signal officers has recommended that the installation of the wireless telegraph stations between Nome and St. Michael be awarded to Queen & Co. of Philadelphia, the lowest bidders, who are to put in the Fessenden system, with which the weather bureau is experimenting. He also has decided to establish between Fort Gibbon and the Tanana river, near Bates rapids, the Marconi system, provided that satisfactory arrangements can be made.

Lawyer Died In Court.

LOCK HAVEN, Pa., May 15.—During the examination of a witness in a trial in the Clinton county court Henry T. Harvey, a leading member of the county bar, suddenly fell to the floor and expired in a few minutes. Death resulted from heart disease. Mr. Harvey founded and was president of the Lock Haven Trust and Safe Deposit company and was a trustee of the Central State Normal school and of Pennsylvania State college. He was sixty years of age.

Negroes Assault Jailer.

ROANOKE, Va., May 15.—When Jailer Craig entered the jail corridors last evening, he was murderously assaulted by two negro prisoners who had hoped to make their escape. During a struggle which followed one of the negroes, Bob Payne, was shot and fatally wounded by Jailer Craig. The men escaped from jail two weeks ago with ten others, but were recaptured.

New York Editor Married.

WASHINGTON, May 15.—A quiet wedding took place here at the home of Lieutenant Commander and Mrs. V. L. Coltman, when Mrs. Caroline Eyre, Mrs. Coltman's sister, was married to Ervin Wardman, editor of the New York Press. Rev. Dr. Hamlin of the Church of the Covenant performed the ceremony. Only immediate members of the families were present.

Moody and Dewey In New York.

NEW YORK, May 15.—Secretary of the Navy Moody and Admiral Dewey are in New York to attend tonight the dedication of the building erected by Miss Helen Gould at the Brooklyn navy yard for a sailors' chapter of the Y. M. C. A. They expect to return to Washington after the dedication ceremonies.

THE DAY IN CONGRESS

Naval Appropriation Discussed in the House.

SENATE TAKES UP FORTIFICATIONS.

An Effort Being Made to Have the Measure Cuban Bill Displaced by the Cuban Reciprocity Measure.

WASHINGTON, May 15.—The naval appropriation bill occupied the attention of the house throughout yesterday, Mr. Dayton (W. Va.) speaking on the need of strengthening our naval battle line, while Messrs. W. W. Kitchin (N. C.), Fitzgerald (N. Y.), Metcalf (Cal.) and Maynard (Va.) strongly advocated the building of warships in government navy yards. The debate took a wide range at times, Mr. Rhea (Va.) speaking in criticism of the administration's Philippine policy and Mr. Elliot (S. C.) presenting the advantages of the proposed Appalachian forest reserve.

Rising to a question of personal privilege, Mr. Mahon (Pa.) indignantly denied statements contained in a circular sent to members alleging that certain contributions had been made to his campaign expenses.

During the greater part of the senate session yesterday the fortification appropriation bill was under consideration.

Now that there is a prospect of a vote being reached on the Philippine government bill next week the friends of Cuban reciprocity are growing more active and are bringing pressure to bear on the Republican steering committee of the senate to change the order making the Nicaragua canal bill the next order of business and give that preference to the reciprocity bill. They have already talked with a number of the members of the committee and find some of them friendly to the proposition. The canal bill advocates, however, are determined to fight the change before the steering committee and if reciprocity wins then to transfer their fight to the floor of the senate. The reciprocity advocates are practically agreed on a bill giving straight reciprocity, with 25 per cent discount, to Cuba.

Senator Money and his secretary, Senator Mason, Senator Jones (Ark.), former Senator Thurston and Representative De Armond left here over the Atlantic Coast line for Havana to attend the inauguration of President Elect Palma.

Will Stay In Richmond.

RICHMOND, Va., May 15.—Richmond is to remain the headquarters of the Imperial Tobacco company of Great Britain and Ireland. E. H. M. Gunn, one of the directors of the British tobacco trust, who has just come from England, when asked if the Imperial company would continue to make Richmond its headquarters and the principal point of its operations in this country, said: "We are very much pleased with your city and have been much impressed with the progressiveness of the place. I think that Richmond has a splendid future before it, and as to our continuing to make this our headquarters I will say that where Britishers put their foot down they put it down to stay."

Linen Weavers Starving.

VIENNA, May 15.—Owing to the depression in the linen industry on the continent the cottage weavers in the Bohemian forest are reduced to starvation. Representatives of the affected localities in the forest were received at the ministry of commerce, and possible remedies for the situation were discussed. The vice burgomaster of Budweis, in Bohemia, said that the cottage weavers earned less than one-sixth of a penny per hour. The ministry of commerce promised measures to improve the condition of the weavers. It will furnish raw material free and make loans to enable the introduction of machinery into the districts in question.

Probably Fatal Baseball Accident.

ITHACA, N. Y., May 15.—Richard Koss, an employee of the Ithaca Telephone company, is believed to be dying from the effect of being struck by a batted ball during a baseball game last Sunday. The ball struck Koss on the temple, and he was made unconscious. He revived shortly afterward, however, and was believed to have fully recovered from the shock, but on Sunday night was seized by a violent attack of spasms, and since then his condition has gradually grown worse.

A Dried Potato Prize.

BERLIN, May 15.—Several agricultural societies, co-operating with the Prussian ministry of agriculture, have offered a prize of 30,000 marks for a process of drying potatoes so that they can be successfully stored for years at a saving in cost of storage and transported in greatly reduced bulk. The cost of the drying process, it is stipulated, must not exceed 5 cents per hundredweight of potatoes.

Another Heavy Frost.

HOOSICK FALLS, N. Y., May 15.—There has been another heavy frost in the Hoosick valley, the mercury falling to 20 degrees above zero. It brought more damage to buds and blossoms of cherry and apple trees. A heavy white frost is reported in lower Vermont and the Berkshires, and fruit growers fear the apple crop may be ruined.

Consul Evans to Leave In June.

WASHINGTON, May 15.—Henry Clay Evans, who has just retired as commissioner of pensions, has taken the oath of office as consul general at London. He will leave for his post early in June.

NOT OVER YET.

Because there has been a lull in the annexation storm for a few days, there are some people who think that the Greater Plainfield advocates are losing heart. Such is fartherest from being the truth. As a matter of fact, the chance of bringing about the union of city and borough never looked brighter than it does today. The "antis" have had their say. Now the other side is preparing to refute the arguments of the "antis" and prove conclusively that it is to the best interests of all that the union should take place.

When the "antis" held their meeting, there were certain figures quoted in support of the arguments advanced. Careful search has been made and statistics secured which will turn the tables on the objectors. The truth is there but it is necessary, now that there is such a wholesale distribution of figures off hand, to get at those in official records. It is not difficult for the enemies of the project to quote masses of statistics in a general way. The Greater City defenders will be ready, however, to give those which are correct and come only from the records of the two counties.

Because one of our warmest friends of the opposition became mildly eloquent in his denunciation of The Daily Press and other local newspapers, there have been those who wondered why we have not made reply to his remarks. We have been privileged to listen to other of this gentleman's criticisms and have found them, as on this occasion, bearing a remarkable resemblance to that which drives the "windmills," among which he was so kind as to class us. As a political harangue, his speech was a success but, somehow, careful investigation failed to find anything to answer even in the carefully edited report that has been distributed through the borough. We sincerely regret that business will soon compel his departure from this city for several months. It is too bad to lose the only really spectacular feature of the "anti" belief.

With all this talk about the local baseball teams, it might be just as well to explain that the city league is strictly an amateur organization and that all the league teams, when they play in league games, will have to be made up entirely of amateurs. The rules of the league are very strict on that point. Before the league games begin, however, there is nothing to prevent any of the league teams from playing professional players and, there is no doubt that it has been done on several occasions. The school teams are also strictly amateur in their status. The other nines of this vicinity, with few exceptions, contain several semi-professionals who have been secured to strengthen the local talent. This is so generally the custom that nothing is thought of it.

The members of the Young Men's Association, that important factor in Hope chapel affairs, have won an enviable reputation for enterprise and originality. Their minstrel show last winter, was an event of the season in the West End. Now they propose to celebrate the glorious Fourth of July with an entertainment, planned after the "county fair" of the rural districts and yet unique in its details. There is no doubt now as to the success of the enterprise. The only question is the measure of it.

A practical test of the value of newspaper advertising was made recently by the storekeepers at Asbury Park, relates the Philadelphia Record. Each merchant more than doubled his advertising space and used it to "boom" the trade of a particular day. On that day the business of the stores was enormously increased, a few leading merchants taking in $10,000 more than on any other day. Asbury Park is a small place, but people are the same the country over.

Again will the veterans of the Civil War march to the graves of their comrades and decorate them. The long parade has been given up for old soldiers are not as young as they were in the days of the march to the sea and the compaign against Richmond and there is no young blood to take their places. Every year, the graves in the cemeteries grow in number and the little column of those who remain grows smaller and smaller.

The citizens of Plainfield are not possessed of long memories. They pay their water bills and even forget to remit any thing but an occasional growl. Some day, however, the water meter will have to go into use.

As long as the "antis" would not allow the advocates of the Greater Plainfield project to have anything to say at their mass meeting, the meeting, arranged for next meeting will not be open to the "antis."

Despite the offers of The Daily Press, both through this column and verbally, the "anti" delegation refuses to debate the questions of annexation and consolidation.

MARTIN ACT MADE TROUBLE

(CONTINUED FROM PAGE 1.)

invited Mr. Arens to the ante-room. Then followed a heated argument, lasting another half-hour. At the end of that time, both Mr. Martine and Arens came out together, with every appearance of having adjusted their troubles and they went off in a happy frame of mind.

When the Council reconvened, Mr. Mellick offered a resolution to the effect that Mr. Arens has agreed, verbally, to re-convey to the owners of the property, the property in question within one year upon the payment of the price he paid with 6 per cent. added as interest, provided the owners would give him a signed word of agreement that no objectionable building or nuisance would be put on the property thereafter. The resolution further provided that the Collector should be satisfied that the time of limitation whereby the property could be disposed of to Mr. Arens had expired. Upon the agreement that he would re-convey the property to the former owners, Mr. Arens demanded that a deed be given him for the property. This resolution was adopted.

A communication was received from C. E. Gulick asking that four fire hydrants be located in the vicinity of Park avenue and Randolph road, where several new houses are soon to be erected, and after the petition was referred to the proper committee, the Council adjourned.

THE GREAT HOSIERY SALE

CONTINUED THIS WEEK.

We have a large Hosiery business, but it should be larger. No department in our large establishment receives more careful attention, or is more elaborately stocked. We place Import orders for nearly all our goods, thus saving the jobbers' profit. This enables us to sell a superior article for a given price. Our Spring Importations are now ready and to quickly introduce them we shall offer extraordinary inducements.

At 98c all over lace patterns of fine Silk finished Lisle Thread, with white tipped heel and toe. This stocking is of exquisite beauty and guaranteed to be worth 1.25 pair.

At 89c all over lace of brilliant Lisle Thread, all black, beautifully shaped and superior in finish to silk goods. Real value 1.00 pair.

At 75c lace stripe brilliant Lisle, with white tipped heel and toe, finished with high lustre and daintily fashioned. Many a store would have no difficulty in getting 98c pair for them.

At 50c lace stripe Lisle Thread in 9 dainty fine patterns. This is one of our star numbers and is extremely popular for summer use.

At 50c Gauze Cotton and Gauze Lisle, of unusual beauty and very fine gauze. Color is perfect.

At 50c a full bleached foot black Lisle Stocking of remarkable beauty. High spliced heel and double sole. When visiting our hosiery counter ask to see this particular number.

At 39c pr or 5 pairs for 1.00 black Gauze Lisle and Gauze Cotton of very fine gauze. This stocking retails in many places for 50c pair.

At 39c pr or 3 prs for 1.00 medium weight white sole hose of great durability.

At 25c excellent white foot and white sole hose. Splendid shape, splendid color, splendid goods.

At 25c plain blk Lisle Thread, of medium weight and beautiful finish. This stocking is far superior to the average 25c hose and sells in many places at 35c pair.

At 25c pair our No. 114½. This hose is worth 39c pair or money will be refunded. It is better than any 25c hose sold in New York city and we know it. Extra length, high spliced heel, double sole, etc. Don't fail to ask for it.

At 25c drop stitch Lisle Thread, with pattern running to toe. Color excellent, pattern choice. A very desirable stocking.

At 25c pr lace stripe Lisle Thread, of unusually attractive pattern; fine quality and looks like a 50c stocking.

At 2 pairs for 25c a lace pattern cotton hose of very fair quality and excellent color.

At 10c and 15c good quality, well shaped hose; full sizes and fast black color. These are goods bought directly from the mills and are better than goods at these prices generally are.

At 25c our popular No. 1590½ boys' extra ribbed hose. These goods are made for the hardest kind of wear, yet they are well fashioned, finely finished and absolutely fast black color.

At 25c our celebrated No. 412 ribbed for either boys or girls. Made by same mill as above but lighter in weight and finely finished.

At 25c misses' extra fine light weight lisle thread ribbed hose. This stocking is silk finished and would deceive even a careful observer at first sight into believing it silk.

At 25c the newest lace stripe lisle thread for misses, sizes from 5½ to 8½. This stocking we have waited a year for, the demand for it being so great. It is one of exceptional beauty and cannot be equalled.

FOR STOUT LADIES—Outsizes in plain black and with white soles, at 25c. In drop stitch, plain blk 39c, or 3 for $1. In split sole plain cotton, 39c or 3 for $1. In drop stitch black lisle thread at 50c.

At 10c and 15c pair—Childs' fast black ribbed Hose, with double knee, high spliced heel and double sole. These goods are from a Southern mill, where the cotton grows and labor is cheap. They are much better than you have been buying for these prices.

DUNELLEN.

It is now practically assured that the factory, of which rumors have been heard for a long while, will be built in a short time. W. A. Garrigues, of Plainfield, one of the promotors, has secured a lease on twelve acres of land along the railroad at West Dunellen where the factory will be built. It is said that the factory will manufacture a special kind of iron.

The cantata "Princess Snow White" will be presented by the pupils of Whittier school this evening in the Presbyterian chapel. The entertainment is for the benefit of the library and piano and if successful will be repeated.

Bishop McFaull, of Trenton, was present in St. John's church last evening for his annual visit. He preached an excellent sermon before an unusually large congregation.

The Dunellen A. C., with one possible exception, will line up Saturday the same as in last Saturday's game. The game will be with Hope chapel Y. M. A., at Plainfield.

The barber shop of John Siriski at Scotch Plains was nearly burned down by the explosion of a lamp on Tuesday. Mr. Siriski is a brother of Barney Siriski, of this place.

The erection of a new barn on Wheeler's place, where one was burned down some time ago, is well under way.

Prayer meeting was held last evening in the Presbyterian church. A large number were present.

Paul Kretzel, Jr., is now a full pledged motorman on the Plainfield Street Railway line.

Miss Katie McGovern has returned after being in Muhlenberg hospital for some time.

Prayer meeting was held last evening at 7:30 o'clock in the Methodist church.

The regular meeting of the local W. C. T. U. will be held this afternoon.

The foundation of G. T. Schenck's new house has been finished.

Miss Mary Allen spent Tuesday with relatives in Elizabeth.

WHAT PEOPLE ARE DOING

SOME BRIEF PARAGRAPHS OF A PERSONAL NATURE.

Many Folk of Greater Plainfield Are Entertaining or Being Entertained.

Charles F. Fritts, of Newark, has returned after a short visit with Plainfield friends.

Miss Wilson, of Hunterdon county, is visiting Mr. and Mrs. L. M. Hummer, of Craig place.

Miss Anna M. Christianson of this city, has returned from a visit with friends at Easton, Pa.

Major F. W. Coleman, of the Hotel Netherwood, is slightly improved from his recent illness.

Paul Beardsley, of East Millstone, is visiting his daughter, Mrs. George White, of Washington Park.

Fred Dunavan, of East Second street, is anticipating a visit to Phillipsburg, N. J., for a few days.

Mr. and Mrs. Edward Runyon, of Nebraska, are visiting at the home of Mr. and Mrs. Charles Stimpson, on West Sixth street.

Mrs. James Chamberlain and daughter and Miss Jessie Chamberlain, of West Third street, will said Saturday for England for a stay with relatives.

Edward Thorn, of East Second street, who has been seriously ill for some time past, is no better and his family is much concerned about his condition.

Stephen Beeching, of Watchung, who has been troubled for some time past with a severe pain in his foot, is improved. For a time he experienced considerable trouble in using the foot.

Although fully recovered from his long illness, Col. Mason W. Tyler is not applying himself very closely to business as yet. He spends a portion of his time on his wheel regaining his strength.

PLAINS AND FANWOOD.

Malley's work in the box on Saturday against the Safe Works team proved that Manager Johnston has a good all around player. Malley's position on the team is behind the bat, but it was thought best to give him a trial in the box so as to try him out in case two pitchers should be needed in a game sometime. It is needless to say he fulfilled all expectations.

Quite some excitement was caused in town Tuesday evening shortly after 8 o'clock when a small blaze started in the barber shop. No damage was done but should the fire have gained headway there is no doubt that the center of the town would have been wiped out. The cause of the fire was a gasoline lamp which, in some way while lighting, exploded.

The hand engine of Excelsior Hook and Ladder Company has been out of commission since the Jahn fire of last week. The engine did not work satisfactorily then and on Sunday an examination of the apparatus was made and it was found that the suction pipe was completely worn out and useless. A new one will be procured at once.

Twilight Council, Jr. O. U. A. M., will hold its regular weekly meeting in the library rooms tonight. A full attendance of the members is desired as considerable business will be transacted.

The kindergarten department of the public school, in charge of Miss Ella Squires, enjoyed an outing for flowers and ferns along the mountains Wednesday afternoon.

A large party from Milburn enjoyed a dance at Ivamy's pavilion last night. Forty couples were present. The trip was made in several large stages.

The junior baseball nine will cross bats tomorrow afternoon with the High School "Scrubs," of Plainfield. The game will be played on the local diamond.

Mr. and Mrs. Theodore Reger, of Morristown, were the guests yesterday of Mr. Reger's sister, Miss Sadie Reger.

A meeting of the Board of Education was held in the school parlor, Tuesday night.

SOUTH PLAINFIELD.

A consultation was held yesterday at Muhlenberg Hospital, Plainfield, over the case of Joseph Miller, of this place, who was taken to Muhlenberg supposedly with appendicitis. It has not been learned what the true nature of the ailment is.

The Ladies' Aid Society met this afternoon at the home of Mrs. T. C Laing. Arrangements were made for holding a strawberry and ice cream festival. The other business was routine.

At the meeting of Camp No. 41, P. O. S. of A., which will be held tonight in Washington Hall, only routine business will be transacted.

Stillman Randolph has moved into the house on Front street which was formerly occupied by Mrs. Lebbeus Ayres.

COLUMN FOR THE SHOPPERS

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

If you want to get inside of a suit that will surely fit you, have a talk with John G. Bantle, Watchung avenue. He caters both to men and women.

I. H. Boehm, West Front street, is showing a fine display of millinery. If you want a spring straw hat or dress goods of any sort he can supply you.

When in search of dainty laces and embroideries go to Peck's on West Front street. He always carries an exclusive line of goods that have a peculiar value.

Times are tough when you can't buy a good tender steak from Fred Endress, West Front street. Also a large variety of sea food at prices exceptionally low.

If you have not yet purchased your summer suit it will pay you to inspect the goods at Sebring's clothing store on Park avenue. He can serve you in a satisfactory manner.

Collier, the Park avenue jeweller and optician, has been in the business since 1869. Doesn't thirty-three years of experience count for something? Consult Collier and be convinced.

For fresh, green vegetables, no better display is to be seen in the city than that at T. L. Walsh's market on North avenue. All varieties and everything is being sold at extremely low prices. All orders are delivered.

A lover of fish? To be sure, you say, but it must be fresh, that is no left overs remaining in stalls for days at a time. That's perfectly proper and the Rogers Sea Food Company is particular to see that its patrons get nothing but fish directly from the nets with a very short stay at its store.

Woodhull & Martin's large store is just brimful of seasonable goods and there are many bargains to be found. This is the proper time to arrange your summer wardrobe and you can save money at this store. You will also find many values in the house-furnishing and carpet departments.

MUST ENLARGE THE CHURCH

CONGREGATIONAL CHURCH IS CONSIDERING HOW BEST TO DO IT.

Architect Consulted and Will Prepare Plans and Ascertain the Cost.

Several years ago, a movement was started in the Congregational church to enlarge the church building. At that time, the sanctuary was weekly taxed to its utmost capacity to care for all those who care to worship there. In order to start a fund for that purpose it was then decided to take up a collection annually for the building fund.

There has been a steady growth of the congregation so that now the need of more room is much felt. At the last annual meeting in April, the subject was referred to the trustees to take what action was necessary. The trustees decided to see how the present building could best be enlarged and what such an addition would cost.

A meeting of the trustees and an architect was held a few days ago when the subject was carefully discussed and several methods of securing the desired end discussed. No action was taken save to instruct the architect to prepare plans and ascertain the cost of the proposed changes. A report of what has so far been accomplished was made by Joseph E. Morse, president of the board of trustees, at a meeting of the church last night.

At this meeting, the amendments to the constitution, which were introduced at the annual meeting, were passed. They simply promote the proper transaction of the church business. The trustees were authorized to have copies of the amended constitution printed for the benefit of the church members.

—Miss Clara Smith, of the borough, has accepted a position at the local telephone office, and Miss Campbell has resigned her position.

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. W. Randolph.

RUSHTON NOW IN NEW YORK

EXPECTS TO SAIL FOR ENGLAND TOMORROW, TAKING CHILDREN.

Firm of Rushton & Hansen Was Dissolved Friday Night and Rushton Left Town.

Information in regard to the whereabouts of Robert Rushton, who left town suddenly, Saturday, as told in yesterday's Daily Press, has been gleaned from a friend closely connected with him in his business and personal affairs.

He states that the firm of Rushton & Hansen was dissolved by mutual consent Friday, and the senior partner was paid in full for his interests. This accounts for the large roll of bills he displayed Saturday afternoon. With this money he went to New York, where he is now located, making arrangements to sail to England tomorrow. His two children who are with Mrs. Thatcher, of West Front street, will accompany him.

Rushton's reason for leaving town, the informer states, arose from the divorce proceedings which he has instituted against his wife, Lavinia Rushton. In his bill he made allegations which he has since realized that he cannot prove and decided to cut the Gordian knot and evade answering searching questions. As Mrs. Rushton has filed a cross suit he will undoubtedly be freed from his matrimonial bonds in the end.

Luncheon by Miss Martine.

A charming luncheon was given by Miss Martine, of "Cedar Brook" farm, this afternoon at 1:30 o'clock. There were fifty guests present from this city and the borough. The home was prettily decorated with the season's fairest flowers and there were many features combining to make the affair one of the events of the season.

A GLORIOUS INTERVENTION.

Mayor of Matanzas Expresses Sentiment of Gratitude.

WASHINGTON, May 15.—General Wood has submitted to the war department the following letter, addressed to him, from D. Lecuona, mayor of Matanzas, dated April 23:

"The American troops that were stationed at this city sailed homeward yesterday, therefore bringing to an end in this province the glorious intervention undertaken by your government.

"The demonstration of sympathy and gratefulness made by the people of Matanzas in their farewell to them shows the gratitude of the Cubans for the benefits which so open hearted have been bestowed upon them by your nation.

"At a public meeting held by the city council in the evening of the same day it was resolved to state in the minutes the satisfaction felt by the council that the people of Matanzas, looking back into the period of this intervention, have understood the highness of that intervention and know how to feel grateful for the action of the United States and how highly pleased they are with the correctness observed by the American army in the fulfillment of its delicate and humane commission. It pleases me to make you acquainted with the fact."

NIXON QUITS.

Resigns Leadership of Tammany After a Brief Reign.

NEW YORK, May 15.—In a manner exceedingly sudden and dramatic Lewis Nixon resigned the leadership of Tammany Hall yesterday afternoon at the meeting of the executive committee of the organization, attended by every district leader in the city.

Michael C. Murphy attempted to persuade Mr. Nixon to reconsider his decision, but the shipbuilder grabbed his hat and left the room while the former police commissioner was speaking.

The affair created a tremendous sensation in Tammany Hall, which was crowded with the leading politicians of the organization.

Mr. Nixon told the meeting he did not want a vote of confidence and later said he could not stay in Tammany Hall and retain his self respect. "The trouble," said he, "is not in the organization itself, but it is on this side of the ocean.

"I will not be dictated to by any kitchen cabinet led by Andrew Freedman or any board of review headed by Peter Meyer. That's all."

Severe Blow to Hallstead.

SUSQUEHANNA, Pa., May 15.—Hallstead, one of the most flourishing boroughs in Susquehanna county, is paralyzed over an announcement made by the Delaware, Lackawanna and Western Railroad company abandoning the place as a terminal of six divisions. The company has already transferred eight train crews from Hallstead to Scranton. The greater portion of the residents of the borough are employed by the Lackawanna either in the engine repair shops or in the yards or on the trains. The Erie Railroad company has thus far suspended 8,000 men on its system until the coal troubles are settled. In case the coal strike is prolonged further reductions in the working force are probable.

Governor General to Resign.

MELBOURNE, May 15.—It has been announced in the senate that the Earl of Hopetoun had decided to resign the governor generalship of the Australian commonwealth. The Earl of Hopetoun was sworn in as the first governor general of the federated Australian colonies at Sydney Jan. 1, 1901.

BOOTS AND SHOES.

What Is Considered Smart—A Useful Petticoat.

Patent leather shoes will continue to be the proper thing this summer. The shoes for ordinary wear have heavy soles and are ornamented with rows of fanciful stitching. For medium wear there are colonial slippers with heavy soles, walking heels and a long tongue of leather, held down by an oval buckle. Some dress shoes have velvet tops, and this has a tendency to make the foot look smaller.

The woman who is forced to practice economy will buy a pair of kid shoes

LACE AND POINT D'ESPRIT WAIST.

having deep patent leather tips and smart, slanting Cuban heels. These will outwear the patent leather shoes and yet present an almost equally smart appearance.

Petticoats of black china silk made with many ruffles edged with narrow black lace are pretty and serviceable to wear under veiling costumes having taffeta slips, because in that case no superfluous flare is desired.

The new stockings are of very fine patterns. A great deal of openwork effect will be worn.

The cut shows a lace and point d'esprit blouse made after the latest fashion. It has a bolero, upper sleeve and bertha of fine lace and tucking. Through the top of the bertha narrow velvet ribbon is run, and this forms an irregular bow in front with long ends. A bunch of artificial violets completes the chic of this bow. The sleeves have very full puffs at the wrist.

FASHION NOTES.

Smart Materials — Useful Three-quarter Length Coats.

Both for coat costumes and for separate coats smooth fabrics are popular, and there are exquisite tints in fawn, dove, pigeon gray, mastic, putty and the inevitable creamy whites, some of which are almost deep enough to be called biscuit color. Complete

LACE MOUSE JACKET.

costumes of white cloth etamine and serge will be worn a great deal this summer.

Both modistes and tailors speak of the difficulty they have in getting their clients to accept the basque. The bolero which just escapes the waist line is undeniably a most becoming fashion with the present close fitting and trailing skirts. The only basque which so far has met with any success is the deep shaped one of the Louis coat or the tiny godet basque added to the coatee and Russian blouse.

The sack coat of half and three-quarter length in its most dressy aspect is worn at race meetings, and it is accepted as a carriage wrap generally. It is so adaptable that it can be slipped over a bolero costume or a Russian blouse. These coats are only seen in light coloring when cloth is employed, but a few are shown in black peau de soie or moire with elaborate collars of lace or passementerie applique.

The smart house jacket shown is of all over lace. It has a sailor collar and the wide Japanese sleeve now so much in favor. The trimming consists of ribbon, bindings and bows of turquoise blue satin.

CHAPTER III.

DR. MURDOCK'S PROBLEM.

Spargue's stag dinner was virtually over when a servant brought in a copy of the Evening Tempest. The dessert had been removed, the coffee and liqueurs had been served, and the guests had lighted their cigars. The host passed the newspaper to Dr. Murdock, who proceeded to glance leisurely through its columns.

"Ah! this will do," he exclaimed, at last. "Here is something which will, I think, answer our purpose—"

"MYSTERIOUS SHOTS IN WALL STREET.

WHO FIRED THEM?

STORY OF A STRAY SATCHEL.

THE POLICE PUZZLED.

"While on his beat, at a quarter past five o'clock this afternoon, Policeman John Flynn, hearing the report of a pistol from the direction of the Knickerbocker bank—"

"The Knickerbocker bank!" interrupted the young broker. "Mr. Dunlap, that interests you. Do your directors indulge in pistol practice at the board meetings?"

"What is that about the Knickerbocker bank?" asked the man to whom this speech was addressed. Having been engaged with his neighbor in an earnest discussion on financial questions, he had not been listening to the general conversation.

Murdock adjusted his eyeglasses and quietly resumed:

"Policeman John Flynn, hearing the report of a pistol from the direction of the Knickerbocker bank, in Wall street, started at the top of his speed toward that building. When he was within about 20 yards of the bank another shot rang out, and at the same instant a man darted down the steps and ran toward Broadway."

Richard Dunlap, president of the Knickerbocker bank, was listening at-

"AH! THIS WILL DO."

tentively enough now. Behind the calm mask of the financier there was the evident anxiety of the bank president. For the stability of a bank, like the honor of a woman, is at the mercy of every passing rumor.

"He carried in his hand a small satchel, which he dropped as soon as he saw that he was pursued. After an exciting chase Flynn overtook his man, whom he recognized as Michael Quinlan, alias Shorty Duff, a well-known sneak thief. On the way back to the bank the policeman questioned his prisoner about the pistol shots. Quinlan vehemently denied having fired them; but admitted that he had stolen the satchel. His story is that, as he was passing the bank, the outer door was ajar. Seeing the satchel in the vestibule, he entered, crouching low in order to avoid being seen through the inner door, the upper portion of which is of plate glass. Scarcely had he laid his hands upon the satchel when he was startled by the report of a pistol. For a moment he was dazed and undecided how to act. Then, as no one seemed to take any notice of his presence, he was quietly slipping off, when a second shot was fired. Panic-stricken, he took to his heels, only to be captured by Flynn.

"On reaching the bank Flynn found the outer door closed, but not fastened. The heavy iron gate between it and the inner door was securely locked, however, so that it was impossible to enter. The Knickerbocker bank has a second entrance on Exchange place. But this, too, is protected by a massive iron gate, which also was found locked. Flynn rapped for assistance, and the call having been answered by Policemen Kilpatrick and O'Donnell, he left the former to watch the Exchange place door, and the latter to guard the entrance on Wall street, while he took his prisoner to the police station.

"Messengers were at once dispatched to the house of Richard Dunlap, the president of the bank, and to that of Mr. George S. Rutherford, the cashier. The former was not at home, and the family being out of town, there was no one who knew where he was spending the evening."

Every eye turned toward Richard Dunlap as this paragraph was read. His features remained impassive, under the full control of the veteran financier; but to an observant eye like Sturgis', the man's real anxiety was betrayed by the unconscious action of his right hand, which lay upon the table and played nervously with a fork.

"Yes," said the banker, carelessly, feeling the curious gaze of the other guests upon him, and answering their unspoken questions, "yes, that is true; I did not tell my housekeeper that I was invited to dine by our friend Sprague this evening. There was, of course, no reason why I should. Well, Dr. Murdock, did they find Rutherford?"

Murdock had looked up while the barker was speaking. He now leisurely found his place and continued the reading of the article in the Tempest:

"The cashier fortunately was at home, and he hurried down town at once with his set of bank keys. Two detectives from the central office accompanied him, and the three men carefully searched the premises. They found nothing out of the way there, except that three gas jets were lighted and turned on full blaze. At first the detectives were inclined to think that bank robbers had gained an entrance to the building; and that one of them, having caught sight of Shorty Duff as he reached in to steal the satchel from the vestibule, had fired upon him. This would explain the pistol shots heard by Flynn. A careful examination of the bank, however, failed to reveal any trace of a bullet.

"The valise, when opened, proved to contain only a change of linen for a man and a few toilet articles of but slight intrinsic value. The satchel itself is an ordinary cheap leather handbag, stamped in imitation of alligator skin.

"The police are now looking for its owner in the hope that he will be able to throw some light on the mystery of the pistol shots."

When Dr. Murdock had finished reading, everybody, except Dunlap and Sturgis, looked disappointed. The former settled back in his chair, the muscles of his face relaxed, and the anxious bank president once more became the genial and polished man of the world. The reporter sat gazing thoughtfully at his wineglass.

"Well, Mr. Sturgis," said Murdock, "what do you think of my little problem?"

"I have already been assigned to work up this case for the Tempest," answered the reporter, quietly.

"Indeed? Perhaps you are the author of this very article? No? Then are you willing to make the solution of this little mystery the subject of our wager and the test of your theories?"

"Hold on, doctor," exclaimed Sprague; "you are doing Sturgis an injustice. Why pick out, as a test of his ability, a problem which, to all intents and purposes, has already been solved by the police? Give him some truly knotty question and he will be in his element; and then, at least, some interest will attach to your wager."

"Ah! you think the problem has already been solved?"

"To be sure. The article you have read us started out as if it were going to prove interesting; but, instead of that, it ends in an anti-climax. What is the crime here? The confessed theft, by a petty sneak thief, of a satchel worth, with its contents, perhaps eight or ten dollars. And where is the mystery? The ownership of a few pieces of unmarked linen of so little value that the owner does not care to take the trouble to claim them."

"I cannot agree with you, Mr. Sprague. While the crime in this case may be a petty theft, it contains, to my mind, interesting features, which you appear to lose sight of in your disdainful summary. The problem, it seems to me, involves a suitable explanation of two rather mysterious pistol shots, to say nothing of such minor details as lighted gas jets behind securely locked gates. As Mr. Sturgis has informed us, in his earnest and lucid way, every effect has a cause. I should like to know the cause that lighted the gas in the Knickerbocker bank."

"I shall probably find out that cause the day after to-morrow," said Mr. Dunlap, smiling, "and I shall give the fellow a talking to for his carelessness in forgetting to turn out the gas when he locked up."

"Mr. Dunlap's suggestion," continued Murdock, "is plausible in itself, and we might even assume that the same careless employe, after locking up the bank, forgot to close the outer door on the Wall street side. But even then, we have not disposed of the ownership of the satchel nor of the two pistol shots. The police theory that these shots were fired by bank robbers seems, I admit, very far-fetched. Professional cracksmen would hardly be likely to fire unless cornered; and then they would fire to kill or at least to disable. If their bullets failed to hit the mark, they would at any rate leave some trace."

"I beg to suggest," remarked Dunlap, "that the shots heard by the policeman and his prisoner were not fired from the inside of the bank."

"That appears quite likely," admitted Murdock; "but they must at any rate have been fired in close proximity to the bank, since the witnesses agree that they appeared to come from inside. In that case, whence were they fired? By whom? And why? On the whole, my little puzzle does not seem to me so ill chosen. What is your own opinion, Mr. Sturgis?"

"I quite agree with you that the problem is probably not so simple as it seemed at first blush to Sprague.

"Very well. Then doubtless you are willing to undertake the task of supplying whatever data may be required to complete the chain of evidence against Quinlan?"

"By no means," replied Sturgis, decidedly.

"Indeed? Ah! well, of course, if Mr. Sturgis wishes to withdraw his bet—"

The First Telegram.

The first record I find of electricity earning money was on April 1, 1844. The only telegraph line then existing was the government line from Baltimore to Washington. As the government had no use for it, consent was obtained to charge for private messages, the postmaster general fixing the tariff at one cent for four characters, says a writer in the Electrical Review. A certain politician was willing to take the risk of being the first fool, but claimed to have only one cent in change. The Washington operator said to Baltimore for him, "4," which was an agreed signal for "what time is it?" The reply came back "one o'clock. This customer seems to have paid the first cent ever earned by this great industry. This was the only revenue for four days. On the fifth day 12 cents were earned.

How She Voted.

A cynical bachelor listened to some women who were discussing female suffrage and was asked by one of them for his views on the question. He replied thus with great deliberation: "I once heard of a woman who was asked how she had voted at the recent election. 'In my plum-colored gown,' was the answer." Then the cynical bachelor bowed and escaped.

A Kansas Cow Story.

Near Coffeyville, Kan., a straw stack heavily laden with snow fell over on a cow that was feeding from it. The farmer who owned the cow thought she had been killed and so he made no effort to dig her out. But 22 days later he detected a movement in the stack and forked the straw away with the result of finding the cow very much alive with a new-born calf by her side. On getting her liberty the cow ran bawling to the creek for water, but she was lassoed before she got there and was then given warm water in very small quantities. In a few days she was as well as ever.

Tobacco Blindness.

Tobacco blindness is becoming quite a common affliction, and a short time ago several persons were being treated for it, says London Health. It first takes the form of color blindness, the sufferers who have smoked themselves into this condition being quite unable to distinguish the color of a piece of red cloth held up before them. That is the popular medical test, though there is also a more scientific one. Eventually the victim to tobacco blindness sometimes loses his eyesight altogether.

M'KINLEY MEMORIAL

President Lays Cornerstone of College at Washington.

TOUCHING TRIBUTE BY MR. HANNA.

With Voice Tremulous With Emotion the Martyred President's Friend Speaks of His Many Virtues.

WASHINGTON, May 15.—In the presence of a large audience President Roosevelt yesterday laid the cornerstone of the McKinley Memorial Ohio College of Government of the American university, located a few miles outside this city, in the northwestern part of the District of Columbia. When completed, the building will be devoted to studies embracing diplomacy, municipal government, arbitration, civics and international law.

On the platform beside the president were Secretary of Agriculture Wilson, Secretary Hay, Senators Hanna and Dolliver, Representative Pugsley of New York, Secretaries Cortelyou and Loeb, Bishop Willard F. Mallalieu of Massachusetts, H. B. F. Macfarland, president of the board of District commissioners, and many men prominent in educational and church work.

The ceremonies were opened by a hymn written for the occasion by the Rev. Dr. J. E. Rankin, president of Howard university. Responsive readings from the Proverbs and prayer by Joseph F. Perry, D. D., of Chicago followed. Senator Dolliver of Iowa was then introduced. He spoke briefly of the life and character of the late President McKinley and said that it was fitting that his name should be connected with a school of political science, because he was not only great as a statesman, but he was greatest in his comprehension of the humble duties of American citizenship.

Senator Hanna was the next speaker, and from the beginning of his remarks until the end his voice trembled with emotion. He said:

"This is indeed a very interesting occasion to me. Its associations bring up memories. The laying of this cornerstone, the foundation of this temple of learning to be builded by the public spirited men of my native state, is consecrated to the memory of her dearest son, William McKinley. Pile up your marble, and every stone will mark an incident in his life, of his devotion to humanity and his fellow men. Crown it in the glory of its completion, and he will look down from on high and bless your noble work. It is indeed a noble work. President McKinley was deeply interested in this enterprise, and it was owing to the inspiration of his belief that the people of Ohio were stirred to make the realization of it to meet his views and wishes. It was to him that we looked for our leader not only in thought, but in example. His interest in this university was not because it belonged to a sect of which he was a member, but it was because of his devotion to all public institutions that contributed to the development of his countrymen. He was proud of this beautiful city, where he had spent the best part of his life. He was proud to see it grow in its beauty and in its development, calling together here the representatives of all the people and the highest calling of official life. He knew the A, B, C of that life. He knew the foundation of the principle which was to make his country great, and his experience in public life made him appreciate perhaps more than any other man the value of an institution like this.

"That cornerstone has beneath it a foundation more enduring than granite. It is immortality, and that was the foundation of McKinley's life. Upon this subject I cannot speak as I would, my friends. The memories which come to me on an occasion like this are too painful to dwell on.

"Our martyred president is here today in spirit, and if that sacrifice were needed that we might search our hearts to learn wherein we could do higher and nobler deeds—if that example were necessary to inspire the young men of this country to broader and more liberal and higher motives of social and governmental life, then indeed 'his will, not ours, be done.'"

At the conclusion of his remarks the senator was warmly congratulated by Secretary Hay and President Roosevelt and all within reach.

Commissioner Macfarland, Dr. F. M. Bristol, who was President McKinley's pastor, and Bishop Mallalieu followed with brief addresses.

The speechmaking closed with a brief address by President Roosevelt, who said:

"I am to say but one word. Nothing more need be said than has been said already by those who have addressed you this afternoon, the statesmen who worked with McKinley and the pastor under whose ministrations he sat.

"It is indeed appropriate that the Methodists of America, the men belonging to that religious organization which furnished the pioneers in carving out of the west what is now the heart of the great American republic, should found this great university in the city of Washington and should build the college that is to teach the science of government in the name of the great exponent of good and strong government who died last fall, who died as truly for this country as Abraham Lincoln himself.

"I thank you for having given me the opportunity this afternoon to come before you and to lay the cornerstone of this building."

The president then, with trowel in hand, threw in the mortar, and the stone was lowered slowly into position.

Weather Predictions.

Partly cloudy, with showers; variable winds.

SPORTING NEWS

ON THE DIAMOND.

The Scott Press Works baseball nine will cross bats with the Relief Hose Company baseball team Saturday afternoon on the Myrtle avenue grounds. The game will be called at 3:30 o'clock.

Fred Dixon, the former Hope player, will catch for the Dunellen team Saturday. This is his favorite position and the one which he filled acceptably for the Pond Tool Works team two seasons ago.

J. O. McKelvey, who began the season with the Y. M. C. A. team, has decided not to continue playing. His action is regretted by the management but other matters will engage his attention. In the few games he took part, he showed his old time agility and was counted upon as being one of the strongest men on the team.

Michael Finnerty, the crack Elizabeth twirler, is the latest addition to Manager Muir's aggregation of pennant chasers. He pitched for the Safe Works team last Saturday but was in poor form and did not make much of a showing. He will be given another try Saturday in the game with the Summit A. C. and great things are expected of him.

It is stated by one who knows, that the Y. M. C. A. team has more good batters than any other of the League nines. George Bolsterli, Percy Hand, the three Schoonmakers and George Dupee can generally be counted on for a single, while frequently something better is pounded out. This is a strong advantage and may mean much in putting the association ahead.

William A. Fisher, of Bound Brook, at present on the Rutgers College team, will shortly join forces with the Clinton Avenue team. Fisher is a Bound Brook man but is a graduate of the Plainfield High School and played with the High School in this city. He will probably be placed on short.

Word was received from the Summit A. C. management this morning, that its baseball team would not be able to play in this city Saturday. Manager Muir, of the Safe Works, is negotiating for another team and if he is successful, it will be announced tomorrow.

Gus Feiring did so well at Garwood's game last week, he will probably be reinstated on the Hope team. He did some very good work at the bat beside winning applause for his condor in the field.

Many Honored Her Memory.

At the funeral services of Mrs. Matilda E. Stewart, held yesterday afternoon at 2:30 o'clock at the residence of her daughter, Mrs. Andrew Wilson, of Craig place, a large number of friends were present to pay the last marks of honors to the dead and some beautiful wreaths were placed on the casket. The pall-bearers were Harrison Codington, Wm. H. Combs, David D. Smalley, and George Stewart. Interment was in the Plainfield M. E. cemetery.

Given Judgment in Full.

In the case of Ralph W. Christie against C. M. Fowler, of West Seventh street, before Justice Mosher, yesterday a judgment was rendered for the plaintiff for full amount and cost, and an execution was issued immediately. W. G. DeMeza represented the plaintiff.

BOYS' SECRETARY ENGAGED

Y. M. C. A. HAS SECURED KENNETH ROBBIE FOR THE PLACE.

Will Take Charge of Boys' Work of the Local Association in the Future.

To the Editor of The Daily Press:—To save the boy and get him rightly started in life is a more reasonable and economical method of procedure than to rescue the man after he has gone astray. The Young Men's Christian Association, of this city, realizing the importance of this special work for boys, so successful in other associations, has for a long time considered the question of employing a man who could devote all his time to this important branch of Christian effort, but the increased expense involved in such an undertaking has hitherto deterred them from beginning the work. Realizing, however, that to delay further, when the opportunity is so great, would be unwise, the directors through the committee on boys' work, have secured the services of Kenneth Robbie, who will combine the offices of boys' secretary and assistant to the general secretary, thus materially diminishing the expense which the association would incur if a boys' secretary were engaged and the present assistant retained.

Mr. Robbie, who has had considerable experience as a boys' secretary in New England associations, and who will graduate in June from the Springfield Y. M. C. A. Training School, comes to us very highly recommended as a worker among boys. He is a young man of strong personality and is a good all-round Y. M. C. A. worker, being specially fitted for the work he is to take up in our city. He will be here to assume the duties of the position on July 1, and will attend the New Jersey boys' camp at Lake Wawayanda as one of the boys' leaders. It is hoped that a number of our boys will go with him.

Orra S. Rogers,
Chairman of the Committee on Boys' Work.

PAPER MISLAID.

So Suit Over the Defunct Poultry Company Had to be Laid Over Until Another Term.

The case of the estate of P. M. French against W. H. Schoonmaker, of this city, was called before Judge VanSyckel, at Elizabeth today. As one of the papers in the case was mislaid, the jury was recalled and the matter laid over to the October term of court.

The suit grew out of the recent financial troubles of the Plainfield Poultry Farm Company, of which Mr. Schoonmaker was president and the principal stockholder. The estate is seeking to compel Schoonmaker to take an assignment of a judgment against the company which it is said he had agreed to purchase. In all, the amount involved in the question amounts to about $900.

W. S. Angleman is representing the estate and Craig A. Marsh, the defendant.

To Foreclose Mortgage.

R. I. Tolles, through his counsel, Robert M. Clark, will foreclose the mortgage he holds against L. A. Hummer on the latter's store on Somerset street, and the sale will take place Monday morning at 10 o'clock. The mortgage is for $2,000.

—George Kirch has sold his house and lot on West Fourth street to F. O. Smith, of Somerset street. Papers were delivered today.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. Randolph.

RECEPTION BY VANQUISHED

GIVEN BY DEFEATED COMMITTEE IN MEMBERSHIP CONTEST.

W. C. T. U. Plan to Secure More New Members—Reception Yesterday Afternoon.

An informal reception and tea was given yesterday afternoon at the home of Mrs. Stephen Cahoone, on Watchung avenue, under the direction of a membership contest committee, of the W. C. T. U., which was defeated in a recent contest to secure new members. The idea was that the successful committee should be tendered a reception by the committee failing to secure the greatest number of members. Mrs. R. K. Case was chairman of the defeated committee. The affair also served the purpose of entertaining the new members, there being thirty-three in all.

The president of the Union, Mrs. Elizabeth Parse, made a few remarks and Miss May H. Howlett, superintendent of the Loyal Temperance Legion, gave a five-minute talk concerning the marked progress in her department. Miss Clementine R. Yates spoke briefly, while Mrs. J. W. Yates read an appropriate poem.

A pleasing musical and literary programme was presented. There were piano selections by Mrs. Charles H. Hall, vocal selections and recitations by Miss Marie Newman and violin solos by Miss Bessie Cahoone, accompanied on the piano by Miss Cahoone.

After the entertainment tea was served in the dining room which was prettily decorated in white. Mrs. Amanda Maxson and Mrs. John H. French presided at the table, assisted by other members.

CARPENTERS STRUCK.

Refused to Work With Non-Union Plumbers Who Had Been Brought Here on Account of the Strike.

Because George Leland, a boss plumber, put a non-union journeymen plumber at work on the house that A. D. Thompson is building on Belvidere avenue, the union carpenters employed by James C. Manning, the builder, left the job yesterday afternoon. The men were still out this morning.

Similiar trouble was experienced on the house that Hugh MacMurray is building on West Seventh street, when carpenters left the work this morning because A. M. Griffen put non-union plumbers at work. The plumbers were afterward taken off the job and the carpenters returned.

At the MacMurray house the tinners, employed by A. M. Griffen, also struck but returned to work when the non-union plumber was taken off the job.

The Journeymen Carpenters' Union held an important meeting last evening and while the result cannot be learned, it is understood that they decided to stand together and refuse to work on a job with non-union labor.

PERSONAL.

Mrs. Charles H. Dunavan and daughter, Helen, of Rochester, who have been visiting relatives in this city, have gone to Pennington, N. J., to spend a week. From there they will return home.

Patented Cooling Tank.

Last November T. S. Armstrong, the druggist, applied for a patent on a cooling tank for his grape juice, and this morning he received word from the U. S. Patent office at Washington that the patent had been granted and the proper certificate showing that it had been was received. Already he has received a letter from a Philadelphia party wishing to negotiate for the purchase of the patent.

Dog Was Responsible.

Robert Love, of Duer street, met with a rather painful accident Tuesday evening. While riding along Somerset street on his bicycle he collided with a dog. The shock threw him over the handle bars. His wrist was badly sprained, at present necessitating the carrying of his arm in a sling. Dr. Buchanan attended him.

Mrs. Serrell's Luncheon.

A delightful event was the luncheon given this afternoon at 1:30 o'clock by Mrs. L. W. Serrell, of West Seventh street. The affair was given in honor of Mrs. Serrell's guest, Mrs. Stimpson, of Washington, and many guests were bidden to meet her. The decorations were elaborate and every detail was pleasantly carried out.

Relief Association Election.

The annual meeting of the Firemen's Relief Association, held last evening, resulted in the election of these officers: President, T. O. Doane; vice president, Edward Mosher; secretary, G. Thorn; and treasurer, Joseph Hubbard.

Appointed a County Paper.

At the meeting of the Board of Freeholders at Elizabeth, The Elizabeth Times was appointed a county paper. It was stated yesterday that the request was denied. This was true as regards the caucus held before the meeting.

EASY FOR CITY HIGH SCHOOL

ONE-SIDED GAME WITH JERSEY CITY HIGH SCHOOL ON PITTIS' FIELD.

Plainfielders Scored at Will and Won 18 to 2—Couldn't Hit VanAuken's Delivery.

The baseball game on Pittis Field yesterday afternoon between the Plainfield High School and the Jersey City High School was not a very fancy exhibition of the national game. The Jerssy City aggregation was too easy a proposition for the local nine to make matters exciting.

With the exception of one run in the fifth and another in the seventh inning not a visitor succeeded in making the circuit of the bases. On the other hand Plainfield scored almost at will and piled up eighteen runs in their eight innings at the bat.

VanAuker pitched his usual good game, and Moynihan behind the bat had fourteeen put-outs to his credit. For Jersey City Lillis pitched and Williams caught. In the outfield there was a superfluity of errors on both sides, each having a total of six. But altogether it was merely a practice game for Plainfield and in the latter half they inserted substitutes in some positions to give them a chance to limber up.

The batting order and summary follows:

WORK AT CITY SCHOOLS SHOWN

First of Series of Public School Exhibits Was Held at the Lincoln School Yesterday.

THE WORK DISPLAYED.

Gave Some Idea of the Methods of Instruction Pursued and the Progress Made by the Children—Began With the Kintergarten and Continued Higher.'

The first of the series of exhibits by the pupils of the various public schools of the city was given yesterday afternoon and evening in the Lincoln School. Aside from the fact that these will be the first exhibits of the kind held in recent years, it was the first ever held at the Lincoln School. For this reason there was a special interest in the affair. It was given under the direction of Miss Shattuck, principal of the Lincoln and Bryant Schools, assisted by the teachers of the former school.

The building presented an attractive appearance decorated with flowers, dogwood and American flags. Especially attractive was the hallway leading to the shool rooms. The decorations here were the work of Joseph Morrison, the janitor, who spared no pains and effort in arranging the flowers. Directly overhead was an excellent likeness of Lincoln surrounded by an American flag.

The exhibits were among the best ever shown by children and universal praise was given by the large number of people who visited the school. Starting with the work in the kindergarten, which is in charge of Miss Mabel Powell, the every day efforts of the children, all under six years of age, is remarkable. The many simple, yet practical methods adopted to lead the young minds into proper channels for higher studies, is well worthy of attention. While their studies are more in the nature of play, yet they teach them how to think and lay a foundation for the other branches to follow. All of the work of these little ones showed progress and improvement. They are taught to make various things in paper and to combine colors so that they harmonize.

Then follows the work of the first grade, which is taught by Miss Agnes B. Freeman. Here the studies are a little more advanced. As in the kindergarten the nature work is continued, while drawing from objects and study is a feature. The work of this class attracts much attention for it shows conclusively how well and how much with little effort the children can accomplish. The lessons are quickly grasped by them and their earlier training serves well for the next step.

The work of the second grade, which is in charge of Miss Lucia Wood, gives one a clear idea of rapid advancement. Here the children take up the advanced studies in nature work and they write compositions that are a credit to them. Each grade selects a country as a study for the year and in various ways the fruitful subjects are portrayed both in picture and composition.

Miss Agnes Morey has charge of the third grade, and while she has only had the class since March, the children have exhibited some clever work. In the preceding grade the children are taught ratio in a simple fashion, while in this grade it is more advanced and leads the child to compute easily and quickly. The sketch work is also worthy of special mention and the work of composition.

Miss Mildred Titsworth is the teacher of the fourth grade, the last in the primary department, and here there is a marked advancement in the various studies. The compositions on selected subjects are well put together and written in a commendable manner. The method of teaching arithmetic is so simple and easy that the children have been able to do some difficult examples.

The fifth and sixth grades combined are in charge of Miss Caroline Lee. This teacher, as well as all the others, is very proud of the work of her class. The drawings in charcoal, ink and paints is some of the best yet shown and would do credit to persons much older. Miss Lee is fortunate in having in her class a born artist, Miss Eva Kelly. This pupil has executed some clever work from objects and study, while the others in the class

FREEHOLDERS ELECT.

The Middlesex County Board Chose Officers at Its Meeting Wednesday Noon.

(Special to The Daily Press.)

New Brunswick, May 16.—The Middlesex County Board of Freeholders met Wednesday noon and organized for the coming year after being sworn in by Justice Sedam. Asbury Fountain was unanimously re-elected director of the board. The salaries of officers were made the same as last year, excepting as to county physician and road supervisor. The former was made $720 and the latter $800.

Robert J. Dougherty was re-elected county engineer and Dr. Edgar Carroll was re-elected county physician. After the organization was perfected the board adjourned to a restaurant and enjoyed a feast at the expense of the new officers.

QUIETLY WED AT CHURCH

MARRIAGE OF MRS. LILLIAN E. REEVES AND CARL D. PFENDER.

The Ceremony Took Place at Grace P. E. Church Yesterday Afternoon.

In the presence of immediate friends and relatives a quiet but very pretty wedding was solemnized in Grace P. E. church, yesterday afternoon, when Mrs. Lillian E. Reeves, of New York, was united in the bonds of matrimony to Carl Depew Pfender, son of Carl Pfender, of East Sixth street.

At sharp 3 o'clock, just as the strains of the Lohengrin wedding march began to fill the edifice, the bride and groom entered the church and walked slowly up the aisle. She was clad in a beautiful gown of light blue silk and carried a large bouquet of bridal roses. The only attendant was a page, the young son of Mrs. Reeves, Willie, dressed in white and bearing a bunch of white carnations.

After the nuptuals were complete, the newly married couple, to Mendelssohn's march, proceeded down the aisle again and left the church followed by the good wishes of their friends. Mr. and Mrs. Pfender started last evening on an extended honeymoon trip to the south. On their return, they will board on Watchung avenue.

In honor of the event, the altar of the church was decorated with dogwood and white lilacs, and the lectum and pulpit were hung with the same flowers. The ceremony was performed by Rev. Erskine M. Rodman. Mrs. W. A. Freeman presided at the organ.

MRS. SAUNDERS' MUSICALE.

Entertained Musical Club at Her Home Yesterday Afternoon.

Mrs. William L. Saunders, of Rockview avenue, entertained the Musicale Club at her home yesterday afternoon, when a delightful programme was presented. There were piano solos by Miss Saidee Mae Howell, vocal solos by Miss Grace Carroll and Raymond A. McGee, violin solos by Mrs. Calkins, while William E. MacClymont also gave selections on the piano. This was the last meeting for the season and it was equally as enjoyable as those held during the past season.

TWENTY-THREE NEW MEMBERS.

Rescue Mission Held Meeting and Seems to be Flourishing.

Over one hundred attended the Rescue Mission meeting in the First church of Christ last evening. A programme of vocal and instrumental music was presented. There was a solo by Mrs John Manley, also a solo by John Goodwin, and a duet by the Misses Jennie and Alice DeMott. At the close cake and lemonade was served to all. Last evening twenty-three new members signed the roll.

Ran Down Young Woman.

A team, driven down Park avenue, crashed into a bicycle ridden by a young woman at the corner of Fourth street last evening. The front wheel of the bike was badly smashed but the young woman escaped uninjured. The driver of the team did not wait to see the extent of the damage.

Street Railway Sprinkler Out.

The Elizabeth, Plainfield and Central Jersey Street Railway company's sprinkler, made its appearance on the local streets through which the trolley tracks pass, yesterday, for the first time this season. It brought joy to the hearts of suffering residents along the lines who have been breathing air which had to be sifted before it could be used.

CONCERT BY PUPILS OF P. LUDWIG CONDE

This Annual Musical Event Was Given at Y. M. C. A. Hall Last Evening.

SELECTIONS BY PUPILS.

W. PAULDING D'NIKE AND WM. E. MACCLYMONT ASSISTED MR. CONDE.

One Selection by Mr. Conde Himself Was a Treat—Yonthful Pupils Also Took Part—Most of the Selections Were on Violin.

Pupils of P. Ludwig Conde gave their annual concert before a large attendance of freinds, in Y. M. C. A. Hall, last evening. They were assisted by W. Paulding DeNike and William E. MacClymont with Mr. Conde in entire charge. The programme was one of the most complete and enjoyable that any class of pupils of this talented musician has ever given.

The programme was in two parts and with but few exceptions were selections on the violin, with one, two and seven instruments. A group of seven youthful pupils, the Misses Emma Almer Bohren, Edith Hinchcliffe, Edna Sheidt Conde, Masters Tracey Howard, George Linke, Charles Eoff and William Schure, rendered two numbers in remarkably well balanced style. Their first selection, from the "Bohemian Girl,' in regard to unison was all that could be desired. Its execution reflected credit on their instructor. The other number was the fifth air Varie sur un Theme de Weigel, by Dancla.

Miss Virginia Ketcham and Miss Charlotte Cave, two advanced pupils, contributed a violin duet, symphonie Concertante, from Dancla, which was a decided treat. They were encored and responded with a second number. A trio, composed of P. Ludwig Conde, violin; W. Paulding DeNike, 'cello; and William E. MacClymont, piano; furnished one of the most delightful numbers on the programme and responded to an encore. Mr. Conde allotted himself one number on the programme and seemingly surpassed himself in the interpretation of Ernst's Ungarische Melodien. It was rendered with a depth of feeling that demonstrated the ability he possesses. Mr. DeNike, in his 'cello solos, displayed the ability which has made him such a favorite in Plainfield.

The remaining numbers on the programme were furnished by a stringed orchestra composed of pupils in various stages of advancement. The programme in detail was given in yesterday's Daily Press.

TOLD ABOUT REAL ONES.

New Member Gave Red Men a Talk on the American Indians.

Wetumpkah Tribe, 229, Improved Order Red Men, met last evening and adopted one. Dr. Merrimen, who recently joined the tribe, was present and gave an interesting talk about the life, habits and customs of the Indians. He also explained the significance of the paraphernalia of the Indians. Dr. Merrimen presented the tribe with a handsome mat and he gave the sachem a pouch in which to carry the pipe of peace. After the meeting the members enjoyed a smoker.

Plainfielders Honored.

At the forty-fourth annual convention of the Royal Arch Masons of New Jersey, held at Trenton, Wednesday, officers were elected for the ensuing year. Among those honored were Dr. D. C. Adams and Jacob Kirkner, of this city who were made grand principal sojourner and grand master, third veil, respectively.

Cut on Glass.

While playing near her home on Wednesday, Catherine, the little daughter of Mr. and Mrs. John Carney, of East Fourth street, accidentally fell and cut a deep gash in her right hand with a piece of glass. Dr. Long dressed the wound.

Examination for Cadets.

There will be another examination for places as officers of the battalion, held at the High School, tomorrow morning at 8:30 o'clock. The examination is for those who were absent from the first test or who may have failed at that time.

All Danger Over.

Health Inspector Addis has thoroughly fumigated the home of John Crowley, where there were cases of small-pox, and he has also disinfected those at the home so that there is no further danger at that house.

JUNIORS AIDED AT FUNERAL

SERVICES IN MEMORY OF CHAS. C. LISTER HELD YESTERDAY AFTERNOON.

After Short Service at the House, Others Were Held at First M. E. Church.

Following a short service at his late home on Willow avenue for the immediate family, obsequies over the remains of Charles C. Lister were held in the First M. E. church, yesterday afternoon. They were in charge of Rev. Dr. W. C. Snodrgass who delivered an impressive sermon before a large gathering of relatives and friends.

William E. MacClymont presided at the organ. During the service two selections, "Asleep in Jesus," and "Abide With Me," were rendered by a quartette composed of George O. Stevens, E. E. Runyon, William E. MacClymont and William N. Runyon. Somerset Council, No. 104, Jr. O. U. A. M. attended in a body and after Dr. Snodgrass' address, the burial service of the order was read by Harry G. Adams. The remains were afterwood taken to Millstown, Pa., where interment will be made today.

Those who acted as pall bearers were S. P. T. Wilbur, J. J. Kenney, Clarence E. Teel, Fred Viewig, Nathan R. Titsworth and William N. Runyon.

BOYS' CLUB'S EXHIBITION

ANNUAL DISPLAY OF ITS WORK WAS SHOWN LAST EVENING.

Some of the Special Articles Exhibited Which Were Deserving of Mention.

The Boy's Club gave its annual exhibition last evening. There was a most creditable display of work including cabinet-making, moulding, pattern-making and mechanical drawing. But there was nothing specially prepared for the occasion. The exhibition was simply an example of the regular work performed by the boys throughout the season.

Parents and friends of the boys called at the club last evening and under the guidance of Olaf Saugstad, the superintendent, reviewed the work, and were shown through the various departments. Among the visitors was Edward F. Milliken, of New York, who takes a great interest in the affairs of the club and is one of its heartiest supporters.

Among the very creditable exhibits was a pillow block, a fine piece of mechanical drawing by Alex. Boyd, also a drawing of a shaft coupling by John Berry. In the wood-wook exhibit was a large moulding pattern by Thos. Reilly, an especially fine tool chest by Wm. Reynolds; a cabinet table and flower pot rack by John Donnelly; and other creditabe work by Jack Snedicker, Geo. O. Meal, Freddie Hogan, Edward and John Honey, John Keefe, Chas. Arnold, Allen Fulmer, Dan McAfee, Geo. Moore, Jack Kilbride, Eddie Sheller, Harold Gloak, Geo. Green, Henry Haurand and Eddie Byrnes. In the moulding department a number of inscribed plaster of pairs tablets deserves special mention. They were the joint work of Seymour VanBlake and Burt Harrison.

The Boy's Club is open every evening except Sunday from 7 to 9 o'clock. Four nights a week are working nights, and the other two are devoted to gymnastic exercises. Last year the club was open 210 nights with an agreeable attendance of 4,808.

REDEEMED PROPERTY.

James E. Martine Paid Tax Indebtedness and Deed Was Not Given to Mr. Arens, New Purchaser.

Otto Arens did not get his deed yesterday for the twenty-five acres of land, which belonged to James E. Martine and which Mr. Arens purchased May 7 from the city under the Martin Act. Yesterday afternoon at 5 o'clock was the time set for the delivery of the deed, but in the afternoon Mr. Martine paid the tax indebtedness on the property and was given possession of it.

When Mr. Arens called at 5 o'clock for the deed he then learned that Mr. Martine has secured his property. He was free to express his opinion of the transaction. He threatened to sue Collector Smith and refused to accept the notice of redemption. This was mailed to him by Collector Smith.

Rev. W. Bryce Morrow, of East Fifth street, attended the triennial reunion of the class of 1863, at the General Theological Seminary, New York, yesterday.

FOURTEEN YEARS OF ENDEAVOR AT WARREN

Christian Endeavor Society Celebrated Its Anniversary at the Chapel Last Night.

PROGRAMME PRESENTED

MUSIC AND RECITATIONS FOLLOWED ADDRESS AND REPORTS.

Endeavorers From Other Societies Were Present—Address by Rev. E. L. Earp on Work of the Society—Reports Showed Growth.

The Christian Endeavor Society of Warren chapel celebrated its fourteenth anniversary last evening. A large number of the Endeavorers and their friends gathered in the church where a suitable programme was presented for the evening's entertainment. A number of Christian Endeavorers were present from other churches, including an especially large delegation from Hope chapel.

After an address of welcome by Rev. J. O. McKelvery, there were selections by the choir, reports by the treasurer and secretary, and an able address by Rev. E. L. Earp besides musical and vocal numbers. A vocal solo by Mrs. Nagle, accompanied by Mrs. J. O. McKelvey, was heartily appreciated; a cornet solo by Mrs. Anderson, accompanied by Miss Margaret Sheppard, was greeted with merited applause. A selection, "The Little Angel," by Miss Helen Harrison deserves special mention. The evening's entertainment closed with a selection by the choir, accompanied by Chas. Wheeler on the organ. Rev. Mr. Earp's address was on the value of Christian Endeavor work.

The treasurer's report read by Arthur Beekman showed a satisfactory state of affairs. The secretary, Miss Mary Christof, reported that eight active members and three associate members had been added during the year. The full membership is now fifty-eight active, six associate and twenty-seven honorary. During the year forty-nine meetings were held with an average attendance of thirty-nine, an increase of ten over the previous year.

The missionary committee held six meetings; $29.98 was sent to foreign missions and $7.01 to home missions; $4 was sent to Westfield fresh air camp and $4.26 was subscribed to the work of Miss Mair in Africa; $8.36 was given to Mr. and Mrs. E. R. Taylor for city missionary work, leaving a balance on hand of $2.70 in the foreign fund, and 98 cents in the home fund. At Christmas $24 was spent in purchasing dresses which were sent to the poor in New York, and homes were furnished for a few weeks in the summer for two children from that city.

The report of the junior secretary, owing to a slight misunderstanding, was not presented.

NOBODY TRIED.

One Was Remanded and the Other Did Not Appear in the City Court at All.

In the city court, this morning, John Callahan was again remanded for trial. He will appear tomorrow morning.

Harry Huff, who was arrested at the depot, Wednesday evening, and was released on his own recognizance, yesterday morning, failed to appear at today's session. He will be asked to explain when seen by any of the patrolmen. The complaint against him was made by John Keeley and not John Lynch as was stated in yesterday's Press.

Benjamin Olmstead was arrested, yesterday afternoon, at the request of his son. He will be given a hearing tomorrow afternoon.

High School Entertainment.

The fourth class of the Plainfield High School has arranged an entertainment at the Franklin School hall for tomorrow evening. It is for the benefit of the athletic association of the school. The programme will consist of a kinder symphony, in which the young people of the class will appear in costume, and a pantomime, the "Ballad of Mary Jane." Dancing will follow the entertainment.

In Justice Hand's Court.

Summons have been issued from Justice Hand's court in the contract case of Spicer and others against W. S. Pound. They are returnable May 22. The case of Hetfield & Hetfield against Glaser, in the same court, was settled in full by the defendant, yesterday afternoon.

THE BOARD ORGANIZED.

First Meeting of Somerset County's Board of Freeholders—The Officers Were Elected.

Somerville, May 16—The new Somerset county Board of Chosen Freeholders met in the court house here Wednesday and organized. Wm. J. Logan, of Bridgewater, was re-elected director without opposition. For counsel, John A. Frech, of Somerville, was chosen. Dr. S. O. B. Taylor, of East Millstone, and Dr. F. C. Sutphen, of Bernardsville, were nominated for county physician and the former was elected on the first ballot, the vote standing eight to two. Joshua Doughty, Jr., of Somerville, was re-elected county engineer. The term of Clerk Sutphen did not expire.

After the usual number of bills had been passed other routine business was transacted.

RECEPTION TO NEW RECTOR

GIVEN BY ST. STEPHEN'S EPISCOPAL CHURCH YESTERDAY AFTERNOON.

Reception Held at Reinhart Cottage —Those Who Assisted in Receiving the Guests.

The reception yesterday afternoon, given by the women of St. Stephen's Episcopal church, was one of the gala events of the season. The reception was tendered in honor of the new rector of St. Stephen's, Rev. Wm. Vincent Dawson.

Five hundred invitations had been sent out and during the three hours from 4 to 7 o'clock upwards of four hundred guests called at the Reinhart cottage on Belvidere avenue where the reception was held.

The guests were welcomed by a receiving committee upon which served Mrs. S. S. Guion, Mrs. W. P. Smith, Mrs. Elizabeth Wright, Mrs. R. S. Miller, Mrs. Hugh Knox, Miss Edith Clark, Mrs. A. J. Beal, Mrs. William Whelan and, Mrs. William Wheeler. Tea was poured by Mrs. W. F. Platt, Miss Clara Davison, Miss Florence R. Beal, Miss Blanche Miller. Those who served the tea were Miss Georgiana Smith, Miss Marguerite VanDeventer, Miss Frances VanDeventer, Miss Maida Hyde, Miss Grace Burke and Miss Charlotte Finch.

The rooms of the delightful cottage were elaborately decorated in honor of the occasion. Pink and white were the prevailing tints. Rich clusters of dogwood hung around the windows and on the mantel pieces both in the library and dining room, while other native flowers effectively placed with a becoming distribution of palms, ferns and potted plants, completed the floral adornments.

Mrs. J. H Buckley at the piano, M. A. Korff and Dr. J. F. Berg, violinists, were an orchestral trio that during the afternoon regaled the guests with pleasant musical renditions.

DID MIGHTY THINGS.

Band of Local Fishermen Have Returned From Lake Hopatcong.

The Plainfield fishermen, Floyd T. Woodhull, Edson C. Martin, Rev. J. W. Richardson, Dr. Ellis W. Hedges and F. C. Langhorne, returned last evening from Lake Hopatcong, where they spent several days at Mr. Woodhull's cottage. The party enjoyed fishing every day in the lake and about thirty-five pounds of fish, pickerel and perch, was brought home. The entertainment at the cottage by the host was all that one could desire, and with a capable chef, Herbert Smith, the inner man did not want for good things.

For Young Women's Club.

The net proceeds of the Men's Choral Club concert, to be given at the Casino Tuesday evening, May 27, are to be given to the Young Women's Club, not Young Men's Club, as stated in issue of yesterday.

One Less Peddler.

Sentence was suspended on Abraham Cohen, in the city court, yesterday afternoon, after he pleaded guilty to peddling without a license. He promised to leave town and never return in a business way.

Annual Inspection.

Company K will have its annual inspection in Saengerbund Hall, this evening. The hall will be opened at 7 o'clock for the benefit of those who wish to put their guns in condition.

Opening of New Mission.

W. F. Richards will go to Orange next Sunday to speak at the opening of a new mission just established there. He will be accompanied by John Goodwin.

JUROR THOUGHT THERE WERE TWO OF THEM

Told the Smooth-Faced Mr. Marsh That He Was as Good as His Brother With Beard.

IN CASE AT ELIZABETH.

FRENCH ESTATE-SCHOONMAKER SUIT WAS ADJOURNED AFTER ALL.

Juror Had a Back-Handed Compliment for Craig A. Marsh After Trial Was Ended—Case Comes Up Again in October Term.

An amusing incident occurred in the court room on the trial of P. M. French estate against Wm. H. Schoonmaker, before Judge VanSyckel, at Elizabeth, yesterday.

The French estate has been trying to get to trial for several terms of court. Craig A. Marsh, who is counsel for Mr. Schoonmaker, on the other hand, has been trying to put the trial off until Mr. Schoonmaker, who went abroad for over a year, could be present and testify on his own behalf or his disposition could be procured. He succeeded on one ground or another in putting it off until yesterday when Mr. Schoonmaker's disposition was received from Venice. The trail was then begun.

When Elston M. French was examined, Mr. Marsh raised technical objections which, after argument on both sides, were sustained by the court, and the French estate was then driven to ask that the jury be discharged and the trial postponed to next October. This was consented to on condition that the French estate pay the costs, and the court so ordered. Mr. Schoonmaker will be back by that time.

One of the jurymen stepped up to Mr. Marsh and, in offering his congratulations, said:

"Why you are as good as your brother."

Mr. Marsh inquired what the juror meant and the latter replied:

"Why your brother who wears a beard and moustache, Craig Marsh."

Mr. Marsh and the by-standers laughed heartily as it was explained to the juror that he was addressing Craig Marsh who had parted with his moustache and berad. But the juror had the last laugh for he quickly retorted.

"Well, you used to be a good looking man, but I can't say so much for you now."

BAZAAR CONTINUES.

Programme Given Last Evening and Euchre Tonight.

At the bazaar at St. Joseph's academy last evening a very pleasant entertainment was given. Besides selections by the church choir, Miss Josie Smith sang a solo "The Finch and the Robin," which was heartily encored. Miss Smith and James Baiey sang a duet, "The Adieur," and an encore.

The afternoon sale continued as usual every day. This evening will be given over to euchre and tomorrow evening the bazaar will close with an elaborate well-prepared programme.

DEATH OF MRS. GODOWN.

Attack of Appendictis Proved Fatal, Despite the Operation Performed.

The death of Mrs. William Godown, of West Second street, occurred at Muhlenberg hospital, early this morning. She was operated upon for appendicitis, yesterday afternoon, but the disease was too far advanced when detected and she failed to rally.

Mrs. Godown was in her twenty-ninth year and is survive by a husband and two children. She also leaves a mother, Mrs. Newman and one brother, William Neuman, of West Second street.

Second Gerritt Smith Recital.

The second of the Gerritt Smith recitals which will be given in this city Tuesday evening, will be held at the home of Mrs. J. K. Myers, of East Seventh street. The first took place in the Y. M. C. A. and it was originally planned to hold the second there.

Ackerman Cup.

The first play for the Ackerman Handicap cup for women will be played tomorrow on the Hillside Tennis and Golf Club. This competition promises to be of the most interesting of the season.

Meeting of League.

There will be a meeting of the local baseball league Saturday evening when the umpires and scorers for the season will be appointeed.

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

When you go on an afternoon drive it is an added pleasure to have one of those nobby rigs from Love's livery stable, East Second street.

T. S. Armstrong, the druggist, is selling a fine Reina Fina cigar at a reasonable price. Lovers of Lady Nicotine should try this smoke.

VanWinkle, on North avenue, can let you a bicycle for a day's outing or sell you one at a rockbottom price. A splendid stock always on hand.

An expert in every branch of the business, Brown, of Watchung avenue, is prepared to do all manner of clock and watch repairing. Give him a trial.

The Paris Cloak and Fur Store on West Front street is enjoying a steady increase in trade, due to honest work and good goods. Ready-to-wear suits or made to order ones for women are a specialty.

When a house is properly papered and painted it is made not only attractive but more valuable. The New York Painting and Decorating Company can do this work for you to suit your taste and price.

No matter how well dressed a woman is if she does not have on a stylish hat, she does not appear to the best advantage. Bonn, of West Front street, has a happy faculty of selling the stylish kind at reasonable prices.

R. H. Keenan, the East Fifth street grocer, knows what his customers want and doesn't attempt to foist something else on them. That's the secret of his success. The people want fresh, standard groceries at reasonable prices and they always get suited at Keenan's.

Neuman Brothers, the Watchung avenue grocers, are far ahead of their competitors in the vegetable and fruit line. When an article is scarce they make an effort to procure it for their patrons and they generally succeed. They have been selling Maryland strawberries for the past week while other grocers are just getting their first shipments.

PERSONAL.

Ernest H. Rapalje, of Carlton avenue, has gone west on a week's business trip.

George Voehl, Jr., of West Front street, is much improved from a recent severe illness.

Miss Avery, of Croton Falls, has been the guest of Mrs. H. Foster Opdike, of Crescent avenue.

Rev. J. A. Metz, of Somerville, who has been at the hospital under treatment for eye-trouble, is greatly improved.

William Killiger, of Somerville, has returned home from the hospital much improved from ear trouble for which he was treated.

Mrs. Catherine Honan, of West Fourth street, who has been quite ill with pneumonia, has taken a decided turn for the better.

Chris Sorensen, Jr., of Webster place, who has been doing a vaudeville turn in Pittsburg with Gardner Brothers, will be home Monday for a week's stay.

Miss Edyth Haffner, the little daughter of Frank Haffner, of East Sixth street, whose skull was fractured by a fall from a window, is improving steadily. Dr. Adams is in charge and has hopes of her speedy recovery.

Dangerous If Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartly, Yankeetown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. L. W. Randolph.

COMPANY K ORDERED TO THE STATE CAMP

Orders for Entire Second Brigade, Including Second Regiment, Have Been Issued.

WILL GO AWAY IN JULY.

EACH REGIMENT WILL BE IN CAMP FOR A WEEK.

The Soldiers Will Receive Pay and Transportation—Encampment Begins July 14 and Lasts to July 26 —Rifle Practice Orders.

A meeting of the State Military Board was held at Trenton, Tuesday, after which orders were issued from the Adjutant General's office for the annual encampment at Sea Girt and also for a camp of instruction in rifle practice.

The latter will be held between May 30 and September 15, while the second brigade will be in camp from July 14 to July 19 and from July 21 to 26. Company K, of this city, is part of the Second regiment.

The orders for the encampment of the brigade are as follows:

"Permission is hereby granted the division commander to order an encampment at the State camp grounds, Sea Girt, New Jersey, from July 14 to 19, both inclusive, and from July 21 to 26, both inclusive, of the several commands comprising the Second Brigade, National Guard and such additional troops as he shall direct, provided the entire cost of the encampment shall not exceed the amount allowed by law.

"Transportation, camp equipage and subsistence will be furnished by the quartermaster-general upon requisition duly approved.

"The troops so encamped will be paid by the paymaster-general as provided for in paragraph 55 of 'an act governing the military and naval forces (revision of 1900),' approved March 22, 1901.

"Permission is also granted for the commands so ordered to enter camp on July 12 and July 19, respectively, provided it is understood that the troops so ordered will receive no pay for the two additional days."

That portion of the orders relating to "such additional troops as he shall direct" refers to Captain Opdycke's signal and telegraph corps, which will have its first encampment during the summer. The order also admits, if the appropriation is sufficient, the bringing of one, two or possibly more of the new companies of infantry to the State camp grounds for a few days should Major General Wanser so direct.

The second brigade is composed of the Second regiment, of which Company K, of this city is a part, the Third regiment, of Camden; Battery B, field artillery, of Camden, and the Second Troop Cavalry, of Red Bank. Each regiment will have a week in camp and the designation of the week to which each is assigned will be contained in the subsequent orders to be issued by the division commander.

While the periods of the encampment as designated begin on a Monday and end the following Saturday, it is the intention to follow the practice established last year, namely, to have the men go into camp the Saturday before the designated date. This will give the men two extra days in camp, for which, however, they will receive no pay.

The orders issued for the camp of instruction in rifle practice are as follows:

"During the period from May 30, 1902, to September 15, 1902, a camp of instruction in rifle practice is hereby established on the rifle range at the State camp, Sea Girt, New Jersey.

"The range and camp of instruction in rifle practice will be under the command of the inspector-general of rifle practice, an assistant inspector-general of rifle practice, or an officer detailed to the department; but in case no such officer is present, the senior inspector of rifle practice of the detachments on the range will have full charge."

The carrying out of these orders will enable every guardsman to secure practice on the rifle ranges.

HOW JERSEY PLANS TO KILL MOSQUITOES

State Entomologist Smith Outlines What Ought and Ought Not to be Done.

TO DIRECT OPERATIONS.

THE ACTIVE WORK OF CAMPAIGN WILL BE LEFT TO MUNICIPALITIES.

State's Share Will be to Exercise General Supervision Over the Actual Operations — Gives Some Interesting Facts.

Interest in the movement in this State to discourage and suppress the mosquito is increasing.

It seems pretty plain that the campaign against the mosquito must be waged chiefly by those municipalities in the State that are tormented by this venomous insect. The law authorizing Professor John B. Smith, the State entomologist, to tackle the mosquito did not, as most people have supposed, contemplate the prosecution of a warfare of extermination by the professor. It simply provides that he "is hereby empowered and directed to investigate and report upon the mosquitoes occurring within the State, their habits, life history, breeding places, relation to malarial and other diseases, the injury caused by them to the agricultural, sanitary and other interests of the State; their natural enemies and the best method of lessening, controlling and otherwise diminishing the numbers, injury or detrimental effect."

The professor's function under the law, in short, is to find out and tell the people of New Jersey how most effectually to destroy mosquitoes, not to destroy them himself. Unfortunately the Legislature failed to appropriate the $10,000 provided for carrying the act into effect, but the Governor will spare $1,000 out of the contingent fund toward meeting the expense involved in the prosecution of Professor Smith's investigations. The professor will pursue these investigations along the lines he had already marked out and also in connection with the campaign against the mosquitoes resolved upon by several municipalities.

Professor Smith has outlined to a reporter the condition that confronts the State, and the sensible methods of dealing with it. "For the present," he says, "no comprehensive plan of campaign can be formulated for lack of that knowledge which only a thorough study of the problem can give, but it is possible to make some suggestions as to methods by which the local breeding places may be destroyed entirely, or, at least, made less troublesome.

"It is positively determined that all of the New Jersey species of mosquitoes pass their early stages in water, and it is fairly well established that, except for the salt marsh or ring legged species, none travel very far from their breeding places. It is, further, quite certain that only a few species ever enter houses or become troublesome about them. The salt marsh form must be dealt with by a comprehensive, co-operative plan, and is beyond the reach of local control; where this is the dominating species local methods will have little effect in lessening the mosquito plague. All the other species may be materially lessened by local work, as follows:

"1. Till or drain all sunken lots or dumps in or near cities and towns where rain or other surface water accumulates.

"2. Cover all water barrels or tanks with close meshed mosquito netting and keep them covered throughout the summer.

"3. Treat all shallow cisterns in the same way, or keep them so tightly covered that mosquitoes hatched therein cannot escape. A few goldfish will serve to free the water from eggs or larvae if close covering is impracticable.

"4. Cesspools should have the vents and other openings guarded by wire mosquito netting, and any pipes leading into them should be trapped between the house and pool. If they cannot be so guarded crude petroleum or fuel oil should be applied at intervals of not more than three weeks from May to October, in quantity sufficient to form a film over the surface.

"5. Gutters in cities and towns should be kept clean and in such condition of repair that pools of stagnant water cannot accumulate.

"6. All depressions in which rainwater may accumulate and remain for a week or more should be filled up; or, if that be impossible, covered with oil at intervals of two of three weeks until dry.

"7. No receptacle of any kind, from a tin can up, capable of holding water should be left about houses, yards or lots.

"8. Swampy areas should be drained, if it is possible to do so cheaply,

otherwise they should be ditched so as to draw the water to the deepest part, to form a pond. Stock this with sunfish, goldfish or top minnows, and trim the edges so as to leave no shallows to which the fish do not have free access.

"9. Natural ponds should have the edges trimmed and grassy shallows along the margins cleaned and deepened, so that fish may be able to reach the extreme edge at all times. Many ornamental ponds in which mosquitoes now breed in great numbers can be made perfectly safe with very little labor or expense. If there are no fish in such ponds naturally, they should be stocked with goldfish, sunfish, minnows and others, according to circumstances.

"10. In running streams mosquitoes breed only in the shallow margins or in eddies near the banks where there is no current. Improving the banks is indicated here also, as well as stocking with fish. In the enforcement of some of these suggestions the local boards of health should furnish assistance, since the subject comes fully within their province.

"Other suggestions come under the province of the department of public works in cities. It should be distinctly understood that these suggestions apply only where the salt marsh mosquito is not a factor, and that in recommending oil it is not intended to exclude other materials that may accomplish the same purpose as well or better."

WHAT OTHERS SAY.

Clippings From Other Newspapers Which May be of Interest to Plainfield and Its Citizens.

Just as might have been expected. That Erie Railroad order forbidding the showering of rice on bridal parties in the cars and on the platforms of that road, has not stopped that pleasantry at all. The station agents report that the car sweepers find a peck of rice now where they only used to sweep up a quart. What railroad employe would have the nerve to interfere with the rice throwers! This was the time when the Erie miscalculated its powers.—Jersey City Journal.

Low-Rate Tour to the Yellowstone Park via Pennsylvania Railroad.

GETTING READY AT TUNNEL

PREPARING TO SET UP NEW MACHINERY FOR DIGGING PURPOSES.

Activity at Jersey City End of the Old Hudson River Tunnel Still Continues.

(Special to The Daily Press.)

Jersey City, May 16—Preparatory work for the actual active operations at the New York and New Jersey Railway Company's North River tunnel, at the foot of Fifteenth street, still continues. A force of men has been tearing out a quantity of old machinery and brick work during the past few days and in general preparing the place for the reception of new and up-to-date machinery.

One of the four observation towers ordered from Andrew J. Corcoran has been completed and set up in position near the foot of Fifteenth street, and another tower at the foot of Twelfth street will be finished in about ten days.

The old wooden building enclosing the engines, boilers and compressors is to be torn down and a more substantial and commodious one erected.

About 200 electric light supports have been delivered at the works and they will be fitted up in the tunnel. Each support will carry four electric light bulbs. With this liberal plan of lighting the tunnel bore the workmen will be enabled to work more comfortably and expeditiously.

Much more than was expected yet remains to be done before the great undertaking is placed under full headway again, but the engineers in charge are "making haste slowly," and every possible contingency will be provided for.

Between twenty and thirty men are employed at present at the tunnel works, but as order is evolved out of the present chaotic conditions, skilled labor will be employed.

The sub-contracts have not yet been awarded, but they may be given out in a few weeks.

THEATRICAL.

A European novelty is promised for next week at Keith's Union Square Theatre in New York, which will undoubtedly create a tremendous sensation, and prove one of the features of the current season. Winscherman's wonderful troupe of trained bears have never before been seen here, but the press of Europe has been unanimous in heralding them as marvelous. A monkey acts as a clown for the troupe and the critics declare him to be the best trained specimen of these naturally funny animals. O'Brien and Havel will also appear with their familiar eccentric acrobatic comedy sketch, and Yorke and Adams will sing and tell their famous Hebrew parodies and jokes.

W. H. Murphy and Blanche Nichols in "The Bifurcated Girl;" three Rio brothers, expert ring performers; Geo. W. Day, blackface monologuist; Lew Simmons and Frank White in their farcical hit "Git in de Band Wagon;" Bush and Bush, acrobatic grotesques; the Hobo Quad, comedy singers; Frederick Howard, comedian and dancer; are a few of the stars who will compose next week's brilliant programme at "The Home of Vaudeville." The biograph and stereopticon will show new and interesting moving views of foreign and local importance, and altogether a gala week is assured.

TEA TABLE TALK.

Short Sketches That Are Not Always News, But Just as Interesting.

A business merchant of the city, in speaking of the practice of boys in riding their bicycles on the sidewalk, remarked that one cannot expect any thing else from the boys when they see their elders riding on the sidewalks in the business section of the city.

A curious stranger stood at the corner of West Second street and Central avenue last Monday evening. His twilight dreams were still lingering, but a shrill sharp blast from the fire whistle suddenly recalled him back to earth. When a glance over his shoulder revealed the presence of the blaze a happy thought struck him—he would test the alertness of the men whom Plainfield pays for protection from the fiend. He pulled out his stop-watch and innocently began what he imagined might be a weary vigil, but ere fifty-six seconds had passed away the apparatus had rolled up by his side. When the stranger put his watch back in his pocket he was heard to say that Plainfield had superceded the electric age.

Considering the fact that it takes about nineteen seconds for an alarm to come in, and that the department had to cover a course of almost a quarter of a mile, the record of fifty-six seconds was certainly alacrity of a superlative order. Can any other city beat this?

Raymond Mosher, of Elmwood place, who is quite ill with pneumonia, still continues about the same. A crisis is looked for today.

LONG IN SERVICE.

Among the public officials who make their home in Plainfield, there are few, indeed, who have served so long and faithfully as Captain J. Frank Hubbard, who has just been elected director of the Union county Board of Freeholders for the fourteenth year. It is his thirty-fourth year as a member of the board. Under his direction, the county has grown to be one of the most important in the State. While he has been the head of the controlling body of the county, one of the finest systems of good roads has been built and maintained at county expense. Today, Union county is famed throughout the State for its fine roads. Then, too, a progressive policy regarding bridges has been followed out.

For some reason, it is comparatively seldom that the public hears of Director Hubbard. He goes about his work quietly and, having done his duty, has but little to say. He has, however, many warm friends who know and appreciate the good work he has done since he has held that official position. There are few men who have the thorough knowledge of county affairs that he possesses, and so, for that reason particularly, he is a very important factor in the proceedings of the board.

Besides its re-election of Captain Hubbard, the Board of Freeholders returned to office two other men well and favorably known in Plainfield. Former Assemblyman W. R. Codington, who is again county attorney, has already shown his ability to fill that office to the general satisfaction of all. As county physician, Dr. Westcott, of Fanwood, has been a very efficient official and all who have had any occasion to deal with him in the past will welcome the news of his re-election to that position.

The Invitation.

The following has been sent out in reference to the "Shoe" social to be held by the Ladies' Christian Work Society of Trinity Reformed church on Tuesday evening, May 20:

"The Ladies' Christian Work Society ask a favor of you,
That you come on Tuesday evening and place within this shoe
The number of your foot-gear multiplied by two."

WORK AT CITY SCHOOLS SHOWN

(CONTINUED FROM PAGE 1.)

have shown in many ways their talents. The illustrations of popular subjects and topics are praiseworthy in every particular. In the main hallway there are many specimens of paintings and drawings that attracted much attention for execution and perfect detail.

Special mention should be made of the two pieces of statuary placed in the hallway yesterday for the first. One represents "Hebe" and the other "Davy." They were secured by Miss Shattuck after much effort and other statuary of the same types have been prize-winners.

Miss Shattuck as well as all of the teachers were highly copmlimented yesterday for the very excellent showing of the classes, and Superintendent Maxson took occasion to visit the school and express his gratification.

The exhibit will be continued this afternoon and evening, and the public is cordially invited.

—Shipments of fresh berries are received daily by Neuman Brothers. They have a fine display of Maryland strawberries.

DUNELLEN.

The Presbyterian chapel was crowded to overflowing last evening when the cantata "Snow White," or "The Seven Dwarfs," was presented by the pupils of Whittier school. Those taking the principal parts were, "Snow White," Miss Nellie Dodwell; "Queen," Miss Edna Baldwin; "Prince," William Giddes; "Carl," Francis Ginder. In addition a large chorus assisted. All of the principals had solos to sing and took their parts excellently. The story in the cantata was well brought out and the costumes were unusually pretty. The Banjo Club furnished music and after the play was over a large number stayed and helped consume the cake and ice cream which was for sale.

A large crowd of rooters will accompany the local baseball team to Plainfield tomorrow, when they play the Y. M. A. of Hope chapel. It is said that Dixon, formerly of Hope chapel, will catch.

NO CIRCUS.

Most of Its Employes Ill at Somerville, So It Couldn't Move—No Performances Here.

Much to the disappointment of the small boys who encamped on the Fourth street show grounds, at sunrise this morning, the Leon Washburn circus failed to appear.

The reason was explained later in the day by despatches from Somerville, which stated that the whole show was sidetracked there with nearly every attache ill. It is supposed the men were poisoned at Morristown, Wednesday, when they drank water from a brook into which a woolen factory empties its refuse.

Chief Kiely notified the showmen early in the day that no license would be granted to them here.

—Delicious Maryland strawberries received daily by Neuman Brothers.

Mrs L. Rosenstiehl, of Somerset street, returned home yesterday after spending some days visiting friends in Brooklyn.

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand *right now*. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. W. Randolph.

VOLCANO RESTS NOT

Soufriere Still Terrorizes St. Vincent Dwellers.

ANOTHER BIG ERUPTION PREDICTED.

No Person Able to Approach the Terrible Summit Within Eight Miles. Destruction Greater Than at First Reported.

KINGSTOWN, Island of St. Vincent, May 16.—No person has yet been able to approach within eight miles of the new crater of the Soufriere volcano; but, judging from what can be seen from a considerable distance, the old lake at the summit of the mountain has disappeared. The numerous fissures in the mountain's sides continue to throw out vapor, and the subterranean murmurings and tremblings indicate continued unrest. During the afternoon of Monday a dense volume of steam and smoke rose from the volcano, and the whole island was covered by a peculiar mist. The inhalation of noxious vapors here is increasing the spread of sickness.

An ambulance corps from the island of Barbados has arrived here. Starvation threatens the poorer classes of the afflicted district.

Nearly every remaining negro hut in the Carib country contains decayed bodies, and the horrible stench is driving people away. Mutilated bodies are tied with ropes and dragged to the trenches, where they are buried. Sometimes bodies are cremated.

The local government is feeding and sheltering about 3,000 refugees. Subscriptions for the relief of the sufferers are being raised in all the British West India islands.

Scientists who have come here from the British island of Trinidad predict another volcanic eruption on St. Vincent within a short time.

The damage done to St. Vincent by the volcanic eruptions is now known to be considerably greater than was at first estimated. The present uneasiness of the inhabitants of the island is increased by the continuous agitation of the volcanic craters. Friday morning, May 9, large stones and volcanic dust fell in the neighborhood of Georgetown for two hours, terrifying the people there. A cloud of hot vapor then passed over that port. Two eruptions of less magnitude than the first occurred Saturday, May 10, and from then until now fire and smoke have been ascending at intervals from the craters.

Interesting discoveries have been made in regard to physical changes on St. Vincent, resulting from the eruptions. Several fissures have been observed on La Soufriere. The estate of Walibou has disappeared and has been replaced by an inlet of the sea. Richmond, an estate formerly adjacent to Walibou, which was formerly flat and upon which there were a number of laborers' cottages, has been completely burned, and out of the estate there now arises a large ridge of ground. It is believed that the Rabacci crater, in the windward district of the island, has also erupted.

From a distance La Soufriere, although less violent, still wears a cap of dark clouds, which is illumined every now and then by flashes of red light.

Volcanic dust has fallen here again, but fortunately there have been also several heavy rain showers which have washed away the dust from the grass and restoring the verdure of the fields. The condition of the atmosphere is also apparently improving.

Owing to the destruction of several estates the sugar and arrowroot industries of St. Vincent are seriously injured. Destitution prevails among the laboring classes, who are without homes, without clothes and hungry. Nearly 2,000 deaths on this island have been reported.

A British warship has arrived here from Trinidad. She brings provisions for the relief of the sufferers.

The Government's Prompt Action.

WASHINGTON, May 16.—Secretary Root has authorized the officers of the commissary department at New York to purchase any additional supplies that may be necessary to supplement those contributed by private persons for shipment to the scene of the disaster. The government already has expended a little over $100,000 of the available appropriation of $200,000, and as much of the balance as necessary will be utilized. The administration anticipated the action of congress in providing for the immediate relief of the situation, with the result that the Sterling sailed from San Juan with supplies within five hours from the time the appropriation became available, and the Dixie sailed from New York with additional supplies in exactly twenty-nine hours after the president signed the act making the appropriation. These two vessels carry more than thirty-six days' rations for 50,000 people, together with a proportionate amount of clothing, tentage, etc.

Philadelphia's Relief Plans.

PHILADELPHIA, May 16.—President Roosevelt's special committee, acting in consonance with the citizens' permanent relief committee, has adopted comprehensive plans for the relief of the survivors of the Martinique disaster. Up to the close of banking hours $5,924 in cash had been contributed.

France Expresses Gratitude.

WASHINGTON, May 16.—M. Jules Cambon, the French embassador, has transmitted to Secretary Hay a long telegram from his government expressing the gratitude of France for the energetic efforts of this country to relieve the suffering at Martinique.

MADRID CELEBRATES.

Imposing Ceremonies In Honor of King Alfonso.

MADRID, May 16.—The official ceremonies in honor of the majority of King Alfonso opened here yesterday.

The weather was auspicious, and a cloudless sky and brilliant sun favored the arrival at Madrid of the Duke of Connaught, Prince Albert of Prussia, Princes Vladimir and Christian of Denmark, Prince Nicholas of Greece and the Crown Princes of Monaco and Siam, who arrived in a royal train.

The events of the day coincided with the festival of San Isidro, the patron saint of Madrid, which brought immense crowds to the city from the surrounding country. Thousands of persons gathered along the route from the northern station to the palace to witness the procession.

The scene at the railroad station upon the arrival of the royal train was most brilliant. An escort composed of the royal bodyguard in shimmering breastplates and with drawn swords gleaming in the sun and a squadron of dragoons in burnished steel helmets and with waving lances was drawn up in the courtyard, while within the station were assembled the officers of the royal household, headed by the Prince of the Asturias. The various embassadors and their staffs, all clad in handsome uniforms, with breasts resplendent with orders and decorations, formed a striking group of color.

A special bullfight in which eight bulls appeared was held in the afternoon at the Puerto del Sol. No fewer than fifteen bullfights are to take place in connection with the festivities, and over 100 bulls are to be killed. Free dinners were given to 3,000 poor persons. This charity will be repeated daily until May 24. Fifty thousand pesetas have been distributed to the poor, and small sums will be deposited in savings banks in the names of all children born Saturday, May 17, the day the king takes the oath. Altogether gifts amounting to 200,000 pesetas will be distributed.

Bicyclist Seriously Hurt.

BOSTON, May 16.—Louis E. Mettling of Jamaica Plain, the well known amateur bicycle champion, was thrown from his wheel by the collapse of a tire at Charles River park while training behind a motor and is now at the Massachusetts General hospital, suffering from concussion of the brain and in a very critical condition. He is conscious only at intervals and has frequent hemorrhages.

Jenkins Threw Parr.

CLEVELAND, O., May 16.—Tom Jenkins has again demonstrated that he is the superior of all the men who have tried to conquer him in wrestling by throwing Jim Parr, as he agreed to do, twice in an hour. Jenkins secured the first fall in thirty-one minutes and the second in about nineteen minutes. Parr gave him a fine battle, however.

CAPTURED IN CANADA

United States Detectives Seize Gaynor and Greene.

A SHARP PURSUIT EASILY ELUDED.

Men Who Forfeited Bail Bond at Savannah and Fled Hurried on Board Swift Tug at Quebec. Much Excitement Caused.

QUEBEC, May 16.—Colonel John F. Gaynor and Captain W. D. Greene, who forfeited their bail at Savannah early in March and fled to Canada, have been placed under arrest by officers connected with the United States secret service and Chief Carpenter of the Montreal detective force. The arrests were made on warrants issued in Montreal, Chief Wilkie's men assisting the Canadian officers to make the arrests. The men were hurried on board a swift little tug which had been kept in waiting at the wharf, and ten minutes after Greene and Gaynor were safely on board the boat steamed out into the river and started toward Montreal. The officers moved so quickly that neither of the prisoners was given an opportunity to consult with counsel.

When notified of her husband's arrest, Mrs. Gaynor at once consulted Mr. Tachereau, her husband's attorney. A tug was chartered, and an attempt was made to overtake the boat on which Gaynor and Greene were being carried away. After a short chase it was seen by those on board the pursuing tug that it would be impossible to overtake the detectives' boat, which was the Spray, one of the swiftest tugs on the St. Lawrence, and the pursuit was abandoned.

On returning to the city it was decided to charter a special train and attempt to head off the Spray at some point between this city and Montreal.

The arrest of Greene and Gaynor and the manner in which it was accomplished caused considerable excitement in the city, where both men have become well known.

When the two Americans first arrived in Quebec, they were followed by two men, also from the United States, who registered at the Chateau Frontenac. Their movements led the hotel employees to believe that they were detectives sent here to watch Greene and Gaynor. It now develops that one of these men is Detective Burke of Florida.

Yesterday Mr. McAlaster, a prominent lawyer of Montreal, who, it is rumored, is engaged by the prosecution, arrived here by boat from Montreal. On the same boat with him were six detectives, including Chief Carpenter of Montreal. They were met at the wharf here on their arrival by Detective Burke.

Pursuers Outdistanced.

MONTREAL, May 16.—A special to The Gazette from Three Rivers says: "The tug Spray, with Chief Carpenter, his aides and Colonel Gaynor and Captain Greene, prisoners, passed Three Rivers at 7:15 o'clock last evening under a full head of steam. Two Quebec policemen and two detectives who arrived here by special train in the afternoon went to the wharf and remained there in waiting for the Spray. They held the ferryboat Glacial in readiness to go out into midstream when the Spray hove in sight. Suddenly the looked for tug appeared, and the ferry hurried out into midstream, but the fleet little tug was plowing through the waves at a rapid speed, and before the ferry reached the middle of the river the Spray was a hundred yards in the lead and gaining rapidly. The chase was kept up for two miles, but it was a hopeless race, and the ferry and officers returned to the city."

A Famous Case.

NEW YORK, May 16.—Among the most famous cases in the criminal history of the United States is that of Captain Oberlin M. Carter, who, in conjunction with Benjamin O. Greene, John F. Gaynor, William T. Gaynor and Edward H. Gaynor, was charged with having defrauded the United States government out of more than $2,000,000 in carrying on improvements in the harbor of Savannah, Ga. Captain Carter is now serving a five years' sentence in the prison at Fort Leavenworth, Kan., while Greene and John F. Gaynor, their bail bonds of $40,000 forfeited, were for months fugitives in Quebec, Canada. William T. and Edward H. Gaynor are now awaiting trial at Savannah.

A Well Laid Scheme.

WASHINGTON, May 16.—The kidnaping and subsequent arrest of Gaynor and Greene at Quebec was the result of a carefully laid plan of Chief Wilkie of the secret service. It was denied that the department had sent men to apprehend the fugitives, but it was later learned that Inspectors Bennett, Burke, Taylor and three others had been assigned to the case. The department had been looking for news of their arrest.

Fire at Naval Hospital.

NEW YORK, May 16.—Fire last night in the old laboratory building of the United States Naval hospital in Brooklyn caused a loss to the government of about $25,000. No insurance was carried. The building is in the rear of the hospital proper and was used for office and storage purposes.

Husband, Wife and Child Burned.

LAUREL, Neb., May 16.—John Jacobson, his wife and infant child were burned to death and William Snyder, a clerk, and another of the Jacobson children, aged six, were seriously burned in a fire in the living rooms over Jacobson's implement store. The origin of the fire is unknown.

The Sturgis Wager

[Copyright, 1899, by Frederick A. Stokes Company.]

"I do not wish to withdraw my bet," said Sturgis; "I will agree to solve your problem within 30 days or to forfeit my stakes; but I cannot undertake to prove the truth or falsity of any a priori theory. I have no personal knowledge of the matter as yet, and therefore no theory."

"Quite so," observed Murdock, ironically. "I had forgotten your scientific methods. Of course, it may turn out that it was the policeman who stole the satchel from Shorty Duff."

"Perhaps," answered Sturgis, imperturbably.

Murdock smiled.

"Well, gentlemen," said he, "I accept Mr. Sturgis' conditions. If you are willing," he continued, turning to the reporter, "our host will hold the stakes and decide the wager."

"I, for one, agree with Sprague," said Dr. Thurston. "I am disappointed in the problem. I have seen Sturgis unravel some extremely puzzling tangles in my day; and each case would not be hard to find. Why, no longer ago than this evening, on our way here, we stumbled upon a most peculiar case—eh—oh!—er—please pass the cognac, Sprague. I wish I had some like it in my cellar; it is worth its weight in gold."

Dr. Thurston had met Sturgis' steady gaze and had understood that, for some reason or other, the reporter did not wish him to relate their adventure of the afternoon.

Only one person appeared to notice the abrupt termination of his story. This was Murdock, who had looked up at the speaker with mild curiosity, and who had also intercepted the reporter's warning glance at his friend. He observed Dr. Thurston narrowly for a full minute, appeared to enjoy his clumsy effort to cover his retreat, and then quietly sipped his coffee.

CHAPTER IV.

THE BANK PRESIDENT.

Sprague's dinner party was over, and among the first to take their leave, shortly after midnight, were Dunlap, Sturgis and Dr. Thurston.

The reporter did not often spend an evening in worldly dissipation. He was a man of action, a hard worker and an enthusiastic student. Almost all of the time which was not actually spent in the pursuit of his profession, was devoted to study in many widely different fields of art and science. For Sturgis' ideal of his profession was high; he held that almost every form of knowledge was essential to success in his line of work. It was seldom, therefore, that he allowed himself to spend a precious evening in social intercourse, unless as a more or less direct means to some end. He had made an exception in favor of Sprague's dinner, and his meeting with Dunlap, whom he had not previously known, had been entirely accidental.

Dunlap was, however, a man whom Sturgis needed to see in the course of his study of the Knickerbocker bank mystery, and he had not lost the opportunity which chance had placed in his way. After obtaining an introduction to the bank president, the reporter had sought an occasion to speak with him in private; and, as this did not present itself during the course of the evening, he had timed his departure so that it should coincide with that of Dunlap. Dr. Thurston had followed his friend's lead.

"Are you going down to the bank this evening, Mr. Dunlap?" asked Sturgis, as the trio faced the bleak wind.

"I? No. Why should I?" inquired the banker, in apparent surprise.

"I see no particular reason why you should," replied the reporter. "If to-day were a banking day, there would be no time to lose. But since it is New Year's day, there is little, if any, chance of the trail being disturbed; and it will be much easier to find it in broad daylight than by gaslight. Our friends of the central office are usually pretty clever in discovering at least the more evident clews in a case of this sort, even when they have not the ability to correctly interpret them. And since they have completely failed in their search to-night, we must anticipate a more than ordinarily difficult puzzle."

"Why, Mr. Sturgis," said Dunlap, somewhat anxiously. "You talk as though you really believed that some mysterious crime has been committed at the bank."

"I do not know enough about the case as yet to advance any positive belief in the matter," said Sturgis; "but if we assume as correct the circumstances related in the article which Dr. Murdock read to us this evening, they certainly present an extraordinary aspect."

Dunlap reflected for an instant.

"Still, the fact that our cashier found everything in good order at the bank is in itself completely reassuring," he said, musingly.

"Very likely," assented Sturgis. "It is quite possible that from a banker's point of view the problem is wholly devoid of interest; but from a detective's standpoint it appears to be full of promising features. Therefore, whether or not you intend to look farther into the matter yourself, I beg you will at least authorize me to make a survey of the field by daylight in the morning."

Dunlap looked anything but pleased as the reporter spoke these words. He thought before replying.

"Frankly, Mr. Sturgis," he said, at length, with studied courtesy, "I will not conceal the fact that what you ask places me in a rather awkward position. You are a friend of my friend Sprague, and my personal intercourse with you this evening has been pleasant enough to make me hope that, in the future, I may be so fortunate as to include you in my own circle of acquaintances. Therefore, on personal grounds, it would give me great pleasure to grant your request. But, on the other hand, you are a journalist and I am a banker; and it is with banks as with nations—happy that which has no history. Capital is proverbially timid, you know."

"I see," said Sturgis; "you fear that the reputation of the Knickerbocker bank may suffer if the mystery of the pistol shots is solved."

"No, no, my dear sir; not at all, not at all. You quite misunderstood me," replied the banker, with just a shade of warmth. "It is not a question of the bank's credit exactly, since there has been neither robbery nor defalcation; but depositors do not like to see the name of their bank mentioned in the newspapers; they take fright at once. Depositors are most unreasonable beings, Mr. Sturgis; they are liable to become panic-stricken on the most insignificant provocation; and then they run amuck like mad sheep. The Knickerbocker bank does not fear any run that might ever be made upon it. Its credit stands on too secure a foundation for that. But nevertheless a run on a bank is expensive, Mr. Sturgis, very expensive."

"The bank's affairs being in so satisfactory a condition," observed the reporter, "it seems to me that whatever harm publicity is likely to do has already been done. The imaginations of your depositors are now at work sapping the foundation of the Knickerbocker bank. If the truth cannot injure its credit, it can only strengthen it; and to withhold the truth under the circumstances is to invite suspicion."

Dunlap did not appear to like the turn the conversation was taking. He walked along in silence for a few minutes, irresolute. At length he seemed to make up his mind.

"Perhaps you are right after all, Mr. Sturgis. At any rate we have nothing to conceal from the public. If you will be at the bank to-morrow morning at nine o'clock, I shall be pleased to meet you there."

Sturgis nodded his acquiescence.

"Well, gentlemen, here is my street," continued the banker. "Good evening, good evening."

MINERS VOTE STRIKE

Most Serious Labor Struggle of Recent Times Begun.

PRESIDENT MITCHELL OVERRULED.

Anthracite Workers Have Been Preparing For the Struggle For Many Months—Outside Advice For Peace Ignored.

HAZLETON, Pa., May 16.—The anthracite mine workers in convention have decided to continue the strike of the 145,000 men against the mine owners and to fight it out to the bitter end. The matter of calling out the engineers, firemen and pump runners will be decided by the delegates today. The vote to continue the suspension was as follows: Total vote cast, 811; for strike, 461½; against strike, 349½; majority for strike, 111½. President Mitchell, however, in compliance with the rules of the United Mine Workers, announced to the public that the action of the convention was unanimous.

The step taken by the miners after practically considering the matter for two months past has wiped out the uncertainty of the situation, and it is freely predicted that the most serious labor struggle in the history of the country if not in the world is about to begin. That is the view taken by nearly every miner. While the leaders are cautious and will not forecast their actions, it is not unlikely that the miners' fight will be carried into the bituminous coal regions and into other fields of industry.

Mine workers for eighteen months have been looking forward to the strike that is now upon them. They have saved their money and are considered to be in better shape today for a fight than they were in the great strike of 1900. That struggle ended in the mine owners giving the men a 10 per cent advance after a six weeks' suspension. The operators are on record as being unalterably opposed to granting the men any concessions, and they have personally informed the mine workers' leaders of that fact. The workmen fear that the present fight may mean the destruction of their organization, because they believe that the mine owners are bent more on wrecking their union than they are in opposing the demands for higher wages and shorter workdays.

President Mitchell's advice to the miners was peace, and he gave it to them in the plainest and most forceful of language. He was ably assisted by President Fahy and Secretary Hartlin of the lower district and Secretary Dempsey of the upper territory. President Nicholls of the First district was the great champion of the strike advocates. Mr. Mitchell, who was the last to speak, was listened to with the greatest attention.

It is also said that a telegram was read from the American Federation of Labor against a permanent suspension. But the delegates would not listen, and amid considerable suppressed excitement the vote was taken. For a time it looked as though the peace advocates would win, but when delegation after delegation from the lower district, the last to be called, answered "Yes," it was seen that the men who favored a fight had won. The result was received by the convention with applause, which, however, was not very enthusiastic or prolonged. The men appreciated the seriousness of their decision, which no doubt dampened their ardor. The convention is in session today.

Miners Disappointed.

SCRANTON, Pa., May 16.—It was disappointment rather than surprise that the news of the prolongation of the strike was received in this region. It had been felt that the strike was likely, but there was a hope all the time existing that something would avert it. When the news came, great depression settled over the community. Everybody believes it will be a long struggle and that before it is ended there will be no small amount of violence.

President Reviews Cadets.

WASHINGTON, May 16.—The annual review of the high school cadets of Washington, Colonel Edgar Barnes commanding, took place on the White lot yesterday afternoon. President Roosevelt, the board of District commissioners and members of the diplomatic corps attended. The president was escorted around the reviewing line by General George Harries, commanding the District national guard, and other officials. He complimented the boys highly on their discipline.

Soldier's Sentence Suspended.

MIDDLETOWN, N. Y., May 16.—Letters from Senator Depew and Lieutenant Governor Woodruff to Hans J. Peterson of New York, complimenting him for bravery as a soldier in Cuba and the Philippines, have secured a suspension of sentence on Peterson, who pleaded guilty to grand larceny before County Judge Beattie at Goshen. Peterson had been in jail six months.

The Hanna-Parsons Wedding.

CLEVELAND, O., May 16.—The wedding of Miss Mabel Hanna, daughter of Senator Hanna, to Mr. Harry A. Parsons of this city has been set for June 16. The ceremony will be performed at the Hanna home here. Bishop Leonard of the Ohio Episcopal diocese will officiate.

To Fight Morgan Combine.

MONTREAL, May 16.—President Sir Thomas Shaughnessy of the Canadian Pacific railway states that when it becomes necessary the railway is prepared to start a transatlantic fast line with three twenty-two knot steamers, to cost $1,[illegible], for the purpose of fighting the Morgan combination.

SPORTING NEWS

ON THE DIAMOND.

The game between Plainfield High School and North Plainfield High tomorrow wil be called at 2 o'clock.

The Lovell Scrubs defeated the Underwood A. C. in an exciting game on Hope Common, yesterday afternoon. The score was 6 to 3.

The Plainfield Juniors and the Plainfield Stars will cross bats on the old golf grounds, tomorrow morning. Both teams have met before and a good game is assured.

Among the baseball games to be played on local grounds tomorrow are the following: Hope against Dunellen, on the former's grounds; St. Mary against Rahway Field Club, on former's grounds; Y. M. C. A. against Rutgers Consolidated on Pittis' field; Scotch Plains against Clinton Avenue, on latter's grounds. All these games will be called at 3:45.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. Randolph.

COAL SUPPLY IN THIS CITY

While Local Dealers Are Not Well Supplied They Do Not Anticipate Any Trouble.

WHAT DEALERS SAY.

Industrial Concerns in This City Are Generally Well Supplied and Can Use Soft Coal if Necessary—Dealers Expect Strike to be Settled Shortly—The Prices.

There is a considerable amount of speculation in some circles regarding the probable effect in Plainfield of the strike of the anthracite miners. But the majority of people are not losing much sleep over the matter. The favorable season of the year, when gas and oil are such easy substitutes for coal, precludes any possibility of any great inconvenience from a family standpoint even should matters come to the worst.

It is different with the manufacturing concerns. A shortage in the supply of coal would not only rob them of their power, but would probably throw a great number of men temporarily out of employment. Even here no cause exists for immediate worry. A close canvas of the field reveals the fact that local manufacturers are as a rule well supplied with coal. The majority of them either use soft coal or have facilities for using it, so that should the strike be confined to the anthracite workers alone, absolutely no apprehension need be felt.

Those who will experience the greatest difficulty in coping with the situation are the retail dealers. Their supply of coal at present is less than it has been at the commencement of any previous strike; at any rate it does not exceed the amount on hand when the strike began two years ago. Yet the general tone is one of confidence. Among some of the retailers there is a well-defined feeling that the strike will be settled before many days. With the exception of one firm, no attempt has been made to increase the price, and it is not likely that any concerted action will be taken till matters have reached a more acute stage. Boyce, Runyon & Company yesterday advanced the price fifty cents per ton, following the example of New York and Philadelphia dealers, who have made an increase of one dollar.

If the supply of coal is somewhat short it must be thought that local dealers have been caught napping. Many of them sent in their orders a long time ago, but this strike has been threatening for some months and the operators have been heaping the bins of the industrial concerns, while letting smaller customers wait. In no case is a company responsible for failure to ship on account of suspension of the mines or any other reason.

A fair estimate of Plainfield consumption of coal for home use may be placed, on the authority of a prominent dealer, at five thousand tons a month. The same dealer stands sponsor for the statement that at the very widest margin, there cannot be more than eight thousand tons in the city today. This assertion does not lack corroboration, since another dealer says that the local bins have little more than twenty-five per cent. of their capacity. With the bins filled, he adds, the city can be kept furnished with coal for two months or thereabouts. With the exception of the Consumers' Coal Company, who are not prepared to say they will refuse any customer, none of the retailers will attempt to fill winter orders.

A representative of D. C. Ivins & Company, seen at their office yesterday, said that in case of a long continued strike they would probably raise the price to such a pitch that people would not wish to buy more than one ton at a time. They will take no steps immediately, preferring to await further developments. Although their supply of coal was good for the time of year, no attempt would be made to fill winter orders.

E. H. Holmes took a very conservative view of the situation. He thought the local supply was considerably depleted, unless the bins had been replenished very recently. The demand at present was not heavy, yet there was a constant drainage. The matter of price was now a secondary consideration, but individually he would like the price to remain as it is, and would avoid any hasty action.

(CONTINUED ON PAGE 5.)

SECOND CONCERT.

Those Who Will Assist the Men's Choral Club at Casino, Tuesday, May 27.

Tuesday evening, May 27, the Men's Choral Club will give its second concert in the Casino. The club will be assisted on this occasion by the well-known tenor, H. Hobart Smock, who made such a notable hit at Miss Howell's musicale.

Miss Helen Reynolds, violinist, and Miss Mabel Reynolds, 'cellist, will add variety to the programme by some first class instrumental work.

The price of admission, which may appear a trifle high at first, will no doubt seem reasonable when it is known that the net proceeds from the concert will be given to the Young Women's Club, which lost its rooms and all its belongings in the recent Babcock blaze.

Tickets can be obtained at the drug stores, and from the patronesses, a list of whom will appear later.

NEW BUILDINGS.

Permits Were Granted by Building Inspector Doane Yesterday for Four New Ones.

Building Inspector T. O. Doane Thursday admitted applications for four buildings to be erected in different sections of the city.

A permit was granted Jas. C. Manning, of Albert street, for the erection of a two-story dwelling on West Seventh street near Herbert avenue. A permit was issued to W. C. Chamberlain for the erection of a dwelling two and a half stories with slate roof to be built on East Third street, near Richmond street.

H. M. Maxson, of West Seventh street, was allowed to proceed with the building of a storehouse for bicycles and tools on the rear of the site he at present occupies. Samuel Balden, of Berckman street, was given permission to erect a barn on the rear of the lot at East Third and Berckman streets. Wednesday, a permit was issued to Jas. Wheeler for the erection of a barn on the rear of his lot on West Front street.

PLAINS AFTER AUTOS.

The Fanwood Township Committee Passed an Ordinance Limiting Speed to Eight Miles an Hour.

(Special to The Daily Press.)

Scotch Plains, May 17—An ordinance to regulate the speed of automobiles was passed by the Fanwood Township Committee at a meeting held last night. The township has an ordinance regulating the speed of bicycles at twelve miles an hour. When it was drafted several years ago automobiles were unheard of, but during the last summer autos have appeared in large numbers on the streets, especially on Sundays. The good roads in this section have made an ideal place for speeding of every kind of machines and several narrow escapes from serious accident have occurred.

The speed has been limited to eight miles an hour. A fine of $50 or thirty days in jail or both will be imposed for violation. The law takes effect May 21.

TWO REMANDED.

Complainant in Other Case Was Not Present and Huff Was Discharged.

The remanding process is still continued at police headquarters. In the city court, this morning, the cases of Benjamin Olmstead and John Callahan were again laid over until Monday.

Harry Huff, who failed to keep his word and appear yesterday, was on hand, this morning. The complainant in the case, John E. Keely was not and the charge was dismissed.

Lake House Opened.

Lovers of pure ice cream and ices will be pleased with the announcement that Tier's Lake House was opened today for the season. This favorite summer resort has always been popular among the people of Plainfield and vicinity. It is always cool by the lake and one can enjoy ice cream and ices with a relish. Mr. Tier is well prepared to receive parties from out of town and arrangements have also been made for the care of horses and carriages.

Sewing Class Picnic.

The Sewing Class of Warren mission, under the care of Miss Laura Lovell and a corps of efficient teachers, is having a picnic today in the vicinity of Wetumpkah Falls. More than fifty children enjoyed the trolley ride there, the ample luncheon provided and a day filled with games and pleasures.

Preparing to Organize.

In reference to the organizing of a homing pigeon club, mention of which was made a few days ago, anyone interested in the flying of the birds will do well to communicate with E. H. Hobbie, of Watchung avenue.

POLITICAL GOSSIP IN LOCAL G. O. P. CIRCLES

As Viewed by the Plainfield Correspondent of the Newark Evening News.

AFTER COUNTY OFFICES

QUOTES FORMER MAYOR FISK AS TO THE SENATORIAL NOMINATION.

Names of Andrew McCardell and William N. Runyon Also Mentioned as Possibilities for County Nominations—Other Gossip.

The Plainfield correspondent of the Newark News has the following to say regarding Plainfield's participation in the coming campaign:

"Union county Republicans are going over the political field preparatory to the fall campaign, when candidates will be named for the offices of State senator, sheriff and surrogate. Interest has been centred on this city, which will fill at least one of the places. Various names have been connected with each office, but none have signified their willingness to accept a nomination.

"Former Mayor Charles J. Fisk, who has loomed up as a possible successor to State Senator Joseph Cross, is not pushing his claims, but his friends are active. When approached by a representative of the News, Mr. Fisk declared that he is not seeking party honors, and that inasmuch as the nomination has not been tendered to him, it is impossible for him to say anything. He remarked incidentally: 'Senator Cross has filled the office well and has the esteem and support of the entire county, and I see no reason why he should not be given a second term.'

"Andrew McCardell, who has figured prominently as a party boss, it is said, stands a good show of being made the shrievalty candidate. His friends say he would hiave practically no opposition at the convention, and that the local delegation would be solidly for him. The Pond Machine Tool Company, with which he is identified, it is said, is much opposed to the movement to nominate him, but how far the company's wishes will influence him is not known. Should he be nominated the senatorship and surrogateship will go to the other end of the county.

"The only local man which has been mentioned in connection with the latter office is that of City Judge William N. Runyon. He absolutely declined to be the Assembly candidate from this district last fall, and it is thought likely that he would refuse the surrogateship were it offered him. The office pays about $10,000 per year in the five years' term.

"The present surrogate, George T. Parrott, it is believed, will be unanimously re-nominated."

GOOD TIME FOR ALL.

Perseverance Lodge Will Have an Entertainment at Next Meeting.

Five candidates received the third degree and two propositions were received at last evening's meeting of Perseverance, Lodge, No. 74, K. of P. An enjoyable time programme was afterward rendered during the good and welfare period. Chancellor Commander Runyon announced that next Friday, a special programme of good and welfare will be provided in which members of the lodge and several outsiders will take part.

Gave a Musicale.

A pleasant event of last evening was the musicale given by Mr. and Mrs. W. W. Brooks, of Myrtle avenue, when thirty guests from this city and the borough were present. The programme consisted of banjo and mandolin solos by Fred VanEps and William VanEps, vocal solos by William Holmes and piano solos by William E. MacClymont.

MOTHERS HELD A MEETING

SECOND OF A SERIES HELD AT GRACE P. E. CHURCH.

Rev. Mr. Wilson, the Curate, Had Something to Say on Training of Children.

The second of a series of mothers' meetings was held yesterday afternoon in the parish house of Grace Episcopal church, under the auspices of a number of women of the church. There was a large attendance of mothers and the meeting proved mutually helpful.

During the afternoon there was an informal talk by Rev. Mr. Wilson, curate of the church. His chief thought was along the line of being broad minded in the training of children. He disapproved a general idea that the method of training one child will answer for other children. That which is nourishing food for one child might not agree with another child.

Mr. Wilson spoke words of encouragement to the mothers and cordially invited them to exchange ideas in the training of children. This the mothers have done and in this way more than one has been greatly assisted in her own particular case.

Following the address there was a social time and coffee and cake were served by women of the church. Mrs. Thomas Minford, who furnished gratis the most excellent coffee and cream used, was in charge, and she was assisted by Mrs. W. E. Lowe, Miss Morgan, Mrs. Louis Borsum and several other women present.

JUNIORS ENTERTAINED.

Band From Monroe Avenue Church Guests at Grace M. E.

The juniors of the Epworth League of Monroe Avenue church paid a visit to the juniors of Grace M. E. church, yesterday afternoon. They received a most hearty welcome, and an interesting programme had been prepared for the occasion.

Misses Edith Schenck, Myra Lippincott and Nettie Steiner were a trio that performed most pleasing on the piano. Recitations were given by Misser Bessie Conroy, Clarabel Runyon, Nettie Steiner, Myra Lippincott, Iola Schenck, Mary Ring, Stella Ring, and Hattie Law. There was a chorus by eight girls, Misses Edith Taft, Edith Major, Jennie and Alice DeMott, Anette Beeching, Rachel Decamp, Edith VanDyke and Rita Kline, an instrumental selection by Miss Lililan Teeter; a duet by Misses Jennie and Alice DeMott, and the Grace juniors sang a chorus "Firmly on the Rock we Stand."

Rev. E. L. Earp delivered a short address to the juniors suitable to the occasion. At 5 o'clock refreshments were served by Misses Jessie Billett, Stella Vermule, Edith Major, Edith Taft, Katie Rutledge, Ethel Quipp, Mrs. E. L. Earp.

TO PLAY BALL.

Miantonomo and Wetumpkah Tribes to Meet on the Diamond.

Miantonomo Tribe, No. 118, Improved Order Red Men, met last evening and worked the adoption degree on two. The committee having in charge the arrangements for the baseball game between a team from Miantonomo and Wetumpkah tribes reported progress. The date for the game will be announced soon. It was reported at the meeting that notices for the meeting next week when a vote will be taken regarding consolidation of the tribes, have been sent out.

GENEROUS GIFT.

Unknown Donor Gave $100 and Will Help Build Addition to Camp.

An unknown donor has forwarded to the Daughters of the Cross Circle, King's Daughters, $100 to be used in whatever way is thought best by the organization. The amount has been put in the general treasury of the City Union of King's Daughters. The same party has also agreed to bear part of the expense of adding another needed room to the baby camp cottage on the mountain and arrangements will be made soon to make the addition.

Y. M. C. A. Bicycle Club.

The bicycle season is now pretty well advanced and efforts will be made soon by the Y. M. C. A. to organize the bicycle club. This is an excellent opportunity for those who like an afternoon's outing on the wheel.

To Locate at Lincoln.

The United States Soap Corporation has decided to locate at Lincoln, and land has been purchased on which will be erected a large building. The structure will be completed before October 1, 1902.

COMPANY K INSPECTED BY STATE OFFICERS

Local Company of National Guard Made a Good Showing at Its Annual Inspection.

ALL PRESENT BUT ONE.

ASSISTANT INSPECTOR GENERAL WAS PRESENT TO SEE THE DRILL.

Says There is the Making of a Fine Company—Company Was Drilled Under the Direction of Captain W. Kempton Browning.

The annual muster and inspection of Company K took place last evening in Saengerbund Hall under the direction of Lieut.-Col. Louis T. Bryant, of Atlantic City, assistant inspector general. In view of the fact that this was the first event of the kind since the organization of the company, considerable interest was attached. The gallery was filled with spectators, relatives and friends of members of the company and all watched closely the inspection as well as the drill. Every member but one was present, and the absent one, Clerk Fred M. Letson, will be called to account.

The company acquitted itself creditably, although there is room for improvement. No doubt there was an evident desire to do the very best and in this effort some mistakes were made. Captain W. Kempton Browning drilled the company under the direction of Lt. Col. Bryant, and practically everything in the manual of arms was given. In the various formations the company did well, and as remarked afterward by the inspecting officer, "there is the making of a fine company." Allowances have to be made for the fact that the company is the youngest in the State.

The members passed the inspection of arms most satisfactorily, there being only two whose guns were not up to the high standard. Altogether the members have every reason to be encouraged and it was the general opinion that after another trip to Sea Girt there would be a vast improvement. During the evening Major Nelson Y. Dungan, of Somerville, and Col. Collins, of Elizabeth, were present and watched with interest the work of Company K.

TWO QUALIFIED.

Passed School Examination Will Allow Them to be Examined for Bar.

Fred Huff and Vincent W. Nash, Jr., received this morning notification from C. J. Baxter, State superintendent of schools, that they had successfully passed the examination, entitling them to the privilege of taking the examination for admission to the Bar. These students of the law took examinations at Elizabeth on May 2 and 3, which were held for persons wishing to become school teachers. It was considered to be a difficult examination, but the Plainfielders passed creditably. They are two of the first to take the preliminary examination under the new law and they were the only two from this county to pass.

TO ISSUE FIRE BADGES.

Fire Committee Has Decided to Keep Outsiders Out Hereafter.

In order to prevent outsiders from catching on the fire apparatus when answering alarms, the fire committee of the Common Council has decided to issue badges to all those entitled to ride. This will include all assistants to the regulars, policemen and newspapermen. All others will be debarred and on refusal to remain away for many of the trucks or keep out of the fire lines, will be arrested.

Tendered a Pleasant Surprise.

On the occasion of his birthday, a complete surprise was tendered E. S. Brokaw, of West Second street, last evening. About thrity of his friends and relatives, were present, spending the evening in a social way with games, music, etc., and at 10:30 the hostess tempted the appetites of the guests, with dainty refreshments.

Bishop to be There.

The Rt. Rev. John Scarborough, bishop of the Dioceses, will visit the Church of the Holy Cross, tomorrow evening to administer the Apostalic rite of confirmation. The hour of service will be 8 o'clock.

Plainfielders There.

The Bound Brook baseball club gave a higly successful dance in its rooms, last evening. Professor O'Reilly furnished the music and over forty young people from this city attended.

APPEAL FOR HOSPITAL.

Fiscal Year is Soon to End and There is a Deficit in the Hospital Account.

The Board of Governors of Muhlenberg Hospital, through Ernest R. Ackerman, chairman of the finance committee, and W. C. Kinney, treasurer, has issued an appeal to the people of Plainfield to help in closing the fiscal year free of debt. To do this it will require $3,000. No one in Plainfield will question the usefulness of the hospital for its practical utility for the past twenty years has been abundantly demonstrated.

During the last year 388 patients have been admitted and 199 operations have been performed. The present fiscal year was begun with a deficit of $575.23; the receipts amounted to $8,968.78 and the expenses amounted to $11,33.580. Any offering that the people collectively or individually care to make will be greatly appreciated and acknowledged.

VETERANS' SONS ELECT.

Officers Chosen at Annual Convention of the State Division of the Sons of Veterans.

At the twentieth annual convention of the State Division of Sons of Veterans, held at Trenton Thursday, the following officers were elected: Commander, F. W. Cunningham, Atlantic City; junior vice-commander, R. F. Woerner, Hoboken; councillor, Geo. W. Pollitt, Paterson.

Commander Cunningham appointed the following staff: Chaplain, John A. Brown, Rahway; adjutant, H. E. Pennell, Atlantic City; quartermaster, Morris Parker, Atlantic City; judge advocate, John Bischoff, Egg Harbor; sergeant major, W. S. Epperson, Camden,

The convention next year will be held May 15 and 16 at Hoboken.

MEMORIAL WINDOW.

Will be Placed at Whittier House Social Settlement in Memory of Miss Gertrude Andrews.

The eighth annual meeting of the Whittier House Social Settlement, of Jersey City, in which many Plainfielders are interested, was held Wednesday evening. Reports for the year were read by the officers and all showed the organization to have had a prosperous year in its work.

Provision was made at the meeting for the placing of a memorial window in the Settlement building within the next few months, in honor of Miss Gertrude Andrews, of this city, who was a resident worker in the settlement up to the time of her death.

Remembered the Day.

At the regular weekly bowling contest in Saengerbund hall Thursday afternoon first prize was carried off by Mrs. Joseph Haurand. It was the birthday of Mrs. Henry Rummell and she gave an elaborate lunch to her friends in honor of the event. Mrs. Rummel was the recipient of numerous congratulations and was presented with a beautiful rocking chair and a Persian rug.

Funeral of Mrs. Thain.

The funeral of Mrs. Susannah Thain, who died at Muhlenberg Hospital Tuesday night, was held at the heme of her daughter, Mrs. Christopher Stahl, of Manning avenue, yesterday afternoon at 2:30 o'clock. The services were in charge of the Brethren. Members of the Brethren were the pall bearers.

Filling Up.

No more boys can be accommodated for the first two weeks at the Y. M. C. A. Boy's Camp at Lake Wawayanda. There is now only room for twenty-four more for the last two weeks, July 16 to 30. Full information can be obtained at the Y. M. C. A. building.

Taken Suddenly Ill.

Councilman Robert Clark, Jr., of 59 Jackson avenue, was taken suddenly ill yesterday with an acute attack of indigestion and was obliged to return home from business. This morning his condition was improved. Dr. Pittis is in attendance.

Taken To Supreme Court.

Justice D. D. Smalley, this morning, delivered to Robert M. Clark, counsel for the Trenton Abbatoir Company, the transcript in the case of L. A. Hummer, and the case will be taken to the Supreme Court.

Dance at Mt. Bethel.

Manager Frank Rice has arranged for another dance to be given at the Mount Bethel Hotel, this evening. A stage will leave the corner of Front and Somerset streets at 7:30 for those who wish to attend.

—William Hand & Son, truckmen, successfully brought a large cylinder press from Brooklyn to Plainfield, Thursday night. The press is for the Crescent Embossing Works.

THREW HIS LITTLE BROTHER INTO LAKE

Angered in Play Five-Year-Old Harold Rockafellow Tossed Younger Lad In.

WAS NEARLY DROWNED

CHAS. SOUTHERS JUMPED IN AND HE FISHED THE LAD OUT JUST IN TIME.

Children Were Playing on Elm Place Bridge Thursday Afternoon—Raymond Was Unconscious When Dragged Out of Lake.

Because his smaller brother, Raymond, aged three years, angered him, Harold Rockafellow, the five-year-old son of George Rockafellow, of Elm place, deliberately threw the little fellow off the bridge at the head of Tier's lake, Thursday afternoon. He dropped into the deep hole where two children have been drowned within recent years and he would have met the same fate but for the intervention of Charles Southers.

The children were playing on the bridge with some blocks owned by Harold and which Raymond took to himself to throw in the water. He was told by Harold not to throw them but he insisted he would and they were dropped in the water. In a heated passion Harold sprang at him and the next instant the smaller boy was toppled off the bridge in the deepest part of the pool. He immediately sank but quickly arose only to go down again. With mouth and lungs filled with water and on the verge of sinking for the last time, he attracted the attention of Southers who was passing over the bridge.

Without waiting even to discard his coat, Southers sprang after the drowning lad with some difficulty caught him and towed him to shallow water. On reaching the bank the boy was unconscious and he rolled him about the grass to draw the water from his lungs. This was finally accomplished but it was four hours later before he fully recovered. A physician who was called found the boy all right but declared he had a narrow escape

While Raymond was being rescued by Southers, Harold stood on the bridge and calmly watched, then cooly walked home and informed his mother he had thrown his brother in.

Chemical Engine Killed Pet.

A pet terrier, belonging to Andrew Love, Jr., of East Second street, ran out of the livery yard, yesterday afterday afternoon, and essayed a race with the chemical engine answering an alarm from box No. 83. Becoming incautious it got in front of the team, was bowled over and then crushed to death beneath the wheels.

Many to Be Baptized.

As a result of the revival meetings held last January, a large number of young people will be baptized in the Mount Olive Baptist church, tomorrow evening. Rev. E. E. Jackson will be in charge. A choir has been formed from among the vocalists in the church and there will be special music.

Reading Men's New Uniforms.

The trainmen of the Philadelphia and Reading Railroad have received their summer uniforms and they will be used tomorrow for the first. The conductors will wear an entirely new style one-buttoned cutaway coat. The men on the Atlantic City Railroad have donned their summer suits.

May Move Fountain.

The chances are the public drinking fountain now on North avenue will soon be moved to a point opposite between the railroad station and Watchung avenue. It is then proposed to have running water. At present the fountain is not working.

Attend Divine Service.

Union Lodge, No. 4026, Grand United Order of Odd Fellows, will attend devotional services in a body at Calvary Baptist church tomorrow evening. A noted divine from Jersey City will deliver an appropriate sermon.

Pail of Water Did the Work.

The fire department was called out by an alarm from box No. 83, yesterday afternoon, to quell a small blaze in an outhouse at Grant avenue and West Front street. The flames were put out with a pail of water.

Tomorrow's Meeting.

Frederic E. Taylor, of Brooklyn, will speak and Harper G. Smyth will sing and lead the singing at the big men's meeting at the Y. M. C. A. Hall tomorrow afternoon at 4 o'clock.

Dangerous If Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartly, Yankeetown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. L. W. Randolph.

SPORTING NEWS

ON THE DIAMOND.

Captain Martin, of the Hope team, has made a wise selection of players as may be seen from the list furnished League Secretary Firstbrook, last evening. All of them are good men and will be heard from before the season closes.

"Tus" Burt, an old time favorite, is to be one of the Y. M. C. A. twirlers. He has been practicing with the team and will pitch on and off with Dupee. He made a reputation on various Princeton teams during his college term.

"Hoppie" Walls Essex Streeters defeated the Junior Cuban Giants on the John street grounds, Wednesday. The score was 16 to 5. "Hoppie" Walls, who was recently made captain of the team, and Jack Muir, formed the battery for the Essex Streeters.

The Rutgers' College consolidated baseball team will meet the Y. M. C. A. nine on the local diamond, on Stelle avenue, near Central, this afternoon at 3:45 o'clock. This game promises to be very interesting, as both teams feel confident of success.

The ball teams representing Warren Engine Company and the West End Hose Company, of the borough, are practicing daily for the game to be held Decoration Day. The Warren boys are to be captained and are being coached by L. B. Bodine. "Lib" De Camp will be in the box and his supporters assert the West Enders will become cross-eyed if they try to follow his curves. Frank Perry will be in command of the West End forces.

The Warren Engine Company baseball team is getting into form for its contest with the West End Hose Company, Decoration Day. In the game between these teams last year the West End came off victorious, but the Warren men are determined to wipe out old scores this season. They are getting in some practice occasionally, and their nine has already been chosen. Judging from the men selected and their known baseball prowess, it looks as if the hose company contingent will have to hustle to retain their honors. Following is the team: Catcher, Charles Stahl; pitcher, A. DeCamp; first base, J. H. Schenck; second base, David Bodine; third base, Walter Bennett; short stop, E. J. Smith; left field, Bert Bodine, captain; right field, L. Feiring; centre field, H. H. Coddington.

TENNIS.

Work on the new court of the Park Club is progressing and it is expected that the court will be ready for play before the month ends.

A new tennis court has been laid out on the lawn of Geo. H. Fountain's residence on West Seventh street. A number of the young people of that part of the West End gather there daily to enjoy the game.

The return to general popularity of tennis has been felt among the boys of Leal's School and they are again preparing to hold a tournament for the championship of the school before the summer vacation arrives. Such a tournament was held last spring and attracted a goodly number of entries. An even larger list is expected this season. The tournament will be held on the Park Club courts if they can be secured.

GOLF.

There will be the usual play for the President's cup on the links of the Park Golf Club, this afternoon. The crowd which turned out last Saturday showed that much interest is being taken in that competition. The Saturday afternoon teas have been resumed at the club house and there is always a little gathering of the women of the club on those occasions.

The new course and regular greens of the Westfield Golf Club will be formally opened on Decoration Day. There will be a tournament open to club members to be played as follows: Qualifying round, 18 hole, medal play, commencing 9 a. m. First and second eights to continue at match play for prizes offered by Handicap and Greens committees. First round at match play for both cups will be called for the afternoon of the opening day and the semi-final play will be on Saturday afternoon, May 31. The final play will be on Saturday afternoon, June 7.

Another Vote on Consolidation.

Miantonomo Tribe, No. 118, Improved Order Red Men, has issued notices for a meeting on Thursday evening, May 22, when there will be a vote on the proposed consolidation of the three tribes of the city.

Wants Others to Know.

"I have used DeWitt's Little Early Risers for constipation and torpid liver and they are all right. I am glad to indorse them for I think when we find a good thing we ought to let others know it," writes Alfred Heinze, Quincy, Ill. They never gripe or distress. Sure, safe pills. L. W. Randolph.

OBJECT OF REFORMATORY

MISTAKEN IDEAS GENERALLY PREVAIL REGARDING IT.

Secretary of Reformatory Commission Gives Some Interesting Facts.

The Secretary of the New Jersey State Reformatory Commission has published a report in which he dwells with some emphasis on the Rahway Reformatory. Touching on a few salient points, he says:

"Prisoners are often brought to the reformatory after lying in jail several weeks after sentence has been passed upon them by the courts. Each day in jail adds to the degradation of the young man sentenced for the first time, and makes the work of regeneration all the more difficult. There can be no reasonable excuse why any sheriff cannot deliver a sentenced prisoner to the reformatory within three days from the time of his sentence.

"A number of judges have a mistaken idea concerning the kind of prisoners to send to the reformatory, and have confined their commitments to boys just over the age which permits them to go to the Reform School at Jamesburg. Any man under thirty years of age, who has, so far as known, been convicted of a criminal offense for the firt time, ought to have a chance given to him to re-establish himself in the world. Every man leaving prison carries with him the stigma of a felon. It is impossible to escape it. But a sentence to a reformatory or a reform school does not nceessarily burden the man with any odium. The helping hand is eagerly offered to its paroled inmates, and if the young man tries to show that he wants to be an honest man, he finds friends and assistance everywhere.

"Some prisoners have been received at the reformatory on six and seven indictments, for essentially the same crime, including assault and battery with intent to rob, breaking and entering, larceny, and receiving, all of which were parts of one crime, the maximum of the cumulative sentence being 24 years. A sentence of one year, in jail or prison, for the crime committed in the specific case mentioned would be deemed sufficient."

From Hot to Cold.

Dysentery is prevalent everywhere in summer and is due to miasmatic poisons, and begins abruptly with inflammation of the mucous lining of the large bowel. In America the disease is common, but properly treated does not result as seriously as in the tropics. Perry Davis' Painkiller is the best known remedy and the most efficacious in the treatment of dysentery.

WHAT OTHERS SAY.

Clippings From Other Newspapers Which May be of Interest to Plainfield and Its Citizens.

A Newark man, arraigned in Plainfield on the charge of drunkenness, explained that the beer made there was stronger than the beverage manufactured in this city. Instead of appreciating the intended compliment from a visitor, the hard-hearted judge sent the unfortunate man to jail for thirty days. Next time he will know better than to be a growler because of a mild brew.—Newark News.

The greater part of the rock and soil now being taken from the New York rapid transit tunnel subway is being dumped into New York Bay and used to reclaim sixty acres to be added to Governor's Island. But what will be done with the tons of mud that will be dug out of the P. R. R. tunnel and the Hudson River trolley tunnel? Just think of the rapid reclamation work that could be performed with that Hudson River mud if it were dumped on the Hackensack meadows or on the Horseshoe meadows east of the hill.—Jersey City Journal.

After eight years of practical street-cleaning education at the hands of the Woman's Town Improvement Association of Montclair, it would seem as though the officials of that thriving community should be competent and willing to take up the burden which has now become too great for the women to carry. The good accomplished by this organization of progressive women has been generally admitted. They have not only succeeded in benefiting their own town, but they have set an example which has been copied in all parts of the country. Under their vigilant care, Montclair has become noted for its clean streets and the tidy appearance of the municipality. A civic pride has been engendered, which has done much to promote the material welfare of the town. The growth of the town, with the consequent opening of new streets, has so increased the work as to make it too heavy for private effort to handle. The limited funds at the disposal of the organization make thorough work on the highways impossible.

The Town Council has listened to the proposition of the women and has referred it to a committee. It would be ungallant, to say the least, to act unfavorably on the matter Montclair cannot afford to return to dirty streets.—Newark News.

THEATRICAL.

The announcement was made in the newspapers in New York last Sunday that "The Sleeping Beauty and the Beast" would be continued at the Broadway Theatre but two weeks longer, ending its phenomenally long and successful run at this house Saturday evening, May 24. The demand for seats for the week beginning Monday, May 26, has become so large, however, and the advance sale for this and next week is so great, Messrs. Klaw and Erlanger and Jacob Litt, manager of the Broadway Theatre, have decided to extend the engagement of "The Sleeping Beuaty and the Beast" to Saturday evening, May 31, when the last performance in New York of this remarkable spectacle will occur. An extra matinee will be presented the afternoon of Decoration Day, Friday, May 30. Seats are now on sale for every remaining performance and may be secured by letter, accompanied by remittance, directed to Jacob Litt, manager Broadway Theatre, or at the box office.

LITERARY.

By special arrangement the Duke of Argyll contributes to Thursday's issue of The Youth's Companion an article on the approaching Coronation. He describes fully the ancient privileges enjoyed by certain families in connection with the Coronation; also the ceremonial itself—the annointing, the presenting of the scepter and orb, and the final crowning. It is significant of the feeling of warm friendship existing between the two great English-speaking peoples that the brother-in-law of England's King should be a regular contributor to the most representative family paper in America. Perhaps it was this thought of how much the two nations have in common—the same ancestry, the same speech, the same ideals under different forms of gorvernment — which suggested the closing lines of the Duke's article: "For both kings and presidents the real crown is the love of the people; the real anointing is the love of God; the real scepter is the respect of those of their day; the real orb of empire is the verdict of history on their life and times." c

Both Are Known.

Fred E. Taylor, the popular speaker at men's meeting, who will deliver an address at the Y. M. C. A. Sunday afternoon, conducted a series of meetings at Hope chapel a few years ago and made a very favorable impression. Neither is the soloist for Sunday unknown in Plainfield. G. Harper Smythe, the splendid baritone, sang at the large meeting addressed by Don O. Shelton at the First Baptist church in 1898.

VETERANS GATHER AT BRUNSWICK NEXT WEEK

Preparations Complete for the State Encampment of the Grand Army of the Republic.

PROGRAMME ARRANGED

PLAINFIELD IS TO BE WELL REPRESENTED AT THIS GATHERING.

Women's Relief Corps and Ladies' of the G. A. R. Will Also Hold Conventions at the Same Time in New Brunswick.

Preparations are about complete for the annual encampment of the G. A. R., of New Jersey, to be held at New Brunswick May 20 and 21. It is expected that the encampment will be one of the largest and best ever held as the place of meeting is easy of access. Department Commander John Lawrence and his efficient staff have been arranging the details and a most excellent programme has been prepared. Plainfield will be represented by many members from Winfield Scott Post, No. 73, G. A. R., and the Woman's Relief Corps, a convention of the latter organization being held at the same time.

Tuesday evening, May 20, at the Mansion House the Council of Administration will meet to arrange for the encampment. The session proper, opens at 10 o'clock Wednesday morning, in Columbia Hall. There will be an afternoon session in the same hall. Only delegates will be admitted to these meetings.

The camp fire will be held in the evening in Columbia Hall which will be free to the public. Major R. H. Hendershot, the original drummer boy of the Rappahannock, assisted by his son will entertain at this time. Speeches will be made, selections by Crouch Brothers Quartette and other features in the entertainment line will be introduced at the fire at which the department commander will preside.

Thursday, May 22, the annual election of officers will take place. Department Commander Lawrence is being urged by friends from all posts of the State to run again for office.

He has not as yet given his consent but it is considered likely that the aged veteran will be persuaded to accept the nomination. While he has been in office he has visited nearly every post in the State, and the hearty welcome he has received and the sincere hospitality extended to him has made the year a very pleasant one for him.

The department headquarters will be at the Mansion House.

It is expected that Judge Eli Torrence, the Commander in Chief of the United States will be present at one of the sessions at least.

The annual meeting of the Woman's Relief Corps, which is an auxiliary to the G. A. R, will also be held at the same time in the People's Bank building and will have its headquarters in the First Presbyterian church chapel.

The Ladies of the G. A. R. will meet in Goodwill Council rooms, in the Savings Institution building and will make their headquarters at the Mansion House.

OBTAINED CONTROL.

E. S. Hooley and W. L. Stow in Control of D. M. and F. D. Railroad.

The Wall Street Journal states that Edwin S. Hooley and W. L. Stow have purchased the control of the Des Moines and Fort Dodge Railroad, and the deal is considered interesting in view of the fact that this road would be useful to Illinois Central, C. B. and Q., Chicago Great Western and that the Minneapolis and St. Louis uses part of the track and also the terminals of the Des Moines. The impression seems to be that the purchasers know what they are doing, although Wall street is in doubt as to where the property will show up.

Settled With Trolley Co.

In the case of Geo. W. Farlee, guardian for Marie Farlee, an infant, against the Elizabeth, Plainfield and Central Jersey Railway Company a settlement has been effected. W. G. DeMeza represented Mr. Farlee.

Political Plans.

It is expected that within a short time a meeting of the city Republican executive committee will be held to make plans for the coming year.

New Schedule.

A new time table will go in effect on the New Jersey Central Sunday at 12 o'clock, noon.

Self Protection

THE TRUTH ABOUT IT.

One of the evidences of the difference of assessments in city and borough was the French carriage manufactory, on Somerset street, which is built directly over the brook and is divided between the two counties. This was originally assessed in North Plainfield for $1,900, and in Plainfield for $1,600. That was when Dr. J. H. Cooley was the borough assessor. Then the attention of the Borough Council was called to the difference and, by order of the Council, the assessment was changed to conform with that on the city side.

Borough Assessor French says that without doubt the original assessment was correct when based on the method in vogue in that municipality. The members of the Borough Council were not, he says, acquainted with the basis on which borough property is assessed or else they would not have made the change. In order to conform with the others, it should be today $1,900.

The difference in the two assessments was given as an evidence in an argument in favor of consolidation. The "antis" denied it when their mass meeting was held without explaining that the change had only recently been made. The facts of the case are those just given.

The time for the opening of the local baseball league is approaching and the four teams, which make up the league, are rapidly getting into championship form. It is, as yet, an open question as to which one has the best chance. The teams have filed lists of the players with the secretary of the league and from these men, the nines will be made up. Today will give another opportunity to see what kind of a showing these same men will make.

Thursday evening of next week is the time set by the advocates of the Greater Plainfield movement for their mass meeting at Saengerbund hall. Like the meeting of the "antis", it will be exclusively for borough citizens and tax-payers. Careful preparation is being made for the meeting and a new but startlingly effective way of bringing home the truths of the arguments will be used.

Thursday was the day which marked the opening of the straw hat season. Although custom has fixed the day, Dame Nature did not seem of a like opinion. There will be plenty of time, however, to wear straw hats before the summer is over.

This series of interclub tennis matches, which begin today on the courts of the Park Club, promises to do much to advance the local interest in the game of lawn tennis.

David Sharp, of the borough, has returned from a visit at Centreville.

NEW PASSENGER COACHES.

For Service on the Philadelphia and Reading Hour Trains.

The first of the thirty new passenger coaches to be used in the hourly train service between Philadelphia and New York, has arrived at the Reading Terminal. The car is fifty-two feet six inches long and nine feet ten inches wide. The upholstering is in blue plush and the interior finishing in quartered oak. The head lines and deck lights, or transoms, are in light sea blue. There are five Pinsch gas lamps to each car. Of the thirty new cars ordered twenty will be open ptatforms and ten vestibuled, and all are expected to be delivered by July 1.

Statuary at Lincoln School.

The two pieces of statuary at the Lincoln School, mention of which was made yesterday, are considered very fine. The one representing "David" is by the artist Mercier, and a similar one took the prize at the Paris Exposition. The other one is "Hebe of Canova," and is by the artist Thorwaldsen. Miss Shattuck found the two pieces in New York, after a long search throughout this part of the country.

First Appearance Here.

W. Stanley Grinsted, basso of Holy Trinity church, Brooklyn, will make his first appearance in Plainfield, Thursday evening, at the concert of the Lotus Glee Club, to be given in the First M. E. church. He is pronounced by competent critics to be the best basso the club has ever had.

Death of Mrs. Ramsey.

Mrs. Walter Ramsey, of High Ridge, who was recently at Muhlenberg Hospital for treatment, died at her home early this week. She had a host of friends at her home who mourn her death.

Change of Masses.

For the summer months the Sunday hours of masses have been changed at St. Mary's R. C. church. The first mass will be at 6 o'clorck, the second at 7:30; the third at 9, and the last mass at 10:30.

Open to All.

Although the Knights of the Golden Eagle will attend the Y. M. C. A. meeting tomorrow in a body, the meeting is for the general public as well.

Confirmation at Grace.

Bishop Scarborough will give confirmation in Grace P. E. church at 10:30 o'clock Sunday morning.

Mrs. Fritts, of Plainfield, is visiting Mrs. George VanNest, of Somerville.

SUBURBAN NEWS

A Department Devoted to the Minor Events in Greater Plainfield's Suburbs by Our Own Correspondents.

DUNELLEN.

The Dunellen A. C. will play the Hope chapel Y. M. A. at Plainfield this afternoon. A stage will leave the postoffice at 2:30 and all who desires to see the game can go at a moderate cost. Dixon, formerly of the Hopes, will not catch as reported but the lineup will be the same as last week.

Practice was held last evening in the Presbyterian chapel for the entertainment which will be given some time in June by the members of the Christian Endeavor Society. The entertainment will be one of the most extensive ever presented.

A subscription of $75 has been secured for the macadamizing of the lower part of Washington avenue. The matter will be referred to the Council at the next meeting.

The profits of the cantata "Snow White" will be used for the benefit of the piano and library fund of Whittier School. The library will be considerably increased.

The Dunellen Juniors will play the Clinton Avenue juniors on the home grounds this morning. This will be the deciding game of a series between the two.

The pay car on the Central railroad will go through town today and will enrich the local employes considerably.

Robert Patterson has been entertaining William Armstrong, of Jersey City, for a few days.

A regular meeting of the checker club was held in the North avenue club room last evening.

Theodosius Kuldoshes has purchased a residence on Depot avenue and will make it his home.

John Beekman attended a meeting of the Reform Club at Plainfield Thursday night.

Robert Johnson is considerably under the weather with a bad attack of rheumatism.

Mr. and Mrs. W. H. Taylor have returned after a week's stay with out of town friends.

Carpenter and Frazee are engaged in giving Alvah Gray's residence a coat of paint.

Miss Margaret Day is recovering satisfactorily from the result of a fractured leg.

All of those who have gardens are busily engaged in planting their spring crop.

J. H. Peters, Jr., spent last evening with friends in Plainfield.

NEW MARKET.

It is probable that another crowd of city people will come to the Dayton farm in Piscataway to purchase building lots. The farm has been divided into lots and several were disposed of last Sunday.

Mrs. J. E. Leonard, of Caldwell, has been spending the week with Mrs. Hannah Nelson.

W. H. Varnum, of Perth Amboy, was in town on business yesterday.

Prayer meeting was held last evening in the First Baptist church.

Bridge No. 29 over the upper part of the lake is soon to be enlarged.

Some improvements are to be made soon around the Hotel Nelson.

PLAINS AND FANWOOD.

Rev. Mr. Bindenberger, the newly-appointed pastor of the Methodist church, has taken up his residence in town, boarding at the home of Mrs. Anna Goodman. Mr. Bindenberger is the first pastor of the church in a number of years who has been a resident of the town, and the change will no doubt benefit both pastor and people.

At the regular monthly meeting of Bucket and Engine Co., held Wednesday night, the annual election of officers was held. The following will be in command of the company during the year: Foreman, Chas. Haberley; first assistant, Chas. Meyers; second assistant, Harry Guenier.

George Baldwin is detained at home from business, suffering from a painful wound on his hand, caused by running a rusty nail into the flesh while at work about the Pennsylvania Railroad pier in New York a week ago.

Services at the Baptist church Sunday morning will be preaching at 10:45, subject, "Right Relation of the Law;" B. Y. P. U. meeting, 7; evening preaching, 7:45, subject, "Is it Profitable?"

A meeting of the Township Committee was held in the town rooms last night. A number of bills were paid and considerable other business of a routine character was transacted.

The Friday evening prayer meeting in the Baptist church was held last night at 8 o'clock. The leader was Rev. Mr. Shott; subject, "The Healing of an Infirmity."

A large number of rooters from town will go to Plainfield this afternoon and help root the home team to victory in their game with the Clinton Avenue nine.

Saturday evening prayer meeting will be held in the Methodist church tonight at 8 o'clock. Rev. Mr. Bindenberger will lead.

Mrs. Wm. S. Terry, of Plainfield, spent Friday with her mother, Mrs. James Buckley.

SOUTH PLAINFIELD.

Regular services will be held at the Baptist church, tomorrow. In the morning, the pastor will preach on the subject, "How Much am I Interested?" The subject of the evening address will be "Sowing Wild Oats." The Christian Endeavor meeting will be led by Harry J. Manning.

The Farther Lights Society of the Baptist church will meet tonight at 7:45 o'clock at the home of Mrs. David Bigley.

Letters are advertised at the postoffice this month for George Tolas, Mrs. Sarah Waller, John Kulisar and Jossef Urrah.

Mrs. Peter LaTourette entertained, yesterday, her daughter, Mrs. Foster Voorhees, of Brooklyn.

William B. Manning is visiting his daughter in Metuchen.

Miss Laura Manning is spending a few days in Brooklyn.

Thieves Carted Away Shingles.

Daring thieves, accompanied by a truck, stole 5,000 shingles from the new residence, which George Walters is building at Gillette, Thursday night. They had only been carted to the premises that day by employes of Boice, Runyon & Company, of this city. What the thieves expect to do with the large amount cannot be surmised.

Funeral of Mrs. Godown.

Funeral services over the remains of Mrs. William Godown, who died in Muhlenberg hospital, yesterday morning, will be held from the residence of her mother, Mrs. E. T. DeForest, of West Second street, Monday afternoon at 2 o'clock. Interment will be made in the Methodist cemetery.

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. W. Randolph.

COAL SUPPLY IN THIS CITY

(CONTINUED FROM PAGE 1.)

P. H. McDonough, of McDonough Brothers, was practically of the same mind as Mr. Holmes. Both of these dealers will protect their customers as much as possible, and refuse to sell in large quantities to strangers. Mr. McDonough does not care to make any individual advance till coal goes up at the mines.

The Consumers' Coal Company says they will be able to stand the strain for two or three months. An advance in price is dependent on the length of the strike and the action of other dealers. They did not know what expense the mine owners were incurring, and could not judge of probable effects, beyond a comparison with the last strike when coal advanced a dollar at a jump.

Boice, Runyon & Company, as has already been stated, have made an increase of fifty cents per ton. "The people want the coal and are willing to pay the amount demanded," said a representative of the firm. They have sufficient coal on hand to supply immediate wants.

Inquiry from the manufacturers brought a diversity of answers. "Give it up," said the manager at Potter's when asked what effect the strike would have. They have a good supply on hand and are not worrying. Scott's have sufficient to last four months. The Electric Light Works are well equipped, and have several carloads on the road. At the Safe Works hard coal only is used; they have enough for three or four months, "and in a pinch" said someone in authority, "we can use soft." The Pond Tool Company has coal a-plenty.

The imminence of a strike was the cause of the suspension of coal crews on the Jersey Central Raliroad the day before yesterday. Like action was taken by the Lackawanna, the Lehigh Valley and the Delaware and Hudson. It is expected that the strike order will result in the suspension of a number of other crews on these roads at once. Other roads are pursuing the same course.

PRESBYTERIAN CREED CHANGES.

Revision Committee's Report Read to Assembly.

NEW YORK, May 17.—The report of the committee on the revision of the confession of faith appointed by the Presbyterian general assembly last year was made public yesterday. It has been awaited with keen interest not only by members of the Presbyterian church, but by persons of all religious beliefs the country over.

The revision report, which makes clear the disbelief in infant damnation and suggests other important changes in church doctrine, was read by the Rev. Dr. Henry C. Minton, the retiring moderator, and received with prolonged applause. The question of adopting the report will be debated next Thursday.

The committee in its overtures to the general assembly recommends that in the statement of the reformed faith it be made plain that "no man is condemned except on the ground of his sin." The revisers also recommend that it be stated positively that chapter 10, section 3, of the confession of faith is not to be regarded as teaching that any who die in infancy are lost. In brief the creed as the committee would have it revised says:

"We believe all dying in infancy are included in the election of grace and are regenerated and saved by Christ through the Spirit, who works when he pleases.

"The word of God is the only infallible rule of faith and life.

"God is revealed in nature, in history and in the heart of man.

"God not the author of sin.

"Man free to choose between good and evil and forever responsible to his maker.

"Penalty of first parents' sin is eternal death.

"No man saved but by God's grace.

"Christ perfect sacrifice for world's sin.

"Spirits of just enjoy immediate communion with God.

"Sacraments of baptism and Lord's supper alone divinely established.

"Christ will come again to judge the world, and the wicked shall receive the eternal award of their sins."

Despite the opposition of the conservatives on the opening day the election of Dr. Henry Van Dyke as moderator of the general assembly is a popular one and is regarded as a just tribute to his reputation as a minister and writer.

THE KAISER'S OFFER.

Will Erect Statue of Frederick the Great In Washington.

WASHINGTON, May 17.—President Roosevelt has received from the German emperor a telegram which is in part as follows:

"I am still under the deep impression created by the splendid and cordial reception of my brother, Prince Henry, by the citizens of the United States of America. I wish to commemorate the visit of Prince Henry by a gift to the people of America, which I request you to accept in their name. I intend to present a statue in bronze of Frederick the Great to the United States, to be erected in Washington on a place you will kindly choose. May this gift be looked upon as a lasting sign of the intimate relations which have been successfully fostered and developed between our two great nations."

President Roosevelt has replied, thanking Emperor William heartily in the name of the United States. The president has decided upon a site for the statue. After giving the matter attention the president concluded that no action by congress was necessary and that as Frederick was a great commander it would be most appropriate to place the statue adjacent to the new war college to be established in Washington. This college is to be erected in the arsenal grounds.

CHRISTIAN ENDEAVOR.

Topic For Week Beginning May 18
Comment by Rev. S. E. Doyle.

TOPIC.—Practical consecration.—Rom. xii, 1-21.

Paul was a theologian. He believed in the great fundamental doctrines of evangelical Christianity, and these doctrines have never had a more lucid expositor or a more courageous defender, yet at the same time Paul believed in applied Christianity. He made faith the foundation of works and theory the foundation of practice. This is strikingly illustrated in the epistle to the Romans. The first eleven chapters of the epistle logically and elaborately develop the doctrine that the gospel is the power of God unto salvation to all who believe. Then on the basis of this great truth he appeals to all to consecrate themselves to God, to separate themselves from the world and, to faithfully discharge the duties they owe to each other. The consecration demanded in lieu of the previously presented and argued truths is certainly a practical consecration. "I beseech you, therefore, brethren, that ye present your bodies a living sacrifice, holy, acceptable unto God, which is your reasonable service."

Practical consecration as set forth here involves a number of characteristics which it is well for us to remember.

1. Consecration should be grateful. "I beseech you, brethren, by the mercies of God." Gratitude to God for His mercies in Jesus Christ should lead us to consecrate ourselves to God and should be a constant element in the performance of our vows of consecration.

2. Consecration should be voluntary. "Present your bodies," says the apostle. This expression suggests voluntariness. It has about it the atmosphere of the voluntary enlistment of the soldier in the service of his country. Voluntariness is a characteristic of true consecration to God. God delights in and desires the service and worship of volunteers, but has no place for the service of hirelings.

3. Consecration should be definite. Presentation is a definite act. The soldier presents himself once, and if accepted he is then enlisted. It is unnecessary for him to keep presenting himself daily. He has given himself once, and he cannot take himself back and do it over again. Consecration to God is a definite act. When rightly done, it is done once for all.

4. Consecration should be active. "Present your bodies a living sacrifice." A living sacrifice suggests an active service for God. We are saved to serve. We enlist for service, and we should be alive and active as good soldiers of our great King.

5. Consecration is reasonable. "Which is your reasonable service." When we remember what God's relation to us is, what God in Christ has done for us and what is involved in our own service of Him, it is most reasonable that we should consecrate our lives to Him.

6. Consecration should be sincere. Having consecrated ourselves to God, we should not be conformed to this world, but be transformed. Instead of fashioning our lives by the patterns of the world, they should be fashioned after divine ideals by the gracious influence of the Holy Ghost on our inner lives.

7. Consecration should be humanly directed. We should serve God by faithfully performing the mutual duties that devolve upon us as the people of God.

BIBLE READINGS.

Eccl. ix, 10; Matt. v, 16; xxv, 31-46; John ii, 1-11; xxi, 1-6; Acts xiii, 1-3; I Cor. x, 31; xv, 58; Gal. vi, 1-9; Col. iii, 17.

A Harmonious Union.

Life in its perfect expression is the harmonious union of the physical, mental and spiritual, and man attains his highest attribute when he recognizes himself as an equal trinity of these three parts—master of all below, subject only to God, the all good, "in whom he lives and moves and has his being."

No wrong can result when this knowledge is thoroughly understood and established, for the human has united with the divine, its source, its strength, and, like a mighty stream, it forces it way through every obstacle to the sea of the infinite. "The mortal has donned immortality," "the natural has become the supernatural," the Adam has been subjugated by the Christ, and henceforth love becomes a divine conception, "thinketh no evil," because it can do none.—Philadelphia Ledger.

Salvation.

Salvation is not secured by obedience to a rite, by the observance of a code of rules or even by obedience to a creed pronounced orthodox. A man may be praised in all these and yet be under the wrath of God, and his character be scarred by passion and self indulgence. The only condition of salvation is faith which believes in Him that justifies the ungodly and receives into the heart the very nature of Jesus to become the power of the new life. "He that hath the Son hath life."—F. B. Meyer.

Let Us Always Remember.

Let us always remember that God can modify our severe situations in life, that He can favorably move those who vex, perplex and try us and that He can raise up helpers for our benefit. Prayer offered up in Christ's name by His faithful, loving and trustful servants brings timely and adequate returns.—Presbyterian.

What Is Really Good.

May the Lord give me such an insight into what is really good that I may not rest contented with making Christianity a mere addendum to my pursuits or with tacking it as a fringe to my garments.—George Eliot.

EPWORTH LEAGUE.

Topic For the Week Beginning May 18, "Practical Consecration."
Text. Rom. xii, 1-21.

"That ye may prove what is that good and acceptable and perfect will of God."

Practical consecration must be based on real confidence, and that confidence must be in God as knowing what is good for us and as willing and working the good for us. Such trust does not come by chance, but by continued thinking, a sort of reasoning with oneself. There is a great deal of actual distrust of God among those who profess to love and serve Him. There is hesitation to take up a specified work or do a certain duty. Sometimes this shrinking arises from timidity, self distrust, but often it is from disguised indolence and a preference for ease. The suggested course seems disagreeable, and this weighs more than the fact of duty. What is needed then is to resolutely face the thing and find out if it ought to be done. No need of disguising or sugar coating the disagreeable part. Let that be clearly viewed and estimated at its full value. Then balance all the matters and let the value of right, duty, truth, have full weight.

Is there some cowardice in the matter? Is there preference of self before the approval of God?

Let the full force of God's love bear upon the heart. He knows what is good for us. He does guide safely. It is safe only to follow His guidance. We ought to commit all our ways to Him. As we hold our hearts close to His word and feel the power of the Holy Spirit as He applies it clearly to our needs we find the will to follow as He leads.

How full of practical suggestions is this Scripture lesson. It has meaning for every one.

First we need to learn that we are not all alike. Each differs from others, but all are needed to make the perfect body and perform the needed work. That fact realized will keep us from either pride or discouragement as we discover that we are unlike others and cannot do as they do. It will keep us from faultfinding and undue independence and aloofness from those with whom we should have companionship. We all are one body, so we all should work together or we will never get anywhere. And I must do my work well or I shall hinder all the rest. Do it not for their praise, but for the sake of Jesus, whether any one else appreciates it or not. In doing it I should love simply, transparently and not in make believe fashion. That never means that I am to love a wrong thing or be friendly toward a bad thing. Love means a deep detestation of all falsity and evil and a whole souled sticking to the true and good. It is wholesome and clean and has no fellowship with tricks and subterfuges.

Practical consecration will take a back seat for self in order to let another take the better place. It will push another into honor rather than crowd him out to put self in. It is hopeful when things look black. It hangs on even when it hurts to hang on and helps when it costs heavy. It feels kindly to others. It honestly feels genuine kindness when they act meanly and try to injure. It shares joy and sorrow and feels with others and is not afraid or ashamed of such feelings. It makes manhood and womanhood genuinely noble and beautiful.

Tuned to Finer Issues.

Our spirits may always be tuned to finer issues. There is a kindly influence above and around us that always awaits the receptive soul. It has been felt in all ages by the rarest spirits. The poets have felt it; artists have felt it; the good have always felt it and named it with some angelic name. The heroic have been turned toward it. It has been known and recognized and has been unknown and unrecognized. It has always been breaking in upon the best order of souls and noble leaders of men with a more open and rare sensibility. It has been an inspiration and help to countless souls as they have struggled with the vicissitudes and have felt the burden of this unintelligible world. What shall we call it? What more significant name than that of the Divine Spirit, moving on the hearts of men to bring them into ultimate harmony with God, and thus to realize the great ends of a final and universal redemption?—Universalist Leader.

Prayer.

We ask for peace, O God!
Thy children ask Thy peace;
Not what the world calls rest,
That toil and care should cease.
That through bright sunny hours
Calm life should flee away
And tranquil night should fade
In shining day.
It is not for such peace that we would pray.

We ask for peace, O God!
Yet not to stand secure,
Girt round with iron pride,
Contented to endure;
Crushing the gentle strings
That human hearts should know;
Untouched by others' joys
Or others' woe.
Thou, O dear Lord, wilt never teach us so!

We ask Thy peace, O God,
Through storm and fear and strife,
To light and guide us on
Through a long, struggling life,
While no success or gain
Shall cheer the desperate fight
Or nerve what the world calls
Our wasted might,
Yet pressing through the darkness to the light.

It is Thine own, O God,
Who toil while others sleep;
Who sow, with living care,
What other hands shall reap;
They lean on Thee, entranced
In calm and perfect rest;
Give us that peace, O Lord,
Divine and blest,
Thou keepest for those hearts that love Thee best.
—"The Changed Cross."

[Copyright, 1899, by Frederick A. Stokes Company.]

And he was off.

"Whither are you bound now, Thurston?" asked the reporter, as the friends resumed their walk.

"Home and to bed like a sensible fellow," replied the physician.

"Don't you do anything of the sort. Come along with me to my rooms. I must arrange the data so far collected in the two interesting cases that I have taken up to-day; and in the cab mystery, at least, you can probably be of assistance to me, if you will."

"Very well, old man; lead on. I am curious to know what theories you have adopted in these two cases."

"Theories!" replied Sturgis; "I never adopt theories. I simply ascertain facts and arrange them in their proper sequence, as far as possible. When this arrangement is successfully accomplished, the history of the crime is practically completed. Detection of crime is an exact science. Here, as in all other sciences, the imagination has an important part to play, but that part consists in coordinating and interpreting facts. The solid foundation of facts must invariably come first."

CHAPTER V.

A FOUNDATION OF FACTS.

When the two men were comfortably settled in the reporter's study, Sturgis produced pipes, tobacco and writing materials.

"There, now," said he, as he prepared to write, "I begin with what I shall call the Cab Mystery. The data in this case are already plentiful and curious. I shall read as I write, and you can interrupt for suggestions and criticisms, as the points occur to you. In the first place, the dead man is about fifty years old, and was employed in some commercial house or financial institution, probably bookkeeper, at a fairly good salary."

"Hold on there, Sturgis," laughed Thurston. "I thought you were going

"HOLD ON THERE, STURGIS."

to build up a solid foundation of facts before you allowed your imagination to run riot!"

"Well?" inquired the reporter, in apparent surprise.

"Well, the only fact you have mentioned is the approximate age of the dead man. The rest is pure assumption. How can you know anything certain about his occupation and the amount of his salary?"

"True; I forgot you had not followed the steps in the process of induction. Here they are: the dead man's sleeves, on the under side below the elbow, were worn shiny. This shows that his occupation is at a desk of some kind."

"Or behind a counter," suggested Thurston quizzically.

"No. Your hypothesis is untenable. A clerk behind a counter occasionally, it is true, leans upon his forearms. But incessant contact with the counter leaves across the front of his trousers an unmistakable line of wear, at a level varying according to the height of the individual. This line was not present in the case of the man in the cab. On the other hand, his waistcoat is frayed at the level of the fourth button from the top. Therefore I maintain that he was in the habit of working at a desk. Now the trousers, although not new, are not baggy at the knees, though free from the seams which would suggest the effect of pressing or of a trouser stretcher. Conclusion, the desk is a high one; for the man stood at his work. Most men who work standing at high desks are bookkeepers of one kind or another. Therefore, as I said before, this man was probably a bookkeeper. Now, as to his salary; I do not pretend to know the exact amount of it, of course. But when a man, who was evidently not a dude, has his clothes made to order, of imported material, and when his linen, his hat and his shoes are of good quality, it is fair to infer that the man's income was comfortable.

"I proceed with the arrangement of my data:

"Secondly: the man in the cab died of a wound caused by a bullet fired at very close quarters. Indeed, the weapon must have been held either against the victim's body, or, at any rate, very near to it; for the coat is badly burned by the powder."

"On these points at least," assented Dr. Thurston. "I can agree with you. The bullet probably penetrated the upper lobe of the left lung."

"Yes," added Sturgis, "and it passed out at the back, far below where it went in."

"What makes you think it passed out? The wound in the back may have been caused by another bullet fired from the rear."

"That hypothesis might be tenable were it not for this."

With these words the reporter pulled out his watch, opened the case, and with the blade of a penknife took from the surface of the crystal a minute object, which he handed to the physician.

"Look at it," said he, pushing over a magnifying glass.

Dr. Thurston examined the object carefully.

"A splinter of bone," he said, at last.

"Yes. I found it on the surface of the wound in the back. How did it get there?"

"You are right," admitted the physician; "it must have come from within, chipped from a rib and carried out by the bullet which entered from the front."

"I think there can be no doubt as to that. Now, the bullet does not seem to have been deflected in its course by its contact with the rib, for, as far as I have been able to judge by probing the two wounds with my pencil, their direction is the same. This is important and brings me to point three, which is illustrated by these diagrams, drawn to scale from the measurements I took this afternoon."

As he said these words, the reporter handed to his friend a sheet of paper upon which he had drawn some geometrical figures.

"The first of these diagrams shows the angle which the course of the bullet made with a horizontal plane; the second represents the inclination from right to left. The former of these angles is nearly and the latter not far from forty-five degrees. The inclination from right to left shows that the shot was fired from the right side of the dead man. Now then, one of two things: Either it was fired by the man himself, the weapon being held in his right hand; or else it was fired by an assassin who stood close to the victim's right side. The first of these hypotheses, considered by itself, is admissible; but it involves the assumption of an extremely awkward and unusual position of the suicide's hand while firing. On the other hand, the dead man is tall—six feet one inch—and to fire down, at an angle of sixty degrees, upon a man of his height, his assailant would have to be a colossus, or else to stand upon a chair or in some equally elevated position, unless the victim happened to be seated when the shot was fired."

"Happened to be seated!" exclaimed Thurston, astounded, "why, of course he was seated, since he was in the cab."

"That brings up point four, which is not the least puzzling of this interesting case," said Sturgis, impressively; "the shooting was not done in the cab."

"Not done in the cab!"

"No; otherwise the bullet would have remained in the cushions; and it was not there."

"It might have fallen out into the street at the time of the collision," suggested Thurston.

"No; I searched every inch of space in which it might have fallen. If it had been there I should have found it, for the spot was brilliantly lighted by an electric light, as you remember."

The physician pondered in silence for a few minutes.

"With all due respect for the accuracy of your observations, and for the rigorous logic of your inductions, Sturgis," he asserted at last with decision, "I am positive that the man died seated, for his limbs stiffened in that position."

"Yes," asserted Sturgis, "and for that matter, I grant you that he breathed his last in the cab; for in his death struggles he clutched in his left hand the cushion of the cab window, a piece of which remained in his dying grasp. I merely said that he was not shot in the cab."

"Then how did he get there?" asked the physician.

FOR GIGANTIC STRIKE

Anthracite Miners Plan to Enlist Soft Coal Workers.

WOULD CAUSE NATIONAL CALAMITY.

If the Strikers Succeed in Their Scheme, Half a Million Men Will Be Idle and Great Loss Ensue.

HAZLETON, Pa., May 17.—The anthracite mine workers in convention here in order to win their strike unanimously decided upon a plan that, if carried into successful operation, would practically tie up the industries of the country, paralyze business and inconvenience the people throughout the United States. It is their desire that a special national convention of the United Mine Workers of America be called as soon as practicable for the purpose of endeavoring to have all the bituminous mine workers, both organized and unorganized, involved in the anthracite miners' struggle. This announcement was officially made by President John Mitchell in a statement giving the result of the deliberations of the delegates in convention.

If a special national convention is called and the miners succeed in their object, it would directly affect 449,000 men who are employed in and about the coal mines of the country. Coal would soon become scarce, and this would ultimately result in the tying up of railroads and all sorts of industries that use large quantities of the fuel.

It is doubted by some interested persons here who are closely watching developments that such a stupendous movement could be brought about for the reason that the business interests of the country would not stand idly by and permit such a plan to be put into effect.

The striking miners are enthusiastic over the convention's action, and most of them can see only success in the proposition.

An absolutely trustworthy source is authority for the statement that the special convention will be called, probably at Indianapolis, in the course of several weeks. According to the rules of the United Mine Workers, a petition signed by five mine workers' districts is necessary to call a special convention. The three anthracite districts are unanimous for such a meeting, and it is likely that the West Virginia district and the Michigan district will consent to the issuance of the call. The two latter districts now have small but stubborn strikes in progress, and they will doubtless consent to the call so that they, too, may receive the benefit of whatever may be accomplished.

The matter of calling out the engineers, firemen and pump runners from the anthracite mines to allow the workings to become flooded and damaged was left by the convention to the discretion of the national and district officers. What they will do cannot be definitely learned, but it seems probable that they will be permitted to remain at work for the present.

Notwithstanding that 145,000 men have been idle for the last five days no disturbances of any kind have been reported here. The region is extremely quiet.

May End Strike.

WASHINGTON, May 17.—The National Civic federation has under serious consideration the means whereby it may be helpful in bringing about a termination of the anthracite coal strike. A tender of the good offices of the federation, with a suggestion of arbitration of differences among other things, has been discussed in a tentative way, but no definite conclusion has been reached, and several days will be permitted to elapse before a determination will be reached as to what course the federation should pursue. Mr. Ralph M. Easley, secretary of the federation, is here from New York and had a conference with Senator Hanna and Mr. Samuel Gompers at the senator's house last evening.

Train Crews Laid Off.

WILKESBARRE, Pa., May 17.—More crews employed in handling coal trains on the various railroads centering here have been laid off. There is absolutely no coal to handle now, all the cars on the sidings and breakers having been sent to tidewater or railroad terminals. The retail dealers in this city are worse off than dealers in large cities. They have not a pound of coal to sell, although many customers clamor for it.

Boers Discussing Peace.

PRETORIA, May 17.—All the Boer delegates are now assembled at Vereeniging, Transvaal Colony, where every facility has been afforded them for private sessions, the first of which was arranged for yesterday. All the voting will be by ballot. During the deliberations at Vereeniging Lord Kitchener has guaranteed immunity from attack to all commandos whose leaders are participating in the conference.

Kingsfords Give Way to Trust.

OSWEGO, N. Y., May 17.—The Kingsford family, which has been identified with the starch manufacturing business for more than fifty years, has retired, and their factory here has passed to the control of the Corn Products company. The offices of the Oswego starch factory have been removed to Chicago. The factory will remain at Oswego.

Good Fishing at Grand Banks.

ST. JOHN'S, N. F., May 17.—Fishing vessels which have returned here from the Grand Banks report large catches in which a number of American vessels participated. The fishing season has opened very favorably, and American fishermen expect to do well.

SPORTING NEWS.

ON THE DIAMOND.

An excellent picture of the North Plainfield High School baseball team appeared in the Newark News Thursday evening.

The Plainfield High School Scrubs journeyed to Scotch Plains, yesterday afternoon, and defeated the Juniors of that place. When the Plainfielders became tired of running bases, the score stood 23 to 5. The 'Plains battery was composed of Johnson and Douglas and the Scrubs, Denton and Bock.

At the call of President Runyon, a meeting of the Plainfield Amateur Baseball League will be held this evening. The names of the players who are to appear with each team, as furnished Secretary Firstbrook Thursday evening, will be made public. Other important matters will be discussed and all members are urged to be present.

But two weeks more and the League baseball games will commence. Interest in the scheduled contests continues to grow and speculation as to the outcome is rife. Each team has no lack of supporters and each coterie already has its favorite walking away with the pennant. There may be some surprises for all of them, as no one has had an opportunity to size up their relative strength. The first games take place Decoration Day and are as follows: Morning, Hope against St. Mary's on latter's grounds; Safe Works against Y. M. C. A on former's grounds; afternoon, Hope against Safe Works on former's grounds; St. Mary's against Y. M. C. A. on latter's grounds.

The sale at St. Joseph's bazaar was continued yesterday afternoon with great success. Last evening a euchre was held and a large number attended. The first men's prize was won by R. Birney, the second by B. Kelly. The first women's prize was taken by Mrs. Thos. Hughes, and the second by Miss Lizzie Rafferty.

The bazaar will close tonight with an elaborate programme, and some special features gotten up for the occasion.

—The Y. M. C. A. orchestra met for practice last night.

—Attention is called to the advertisement of the third public rehearsal of the Y. M. C. A. Orchestra. The concert will be given Thursday evening.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. Hot Games by Local Teams Saturday Attracted Many Baseball Enthusiasts.

Westfield, 6; Clark O. N. T., 1.

With real summer weather and good baseball, the local diamonds were surrounded by crowds of enthusiasts, Saturday afternoon. Surprises were numerous. The Dunellen A. C. played a return game with the Hope chapel Y. M. A. and won out by a single run. The Y. M. C. A. team swamped some of Rutgers College's best players. St. Marys won the deciding game in the series with Rahway. The City High School again triumphed over the Borough High School. Clinton Avenue proved an easy mark for the cracks from Scotch Plains. Westfield redeemed itself by defeating the Clark O. N. T. aggregation. The Safe Works team did not play. There were no unpleasant incidents to mark the day's play and some fine ball playing was seen.

ST. MARY'S WON RUBBER.

The third, or "rubber" game, between the St. Mary and Rahway Field Club baseball teams, played in this city, Saturday afternoon, proved a walkover for the local nine. It was a fairly good game until the seventh inning when the visitors seemingly went to pieces and the St. Mary players whirled around the bases in carousal fashion, making ten runs before they were retired. The final score was 19 to 14.

Doyle pitched for the home team but his arm was evidently as much out of gear as was Merten's. He was pounded for fifteen hits while the St. Marys secured sixteen off the Rahway twirler.

Y. M. C. A. BEAT RUTGERS.

The game between the Y. M. C. A. team and Rutgers' consolidated nine on Pittis field, Saturday afternoon, resulted in a victory for the Y. M. C. A. by a score of 11 to 5. It was a far better game than the score might seem to indicate.

Rutgers had a habit of putting two out, then getting a little rocky in the field and allowing their opponents to accumulate runs. But generally when the two out juncture was reached Y. M. C. A. sluggers were coming to the willow and they were in a large measure responsible for runs when a shutout seemed inevitable.

For the home team Dupee and Moore were the battery. In the latter half Moore was relieved by Eames. Dupee pitched a remarkably good steady game for the whole nine innings. He struck out ten men, and made some valuable assists. His support in the field was the best, only one error being tallied in the game. Eames caught well and at the bat he drove out a neat three bagger.

Howells and Neilson were the battery twain for the visitors. Rutgers infield were a very alert lot of players. Neilson at second and Gowan at short stop handled successfully some hot grounders. Munro at third made a difficult catch of a foul fly after a long run.

The batting order and summary follows:

EASY FOR CITY SCHOOL.

The game of ball on the Myrtle avenue grounds Saturday afternoon between Plainfield High School and North Plainfield High School ended in an easy victory for the former by a score of 23 to 9.

For the locals VanAuken and Moynihan were the battery. It was just as difficult as ever to knock safe ones off VanAuken, although Overton, Emmons and Powers each touched him up for a two-bagger. His team gave him good support in the field. Armstrong did the twisting for North Plainfield and Owens held him to perfection. The batting order and summary follow:

HOPE'S BAD STREAK.

After having practically won the game in the first few innings, the Hope team took on an erratic streak, Saturday afternoon, and lost the contest with the Dunellen A. C. by one run. In the third inning the score stood 12 to 11 in favor of the locals and yet with this lead the visitors won out.

Montross was in the box for seven innings when he was forced to retire on account of a split thumb. The Hopes were credited with many errors, most of which were made by the most reliable men.

The Dunellen's imported pitcher, Ethinger, went up in the air early in the game and remained there until the close.

PLAYERS FOR LEAGUE TEAMS

List of Players in City League Was Made Public at Meeting Saturday Night.

READY FOR BUSINESS.

Each Team Named a Manager, a Captain and Fifteen Players, That Will Represent Them on the Diamond—The Official Umpires Chosen—Scores to be Selected.

The names of the sixty amateur baseball players, who are to form the four teams comprising the Plainfield Amateur Baseball League, were made public for the first, Saturday evening, at a meeting of the organization officials They comprise the pickings of at least a hundred candidates and a better set of men would be hard to find. Everyone is an adept at the game but strictly an amateur in every sense of the word as professionalism is debarred. It has been the aim of every manager to secure the best players, but a careful scrutiny of the names furnished by each finds them all evenly matched and it remains for the end of the season to disclose the truth.

The managers and players of the teams are as follows: Y. M. C. A.—C. E. A. Heywood, manager; George H. Dupee, J. G. MacLaughlin, captain; J. O. McKelvey, H. Moore, George, William and Ralph Schoonmaker, Chauncey Burt, John Barnes, Percy Hand, John Eames, P. B. Cregar, Alfred Egan, C. B. Egan and George Bolsterli.

Hibbard-Ely-Rodman Safe Works—Alexander W. Muir, manager; William Symons, captain, Edward Gaston, Joseph Connors, William Fish, Thomas Burns, George Siefried, John Kuhn, George Allen, Edward Booth, Albert Jackson, Joseph Mitchell, John Moran, Joseph VanArsdale, David Morcom and Charles E. Ward.

St. Mary—James Monahan, manager; Thomas Mack, George Keen, captain; Fred Winn, Richard Scott, Arthur Lederer, William Casey, Joseph Barry, Thomas O'Keefe, Lawrence Doyle, George Taylor, John Madden, Robert Angleman, Allen Squire, Robert Scott, Harry Shannon.

Hope Y. M. A.—John Cose, manager; D. B. Martin, captain; Claude Roseberry, William Mague, David Gordon, Tunis Hewitt, James Montross, C. L. D. Smith, William Hartfelder, Augustus Feiring, George Cose, Edward Overton, Harvey Moynihan, H. Munro and James Kennedy.

The official umpires were appointed as follows: James Brown, John B. Young, Lorenzo Townley, L. B. Bodine; substitute, Morris Sutphen. The matter of scorers was left to be decided by the executive committee, which meets next Monday evening.

This will be an important conference and will be the last of any kind before the League games commence. Several small matters remain to be decided upon by the committee after which everything will be ready for launching the first baseball league, comprised of local teams alone that Plainfield has ever supported.

PRICE OF COAL ADVANCED.

Most of the Local Dealers Have Increased It Fifty Cents a Ton.

It was learned this morning that the great majority of the retail coal dealers have made an advance in price following the example set by one retailer a few days ago. Fifty cents per ton seems to be the general increase but Boice, Runyon & Company will make the advance one dollar to those who are not regular customers.

D. C. Ivins & Company have not made any change. Their prices remain the same as they were previous to the strike, and no advance, they say, is contemplated at present.

Union Lodge at Church.

Union Lodge, No. 426, Grand United Order of Odd Fellows, attended thanksgiving services at Calvary Baptist church, in a body, last evening. The sermon was preached by Rev. Edward Fitch, of Jersey City. The edifice was crowded to the doors and many were turned away.

On Auditing Committee.

At the diocesan convention of the Episcopal churches of New Jersey, held at Trenton this week, George P. Dupee, of the Church of the Holy Cross, was appointed to membership on the auditing committee.

KINDER SYMPHONY A SUCCESS

SUCCESSFUL ENTERTAINMENT BY THE CLASS OF '05 OF CITY HIGH SCHOOL.

Recitations, Pantomime and Kinder Symphony Formed Programme—Dancing Then Followed.

The Kinder Symphony entertainment, given in Franklin School Hall Saturday night by the members of the class of 1905, Plainfield High School, was a decided success, not from the standpoint of a large attendance merely, but in the manner in which the delightful programme was carried out. It was given for the benefit of the High School Athletic Association.

Great credit is due Miss Katherine Ball, a member of the High School faculty, who was in full charge of the proceedings, and under whose direct auspices the pupils prepared for the occasion. Miss Ball was assisted by a class committee consisting of Miss Edith Jarvis, chairman; Miss Florence Derby, Miss Ethel Forbes, Hudson Burr, Martin Bowman and Chas. Fuller.

The first two numbers on the programme were recitations, one, "How Grandma Danced the Minuet" by Miss Mabel Pound; the other, "Flash, the Fire Horse," by Miss Ada Westphal.

Third on the programme was the quaint mediaeval "Ballad of Benjamin and Mary Jane," with pantomime illustrations by shadowgraph. The poem was read by Miss Hazel Grant, while in the pantomime were J. Wendell Mosher as "Benjamin," Edith LaRue as "Mary Jane," Hudson Burr as "Lord Mortimer," and Geo. L. Bentley as "Mary Jane's father."

Next came the kinder symphony, composed of students of 1905 with zobos and other musical instruments, under the leadership of Miss Ethel Forbes. Miss Ebtel Jarvis read a short poem, written by herself, introducing the symphony.

Those taking part were the Misses Caroline Fuller, Nellie LaRue, Florence Derby, Louise Kline, Edith Jarvis, Inez M. Tolles, Edith Hannaford, Marion Haviland, May Grey, Freda Grey, Harry Thompson, Edwin Daniels, Elliot Taylor, Hudson Burr, Adam Scott, Chester Briggs, Martin Bowman.

After the programme was concluded dancing was enjoyed. During the evening Misses Amie and Annie Conant were at the lemonade bowl and Misses Florence Cuming and Grace TenEyck at the candy table.

TO PROMOTE ANNEXATION.

Union Association Has Been Organized and Officers Elected.

The Union Association of North Plainfield has been formed in North Plainfield for the purpose of promoting annexation sentiment. The following officers have been elected: President, Martin L. Cooley; vice president, B. A. Hegeman, Jr.; treasurer, Samuel Townsend; secretary, Frank Curtis.

Thursday night, under the auspices of the association a mass meeting will be held in Saengerbund Hall. Some able exponents of annexation will then hold the platform and advance their reasons in behalf of the proposed union.

TEACHERS' MET.

Somerset County Teachers' Association Held Annual Meeting.

The teachers of Somerset county met in annual convention at Bernardsville Saturday. More than one hundred and fifty teachers were present, including twenty-seven from North Plainfield.

Following are the officers elected for the ensuing year: President, Gains Hoffman, Bound Brook; secretary, Miss Olivia Bartlett, Bound Brook; treasurer, Miss S. S. Higgins, East Millstone.

Settled Without Trial.

Without allowing the case to come to trial, the North Jersey Street Railway Company made a satisfactory settlement with Mrs. Anna Harbinger, of Cranford, Thursday, through Counsellor George Ball, of this city. The plaintiff was injured by one of the company's cars several weeks ago and sued for damages.

To Prevent Accident.

Councilman Lee's idea in having the trolley cars on the Arlington avenue line stop at Fifth street, when going in either direction, is that quite often Chief T. O. Doane's wagon goes through that street at a high rate of speed, and by having the cars stop at that point a serious accident may be averted.

GOLFERS WERE OUT IN FORCE

Large Crowds and Interesting Competitions at the Hillside and Park Golf Clubs.

COMPETITIONS PLAYED.

Honors at Hillside Went to Mrs. E. M. VanBuren, N. P. Rogers, Jr., and Thos. R. VanBoskerck—Dr. A. W. Anderson Low Man at Park—Present Standing.

Again the weather favored the golfers and the result was that both local courses were crowded Saturday afternoon. Three events attracted many competitors at the Hillside Club, the day's honors going to Mrs. E. M. Buren, N. P. Rogers Jr., and Thos. R. VanBoskerck. A technicality prevented from Morris J. Dumont from sharing as well. At the Park Golf Club, the weekly competition saw a large field, Dr. A. W. Anderson winning first honors.

PARK GOLF CLUB.

With fine weather and the course in the best of condition and very fast, the scores made in Saturday afternoon's competition for the President's cup at the Park Golf Club were all unusually high. Dr. A W. Anderson, a newcomer this season, had things all his own way with the assistance of a fat handicap while the rest were well behind. Arthur H. Serrell's 109, the best gross score of the day, was good for second. The links were filled during the afternoon, nearly a score registering for the trophy play.

Senator Charles A. Reed still leads for the President's cup by half a point, with Charles B. Morse second and Charles W. McCutchen and Dr. A. W. Anderson tied for third place.

The scores better than 100 net were:

	G	H	N
A. W. Anderson	127	38	85
A. H. Serrell	109	13	96
J. L. Myers	126	29	97
C. B. Morse	117	20	97
S. St. J. McCutchen	128	30	98
C. L. Nichols	132	33	99
C. E. Murray	136	37	99

The standing for the President's cup is:

	Points.
Charles A. Reed	4
Charles B. Morse	3½
Charles W. McCutchen	3
Dr. A. W. Anderson	3
S. St. J. McCutchen	2
Arthur H. Serrell	2
William R. Richards	2
Frank Rogers	2
Samuel Townsend	1
Charles L. Nichols	1
Joseph L. Myers	½

HILLSIDE CLUB.

There was plenty of golf for all on the Hillside Tennis and Golf Club course last Saturday. With three events, the boys, men and women each had an opportunity to contest for cups. There was a very large number of players on the course the entire day and in the afternoon there was a shortage of caddies, many players being obliged to do their own caddying. It was a beautiful day for golf, and the course was in the best condition.

In the morning there was play for the Boys' cup and the first play for the Ackerman Handicap cup for women. The boys put up a good article of golf and low scores were the rule. N. P. Rogers, Jr. won first honors with an 81 net, while W. T. Glenney and Charles C. Perkins were given second and third honors.

The scores for the Boys' cup follow:

	G	H	N
N. P. Rogers, Jr.	81	0	81
W. T. Glenney	92	10	82
Charles C. Perkins	101	28	83
Arthur Peterson	110	25	85
Kerro Knox	94	8	86
Ray Biglow	114	25	89
Howard G. Lapsley	99	10	89
Gordon Abbott	102	12	90
E. M. Daniel	112	22	90
James Scott	101	10	91
S. W. Corwin	104	12	92
A. L. Willis	117	22	95
VanWyck Brooks	136	15	121
J. C. Martin	153	25	128

The other event of the morning was the play for the Ackerman Handicap cup. Mrs. Edward M. V. VanBuren scored the first win with a 102 net. This cup will be played for once a month, except in August, and the four winners will play off in October. The scores made in this competition are as follows:

	G	H	N
Mrs. E. M. VanBuren	137	35	102
Miss vanHerwerden	102	0	103
Miss M. VanBoskerck	124	12	112
Miss Mary Holly	130	18	112
Miss M. Goddard	125	12	113
Miss Helen L. Brown	151	35	116
Miss J. Lapsley	156	35	121
Mrs. George S. Ring	149	25	124
Miss M. Fleming	142	15	128
Miss Elsie Goddard	152	24	128

There was a sensational finish in the weekly competition for the Golf Committee cup in the afternoon. Thomas R. VanBoskerck and Morris J. Dumont were tie with an 80 net for first honors but, as Dumont failed to post his name before beginning play, he did not share in the points for the cup. The three points go to VanBoskerck. W. L. Glenney and E. T. Newkirk tied for second honors and each receive a point and a half. This gives Glenney a total of three points, making five in all who are tie for first position in the contest.

The scores for the cup are as follows:

	G	H	N
T. R. VanBoskerck	90	10	80
Morris J. Dumont	84	4	80
W. L. Glenney	81	0	81
E. T. Newkirk	101	20	81
Walter Peterson	94	12	82
Dudley H. Barrows	94	10	84
H. D. Hibbard	103	18	85

William R. Richards	110	14	96
Evarts Tracy	119	22	97
J. Whitney Baker	99	0	99
Stuart H. Patterson	131	27	104

The standing for the Golf Committee cup is as follows:

	Points.
H. F. Baker	3
Charles Stover	3
Frank O. Reinhart	3
Thomas R. Boskerck	3
W. L. Glenney	3
R. F. Murray	2

NEW TRAIN.

Will Run Between New York and Harrisburg, Pa., via Allentown.

Arrangements was completed last week for the fast express train between Harrisburg, Pa., and New York over the Philadelphia and Reading Railroad, by the way of Allentown. The new train was put on today. The run between the two cities will be made in four hours and forty minutes, eastbound, and five hours and ten minutes, westbound. The train leaves Harrisburg at 8 o'clock in the morning daily, stopping at Reading, Allentown, Bethlehem and Easton, arriving in New York at 12:40 in the afternoon. Returning it leaves New York at 5 o'clock in the evening and arrives at Harrisburg at 10:10.

His Final Orders.

Rev. Michael J. Glennon, son of Michael Glennon, of Elizabeth street, will receive his final orders for the priesthood at the hands of Bishop O'Connor in St. Patrick's cathedral, New York Saturday morning at 9 o'clock. Father Glennon will celebrate his first mass in St. Mary's church, Plainfield, at 10:30 o'clock Sunday.

Want Sunday Trains.

At the semi-annual meetng of the Ocean Grove Campmeeting Association now in session at Ocean Grove, a petition has been received from the residents of Asbury Park, asking the association to withdraw its opposition to the stopping of Sunday trains at Asbury Park. The matter has been referred to a special committee.

Suggestions for Lieutenant.

The names of Charles Peterson, A. I. Littell, Harry Kitchell, and R. M. Clark have been suggested as candidates for the office of first lieutenant of Company K made vacant by the resignation of Edward Mosher.

Cadets Cannot Parade.

Winfield Scott Post, G. A. R., has extended an invitation to the High School battalion to join in the celebration on Decoration Day. The battalion will be unable to accept the invitation.

RICHARD O'NEILL DEAD.

He Was Last Member of a Once Prominent Plainfield Family.

Richard O'Neill, the last member of a once prominent Plainfield family, died at his home on New street, last evening. He had been ill but nine days. He was fifty years old and was the son of the late Lawrence O'Neill, who owned considerable property in the vicinity of the Potter Press Works. A widow and six children survive him. The funeral arrangements have not yet been made.

GRACE'S RECTOR HAS RESIGNED

Resignation of E. M. Rodman Accepted With Regret—Was Made Rector Emeritus.

ANNOUNCED ON SUNDAY.

Has Served in That Capacity for Thirty-Two Years and Built Up a Large Congregation and a Handsome New Church—Last Appearance Next Sunday.

With many regrets, the resignation of Rev. Erskine M. Rodman as rector of Grace Episcopal church, was accepted yesterday thus severing his relationship with a congregation for which he has always had a loving solicitude.

Bishop Scarborough announced to the congregation at the morning service, that Rev. Mr. Rodman had placed in the hands of the vestry his resignation. It was as follows:

"To the Wardens and Vestry of Grace church.

"Gentlemen:—By reason of my advanced age, being now over seventy years old, and unable longer to perform the duties of the rectorship of this parish to the extent that is deemed desirable, I hereby reluctantly ask you to accept my resignation of the rectorship, to date from June 1, 1902, and respectfully request that you elect me rector emeritus of the parish.

"It is no easy matter to me thus to sever a tie of thirty or more years growth, but the belief that a younger man can more efficiently discharge the duties of this office, and so increase the usefulness of the parish and enable it the better to do its work for the glory of God and the benefit of those for whose advancement we are bound to labor, makes me willing to take this step. Commending you and yours and the whole congregation to the love and grace of God, I remain

"Yours very truly,
"Erskine M. Rodman."

The vestry presented a resolution to the effect that in deference to the wishes of Mr. Rodman the resignation was accepted and in view of the long and faithful services of upwards of thirty-one years, he was elected rector emeritus of the parish with a very generous annuity. The vestry expressed to Mr. Rodman the deep regret of the congregation and itself upon the resignation, and acknowledged with heartfelt gratitude his long and faithful services, wishing him joy and happiness in his new position.

The Bishop's address to the congregation affected them all deeply, as Mr. Rodman has peculiarly endeared himself to all.

Mr. Rodman has been with Grace church thirty-one years. By his own efforts the present handsome edifice was erected and by his untiring zeal the mortgage has materially been reduced. The church has grown from a small parish to its present large membership. Mr. Rodman has administered most faithfully to the congregation and with unflagging zeal has he striven for its interest and welfare. He has always been with the church in joy and sorrow.

Next Sunday will probably witness Mr. Rodman's last appearance as rector of Grace church parish. It is hoped by many friends both in and out of the congregation that he remain in Plainfield, as his departure from the city would be a distinct loss. The vestry realizes the profound task of securing a man to fill Mr. Rodman's place and until such a person is called, whom they believe will so fill it, nothing will be done. Rev. J. H. Wilson, the present curate, will no doubt be temporarily in charge of the parish.

BISHOP'S VISIT.

Candidates Confirmed Yesterday at Three Local Episcopal Churches.

Rt. Rev. John Scarborough, bishop of the diocese, visited the Episcopal churches of Plainfield yesterday. At Grace church he administered the sacrament of confirmation to seventeen candidates. In the afternoon at Heavenly Rest church three were confirmed, and six at Holy Cross in the evening. During his stay in this city Bishop Scarborough was entertained by John B. Dumont, of East Seventh street.

WHAT PEOPLE ARE DOING

SOME BRIEF PARAGRAPHS OF A PERSONAL NATURE.

Many Folk of Greater Plainfield Are Entertaining or Being Entertained.

Herbert Underwood, of Plainfield, has returned from a short visit with friends at Junction, N. J.

John Blimm, of Somerset street, has gone to Brooklyn for a few days' visit with relatives.

Mrs. B. C. Bentley and daughter, Miss Bertha Bentley, of Westerly, R. I., are visiting at the home of Collector and Mrs. F. H. Smith, of Madison avenue.

Mrs. Emma Dewitt and daughter, Miss Nettie Dewitt, of Middletown, N. Y., are visiting Mrs. Edwin L. Earp, of Park place.

Mrs. T. A. Liebert, of Carteret, has been visiting her mother, Mrs. Randolph Dunham, of Madison avenue.

Mrs. Margaret Bruker, of Bordentown, is visiting relatives in Plainfield for a time.

Mrs. Herbert Thatcher, formerly of this city, but late of Chicago, is visiting elatives in town.

Assemblyman William Newcorn spent Sunday in New York with relatives and friends.

Miss Elizabeth Cock and William R. Cock, of East Fifth street, returned today from a pleasant visit to Washington.

Miss Bessie Martin, of Asbury Park, is being entertained by Miss Cassie Johnson, of Grove street.

Mrs. W. W. Warnock, of Craig place, has been visiting relatives at Englewood.

Mr. and Mrs. Joseph Walls, of Essex street, entertained relatives from Newark, yesterday.

Robert Schlereth, of West Second street, is much improved from his recent serious illness.

John Finnegan, of Newark, a former well-known resident of this city, is spending a few days at the home of Daniel Hibbits, of West Fifth street.

BE PREPARED.

Have a Fire Extinguisher at Hand Ready in Case of Fire.

When a fire breaks out in your home, office or factory it is best to have a reliable extinguisher on hand. This may save you hundreds of dollars in damage. One of the simplest, cheapest and most reliable extinguishers is Swan's dry powder fire extinguisher. It will not harm the most delicate fabric. Recently a fire broke out in the composing room of The Daily Press building and one of these extinguishers quickly put the fire out even before the department arrived.

T. A. B. ANNIVERSARY.

Three Decades Will be Rounded Out Monday Evening.

Thirty years as an organization will be rounded out by the T. A. B. Society, Monday evening. In celebration of the event the society will tender a reception to its friends in its hall on West Fourth street. Beginning at 8 o'clock an entertainment will be given in which some of the best local talent will appear. Afterward a dance will be held.

One Out of Business.

John Worth, of Grove street, only has the use of one eye for the present. A bug flew in the other eye and temporarily shut it up. Mr. Worth now wears a silk handkerchief over the eye as a protection.

Dangerous If Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartly, Yankeetown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. L. W. Randolph.

COLUMN FOR THE SHOPPERS

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

One of the handsomest soda water fountains to be seen in the city is the one just installed by Campbell, the confectioner of West Front street. It is one of the latest styles in onyx and it has every modern appliance for the drawing of the best kind of soda water.

Before the real warm weather arrives you will need a seasonable suit of clothing and Cashin, the Park avenue tailor, can suit you to the queen's taste. He has the right kind of goods and he makes them up satisfactorily.

It is everything to know that the milk you use on your table or feed the baby is perfectly reliable. You will have this satisfaction if you purchase your milk of Wm. Lindsay & Son, of Mountain avenue. They sell certified milk.

Save your winter clothes and money, too, by using a small quantity of Nagle's moth balls. Just the thing to keep the garments in shape during the summer. They are Nagle's own preparation and are sold only at his pharmacy at Front and Grove streets.

Weather like this calls for careful and quick handling of fish before it reaches the consumer. Foss & Jeter, the Park avenue sea food firm, gets all its fish direct from the nets and has every facility for keeping it cool during its short stay at the store. They deliver all orders.

Don't stay away from J. W. Van Sickle's market for fear of high prices. Everything in the meat line is being sold at the lowest quoted prices and none of them can be considered steep. Orders 'phoned will be carefully filled.

George Kirch, Liberty and West Fourth streets, sells "Red Shield" groceries, the cleanest, purest and best. He has a large stock of the finest Rockdale and Oxford print butter.

L. Moraller & Son, of Park avenue, are making an elegant display of jewelry, including rings, watches and everything known to the trade.

A natty line of shoes for summer wear in all the latest styles, and at prices away down at Flynn's, on West Front street.

TEA TABLE TALK.

Short Sketches That Are Not Always News, But Just as Interesting.

Dr. Everett P. Tomlinson, of Elizabeth, was a speaker at the meeting of the New Jersey Historical Society. His subject was historical and he confined his remarks to the part New Jersey took in the struggle of the United States for independence.

Much enthusiasm was aroused by the speaker's story of the New Jersey tea party, which was second in importance to the famous Boston tea party only because it followed the better known affair. Dr. Tomlinson said that one of the vessels having escaped from Boston harbor, took refuge in one of the South Jersey rivers, but that the men of the town had arisen and destroyed the boat's cargo.

Dr. Tomlinson placed beside Paul Revere in bravery the boy who on the road between Roselle and Elizabeth allowed himself to be killed rather than divulge the hiding place of his father. The speaker said that he could not approve of the efforts of certain persons to clear the name of Aaron Burr of the stigma which has been attached to it for nearly a century. He could not believe, he said, that Burr was more sinned against than sinning, and claimed that his ignominy was deserved.

AN ORDINANCE

To Regulate the Use of Automobiles, Locomobiles and Similar Vehicles Propelled by Steam, Gasolene or Electric Power in the Public Roads, Streets and Highways in the Township of Fanwood.

The inhabitants of the Township of Fanwood by their Township Committee do enact as follows:

Section 1. That all automobiles, locomobiles and similar vehicles propelled by steam, gasolene or electric power when in use on the public highways, streets or roads within the Township of Fanwood, are hereby required to have a lamp of such illuminating power as to be plainly seen at least two hundred yards, attached thereto and kept lighted from one hour after sundown to one hour before sunrise when said vehicle is in use.

Section 2. All automobiles, locomobiles and similar vehicles shall carry a suitable bell or gong, or other similar device attached to the same, which when rung may be heard at least two hundred yards distant. And such bell or gong, or other similar device shall be sounded as an alarm by the person having such vehicle in charge, upon approaching another vehicle, or upon approaching street and sidewalk crossings.

Section 3. No person having in charge such automobile, locomobile or other similar vehicle, shall make or permit to be made by said vehicle on any public road, street or highway in the Township of Fanwood, a greater speed than at the rate of eight miles per hour.

Section 4. No person having in charge any automobile, locomobile or other similar vehicle, shall propel or run the same, or permit the same to stand or be propelled or run upon any side-walk within the Township of Fanwood under the penalty hereinafter prescribed, except so far as may be necessary to propel the same across any side-walk to and from the street and the place of destination, and to and from the home and habitation of the person or persons where said automobile, locomobile or other like vehicle shall be kept.

Section 5. That the provision of this ordinance shall not be construed to apply to electric cars within said Township.

Section 6. Any person or persons found guilty of violating any of the provisions of this ordinance, upon conviction had before any justice of the peace within said Township, shall be punished by a fine not exceeding Fifty dollars ($50.00), or imprisonment not exceeding thirty days in the County jail, or both fines and imprisonment at the discretion of the Court before whom a conviction thereof shall be had.

Section 7. This ordinance shall take effect May 21, 1902.

F. J. NICHOLL, Chairman.

Approved. May 1902.

Attest: Edward D. Hand, Township Clerk.

SHERIFF'S SALE—In Chancery of New Jersey. Between Catherine D. Woodruff, complainant, and Joseph James Randolph et als., defendants. Fi. fa. for sale of mortgaged premises. By viture of the above stated writ of fieri facias, to me directed, I shall expose for sale by public vendue at the Court House, in the city of Elizabeth, N. J., on

WEDNESDAY, THE EIGHTEENTH DAY OF JUNE, 1902.

at two o'clock in the afternoon of said day, all that tract or parcel of lands and premises, situate, lying and being in the city of Plainfield, in the county of Union and state of New Jersey:

Beginning in the middle of Elm street, at a corner of said Runyon's other land; thence along his line a northeasterly course one hundred and forty-five (145) feet to a corner; thence a southeasterly course forty-four (44) feet, being the rear of said lot to a corner; thence a southwesterly course one hundred and forty-five (145) feet to the middle of aforesaid Elm street; thence along the middle of said street a northwesterly course thirty-five (35) feet to the place of beginning. Containing about twelve-hundredths of an acre of land, more or less. And is the same tract of land conveyed to said Joseph James Randolph by deed of Reune Runyon and wife, dated April 1, 1873, and recorded in Union county clerk's office in book 78 of deeds, on pages 414, 415 and 416.

Height to Which Birds Fly.

The aeronaut Hergesall of Strassburg saw, in one of his ascensions, an eagle at a height of 3,000 meters and in another, two storks and a buzzard at 900 meters. Larks have been seen at 1,000 meters, and crows at 1,400. But these are exceptional heights. Birds are rarely seen above 1,000 meters and very few above 400. Birds have been released from balloons at heights varying from 900 to 3,000 meters. In a clear atmosphere they flew directly downward, remaining near the balloon, however, if the sky were cloudy. Pigeons were released from a balloon 30 miles away from home in cloudy weather. The first pigeon returned home in three hours, the second in four and the last took nearly a day. In clear weather they reached home from that distance in about 45 minutes.—Science.

When Cody Lost His Temper.

Those who in earlier times have hunted buffaloes on the western plains know to what extremes the buffalo's anger sometimes leads. But the keepers of the animals in Van Courtlandt park saw it themselves the other day, when Cody, one of the buffaloes, became dissatisfied with his surroundings and decided to try to make a change by showing the keepers and other animals what he could really do when he tried. So really genuine was his outbreak that the keepers feared for the safety of the other animals, and commenced at once to remove them until Cody should have regained his composure. In the course of a few moments he overcame the recollections of his wild days on the plains and again settled down to the quiet, peaceful life of Van Courtlandt park.—N. Y. Herald.

Had Waited on Alma Mater.

"I'll give that waiter," said Rivers, "an order that will paralyze him."

"What will you have, sir?" presently asked the waiter.

"Bring me," replied Rivers, "some verulam and ova."

"Yes, sir."

The waiter, a seedy-looking man in spectacles, went away with a strange gleam in his eye, and returned about 15 minutes later with a large platter containing something hot.

"Here you are, sir," he said. "Bacon and eggs. In ordinary English it would be a shilling. In classic form it will be half a crown. 'Culpam poena premit comes,' as we used to say at college. Anything else, sir?"—Tit-Bits.

Few Electric Lines in England.

Surface electric lines are a comparatively new thing in England. They are considered too American and not enough English, and in London they are still wholy without them. An electric street car system, however, has been in operation in Liverpool for some years. Now, a movement has been started to do away with it. Petitions, signed by nearly all the influential people of the city, have been filed with the municipal authorities, asking that the system be abolished.—Washington Post.

OUR FRENCH GUESTS.

Notable Persons Here to Attend Rochambeau Monument Unveiling.

NEW YORK, May 19.—The steamer La Touraine, bearing the French men and women who have come to this country to attend the unveiling of the statue of Rochambeau at Washington on May 24, is in port. They are M. Guillemin, M. de Billy and Vicomte de Chambrun, representatives of M. Delcasse, French minister of foreign affairs; Comte and Comtesse de Rochambeau, the Comtesse de Chambrun, wife of the older brother of Vicomte de Chambrun, formerly Miss Longworth of Cincinnati; M. Croiset, dean of Sarbonne university, who came as the representative of the French minister of instruction; M. Lagrave, French commissioner general to the Louisiana Purchase exposition; Ferdinand Hamar, the sculptor of the Rochambeau statue, and M. Hamar's father.

The party was met down the bay by M. Jules Beurre, chancellor of the French embassy at Washington, and J. B. Reynolds, Mayor Low's secretary. At the pier were M. Bruwaert, the French consul general here; Comte de Sahune de Lafayette and several others. Once ashore the party drove immediately to the Waldorf-Astoria.

The party greatly enjoyed the trip up the bay and was amazed at the high buildings which it saw from the vessel's deck.

The Comtesse de Chambrun was greatly interested in the statue of Liberty.

The Vicomte de Chambrun is a direct descendant of the Lafayette family and is, in fact, the great-great-grandson of General Lafayette. He is a young man, but has been here before. He speaks good English. The Comte de Rochambeau, however, has only a slight knowledge of English, and Secretary Reynolds had to talk entirely in French. The comte is tall and good looking.

Ferdinand Hamar, the sculptor, is deaf and dumb and was forced to carry on conversation by means of a pencil and pad. The sculptor wrote that the statue in Washington was a duplicate of one which he had made in the gardens of the Comte de Rochambeau at Vendome, France.

Most of the party will stay here for several weeks after the ceremonies at Washington.

Naval Movements.

NORFOLK, Va. May 19.—The battleships Kearsarge and Alabama and the cruiser Olympia, comprising the north Atlantic squadron, passed out by Cape Henry yesterday to meet the French cruiser Gaulois, which is expected to arrive off the capes tomorrow with the French Rochambeau commission on board.

BATTLE IN VENEZUELA.

Seaport Town Attacked—Castro's Fate May Be Sealed Today.

TRINIDAD, British West Indies, May 19.—The seaport of Carupano, in the state of Bermudez, Venezuela, was bombarded again Saturday at 2 p. m. by the government forces. The town was attacked from both land and sea. The Venezuelan government notified the foreign consuls at Carupano forty-eight hours in advance of the time intended to attack the port.

It is reported here that the United States minister at Caracas, H. W. Bowen, was the only foreign representative there who received notification of the bombardment of Carupano, and it is said that Mr. Bowen urged that no unfortified town of Venezuela be unnecessarily bombarded.

The German cruiser Gazelle is the only foreign warship at Carupano. She will protect the French as well as the German residents there.

It is reported here that an engagement will be fought today between the revolutionary and government forces which will decide the future of the president of the republic, General Castro.

Mont Pelee Still Violent.

PARIS, May 19.—A dispatch to the Matin from Fort de France, Martinique, dated May 17, says that during the previous night fifteen violent detonations from Mont Pelee were heard and that they were accompanied by lightning which lit up the entire island. The eruption redoubled in violence, says the dispatch, and for the moment a second catastrophe was feared. New craters are forming in the neighborhood of Le Precheur. In spite of the danger which threatens them, concludes the dispatch, the refugees from the northern part of the island are beginning to return to their homes.

End of Debate In Sight.

WASHINGTON, May 19.—The entire time of the senate for the present week will be devoted to the consideration of the Philippine government bill, and there is no reason for changing previous predictions that the debate upon that measure will be practically completed before the close of the week. The fact that there will be an adjournment of the senate covering next Saturday in order to permit that body to participate in the unveiling of the Rochambeau statue probably will have the effect of postponing the final vote until the following Monday or Tuesday.

Girl Killed by an Auto.

TOLEDO, O., May 19.—The first fatal automobile accident occurred here yesterday when James T. Brailey, the well known Independent Telephone magnate, while speeding in his automobile collided with May Schock, a thirteen-year-old girl, riding a wheel. The girl was almost instantly killed.

An Early Paper Train.

SARATOGA, N. Y., May 19.—The New York special Sunday newspaper train on its initial trip of the season reached here at 7:30 o'clock in the morning, two hours and a quarter ahead of the usual time of the Sunday newspaper train.

ENLARGING FREIGHT YARDS

OTHER CHANGES OF PENNSYLVANIA RAILROAD AT NEW BRUNSWICK.

Old Freight Yards Across the Raritan to Be Abandoned—The New Ones.

(Special to The Daily Press.)

New Brunswick, May 19.—Rumors of changes, improvements and alterations in the lines of the Pennsylvania Railroad are rife, and there is great activity manifested to the work of changing the company's tracks through this city. It is now learned that the company is negotiating for land along the line of its tracks between Hale and Handy streets, for the purpose of enlarging its freight facilities in New Brunswick.

The old freight yard at East New Brunswick, across the Raritan from this city, is to be abandoned, and all of the company's freight transfer business in train lots is to be handled at the Mile Run yards. These yards are to be enlarged so as to admit of the handling of much of the business that is now done at the George street freighthouse, which is to be retained only for the delivery of carload lots of freight for the large factories and shippers.

The Pennsylvania Railroad Company, which owns ten or more small houses along the lines of its tracks in this city, has served notice upon all its tenants to move out within ten days, their tenancy being upon that condition. The houses are to be torn down or moved to clear the way for the company's new lines through New Brunswick. The company has bought local real estate heavily in order to straighten out several curves through New Brunswick.

THEATRICAL.

Mrs. Fiske's revival of "Tess of the D'Urbervilles" has been received at the Manhattan Theatre, New York, with popular enthusiasm as pronounced as that which marked the original production of this play at the Fifth Avenue Theatre several years ago. The revival of "Tess" originally was intended to fill a week, in accordance with Mrs. Fiske's plan to appear in several of her former successes that have not been seen in New York in some time. So large was the advance sale for "Tess", at the Manhattan, however—the house being practically all sold for the week before the first performance—that it was found to be necessary to extend the bill for a second week to meet the demand for seats. The Manhattan was crowded on the opening night by one of the most fashionable and brilliant audiences ever gathered in New York, and the theatre was handsomely decorated with flowers to signalize Mrs. Fiske's return to her New York headquarters after her successful tour. The auspices were inspiring, and it is doubtful if "Tess of the D'Urbervilles" was ever before performed in a better artistic spirit or with a more pronounced dramatic effect. Mrs. Fiske was at her best, and her picture of "Tess" was notably symathetic and moving. She was called before the curtain twenty-four times during the performance and greeted with cries of "Bravo!" Every supporting player was keyed to a high pitch, and the whole occasion had the aspect of a great original triumph rather than that of a revival.

EDUCATION FOR NEGRO.

Will be Discussed at Union Mass-Meeting of Colored Churches to be Held May 28.

A union mass meeting of the colored churches and pastors of the city will be held at Reform Hall on Wednesday evening, May 28. Prof. G. W. Hayes, of Lynchburg, Va., will speak on education and the kind the colored race need. Dr. G. L. P. Taliaferro, of Philadelphia, will speak on the "Negro in Business," and S. H. Ball, of New York, will tell how the white race has opened opportunities for the negro.

There will be contest singing between Prof. G. A. Morris and "Black Hattie," for a gold medal, and Miss Cora Pearson, of Dunellen, will deliver an eulogy on "Memorial Day." There will also be vocal solos by Mrs. N. Ervin, of this city, and a chorus of forty voices with the Columbia Band will furnish music.

Factory at West Dunellen.

William A. Garrigues, of this city, an iron and steel manufacturer, who recently purchased ten acres of land at West Dunellen, will erect a large plant thereon immediately. The work has already been started. It is expected that forty men will be employed at first. Mr. Garrigues also has a plant in Philadelphia, where a large number of men are employed.

No More Steel Cars.

The New Jersey Central has decided not to purchase or build any more steel coal cars. It has been discovered that the sulphur from the coal eats large holes in the cars, making it too expensive. In the future wood will be used.

WHAT CHAFFEE SAW

Conditions on Mindanao Quite Satisfactory.

DATTOS PROFESS FRIENDLY FEELINGS

One Chief Shows Inclination to Fight Americans, but Resistance Will Be Slight — Farewell Reception to General Wheaton.

MANILA, May 19.—General Chaffee has returned here from Lake Lanao, in the interior of the island of Mindanao. He said he saw several Moro dattos while there and had most satisfactory interviews with them. Nearly all the dattos, and especially the surviving sultans, claim to entertain friendly feelings toward the United States.

In view of a cablegram which General Chaffee received after his return from General Davis, who is in command of the American forces on Mindanao, and in which it appears that Datto Ruty has apparently refused to return the animals he captured from the American army, General Chaffee is not prepared to say that there will be no more fighting in Mindanao. General Davis reports that Datto Ruty says he is ready to fight but General Chaffee believes that, although it may be necessary to bring this datto to terms, his resistance of the American forces must necessarily be slight.

Datto Ruty's forts are situated on a high hill. They could be surrounded by a line of American skirmishers who would prevent the datto from obtaining water and who could thus force a practically bloodless victory in a few days.

The farewell reception given yesterday to General Lloyd Wheaton at the American club here was attended by over 2,700 Americans.

The coronation of King Alfonso was celebrated with much ceremony by all the Spanish residents of Manila, and Acting Governor Wright represented the American government at the principal function.

The United States Philippine commission has passed an act conferring marine jurisdiction upon the courts of first instance which permits these courts to punish crime committed at sea. The military orders and acts of the provost courts referring to such crimes, previously enforced, are repealed by the act passed by the commission.

The cholera situation in Manila and the provinces remains unchanged. The increase in cases continues, and the percentage of fatalities is still about 80 per cent.

Settlement Plans Denied.

HAZLETON, Pa., May 19.—The visit of Ralph M. Easley, secretary of the National Civic federation, to strike headquarters and his conference with President Mitchell of the United Mine Workers is the only incident of any importance that has claimed the attention of the labor leaders and others since the strike was declared. As neither Mr. Easley nor Mr. Mitchell would say anything regarding their meeting there was much speculation as to the object of the visit of the secretary of the Civic federation. Mr. Easley laughed at the stir which his arrival caused and said there was not the slightest significance attached to his trip here. He reiterated that he came here merely to look over the ground and to keep himself informed of the general situation. He denied that he brought plans for settlement of the strike or message from Senator Hanna or any other member of the Civic federation.

Quiet After the Riots.

ATLANTA, Ga., May 19.—Perfect order and peace have prevailed in Pittsburg, the negro settlement south of this city, where the desperate battle between officers of the law and negro outlaws occurred Saturday. The only evidences of the terrible struggle, which resulted in the death of eight persons, are the heaps of ashes which mark the spot where stood the buildings formerly sheltering Will Richardson, the negro desperado, and his companions and the detail of military patrolling the scene of the disturbances. Although good order prevailed all day, the city and county authorities decided to retain a strong force of military in Pittsburg, and the companies of military located in this city have been ordered by the governor to remain under arms for the present. No additional arrests have been made.

No Motive Given For Crime.

SOUTH FRAMINGHAM, Mass., May 19.—Miss Nina Danforth, the deformed girl of West Newton who, after ringing his doorbell, shot and killed Andrew J. Emery, a railroad fireman, as he opened the door at his home, passed a restless night and day under guard. She was hysterical at times and has complained of terrible headaches. It is feared that she may utterly collapse before she is arraigned for a preliminary hearing. She has said but little to her guard, except that she has no regrets for her act. She will give no motive for committing the crime.

Military Funds Stolen.

LONDON, May 19.—A dispatch from Vienna to a news agency says it is reported from Cracow, Galicia, that 1,000,000 rubles has been stolen from the headquarters of the general staff there. Two generals and several staff officers, says the dispatch, have been arrested in connection with the robbery.

Lord Pauncefote Better.

WASHINGTON, May 19. — Lord Pauncefote, the British embassador, is reported to be slightly improved. His condition is said to be satisfactory.

No Crowds Allowed in Russia.

In Russia no meetings of private citizens for any purpose are permitted. The privilege of holding meetings is granted only to chartered corporations or associations. All crowds, except in places of amusement or worship, are dispersed by the police. No premises can be hired for the purpose of holding a meeting without a permit from the police.—N. Y. Sun.

The Woman of It.

Postal Clerk—This letter is overweight, ma'am. You'll have to put another stamp on it.

Woman—I think the government is just too mean for anything. I know I've mailed hundreds of letters that weren't anywhere near full-weight, so I think the least you can do is to let this one go through.—Judge.

Handicapped.

Mrs. Homer—Were you troubled by mal de mer while crossing the ocean?

Mrs. Neurich—No, indeed! I was so seasick all the way over that I didn't even have a chance to make his acquaintance.—Chicago Daily News.

Candid.

Mr. Laightley Rich—What! You want to marry my daughter? Why, you ain't able to support yourself.

Young Mr. Gauley Blugore—Exactly. That's the very excuse I gave my family for wanting to marry.—Philadelphia Press.

AN ANARCHIST PLOT

Plan to Kill Spain's King Proves a Failure.

SIX CONSPIRATORS UNDER ARREST.

Particulars of the Ascension of Alfonso XIII. to the Throne—Imposing Military Pageant—Young Ruler's First Proclamation.

MADRID, May 19.—An anarchist plot against King Alfonso has been discovered, and six arrests in the matter, including that of Gabriel Lopez, an employee of an insurance company, have been made. Dynamite cartridges were found on the premises where Lopez was arrested. Lopez says he received a package of cartridges from another anarchist, with instructions to throw them at the moment of the passage of the royal carriage in Saturday's procession.

A pretty incident occurred while the royal procession was passing through the streets of the city. After the royal

ALFONSO XIII.

coach left the chamber of deputies a group of young girls approached the carriage, and one of them offered a bouquet of roses and carnations to his majesty, while her companions released a number of doves. Several of the birds flew to the royal coach, and one of them was caught by the king. His majesty accepted the bouquet and warmly thanked the donors.

The unusual event of two bullfights in one day was witnessed yesterday. One fight was held in the morning and the other in the afternoon, and the Plaza de Toros was filled each time.

THE CORONATION CEREMONIES.

King Alfonso attained his majority Saturday and became king in fact as well as in name, having reached the age of sixteen, prescribed by the constitution.

The royal procession was formed on the Plaza de Armas in front of the palace shortly before 2 p. m. and proceeded to the chamber of deputies, where, in the presence of the senators and deputies, the king took the oath to uphold the constitution.

A delegation consisting of twelve senators and twelve deputies received their majesties at the steps, and, preceded by the mace bearers, they were conducted through the antechambers, filled with courtiers and others who were unable to find accommodation in the chamber itself.

Every reasonable precaution had been taken to provide for the safety of the princes and special embassadors, and Minister Weyler, as minister of war, had massed a large force of regulars at the capital, estimated as high as 60,000. The route of the royal progress from the palace to the houses of congress was heavily lined with troops hours before the function occurred.

The chief thoroughfares were decorated with simplicity, but not without taste.

While the stately ceremony at the cortes was witnessed by privileged spectators alone, the royal procession was watched in silence, but with eager interest, by joyous multitudes. After the ceremony at the chamber of deputies the royal progress was made through the crowded streets, aflame with red and shimmering with gold, to San Francisco church.

King Alfonso was met at the portal of the church by the primate of Spain and the cardinal archbishop of Santiago de Compostela, Jose Maria Martin de Herrera y de la Iglesia, and twenty bishops, all in the magnificent robes which are only worn on great occasions. Eight priests bore a canopy over the king as he advanced up the central nave and took his seat on a throne placed beside a crimson velvet covered altar specially erected in front of the great altar. A Te Deum was then chanted, accompanied by a grand orchestra.

King Alfonso's first proclamation is addressed to the nation. After saying that lessons of experience are waiting him his majesty expresses the hope that he will receive from the people the inspiration which will supply what time has not taught him. The proclamation concludes thus:

"If Providence aids me and if the Spanish people continue the support they have accorded my august mother during her regency, and I do not doubt they will, I have confidence that I shall succeed in my desire to do all that untiring devotion can accomplish for the good of the fatherland and the peace, grandeur and well being of the Spanish nation."

King Alfonso requested Premier Sagasta to retain the seals of office.

BOUND BROOK'S NEW POLICY.

It may be interesting to know that Bound Brook, which has never been noted for anything remarkable, is planning to put its High School on a high plane similar to those of Plainfield and North Plainfield. Furthermore, the Bound Brook Board of Education is planning to establish a manual training school in connection with the High School. While the borough has a manual training school, it was obtained largely through the generosity of one of its leading citizens, so Bound Brook's enterprise in this direction is all the more remarkable.

There has been considerable agitation throughout the State to bring about the establishment of some standard of educational work so that all the High Schools of the State should be on the same level. While nothing in that direction has yet been done, this last step of Bound Brook is really in a line with it for it will bring the High School of that place up to the standard of those in city and borough. Heretofore, most of the young people of Bound Brook, who desired an education above that of the common schools came to this city to either High or private schools. Almost every year, the graduating classes of the High School and several of the local private schools contain young people from Bound Brook who have prepared for college or business career.

Although the establishment of such school in Bound Brook may take away a few pupils from here, yet there is only a feeling of satisfaction at this last step of the Bound Brook school authorities. It is a good thing to extend and improve the free schools in any place and Bound Brook is bound to profit by it as have many other towns which have pursued a similar course.

It is interesting to know that the financial standing of the city of Plainfield is higher than it ever was before. When bids were opened for the issue of sewer improvement bonds, the highest price offered was greater by a considerable figure than that ever offered before for city bonds. The price paid was 107.25, with accrued interest from May 1. It shows how well the city stands in the financial world. It is also an object lesson to the boroughites who have never been able to reach such a figure when they issued any bonds. While the successful bidder was a New York banking house, it is satisfactory to know that a local concern was second and only a little bit behind.

The troubles between the master and journeyman plumbers appear to be no nearer a settlement than they were the first day of the strike. Both sides appear to have declared war to the death and the contest for the survival of the fittest continues to wage while the public awaits, with such patience as it can muster, an end of the trouble and a resumption of business.

There seems to be some question as to whether or not the members of the North Plainfield Board of Health receive any compensation. As a matter of fact, the members do not but the secretary, Dr. W. E. Honeyman, receives $125 as secretary and $50 additional for recording the vital statistics of the borough.

The whole matter is summed up briefly in this paragraph from Printers' Ink: "There is some good in all advertising and all advertising does some good; but the best advertising and the advertising which does the greatest good is daily newspaper advertising."

It is rather early yet to make any political predictions for the election this fall but mark down one thing, the Union county senatorship is coming to Plainfield this year.

It is a great baseball team that the Plainfield High School has this year. Very soon, its members will become like Alexander, crying for more worlds to conquer.

With only two Republicans in the Somerset county Board of Freeholders, it is not surprising that the G. O. P. is not remembered in the distributing of county offices.

With baseball, tennis and golf, every Saturday afternoon, the lover of outdoor sports cannot complain that he is not well taken care of.

The Clinton Avenue baseball team was defeated by the Scotch Plains club, Saturday afternoon, on the former's grounds. It was a one sided game despite the fact that two scrubs had to be placed by the visitors. The score was 13 to 3.

PRETTY WEDDING.

Miss Elizabeth S. Mobus Becomes Wife of Clarence S. Bye.

There was a very pretty wedding at the residence of Miss Martha Goodman, of Manning avenue, at 8 'clock Saturday evening when her niece, Miss Elizabeth S. Mobus, daughter of Mrs. Katherine Mobus, was united in marriage to Clarence Stevenson Bye, son of Mr. and Mrs. Samuel Bye, of Craig place. The ceremony was performed by Rev. Dr. Cornelius Schenck, of Trinity Reformed church.

The groom was attended by John Mobus, a brother of the bride, and Miss Martha Rose was the maid of honor. The bride was gowned in Perisan lawn, trimmed with liberty silk, and carried in her hand a large bouquet of bridal roses. The maid of honor was dressed in white organdie, trimmed with pink ribbon.

In honor of the event the parlor was beautifully decorated, pink and white being the prevailing tints in the floral hangings. There was a large dogwood arch, beneath which the ceremony was performed.

Many guests were present from New York, Philadelphia, Statington, Pa., and Watchung, N. J., besides many from this city. The bride, who is very popular, was the recipient of many costly and useful presents. She is a member of Trinity Reformed church and has always been a most earnest worker in the Christian Endeavor Society of that church.

Mr. and Mrs. Bye left on a wedding trip to Philadelphia, and on their return will live in a house on Lee place, recently furnished by the bride.

SUBURBAN NEWS

A Department Devoted to the Minor Events in Greater Plainfield's Suburbs by Our Own Correspondents.

DUNELLEN.

An extra meeting of the Crokinole Club was held Saturday evening at the residence of Mrs. Edmund Teel. The evening was pleasantly spent in playing the favorite game and ended with the serving of dainty refreshments. This meeting will probably be the last of the season.

In order to give the people of Dunellen something to do on Sunday while they are all home, a fire generally occurs on that day when one comes at all. Yesterday was no exception to the rule as a tool and oil box, near the freight house, caught fire in some unknown way. The fire engine was called out and extinguished the blaze in short order. At first it was thought that the freight house was on fire as the smoke was very dense.

Mr. and Mrs. Edward Book entertained relatives from Roselle Saturday.

Dr. P. W. Brakeley entertained Mr. and Mrs. William Hunt, of Staten Island, Sunday.

John Herbert, of Jersey City, spent yesterday with his parents, Mr. and Mrs. John Herbert.

The Dunellen Juniors went to Clinton avenue, Saturday morning, and defeated the junior team from that place in a game of baseball. The game was a hot one throughout and ended in the local's favor by a score of 6 to 5. The battery for the home team was Giddes and Giles.

Percy Abbot has been confined to the house by illness for the past few days.

Miss Sheppard, of Front street, entertained out of town friends yesterday.

Mrs. Walter Vliet is seriously ill at her home on Front street.

Part of the hedge around the park was burned yesterday when the tool box caught fire.

Rev. L. E. Livermore, of New Market, preached last evening in the Presbtyerian church in place of Rev. N. J. Sproul.

C. W. Vaughn, of Newark, spent yesterday with relatives in town.

L. B. Nelson entertained a number of out of town friends yesterday.

NEW MARKET.

Regular services were held in the Seventh-Day Baptist church Saturday morning and evening.

Rev. L. E. Livermore supplied in the Presbyterian church at Dunellen yesterday in place of Rev. N. J. Sproul who is attending a conference in New York.

Rev. Frank Fletcher preached in Somerville yesterday.

There was no regular baseball game in town yesterday but the locals practiced. The team is desirious of arranging a game with the Dunellen A. C.

Miss Mary Allen, of New Brunswick, visited friends in town yesterday.

SOUTH PLAINFIELD.

Sadie, the young daughter of Mr. and Mrs. Samuel Dayton, of Piscataway, is ill with the mumps.

Mrs. Harry Tappen, of Newark, has returned home after a week's stay with local relatives.

Mrs. T. C. Laing entertained friends from out of town, yesterday.

Mr. and Mrs. Ira Ward visited at the home of their niece, Mrs. Oscar Thorne, yesterday.

Parker Morris, of Piscataway, visited friends in town, yesterday.

PLAINS AND FANWOOD.

William Jimerson led an interesting weekly meeting of the Epworth League in the Methodist church last evening.

The junior's second team met defeat Saturday morning at the hands of one of Plainfield's junior teams, by a score of 7 to 9.

"Practical Consecration" was the subject discussed by the B. Y. P. U. at their meeting in the parlors of the church last night.

Charles Wade spent Sunday with relatives and friends at Jersey City.

Rev. Dr. J. C. Buchanan, who has been spending a week with his son, Dr. J. H. Buchanan, of North Plainfield, spent Saturday visiting friends in town before returning to his home at Pemberton, this State. Dr. Buchanan is a former pastor of the Baptist church.

John Haskard and children, of Grant avenue, spent Sunday with his mother, Mrs. John R. Haskard, of Grand street.

A number from town journeyed to Rahway yesterday afternoon to see the ball game between the Nationals and a New York team.

Mr. and Mrs. Chas. Grant, of Plainfield, spent Sunday with Mrs. Grant's parents, Mr. and Mrs. Thomas M. Paff, Sr.

John E. Flannery, of Plainfield, spent yesterday with his daughter, Mrs. George H. Johnston.

Mrs. Ann Cleaver, who has been seriously ill for several months, has so far recovered that she is able now to sit on the piazza at home during pleasant weather.

Dr. F. W. Westcott, of the borough, is receiving the congratulations of his many friends over his reappointment as county physician for three years.

A number from town, who journeyed to Plainfield, Friday, to see the circus parade, were disappointed as the date was cancelled at the last moment owing to so many of the company being sick.

Sergeant Cory, of Troop B, Second Calvary, who has just returned from Cuba recently visited his cousins, Mrs. W. D. Johnston and Miss Jennie Marsh, of Scotch Plains.

YOUNG FOLKS THERE.

Young People's Saturday Evening Social Was Entertained.

The young people's Saturday evening social was entertained Saturday by Mr. and Mrs. Charles B. Corwin at their home at 831 Madison avenue, Mrs. Howard Fleming and Mrs. Charles E. Brooks assisting.

Barrows, William Schoonmaker, Ralph Schoonmaker, Hartley Melliick, Jose Tweedy, VanWyck Brooks, Lucius Bigelow, Pendleton Rogers and Wickham Corwin.

A TERRIBLE WARNING.

Such Was Rev. Cornelius Schenck's View of Martinique's Destruction.

"The Destruction of a City," was the subject of an interesting discourse delivered in Trinity Reformed church last evening by the pastor, Rev. Cornelius Schenck. His text was Gen. xix, 24-25, referring to the destruction of Sodom and Gomorrah. He then spoke of the recent disaster in the island of Martinique.

In the case of Sodom and Gomorrah the people were warned, but they did not accept or heed it. He believed that the West India catastrophe should be taken as a warning by all and thus escape destruction by accepting Christ. He said that in every city there are elements that can wipe it out of existence. The pastor urged all to seek a full salvation and escape the cities of destruction by accepting and receiving Christ.

Singer of Ability.

Miss Josie Schaeffer, of Brooklyn, is visiting Mrs. Lafayette Rosenstiehl, of Somerset street. Miss Schaeffer is an operatic singer of marked ability, having frequently appeared before New York's four hundred in such parts as Marguerite in Faust, also as Aida and Gioconda in the same opera. Miss Schaeffer is well known in Plainfield.

NEW TIME SCHEDULE ON JERSEY CENTRAL

Number of Changes Made Which Went Into Effect Yesterday Morning.

WHAT CHANGES ARE.

DETAILS OF TRAINS WITH ALL TIME AND REVISED SCHEDULE.

No Important Ones Except to the Philadelphia Trains—Owl Train and Early Morning Local to New York Put Back.

A new time table for the summer was put in effect yesterday by the New Jersey Central.

The changes in the local east bound train service between Plainfield and New York include a new train at 3:37 in the morning. The 6:02 train leaves a minute later and the 8:13 leaves at 8:11 and connects for the Long Branch road. The 10:23 leaves at 10:26 and the 11:22 leaves at 11:25. The train, formerly leaving at 1:30 in the afternoon, now goes at 1:18 and there is a new train at 2:31 that connects with the Long Branch road. The 2:45 train leaves at 2:49 and the 3:46 train leaves at 3:44. The 5:52 train leaves a minute later.

To Philadelphia there is a new train at 7:44 and the 8:44 train has been taken off. There is a 9:14 train to Philadelphia and Washington and a new train at 9:44 to Trenton and Philadelphia. There is another new train for Trenton and Philadelphia [at 11:44. The 2:16 afternoon train to Philadelphia is off and the only afternoon train to the Quaker City leaves at 3:44. One can go to Bound Brook at 5:34 and change there for Trenton, Philadelphia and Washington. The 5:09 train does not stop under the new schedule.

The new Harrisburg flyer leaves New York at 5 o'clock in the afternoon and stops at Plainfield at 5:48 to take on passengers for points south of Allentown on the Philadelphia and Reading or for points west of Mauch Chunk on the main line. Returning this train only stops to let off passengers.

From Philadelphia the train arriving at 11:10 is taken off and there is another train at 11:20 which stops to let off passengers. The train arriving at 12:39 and a new train at 1:30 also stops to let off passengers. There is a new train at 2:42 which stops regularly and the 4:39 a new train stops to let off passengers. The 6:45 now leaves at 6:43. Another new train from Philadelphia arrives at 7:42 and is a regular stop. The 8:38 formerly from Washington now arrives at 8:36 and comes from Philadelphia.

The only Sunday change is in the 10:44 train for Trenton and Philadelphia. This train now leaves at 11:14.

The way train from Easton in the morning now arrives at 8:21 instead of 8:18, and the way train from Somerville arrives at 9:36 instead of 9:39. There are two Saturday specials from New York, one at 1:30 and the other at 2:30. The 4:40 from New York now stops at Grant avenue to let off New York passengers and the 5:45 from New York stops at Netherwood to let off New York passengers. The latter train arrives at Plainfield 6:41 instead of 6:38. There is a 1 o'clock train in the morning from New York arriving at Plainfield 2:08.

Little Son Passed Away.

The six-months-old son of Joseph and Mary Monroe, of Scotch Plains, died yesterday. The funeral will be held tomorrow afternoon at 2 o'clock.

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. W. Randolph.

BIG CIRCUS AT ELIZABETH.

Many Plainfielders Will Undoubtedly Turn Out to See It.

Nearly every one living in this community will doubtless want to visit Elizabeth, Friday, when the Adam Forepaugh and Sells Brothers' great consolidated shows, comprising double circus, double menageries, double museums, double hippodromes, will appear there.

These great shows are the only ones that exhibit in New York city. No others dare even attempt to exhibit in the metropolis. They opened this season at the Madison Square Garden in New York, and the newspapers, without exception, stated that it was the greatest circus this country had ever seen. There is not space to enumerate them here, but there is no possibility of anyone being disappointed who goes to see these shows, no matter how high their anticipations may have been raised.

All lines of travel will offer especially low rates of fare and provide all the necessary accommodations for the throngs who wish to go to see them. The agent of these lines of travel will furnish all necessary information as to time of trains and rates of fare. There is one thing certain, and that is that these excursion arrangements will enable people who live here to see identically the same show and the only one that is seen by those who live in the metropolis.

COMING HOME.

Two Plainfielders Honorably Discharged by Uncle Sam.

Fred Bowden, formerly an employe of The Daily Press office, but during the past three years a corporal in the Second Calvary Band in service in the Philippines, and lately stationed at Fort Meyer, Va., will be discharged from the service next week Thursday, when he will return to his former home in this city. His brother, John Bowden, who has been serving in the Philippines with Company G, Sixth Infantry, will be discharged Monday at San Francisco and will arrive in Plainfield June 1. He expects to re-enter the service after a vacation.

PERSONAL.

Mrs. Frank Jones, of Somerset street, has recovered from her recent illness.

G. H. Robins, of Norwood avenue, who has been detained at home by a slight illness, has recoveren.

Rev. Dr. and Mrs. D. J. Yerkes are now en route for home from the south. They will stop at several points of interest on the way.

Funeral of Theodore Gillies.

Funeral services of a very simple nature were held yesterday afternoon at the home of Mrs. Mary B. Gillies, of Madison avenue, over the remains of her son, Theodore Gillies. They were conducted by Rev. Dr. W. R. Richards, of the Crescent Avenue church. The body was laid to rest in the North Plainfield cemetery. Those who acted as pall bearers were Nelson VanWinkle, Jacob Ryder, DeWitt Ryder and George Gillies.

Two Soloists.

Mrs. Robert L. Giddes, who is so favorably known in connection with the opera of "Patience," and J. Wilson Derby, solo bass of the choir of the First Presbyterian church, will be the soloists at the orchestral concert of the Y. M. C. A. Thursday evening. A descriptive battle piece entitled "The Capture of Santiago" will be one of the pleasing features of the concert.

Death of Infant.

Peter, the six-months-old son of Frances and the late Peter Miller, died at his mother's home on East Fourth street, yesterday. The funeral will be held this afternoon.

Coremakers Discharged.

Ten coremakers in the foundry department of the Pond Tool Works were discharged this morning, following a slight disturbance. A number of the other men threaten to go on strike.

OUT OF DEATH'S JAWS

Captain of the Roddam Tells of Mont Pelee's Eruption.

THE TERRIBLE RAIN OF FIRE.

After the Disaster Only Five of the Ship's Crew Were Fit For Duty. These, Led by the Heroic Captain, Ran Vessel to Safety.

NEW YORK, May 19.—The Norton line steamer Etona has just arrived here from the River Plate via St. Lucia, where she called for bunker coal on May 10.

"At St. Lucia on May 11," says Captain Cantell, "I went on board of the British steamer Roddam, from London, which had escaped from the terrible volcanic eruption at Martinique three days before. The state of the ship was enough to show that those on board must have undergone an awful experience. The Roddam was covered with a mass of fine bluish gray dust or ashes of cementlike appearance. In some parts it lay two feet deep on the decks. This matter had fallen in a redhot state all over the steamer, setting fire to everything it struck that was burnable, and when it fell on the men on board it burned off limbs and large pieces of flesh. This was shown by finding portions of human remains when the decks were cleared of the debris. The rigging, ropes, tarpaulins, sails, awnings, etc., were charred or burned, and most of the upper stanchions and spars had been swept overboard or destroyed by the fire. Skylights were smashed and cabins were filled with volcanic dust. The scene of ruin was deplorable.

"I visited the captain of the Roddam in the hospital at St. Lucia, where he gave me an account of his terrible experience. He had just arrived and anchored at St. Pierre, Martinique, on the morning of Thursday, May 8. The captain was standing near the accommodation ladder talking to the vessel's agent, who had come on board, when he saw what appeared to be an enormous black cloud, like a wall with patches of fire in it, approaching the sea from the land. With it came an immense tidal wave of boiling water, accompanied by a loud and terrible noise. He shouted, 'Take shelter!' to the crew.

"Immediately the steamer was caught and tossed over on her side, almost capsizing. Darkness fell like a pall, and volumes of redhot matter showered down, while the air was thick with sulphurous fumes and dust. The sea was a confused mass of boiling mud. Fire soon broke out in different parts of the ship. Screams, groans and shouts of agony from the injured people, mingled with the terrible noise of boiling water and rushing air, together with the falling fire, caused a most horrible confusion and frightful din. This shock lasted for a few minutes.

"The captain of the Roddam, knowing that his vessel had steam up and instantly realizing the necessity of escape, rushed to the engine room annunciator and signaled below to start the engines at full speed. The anxious moments, increased by his sufferings from burns and agony of mind, were relieved by the vibration of the engines and the reply from below. It happened, fortunately, that, although the crew had been rung off from duty at the engines, some of the engineers were near by. The terrific tidal wave which had swept over the Roddam and nearly capsized her had parted the cable, and the vessel was adrift. When the engines started, it was found that the steering gear had become disabled in some manner and could not be worked. For more than an hour the Roddam's engines were worked, backing and going ahead with the hope of bringing her head toward the sea and away from the land. Once she got dangerously near the steamer Roraima. Both vessels were in flames. Some of those aboard jumped into the boiling water; some fell dying to the deck. All this time the redhot matter was falling and the water was hissing and steaming dense masses of vapor. Smoke and dust filled the air, and poisonous fumes spread about.

"After some time the Roddam's steering gear moved a little and enabled the captain to head her out to sea, and, with considerable difficulty, he managed to steer her a little distance from the land. As the air cleared the scene on board the ill fated Roddam became all the more ghastly. The ship steamed on through thick hot dust. The screams from the injured became more audible. Some rushed frantically about with their clothes on fire and large pieces of flesh burned from their arms. Others in their agony laid writhing in the redhot dust.

"In about two hours the air became gradually clear. An investigation of the casualties on board showed that besides the captain, who was frightfully injured, only two engineers, two sailors and the boatswain were able to do duty.

"Fire was still burning about the ship, and the rigging was in flames. The captain decided to try to reach the island of St. Lucia, forty-five miles distant. This he succeeded in doing by 6 o'clock on the evening of May 8. The steamer was difficult to handle owing to the partly disabled steering gear, which could not be made to work properly. In the time occupied on this terrible voyage the experience of the survivors was still worse than that already gone through. The brave captain and his few men fighting the fire, exhausted and scalded, struggled and worked, trying to do something to assist their dying shipmates. Those working below strived to keep up the steam.

"The captain, suffering the greatest agony, succeeded in navigating his vessel safely to the port of Castries, St. Lucia, with eighteen dead bodies lying on the deck and human limbs scattered about. A sailor stood by constantly wiping the captain's injured eyes. I think the performance of the Roddam's captain was most wonderful, and the more so when I saw his pitiful condition. I do not understand how he kept up. Yet when the steamer arrived at St. Lucia and medical assistance was procured this brave man asked the doctors to attend to the others first and refused to be treated until this was done.

"My interview with the captain brought out this account. I left him in good spirits and receiving every comfort. The sight of his face would frighten any one not prepared to see it. We sailed from St. Lucia on the morning of May 11 and at 2 o'clock in the afternoon passed the island of Martinique. The weather was perfectly clear, and we had a good view of that part of the island which had suffered by the volcanic eruption a few days before. The formation of the island is quite altered, and the whole northern part, where the town of St. Pierre once stood, is covered with a mass of ashes and lava. At about 2:30 o'clock, as the Etona was passing the island, a tremendous upshoot of smoke and dust took place, and in a few moments the ship was covered with fine dust like cement. We were about three miles distant from the island at the time. The ship's engines were put under full speed, and for a time considerable anxiety was felt on board. For an hour or two the ship was covered with dust and enveloped in a thick cloud and the air was filled with sulphur fumes. It must have been another eruption, and the dust must have been sent a great distance in the air, because it traveled against the wind and at a tremendously rapid rate."

French Aid For Destitute.

PARIS, May 19.—At the close of high mass in all the Roman Catholic churches of Paris funeral psalms were chanted and prayers for the dead were said in memory of those who perished in the Martinique disaster. The congregations in the churches were large, and good collections for the aid of the West Indian sufferers were taken up. Appropriate services for the Martinique victims were held in all churches throughout France, and collections to aid the sufferers were taken up. The performance of Barnum & Bailey's circus at Toulouse Saturday added 25,400 francs to the Martinique fund.

GENERAL PORTER ARRIVES.

Embassador to France Has Returned After Long Absence.

NEW YORK, May 19.—General Horace Porter, United States embassador to France, has arrived in New York on the American line steamer St. Louis. General Porter is on his way to Washington to take part in the unveiling of the Rochambeau statue May 24. He made the voyage entirely alone and was met at the dock only by members of his family and a few friends.

General Porter will remain in New York several days, the guest of his son at 213 West Seventieth street. The embassador said he had not visited this country before since he went abroad to fill his present position at Paris five years ago.

General Porter will remain in the country about two months and visit various summer resorts before he returns to France.

Odell Has Big Offer.

NEW YORK, May 19.—If Governor Benjamin B. Odell decides to accept a renomination from the Republican party next fall, he must decline an offer in the world of railroads and finance that entails a salary which one report names as $100,000 a year. Governor Odell made his trip to the Pacific coast, it is said, to confer with E. H. Harriman in regard to an offer to become the eastern representative of the Harriman interests. Since Mr. Harriman had his recent financial battle with J. Pierpont Morgan he has felt the necessity of an eastern representative who could command respect from all quarters and be of especial use through his knowledge of politics.

New Wireless Station Nearly Ready.

NEW YORK, May 19.—The equipment of the Marconi Wireless Telegraph company's station at Sagaponack is rapidly approaching completion, and Engineer J. Leary expects to be ready to signal the incoming Cunarder Umbria next Saturday. The Umbria carries the Marconi apparatus, the effective range of which as installed on these steamers is roughly 100 miles, so that communication with her should be established immediately after she has lost the range of the station on Nantucket lightship.

A Hundred Horses Burned.

MILWAUKEE, Wis., May 19.—One hundred and two thoroughbred horses were killed by the burning of the Andrew Uchlein stock farm near Racine. Mr. Uchlein is a prominent business man here and has raised fine breeds of horses at his country place. The fire was caused by lightning.

Valuable Paintings Stolen.

PARIS, May 19.—The Chateau des Vives, the property of Mr. and Mrs. Humbert, interested in the great Humbert-Crawford lawsuit, has been entered by burglars, who broke the seals of the sheriff, which had been affixed to the property, and stole pictures of value.

Two Fishermen Drowned.

PLATTSBURG, N. Y., May 19.—John F. Hopkins and Michael Breen of Ausable Forks were drowned in Fern lake while on a fishing trip. Their boat had not been used since last season, and the seams opened after it was placed in the water.

Servian Cabinet Resigns.

BELGRADE, Servia, May 19.—King Alexander has accepted the resignations of the Servian cabinet. M. Pasics, formerly a Radical, has been intrusted with the formation of a new ministry.

LACE NOVELTIES.

Irish Lace Is Combined With This Fabric—New Shadings.

The summer evening gowns are decidedly picturesque with their fanciful incrustations of lace, frilled fichus and dainty boleros. Those who are not possessed of real lace can obtain beautiful imitations at moderate prices, and thus the majority can have even their inexpensive frocks trimmed with it.

The craze for Irish lace does not abate one jot. It is now used with the greatest effect on crepe de chine evening dresses. A mixture of this guipurelike lace with fine fabrics sounds incongruous, but incongruity is often effective when treated with skill.

The newest shade in lace is a tawny orange, and this is very pretty mingled with black and white chiffon. Ivory white lace is only used on white gowns, and not much at that. The

AFTERNOON TOILET.

yellowish and brownish tones are much to be preferred from the point of view of style.

Lace scarfs are much used on hats, draped softly around and tied in a loose bow, with drooping ends.

The picture shows an afternoon gown of pale reseda green crepe de chine, trimmed with applications of black silk on net mounted over white silk. The waist is made with a deep square yoke, and the rest of the waist is accordion plaited. The skirt is also accordion plaited.

COTTON GOWNS.

Pretty Models For Country and Warm Weather Wear.

Dainty morning gowns are made of silk, gingham, black china silk and pongee. The pongee gowns are made with tucked blouses pouched back and front and intersected with wide string colored insertions. The skirts are either tucked perpendicularly or they have graduated flounces finished by four or five soft folds. Ecru beadings are run through with black velvet ribbons. This makes particularly pretty collars, elbow bands and sashes.

Gowns of scarlet linen will be much used for country wear. They are made

shirt waist fashion, with strapped seams and tiny buttons for trimming.

Grass linen bolero and skirt costumes are trimmed with touches of pale blue or pink in the shape of embroidery or soft china silk folds.

Pompadour challies, half silk and half wool, form dainty house gowns for warm weather.

For country wear nothing could be smarter than the red linen dress shown in the picture. The waist is made with a pointed yoke and three strappings held down by tiny gold buttons. The rest of the fullness is stitched into tiny tucks. The belt is of the material, with a gold buckle. The skirt is plain, with the exception of a line of strapping down the front.

Proposals For Coal.

Pursuant to a resolution adopted by the Board of Education of the City of Plainfield, N. J., at a meeting held May 5th, 1902, notice is hereby given that the Board of Education will meet on Monday evening, June 2nd, 1902, at eight o'clock, at their rooms in the Stillman School, corner of West Fifth street and Arlington avenue, in the City of Plainfield, at which time and place said Board of Education will receive sealed proposals for furnishing five hundred (500) tons, more or less, of coal best suited for steam and hot air heating, in Pea, No. 1 Chestnut, Stove, and Egg sizes, all coal to be thoroughly screened, trimmed, and placed in the bins within the public school buildings, without any extra expense to the Board for such handling, and to be delivered during the month of July next, or at such time as the Board may direct. Bids to specify the quality of coal to be furnished, and whether short or long tons. Payment for all coal contracted for to be made after September 1st next.

All proposals to be endorsed "Proposals for Coal." The Board reserves the right to reject any or all bids.

Upon receipt of the bids or proposals the Board will immediately proceed to unseal the same and publicly announce the contents in the presence of the parties bidding, or their agents, provided such parties or agents choose to be then and there present, and also to make proper record of the prices and terms upon the minutes of the Board. By order of the Board of Education

"Your question is premature, my dear fellow," replied Sturgis, smiling; "it must remain unanswered for the present. All we have established as yet is that he did get there. And that being the case, he must have been assisted; for, wounded as he was, he could not, I take it, have climbed into the cab by himself."

"Certainly not," agreed Thurston.

"Point five," resumed Sturgis, "the right arm was broken just above the wrist."

"Yes," said the physician, "I thought at first that the arm might have been broken in the collision with the cable car; but the discoloration of the flesh proves conclusively that the fracture occurred before death."

"Precisely. Now, it is possible that the man broke his arm when he fell, after being shot; but the contused wound looks to me as if it had been made by a severe blow with some blunt instrument."

"Possibly," admitted Thurston.

"This broken arm, if we can place it in its proper chronological position, may prove to be of some importance in the chain of evidence," mused Sturgis. "If the fracture occurred before the man was shot, that, of course, excludes the possibility of suicide; but, on the other hand, it also brings in an obstacle to the hypothesis of murder."

"How so?"

"Because we have settled, you will remember, that the shot was fired from the right of the victim, and close to him. Now, if he did not fire the shot himself the person who did must have reached over his right arm to do so. In that case, unless the victim was asleep or stupefied, would he not instinctively have raised his arm in self-defense, and thus deflected the weapon upward?"

"Evidently."

"Well, it is idle to speculate on this line for the present. Let us come to point six. You remember I called your particular attention to the cabman. Do you still think he was only drunk?"

"No," replied Thurston; "while he had unquestionably been drinking heavily, he also showed symptoms of narcotic poisoning."

"Then the presumption is that he had been drugged by those who wished to place the wounded man in his cab. I observed him closely and I am satisfied that he knows as little about his dead passenger as we do. He probably knows less about him, at all events, than the young man in the sealskin cap who gave the police the slip during the excitement which followed the overturning of the cab."

Sturgis paused a moment.

"This, I think," he continued, "covers all the evidence we have thus far collected in the Cab Mystery. It is quite satisfactory, as far as it goes, for it is circumstantial evidence, and, therefore absolutely truthful. In the Knickerbocker bank mystery we have as yet no satisfactory data whatever; for everything we have heard concerning it has its origin in the fallible evidence of witnesses, and has, moreover, reached us third or fourth hand. There is, however, one fact that may, or may not, prove to be important. Have you noticed that these two mysteries are contemporaneous, and, therefore, that they may be related?"

"Do you think there is any connection between the two?" inquired Thurston, interested.

"I do not allow myself to think about it at all as yet," replied Sturgis; "I simply note the fact, that, so far as time is concerned, the Cab Mystery could be the sequel to the Knickerbocker Bank Mystery—that is all. Facts, my dear boy, are like words. A word is only an assemblage of meaningless letters until it becomes pregnant with sense by context. So, a fact, which, standing by itself, has no meaning, may, when correlated with other facts, become fraught with deep significance.

"And now," he continued, after a pause, "I think our work is concluded for the present. I shall be able to lay it aside for the night. Let me offer you a glass of sherry. Pleasant evening we spent at Sprague's to-night. I have a great admiration for him as an artist, and a great fondness for him as a man. Most of his friends are strangers to me, though. You know I have very little time to indulge in social dissipation. By the way, who is that Dr. Murdock with whom I have made this bet?"

"Oh! he is a physician, though now retired from practice. He devotes himself entirely to scientific research, especially in the domain of chemistry. He has made some important discoveries in organic chemistry, and they say he has succeeded in proving some of the supposed elementary metals to be compounds. He has quite an enviable reputation in the scientific world. I understand he is a remarkable man."

"That is evident at a glance. He showed himself this evening to be a clear thinker and a brilliant speaker. I should say he was something of a genius, and I should judge, moreover, that he was a man of magnificent nerve, capable of the most heroic actions, or—"

Sturgis hesitated.

"Or——?" asked Thurston.

"Or of the most infamous cruelty and crime. It all depends upon whether or not his great mental attributes are under the control of a heart; a point upon which I am somewhat in doubt."

CHAPTER VI.

THE ARTIST.

Sprague was a dilettante in art as he was in life. If he had not been rich, he might perhaps have become a great artist. But, lacking the spur of poverty, he seemed incapable of sustained effort. Occasionally he was seized with a frenzy for labor; and, for weeks at a time he would shut himself up in his studio, until he had creditably accomplished some bit of work. But the fever was soon spent, and a reaction invariably followed, during which palette and brush were taken up only in desultory fashion. Thus it was that at the age of eight and twenty, Sprague had painted a few pictures which had attracted favorable attention at the annual exhibitions of the Academy of Design, and which the critics had spoken of as "promising;" and thus it was that the promise was as yet unfulfilled, and that Sprague, though a man of undoubted talent, was not likely ever to rank as a genius in his profession.

Sturgis, with his keen insight into human nature, fully realized the potential capacities of the artist, and at times he could not control his impatience at his friend's inert drifting through life. But, with all their differences, these two men held each other in the highest esteem, each admiring in the other those very qualities which were lacking in himself.

The artist lived in a fashionable quarter of the city, in a bachelor apartment which included a large and commodious studio fitted up according to the latest canons of artistic taste.

On this particular New Year's morning, after waking and observing, by the filtering of a few bright sunbeams through the closely drawn blinds, that it was broad daylight, he stretched himself with a voluptuous yawn and prepared to relapse into the sensuous enjoyment of that semi-somnolent state which succeeds a night of calm and refreshing sleep.

Just as he was settling himself comfortably, however, he was startled by a knock at the bedroom door. Most men, under the circumstances, would have betrayed some vexation at being thus unceremoniously disturbed. But there was no suspicion of annoyance in Sprague's cheery voice, as he exclaimed:

A DEADLY TORNADO.

Scores Killed in a Texas Town on the Gulf Coast.

HOUSTON, Tex., May 19.—Reports received here by telegraph and telephone indicate that the northern or western portion of the town of Goliad has been swept away by a tornado and that from fifty to a hundred people have been killed.

The long distance operator at Houston can get little beyond the fact that part of the town has been blown away and that many persons have been killed and injured. No other particulars were obtained.

Considerable damage has also been done at Beeville by high winds. Both towns are close to the gulf coast, and all telegraph wires by the two routes are down.

While all Texas has been storm swept, the territory immediately to the west of this city was especially badly damaged by the high winds. Walterspark, a small hamlet fourteen miles northwest of Austin, was badly damaged, three score or more houses being blown down and many trees uprooted. In that city a number of houses were unroofed, and the State Institution For the Blind was considerably damaged, though none of the inmates was injured. A number of camping parties at various points up the river were serious sufferers in the matter of destruction of property, but no loss of life is reported.

Cloudburst Crippled Railroad.

ST. JOSEPH, Mo., May 19.—The Chicago Great Western railroad is a severe sufferer from a cloudburst on both the Des Moines and the Chicago divisions. More than 150 feet of track and grading were destroyed at Fairbanks, seven miles this side of Oelwein, and about 200 feet were carried away east of Oelwein on the Chicago division. The train schedule was abandoned, and it is expected through trains will not be run from either Chicago or St. Paul before tomorrow.

Heavy Rain In Kansas.

WICHITA, Kan., May 19.—A very heavy rain has fallen over the wheat belt of southern Kansas. For a time a tornado was threatened here, but the scare ended in a downpour of rain which flooded the streets, the water flowing into the first floors of some buildings. No serious damage has been heard of so far.

CUBA CELEBRATES.

Governor General Wood Recipient of Many Gifts.

HAVANA, May 19.—The festivities in celebration of the change of government became general all over the island yesterday. In almost every town and village an elaborate programme of popular rejoicing has been arranged. Sunday here, as in all Spanish countries, is not given over to religious observances, but is distinctly a holiday, devoted to recreation and amusement. In Havana appropriate services were held in the churches in the morning, and high mass was celebrated by the archbishop in the cathedral, where the bones of Christopher Columbus were formerly buried, but after midday the whole city gave itself over to amusement.

Governor General Wood and the other American officers had a busy day cleaning up odds and ends. In addition to the many other social demands upon him, Governor General Wood took breakfast at the Fronton, where the directors of the Jaialai association presented him with a magnificent silver service and Mrs. Wood with a diamond ornament. At 6 o'clock in the evening the merchants of Havana marched to the palace in a body to bid the governor general farewell, and for an hour he was kept busy returning thanks, so flattering were the compliments bestowed upon his administration and so earnest the expressions of regret at his departure.

Both General and Mrs. Wood as well as the American officers generally have been the recipients of many evidences of the high esteem in which they are held. The cabinet presented General Wood with a gold watch suitably inscribed, and the ladies of Havana gave Mrs. Wood a silver service, but these are only a few of the gifts bestowed upon them. A dinner was also given by the commercial bodies of the city in honor of the governor general.

Admiral Sampson's Will.

WASHINGTON, May 19.—The will of the late Rear Admiral William T. Sampson has been filed. It leaves everything to the widow save $4,000 of insurance, which is left for equal division among the four daughters. In the petition for admission of the will to probate Mrs. Sampson, who is named as sole executor, says the admiral died possessed of stocks and other securities valued at $8,500 and a tract of land at Manchester, N. Y., known as the Morman Hill farm, valued at $10,000.

Killed by a Train.

WEST POINT, N. Y., May 19.—Private Frank L. Farris, serving in the headquarters building at the Military academy, was killed by a railroad train. He got out of the way of a freight, only to be struck by a passenger train. Ferris had served with the Tenth infantry in the Philippines as first sergeant.

(Special to The Daily Press.)

Dunellen, May 19—Mrs. Ellis S. Newton, aged fifty-three years, died yesterday. She had been ill for a long period. She was a member of the Dunellen M. E. church and Lakeside Council, Daughters of Liberty. The funeral services will be held from the Methodist church tomorrow afternoon at 2:30.

Funeral of E. M. Thorn.

Funeral services were held over the remains of Edward M. Thorn from his late residence on East Second street, Saturday afternoon. They were in charge of Rev. A. H. Lewis. Interment was made in the North Plainfield cemetery. The pall bearers were J. B. Crane, Orra Randolph, Phillip Cottrell and S. C. Conklin.

Alarm Went Astray.

Sparks from a locomotive set fire to a pile of straw and bedding near the stables of George Leland, on West Front street, yesterday afternoon. An alarm was sent in from box No. 48 but owing to a short circuit the firemen received but several taps and went to boxes 21 and 24. The blaze was extinguished by a bucket brigade.

GROUP OF OFFENDERS APPEARED IN CITY COURT THIS MORNING.

One Man Fined for Resisting Arrest and Another to Appear for Not Helping the Officer.

The following cases were disposed of in the city court this morning: George Waldron, found helpelssly drunk yesterday, on West Third treet, by Patrolman Higgins; sentence suspended, it being the first offense.

Martin Keiderling, for resisting Patrolman Gamo when placed under arrest, Saturday midnight, fined $5. John Stevens, who refused to assist the officer, was ordered to appear in court, but did not. Complaint was entered against him.

John Callahan, arrested last week for disorderrly conduct, suspended during his good behavior.

Benjamin Olmsted, arrested last week by Patrolman McCarthy for disorderly conduct, promised to leave town and sentence was suspended.

John Scott, charged by Mary Kleiner with assaulting her on April 15, pleaded not guilty. The case was laid over until tomorrow to allow the police to procure an important witness.

DEAD BODY FOUND.

Body of an Unknown Man Found at Westfield—His Throat Cut From Ear to Ear.

(Special to The Daily Press.)

Westfield, May 19—The body of an unknown man was found near Picton in Clark township yesterday afternoon. His throat was cut and he had evidently been dead several hours. The body was discovered by two cycilists who were riding along the road. The police at Rahway was notified and the body was removed to the morgue in that place In the man's clothes there was 26 cents, also a match and a watch. He was apparently fourty-five years of age and poorly dressed. Not the slightest clue as to the man's identity can be secured.

TENNIS AT THE PARK CLUB

ENTERTAINED PLAYERS FROM HILLSIDE CLUB SATURDAY AFTERNOON.

No Formal Contest—Pleasant Social Event in Connection With Tennis.

The Park Club entertained the Hillside Tennis and Golf Club at tennis Saturday afternoon on the club courts.

Those who played for Hillside were T. M. Day, Jr., Kenneth Bulkley, A. D. Beers, Frederick W. Goddard and Howard Huntington, while those representing the Park Club were Samuel Townsend, Morgan T. Townsend, William A. Townsend, Clifford W. McGee, Dr. H. K. Carroll, Charles Dupee, Irwin Taylor and Wallace Guilford.

A delightful feature of the affair was the social side of the entertainment. The pagoda was attractively decorated with dogwood and greens, and here refreshments were served. At the tables were Mrs. Samuel Townsend, assisted by Mrs. Wallace Guilford, Mrs. George T. Rogers, Mrs. Joseph H. Howell. The young women assisting were Miss Adelaide Ball, Miss Saidee Mae Howell, Miss Frances Weir and Miss Alice Barlow.

Closed the Bazaar.

The St. Joseph's bazaar closed Saturday night with a programme of vocal and instramental music. After the drawings took place it was announced that Mrs. J. Reilly had won a handsome ice cream dish, Mrs. W. W. Dunn, an Irish point lace handkerchief, Miss A. Fitzgerald a covered pillow, and W. W. Dunn a bouffe cover and also a centre piece. The drawings for a hand-painted tapestry and an art fire screen will not take place till June 14

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. Randolph.

NEW JERSEY CENTRAL OFFICIAL IS POPULAR

Sketch of Career of Man at the Head of Passenger Department of Central Railroad.

STILL A YOUNG MAN.

ALTHOUGH C. M. BURT HAS BEEN IN RAILROAD BUSINESS 25 YEARS.

Succeeded H. P. Baldwin—He Has Made Several Important Improvements—Established a Publicity Bureau to Boom the Resorts.

The genial and affable manner of C. M. Burt, general passenger agent of the New Jersey Central, who lives in this city, is winning for him many friends. Mr. Burt has always been for such things as will improve the service of the New Jersey Central, believing that the people should be accommodated. Since taking up his residence in Plainfield he has made many friends by his efforts to please the patrons of the road.

Although a young man, Mr. Burt has been railroading twenty-five years, commencing as a clerk in the auditor's office of the New York, Pennsylvania and Ohio Railroad at Meadville, Pa., in 1879. He remained in this position until 1882, when he left the railway service to take a position with the quartermaster's department, U. S. A., at St. Louis. In 1883 Mr. Burt again entered railroad service as rate clerk in the general passenger office of the West Shore in New York City, and in 1888 he was made chief rate clerk in the Trunk Line Passenger Association. When the Joint Passenger Association was formed in 1896 he was placed in charge of the same, where he remained until its dissolution, caused by the unfavorable decision of the United States Supreme Court. On July 1, 1899, Mr. Burt was appointed general passenger agent of the Fitchburg Railroad in Boston, remaining in that position until its absorption by the Boston and Maine Railroad, when he was made assistant general passenger agent.

When General Passenger Agent Baldwin, of the Central Railroad of New Jersey, died last April, Mr. Burt was called to his present position. Mr. Burt has made several improvements in the passenger department of the Central, the most noteworthy being the establishment of a publicity department for the purpose of advertising the many resorts on the line. This department has been placed in charge of Advertising Agent Hayden, who came from Boston with Mr. Burt last year.

OFFICIALLY ACCEPTED.

Second Lieutenant J. P. Mosher, of Company K, Has Resigned—Was Asked to Reconsider It.

It will be with regret that the members of Company K will learn of the resignation of Second Lieutenant John P Mosher, which was officially accepted yesterday by Adj.-Gen. Oliphant. For some time past Mr. Mosher has been considering the move and he was asked by the State officials to reconsider his resignation. This he did, after which he decided to withdraw from the company.

Mr Mosher does this reluctantly, but on account of his many business cares he is compelled to give up his commission in the company. It will probably be several days before his successor is chosen. There are two or three candidates for the position including R. M. Clark, Harry Kitchell, Dr. P. B. Cregar and Albert Littell.

GONE TO GRAND LODGE.

Representatives of Columbia and Central Lodges at Trenton Today.

Local representatives of Columbia and Central Lodges, A. O. U. W., went to Trenton today to attend the adjourned session of the Grand Lodge. At this time the much-disputed question of the classified assessment will come up and be definitely decided. Columbia Lodge will be represented by Henry Leifke and Henry Nitschwitz, while Edward Mosher, Charles H. Randolph and George A. Blythe will represent Central Lodge. Grand Master Workman V. W. Nash left yesterday for Trenton.

Live Wire Just Missed Him.

The trolley wire on the main line, between Dunellen and Plainfield, snapped in twain about fifty yards on this side of the Dunellen terminus at 8 o'clock this morning. John Kastel, of New Market, who was on his way to the city with a load of vegetables, narrowly missed being struck by the falling wires.

TWO BIG BASEBALL GAMES

CITY HIGH SCHOOL PLAYS ITS OLD RIVALS OF RUTGERS TOMORROW.

Season to Close With the Game at Elizabeth With the Pingry Boys' Crack Nine.

Tomorrow the Plainfield High School nine will go to New Brunswick to try conclusions with the Rutgers Preparatory School team. This game is looked upon as one of the important contests of the season and the Rutgers boys have been putting in some lively practice of late. The High School players have not been idle, as they are anxious to defeat their rivals, and make no break in their long string of victories. So far this season they have defeated every team they met, and it is expected they will repeat the trick at New Brunswick tomorrow. It begins to appear as if the baseball artists of Plainfield High School might finish the season without meeting a Waterloo.

Tuesday, June 10, they will play the last game of the season with Pingry School at Elizabeth. The tenth is commencement day at Pingry and the baseballists of that institution are anxious to close the year and wipe out the memory of a defeat already administered by Plainfield by whipping their former conquerors. Pingry claims the scholastic championship, but not until June 10 will their title become clear, or their claim prove a dream born of a wish.

Special cars will be chartered for the Elizabeth game from Plainfield, and a goodly contingent will accompany the locals to cheer them to victory.

REV. MR. RODMAN'S CAREER

SKETCH OF LIFE OF GRACE CHURCH'S RETIRING RECTOR,

Was Born in New York and Educated at Columbia—An Honorable Career.

The resignation of Rev. Erskine M. Rodman, which was noted yesterday, is the culmination of a long, an active and honorable career in the ministry.

Rev. Mr. Rodman was born in the city of New York in 1830. He made his classical studies at Columbia College, having entered that institution in 1846, and was graduated bachelor of arts four years later. His theological studies were immediately begun in the Alexandrian Seminary of Virginia, and after completing the regular theological course, he was duly ordained to the ministry. Shortly after his ordination he was chosen rector of Christ church, Norfolk, Va., and remained there for a period of seven years. Subsequently he became rector of St. Peter's church, Peekskill, N. Y., and just previous to his acceptance of the rectorship of Grace church, Plainfield, ably filled the position of associate secretary of the Board of Managers of the church missionary society.

It was March 1, 1870, that he entered on his active duties in this city. Two years later he was chosen dean. The prosperous condition of Grace church today stands as a living monument to the energy and ability of the reverend gentleman who has been its guiding star for the past thirty-two years.

During his career Rev. Mr. Rodman has been honored in various ways. In 1852, Columbia University made him an honorary M. A. of that institution, and, in 1886, he was chosen a delegate to the general convention of the Episcopal church in Chicago.

Return to Former Method.

After due consideration it has been deemed advisable for the city missionaries, Mr. and Mrs. E. P. Taylor, to continue their work under their former method, supported by voluntary contributions. While the ministers are interested and commend the work, only four churchos contribute to their support.

To Repeat "Emancipation."

The quartette choir of the First Presbyterian church will repeat the musical work, "Emancipation," by the late Dr. Maltbie Babcock, at the service Sunday evening.

At Rescue Mission.

Rev. J. H. Cleaver, of Bound Brook, had charge of the Rescue Mission meeting in the First Church of Christ Sunday. He delivered a most interesting address.

Missionary Service.

The regular missionary service will be held at the First Presbyterian church tomorrow evening. Rev. C. E. Herring will be in charge.

FRATERNAL ORDERS OF STATE WILL UNITE

Plans for Forming a State Fraternal Congress in New Jersey This Year.

HOW IT WILL WORK.

NATIONAL ORGANIZATION HAS MET WITH MUCH SUCCESS.

Will Bring Various Orders, Which Really Have the Same General Object, Together—The State Has Nearly Every Chartered Order.

Plans are making, according to the Newark News, to call a meeting of representatives of the fraternal orders having lodges in this State, for the purpose of forming a State branch of the National Fraternal Congress, which has been very successful in bringing the several orders closer together in matters of common interest and also in the movement to establish uniform rates of assessments. The national body has been in existence for six years, during which time it has done much good work. It was considered an experiment at the time of its formation, but it is now known as a potent factor in the work of enlarging the field of operations for fraternal orders in this country.

To aid the national organization in its work, it was decided three years ago to form a State congress in each State in which a sufficient number of orders were represented. In the matter of representation, New Jersey will rank with any State in the country, for there is scarcely an order chartered but is known in this State and has branches here. There are several with a State membership roll of over 20,000 and five have had their origin in this State.

There are interests common to all fraternal orders. All may differ on certain points and the laws of one may conflict with the laws of another; but as every order exists to benefit mankind and to provide relief for the suffering, or for the dependents of its members, in case of death, it is believed to be possible to bring all these organizations together to work for the common good. Some orders may exist simply for the social features offered by the lodge system, but the majority offer some system of sick benefits or insurance as an inducement to candidates to seek membership.

A glance over the laws of many of the orders will show provisions which are effective so long as no contest is made as to their legality, but when reviewed by the courts in cases brought by members or beneficiaries of deceased members, they are declared at variance with the rights of individuals, or in conflict with other sections of the same code of laws. Adverse decisions have caused many orders to change sections of their laws, for a more perfect and more nearly incontestible code. Those who believe in national body hold that it is unpleasant for an order to be compelled to thus change its laws and that it is better to have the right kind of laws and thus avoid contests before the courts. A conference of representatives of all the orders, they maintain, would result in an interchange of views; the examination of laws to see wherein they are defective, and the application of court rulings to all codes for the purpose of making them conform thereto. In this way a State Fraternal Congress would be the means of accomplishing much good.

In many cases, local lodge bylaws are a source of much trouble in that they are not clear, and may be construed in different ways. Uniform laws and bylaws would be a benefit to all lodges existing to accomplish the same work.

It is understood that the powers of the congress would not extend to the right to enact compulsory legislation. Laws would be discussed with the object in view of determining what would be good for the largest number of members, but the enactment of such changes would have to be by the orders or lodges themselves. The congress would merely act in an advisory capacity. The discussion of a subject would be from every standpoint to bring out the views of the representatives, and, in this, the work of each annual session would be educational.

Many of the Western States have State branches of the national congress, and the work accomplished by these bodies demonstrates their worth to the fraternal order system in any State. A nominal fee would have to be charged for admission. The cost of membership would probably be determined by the number of members each order had, and in this proportion the orders would be entitled to representation The plan in other States is to meet annually, with each order holding membership paying the expenses of its representatives. In New Jersey, where the distance to travel would not be great, this item of expense would not be very heavy.

According to the views of those interested in the movement, the journal of each session would be an interesting and instructive document. The statistics contained would show the relative strength of each order holding membership, and what each had accomplished for any given period. These statistics could be made elaborate enough to meet the views of all who like to read such reports, and the more complete, the more instructive they would be.

A circular is in preparation to be sent to the secretary of each State body in New Jersey. It is desired that these circulars be considered by the State boards of officers of the orders addressed, in the hope that further steps may be taken to call a meeting at some central point for the purpose of considering the matter. If sufficient encouragement is offered, a communication will be addressed to each order in the State, asking at its next State session representatives be selected to attend a meeting to organize the congress.

LARGE MONUMENT.

Shipped by L. L. Manning to be Placed in Cemetery at Willseyville, Tioga County, N. Y.

A very handsome monument to be placed in the family plot of John Sarson in White cemetery, Willseyville, Tioga county, New York, was sent to that place a few days ago by L. L. Manning, of West Front street. Mr. Manning's son, Walter Manning, left for Willseyville last evening for the purpose of supervising the erection of it.

The monument was purchased last summer while Charles F. Sarson, of the Cortland Standard, Cortland, N. Y., was on a visit to his brother, S. T. Sarson, of 201 Watchung avenue, this city. They were impressed with the beauty and impressiveness of the monument and made arrangements at once for its transportation to Willseyville.

It is sarcophagus of Quincy granite and is seven feet high. It has two bases with a cap, and weighs twelve tons. A fine ivy leaf is carved on the four sides and on the second base, in relief, is carved the name "Sarson," with the inscriptions on the centre. On the cap is engraved the family monogram. Accompanying the monument are five markers and when complete it will be one of the most attractive yet turned out by Mr. Manning.

JUNIORS INVITED.

Turned Out to Meeting of the Older Endeavorers of Trinity Reformed Church Last Evening.

The Christian Endeavor Society of Trinity Reformed church invited the Junior Endeavorers to meet with them last evening. The little folks turned out in goodly numbers and helped to make the meeting one of considerable interest. Freddy Smith, president of the Junior Society, led the meeting, with the assistance of the superintendent, Mrs. J. M. Tier, who related in an interesting and impressive style the story of the life of Samuel.

After the introductory exercises the meeting was thrown open and many Juniors took part by reading selections on the subject. Altogether the meeting was a very profitable one for all.

Something Novel Promised.

The shoe social to be held in Trinity Reformed church this evening, under the auspices of the Ladies' Christian Work Society of the church, will be a novel affair. An offering will be acceptable according to the size shoe worn, the price being two cents an inch. Several pleasant features are promised, and a good time is in store for all who attend.

Paid Their Fare Home.

Emma and May Kearns, aged twenty-four and twenty-two years, walking from New York to Mauch Chunk, Pa., applied at the police station, Sunday night for a lodging. Patrolman Langer went among the the night shift and collected enough to pay the fare of both girls to their destination.

One More for Columbia.

At the meeting of Columbia Lodge, A. O. U. W., Friday, one application was received. There will be initiation at the next meeting.

Entertained Classes.

Mr. and Mrs. George A. Chapman, of Stelle avenue, entertained their Sunday-school classes at their home Saturday evening.

SEVEN WILLS FILED; LAST WAS PROBATED

Twelfth Will Admitted to Probate After Contest by Old Perrine's Relatives.

FOR A SMALL ESTATE.

LAST WILL GIVES IT TO THE GIRL WHO KEPT HOUSE FOR HIM.

Although His Estate Was Small, Farmer Perrine Had a Mania For Making Wills—Made a Dozen in All.

(Special to The Daily Press.)

Somerville, May 19—The document purporting to be the last will of Jonathan Perrine was, on Friday in the Orphans' Court here, admitted to probate by Judge Schenck. And thus ends one of the most remarkable will cases in history.

Jonathan Perrine was an eccentric farmer of Warren township, who owned an estate of only about $2,500. Nevertheless, he had a sort of mania for will making, and it has, on good authority, been learned that during his lifetime he made no less than twelve different wills. Be that as itmay, after he died seven of his wills were sent to the Surrogate for probate.

And then the dispute over the property arose. The last will left all of it to Kate Rust, a girl who had kept house for the old man ever since his wife died. He left no children, but his sisters, Mrs. Louise Nightingale, of Boston, and Mrs. Frances Krymer, of Brooklyn, disputed the right of the housekeeper to the money, and filed a caveat. Horace Codington was their counsel and Bartine & Beekman looked after the interests of Miss Rust.

The caveators rested their case without submitting any evidence other than that of the subscribing witnessess. They did not try to show under influence or lack of testamentary capacity, which virtually showed that they gave up the fight and the aforementioned result followed.

TOOK FRIGHT AT BICYCLE.

Theodore Fingerhuth's Horse Ran Away and Smashed Wagon.

A horse, belonging to Theodore Fingerhuth, of Watchung, standing in front of French's wholesale grocery store on Somerset street yesterday, took fright at a passing bicycle, and started down the street at breakneck speed.

After the front wheels of the wagon had been smashed the animal was captured well on the way to the mountains.

Changed Positions.

Harvey L. Dayton has resigned his position in the men's furninshing goods department at Woodhull & Martin's store, and returned to his trade as pattern maker at the Pond Machine Tool Works. His place at the store will be taken by Charles Suhr, who formerly worked there.

Defendant Didn't Appear.

In the city court, this morning, the case of Mamie Kleiner against John Scott, for assault, was continued indefinitely. The defendant failed to appear, having been released yesterday in his own recognizance. He will be taken into custody when seen.

To Appoint Dance Committees.

A special business meeting of the I. C. T. Club has been called for this evening, when the different committees for Thursday's dance will be appointed. Every member is requested to be presndt.

New Equipment.

Trinity Commandery, No. 17, K.T., has selected its paraphernalia to replace that destroyed by tho Babcock fire. It is very elaborate and has been pronounced the finest in the State.

Bishop Is Coming.

Bishop O'Connor, of Newark, will visit St. Mary's church tomorrow morning to administer confirmation to a class of 160 children. The exercises will commence at 10:30 o'clock.

Going by Stage.

The women of the First Presbyterian church will hold their sewing meeting, Thursday, at the home of Mrs. DeForest at Mt. Pleasant. They will make the trip in a stage.

FOUND GRAVE JUST IN TIME

ANOTHER BODY WAS JUST TO BE INTERRED THERE.

Strange Experience of a Western Man Who Went to View His Grandmother's Grave.

By a strange coincidence, Edward Runyon, of David City, Neb., found the grave of his maternal grandmother in Evergreen cemetery, this city, just as preparations were being made to inter another body there. Knowing that all the owners of the plot lived in the far west and supposing that they would never use it again, some distant connections by marriage had prepared to bury one of their number there.

Edward Runyon was the son of the late Edward S. Runyon, a brother of T. I. Runyon, of West Fourth street, A. M. Runyon, of Madison avenue, and Mrs. Charles Stimpson, of West Sixth street, who left Plainfield thirty-five years ago for Illinois. Edward S. Runyon's wife was the daughter of the late Peter Moore, of this city, by his first wife. It was the latter's grave which was in Evergreen cemetery and which Edward Runyon hunted up at the request of his mother.

Saturday, he visited Evergreen cemetery, having found the location of the plot. Much to his surprise, he found men at work measuring for a new grave there. Inquiry brought out the facts and Mr. Runyon put a summary stop to proceedings. Yesterday, Mr. Runyon left Plainfield, accompanied by his wife, after visiting his uncles and aunt, whom he had met for the first time.

BAAL, MAMMON AND MOLOCH

REV. JOHN M'MURRAY TOLD HOW THEY ARE WORSHIPPED TODAY.

In First of His Series on the Ten Commandments at the Monroe Avenue M. E. Church.

Taking as his text, "Thou Shalt have no other Gods but Me," Rev. John McMurray, of the Monroe Avenue church, delivered Sunday evening, the first of a series of sermons on the Ten Commandments. The Biblical idols, Baal, Mammon and Moloch, he declared, were knelt before by society in general today.

Women of this age, he declared, give their daughters in marriage to lecherous brutes, regardless of their happiness, simply for the social prestige and worthless title it brings with them. This he likened to the custom of the ancient Hebrews of throwing children into Moloch's fiery mouth.

Mammon was worshipped in the ancient days, but at present he is idolized by thousands of business men who hold the struggle for gold paramount. In their greed for gain all else is forgotten and they become sullen and hollow eyed worshippers of the moneyed god.

A man who gives way to his animal desires, Mr. McMurray said, is but a follower of Baal who represented just such indulgences.

EVILS OF PROCRASTINATION.

Address of Fred E. Taylor to the Knights of the Golden Eagle.

More than fifty members of Freedom Castle, Knights of the Golden Eagle, attended the Y.M. C. A. meeting in a body Sunday afternoon. The meeting was addressed by Fred E. Taylor, an interesting speaker at men's gatherings. He took for his topic the words from Exodus: "And he said tomorrow," referring to the answer given to Moses by Pharoah when Moses asked when the people would be released from bondage. The speaker dwelt on the evils of procrastination.

Prompt Payment.

D. W. Littell, treasurer of Plainfield Council, No. 711, Royal Arcanum, has just received a check from E. A. Skinner, supreme treasurer, for $3,000 in payment of claim of their late brother, H. N. Spencer, just three days from date of mailing proof of claim and thirteen days from date of death.

About the Babcock Building.

T. H. Laury, the contractor, has been engaged to tear down and rebuild portions of the Babcock building, preparatory to the work of rebuilding the structure. A New York architect has the plans.

Went to Trenton.

Forty members of the local lodge Knights of Columbus, went to Trenton Sunday to attend a large meeting of the order.

THIRTY YEARS PASSED FOR T. A. B. SOCIETY

Anniversary of the Organization Was Duly Celebrated Last Evening.

HELD AT T. A. B. HALL.

AFTER AN ENTERTAINMENT, DANCING OCCUPIED REMAINDER OF EVENING.

President Michael O'Keefe Made the Address of Welcome—Programme Followed—Now a Flourishing Society.

Just thirty years ago last evening, the T. A. B. society, one of the most important organizations affiliated with St. Mary's church, began its career. The three decades have been one continuous round of advancement and success. The anniversary last night was marked by a public reception, given by the society in its hall on West Fourth street. Many invitations had been issued and they were responded to with such a will that the building was filled to the doors.

The fore part of the evening was devoted to an entertainment which followed an address of welcome made by Michael O'Keefe, president of the society. As rendered the programme consisted of vocal selections by Miss Irene Galvin, addresses by Revs. Father Egan and Miller, German comicalities by John H. Carney and selections by Suhr's full orchestra.

It is conclusion the room was cleared and dancing became the feature. The dancers held the floor until an early hour this morning, the only pause being at midnight when a collation was served.

The committee in charge of the affair consisted of Edward Lynch, chairman, Clinton Shannon, Michael O'Keefe, James J. Kane, Patrick Melvin, Clarence A. Waldron, David Doyle, Richard Birmingham, Michael R. Flynn, Thomas Carty, J. C. Carney and Bernard Clark.

CADET ORDERS.

Alden Moore Made Adjutant and New Orders Regarding the Appointment of Officers.

Under the caption "Orders No 13" the following information has been issued from headquarters City High School Battalion, for the guidance of members of the battalion:

1. The remaining vacancies in the rank of captain will not be filled until fall.

2. Examinations for three lieutenants, to be attached to companies, open to non-commissioned staff, first sergeants and sergeants appointed prior to January 1, 1902, will be held at the usual place Saturday morning, May 24, at 8:30 o'clock.

3. Hereafter, in addition to technical knowledge, the award of warrants and commissions will be largely influenced by ability to command respect, bearing and punctuality.

4. Lieutenant Moore is hereby detailed as adjutant vice Fosgate resigned.

By order of S. W. Bridgeman, major;
A. E. Moore, first lieutenant and adjutant; J. D Macnab. commandant.

FOUR MONTHS FOR CATLIN.

Was Charged With Stealing Horse and Wagon in North Plainfield.

(Special to The Daily Press.)

Somerville, May 20—In the criminal courts here, Friday, Judge Schenck sentenced Robert Catlin, of North Plainfield, to four months' imprisonment in the county jail. Catlin took a horse and wagon, which he afterwards tried to sell.

Sebastian Frascella, of Bound Brook, illegal selling, was fined $50. Mouas Stavish, of the same place, Sunday selling, was fined $100.

The remainder of sentences will be imposed Friday.

Bicycle Riders Fined.

(Special to The Daily Press.)

Scotch Plains, May 20—An Italian bicycle rider from Westfield was arrested for not having a light, one week ago yesterday. He left his wheel for security but has not yet returned. Saturday night another Westfielder was arrested and was immediately fined $3.

Collided With Trolley Car.

John G. Stevens, the blacksmith, residing on Watchung avenue, collided with a trolley car on the outskirts of Newark, Sunday afternoon, while he was riding his wheel. At Muhlenberg Hospital an examination disclosed a fracture of the upper bone of the arm.

SCHOLARSHIPS AT RUTGERS

COMPETITIVE EXAMINATIONS FOR FREE SCHOLARSHIPS.

Will be Held at the County Seat June 7—They Have Been Very Successful.

The thirteenth annual competitive examination under the free scholarship law of 1890, for admission to the State College, at New Brunswick, will be held Saturday, June 7, by the county and city superintendents of schools, in the courthouse of each county. Under the operation of this law students best fitted to enjoy its benefits have been received by competitive examination; sixty-seven per centum of candidates have been admitted. Further, of the twenty-four class honors awarded during the continuation of this law, seventeen have been taken by students on these scholarships.

Free tuition gives opportunity to bright but poor youth, many of whom otherwise would not develop talents which in public or private life benefit the State. Fifty-eight per centum of students admitted have come directly from the public schools; others in large part trained in them.

Some years ago inquiry was made of the State superintendent, and of the county and city superintendents of public schools as to the benefits of this law. Answers received, strongly with unanimity, approved of the law; chiefly because of the opportunity afforded to poor, ambitious, bright students, and secondly because it provided through the college requirements a uniform standard of excellence in the high schools, particularly in the country villages, towns and smaller cities.

WHAT OTHERS SAY.

Clippings From Other Newspapers Which May be of Interest to Plainfield and Its Citizens.

Having no option under the law, Governor Murphy has called a special election in the old Fourth Congressional District to choose a sucessor to the late Representative Salmon. The four counties that will join in the election are Hunterdon, Warren, Sussex and Morris, making it practically certain that Mr. Salmon's successor will be a Democrat. Two candidates, State Senator Martin, of Sussex, and Samuel Brant, of Morris, are already in the field, and it would not be surprising if a dozen more were to materialize in the next few days. The old Fourth has been so cut up and parcelled out among other districts that it will no longer afford good hunting ground for ambitious Democrats. The opportunity offered by the death of Mr. Salmon is probably the last chance for a good many aspiring statesmen in the four counties and a scramble for the nomination may be expected.

Morris puts forth a claim for the honor on the ground that Mr. Salmon was elected from that county, and consequently it is entitled to fill the unexpired term. But as Morris is the only Republican county of the four its claims are not likely to receive a great deal of consideration. Sussex is already to the fore with Senator Martin, and it is rumored that Hunterdon will present ex-Senator Kuhl, while some Warren Democrats think that it might be well to send Johnston Cornish to Congress again, instead of re-electing him to the State Senate.

Meanwhile there is a wonderful dearth of Republicans anxious to lead the forlorn hope on July 1.—Newark News.

—There will be a regular business meeting tomorrow evening at the First Baptist church.

—"Jesus the Living Bread," will be the topic of the Christian Endeavor Society meeting at the First Baptist church Friday evening.

Wants Others to Know.

"I have used DeWitt's Little Early Risers for constipation and torpid liver and they are all right. I am glad to indorse them for I think when we find a good thing we ought to let others know it," writes Alfred Heinze, Quincy, Ill. They never gripe or distress. Sure, safe pills. L. W. Randolph.

WHAT PEOPLE ARE DOING

SOME BRIEF PARAGRAPHS OF A PERSONAL NATURE.

TEA TABLE TALK.

Short Sketches That Are Not Always News, But Just as Interesting.

There is some talk among railroad officials regarding the new style engines recently placed in service on the New Jersey Central. It seems that it is difficult for engineers of heavy advoidupois to get into the cabs because the boilers encroach on the space usually occupied by the engineer. There is some talk that only men of medium size will be employed to run this style of engine. A few days ago one engineer was unable to get into the cab.

a package — which makes two large or three small pies.

"None Such" is *condensed* into air-tight, water-proof cartons. Is clean, handy, takes up but little room on the shelf, and keeps forever.

Warning.

"None Such" must not be confused with cheap imitations or so-called "wet" mince meat sold from open pails in cheap stores. When you buy "wet" mince meat you pay a big price for water, which you can get cheaper at home to mix with None Such Mince Meat, which is almost dry. Wet mince meat is not tempting to look at—no one ever buys it after one trial of "None Such."

WORK OF CONGRESS.

Senator Dolliver on Philippine Bill. Naval Appropriation Passed.

WASHINGTON, May 20.—Only a brief time was devoted by the senate yesterday to consideration of the Philippine government bill. Mr. Dolliver (Ia.) supported the bill, which he said was one of the most important pieces of constructive legislation presented since the civil war. He arraigned the Democratic minority for its opposition to the measure. He insisted that the Philippine insurrection as a military proposition was a thing of the past and declared that in no circumstances would the United States relinquish the Philippines.

Before adjournment the house passed the naval appropriation bill. The feature of the debate was on the amendment offered by Mr. Roberts (Mass.) providing that three of the ships provided for in the bill, a battleship, cruiser and a gunboat, shall be built in government yards. Mr. Adams (Pa.) made a point of order against the amendment, which Mr. Sherman sustained, but on an appeal by Mr. Roberts the chair was overruled, and the amendment was agreed to. Under a suspension of the rules the bill for eight hour work on all government contracts was passed, also a bill authorizing the construction of a national sanitarium for disabled soldiers at Hot Springs, S. D.

ROOSEVELT ON MISSIONS.

President Opens Presbyterian Centennial Celebration In New York.

NEW YORK, May 20.—President Roosevelt addressed a Presbyterian meeting last night in Carnegie hall in celebration of a century of home mission work.

He arrived in the city at 6 o'clock and was met at the station by a committee from the board of home missions consisting of Robert C. Ogden and General A. Noel Blakeman.

He returned to Washington on the midnight train. Carnegie hall was crowded to its utmost capacity, and overflow meetings were held.

THE BIG COAL STRIKE

Mitchell Opens Headquarters at Wilkesbarre.

SITUATION REMAINS UNCHANGED.

Action May Be Taken to Stop Shipments of Soft Coal Into Anthracite Territory—Miners Leaving the Coal Region.

WILKESBARRE, Pa., May 20.—President John Mitchell of the United Mine Workers of America arrived here shortly after 9 o'clock last night and established strike headquarters at the Hotel Hart. He was met at the station by several of the local leaders, who held a brief conference with him. The national president spent a quiet though busy day in his quarters at Hazleton. He had no visitors and said he had no news to give out. He added, however, that as far as the miners' side of the controversy was concerned the situation had not changed in the least.

On the run up from Hazleton Mr. Mitchell's attention was called to the fact that the city of Philadelphia had contracted for a supply of bituminous coal to take the place of the anthracite which had been cut off by the railroad companies furnishing it. In reply to a question as to whether the mine workers would attempt to prevent the shipment of soft coal to places where hard coal is used he said, "Considering the proposition in a general way, I will say that we do not desire to make any city a victim or have any person suffer because of our quarrel with the coal companies."

He was pressed for a more explicit statement, but he refused to go into it any deeper, except that it was a matter which would have to be settled by the three executive boards of the anthracite fields.

They will meet here on Wednesday.

Judging by the actions of the union during the last strike when efforts were made to stop the shipment of soft coal into anthracite territory, it is not unlikely that the miners may take similar action within the next few days.

Two carloads of foreigners have left the Hazleton region. Most of them were booked for New York, whence they will sail for their native lands. Some of the foreigners will seek work in the bituminous region.

West Virginia Miners to Meet.

HUNTINGTON, W. Va., May 20.—A meeting of the West Virginia miners and operators has been called for this city next Friday. At this meeting it will be determined whether there will be a general strike in West Virginia.

Settled by Arbitration.

DETROIT, May 20.—A settlement of the trouble between the Detroit United railway and its employees over the wages to be paid conductors and motormen has been reached. They will receive 23½ cents per hour, an increase of 2½ cents. Acting as sole arbitrator, with the consent of both sides, President James B. Angell of the University of Michigan yesterday afternoon fixed 23½ cents as the wage to be paid the men. The motormen and conductors had demanded an increase from 21 cents per hour, the present wage, to 25 cents. This the Detroit United refused, but it presented a counter offer to the men of 22½ cents.

Adder's First Trial Successful.

WASHINGTON, May 20.—The submarine boat Adder, the first of her type about ready for the government trials, made her initial run yesterday on a course opposite Mount Vernon. She went over the course several times, both on the surface and submerged. This is the first time the Adder type of submarine boat has been operated in fresh water. The longest of the submerged runs was about a mile and a half, and several of them were fully a mile. A number of short or porpoise dives were made. The runs were considered successful.

French Guests Have Quiet Day.

NEW YORK, May 20.—The Countess de Rochambeau was visited yesterday by a delegation from the Daughters of the American Revolution, who presented to her a bunch of American Beauty roses in the state apartments of the Waldorf-Astoria. That was one incident in a quiet day spent by the party of distinguished Frenchmen now in this city on their way to the unveiling of the statue of Rochambeau at Washington.

To Save Andover.

BOSTON, May 20.—The alumni of Andover Theological seminary raised their voices in opposition to the proposed removal of the institution from Andover in a mass meeting held yesterday and passed resolutions pledging support to it and appointed a committee to co-operate with the trustees in securing the prosperity and growth of the seminary. The mass meeting was held at Congregational House.

Cloudburst In Iowa.

DES MOINES, May 20.—A cloudburst at Waterloo practically ruined every house on the tract known as Dry Run in Waterloo. Fifty buildings were damaged, and several were washed away. A number of thrilling rescues were made with boats, but no loss of life occurred. The Wapsipinicon river overran its banks, doing much damage.

Three Holidays For Employees.

NEW YORK, May 20.—The silk merchants in the central dry goods district of New York have determined to close their places of business from Thursday evening, May 29, to Monday morning, June 2, to give their employees the benefit of three consecutive days as a holiday.

ALL DEAD SAVE ONE

Terrible Explosion of Gas In Tennessee Mine.

MORE THAN 200 MINERS PERISHED.

The Fraterville Mine at Coal Creek Run the Scene of One of the Worst Disasters in Mining History.

KNOXVILLE, Tenn., May 20.—Information just received from Coal Creek, Tenn., where the terrible explosion of gas occurred, says the rescue party has entered the Fraterville mine. Every man within it is dead. The list of dead will reach between 175 and 225. The work of recovering the bodies has begun.

Out of the large number of men and boys who went to work yesterday morning developments show that only one is alive, and he is so badly injured that he cannot live. This man was William Morgan, an aged Englishman, who was a road man in the mine and was blown out of the entrance by the force of the explosion. One hundred and seventy-five miners were checked in for work by the mine boss. In addition to these were boys who acted as helpers and drivers, road men and others to the number of perhaps fifty.

The men had not been at work long before the terrible explosion occurred. There was a fearful roar, and then flames shot from the entrance and the air shafts. News of the disaster spread like wildfire, but as soon as possible two rescuing parties were started in, one at the main entrance, the other through Thistle mine, which adjoins and in which no men were at work. The Thistle party was unable to make any headway, as the gas stifled the workers. The Fraterville party went fully two miles under the earth, until a heavy fall of slate was encountered. At this barrier men worked like demons, hoping against hope that those beyond might be safe.

All day long the rescuers toiled at the slate obstruction, and not until 5 o'clock in the evening did they force an entrance through it. Up to that hour only five dead bodies had been recovered, and hope was still high that many within were safe. The hopes of the living were doomed, however, for when once the rescuers could enter and proceed they walked through a continuous tomb of death. There was not a sign of life. Every man had perished, they believed, although all the rooms have not as yet been entered.

The Fraterville mine is located in Anderson county, Tenn. It is owned by the Coal Creek Coal company, of which Major E. C. Camp of this city is president and general manager. This is the oldest mine in the Coal Creek district, having been opened in 1870. A large area has been developed and worked. The Coal Creek coal seam is struck by this mine, the hard and tenacious top averaging four and one-half feet in thickness. The Fraterville mine has always been considered one of the safest mines in the Coal Creek belt.

Governor Stone Addresses Baptists.

HARRISBURG, Pa., May 20.—Governor Stone addressed the German Baptists in the Auditorium at Paxtang Park yesterday afternoon immediately before the regular religious service. The building, which seats 6,000 persons, was filled entirely, and thousands of people on the outside pressed around the sides to listen to the executive. He complimented the brethren upon the tremendous convention which they have been conducting with such marked order and success. He referred to the fact that many of the German Baptists at the convention who have come from all parts of the country were originally Pennsylvanians, and he extended to them a welcome home.

Ten Inches of Snow.

DENVER, May 20.—Snow and rain followed the cold wave that passed over most of the mountain towns Sunday. At Breckinridge ten inches of snow fell during the night, one of the heaviest storms ever known in May. At Central City there was a fall of six inches and eight at Wortman, while in the vicinity of Cripple Creek a blizzard prevailed, snow covering the mountains two inches deep. There was a light fall of snow at Telluride, accompanied by a hard gale.

To Attend Monument Unveiling.

WASHINGTON, May 20. — By authority of the secretary of war the commanding officer at Fort Sheridan, Ill., will send two companies of the Twentieth infantry to Muskegon, Mich., on May 30 to participate in the ceremonies of the unveiling of a statue to the late President McKinley.

President Going to Boston.

BOSTON, May 20.—President Roosevelt, who is expected at Harvard university during commencement week, has been tendered and has accepted an invitation from the International League of Press Clubs to attend its annual convention, which will be held here the last week in June.

Tobacco Workers Get a Raise.

NEW YORK, May 20.—The P. Lorillard company has advanced the wages of all employees under the grade of foreman 10 per cent. Two thousand get the benefit of the increase, which has been authorized by the directors of the Continental Tobacco company.

Crowninshield at Naples.

WASHINGTON, May 20.—The navy department has received a cablegram announcing that Rear Admiral Crowninshield, aboard his flagship, the Illinois, has arrived at Naples and hoisted his flag as commander in chief of the European station.

BACK TO QUEBEC.

Gaynor and Greene Taken to Montreal on Habeas Corpus Writ.

MONTREAL, May 20.—Colonel Gaynor and Captain Greene have won the first skirmish in the fight against extradition to the United States, and again the two men are in the old city of Quebec, where they believe proceedings to force them to return to the United States to answer the charge of defrauding the United States government can be successfully fought.

Last night at 10 o'clock a special train on the Canadian Pacific arrived from Quebec with High Constable Gale and assistants on board armed with a writ of habeas corpus. They got into a cab and drove to the Montreal jail, to which institution Gaynor and Greene had been committed by Judge Lafontaine during the afternoon. The stay of the high constable in the jail was of very short duration. Evidently Governor Vallee and his guests awaited their coming, for in a short time Gale reappeared, accompanied by Governor Vallee and Messrs. Gaynor and Greene. A quick drive was made to the Place Viger station, and an hour after the arrival of the special train it departed with the much sought fugitives from the American courts on board.

Half an hour later the regular train for Quebec departed, having on board Donald MacMaster and Chief Carpenter. They went to answer the writ of habeas corpus served on Carpenter. Incidentally Mr. MacMaster will use all his efforts to see that Governor Vallee returns his prisoners to the Montreal jail. The question as to whether he shall do so or not depends entirely upon the legality of the arrest. The case will come up in Quebec today.

GALA DAY IN MADRID.

King Alfonso Reviews Grand Military Pageant.

MADRID, May 20.—The entire population of Madrid seemed to have assembled yesterday along the broad and leafy Paseo del Prado and Paseo de Recoletos, the grand boulevards of Madrid, there to witness the great military review.

The weather was beautiful. Grand stands had been erected at a central point on the line of march, and from these the queen mother, members of the royal family, the diplomats and members of the cortes witnessed the march past of 14,000 soldiers.

King Alfonso, in the uniform of a captain general and mounted upon a handsome bay charger, left the palace at 4 o'clock in the afternoon. He was accompanied by General Weyler, the Duke of Connaught, the representative of King Edward at the ceremonies attendant on the attaining by the king of his majority; the Grand Duke Vladimir, the Russian representative, and other princes and a suit of staff officers.

His majesty rode to the Paseo de Recoletos, where the troops were drawn up. As the king passed down the line the soldiers greeted him with hearty cheering. He then took up a position at the side of the grand stand where his mother was seated. The march past began at once and lasted for an hour and a half. All the branches of the Spanish army were included in the procession of the grand review.

On his way back to the palace King Alfonso was greeted with hearty shouts from the people of "Viva el rey!" ("Long live the king!")

Professor Commits Suicide.

PORTLAND, Or., May 20.—Professor Eugene L. Schaeffer, senior master at Bishop Scott academy, a school conducted under the direction of the Episcopal church, committed suicide by shooting with a revolver. His body was found sitting in a chair in one of the classrooms. Professor Schaeffer was fifty years of age, of scholarly attainments and had been employed in the academy for ten years.

Lieutenant Day Dead.

VINITA, I. T., May 20.—Word has been received here of the death from consumption of Lieutenant R. C. Day at San Isidro, Luzon. Day was during the Cuban campaign captain of Troop L, rough riders, and was promoted by President Roosevelt for gallantry at San Juan Hill. He was treasurer of Nueva Ecija province when he died. His family lives at Colorado Springs.

The Flag Must Go Up.

ALBANY, N. Y., May 20.—Superintendent of Public Instruction Charles R. Skinner has issued an order directing the trustee of School District 2, Chautauqua county, and Districts 8 and 17, Steuben county, to comply with the law requiring the American flag to be floated on or near all school buildings in the state, and until the order is complied with their share of public money will be withheld.

Internal Revenue.

WASHINGTON, May 20.—The monthly report of the collections of internal revenue shows that for the month of April, 1902, the total collections were $21,937,699, a decrease as compared with April, 1901, of $5,003,880. For the ten months of the current fiscal year the receipts aggregated $226,206,979, a decrease from last year's period of $27,865,509.

Descendant of Paul Revere Dead.

ORANGE, N. J., May 20.—Mrs. Susan Lazelle Revere Sampson, widow of the late William S. Sampson, formerly of Bridgewater, Mass., is dead at the home of her sister, Mrs. Staats S. Morris, in East Orange. She was eighty-five years of age and a great-granddaughter of Paul Revere, who gave the alarm at Lexington and Concord.

THE TEXAS CYCLONE.

One Hundred and Sixty Dead and a Hundred Injured.

DALLAS, Tex., May 20.—The latest reports from Goliad by telephone are to the effect that 160 are dead and 100 wounded, the majority negroes, as the result of Sunday's storm. The business section was not touched. The town is now under military rule. The newspaper men on the ground are assisting in the burial of the dead and relieving the injured.

The courthouse and private residences are being utilized to care for the injured and for preparing the dead for burial.

The tornado came from the southeast at 3 o'clock in the afternoon without warning. The wires are badly demoralized, and the details are necessarily slow.

The property damage is heavy, as the first estimate did not take into account the number of houses which were wrecked.

Fully 125 residences were blown to pieces or so badly damaged that they cannot be repaired. With the damage done in the surrounding country, the loss is now estimated at $100,000.

Reports from the country show no lives were lost, though a number of houses were blown to pieces and stock was killed. A list of the injured cannot be obtained, but so far as known only three persons are hurt, none fatally.

VOLCANO STILL VIOLENT.

Mont Pelee Has Another Eruption. Searching For the Dead.

FORT DE FRANCE, Martinique, May 20.—A party from here has gone to St. Pierre on the British cruiser Indefatigable, carrying coffins, for the purpose of recovering the bodies of the family of Thomas T. Prentis, the late United States consul at that place, who were killed in the disaster. The interment of the remains will take place here and will be conducted with military honors. The Indefatigable brought 120 tons of supplies.

There was another eruption from Mont Pelee Sunday. Ashes fell here. The volcano is still violently smoking, and there are no signs of its ceasing its activity.

The United States cruiser Cincinnati and the United States government tug Potomac will be stationed here indefinitely. The Potomac will shortly go to the island of Guadeloupe to bring to this place the furniture, books, etc., of the office of the United States consul there, Louis H. Ayme.

Hawaiian Agriculture.

WASHINGTON, May 20.—The census bureau has issued a report on agriculture in Hawaii which shows that the 2,275 farms enumerated there in 1900 were valued at $60,029,956, of which 6 per cent was in buildings. The value of farm implements and machinery was $11,484,890 and live stock $2,570,142. The total value of farm property, which is the aggregate of the last two figures and the value of farms shows an average agricultural investment per inhabitant of $481. The total value of farm products in 1899 was $22,040,731, an average of $143 for each inhabitant of the islands.

Sultan Kills French Claim.

ROME, May 20.—The sultan of Turkey has issued an irade recognizing the rights of Italy and Germany to protect their Catholic subjects in the east. This action by the sultan is a blow to France's claim to the exclusive right to protect Catholics in the east and ends the prolonged contest over this matter between the powers concerned.

LAST DAY IN CUBA.

Closing Scenes of American Occupation.

MANY EXPRESSIONS OF GRATITUDE.

Final Report of Governor General Wood Submitted—New Government Will Start Out Under Favorable Auspices.

HAVANA, May 20.—The last day of the American occupation was devoted by General Wood and his staff to clearing their desks of official business and to arranging the final details of the evacuation. The palace was fairly besieged all day by importunate persons appealing for some last favor before the curtain drops. There was also a constant stream of callers to say a formal farewell, as the Spanish people are great sticklers in such matters.

Resolutions adopted by many cities of the island expressing gratitude at the American administration of Cuba reached General Wood during the day, and Jose Gomez, the governor of Santa Clara, came personally to present a memorial from the inhabitants of his province filled with expressions of profound gratitude.

There was an exchange of courtesies during the morning between the officials of the palace and the officers of

GOVERNOR GENERAL WOOD.

the two visiting foreign warships, the Italian cruiser Calabria and the British cruiser Psyche. All the shipping in the harbor is dressed.

A number of matters were settled during the day. Most important among these was the appointment of Dr. Carlos Findley as chief health officer of the island. This appointment is subject to ratification by President Elect Palma. Dr. Findley first advanced the theory that yellow fever is spread by mosquitoes, the adoption of which has done so much to rid Cuba of the yellow scourge.

An old Spanish concession for electric lighting, known as the Castaneda concession, which Governor General Wood made operative recently, was revoked by him yesterday. It is understood this action was taken on orders from Washington. This concession covered the lighting by electricity of certain sections of Havana and the maintaining of lights in the lighthouses on the dangerous Colorado reef and the Jew and Governor's keys. These lighthouses have been in course of construction for a year and a half and were accepted yesterday. The maintenance of lights at these points is considered by mariners to be of great importance.

The tributes paid by the Cubans to the honored dead included the placing of wreaths of laurel on the wall near the Punta battery, on the ocean front, before which a score of bearded Cuban cadets were executed by the Spanish volunteers in 1870. Last evening memorial services for Jose Marti were held in all the political clubs here. President Elect Palma and Generals Gomez and Castillo attended the services at the National club.

During the day there was a general distribution of charitable donations to the poor at the city hall.

The number of visitors in Havana is estimated at 15,000, and special trains are being run to the city today.

Final reports show that General Wood will turn over to the republic $567,709 in cash and also $1,308,607 in bonds, against which the current liabilities are charged.

The final figures of the expenditure of insular funds during General Wood's administration, which began Dec. 21, 1899, are $46,159,656.94. During the whole period of the American occupation the amount expended has been $59,753,523.

New Cuban Road Nearly Ready.

NEW YORK, May 20.—Among the passengers who arrived per Ward line steamer Monterey from Havana was Sir William Van Horne, who said he expected that the last spike in the Santa Clara and Santiago railroad would be driven next week. He also said: "We shall have no official celebration of our opening, as I do not believe in such things, but I believe the event will be auspicious and an augury of good for Cuba. We are building a number of branch lines as feeders to our system."

Horses For British Service.

NEW ORLEANS, May 20.—The British steamer Mount Temple has cleared from this port for Cape Town with 1,062 horses for the use of the British military service in South Africa.

THE FIRST CHANCE.

We call attention to the advertisement in another column announcing that a public meeting of the people of North Plainfield will be held in Saengerbund Hall, Thursday evening, at 8 o'clock.

Martin I. Cooley will preside and William L. Saunders, Joseph O. Osgood, Charles A. Reed and others are announced to speak about the advantages of annexation and consolidation.

This is the first opportunity which has been given to the public to hear authoritative statements from men whose names have been most prominently associated with the consolidation movement. It will be noted that these men are qualified to speak of public affairs from experience and the practical standpoint. They know what administration is and what problems the public service involves. They are not amateurs or critics or mugwumps.

They will undoubtedly make a strong showing for consolidation, and the meeting is one of such importance that no man who feels an interest in the affairs of the borough can afford to be absent.

REV. MR. RODMAN'S RESIGNATION.

The news of the resignation of Rev. E. M. Rodman as rector of Grace Episcopal church, while not a complete surprise to many, was yet received with universal regret. It has been known for some time that Rev. Mr. Rodman has been considering such a step. For thirty-two years, he has labored in that parish and much of its present prosperity is due to his efforts. He has now decided that the time has come to let a younger man continue the work which he has carried on so well.

During the three decades that Rev. Mr. Rodman has been in charge of Grace church, he has made many friends in and outside of that parish. There are few, indeed, who do not know him and receive the cheery word of greeting which he always has for his friends. All his friends are unanimous in the desire that he should remain in Plainfield even after he retires from active service.

The Jersey Central Railroad has inaugurated a new time table which shows a number of changes. Much to the general satisfaction of those Plainfielders who go to market in New York early every morning, the 3:37 accommodation train has been put back into service. Those who attend the theatre in New York in the evening and desire to take their time in coming out to Plainfield are well pleased with the fact that the "owl" train has been put on once more. There are a number of minor changes which will affect general traffic but little but which it will be well to bear in mind.

The Daily Press is usually so accurate in its baseball scores that several errors, which appeared in those published yesterday, rather surprised its friends An unfortunate combination of events was responsible for yesterday's errors. Great care will be observed in the future to see that the scores are accurate.

The personel of the four baseball teams, which go to make up the city league, has been announced. Due notice has to be given by any club to make any changes on these lists. These sixty men make up the pick of the amateur talent of Plainfield.

BETTER THAN BEFORE.

Men's Choral Club Will Do Fine Work at the Second Concert.

The concert of the Men's Choral Club at the Casino, Tuesday, May 27, will be the second offering of the organization this season, and from all accounts it will be a notable event. Their own work has been very highly commended, but great improvement has been made, the result of assiduous rehearsals under direction of Wm. E. MacClymont. A superior programme will be presented on this occasion, which will include the services of the popular favorite, Hobart Smock, tenor, of All Angels Episcopal church, New York, and the Misses Helen and Mabel Reynolds, violinist and 'cellist, also of New York. These young women are said to be remarkably proficient and achieved great success wherever they have appeared. Tickets are on sale at all the drug stores, or can be obtained from the patronesses.

Death of Sergeant Kohler.

The members of Company K and many others will learn with deep regret of the death of Sergeant William Kohler, of Company M, of Somerville, which occurred a few days ago after a short illness with pneumonia. Sergeant Kohler was present when Company K was organized and he had many warm friends among the Plainfield boys.

Washburn's Show Closed.

A business letter written by L. W. Washburn, at Somerville, to a firm in this city conveys the information that the show has closed—presumably for the season. It will be remembered that his employes were all taken ill at Somerville one day last week.

AN ORDINANCE

To Regulate the Use of Automobiles, Locomobiles and Similar Vehicles Propelled by Steam, Gasolene or Electric Power in the Public Roads, Streets and Highways in the Township of Fanwood.

The inhabitants of the Township of Fanwood by their Township Committee do enact as follows:

Section 1. That all automobiles, locomobiles and similar vehicles propelled by steam, gasolene or electric power when in use on the public highways, streets or roads within the Township of Fanwood, are hereby required to have a lamp of such illuminating power as to be plainly seen at least two hundred yards, attached thereto and kept lighted from one hour after sundown to one hour before sunrise when said vehicle is in use.

Section 2. All automobiles, locomobiles and similar vehicles shall carry a suitable bell or gong, or other similar device attached to the same, which when rung may be heard at least two hundred yards distant. And such bell or gong, or other similar device shall be sounded as an alarm by the person having such vehicle in charge, upon approaching another vehicle, or upon approaching street and sidewalk crossings.

Section 3. No person having in charge such automobile, locomobile or other similar vehicle, shall make or permit to be made by said vehicle on any public road, street or highway in the Township of Fanwood, a greater speed than at the rate of eight miles per hour.

Section 4. No person having in charge any automobile, locomobile or other similar vehicle, shall propel or run the same, or permit the same to stand or be propelled or run upon any side-walk within the Township of Fanwood under the penalty hereinafter prescribed, except so far as may be necessary to propel the same across any side-walk to and from the street and the place of destination, and to and from the home and habitation of the person or persons where said automobile, locomobile or other like vehicle shall be kept.

Section 5. That the provision of this ordinance shall not be construed to apply to electric cars within said Township.

Section 6. Any person or persons found guilty of violating any of the provisions of this ordinance, upon conviction had before any justice of the peace within said Township, shall be punished by a fine not exceeding Fifty dollars ($50.00), or imprisonment not exceeding thirty days in the County jail, or both fines and imprisonment at the discretion of the Court before whom a conviction thereof shall be had.

Section 7. This ordinance shall take effect May 21, 1902.

DUNELLEN.

The entertainment, which will be given under the auspices of the Christian Endeavor Society of the Presbyterian church some time in June and for which the members of the society are already practicing, is to raise money to pay the society's share of the church debt. Some time ago when an effort was made to raise the debt on the church the Christian Endeavor Society subscribed an amount which has now been asked for by the trustees and this way has been taken to raise it.

Charles Frentz, superintendent for a large contracting company of New York, has been visiting his family, who are boarding at the home of Mr. and Mrs. Charles N. Flanders.

The trolley company has commenced running the open cars during the day but it is too cool yet of an evening to enjoy the pleasure of a trolley ride.

Mr. and Mrs. L. G. Henry, of Plainfield, have been visiting at the home of Mrs. Henry's sister, Mr. and Mrs. George A. Clark, of Front street.

Mrs. Bradley, of Newark, and Mrs. Conger, of East Orange, are spending a few days as the guests of Mrs. Nellie C. Crane, of Park avenue.

Frederick Ivamy, of "The Inn," has recovered from a serious illness of a week, that at one time threatened pneumonia.

Mr. and Mrs. Geo. Leibel and daughter, of New Market, spent Sunday with friends in Scotch Plains.

Miss Mattie Hull, of Plainfield, has been visiting her parents, Mr. and Mrs. Wm. Hull.

DEBATE ON CUBA.

Day of President Palma's Inauguration Was Made the Occasion for Special Exercises at School.

This being the date of President Palma's installation, a short time was devoted this morning by the pupils of North Plainfield High School to the execution of an interesting and instructive programme devolving principally with Cuban matters.

The proceedings opened with the singing of "America." Harry Woodland then read a short sketch of President Palma's career, touching on his patriotic efforts in behalf of his native land, culminating in his attaining the highest position within the gift of his people. A poem, "Independence of Cuba," was recited by Hanford Miller.

After the chorus "Long Live America" came the debate, "resolved that it would be best for the United States and Cuba if Cuba should become part of the American Union." The affirmative was ably supported by Raymond Stevens and Wesley Messersmith; the negative was held by Miss Addie Carney and Alice Martin. The reasons for and against were clearly and strongly presented by both sides.

The programme closed with the singing of "Marching From Cuba," a song adapted for the occasion from "Marching Through Georgia."

GIVEN FULL AMOUNT.

Result of Trial of Suit Against LaRue & Cuming in Hand's Court.

A verdict for the full amount in favor of the plaintiff was rendered in Justice Hand's court, yesterday afternoon, in the contract case of the Gurney Heater Company against LaRue & Cuming. Suit was brought to recover payment for goods furnished. It was brought out by the sworn testimony that Mr. Cuming used the firm name as security for goods purchased for his home without the consent or knowledge of his partner.

H. R. Runyon represented the plaintiffs. Robert M. Clark appeared for Cuming and Lewis A. Clement for LaRue.

Skipped His Bail.

A bibulous individual, arrested by Marshal Adelmann, of the borough, Saturday night, left $5 when he became normal again, as a guarantee of appearance in court at 7 o'clock last evening. When the appointed hour arrived the man in question failed to appear and the money went to swell the borough treasury. He failed to leave his name.

For the Chapels.

The annual subscription for the maintenance of the three chapels connected with the Crescent Avenue church, received last Sunday, amounted to $3,740.

Small Extension.

Building Inspector T. O. Doane has issued a permit to Morris Abrams for the erection of a one-story extension to his dwelling on West Third street.

Among the late arrivals registered at Hot Springs, Va., are Mr. and Mrs. S. F. Kimball, of Madison avenue.

COLUMN FOR THE SHOPPERS

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

When you step off the car on a warm day call into E. S. F. Randolph's and get a glass of cool soda.

Meissner's hand laundry, Watchung avenue, is the best place in the city to have your collars, shirts and cuffs done up.

Fresh, tender cuts of meat are the specialties at Fred Endress' West Front street market. Seafood, too, fresh from the nets. All orders delivered.

At Fred H. Firstbrook's, Liberty street, double trading stamps are given away with every purchase. Five dollars' worth of stamps are given away with each pound of 60 cent tea.

Woodhull & Martin have purchased from a large Pennsylvania manufacturer, his entire sample line of beautiful decorated opal ware, which they expect to place on sale next week.

One of the really first-class hardware stores is that of the Gayle Hardware Company. Here one can find anything that is kept in such a store. You can save money by trading at this place and all goods are reliable.

For a spring tonic or a brain renewer, nothing compares with Hodge's Beef, Iron and Wine. It rejuvenates the tired mind, formes new tissues and makes one feel like a new man. Sold only at Hodge's pharmacy in the Y. M. C. A. building.

Now is the time to get your summer suit of clothes so that when the warm weather arrives you will be prepared for it. There is no better place to get a suit than at Weinberger's store on West Front street. His stock of men's and boys' clothing is complete.

Since the new firm of Charles Conover & Company was formed a week ago, they have received many orders for painting and papering. First-class work at reasonable prices is the motto of the firm. Orders left by telephone No. 226 A or at 115 Elmwood place will receive prompt attention.

PERSONAL.

Mrs. Elwood Boss, of Somerset street, is visiting friends at Mount Pleasant.

Miss Anna Kelly, of Woodhull & Martin's store, is detained at home by illness.

Mrs. Philip Bock, of Somerset street, has returned home from a visit to her sister in Raritan.

James Hurley, Jr., of Belvidere avenue, is quite seriously ill. Dr. Dundon is in attendance.

Miss Sarah Ettinger, of Watchung avenue, has returned home after a visit to friends in Philadelphia.

Patrick Neylon, of Elizabeth, has returned home after spending a few days with his parents in this city.

The condition of Councilman Robert Clark, Jr., of Jackson avenue, avenue, who is ill with the grip, is somewhat improved today.

Rev. Wm. E. Honeyman, of Lincoln place, is among the Plainfielders who are attending the General Synod of the Presbyterian church now being held in New York.

CITY JOTTINGS.

—After the regular meeting of Freedom Castle, Knights of the Golden Eagle, this evening, there will be a meeting of the commandery.

—The regular meeting of the Boys' Band of the Crescent Aveune church will be held in the large parlor at 4 o'clock this afternoon. "Siam and Laos" will be the subject.

Farewell Reception.

A farewell reception was given at the home of Mrs. A. B. Lewis, of West Fifth street, last evening, in honor of her niece, Miss Nellie Mullen, of Bernardsville. A party of her young friends were present and spent several hours enjoyably with the aid of games, cards and ping-pong. A collation was served at the close.

Change in Hour of Meeting.

The Sunday evening services at the First Baptist church will be held hereafter at 7:45 o'clock instead of at 7:30.

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. W. Randolph.

OLD MEN AND YOUNG.

Members of the Senate Classified According to Their Age.

Only Three Are Under Forty Years and One Is Over Eighty—Month of May Holds the Highest Record.

When woman suffrage is thoroughly established in this country and women sit in both houses of congress it may become necessary to revise some of the customs that now prevail, and especially that unwritten law that makes it necessary for every senator and representative to furnish an autobiographical sketch, beginning with a statement of age, for publication in the Congressional directory. The records in the directory are revelations to many people who consult them. These records show an evenly balanced senate of young men and old men.

The records show that of 86 senators, three, Bailey, of Texas; Beveridge, of Indiana, and Kearns, of Utah, are under 45 years of age, the Texas senator being 38 and the senators from Indiana and Utah 39 years of age. Twelve senators are between 40 and 50; 30 between 50 and 60; 26 between 60 and 70; 14 between 70 and 80, and just one, Senator Pettus, of Alabama, between 80 and 90 years of age. Senator Pettus was 80 years of age his last birthday.

Senators who have lived more than 70 years, nearly all of whom have the vigor and appearance of much younger men, are Allison, of Iowa, 72; Bates, of Tennesese, 75; Cullom, of Illinois, 72; Frye, of Maine, 70; Gibson, of Montana, 71; Hawley, of Connecticut, 75; Hoar, of Massachusetts, 75; Jones, of Nevada, 72; Morgan, of Alabama, 77; Platt, of Connecticut, 74; Proctor, of Vermont, 70; Stewart, of Nevada, 74; Teller, of Colorado, 71, and Vest, of Missouri, 71. Senators between 60 and 70 years of age are Aldrich, of Rhode Island, 60; Bacon, of Georgia, 62; Bard, of California, 60; Berry, of Arkansas, 60;

JOSEPH B. FORAKER.
(Ohio Senator, Aged 55, the Ideal Age for a Statesman.)

Blackburn, of Kentucky, 63; Burrows, of Michigan, 65; Clark, of Montana, 63; Cockrell, of Missouri, 67; Depew, of New York, 67; Elkins, of West Virginia, 60; Foster, of Washington, 65; Gallinger, of New Hampshire, 64; Hale, of Maine, 65; Hanna, of Ohio, 64; Harris, of Kansas, 60; Jones, of Arkansas, 62; McEnery, of Louisiana, 64; McMillan, of Michigan, 63; Millard, of Nebraska, 65; Mitchell, of Oregon, 66; Money, of Mississippi, 62; Patterson, of Colorado, 61; Perkins, of California, 63; Platt, of New York, 68; Quay, of Pennsylvania, 68. Senators whose ages range between 50 and 60 are Burnham, of New Hampshire, 67; Clapp, of Minnesota, 50; Clark, of Wyoming, 56; Daniel, of Virginia, 59; Deboe, of Kentucky, 53; Dillingham, of Vermont, 58; Dubois, of Idaho, 50; Foraker, of Ohio, 55; Foster, of Louisiana, 53; Gamble, of South Dakota, 51; Hansbrough, of North Dakota, 54; Lodge, of Massachusetts, 51; McComas, of Maryland, 55; McLaurin, of Mississippi, 53; Mallory, Florida, 53; Martin, Virginia, 54; Mason, Illinois, 51; Nelson, Minnesota, 59; Quarles, Wisconsin, 58; Rawlins, Utah, 51; Scott, West Virginia, 59; Simon, Oregon, 51; Spooner, Wisconsin, 59; Taliaferro, Florida, 54; Tillman, South Carolina, 54; Turner, Washington, 52; Warren, Wyoming, 57; Wellington, Maryland, 50, and Wetmore, Rhode Island, 55.

The following are between 40 and 50 years: Carmack, Tennessee, 43; Clay, Georgia, 48; Culberson, Texas, 46; Dietrich, Nebraska, 48; Dolliver, Iowa, 44; Fairbanks, Indiana, 49; Heitfeld, Idaho, 43; Kean, New Jersey, 49; Kittredge, South Dakota, 40; McCumber, North Dakota, 44; McLaurin, South Carolina, 41; Penrose, Pennsylvania, 41; Pritchard, North Carolina, 44; Simmons, North Carolina, 48.

Fond mothers, in casting up the chances of their boys to become senators, says the Washington Star, may study with some interest the records of the months in which the senators were born. Boys born in the late winter and early spring have the least chance. Of the 86 senators whose days of birth are given, only four were born in February, five in March and four in April. August was a bad month for senators, as but five came into the world in that month. The highest record is held by the month of May, in which ten senators were born. January, October and July were months fruitful of senators, as nine of them were born in each of these months. Six were born in June, eight in September, seven in November and six in December.

THE BODY AND ELECTRICITY.

Application of the Current to the Human System Must Be Intelligently Done.

The body resembles nothing so much as a machine for generating electricity. Occasionally it gets out of repair and consequently fails to produce the amount of power needful to keep us alive; and it is upon this subject that Prof. D'Odiardi has much of interest to say, according to Pearson's Magazine.

Pointing out the various static machines and queer instruments which adorn his hospital, he explained:

"It may at once be said that while there is hardly any result that cannot be obtained by means of electricity and the physical forces suitably administered, yet this electricity must be conveyed in doses as accurately measured as to time, quantity and intensity as the most powerful drug; its effects also vary in the most remarkable manner according to the strength, quantity and quality of the current.

"It is possible by its means to increase by one-fourth the quantity of oxygen in the blood; to increase or diminish the supply of blood to any part of the organism, however deeply seated; to raise or lower the temperature; to increase or diminish the frequency and quality of the pulse and respiration; to stimulate or slacken the function of any organ; to recharge exhausted organic cells and to make them proliferate new cells of a superior type; to cause a hundred and one other things which 50 years ago would have been looked upon as miracles; and, last but not least, by its use it is possible to sustain the circulation of the blood and the respiration in cases where without such help syncope or asphyxia would supervene. According to this last method I have kept patients alive for days, until at length the new supply has told upon the system and snatched them from death's door."

Demands of Business.

Mistress—I am surprised. You say you were married six months ago, divorced three months ago and remarried to your husband last night.

Domestic—Yes'm. You see, at the first place he had they wanted a married man, so we got married, but at the next place they wanted a single man, so we got divorced, and I came here. Now he's found a place where they want a man for gardening and wife to cook, so we got married again, and I'm going there with him.—What-to-Eat.

Millions to Burn.

Little Alice Muggins was playing with her golden go-cart, all crusted with diamonds and ice and other valuable gems, when her mamma called her in that tender voice whose turquoise ring brought joy to the child's heart.

"Here, daughter," said Little Alice Muggins' mother, "is a nice, new million dollars. You and Charlie run up the street and buy a stick of candy."—Baltimore News.

ONLY ONE PRIVATE TRAIN.

England's Sole Possession of This Kind Is the Property of the Duke of Sutherland.

The only English private train is that owned by the duke of Sutherland. It was specially built at the Wolverton works of the London and Northwestern railway, to his grace's order. It contains, stowed within the smallest possible compass, a large saloon for dining, a private sitting-room, sleeping berths, luggage compartments, kitchen, pantry and lavatories, the whole connected by a series of handsomely decorated vestibules and corridors, says the New York Herald.

Viewed even from the outside, the train presents a sufficiently striking appearance, with its dark green enameled panels, picked out with cream and gold. Internally the fittings are of the most elaborate description.

The principal saloon has a figured lincrusta roof in white and gold, with side paneling to match. All of the couches and easy chairs are upholstered in green figured tapestry, and the friezes and window curtains are of rich green silk.

Velvet pile carpets cover the floors of the principal compartments, and cork linoleum is fitted to the corridors, vestibules, kitchen and lavatories. Electric lighting is, of course, used throughout, and there are also electric bells in the attendants' compartments, and electric fans for hot weather. For heating in winter, stoves on the hot water high pressure system are provided.

As this train has frequently to run at high speed over the Highland railway, where the grades are steep and the curves sharp, a special engine, which is also his grace's private property, has been built to draw it.

PASSING OF CORK-STOPPERS.

After Centuries of Use They Are Giving Way to Bottle-Closing Devices of Many Kinds.

The man who made the discovery many long years ago that a little tapered cylinder of cork was the very best bottle stopper has only been exceeded as a practical genius by those who, within the past century, have set themselves to work to improve upon and undo this early invention, and to get upon the market anything else than a "cork." On both hands there have been successes, the cork people having by improved machinery reduced their price so that there is still to-day nothing cheaper for the closing of a bottle; the patent stopper men for their part, having shut off the avenue for the use of corks, coming to absolutely control certain lines of trade.

Yet the beginning of the end may almost certainly be seen "as through a glass darkly." After five centuries of use, says the New York Times, the cork-closing bottles are passing, slowly and with many an effort to hold their own, but passing, nevertheless. Rubber, metal, glass, pasteboard and pulp are the new coverings of the day that here and there are taking the cork's place. There are financial rewards almost beyond the bounds of imagination for the inventor who hits the popular taste for a cork substitute, or if not for the inventor, at least for the lucky manufacturer who manages to lease good stopper patent rights.

A WHISTLING CHOIR.

Unusual Form of Music Introduced in a Sunday School in Augusta, Ga.

J. T. Lockhart, superintendent of the Berean Baptist Sunday school of Augusta, Ga., is responsible for a new departure in church music, and through his efforts the innovation has been eminently successful, reports the New York Commercial Advertiser.

Mr. Lockhart obtained his idea from "The Burgomaster," which recently appeared in Augusta. He heard "The Tale of the Kangaroo" whistled, and when the audience joined in the chorus the effect struck him as being so unique that he at once decided to put it in use in his choir. Mr. Lockhart talked the matter over with Rev. J. H. Oliver, pastor of the church, and it was decided to try the plan the following Sunday. The Sunday school numbers 301 members. On the Sunday when Mr. Lockhart had planned to introduce whistling music the exercises were opened by a short talk on the sacredness of all melody and harmony and of the praise that could be rendered to God in every form of music. Mr. Lockhart then told the pupils that they were going to try a new form of music. He said that, as a great many of the young men who had really good voices would not sing because they had never been trained in music, he had decided to form a whistling choir.

The superintendent had no difficulty in inducing the boys and young men to come forward and whistle.

Thoughtful Absconder.

A banking and municipal treasurer in an Italian town disappeared, leaving a deficit of $100,000. The authorities proceeded to open his strong box, which was found to contain a piece of paper inclosing 36 cents and stating that the money was for the locksmith who should be deputed to break open the safe.

DOUBTFUL RUMORS.

And Still Scores of Plainfield People Accept Them as Facts.

The published statement of some stranger residing in a far away place may be true enough, but it is generally accepted as a doubtful rumor. How can it be verified. The testimony which follows is convincing proof because it comes from a resident of Plainfield:

Mr. F. O. Smith, of 686 West Front street, contractor for painting, etc., says: "There was a distressing pain across the small of my back which clung to me all the time When I got seated at times if I moved a sharp pain struck me in the back and loins and almost made me exclaim. Any change in the weather or if I caught the least cold always aggravated the trouble and caused me to suffer severely. Doan's Kidney Pills were recommended to me by one of my employes who had been cured of a long standing case of kidney complaint by their use. I commenced the treatment, derived benefit from it immediately and before I had finished the first box I was cured."

WAVES IN THE AIR.

Are Like Water Waves That Stir the Whole Mass from the Surface to the Bottom.

Helmholtz showed that when a current of air warmer, and therefore lighter, was flowing above another current colder and denser the circumstances were the same as when the wind is blowing on a level surface of liquid. In both cases regular waves are produced in the denser medium, and the waves have their crests perpendicular to the direction of the upper current, says a scientific exchange. A wind that will produce water waves one meter long will, in air currents differing ten degrees C. in temperature, produce waves from two to five kilometers in length. To water waves from five to ten meters long correspond air waves having a length of 15 to 20 kilometers. Such waves, whose height above the surface of the earth is not often greater than their length, are like water waves that stir the whole mass of water from the surface to the bottom. They are very frequent, but are not visible unless the lower layers of air are saturated with moisture so that mists are formed. In such a case parallel bands of clouds are produced, extending over a large portion of the sky. In a balloon ascension Herr Emden, of Munich, was able to recognize such waves and to make such measures as to show that the mathematical theory of their formation was completely verified.

A SPIDER'S WOOING.

The Male Is Always in Danger of Being Devoured by the Object of His Attentions.

Scarcely, however, had Araneina returned to continue her feast upon the fly than still another summons came over the telegraph system from the outer edge of the web—a signal different from any of the previous ones, seemingly of a timorous nature. Araneina knew at once that it was from a gentleman spider come a-courting, who did not dare to venture too close until he was sure of the mood his lady love was in, says Pearson's Magazine.

It very often happens that a male spider who is precipitate in thrusting his attentions upon one of the other sex lives just long enough to regret it, for, should the lady chance to be hungry, she would not scruple to make her next meal upon an adventurous wooer. Araneina's courtier evidently did not consider the occasion propitious for love making, for, when at his third or fourth diffident signal she angrily darted towards him, he dropped to the ground and disappeared.

Araneina now ate the remainder of the contents of the fly. Then, further trussing up the beetle in her larder for the next day's breakfast, she retired into the cleft of the limb above her web for the night.

DORMANT MONEY.

Many Thousands of Dollars Awaiting Lawful Ownership in the English Courts.

A great deal of money becomes dormant through the carelessness or forgetfulness of the owners. When Mr. Goschen's conversion and redemption scheme of 1887 came into operation the Bank of England notified 68,000 holders of consols that their 3 per cents were no longer 3 per cents. No fewer than 11,500 letters failed to reach the stockholders to whom they were addressed; the people were dead, and their relatives were unknown, says Chambers' Journal. One person who could not be found held consols amounting to upward of £187,593; and over 40 possessed £10,000 each; and this money awaits lawful ownership. A very singular case of a stockholder's forgetfulness led to a suit in chancery some years ago. A lady who had attained the venerable age of 98 died at Marseilles. For years she had practically lived on money borrowed from her relatives under the impression that she possessed no means of her own. Only after she had died it transpired that a sum of £56,000 was standing in her name in the funds, and also £20,000 of accumulated dividends.

THE STUDY OF FIGURES.

Statistical Literature Not Much in Demand Among the Generality of Readers.

It is fairly obvious that the study of statistics is not exactly what would be termed a popular pastime. Librarians do not discover any extensive demand for statistical literature. Sir John Lubbock, if I remember rightly, found no place for a single volume of figures in his hundred best books, and in that flood of articles on "Books That Have Helped Me," by authors great and authors small, the same significant silence seems to be maintained. There were some very curious books that have apparently proved helpful to certain persons, but there was unbroken testimony of a negative kind that nobody had ever been helped by a blue book, says W. M. Daniels, in Atlantic. To say of anything: "As dry as statistics," is at once to consign it to the nethermost limbo of aridity. Such is the verdict upon the finished statistical product. As for the methods employed in constructing such tables — weighted averages, index numbers, or curves of error—these, to the wayfaring man, are hidden and ingenius refinements of cruelty, to be avoided at all hazards, or at least forgotten with a shudder and a prayer.

Sugar for Horses.

To increase their powers of endurance two ounces of sugar are now included in the daily food of army horses in Argentina.

COATS LONG AND SHORT.

Moire and Taffeta Are Made Up In a Variety of Ways.

The silk coats are very smart. There is no doubt that moire leads from the point of view of style. Unlined moire coats reaching to the bottom of the dress skirt wear well and can be used both for evening and dress occasions. Coats of this description are usually made with three strapped seams and a circular ruffle, if desired. The sleeves are of the bishop type, and there is a wide collar of fine needlework edged with lace applique. Black mousseline

TAFFETA COAT.

de soie fagotting is very pretty for these collars, and a smarter effect is gained if the garment is kept all black.

The "frocks and frills" coats are a fad of the moment. They are full, little, box plaited empire jackets reaching not quite to the waist line in the back, but falling considerably below it in front. They are made unlined both of taffeta and moire and are trimmed with wide collars edged with lace and embroidery.

The new blouses and Etons have greater fullness of sleeve and are finished with tabs and postilion effects.

In the illustration is a coat of black taffeta trimmed with ecru applique. It has the triple collar and triple cuff effect, a fad just now.

JUDIC CHOLLET.

THE NEW STYLES.

Differences Between This Year and Last Year's Dresses.

The pointed effect in the front of waists is not so decided as formerly, and the effect is gained rather by shortening the center of the back. This shortening of the center of the back gives a rounded look to the hips and is almost universally becoming. The skirts are built up higher in the back to allow for this peculiarity.

Last year's dresses may be worn with very little alteration this summer.

WHITE ETAMINE SUIT.

The principal differences occur in the sleeves, which are a trifle fuller below the elbow and in the increased length of the trains. Almost all the smart sleeves are now made elbow length and finished with soft ruffles or puffs.

Long waisted women should take advantage of the wide folded belt which decreases down to nothing in the front. When this is made to meet a short bolero, the effect is very smart. Nothing is so passe as to present a long waisted appearance in the back.

The white etamine suit here shown will prove dainty for warm weather The jacket is bloused, opening with a strapped effect over a black and white embroidered vest. The fullness is confined at the shoulders by stitched tucks. The skirt has a strapped yoke, and the fullness, except in the front gore, is laid into stitched box plaits and tiny tucks.

The hat is of white straw trimmed with white roses and black tulle.

JUDIC CHOLLET.

[Copyright, 1899, by Frederick A. Stokes Company.]

You cannot come in yet, Mrs. O'Meagher. I am asleep, and I shall be asleep for another hour at the least. Surely you cannot have forgotten that to-day is a holiday. Happy New Year! You have time to go to several masses before—"

"Get up, old lazybones; and don't keep a man waiting at your door in this inhospitable way, when he is in a hurry," interrupted a voice whose timbre was not that of the housekeeper, Mrs. O'Meagher.

"Oh! is that you, Sturgis?" laughed the artist. "Aren't you ashamed of yourself to come routing honest men out of bed at this unseemly hour? Wait a minute, till I put on my court costume, that I may receive you with the honors and ceremonies due to your rank and station."

A couple of minutes later the artist, pituresquely attired in a loose oriental dressing gown and fez, opened the door to his friend, Ralph Sturgis.

"Come in, old man," he said, cordially extending his hand to the reporter; "you are welcome at any hour of the day or night. What is it now? This is not your digestion call, I presume."

"No," replied Sturgis, "I merely dropped in to say that I should be unable to take our projected bicycle trip this afternoon. I shall probably be busy with the Knickerbocker bank case all day. By the way, if you would like to come to the bank with me, I shall be glad of your company. I am on my way there now."

"I should like nothing better," said Sprague, "but I have made an appointment for this morning with a—er—er—with a sitter."

"What, on New Year's day, you heathen!"

Sturgis observed the artist closely, and then added, quizzically:

"Accept my congratulations, old man."

"Your congratulations?" inquired Sprague, coloring slightly.

"Yes; my congratulations and my condolence. My congratulations on the fact that she is young and beautiful, and possessed of those qualities of mind and heart which—and so on and so forth. My condolence because I fear you are hit at last."

"What do you mean?" stammered the artist, sheepishly; "do you know her? What do you know about her?"

"Nothing whatever," replied Sturgis, laughing, "except what you are telling me by your hesitations, your reticence and your confusion."

The artist spoke after a moment of thoughtful silence.

"Your inductions in this case are premature, to say the least. My sitter is a young lady, so much is undeniably true. And there is no doubt in my mind as to her possession of all the qualities you jocularly attribute to her; but my interest in her is only that of an artist in a beautiful and charming woman.

"At any rate," he added, after a moment's hesitation, "I hope so; for I have heard that she is as good as betrothed to another man."

The reporter's keen ear detected in his friend's tones a touch of genuine sadness of which the artist himself was probably unconscious. Laying his hand gently upon Sprague's shoulder, he said, gravely:

"I hope so, too, old man; for you are one of those foolish men whose lives can be ruined by an unhappy love affair. I suppose it's useless to preach to you—more's the pity—but, in my humble opinion, no woman's love is worth the sacrifice of a good man's life."

"Yes, I know your opinion on that subject, you old cynic," replied Sprague, "but you need not worry on my account; not yet, at all events. I am still safe; the portrait is almost finished; and I should be a fool to walk into such a scrape with my eyes wide open."

"Humph!" ejaculated Sturgis, skeptically, "when a man makes a fool of himself for a woman, it matters little whether his eyes be open or shut; the result is the same."

Sprague laughed somewhat uneasily; and then, as if to change the subject:

"Come and see the picture," he said. "I should like your opinion of it."

The reporter consulted his watch.

"I shall have to come back some other time for that," he replied; "I must hurry off now to keep my appointment with Mr. Dunlap."

He started toward the door; but suddenly facing Sprague again, he held out his hand to the artist, who pressed it cordially.

"Good-bye, old man," he said, affectionately, "be as sensible as you can, and don't wantonly play with the fire."

And before Sprague could frame an answer, the reporter was gone.

The artist remained thoughtfully standing until his friend's footsteps had died away in the distance. Then he turned and walked slowly into the studio. Here, in the middle of the room, stood an easel, upon which was the portrait of a beautiful young girl.

Sprague gazed at it long and earnestly. Then he heaved an almost inaudible sigh.

"Sturgis is right," he said to himself, turning away at last, "and—and I am a confounded idiot!"

CHAPTER VII.

AGNES MURDOCK.

In a quarter of the city which is rapidly surrendering to the relentless encroachments of trade, there still stand a few old-fashioned houses, the sole survivors of what was once an aristocratic setlement.

One by one their fellows have been sapped and swept away by the resistless tide of commerce, until these ancient dwellings, stubbornly contesting a position already lost, now rear their sepulchral brownstone fronts in stiff and solitary grandeur—huge sarcophagi in a busy mart.

One of these houses stands well back from the street line, the traditional backyard of the ordinary New York dwelling having been sacrificed, in this instance, to make room for a tiny garden, which is separated from the street by a tall spiked iron railing, behind which grows an arbor vitae hedge. The former serves as a defense against the marauding of the irrepressible metropolitan gamin; while the latter confers upon the occupants of the garden a semblance of protection from the curious gaze of the passers-by.

This property, having been the subject of an interminable lawsuit, had remained for many years unoccupied, and was even now beginning to be regarded by some of the neighbors as haunted, when at last it was bought by Dr. Murdock, a wealthy widower with an only daughter. For some months masons and carpenters were at work; and then, one day, the new occupants entered into possession.

The Murdocks lived quietly but luxuriously, like people accustomed to wealth. They had their horses and carriages, their house at Lenox and at Newport, and their yacht. Their circle of acquaintances was large, and included not only the fashionable set, but also a scientific, literary and artistic set. For Dr. Murdock was a chemist of national reputation, a member of several scientific bodies, and a man of great intelligence and broad culture.

On this particular New Year's morning Dr. Murdock was seated in his study, apparently absorbed in reading the daily papers, a pile of which lay upon his table. His occupation might perhaps more accurately be described as skimming the daily papers; for each journal in turn was subjected to a rapid scrutiny, and only a few columns seemed occasionally to interest the reader.

There was no haste visible in the doctor's actions, each one of which appeared to be performed with the coolness and deliberation of a man who is not the slave of time; and yet, so systematic were they, that, all lost motion being avoided, every operation was rapidly completed.

In a short time the pile of newspapers had been disposed of, and the doctor, lighting a choice cigar, leaned back in his comfortable armchair and placedly puffed the wreaths of fragrant smoke ceilingward. He was apparently satisfied with the world and with himself, this calm, passionless man. And yet a sharp observer would have noted an almost imperceptible furrow between the eyes, which might perhaps have indicated only the healthy mental activity of an ordinary man; but which, in one given so little to outward manifestation of feeling as Dr. Murdock, might also betoken more or less serious annoyance or displeasure.

While the chemist sat in this pensive attitude, there was a rustle of skirts outside, and presently there came a gentle knock at the door of the study.

"Come in!" said Murdock, removing the cigar from his lips.

The door opened, admitting a tall and beautiful young girl, evidently not long out of her teens.

"Did I disturb you, father?" she asked, stepping lightly into the room.

"No, Agnes," replied Murdock, courteously; "as you see, I am indulging in a period of dolce far niente."

The young girl laughed a clear, silvery laugh, as her eyes fell upon the pile of newspapers.

"If the reading of a dozen newspapers is dolce far niente, I should think you would welcome hard work as a pleasant change."

"Oh!" replied her father, "the work I have done on those has not amounted to much. I have only been gleaning the news from the morning papers.

"Yes," he added, answering her surprised look, "it takes a deal of skim milk to yield a little cream."

SOLDIERS LIKE HIM.

Gen. Lloyd Wheaton Is Simply Idolized by His Men.

All Sorts of Pleasant Little Stories Are Told About His Courage and Consideration of Privates' Comfort.

Gen. Lloyd Wheaton, whose frankness in expressing his opinions has stirred up a number of senatorial critics, will not ask for defenders. Practically without exception the men who have served under him, whom they fondly call "Dad" Wheaton, would fight for him to the last ditch against any odds. Even among the general officers of the United States army, including so many men of dauntless courage and splendid character, there are few who rank with Wheaton in personal popularity among the enlisted men. In appearance he is the ideal soldier, tall and straight as a pine tree. His thick hair is jet black and the lower part of his face is covered with a black beard, set off by a pair of long and fiercely-pointed black mustaches. On horseback especially he looks the part of a pirate king, and his voice is a deep bass of tremendous power that can be heard at great distances.

It is a favorite joke with the soldiers in the islands that "Old Dad" needs no staff, because he can make himself heard half a mile without straining himself. Most endearing of all, from the standpoint of the common soldier, Gen. Wheaton never spares himself, and many a little outpost, hard pressed by an overpowering force of the "niggers," has been inspired by the roaring command of "Old Dad"—"Go in, boys! Go in!"—while he himself, riding like a centaur, led the charge far in advance of the advancing column. Even his presence is inspiring. In many a hot skirmish, when the men have become tired and scattered, his tremendous voice, bellowing in the distance, has had the effect of a trumpet call or the arrival of a regiment of reenforcements.

"Brace up, boys," the call will go across the scattered lines, "here comes

GEN. LLOYD WHEATON.
(One of the Most Popular Commanders in the Army.)

'Old Dad,'" and then rushes into the fight the big bay horse, topped by the big, fierce man, with his black beard, and all is over but the shouting.

Enlisted men returned from service in the islands tell all sorts of little stories of Gen. Wheaton. For instance, there was the night after the landing at San Fabian. Six gunboats, says the Chicago Tribune, had gone down the coast to cover the landing of a lot of men under Gen. Wheaton, who were loaded on a couple of army transports. While the gunboats shelled the town Wheaton got his men into launches and other small boats and waited for the first chance to get ashore. Once or twice his eagerness led him to push ahead within range of the gunboats' fire, and each time he had to face about and retire, much to the amusement of the men, bobbing about on the swell in their little boats. Finally the party landed, under a hot fire from the insurgents, and rushed the town. After pickets had been thrown out and all arrangements made for guarding against a night attack, Gen. Wheaton started to turn in, with the idea of catching a few hours' sleep. He and his orderly went into a native house on the square and opened the door leading into the corner room. As they did so a couple of privates, who had already lain down to sleep on the floor, rose speedily, came to attention, saluted and started to leave the room.

"Here you!" roared "Old Dad," in his terrifying voice, "you boys need sleep just as much as I do. Lie down again and go to sleep."

So the commanding general and a couple of privates went to sleep side by side on the floor. But early in the morning, before any one else was awake, Gen. Wheaton got up and went out all alone on a reconnoitering tour. He closed the door, and it locked behind him with a spring lock. Several times during the night stragglers had come pounding on the door, and had been ordered away by the somewhat sulphuric orderly. It happened that the orderly had just got into a sound sleep when the general returned and knocked for admission. The orderly, who had no idea that Gen. Wheaton had gone out, woke up hot and angry.

With all the resources of his picturesque vocabulary he cursed the man who had disturbed him and ordered him to go away under awful penalties. "Now, you clear out of here and let us sleep, or I'll come out and kick your head off!" he roared.

"All right, sergeant," sounded the deep voice of "Old Dad," "all right, I'll clear out. But won't you please let me have my field glasses first?"

SPORTING NEWS.

ON THE DIAMOND.

The Hope players attribute their defeat of Saturday by the Dunellen team, to the accident which befell Jim Montross in the seventh inning. A hot throw from Martin struck him directly on the right thumb which had partically healed from a split. The wound was re-opened and he was forced to go in the field. Hewitt substituted and during the two innings he was in the box, the visitors made eight runs. It is thought Montross's hurt will not hinder him from playing Saturday.

Manager A. W. Muir, of the Safe team, has decided to retain the grounds at South Second street and Clinton avenue, as a home diamond The field has been graded and put in good shape and bleachers are to be erected. The grounds are plenty long enough but in width they could stand a little more room. At present a swift ball to the left or right is apt to land on the railroad or in Second street.

The Hope and High School baseball teams will meet again Saturday, on the latter's grounds. To the great surprise of the Hope team and its followers it was beaten in the first game and all the members are anxious to retrieve themselves. The High School has been playing winning ball lately and a contest bristling with excitement is anticipated.

Walter P. Foster has been mentioned for the place of head scorer of the League games. He has acted in that capacity for the Hope team for two seasons and is thoroughly acquainted with every phase of the game. He will probably receive the appointment at the coming meeting of the League executive committee.

Manager Heywood requests that all members of the Y. M. C. A. team report on Pittis's field, this evening at 6 o'clock, for practice. Some good work must be gotten in before Saturday when the association team goes to Sotoch Plains. The start will be made from here on the 2:30 trolley.

George Taylor did some great work for the St. Mary's Saturday. Out of five chances at the bat, he secured four hits and made five runs. He is one of the best batters the team possesses.

Bert Moore was placed behind the bat for the Y. M. C. A's. Saturday. He made a good showing and will make another competent catcher to call upon.

GOLF.

The first team match on the Hillside Tennis and Golf Club course will be played Saturday between the Hillside and Hackensack teams. The visitors will bring a ten-men team. Morris Dumont, captain of the home team, will announce his players in a few days.

FUNERAL OF MRS. GODOWN.

Held From Her Mother's Home on West Second Street Yesterday.

The funeral services of Mrs. Grace Godown were held yesterday afternoon from the residence of her mother, Mrs. E. T. DeForest, of West Second street. An impressive discourse was delivered by Rev. Dr. J. W. Richardson, of the Park Avenue Baptist church, and two hymns, "Jesus Lover of My Soul" and "Lean On Me" were sung by Mrs. John Manley. Among the many floral offerings was one from the W. C. T. U., several from the family and a large bouquet of roses and carnations from the classmates of Hazel Godown in the Franklin School.

The pall bearers were William Campbell, John DeMeza, Charles Francisco, William Leland and Charles Lippincott. Interment was made in Evergreen cemetery.

MAUCH CHUNK COLLIDED.

Encountered Car Float in Fog on North River Yesterday.

(Special to The Daily Press.)

Jersey City, May 20—The Jersey Central ferry-boat Mauch Chunk collided with a car float near the battery in the fog yesterday morning. Part of the ferry rail at the port side was carried away. A loaded freight car was knocked from the track of the car float, and landed half on the deck of the ferry, pinning the guard rail fast to the float. It was necessary for both the Mauch Chunk and the tug towing the float to steam in the same direction, till a derrick was used to lift the car.

Examiner's Notes on Plainfield.

Plainfielders cannot fail to be interested in the last issue of the New York Examiner which contains a brief account of the First Baptist church and a notice of the work of art depicting Christ's righteous indignation in the Temple, which is a valued possession of Former Mayor L. V. F. Randolph, of East Front street.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. Randolph.

Miss Adelaide Schwarz, of Newark, spent Sunday with Miss Nettie Leichtentritt, of West Front street.

Mrs. John Apgar, of West Front street, is entertaining her father, Peter C. Wagoner, of Clinton.

Miss Caspar and William Marcus, of New York, have been visiting friends in this city for a short time.

Wm. Hangliter, of West Third street, has returned from Cleveland, O., where he has been for the past three months.

Mrs. Wm. P. Henderson and son, Judson, of High Bridge, are visiting at the home ef her son, William P. Henderson, Jr., of West Front street.

Rev. Dr. A. E. Main, formerly pastor of the Seventh-Day Baptist church, but now of Alfred University, is visiting in Plainfield today and was a caller at The Daily Press office.

Dr. A. Wanzer Love, house surgeon at Bellevue Hospital, New York, son of Rev. Edward Love, of East Ninth street, returned to his post of duty last evening, after a forty-eight hours' leave of absence from that institution.

Mrs. S. F. Sabocker, of Rahway road, entertained Rev. Dr. Sutherland, of Burlington, Iowa, over Sunday. Dr. Sutherland is attending the general assembly in New York as a member of the commitee on bills and overtures.

LOTUS CLUB CONCERT.

What Trenton Y. M. C. A. Thinks of That Club's Programme.

Competent critics declare that the singing of the Lotos Glee Club which gives a concert in the Methodist church, Thursday evening, has never been surpassed by any male quartette appearing in this city.

W. Stanley Grinsted, the new basso, will make his first appearance in Plainfield. The club appeared for the Y. M. C. A. at Trenton, last Tuesday evening, and Secretary W. W. Fry says in a letter to Mr. Lewis: "Your singing is so thoroughly enjoyed and your taste in selection so excellent, in Trenton we think you are unsurpassed."

SPRINKLED STREET.

Mayor Smalley Went After Street Railway Co. for Neglecting It.

Complaints have been made recently by many of the residents on Somerset street that the street railway has not been sprinkling that thoroughfare. Mayor Smalley got after the company yesterday and it was noticed this morning that a sprinkling car had been called into requisition. Needless to say that the sprinkler and the rain combined have succeeded in allaying the dust.

Frightened by Boy.

Miss Bertha Mellman, of this city, was thrown into hysterics, last evening, while walking along the street, by a boy who suddenly sprang in front of her with a yell as if to seize her. She was taken to her home and was not yet fully recovered. Miss Mellman was injured last summer in the head-on trolley collision on East Second street and suffered a severe nervous shock.

Funeral of Richard O'Neill.

Funeral services over the remains of Richard O'Neill, who died at his home on New street, Sunday evening, will be held from St. Mary's church, tomorrow morning at 9 o'clock. Interment will be made in St. Mary's cemetery.

Received a Diploma.

Miss Aimee Louise Emmons, having completed a professional course in the New York School of Expression, was graduated last week and received a diploma of merit. The exercises were held in Carnegie Lyceum.

Butcher Business Sold.

The butcher business of L. A. Hummer, on Somerset street, was yesterday sold out by chattel mortgage sale. R. I. Tolles was the mortgagor.

—James Carter, of Richmond street, has taken a position with I. H. Boehm.

—Miss Emma Kitchen, of Craig place, who for the past ten years has been an employe of the store now owned by Hill & Shupp, has resigned to accept a position with I. H. Boehm. She begins her new duties Monday.

WALLS CONDEMNED.

Building Inspector T. O. Doane Says Portions of Babcock Building Must Come Down.

Portions of the walls of the Babcock building, which were not considered to be in the safest condiction, have been condemned by Building Inspector T. O. Doane. The rear wall will be razed to the first story, but it is necessay to tear down the remaining three on a level with the second only. The wall dividing the annex from the main building has also been condemned. All of these walls might have remained standing for a long time had no action been taken, nevertheless it was deemed a wiser measure to have them removed.

Workmen are now erecting scaffolds preparatory to beginning operations. T. H. Laury is in charge of the work.

CHARMING BRIDE WEDS IN PLAINFIELD HOME

Marriage of Miss Adeline M. Manning to Luther Anthony, of Lammington, N. Y.

COUPLE UNATTENDED.

BRIDAL PARTY MADE UP OF FLOWER GIRL AND TWO USHERS.

Was Performed by Rev. L. Conrow, of the Lammington Presbyterian Church, Under Arch of Dogwood and Lilies of the Valley.

In the prettily decorated home of the bride's mother, Miss Adeline Mabelle Manning, daughter of Mrs. Sarah Manning, of Grant avenue, was united in marriage, last evening, to Luther Anthony, of Lamington. One hundred guests from New York, Brooklyn, Lamington, Passaic, Millville, Bound Brook, Trenton and this city, witnessed the ceremony. Rev. Lester Conrow, pastor of the Lamington Presbyterian church, was the officiating clergyman.

Attired in a becoming gown of cream colored mousseline de soie, trimmed with lace, Miss Manning entered the parlor escorted by her brother and took her station beneath a floral arch of dog-wood blossoms and lilies of the valley. She was unattended but was preceded by her cousin, Miss Jane Johnson, of New York, who acted as flower girl. Carpenter's orchestra rendered the Lohengrin wedding march. Mr. Anthony was also unattended. The remainder of the party was made up of the ushers, Howard P. Manning and N. Douglass Drake.

Following the ceremony, a wedding supper was served during which congratulations were extended bride and groom. Later in the evening Mr. and Mrs. Anthony departed for Niagara Falls and other points making a trip of two weeks' duration. On returning they will take up their residence at Kingston, N. Y., where the groom is engaged in the retail grocery trade.

Many presents of silver, cut glass and bric-a-brac were received by both young people. Pretty gold pins with pearl settings were the groom's gift to the ushers.

WOULD BE POLICEMEN.

Four Candidates for Place on Force Are Being Examined.

Four aspirants for positions on the local police force are at present undergoing the preliminary examinations before their names are presented to the Common Council. Monday evening, they took a mental examination, and yesterday they were examined for physical defects by Physical Director C. E. A. Heywood, of the Y. M. C. A. As far as can be learned all passed creditably.

The names of the men are John Conroy, William Nichols, Moses Quass and Joseph Clark.

PLANS FOR BABCOCK BUILDING.

Reported That an Architect Has Prepared Plans for Alterations.

According to the current issue of the New Jessey Contractor and Real Estate Record, E. H. Gilbert, an Orange architect, has drawn plans for rebuilding the Babcock building at a cost of $80,000. The plans and specifications call for steam heat, electric lights, iron columns, tile roof and all modern improvements including a fine passenger elevator.

Another Man's License.

Ralph Luria was found on Richmond street, yesterday afternoon, by Patrolman McCarthy, doing a junkman's trade with the borrowed license of Nathan Silverberg. He pleaded not guilty to the charge this morning, in the city court, and trial was deferred until Saturday.

In Justice Nash's Court.

The contract case of Nitschwitz et als against Darby will be tried before Justice Nash May 26, and the landlord and tenant case of Young against Engelton will be tried in the same court May 22.

Paid Accident Policy.

W. V. Mundy, agent for the Travellers Insurance Company, today, paid to Mrs. Robert Jahn $5,000 accident policy, which Mr. Jahn held with this company. Mr. Jahn was burned to death May 7.

Strawberry Festival.

The Ladies' Aid Society of the German Reformed church will hold its annual ice cream and strawberry festival Wednesday and Thursday, June 4 and 5.

SOCIETY AT A MUSICALE

GIVEN BY MR. AND MRS. JOHN F. HARMAN LAST EVENING.

Selections by the Misses Harman and Others—Served to Renew Old Acquaintances.

Society folk of Plainfield and North Plainfield to the number of nearly one hundred and fifty enjoyed a delightful musicale given last evening by Mr. and Mrs. John F. Harman, of West Eighth street. The home was most attractively decorated for the occasion with a profusion of dogwood, roses, pink carnations, ferns and lilies-of-the valley.

Mr. and Mrs. Harman received their guests, assisted by Mrs. Frederick G. Mead, Mrs. Charles E. Brooks and Mrs. D. S. Rowland.

During the evening there was a charming programme of vocal and instrumental music. There were selections on the piano by Miss Harman, violin selections by Miss Helen Harman and Otto Schill, of Newark, and vocal selections by Miss Katharine Pelton, of New York, accompanied by Miss Henrietta Webber, also of New York. Each number was well received by the guests and there were frequent encores.

Aside from the musicale the social features were greatly enjoyed by all present. Mr. and Mrs. Harman have been absent from the city for some time past and their return was the occasion for this pleasant gathering to renew former acquaintance.

WHY MEASURE WAS VETOED

GOV. MURPHY'S REASONS FOR KILLING ASSEMBLYMAN NEWCORN'S BILL.

Bill Allowed Supreme Court Justice to Review Proceedings of a Police Board.

Among the bills which Governor Murphy vetoed this year was the measure fathered by Assemblyman William Newcorn, of this city, permitting justices of the Supreme Court to review summarily the action of any board of police commissions in cases where any member of a police department is fined, suspended or dismissed from the force.

Despite the fact that police chiefs, captains and officers of departments in all parts of the State waited on the Governor and urged him to sign the measure, the Executive said that he could not quite understand the attitude of these police officials on this matter. To each official the Governor gave the same answer that in his opinion the act would be subversive of discipline in the police department.

Mr. Newcorn waited on the Governor and had a long conference over the measure. In the opinion of the Assemblyman he thought that the measure would give to each policeman a right he is entitled to and would not permit him to be summarily discharged without first having a hearing in his case.

Governor Murphy took exception to this. He believed that the bill is not a good one, that its acceptance as a law would tend to the destruction of discipline in the departments. For this reason he vetoed it. He expressed the belief that if policemen were accorded the right given in the proposed act it would tend to promote carelessness among the men, knowing that they would have a good chance of being retained after a hearing. Mr. Newcorn took just the opposite view of the matter.

Called to Account.

Supreme Court Justice Garretson has granted Lawyer R. M. Clark's petition for an order calling Justice D. D. Smalley to account for not delivering over certain papers in the case of R. I. Tolles against L. A. Hummer. Justice Smalley has until June 3 to adjust the case, and if he fails he will be placed under arrest and be compelled to show why he has ignored the order of the Supreme Court.

A Fine Team.

Dr. O'M Knott has just sold to Walter Scott, of East Front street, one of the finest pair of blood-red bays to be found in the city. The horses are sixteen hands high and are high steppers. They are New York State bred.

At Monroe Avenue Church.

The annual strawberry festival under the auspices of the Ladies' Aid Society of the Monroe Avenue church will be held Tuesday, June 3, at the church.

An Annual Event.

The women of the Seventh-Day Baptist church are planning to hold the annual strawberry and ice cream festival in the near future.

PAID ACCORDING TO SIZE OF FOOTGEAR

Unique Social of Ladies' Christian Work Society of Trinity Reformed Church Last Night.

PLEASANT PROGRAMME.

THEN THE OLD WOMAN IN THE SHOE AND HER CHILDREN APPEARED.

After They Had Collected the Contributions of Their Guests, Refreshments Were Served and a Social Hour Followed.

A delightful entertainment was that given last evening, under the auspices of the Ladies' Christian Work Society in the lecture room of Trinity Reformed church. The affair was uniquely designated a "shoe sociable" and the manner of making it such was even more novel than the name.

All present were previously supplied with a small envelope bearing the imprint of a shoe and enclosing small slips of paper upon which were printed these lines:

"The Ladies Christian Work Society
ask a favor of you,
That you come on Tuesday evening
and place within this shoe,
The number of your footgear multiplied by two."

On the platform was a massive shoe which, after a programme of vocal and instrumental music had been presented, played a prominent part in the proceedings. But first the programme.

Edson C. Martin sang a baritone solo that so pleased the audience that a second number by the same soloist was necessary. In a fantasia and afterwards in a lullaby, a response to an encore, Miss Zella D. Frost, on the violin, proved that she could wield the bow deftly; there is sentiment in Miss Frost's playing and her technique is excellent. Miss Cornelia Miller was heard in a soprano solo. She sang in good voice and in deference to applause favored the assembly with another song. A recitation "The Horse Race," by Miss Ursula Krewson, highly deserved the plaudits that summoned her return to the platform. Another soprano solo by Miss Cornelia Miller and this part of the programme was concluded. Miss Lillian A. Force was the accompanist of the evening.

Sliding doors were then drawn revealing Miss Nettie Kreitling, as "grandmother," seated in the big black shoe. She had many children, but she knew what to do, and instead of giving them broth without any bread, whipping them soundly and sending them to bed, she read the following verses:

"This is the old woman that sits in
the shoe
To receive large gifts from others and
you.
The objects of these is at present not
shown,
But when learned you will wish that
your feet had grown.
These are my children not many you
find
But plenty to gather your dollars and
dimes,
And then we'll invite you all to remain
For 'Trinity's' closing is always the
same.
Good cheer in the hand clasp or kindly
word spoken
With something to eat as its visible
token."

Then the children, Chas. Zimmer, Clarence VanDoren, Elmer P. Wheeler, Edgar F. Sheppard, Wm. H. Pope and Samuel Crouse were sent through the audience, with slippers in their hands, to collect the little envelopes and each envelope was supposed to contain a sum equal to "the number of your footgear mutiplied by two."

Next were served the "visible tokens," and after a pleasant half hour spent in social intercourse the audience dispersed.

The committee in charge of the entertainment were Mrs. E. J. Cooley, Mrs. E. H. Bird, Mrs. H. Paul, Mrs. Mary Disborough, Mrs. E. VanDoren, Mrs. Seaman Williams, Mrs. W. A. Woodruff. Mrs. S. C. Baker, Mrs. J. H. VanDyke and Mrs. H. VanName were the decorating committee and, by the way, their work was done nicely. Large bunches of dogwood twined around the pillars, with a sparse but effective distribution of potted palms and ferns gave the room a pretty appearance, while the rear of the platform was set off with a vine-like arrangement of dogwood blossoms and leaves on a background of white.

The large shoe used on the occasion was patterned, made and painted by James Q. Miles. The proceeds of the entertainment amounted to over $40.

FENCE PAINTED WHITE.

Jersey Central Is Making a Much Needed Improvement to Fence Separating Tracks.

A gang of painters in the employ of the Jersey Central Railroad began work this morning giving a coat of aluminum white paint to the fence which separates the tracks at the North Avenue station. The work will probably be completed today and it will hereafter be easy to distinguish the fence, even at night.

For some time The Daily Press has been calling attention to the need of painting the fence some color that would make it easily distinguishable at night and that another fatality might not result from a lack of knowledge that the fence was there. Officials of the Jersey Central admitted that the dark paint made the fence hard to see and that it should be painted but nothing was done about it until now. The news will be much welcomed by the public.

TO INCREASE SPEED OF STEAM VESSELS

Invention Made By A Plainfielder Promises To Be Of Much Importance.

NEW SCREW PROPELLER

OF DIFFERENT DESIGN FOR WHICH GREAT CLAIMS ARE MADE.

A Cone-Shaped Hub to Which Are Clamped Heavy Blades—Has Had An Offer From Lewis Nixon, But Wants Better Price.

A patent has just been issued to Leander W. Hammond, of this city, for a screw propeller which it is predicted will revolutionize travel by water. Twenty-eight years of study and experiment were expended on the idea by the patentee before it was perfected, and patent office men declare it is one of the most valuable inventions they have passed upon this year.

From numerous experiments made Mr. Hammond claims steamships for ocean travel fitted with his propeller can increase their speed one tenth more than they are making at present. Smaller vessels can travel twenty-three per cent. faster, or nearly one quarter more than that attained by the present screw. The effect of this increased speed means much to large steamship companies as thousands of dollars are spent annually experimenting to cut down the travelling time between the two continents.

The Plainfielder's invention differs from the present screw in many respects. Instead of being a solidly cast three bladed tapering propeller it is formed of a cone shaped hub to which are clamped three heavy blades. Where they are fastened, the spot where the tension is greatest, the thickness of metal is three times that of the old style blades, precluding all possibility of a break. In extreme cases if one should occur, it is but a matter of a few moments to unclamp the defective blade and insert a new one. The cone hub also prevents the formation of a vacum about the screw and utilizes every particle of water in forcing the boat through the waves.

Mr. Hammond has already received a number of flattering offers for the product of his brain, one of which was from Lewis Nixon, of the Crescent Ship Yards at Elizabeth. Having been engaged on the idea for over a half century he has refused to sell it at the figures named and is confident of receiving a much higher price.

CRUSHED HIS THUMB.

George Wharton Edwards Met With a Painful Accident Recently.

A few days ago while George Wharton Edwards, of Franklin place, was leaving his home for the railroad station in a carriage, he caught the thumb on his left hand in the door of the carriage. The injury was a severe one and, at first, it was thought the thumb would have to be amputated. Although the bone is fractured, the physician believes that the thumb will now be all right.

New Postal Clerk Appointed.

The postal clerk authorities have granted Postmaster Bird's request for an addittional clerk in the office on account of increasing business. W. H. Thorn, who has been serving as a substitute carrier has received the appointment.

DR. RICHARDS WILL CONSIDER THE CALL

No Call Extended Yet, But His Name is Now Being Considered for the Place.

A SUCCESSOR FOR DR. BABCOCK AT BRICK PRESBYTERIAN CHURCH.

Dr. Richards Has Been Pastor of Crescent Avenue Church for Eighteen Years—He is Prominent in His Denomination.

The reports to the effect that Rev. Dr. William R. Richards, pastor of the Crescent Avenue church, is considered a possible successor to the late Rev. Malbie Babcock, as pastor of the Brick Presbyterian church, New York, has caused considerable talk in church circles. Rev. Dr. Henry Van-Dyke, of Princeton, who has been acting pastor for some time past, is to announce the name of the new pastor on May 27, and it is generally believed that Dr. Richards will be the one.

Dr. Richards was seen at his home yesterday in reference to the matter. He emphatically stated that no call had been extended to him, yet he admitted that he knew his name was being considered. He said that the New York pastorate should not be considered too lightly, as it was a most important post. He said that Dr. VanDyke and himself have been warm personal friends for a long time.

Dr. Richards has been pastor of the Crescent Avenue church eighteen years, having come to Plainfield from Bath, Me. He has frequently declined important calls, and was a possible candidate for the presidency of Yale University. He is a graduate of Yale and annually delivers sermons at that place. The New York University made him a D. D. ten years ago. Among his classmates in college were former United States Senator Patton, of Michigan, and Supreme Court Justice Jenks, of New York.

Dr. Richards says that he would be reluctant to leave his present pastorate, as he has a great many warm friends in the church as well as in Plainfield. There seems to be a general idea that Dr. Richards might be induced to accept the new pastor should a call be extended.

EAGERLY AWAITED.

Mrs. Minnie Marshall Smith Will Appear for First Time This Season.

Mrs. Minnie Marshall Smith's appearance at the First M. E. church, tomorrow evening, in connection with the Lotus Glee Club concert, has been eagerly awaited by her many friends and admirers. She is recoginzed as the foremost of artists in her particular line and naturalness and grace of manner are scarcely equalled by public readers on the platform today.

Her programme is entirely new and has proven to be one of the most satisfactory and successful she has ever given. It includes T. B. Aldrich's dramatic sketch, "Pauline Pavlovna" and Pauline Phelp's "Midnight Courtship" written especially for her.

PARK A. C. OFFICERS.

Organization Revived and Arrangements Made for a Sale.

At a meeting of the Park Athletic Club, held yesterday afternoon, the following officers were elected: President, John Valiant, Jr.; secretary and treasurer, Frank Curtis; manager of baseball team, Russell Pond; captain of team, Wm. Nischwitz.

Arrangements were also completed for holding a lemonade, cake and candy sale on the lawn of G. L. Howard, of Mercer avenue, Friday afternoon. The proceeds will be used to defray the expense of fitting the baseball team with uniforms and paraphernalia.

Four Days at Hopatcong.

E. S. F. Randolph and S. F. T. Wilbur returned home yesterday after a four days' fishing trip at Lake Hopatcong. They brought with them eighty-six pounds of pickerel and bass. One of the latter weighed five and three-quarter pounds.

Must Lay Sidewalks.

ANOTHER FRESH AIR CAMP

PLANS TO ESTABLISH ONE AT NETHERWOOD UNDER MISS CURRY'S CHARGE.

Understood That She Will Not Go to the Westfield Camp This Year, But Come Here.

Preparations are being made to open a fresh air camp at Netherwood under the direction of David M. Torrey and Miss Sara Curry, of the Little Missionary Day Nursery, New York. For some time past plans for the camp have been under way, although it is not believed that it will interfere with the Westfield Fresh Air Camp. The new camp will be located on high ground and the sanitary conditions will be of the best. It is understood that David Hand, of Netherwood, who is greatly interested in the work, will furnish the ground upon which the camp will be located.

One thing that has tended to bring this camp to Netherwood is the very able support given by the Christian Endeavor Societies and Epworth League chapters of this city, while the support given from the other end of the county has been nominal. Recently, there was a meeting of the Westfield Fresh Air Camp people to discuss the work for the coming season. Miss Curry was not invited to this meeting, it is said, when her friends believes she should have been, as she has heretofore had charge of the work at the camp.

LAWN FETE TO BE GIVEN

ARRANGED FOR SATURDAY BY THE LENTEN SEWING CLASS.

Varied Attractions to be Seen on the Lawn of Evarts Tracy's Residence in Prospect Avenue.

A lawn fete will be given at the residence of Mrs. Evarts Tracy Saturday afternoon and evening from 3 to 7 o'clock. The grounds which are at the corner of Prospect and Hillside avenues, will be charmingly decorated for the occasion. A gypsy encampment will occupy one portion of the lawn, while another part will be devoted to candies, useful articles, refreshments, booths and music.

The affair is being arranged by the members of the Lenten Sewing Class, which includes Mrs. L. W. Serrell, Mrs. E. M. VanBuren, Mrs. George S. Ring, Mrs. Otterson, Mrs. Evarts Tracy, Mrs. L. G. Timpson, Mrs. William Tyler, Mrs. James Blake, the Misses May Evans, May and Florence Waring, Anna Miller, Maude VanBoskerck, Mabel Pierson, May Rodman, Annie Murphy, May Holly, Tracy, Otterson, Stewart and Lee.

The proceeds of the affair will go towards sending the poor children, whose homes are in the tenament districts of New York city, to the country for a week or so. In case of rain the fete will be postponed to Monday, May 26.

LAST YEAR'S PAYMENTS FOR LIFE INSURANCE

Interesting Statistics on Subject From Today's Issue of Insurance Press.

IN NEW JERSEY CITIES.

THERE WAS PAID IN PLAINFIELD LAST YEAR $168,507.

Among Notable Payments Were Ones in Fanwood and Netherwood—Amounts Paid in Some of the Neighboring Towns.

The Insurance Press, a newspaper for insurers and insured, and considered to be the best authority on the subject of life insurance, in its issue of today, contains many statistics of value and interest to persons who make a study of the subject. It gives the life insurance payments made by the companies in 7,840 cities and towns. The amounts range from thousands to tens of millions. In 184 cities there was paid last year from $100,000 to $20,000,000.

Among the leading cities in New Jersey quoted in life insurance payments in 1901 are the following: Plainfield, $168,507; Elizabeth, $122,348; Morristown, $196,774. Among the other cities and towns in New Jersey quoted are the following:

Bound Brook, $23,231; Fanwood, $37,562; Metuchen, $21,419; Netherwood, $18,000; New Brunswick, $68,975; New Market, $1,500; North Plainfield, $4,200; Rahway, $53,117; Roselle, $16,768; Somerville, $18,817; Summit, $84,230; Westfield, $16,148.

New Jersey again makes a notable showing in the number of and distribution of notable payments reported to The Insurance Press. Among these are Fanwood—Charles Kyte, $17,284; Netherwood—H. A. Ostermoor, $10,000, and New Brunswick—G. C. Ludlow, $15,107.

As far as The Insurance Press is able to ascertain there was in 1901 one million dollars paid to the people every business day. This large sum mainly represents payments made in the settlement of death claims or matured endowment policies, of which the old-line companies paid $136,000,000, the remainder being paid by various leading assessment and fraternal societies whose transactions are acceptably reported.

In addition to the $136,000,000 paid in claims, the old-line companies distributed $48,000,000 in dividends to policy holders and for settlements by the surrender of policies prior to the maturity of contracts, but it is not practicable to distribute all of these millions locally. Thus the total payments to policy holders by the old-line companies alone reached $184,000,000 on the basis of returns to the insurance department of the State of New York. Probably $6,000,000 or more was paid to policy holders by companies not reporting to this department. Hence it may fairly be said, in round numbers, that from $190,000,000 to $200,000,000 was distributed by the standard life insurance companies last year, and that the total payments by all companies, associations, societies and orders reached the $300,000,000 mark, this sum representing the aggregate amount distributed among the policy holders or members by all kinds and descriptions of life insurance organizations.

MEMORIAL DAY DETAILS.

Commander Berg Has Appointed Men to Go to Local Cemeteries.

Commander Berg, of Winfield Scott Post, No. 73, G. A. R., has arranged for details to visit the various cemeteries on Memorial Day and decorate the soldiers' graves. It is likely that a special service will be held in the North Plainfield cemetery.

The flowers to be used for decorating the graves will be furnished by school children and members of the Women's Relief Corps. They will be delivered at headquarters the night before Memorial Day, when they will be arranged properly for placing them on the various graves.

Want a Settlement.

Being somewhat impatient over the delay in the settlement of the loss by fire on the Babcock building the fire insurance companies have been communicated with by the estate for the purpose of ascertaining what is to be done. Thus far not a single intimation of what is being done can be learned and, under the present circumstances, the Babcock estate is obliged to stand a considerable loss each day.

THEATRICAL.

Three monster shows, all combined into one continuous performance, from noon until 11 o'clock in the evening, will be the offering at Keith's Union Square Theatre in New York next week. During those eleven hours of constant amusement offered by the premiere vaudeville artists of America and Europe, but one admission is charged, and the audience is invited to remain as long as convenient. Eva William and Jac Tucker will present their petite slang classic entitled "Skinny's Finish," which embodies the choicest elements of comedy, cleverly interspiced with delicate pathos. Their offering is unique and displayed amidst brilliant scenic and electrical settings. Next of importance are Al Leech and the Three Rosebuds, a combination of pure comedy and feminine loveliness; Press Eldridge, universally known as "The Commander-in-Chief of the Army of Fun;" Swift and Huber, experts of musical comedy; Katherine Wells in her new and decidedly original monologue; Johnson, Davenport and Lorella in their familiar comedy sketch entitled "The Foot Ball Players and the Farmer;" Gorman and West, comedy sketchists; Delmore and Oneida in their thrilling aerial act; Watson and Ferguson, eccentriques; Fialkowski, the celebrated Russian mimic; and twenty other vaudeville stars of international fame.

Chrysanthemum in Bloom.

John P. Powers has on exhibition in his store on Somerset street a beautiful chrysanthemum about two feet long in the stalk and in full bloom. It is very unusual for chrysanthemums to bloom at this season of the year, but this one was forced by a chemical process.

At the Anniversary.

At the anniversary celebration of the Christian Endeavor Society of the First Baptist church, Tuesday evening, Rev. Mr. Smith, of Somerville, will deliver an address. Among other numbers on the programme will be selections by Miss Mary A. Luckey, the elocutionist.

Cottage and Stable.

Councilman George P. Mellick, of LaGrande avenue, is building a cottage for his servants, and a stable to accommodate six horses and twelve carriages. The buildings will be erected on the property where his bungalow is situated.

BRINGS SUMMER BOARDERS.

A Large Metropolitan Newspaper Which Is Helping the Summer Resorts.

The Brooklyn Eagle several years ago established a Bureau of Information in Brooklyn, where the public could, free of charge, secure details of hotels and boarding houses for the summer. The idea at once became popular, and branch bureaus were opened in Manhattan and other cities. Country hotels and boarding houses by sending to this Bureau can secure a listing blank, fill it out and return it and then be represented free of cost, and send their circulars and cards for free disribution.

The Brooklyn Eagle has also been considered for years the best medium for summer boarders in New York City.

The Rocky Point Inn, in the Adirondacks, said: "We are giving the Eagle a larger share of advertising than most other papers, as experience has demonstrated its value to us in past seasons."

Chauncey B. Newkirk, of Wurtsboro, Sullivan, county, said: "Last season one small ad brought me five guests."

La Rue Bros., proprietors of the American Hotel of Sharon Springs, N. Y., wrote: "Our house is full and mostly by Brooklyn people. Daily we recieve applications for rooms, and all on account of our standing ad. in the Eagle."

Dangerous If Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartly, Yankeetown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. L. W. Randolph.

A DEADLY CLOUDBURST.

Six Lives Lost and Great Damage Done In Cincinnati and Vicinity.

CINCINNATI, O., May 21.—A terrific wind and rain storm, accompanied by a waterspout, swept over this locality yesterday, causing the loss of six lives and injuring many others. The fury of the storm continued only thirty minutes, but the damage wrought in that time will amount to more than $1,000,000 in the business section of Cincinnati and as much more in other parts of the city and its suburbs.

It is also learned that there has been a terrific waterspout on the Lewisburg hills, in the southern suburbs of Covington, Ky., and it moved over the Kentucky suburbs into this city, passing up the Miami valley, with damages reported as far as Dayton, O. While storm damages are reported throughout Kentucky, the worst point seems to have been in the suburbs of Covington, where there was a waterspout. The water rolled down the hills in a wave twenty feet deep at places and about a hundred yards wide. The frame house of Edward Wohrley was carried away for a distance of over four blocks and finally dashed to pieces in the Covington ball grounds. The house was occupied by four families. Of these Mrs. Blachner and Willie Willen were drowned. The others narrowly escaped.

All the towns opposite Cincinnati suffered damage from broken windows and houses being unroofed, but the greatest damage on both sides of the river, especially to the business houses in Cincinnati, and also in Covington and Newport, Ky., came from cellars being suddenly filled with water.

THE BATTLE OF FLOWERS.

Coronation Celebration Continued at Madrid.

MADRID, May 21.—The battle of flowers in the Buen Retino gardens was a brilliant success notwithstanding the change from the sunny weather of the past few days to a cloudy sky and cool breezes.

The broad central avenue of the gardens was reserved for the function, and along the center and on either side of this avenue stands for the accommodation of the spectators were erected. All the seats on the platforms were filled with an elegantly attired crowd, among whom were representatives of nearly all the noble and aristocratic families of Spain.

The royal stand had been erected at one end of the central platform. King Alfonso, the queen mother and all the royal family, who were accompanied by the foreign princes, witnessed and participated in the fete.

American Jockeys Ahead.

BERLIN, May 21.—Nate Hill, the American jockey, won the Saxon Derby on Dr. Lemke's Alcibiades at Dresden. Alcibiades was a rank outsider, and when Hill appeared on the horse the spectators guyed and jeered him. But Hill got a good start and kept to the front all the way. The finish of the race was close, and the American jockey received an ovation from the crowd. Ellwood, an American, rode Don Augosto, a winner in the contest for the 20,000 mark ($5,000) purse at Stuttgart. News has also reached here from Warsaw, Russian Poland, that another American jockey, Johnny Morgan, is riding an average of three winners there a day.

"Major" Taylor Doing Poorly.

BERLIN, May 21.—"Major" Taylor, the colored cyclist, whose bicycle riding last year when he beat all the German champions was a source of amazement here, is doing poorly this season. Taylor was beaten Monday by Arend, and yesterday he failed to qualify in the trial heats for the final of a long distance contest, which was won by Arend.

Vegetarian Outwalked Meat Eater.

BERLIN, May 21.—Karl Mann, the vegetarian, has won the international pedestrian match from Berlin to Dresden. The distance covered was 125 miles, and Mann's time was 27h. 13m. 14½s. The next man, a meat eater, finished 1h. 45m. behind Mann.

INJUNCTION ISSUED.

Petition Against Beef Trust Is Granted.

LITTLE OPPOSITION IN COURT.

Judge Grosscup's Order Is So Wide In Scope Packers if Persistent May Be Taken Into Court For Contempt.

CHICAGO, May 21.—The temporary injunction asked for by the government against the members of the so called packers' combine is now in force. It was issued last evening by Judge Peter S. Grosscup after the close of arguments in the United States circuit court room. The order gives the relief prayed for in the bill filed by District Attorney Bethea on May 10. It is so wide in its scope that if the packers or their agents continue with their present alleged uniform arrangements they will be taken into court on contempt proceedings, and the burden of the proof will be on them to show that they have not violated the order in any particular.

Little opposition was raised against the government's petition. Attorney John S. Miller, who was the sole representative of the packers present, pointed out some objectionable clauses in the draft of an order presented by Mr. Bethea. These concerned the alleged agreements for credit, blacklisting and cartage. Judge Grosscup thought some of these minor clauses had been made too prominent, and he himself drew a form of order that pleased both sides. At the same time the order was entered numerous affidavits and other exhibits were filed for the government.

The courtroom was crowded as it has seldom been before. General Counsel Miller sat alone to represent the defendants, though there were many office employees of the packers among the spectators. For the government District Attorney Bethea was the leader and was aided by Solicitor General J. K. Richards and Special Counsel Day of Washington and Assistant District Attorneys Morrison, Pagin and Davis. There were also present District Attorney Worthington of Springfield and District Attorney Keeler of Indianapolis.

Unless the defendants decide to make a fight at an early date in an effort to have the order set aside they will have until Aug. 4 to make reply to the complaint. Attorney Miller said that he could not tell whether a demurrer, a plea or an answer will be filed, though the first named is the most likely to be the form of the packers' defense. The subpœnas served recently on the defendants commanded them to file their appearances separately before July 7.

Big Fire In Philadelphia.

PHILADELPHIA, May 21.—A large three story brick building at Broad and Vine streets occupied jointly by Marks Bros.' department store, proprietors, as a warehouse and the Pennsylvania Electric Vehicle company has been destroyed by fire. Mrs. Sarah A. Meyers, seventy-four years old, who resides in a small street in the rear of the warehouse, and Ross Raush, a fireman, were overcome by smoke. The Hahneman hospital, situated in the same block, was threatened, but the coolness of the physicians and nurses prevented a panic among the patients. The loss is estimated at $100,000.

Fights on Turkish Frontier.

SOFIA, Bulgaria, May 21.—The tension on the Turkish frontier has resulted in two more fights between Turkish and Bulgarian troops and the deaths of five soldiers. May 17 a Bulgarian frontier guard surprised two Turkish soldiers on Bulgarian soil near the village of Rilo and killed both the Turks as they were trying to escape. May 18 some other Turkish soldiers tried forcibly to recover the bodies of the two men killed May 17. In this engagement three Turks were killed and one Bulgarian was wounded.

French Visitors Call at Philadelphia

PHILADELPHIA, May 21.—The members of the French commission en route to Washington stopped in this city for a few hours. Count and Countess Rochambeau attended a luncheon given in their honor at the Hotel Bellevue, and the others of the party took in the sights of the city, visiting Independence hall, the city hall, the new United States mint, Fairmount park and other points of interest. The commission left for Washington at 5:25 p. m.

Worked With Ankles Broken.

OGDENSBURG, N. Y., May 21.—The steamer Monteagle of the Wolvin line touched here, sending ashore Michael Leahy, a wheelman, with both ankles fractured. After leaving Duluth Leahy was thrown down the hatchway by a ladder breaking. He remained aboard, though injured, steering the steamer down the St. Lawrence rapids to Quebec, sitting on a stool in the pilot house. He was sent to the hospital here.

Weather Probabilities.

Fair; light to fresh north to east winds.

CONDENSED DISPATCHES.

Heavy snow has caused the death of thousands of sheep in Wyoming.

Queen Wilhelmina is reported strong enough to leave her bed for a short time daily.

Waldeck-Rousseau, the French premier, announced his resignation, to take effect before June 1.

The French battleship Gaulois, with the military and naval members of the Rochambeau mission, arrived at Annapolis.

NEW REPUBLIC BORN

Cuba Becomes a Free and Independent Nation.

PRESIDENT PALMA IS INAUGURATED.

Simple Ceremony of Transfer Took Place at Noon—General Wood Lowers American Flag and Raises Cuba's Emblem.

HAVANA, May 21.—With the hauling down at noon of the stars and stripes of the United States and the hoisting in its place of the lone star flag of Cuba on Morro castle, Cabanas fortress and the executive palace the Cuban people entered into possession of their country and became responsible for its future.

Tomas Estrada Palma became president and, with the Cuban congress, assumes active control of the island. Governor General Wood, who for three years has represented the authority of the United States, went aboard the cruiser Brooklyn, awaiting him in the harbor, and the troops of the United States embarked on a steamship.

The process of the transfer was very simple.

Senor Palma attached his signature to a document as president of the Cuban republic after an exchange of congratulations, and the veteran General Maximo Gomez ascended to the roof of

PRESIDENT PALMA.

the palace, where he was accorded an immense reception.

General Wood personally lowered the American colors, which were saluted, and with his own hand hoisted the Cuban flag as an act of the United States, General Gomez assisting.

The natal day of the republic found Havana arrayed like a queen for her crowning.

She seemed reinvested for the occasion with the dignity of the prosperous days of her power and wealth. The decorations were universal. In some cases men had worked all night by the light of torches to complete elaborate designs.

There was not a residence, pretentious or humble, that did not bear upon its quaint facade some emblem in honor of the event. The many arches erected at the entrances of plazas by political societies, fraternal clubs, residents of various civil divisions of the city and business organizations had an air of real grandeur. The scaffolding was covered with canvas painted in imitation of marble, and from a distance the illusion was complete.

Bunting spread on venetian masts canopied the deep narrow streets from the rays of the sun. Beneath these canopies the Cuban colors and palms graced the open doorways, through which glimpses could be caught of luxuriant gardens in cool inner courts. Many of the balconies jutting from the white walled buildings were adorned with roses.

Nature seemed in harmony with the spirit of the festivities. The parks were literally aflame with tropical flowers, and the vaulted sky above might have been chiseled out of turquoise. Above every red tiled roof rose a Cuban flag.

The whole city seemed suddenly buried under a forest of waving banners.

The decorations along the water front were exceedingly lavish, and all the shipping in the harbor was dressed in gala attire. The majority of the ships flew the American ensign at the main and the Cuban colors at the fore or mizzen.

The United States armored cruiser Brooklyn, which takes General Wood away, and the steamer Morro Castle of the Ward line, on which the troops embarked, as well as the foreign warships which had been sent by their governments to be present at the birth of the new republic were dressed with streams of signal flags fore and aft, man-of-war fashion.

Much curiosity was aroused by a statue of Freedom which had been raised during the night in Central park upon the pedestal where for centuries a statue of Queen Isabella had stood.

During the morning a bountiful breakfast was given to several thousand poor children by Mr. Paine of Boston, who has passed the winter in Havana for many years.

Governor General Wood in handing over the government of Cuba to President Palma and the Cuban congress delivered to them the following letter from the president of the United States:

"On the 20th of this month the military government of Cuba will, by my direction, transfer to you the control and government of the island of Cuba, to be thenceforth exercised under the provisions of the constitution adopted by your constitutional convention as on that day promulgated, and he will thereupon declare the occupation of Cuba by the United States to be at an end.

"At the same time I desire to express to you the sincere friendship and good wishes of the United States and our most earnest hopes for the stability and success of your government, for the blessings of peace, justice, prosperity and ordered freedom among your people and for enduring friendship between the republic of the United States and the republic of Cuba."

While this was occurring at Havana a similar scene was being enacted at Santiago, where General Whitside at noon turned over the authority to his Cuban successor and sailed away with two troops of the Eighth cavalry.

Only eight batteries of American artillery remained on Cuban soil. A chapter of American history was ended, and the first chapter of the history of the Cuban republic was begun.

Before the Brooklyn was hull down on the horizon the Cubans resumed their festivities. In the afternoon there was a yacht regatta in the harbor, and ashore there was a review of 14,000 school children by President Palma.

At noon a solemn high mass in honor of the republic was celebrated in all the churches of the island, and at 4 o'clock a Te Deum was sung at the cathedral. At the same hour the Cuban congress proclaimed the constitution.

At night the whole city was illuminated, and a great pyrotechnic display was made from the walls of Morro castle and Cabanas fortress.

SOME MESSAGES.

President Palma Expresses Gratitude and Sends Good Wishes.

WASHINGTON, May 21.—President Roosevelt received the following cablegram from the president of the new republic:

"The government of the island having been just transferred, I as chief magistrate of the republic, faithfully interpreting the sentiments of the whole people of Cuba, have the honor to send to you and the American people testimony of our profound gratitude and the assurance of an enduring friendship, with wishes and prayers to the Almighty for the welfare and prosperity of the United States."

President Roosevelt also received the following cablegram from President Loubet of France:

"At the time when the Cuban republic is proclaimed under the mighty ægis of the United States of America I make it my duty to offer to your excellency my very sincere felicitations and to send you the wishes that I form for the prosperity of the young republic."

DOINGS OF CONGRESS.

Philippine Debate Continues—Omnibus Public Building Bill.

WASHINGTON, May 21.—The subject of the concentration of the inhabitants in the Philippines into camps was a leading topic of the discussion of the Philippine bill in the senate yesterday.

The senate committee on public buildings and grounds reported the omnibus public building bill. The bill carries a net increase over the house measure of $3,535,700, making the aggregate appropriation of the bill $20,941,150. The appropriation for the New York custom house was increased from $1,000,000 to $1,500,000.

For a third time within a week the house has instructed its conferees on matters of dispute between the senate and house. The instructions were given on amendments in the army appropriation bill before the conferees had even considered the matters in controversy.

A resolution offered by Mr. Hitt, chairman of the foreign affairs committee, felicitating Cuba on her independence was passed unanimously.

Seventy Bodies Found.

KNOXVILLE, Tenn., May 21. — A Coal Creek special to The Sentinel says the total number of bodies found in Fraterville mine aggregates seventy. Of this number thirty-eight were found together in the mine yesterday, and thirty-two were brought out Monday. An effort was again made to effect an entrance into the Fraterville mine opening, but it proved unsuccessful. The gaseous odors emanating indicate that all the gas has not yet escaped. Sam Jones, the mine foreman, who was in the rescuing party that attempted to force the entrance yesterday, was completely overcome by fire damp, and it is feared he will die.

Norfolk Plants Consolidated.

BALTIMORE, May 21.—The plan to consolidate the street railway lighting, heating, refrigerating, ferry and kindred interests at Norfolk and vicinity has been consummated. An underwriting syndicate is being formed by Alexander Brown & Sons and J. William Middendorf & Co. of this city and John L. Williams & Sons of Richmond, Va., to finance the deal. The capitalization of the company will be $9,000,000.

Aeronauts Take an Outing.

BERLIN, May 21.—The people of this city spent a part of yesterday in staring at the covey of balloons floating above Berlin in which the members of the international aeronautical commission were sailing as guests of the military balloon battalion. The ascents and descents were made without mishap. After the ascensions the aeronauts listened to the reading of various papers on aeronautics.

No Truth In the Story.

VIENNA, May 21.—Investigation of the statement sent from here to the London Daily Chronicle to the effect that an attempt against the life of Emperor Francis Joseph at Vienna had been frustrated by the authorities proves the story to be without foundation.

Rumors of Settlement Between Government and Securities Company.

CHICAGO, May 21.—An amicable understanding is about to be effected between the federal government at Washington and the Northern Securities company, according to The Daily News. It says that for some time friends of J. P. Morgan and J. J. Hill have been importuning President Roosevelt to have the suit against the company called off. From one of the stockholders of the Northern Securities company it has been learned that assurances have been given by the federal officials that if certain modifications in the company's financial construction be made the attorney general would consider withdrawing the government's suit against the company. "The chief charges consider traffic arrangements," says The News, "and it may be stated on the best authority that the alterations will be complied with.

"One of the largest stockholders in the Northern Securities company states that the association will be so reorganized as to make practically nothing more of the concern than a mere holding company. There will be an administrative head of a financial character, but for the rest the Burlington, the Northern Pacific and the Great Northern will be absolutely independent."

PEACE PROSPECTS.

There Seem to Be Many Obstacles Before Boer Delegates.

PRETORIA, May 21.—While it is hard to sift out the truth from the mass of contradictory reports that are floating in here from Vereeniging, Transvaal, where the Boer delegates are in conference, the best information obtainable leads to the belief that there are a number of obstacles in the way of a peaceful settlement.

In summing up the situation at Vereeniging it is safe to say that a majority of the Transvaalers, including the Transvaal government, is in favor of peace, while the representatives of the Orange Free State, with a few influential exceptions, declare they will not renounce independence. Strangely enough, General De Wet, who was most irreconcilable at the last conference, is now quite a strong advocate of peace.

Lord Kitchener certainly will not exceed the concessions already offered the delegates, so there remains only the question of the reduction of the demands of the Orange Free State representatives or the possibility of a split between the Boer factions. This latter, while it would delay an immediate settlement of the matters before the conference, would certainly hasten the final solution of the situation in the field.

LOUBET IN RUSSIA.

Warm Reception Accorded French President and Officers.

TSARSKOE SELO, Russia, May 21. —The czar and President Loubet have arrived here. The czar accompanied his guest to the palace where President Loubet will reside. The president of France subsequently called upon the czar and the czarina.

The French naval officers have been accorded a reception from the people only a degree less enthusiastic than that given to President Loubet himself. Russian naval officers are fraternizing with the Frenchmen and accompanying them on excursions to points of interest about St. Petersburg. The sight of the French uniform is everywhere the sign for an ovation.

It is considered probable that the French squadron will return home by way of Copenhagen and that in any case it will avoid passing through the Kiel canal.

ANOTHER ERUPTION.

Fierce Actions of Mont Pelee Terrorize Islanders.

MORNING PANIC AT FORT DE FRANCE

Showers of Stones Drive People to Shelter of Boats In Harbor—Explosions Heard In Neighboring Islands.

FORT DE FRANCE, Martinique, May 21.—Yesterday morning at 5:30 a thick, heavy cloud, lit up by flashes of lightning and the rising sun, rose from Mont Pelee. The people of Fort de France at once became panic stricken and in scant attire rushed excitedly through the streets of the town. Stones from the volcano as big as hazel nuts fell in the streets. Many of the inhabitants hurriedly embarked on the vessels in the harbor, and it was with difficulty that they were eventually reassured. At 7 o'clock, however, the excitement was over, and the people became calm.

The phenomenon was similar to the eruption of Thursday, May 8, but not so severe.

Governor L'Heurre will leave here on the French cruiser Suchet to inform himself of the situation at St. Pierre.

The cloud which issued from Mont Pelee was composed of cinders. It is estimated 20,000 people rushed into the streets of the town shrieking and praying.

A tidal wave has destroyed a portion of the village of Carbet.

A number of the inhabitants of Fort de France have embarked on the available vessels of the harbor and intend to seek refuge on the island of Guadeloupe.

OTHER ISLANDS DISTURBED.

Loud Reports Heard and Fiery Clouds Seen at Dominica.

ST. THOMAS, Danish West Indies, May 21.—It has been reported here from St. Kitts, in the Leeward group, that Monday night and yesterday morning noises similar to those heard May 8 were again audible, but louder and with greater distinctness. Some of the houses were slightly shaken by the concussion.

From the British island of Antigua and the French island of Guadeloupe very loud detonations from the southeast are reported.

Another report which has reached here from the British island of Dominica is to the effect that at 5:30 o'clock in the morning a curious, awe inspiring, fiery cloud, surmounted by a fleecy white cap resembling highly polished silver, was seen from Roseau, on the west coast of Dominica, in the southeast. This phenomenon caused alarm in Dominica, especially as lightning followed in its wake.

A later report from Castries, St. Lucia, confirms the previous statement that Mont Pelee had again erupted and adds that another eruption back of the town of Fort de France is very likely to occur.

Reports Exaggerated.

WASHINGTON, May 21.—Adjutant General Corbin has received the following message from Captain Crabbs, who went from San Juan on the Sterling, in regard to the situation in Martinique. The cablegram is dated Fort de France, May 20: "Report present distress here exaggerated. Devastated district lies north of line from Latrinite to Carbet, with center St. Pierre, which is completely destroyed. No relief necessary. Inhabitants latter place all killed. Our supplies at present in port will relieve all suffering for next two or three weeks. All department supplies from San Juan landed and turned over to governor, exception about 1,600 suits clothing delivered captain English ship Indefatigable for relief sufferers St. Vincent. Authentic reports latter place indicate greater immediate distress there than here. Violent volcanic disturbance still continues."

Florence Burns Not Guilty.

NEW YORK, May 21.—After deliberating for fifty minutes the coroner's jury in the Brooks inquest returned a verdict exonerating Florence Burns. The twelve men who, with intense interest, had followed all the testimony adduced during the proceedings before them decided that Walter Brooks was done to death on the 14th day of February, 1902, by a bullet from a pistol in the hands of "a person not known to the jury."

Grain Shipping Records Broken.

MONTREAL, May 21.—The record in the shipping of grain from Chicago to Montreal has been broken. One hundred and seventy-seven thousand bushels reached here in five days. It usually takes a cargo seven days to reach this port. The grain went by propeller Yale from Chicago to Depot Harbor and from there by the Canada Atlantic railway to Montreal.

Ninety-five Dead.

GOLIAD, Tex., May 21.—Three of the injured in Sunday's tornado are dead, making the total number of deaths ninety-five. There were many funerals yesterday, and the same short service was observed as on the preceding days. This city was totally swept from end to end by the rushing winds, and 150 houses were razed to the ground by the shock.

Noted Inventor Dead.

PHILADELPHIA, May 21.—C. Henry Wernle, a well known inventor and for the past fifty years the maker of mathematical instruments in the United States arsenal in this city, is dead, aged seventy-one years. During the civil war his services were of the utmost importance on account of the many inventions of gun sights that he perfected.

DR. RICHARDS MAY GO.

In the natural course of events, Plainfield cannot hope to always retain one of the clergymen who occupies a leading place in the Presbyterian denomination. There are, today, few men in the Presbyterian clergy who possess the ability of Rev. Dr. William R. Richards, pastor of the Crescent Avenue Presbyterian church. It can only be a question of time, therefore, that he must inevitably go to a larger and more important field.

As the largest and wealthiest city of the land, it is only natural that New York City should attract the greatest men in all professions. There are to be found the greatest opportunities and only a remarkable combination of circumstances can prevent the leaders in their professions from stepping into the most important posts. As it is with the other professions, so it is with the clergy. That Plainfield has so far retained a man like Dr. Richards is it itself remarkable. But it cannot be expected to continue much longer.

It is now understood that the call for the pastorate of the Brick Presbyterian church, of New York, is to be formally extended to Dr. Richards in a short time. Committees from that church have heard him preach and are very anxious to secure him. Rev. Dr. Henry Van Dyke, of Princeton University, who is now temporarily filling the pulpit, is also anxious that Dr. Richards should step into the place.

In another column will be found an interview with Rev. Dr. Richards. While the pastorate has not yet been formally offered to him, he cannot say what he will do. It can be inferred, however, that he will give the offer, should it come, very serious consideration and that there is a prospect that the Crescent Avenue church is likely to lose its pastor at no distant day.

This news will be received with much regret throughout the city. Dr. Richards is not only a very able man but has filled the place with great success. He has a host of friends in and out of that church who would regret exceedingly to see him leave Plainfield. In time of trouble, he has won a way into many hearts which will feel his loss sorely. If he does go, the Crescent Avenue church will have a difficult time to fill his place.

It is very evident that the new management of the Jersey Central Railroad believes that its path to prosperity lies along the line of pleasing its patrons. One after another, old and unpopular rules, made under the management of Mr. Warren, have been rescinded and new and attractive features announced. Never before has the Jersey Central shown such an evident desire to please the people which ride on its trains. This change in policy means much to Plainfield. Not only do the present residents benefit largely but others, hearing of this change of heart, will be induced to move here. For a time it was really rather hard work to do missionary work in behalf of Plainfield. That has changed now and no one is working any harder than the railroad officials themselves to benefit the town and bring new people here.

Lack of space will prevent The Daily Press from giving any more than a general summary of the arguments advanced at the consolidatoin mass-meeting at Saengerbund Hall, tomorrow evening. The only way for the citizens of the borough to become fully acquainted with the facts in the case is to attend the meeting itself. While The Daily Press will do its best, there will be so many good arguments advanced that we will be unable to touch on half of them.

One of the most energetic societies affiliated with the St. Mary's R. C. church is the T. A. B. Society which has just celebrated its thirtieth anniversary. Since its organization, there is no doubt that it has accomplished much and has served to assist the pastor of that parish in his work among the young men.

The Daily Press desires to extend its congratulations to Postmaster E. H. Bird on his well deserved re-appointment to the position of postmaster of Plainfield. He is a valuable man and has served the city well.

EXEMPTS MEET AT TRENTON

ANNUAL STATE CONVENTION WILL BE HELD THIS AFTERNOON.

After the Convention There Will be a Banquet—No Parade Will be Held.

The sixteenth annual convention of the New Jersey State Exempt Firemen's Association will take place this afternoon in Y. M. C. A. Hall, Trenton. After the convention there will be a banquet at the American House. It has been decided that there will be no parade. Between 300 and 350 delegates are expected.

The officers of the association are John J. Ready, of East Orange, president; Elias K. Leslie, of Trenton, secretary; Thomas Leathen, of Jersey City, treasurer; John Barry, of Jersey City, statistician, and a long list of vice presidents.

During the convention the Exempt Firemen's Association, of Trenton, will keep open house at its South Warren street headquarters and will provide each delegate of the forty-seven associations that will be represented with a unique and handsome souvenir badge of Beleek ware. The souvenir will be in the form of a butter dish, with this inscription encircling the inside: "Sixteenth annual convention of the New Jersey Exempt Firemen's Association, Trenton, May 21, 1902." In the centre of the inscription is a hand painted engine.

Wetumpkah to Vote.

Wetumpkah Tribe, No. 229, Improved Order Red Men will meet tomorrow evening and take a vote on the consolidation of the three tribes. Miantonomo Tribe will take a vote on the question Friday evening.

Public Invited.

The public is cordially invited to the graduation exercises for trained nurses to be held in the chapel of the Crescent Avenue church tomorrow evening.

Church Meeting.

There will be an important business meeting of the First Baptist church this evening, when it is expected that several persons will unite with the church.

Mrs. J. J. Henderson, from the west, formerly of Rockview avenue, has been visiting friends in town.

Miss Lulu French, of Boston, has been visiting at the home of her parents, Mr. and Mrs. John H. French, of Central avenue and Fourth street.

SUBURBAN NEWS

A Department Devoted to the Minor Events in Greater Plainfield's Suburbs by Our Own Correspondents.

DUNELLEN.

The funeral services of the late Mrs. Alice Newton were held yesterday afternoon at 2:30 o'clock in the Methodist church. Rev. S. K. Doolittle was in charge of the services which were attended by a large number of friends and relatives of the deceased. Interment was made in Bound Brook. The Daughters of Liberty, of which the deceased was a member, attended in a body and had partial charge of the services.

The Dunellen Brass Band will make its first public appearance Thursday evening when it willl play at the strawberry and ice cream festival given in the Methodist church. Its performance will be watched with interest and good music is expected as the band has practiced for a long time.

The Banjo, Mandolin and Guitar Club held the farewell gathering of the season at the home of Miss Emma Nelson, of Prospect avenue, Monday evening. Only the members of the club were present and after an informal dinner the time was spent in dancing.

A strawberry and ice cream festival was held in the Presbyterian chapel last evening under the auspices of the Ladies' Aid Society of the church. A considerable number attended and a good sum was taken in.

William Giles, who is suffering with scarlet fever, remains about the same. His case is not regarded as especially serious and an early recovery is looked for.

A pet cat, belonging to John Moynihan, came to its death on Tuesday and its loss is sincerely mourned as it was a great favorite.

No one has yet been secured to play short stop for the Dunellen A. C. in Saturday's game in place of Giles who is sick.

Bishop Scarborough, of this diocese, will be at Holy Innocent's church this evening and special services will be held.

Prayer meeting will be held in the Presbyterian church this evening at 7:30.

The band will meet for practice this evening in Aygar Hall.

John Geogan, of Greenbrook, has purchased a bull dog.

NEW MARKET.

The special election to decide whether or not East Bound Brook should have a school was held yesterday in the New Market schoolhouse. The measure was carried by a vote of fifty-nine to nine and the school will be put up as soon as possible. Sand has been donated by Doctor Pierce.

J. Cassel, a milkman living in Piscataway, yesterday had a narrow escape from death by coming into contact with a live electric wire. He was burned slightly and received a shock.

The brass band is considering giving an open air concert some time this month.

The baseball team has not yet secured a game for Saturday.

Henry Warner, of Metuchen, spent yesterday in town.

PLAINS AND FANWOOD.

Galvin Park, formerly Recreation Park, will open Decoration Day. The park has been greatly improved during the past two months and under the management of Mr. Galvin, who has had a great deal of experience catering to the amusement-loving public, the park promises to have a successful season.

The annual commencement exercises of the public school will be held in the Baptist church Thursday evening, June 19. Dr. Tomlinson, of Elizabeth, will be the speaker of the evening. The graduating class this year consists of four.

A number of new books have been added to the public school library and will be ready for the pupils as soon as they are covered. Among the number added are some of the latest and best books of the day.

Funeral services of the six-months-old son of Mr. and Mrs. Duncan Munroe, who died Sunday, were held from the parents' home yesterday afternoon. Interment was made in the Baptist cemetery.

The local team will cross bats, Saturday afternoon, with the Y. M. C. A. team, of Plainfield. As both teams are playing good ball, a fine game is assured. Game will be called at 3:30.

The Wednesday evening meetings of the Epworth Literary Society, connected with the Methodist church, have been discontinued for the summer months.

Hervey Marsh, of the Junior ball team, is trying to arrange a game for Friday afternoon with the Y. M. C. A. second team, of Elizabeth.

George Baldin, who has been kept from business for a week suffering from an injury to his hand, has returned to work again.

Miss Gladys Marsh, who has been quite ill for the past week, is recovering very nicely.

SOUTH PLAINFIELD.

A number of voters from here went to the township meeting which was held at New Market, yesterday, for the purpose of deciding whether or not a new graded school shall be built at East Bound Brook.

Cornelius Conway, who lives with David Blackford, is erecting a building in which to raise Belgian hares. He now has 160, and is expecting seventy-five more.

Mrs. Thomas Van Nest is suffering with an attack of erysipelas.

Mrs. Darlington, of Brooklyn, visited in town today.

Not a Candidate.

Charles Peterson, of Company K, states that he is not a candidate for second lieutenancy of the company and does not want the office.

Is Golf Catching

on to popular favor? It seems to be. A noticeable increase in sales of Painkiller comes from golf districts. The reason for this is clear, as Perry Davis' Painkiller is the oldest and best remedy extant for sprains, strains, bruises and soreness, all of which are of common occurrence, either in vigorous play or through accident. Everywhere the standard liniment and balm.

MONTCLAIR WOMEN TO ENTERTAIN TOMORROW

State Federation of Women's Clubs Will Hold Its Spring Meeting in That City.

THE DAY'S PROGRAMME.

PLAINFIELD ONCE ENTERTAINED THIS FEDERATION OF CLUBS.

Likely That Jersey City's Clubs Will Entertain Federation for the Fall Meeting—Several of the Prominent Figures Expected.

The spring meeting of the State Federation of Women's Clubs will be held in the Montclair Clubhouse, Montclair, tomorrow. It will be the one day in all the year that the club women from all over the State can get together for the enjoyment and pleasure of the meeting. Until last fall there was not even a mention of the spring meeting in the constitution. That has been changed, however, as the spring meeting was formally made a part of the proceedings of the federation at the Orange session last October. An order of business was then drawn up.

The programme for the meeting was made up by a committee of which Mrs. John L. Scudder, of Jersey City, is the chairman. It is as follows:

Invocation—Rev. Amory H. Bradford, D. D.
Address of Welcome—Mrs. Clarence W. Butler, president Town Improvement Association, Montclair.
Response—President of New Jersey State Federation.
Music—(a) "Mattinata," Testi; (b) "A Song of Sunshine," Goring Thomas, Miss Grace Toennies.
Echoes from Los Angeles—Mrs. Margaret T. Yardley, Mrs. Joanna Hartshorn.
Question Box—"Federation Work," conducted by programme committee.
Music—(a) "Mazurka," Mlynarcki; (b) "Prayer," Schubert, Thomas Couper.
Report on Palisades Park—Miss Elizabeth B. Vermilye.
Report on the Audubon Society.
2 o'Clock — Music — Montclair High School Banjo Club.
"Vacation Schools," "Summer Study Clubs," Mrs. Eva D. Kellogg.
"Vacation Houses," Miss Lillian Betts.
"School Gardens," Miss Louise Klein Miller.
Music—Selections with violin obligato, Mrs. Toennies, Mr. Couper.
Resolutions and farewell words.
Federation song.
Adjournment.

The entertaining clubs are the Town Improvement Association of Montclair, which is an organization of some 360 members; the Wednesday Afternoon Club, the Social Literary Club, the All Round Club, the Daughters of the Revolution and the Woman's Club.

The spring meeting of the federation originated in the memorial service held in honor of Mrs. Charlotte Emerson Brown, one of the best known of the early club women. That was in 1895, and the following year the clubs of Trenton entertained the federation in that city. In 1897 Englewood club women entertained the clubs, and in 1898 the club women of Plainfield were the hostesses. The Woman's Reading Club, of Rutherford, the Monday Afternoon Club, of Passaic, and the Woman's Literary Club, of Arlington, joined in entertaining the federation. In 1900 Cranford gathered unto itself the federation, and in 1901 the Boonton clubs entertained the women in their charming town among the hills.

It appears that the Jersey City clubs are to unite in inviting the federation to that city for the fall meeting.

There are to be several prominent figures at the session on Thursday, who do not appear on the programme, and there is no doubt that there will be a good deal of lobbying in anticipation of the fall election.

Miss Mary McKeen, of Camden; Mrs. A. O. Field, of Orange, and Dr. Dunlap, of Vineland, are to be the central figures of the storm.

Brick Did Damage.

While Martin Whalen and Herbert Conover, two young boys, were enjoying a romp on the Fairview avenue baseball field, yesterday afternoon, Conover was accidentally struck in the head with a brick thrown by Whalen. His head was severely cut, requiring medical treatment. Conover was unable to carry his newspaper route last evening.

Scott Found Guilty.

In the city court, this morning, John Scott was found guilty of the charge of assault preferred against him by Miss Mamie Kleiner. A suspended sentence of $50 to keep the peace was placed over him for one year.

COLUMN FOR THE SHOPPERS

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

The newest and finest line of bicyles at Van Winkle's on North avenue. He can sell you a bike or let you one for a day's outing.

For an afternoon's outing there is nothing like one of those handsome rigs you can yet at Love's livery stable on East Second street.

Make your lawn more attractive by the addition of a few flower pots placed at convenient spots. Gavett, the West Front street crockeryman, has a large lot to select from.

McDonough Brothers, ice dealers, are enjoying a steady increase in trade. They sell pure ice at a figure that makes it inexpensive for the householder or person who uses large quantities.

Have you seen the outing and summer shoes at Willett & Son's shoe store around the corner? They are just the thing for this season of the year. They also have a superior line of patent leather shoes for summer wear.

Warnock's strawberry shortcake is conceded by everybody to be "the kind that mother used to make." At any rate it is delicious as are all of his specialties in the cake and pastry line. Ice cream, too, delivered to any part of the city.

At Callahan & Son's store on Richmond street, can always be found a fine stock of fresh groceries. This firm has been in business for many years and has won the confidence of the people by fair dealing. Give them a trial order.

Putnam & DeGraw have received their stock of summer goods which are attracting the attention of the people for their fine quality and reasonable price. An inspection of these goods will convince you that it pays to trade at this store.

It remained for L. W. Randolph, the West Front street druggist, to introduce something new at his soda fountain and yesterday he announced the new drink "Ping Pong Frappe." It is a delicious concoction and is sure to become popular with all lovers of refreshing drinks such as Mr. Randolph dispenses.

Fraternal Visit.

Thirty members of Star of Elizabeth Council, paid a fraternal visit to Martha Washington Council, No. 23, last evening. Among them was District Deputy Philip Hanschene, of Elizabeth, and the initiatory team, which initiated several candidates. At midnight refreshments were served.

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. W. Randolph.

BABY IN A PUMPKIN.

Vegetables Raised in Santa Clara Valley Afford Shelter and Play Room for Children.

Nowhere else in the world do pumpkins and melons and squashes flourish and assume such proportions as in southern California. The last season has been an unusually good one for the product of the vine, and some remarkable specimens, probably never before equaled, have been grown. Great fields are literally covered with pumpkins, and in the young walnut orchards they litter the ground as though hauled there in carloads.

Ventura county is responsible for an extraordinary specimen of the common California pumpkin which weighed a trifle less than 400 pounds and was converted into a calf barn. A window and door were cut in the ends of the giant, and the calf, which was six weeks old and large for its size, found plenty of room inside. The circumference of the pumpkin in the center was exactly ten feet.

GIRL IN THE PUMPKIN.
(Vegetable of Vast Proportions Grown in California.)

The other curiosity was raised in the same county and was on exhibition at Santa Paula until a few weeks ago, when the hot weather caused decay. This pumpkin, though it weighs only 230 pounds, is even more distinguished than its neighbor, because it is the head of what undoubtedly is the most extensive family of its kind that ever sprung up. On this vine, which grew in the middle of a large walnut orchard without fertilizing or special cultivation, were 12 other pumpkins, each weighing an average of 180 pounds. A little calculation shows that there was over a ton of pumpkins on one vine—2,390 pounds, to be exact. From this the possibilities of a field of a hundred acres, such as are common, may be judged for productiveness.

The little girl—probably the only woman who ever lived in a pumpkin—is Miss Rolls, granddaughter of Rev. G. F. Stewart, of Santa Paula, and she is four years old. She is seated on an ordinary child's chair, also inside of the pumpkin. This pumpkin measures seven feet eight inches around the "waist," and ten feet eight inches in circumference lengthwise. Standing on end, as here shown, it is three feet nine inches in height. It was raised by C. C. Teague, manager of the Blanchard ranch, in the South Santa Clara valley.

NERVY BOER OFFICER.

Commandant Smonnberg's Unique Attempt to Escape from Prison at St. Helena.

A Boer officer, a prisoner on parole at Deadwood camp, St. Helena, made an extraordinary attempt recently to escape from captivity on board one of the Union Castle liners. He had himself inclosed in an innocent-looking case addressed to a captain of the Fourth Gloucester regiment, and this was put on board the steamer.

BOER'S MEANS OF ESCAPE.
(Box in Which Burgher Commandant Fled from St. Helena.)

That the ex-commandant allowed himself no elbow room is evident from the fact that the case measured four feet three inches by two feet four inches. It was of three-quarter-inch deal.

After three days at sea the man was discovered and was unpacked in a very thin and shaken condition, declaring that his experiences had been worse than a sojourn in the nether regions. He turned out to be Commandant Smonnberg, and on being brought before Col. Evans said that he had intended, if he had reached England, undiscovered, to get out of the case at night and make his escape to Holland.

Before his detection he had once left the box to stretch himself.

Did Smith Write Burns?

The latest literary quip is an argument that the poems of Robert Burns were really written by Adam Smith, author of "The Wealth of Nations." It is as plausible as most of the books on the Baconian origin of Shakespeare's plays.

Pictures in Japanese Temples.

The votive pictures (yema) or Japanese temples are an outgrowth of an old custom. In ancient times departed warriors were honored by offerings of sake and rice placed before their tablets and tombs. As the idea gained ground that their spirits hovered around their graves, besides food a certain number of spotless white horses were provided with which these spiritual worthies might take recreation. So it became the custom in wealthy shinto temples to keep one of these sacred animals. There were many shrines that could not afford to buy a white horse, so the next best thing was to get a picture of one; hence the name yema (picture horse) from ye (a picture) and uma (a horse). The use of the yema was first confined to the shinto religion, but the Buddhists took kindly to the custom. The word yema has long lost its primitive meaning and has become a generic name for every picture hung up in Shinto shrines or Buddhistic temples.—Detroit Free Press.

No Time Wasted.

Probably since the world began, there was never a period when men wasted their time as little as they do now. Whether they use it well or ill, they at least do not let it slip away empty. Never was the fascination of work so potent as at the present moment, and never before were the same keenness and concentration displayed in the pursuit of distraction. Energy is the dominant quality of the Anglo-Saxon race, the quality they love to exercise, the quality they cannot choose but admire. Work is no longer regarded as a necessary evil or even wholly as a means to an end; it is valued for its own sake. The richest men in America work as hard as the poorest—or at least pretend to do so—lest the society in which they move should suppose them men of leisure, a supposition which would be, we understand, against an American, whatever his position in life.—London Spectator.

Easily Provided For.

A Washington woman who has a home that is in reality a small farm, in the suburbs close by this city, employs a colored youth as a man-of-all work around the place. He attended divine service recently and was evidently very much impressed with what he heard at church in reference to religious requirements during Lent. Returning home from the house of worship he literally took away the breath of his employer by announcing, in all seriousness:

"You needn't bother about me during Lent. Just give me a dozen eggs for breakfast every morning, and plenty of oysters and fish and I'll manage to get along very well without meat."—Washington Star.

Chose Wrong State Flower.

It is dangerous for legislatures to dabble in botany. A few years ago the Minneapolis legislature appointed the moccasin flower, which is called Cypripedium colescaius, state flower. The ladies of the St. Anthony Study Circle declare that the variety appointed by the legislature doesn't grow in Minnesota, and that the name of the moccasin flower that does is Cypradedium reginae. So the Gophers have been smelling of the wrong flower. The present legislature is expected to depose cypripedium and put cyprapedium in the seat of honor.—N. Y. Sun.

Women and Music.

We all know with what enthusiastic, even religious, devotion women have loved music in all ages, and particularly in this age; one may almost say music would have perished but for the active sympathy of women for the art and its artists; and we all know, further, what brilliant heights of excellence have been attained by women as executive musicians, both in vocal and instrumental kinds; yet no woman has ever yet composed any great music.—Sidney Lanier, in Lippincott's Magazine.

The Mail of Rulers.

A statistician has been comparing the daily mail of sovereigns, and finds the pope receives the most—some 23,000 letters a day. In the words of the old college song: "Oh, no, I would not be the pope." He has, however, 35 secretaries to help him. King Edward has 1,000 letters and 3,000 newspapers a day, the czar and the kaiser 700 letters each, the king of Italy 500 and the young queen of Holland from 100 to 150.—Springfield Republican.

Between the Girls.

Miss Gaddie—Yes, and she said she couldn't understand it at all.

"But didn't you tell her I had the chicken pox?"

"That was just it. She said you were no chicken."—Philadelphia Press.

Never Pleasing.

Mrs. Mitford—What do you think of this vivisection question? It must be awful to be cut up alive.

Mrs. Graham—Yes; and it is awful to be cut dead, as I was by one of my dearest friends last evening.—Boston Transcript.

One Man's Theory.

Hixon—I wonder why some folks think the moon has anything to do with making people crazy?

Dixon—Probably the idea originated with some man during his honeymoon.—Chicago Daily News.

Different Ways of Doing It.

The snow is never too deep for a woman to attack with a broom, and never so light that a man doesn't think he has to have a shovel. — Atchison Globe.

The "RAPID" Woman

WHEN this phrase appeared on the blackboard at the meeting of the Society For the Studying of Character (S. F. S. C.), there was universal consternation.

"Oh, dear me!" exclaimed little Mrs. Prim disapprovingly.

But the speaker for the day put them all at their ease. "You mistake, ladies," she remarked suavely. "The rapid woman need not necessarily be loud or—er—objectionable in her ways. She is, in fact, an ordinary respectable woman like you and myself and is simply a product of the twentieth century who is suffering with strenuitis or an overdose of energy."

"A sort of a female rapidtoodleum?" ventured one of the members, referring to a rapid transit machine invented by a New York humorous artist.

"Exactly," continued the speaker. Then she cleared her throat and went on. "The rapid woman is made, not born. From earliest childhood she has had up to date parents who have continually dinned into her ears that the main thing in life is 'to get there' and that not to 'get there' is the depth of miserable failure. Armed with the firm determination of 'getting there,' the rapid woman rushes through life at a dizzy rate. Time is all too short for her many schemes. She no sooner begins one plan than she feels compelled to drop it for another which looks to her more promising than the first. In the same manner she rushes from friend to friend and from acquaintance to acquaintance, using them for all they are worth and then dropping them like so many sucked oranges. The rapid woman studies art today and music tomorrow. She no sooner makes a success in one line than she abandons it for another.

"In her feelings, too, she lives in a perpetual rush. Today she loves, tomorrow she hates, and on the next day she will be utterly indifferent. If a man pays the slightest attention to the rapid woman, she immediately jumps to conclusions. After she has seen him twice she falls violently in love with him and watches anxiously for signs indicating that he returns her affection. She magnifies everything he says, tortures herself with the thought of what this or that phrase on his part could have meant or what he was thinking of when he looked at her in a certain way. When she next meets him, she naturally finds him slow compared to the mental image of him she has been creating. Never mind. She helps him along, fairly makes love to him in her wild efforts to bring him along to the point faster; indeed, the rapid woman has even been known to propose when exasperated by the slowness of the man with whom she had to deal. In this way she loses many chances by her hothouse rate of forcing things. No man, or woman for the matter of that, likes to be rushed and hustled—yes, that's the word, hustled—along, and earnest love, like friendship, takes its own time in growing."

SHE FAIRLY MAKES LOVE TO THE MAN.

"But does the rapid woman succeed?" asked little Mrs. Prim anxiously.

"Not unless she changes her disposition," retorted the speaker. "As long as she rushes through life at that rate she misses the best things in it. She does nothing thoroughly, but wants to get through with it almost before it is begun. She is incapable of good work, incapable of honest love, incapable of enduring friendship, and those around her see it and are afraid of her. She suffers, too—suffers more than people imagine, because no one can keep up with the rapidity of her thought, the restlessness of her nature, and consequently she feels by herself and utterly alone. Altogether the rapid woman is one of the most unhappy creatures in the world, and unfortunately, thanks to the modern trend of things, her number is increasing every day."

MAUD ROBINSON.

The Sturgis Wager

A DETECTIVE STORY
BY
EDGAR MORETTE

[Copyright, 1899, by Frederick A. Stokes Company.]

The last paper which Murdock had been examining lay upon the desk before him. From the closely printed columns stood out in bold relief the glaring headlines:

MURDER IN A CAB.

MYSTERIOUS ASSASSINATION OF AN UNKNOWN MAN, IN BROAD DAYLIGHT.

CABMAN REILLY DENIES ALL KNOWLEDGE OF THE CRIME.

Miss Murdock's glance rested carelessly upon these words for an instant. They aroused in her nothing more than the mild curiosity which attaches to events of palpitating human interest, when they have been congealed in the columns of the daily newspapers and served to palates already sated with sensational verbosity.

"Mary said you wished to speak to me," said the young girl, after a short pause. "I thought I would step in to see you before going to Mr. Sprague's."

"To Sprague's?" inquired Murdock, fixing his keen eyes upon the young girl. "Ah, yes; I remember he spoke of the appointment last night. How is the portrait coming on?"

"It is almost finished. Probably only one or two more sittings, at the most, will be necessary."

Agnes seemed slightly embarrassed by the fixity of her father's searching glance. She settled herself in an armchair and assumed a look of deferent expectancy.

Not a word of affection had passed between father and daughter; not a caress had been interchanged. The relations between this impassive man and his charming daughter were those of well-bred, if somewhat distant, relatives. On the one hand there was the uniform courtesy of the man of the world toward a woman; on the other, the deference of a young girl of good breeding toward a person much older than herself. But the note of cordial and intimate affection between father and child was absolutely missing.

And yet Agnes Murdock was naturally of an affectionate and expansive nature. During her mother's lifetime the two women had been inseparable companions, united by a strong bond of sympathy.

Mrs. Murdock had been an invalid for many years before her death, and with Agnes had lived either abroad or in the south during much of the time in order to escape the rigors of the northern climate. Thus the father, engrossed as he was with his occupations and his scientific researches, had seen but little of his daughter during her childhood, and had been looked upon by the child almost as a stranger.

When at last, after her mother's death, Agnes, heartbroken at the loss of her only friend, returned to the parental roof, she was a girl of 16. In the first loneliness of her bereavement, when, hungering for human sympathy and consolation, she turned to her father, she received patient and courteous attention, with an offer of all the material comforts and luxuries which wealth could procure; but she failed to find the only thing she needed—a responsive human heart.

And yet, behind the cold and selfish exterior of the chemist, the young girl had touched a chord which had never vibrated before in this strange man's being. It is probable that the feeling awakened in him by his lovely daughter was the nearest approach to an absorbing human affection of which his nature was capable. Perhaps if the child had been sufficiently experienced to read her father's heart she might have persisted in her advances, and thus ultimately have conquered the cold reserve she had at first encountered. But she was proud and impulsive, and, bitterly disappointed in her first attempt to win from her father a demonstration of affection, she withdrew into her isolation, and ever after met his calm courtesy with an equally reserved deference. The abnormal situation, which at first was maintained only by an effort on the part of the young girl, lost with time much of its strangeness, and ultimately crystallized under the potent force of habit, so that it was accepted by the two as the natural outcome of their relationship.

"I SHOULD THINK YOU WOULD WELCOME HARD WORK AS A PLEASANT CHANGE."

In the first pang of her bereavement and disappointment Agnes had turned for consolation to her books; and, being left free to dispose of her life as she saw fit, she had planned a course of study, which had in due time received its consecration at one of the leading colleges for women.

Upon her return from college she had, as far as she was permitted, taken charge of her father's household, and had presided with charming dignity and grace over the social functions for which Dr. Murdock's house now became famous. Up to the time of his daughter's advent the chemist's relations with the world had been chiefly through the clubs and scientific bodies to which he belonged. He was well received in the homes of the members of New York society; but in the absence of a woman to do the honors of his own home he was unable to return the hospitality which he enjoyed. Now, however, everything was changed. Agnes was glad to find an outlet for her energies in the task of receiving her father's guests, and, being a girl of remarkable intelligence and tact, she succeedd in creating a salon, in the best sense of the word. Many of the shining lights of the world of art, literature, science and fashion were among the regular devotees at the shrine of this superb young goddess.

Among the younger men more than one gay moth, dazzled by the light of the girl's beautiful eyes, had been tempted to hover near the flame, only to scorch his wings. Miss Murdock had already refused several of the "best matches" of the city during her two seasons, much to the relief of those young men who had not yet summoned up courage enough to try their fate, and much to the disgust of a few amiable young women and several designing mammas. The latter could not help but deprecate the wicked selfishness of a young girl who hypothecated and thus rendered temporarily unavailable much potential matrimonial stock, which, in the nature of things, would ultimately be thrown back on the market upon the selection by the fair one of that single bond to whose exclusive possession she was limited by the laws of church and state.

The fact of the matter was, that Agnes Murdock's ideal of life was high. She was determined, if she ever embarked upon a matrimonial venture, to do so only with a reasonably good prospect of finding in the wedded state a satisfactory outlet for the depths of affection which had remained so long unapplied in her tender maiden heart. No one among the young men who had sought her hand had seemed worthy of the great love she was ready to bestow. She was, therefore, still awaiting her fate.

"You wished to see me, sir?" the young girl gently insinuated.

"Yes," said Murdock, with great deliberation; "I wished to speak to you about—"

He watched her face intently, as if to read the effect which his words would produce. The light in his eyes was almost tender; but Agnes was not skilled in reading their scarcely perceptible shades of expression. She looked up inquiringly, noting only the slight hesitation in her father's speech.

"About a young man—" continued Murdock, with a quizzical smile.

A flush mounted to the girl's cheeks, and she fixed her eyes upon space.

"A young man who admires you greatly, and who—"

"Has he asked you to tell me this?" inquired Agnes, somewhat impatiently.

"Oh! dear no," laughed the chemist; "he is only too anxious to do so himself. He is a most impetuous fellow. But I thought it best to prepare you—"

"May I ask the name of your protege?" interrupted the young girl.

"Did I say he was my protege?" asked Murdock, gently. "I certainly had no intention of conveying any such impression. His name is Chatham—Thomas Chatham."

A look, half of amusement, half of vexation, came into the girl's eyes. It did not escape Murdock's close scrutiny.

"I judge from your reception of the gentleman's name, that his suit is not likely to meet with much favor in your eyes."

"I am not aware that I have ever given Mr. Chatham any reason to believe that it would," answered Agnes, stiffly.

"And yet you must have understood the drift of his attentions during the last few months, since—"

"Since it has been perfectly clear to every one else, you mean?

"And yet," the young girl continued, reflectively, "I do not see how, without downright rudeness, I could have done more than I have to show him that his attentions have been distasteful to me."

"Then I may infer," said Murdock, smiling, "that you would not break your heart if—"

He seemed to hesitate in the choice of his words.

Men Who Carry Letters.

The native runner postmen of Natal are strikingly picturesque objects when on business bent. With their sandaled feet and head dress of dried leaves, which rattle as they run, and a military greatcoat, underneath which is a garment called the mucetu, they travel for miles at a jog trot of four miles an hour, and receive as payment one pound (five dollars) a month. In Holland the extent of the mail service route is over 30,000 miles. The uniform of the postmen is semimilitary in character, and they themselves are said to be a remarkably handsome body. In Austria the government gives to the postmen every year one tunic, one pair of cloth trousers, one pair of linen trousers, one waistcoat and a cap, while every second year a coat and blouse are given. Previous military service is considered as postal service, and each year of war counts double.—Detroit Free Press.

Expensive Riding.

The most expensive season tickets in the world, perhaps, are those issued by the Congo Railway company. The first-class single fare for a journey of about 250 miles is $100. Latterly this company has issued season tickets available for one year at the following rates: For 4 return journeys, $475; for 8 return journeys, $665, and for 12 return journeys, $855. Naturally the issue of these tickets is very limited, so far only four having been delivered, but application for a fifth has been made. They are not printed, but written out on a piece of cardboard four inches by six inches, folded in two; on one side the date and name of holder are inserted and the other is divided in squares, where the beginning and end of each journey is filled in by the stationmasters at the time it is performed.—Detroit Free Press.

Hoofs Blacked.

As a pair of handsome bays swept up Fifth avenue, high stepping and well in hand, a man on the sidewalk suddenly burst into laughter and pointed a finger at the horses. Then others noticed what had attracted his attention and smiled. The big bays had as perfect a "shine" as any bootblack could put on. Their high action made them most conspicuous as they went up the avenue with their eight hoofs flashing as if they were patent leathers. This polish had come by easy stages from oiling the hoofs first to keep them from cracking, then making the oil black for the sake of neatness, and finally a genuine "shine," the inspiration of some coachman who probably got his salary raised for the original idea.—N. Y. Sun.

The World's Greatest Iron Range.

Dr. C. K. Leith, who is preparing a nonograph on the great Mesabi iron range of Minnesota for the United States geblogical survey, says that the rapid development of this range, since its discovery ten years ago, has, in itself, been sufficient to give American steel manufacturers the advantage in foreign markets. It is the greatest iron range known in the world, and the amount of ore in sight on the Mesabi is roughly estimated at 500,000,000 tons. Several of the mines are shipping more than 1,000,000 tons of ore a year.—Mining Journal.

Explained.

"It seems to me," said the young housekeeper, "there's entirely too much water in the milk you serve."

"It won't occur again, ma'am," said the dairy milkman. "You see, the farmer's cow has been giving the cows too much salt and it made 'em very thirsty. The farmer's got a new brand now.—Baltimore News.

Nothing to Support His Dignity.

HIS SINS FORGIVEN.

Boss Shepherd's Return to Washington Pleases the People.

He Ran the Capital Three Years and Made a City of It—Congress Ousted Him in 1874 and He Went to Mexico.

"Boss" Shepherd is coming back to Washington. He has made a great fortune in the silver mines of Mexico, and returns to his native city to spend his remaining days in peace. He is 67 years of age, and enjoys the distinction of being the best loved and best hated man that the capital city ever knew.

Alexander H. Shepherd's name will live in history as the originator of the new Washington. After all is said and done, the work of the experts who have planned the future Washington as a city of delight had the basis of "Boss" Shepherd's work to go upon. That is how he derived his sobriquet of "boss." For three years he was the absolute ruler of Washington, and in that time spent $40,000,000 in making it what it is today.

Alexander H. Shepherd, says the Philadelphia Press, is a native of Washington. He was born in the "flats" January 13, 1835. His parents were in ordinary circumstances. His ancestors for 150 years had lived in this country; some of them fought in the revolutionary war. Shepherd himself was for a time a soldier in the late war. His father became well-to-do before his death, which enabled the boy to obtain a pretty fair education. He entered Columbian university. But the executor of the estate, it is said, stole the money and young Alexander started to learn a trade to help support the family. Then he became a shoe salesman, and later learned to be a plumber and gas fitter. Within eight years of entering his apprenticeship he was a partner. Within the next 12 years he had built more than 400 houses in Washington.

His prominence in business led him into politics. He was a member of

ALEXANDER H. SHEPHERD.
(Has Just Returned to Washington After Long Exile.)

the board of common council of Washington before he was 25. Two years after, in 1862, he became president of the body. He was a member of the levy court in 1867, and president of the Citizens' Reform association in 1870. Then congress turned Washington and the District of Columbia into a territorial government. He was appointed governor of the district, and president of the board of public works. He had always borne the reputation of being a progressive, liberal, yet determined man.

Washington at this time was a drowsy, half-northern, half-southern city. It had been laid out on liberal lines but had never conformed to them. It had no adequate building laws. Its streets were mud holes in winter and dust distributors in summer. Shepherd determined to alter this. He had the power and he proceeded to use it. One morning the people of the old town wakened to find hundreds of men at work on the streets. It was the advance guard of "Boss" Shepherd's legions.

Within the next three years, from June 1, 1871, to June 24, 1874, "Boss" Shepherd ruled Washington with a rod of iron. Men who began by praising him ended by cursing him. As improvements grew taxes increased. Many men were financially ruined by the burdens imposed upon them. Newspapers in other cities were the only avenues for the maledictions of the citizens; the local papers were bound hand and foot by the influence of the "boss" or silenced by a knowledge that he was doing the right thing in improving Washington, although it was unpopular at the time.

Nothing halted his determination. The city became a hive of municipal industry. All streets of any importance underwent transformation. They were graded, sewered and paved, and it is now admitted that the work was well and admirably done. Some idea of the improvements that Shepherd made in Washington may be gleaned from these interesting figures. He planted more than 10,000 trees and paved 118 miles of streets, besides laying 207 miles of sidewalks. His army of men dug and carted away 3,340,000 cubic yards of earth. He had constructed 317,196 feet of pipe sewers of 12 to 15 inches in diameter; four miles of sewers from 10 to 30 feet in diameter and over five miles of sewers from 3 to 7 feet in diameter. He laid 30 miles of water pipe and nearly 60 miles of gas pipe. In addition to this he constructed 39 miles of roads in the suburbs of the city.

SPORTING NEWS.

ON THE DIAMOND.

Albert Egan will be unable to field for the Y. M. C. A. team for several weeks. A badly split finger has forced him to retire temporarily. The injury is improving rapidly.

Manager Muir has arranged for a return game with the Dunellen A. C. for the Safe Works team, Saturday afternoon. It will be played on the Safe Works grounds at South Second street and Clinton avenue.

In giving the players to comprise the Hope team in the League, the name of Ben Evans was unintentionally omitted. He is at present ill with typhoid fever but will soon be out and able to play. He signed originally with the Safe Works team but later reconsidered.

Apparently the Westfield team is beginning to realize it will not be an easy thing to down the local Y. M. C. A. team when they play one week from Saturday. The management has taken pains to strengthen it in several spots and Westfield rooters are not so enthusiastic over the outcome as they were when the match was first arranged.

The Hope team is out every evening at present for an hour or more of practice work Several of the members are eliminating their weak points and before the League games they expect to be in the best of shape. Most of the men are being put through a course of batting work under the watchful eye of Manager Cose and some of them have become experts with the stick.

The New York Athletic Club will go against the Westfield's, Saturday. This game should be one of the best in the entire schedule. The New York A. C. is composed entirely of University graduates and their game is clean and fast. The character of the attendance at the games thus far shows a return of the old-time interest to the distinctive American sport. The management is catering to the very best of the sport and as long as they so continue the public will be with them. Decoration Day there will be two games at Westfield, Cartaret in the morning and the Maujer A. C. of Brooklyn, in the afternoon. Saturday, May 31, the opposition team will be the Y. M. C. A., of this city.

Under the heading "High School Notes," the Jersey City Journal prints an "account" of the game recently played by the Jersey City High School team against Plainfield High. The score is given as 8 to 2; the features of the game are two remarkable plays by Jersey City; the game was lost because two regular players were ill. Now, the Jersey City boys must have lingered by the banks of a Lethean stream on their homeward journey, and conveniently forgot all about their severe defeat on Pittis field. In the whole nine innings Jersey City made but two scores, one in the fifth and one in the seventh inning—both charity scores. In eight innings Plainfield High piled up eighteen—not eight—runs. Jersey City made the poorest showing of any aggregation that has appeared in Plainfield this year. The locals put all their substitutes in the game to give them a chance to limber up. About features, how about Van Aukens' pitching? Jersey City got two lonely base hits in the whole game, one by Lillis, one by Williams. They both scored and not another man on their side knew what it felt like to get around the bases.

Warning This Time.

Mrs. Rilling, of Harrison avenne, swore out a warrant yesterday for Mrs. Pasch, a neighbor, as a result of a quarrel and linguistic contest. Police Magistrate Doud suspended sentence last evening with a warning.

In Justice Hand's Court.

Judgment for the full amount in favor of the plaintiff was awarded by Justice Hand, yesterday afternoon, in the contract case of Cook against Stewart. L. A. Clement represented the plaintiff.

Ralph L. Morrow, of East Fifth street, went to Philadelphia this morning, where he will be a witness in an important will case.

BISHOP HERE.

Confirmed a Class of 160 Boys and Girls at St. Mary's Church This Morning.

A class of 160 boys and girls, of tender years, was confirmed in St. Mary's chuch, this morning. Bishop O'Connor, of Newark, officiated and was assisted by his secretary, Rev. Father O'Neill and Rev. Fathers Whelan, of Bayonne; Miller, of North Plainfield; Nardiello, of Bloomfield; Sheehan, of Newark; Dr. Kelley, of Hoboken.

Dr. W. C. Boone, of this city, acted as godfather for the boys and Miss Annie Slevin as godmother for the girls. Anthems were sung by the children, including "Veni Creator."

BIRD REAPPOINTED.

Plainfield's Postmaster Named for Another Term by the President.

Postmaster Elias H. Bird received word yesterday that he had been reappointed to his present position by President Roosevelt. This was not a surprise as Mr. Bird was the only candidate for the position. The people of Plainfield will congratulate Mr. Bird, however, for he has been a most efficient and painstaking official.

Died After Amputation.

Miss Mary Gorman, a young woman, died in Muhlenberg Hospital this morning, following the amputation of a leg ten days ago. Complications followed the operation which were the real cause of death. She leaves a sister and brother at Scotch Plains, where she made her home.

In Justice Mattison's Court.

The case of the Trenton Abattoir Company against Edward Mercier, and that of the same company against Edward Mercier and Sylvester B. Scribner came up in Justice Mattison's court at 2 o'clock this afternoon.

Gone to Convention.

D. W. Littell, E. M. Laing, W. A. Woodruff, Joseph Blimm, G. Thorn and Chief T. O. Doane, of the Exempt Firemen's Association, went to Trenton today to attend the State convention of the association.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. Randolph.

FATHER KERR DEAD.

Pastor of Dunellen R. C. Church Died Suddenly at Home of His Parents at Annandale.

(Special to The Daily Press.)

Dunellen, May 21—Rev. Father Kerr, pastor of St. John's R. C. church of this place, died yesterday at Annandale while on a short visit to his parents. Father Kerr had been ill for some time, but his death yesterday was wholly unexpected, as the night before he had apparently been in as good health as usual.

Father Kerr served in the Spanish war, and while in Cuba contracted yellow fever from the effects of which he has never fully recovered. He was twenty-seven years of age and this was his first charge since he was ordained. Since coming to Dunellen he had won the love and friendship of all, as much by his personality as by his earnest work, and his death will be sincerely regretted

The funeral services will be held Friday morning at 11 o'clock at the church at Clinton.

MR. CUMING EXPLAINS.

Contractor Was Paid But Failed to Settle With Other Company.

To the Editor of The Daily Press:—Lest there should obtain a false impression in connection with the account published in your last evening's issue of a suit on contract by the Gurney Heater Co. against LaRue & Cuming, I desire a few lines of explanation, as the defence having been made upon technical grounds, the true reason for my contesting the claim did not appear.

The suit was for supplies furnished to a contractor, upon his own order, for use in one of my properties nearly two years ago, and for which the said contractor was duly paid although he failed to settle with the Gurney Co. It is claimed that through a paper which I signed for this contractor, while LaRue and I were partners I had indirectly guaranteed his account. Should this claim prevail, I would be compelled to pay twice for the same work. The debt was not contracted either by Mr. LaRue or myself as was stated. I have not personally appeared in the case, but believe the matter will be appealed.

Thos A. Cuming.

Rulers of Alien Races.

The British flag is an emblem of sovereignty over nearly 9,000,000 square miles of land, inhabited by almost 400,000,000 people. Of these scarcely one-eighth are of British birth or descent and the black and yellow subjects of his majesty, Edward VII., are increasing much faster than are the pale faces. Recognizing this, it is not to be wondered at that the prince of Wales urged the necessity for more Britons on the colonial possessions of the empire. Of the 86,000,000 people under the American flag 20,000,000 are black, brown or yellow and 10,000,000 of the whites are of foreign birth. As there are nearly two native born Americans to every one of the colored or of foreign descent, our situation differs materially from that of the United Kingdom, where the population is eight to one in favor of the colored.—St. Louis Republic.

A Revival.

Revivalism in Jamaica has its tragedies and its comedies, but under no circumstances its advantages. The excitability of the black man is animal, it leads him backward toward the jungle, toward Obeahism. The noisy revivalistic meeting is a more serious scandal than a tea party. A doctor told us that not long since he was called in to a meeting, where he saw a woman lying on the ground, while her coreligionists danced a ketch-dance in frantic circle around her, proclaiming her to be "in de spirit." He found she was dead from a fit caused by excitement. But the consequences of these "pious orgies" may be merely inconvenient; as in the case of the black lady, who, when "in de spirit," climbed upon her neighbor's roof and sat there for two days. The neighbor found this inconvenient.—Cornhill.

Irish Burial Places.

The Irish are very particular as to where they will be buried. It goes without saying that they want to be interred in consecrated ground; but they also wish to be laid with their own in the ancient hallowed spot where their ancestors for many a generation have been put to rest. Each family has its burying-place, and whenever a member dies—unless it be beyond the seas or at some insuperable distance—he is brought to be buried with his sires. Hence it is that funeral processions are oftentimes seen to wend their slow way past many a wayside church yard, to some far-off burial ground, because it is there for so many and many a generation the forefathers of the deceased have laid themselves down for their last long sleep.—Donohoe's.

Windows of Stone.

In a new building attached to some boiler works in Germany a novelty in windows has been introduced. Light is introduced through stone windows. The ordinary pane of glass were impracticable on account of the nearness of the works to the railway lines, so pneumatic glass stones have been used. From the outside the appearance is the same as the so-called "Butzen" panes. They are translucent, and, at the same time, as strong as the stone wall in which they are set. They will withstand any pressure or blow that the walls will stand.—Scientific American.

FUMERAL OF RICHARD O'NEILL.

Services Held in St. Mary's Church This Morning by Father Farley.

In St. Mary's church, this morning, funeral services were held over the remains of Richard O'Neill, who died at his home on New street, Sunday evening. Many relatives and friends attended. Mass was said by Rev. Father Farley after which interment was made in St. Mary's cemetery. The pall bearers were Patrick Muldoon, Thomas and James Buckley, David McInnis, Daniel Conway and Thomas King. Among the many floral tributes was a large pillow from Mr. O'Neill's shopmates at the Potter Press Works.

NO DECISION YET.

Vice Chancellor Heard Arguments in the Moore Will Case.

Argument was heard before Vice Chancellor Reed, in the Prerogative court, at Trenton, yesterday, in the Moore will case. An appeal was made from Judge Vail's decision in sustaining the will when an attempt was made by Mrs. Moore to break it last December. Decision in the matter was reserved. Counsellor George Ball appeared for the executors and heirs to sustain and W. S. Angleman appeared for Mrs. Moore.

To See Him Off.

Leonce Texier, of Watchung, will sail tomorrow morning on the steamer LaTouraine for France, where he will spend two months in recreation. At a meeting of the I. C. T. Club, held last evening, of which he is a charter member, a committee, composed of Claire Bickell, Edward Texier, and Howard C. Drake, was appointed to accompany him to the steamship dock and oversee his departure.

Decided For Classified Assessments.

At the session of the Grand Lodge A. O. U. W., at Trenton yesterday, the much discussed question of classified assessments came up and was definitely decided. Hitherto it has been the custom to levy assessments according to the number of deaths in the order, but hereafter the society will have a classified assessment with the age of members as a basis.

Promised to Do Better.

At his wife's request, John Vreeland, of West Second street, was arrested at his home, last evening, for disorderly conduct. When arraigned in the city court, this morning, Mrs. Vreeland testified that her husband had been drinking and had ill-treated her for several months. He promised to do better and, at the complainant's solicitation, sentence was suspended.

Meat Goes Up.

Today meat from the wholesalers is one cent a pound dearer than it was last Wednesday. As far as learned no similar advance has been made yet by the retail dealers.

CARD OF THANKS.

Mrs. Charles C. Lister, of Willow avenue, desires to express her thanks to the members of Somerset Council, Jr. O. U. A. M., and the many friends who so kindly assisted her during her recent bereavement.

IT BEGAN YESTERDAY.

Arranged Under the Direction of the Principal, Miss Millicent E. Humpston — Her Assistants — Remarkable Display of Work by Pupils of Different Grades.

The second of the series of individual school exhibits arranged by the Board of Education, took place at the Washington building, yesterday afternoon, lasting from 2 until 6 o'clock. Two hundred visitors were registered in that time and so much interest was taken in the work, it was deemed advisable to continue the exhibition this afternoon during the same hours.

Miss Millicent E. Humpston, principal of the building, was directly in charge and was assisted by her corps of teachers consisting of Mies Elizabeth Angell and Miss Louise Rosson, kindergarten; Miss Margaret Cotes, first year A; Miss Margaret Cory, first year B; second year, Miss Mary Draper; third year, Miss Jennie Owens; fourth year, Miss Anna Booraem. All were in attendance during the afternoon and escorted the visitors about the building pointing out and explaining the various grades of work and methods by which the pupils are advanced along the school curriculum.

Without exception, the designs, penmanship, drawing and originality used in all lines of work, reflected credit on teachers and pupils alike. Indications of much conscientious effort on the part of both were always apparent, the one to impart and the other to receive accurately. Although the studies in the Washington building do not advance as far as those of the other schools, the greater portion of the exhibit did not reveal the fact. Much of it was executed with a deftness and skill seldom manifested by pupils of more mature years.

Beginning with the kindergarden, the exhibit was arranged by subjects and not classes. It embraced four years of language work, arithmetic in five grades, geography in the three upper grades, third, fourth and fifth, and penmanship and drawing through all grades. The kindergarden work was quite unique and consisted of a house, top shop and other buildings in miniature fitted with furniture and stock, all constructed on educational lines. Everything represented the practical use of a lesson absorbed. Arithmetic was called upon for the house fitting, the harmonizing of colors in the wall decorations and measurements for laying carpets. All was composed of the ordinary productions of this department.

The drawing started with free hand cutting in the first grade and then advanced by easy stages to the more difficult task of original designing and water coloring. Every year's display was highly interesting and some executions of object drawing in the fifth year were the cause of much wonderment. The pupils in this year showed especial proficiency in grasping the color scheme.

Lanugage work began in the second grade with compositions based on "Hiawatha;" in the third year on "Robinson Crusoe" and in the fourth on Norse legends. Other lines of this study were original sentences and letter writing in the third year, letters of invitation and regret in the fourth year, and original stories and biographies in the fifth year. The pupils' powers of thinking were given free play in this study and some of it exhibited no little ability. In the third year an original poem by Issie Kunzman entitled "The Revolution" is worthy of note. The first verse runs

"In the time of the Revolution, you know,
The farmers gave chase to the foe,
The cry of Freedom rang
And the guns went—bang.'"

The remainder is equally as good for a child of tender years and is but a sample of the creditable composition work.

The study of geography started with the third year and included forms of physical work, the study of all continents by map drawing and the products of various countries by means of comparisons in drawing. Compositions were shown which em-

COLONEL'S BIRTHDAY.

Being Quietly Celebrated at His Home at "Tunlaw" Today.

Col. John F. Wilson, one of North Plainfield's prominent and respected citizens, is today celebrating the anniversary of his birthday in a quiet way at his home, "Tunlaw." The event is made more memorable and enjoyable by reason of the fact that Mr. Wilson's daughter and his son-in-law, as well as his son, Alan Wilson, are at home. The colonel is just as young as ever and enjoys life in a quiet and peaceable manner. While his age is known to a few of his friends it is thought best to keep this matter a secret.

NURSES WANT UNIFORM LAW

HAVE FORMED STATE ORGANIZATION FOR THAT PURPOSE.

Some of the Provisions of the Constitution Which Has Just Been Adopted.

As stated in The Daily Press several weeks ago, the New Jersey State Nurses' Association is attempting to secure such legislation as will compel the registration of all trained nurses. There was a meeting of the association in Newark last Saturday. The matter of legislation was discussed at some length and was incorporated in the constitution of the organization, which was formally adopted at the meeting.

There were fifty members of the association present at the meeting which was called for the purpose of considering the adoption of a constitution, and, according to the laws accepted, the affairs of the organization in the hands of an executive board.

Any graduate of a training school holding a diploma is eligible for membership. In the constitution it is stated that the object of the association is to secure legislation for the protection and elevation of the profession of trained nursing, and to this end a bill will be drafted and brought before the Legislature, calling for the registration of nurses. Examinations, it is desired, shall be required before a nurse can be registered. In the bill it will be provided that a nurse shall undergo a prescribed course of study, and a recommendation will be made that all of the hospital curriculums be made similar.

The association was formed at a meeting of nurses held in the City Hospital December 4 last. The officers of the organization are: President, Miss Irene Fallon, of the Cooper Hospital, Camden; secretary, Miss Effie Fahringer, of Camden, and treasurer, Miss Martha Galatian, of Newark.

COREMAKERS RETURNED.

Settlement Made Which Was Satisfactory to Both Sides.

The Coremakers Union went out on strike at Pond Tool Works Monday morning. Yesterday after being out three days the coremakers, members of No. 97, International Union, were requested to report to work at 6:30 o'clock this morning. The points at issue have been settled satisfactorily to both parties by Andrew McCardell, superintendent of the foundry, in conference with Brother McGrail, a delegate from the International Union of America. The men reported for work as requested.

Another News Stand Probable.

The patrons of the New Jersey Central in this city will be pleased to learn that Alfred Lacey, the agent at the station for the Union News Company, has been given permission to place his stock on sale at the new station. This permission was granted by General Manager W. G. Besler, who is now a resident of North Plainfield. In all probability a news stand will be erected on that side of the tracks very soon.

Renovating The Netherwood.

The Hotel Netherwood is being papered and painted throughout by the New York Painting and Decorating Company, of Park avenue. This company has also received the contract for decorating E. C. Dorman's house on Central avenue. The company has a great amount of work on hand and is advertising for extra help.

Public Rehearsal.

The third public rehearsal of the Y. M. C. A. orchestra will be given this evening at the Y. M. C. A., when the very attractive programme published yesterday will be presented.

Ninth Birthday.

The Christian Endeavor Society of the First Baptist church will celebrate its ninth anniversary on Tuesday evening, May 27.

MANY GOOD THINGS.

To be Heard at Lotus Glee Club Concert This Evening.

As an additional attraction at the Lotus Glee Club concert in the First Methodist church, this evening, Charles L. Lewis has secured Miss Corinne Welsh, of the Collegiate church, New York, whose beautiful voice has placed her among the leading singers of the metropolis. She will sing Goring Thomas' "A Summer Night," the duet from "Il Travatore," "Home to our Mountains," with Mr. Lenox and with the Lotus Glee Club the famous quintette of "Ava Maria."

G. Morgan Stricklett has entirely recovered from his recent illness and will be expected to do double duty since he was unable to give his solos number last year. W. Stanley Grinsted, the new low bass, is in fine form and his singing is sure to please.

GRADUATION OF NURSES.

Exercises Will be Held in Chapel of Crescent Ave. Church Tonight.

This evening in the chapel of the Crescent Avenue church the annual graduation for trained nurses, under the auspices of Muhlenberg Hospital, will be held. Considerable interest is attached to this yearly event, and no doubt there will be a large attendance of persons who are interested in the hospital work.

The three graduates will be Miss Miss Margaret McGrath, Miss Nellie B. Smith and Miss May VanCampen. The address to the graduates will be delivered by Dr. F. C. Ard, of the hospital staff, and there will be other exercises appropriate to the occasion. The public is cordially invited to attend the exercises.

SECOND RECITAL.

Given by Dr. Gerritt Smith at Home of Mrs. J. K. Myers.

The second of the series of two recitals arranged by Dr. Gerritt Smith, of New York, was given Wednesday evening at the home of Mr. and Mrs. J. K. Myers on East Seventh street. As at the first recital the illustrations were given by Dr. Smith, pianist; Mrs. Gerritt Smith, soprano, and Hans Kronold, 'cellist. The selections presented were of the Scandinavian type, and the varied programme gave those present an excellent idea of this charming music.

No Sham Battle.

At the regular meeting and drill of Company K last evening it was announced that no sham battle would be held on Decoration Day. It will be held on July 4 and Company M, of Somerville, will be invited to take part. At the meeting next week there will be an election of a second lieutenant, a sergeant and two corporals.

Marked Rock.

While Thomas Hyland and Stephen Perrine were clearing a piece of land on Mr. Hyland's farm, yesterday, they found a corner of a rock which they intended to remove. They removed the earth about the rock, which they discovered to be 4x8 feet square and on the lower face of it were the figures XI cut about two inches deep.

Hope's Strawberry Festival.

Arrangements have been completed by the Ladies' Aid Society, of Hope chapel, for the annual strawberry festival which is to be held on Friday evening, June 6. Some special talent has been engaged for an entertaining programme to be rendered during the disposal of the luscious berries.

May Queen Festival.

A May Queen festival will be held this evening at the Calvary Baptist church.

NEW SCHOOL TO BE BUILT

IMPORTANT HAPPENINGS IN PISCATAWAY TOWNSHIP SCHOOL CIRCLES.

Township Supervisor Cathers and Principal Pittenger Were Reappointed Yesterday.

(Special to The Daily Press.)

New Market, May 22.—The voters of this township met Tuesday at the schoolhouse and voted to bond the township for $6,000 for the purpose of erecting a new four-room schoolhouse at East Bound Brook. The vote was 59 to 9. The new building will be erected on a large plot of ground given by Dr. Pierce, of medical fame. This improvement is much needed and will result in rapid progress in school mattters.

There was an important meeting of the Board of Education of Piscataway township yesterday in the New Market school. At that time Harry Cathers was re-elected township supervisor of schools and Harry Pittenger was re-elected principal of the High School department at New Market. A number of the other teachers were also re-engaged for another year. There were several other matters of important considered, including the taking of immediate steps toward the erection of the new school building which it is hoped will be completed by September 1.

WHY HELD THEM UP.

Justice Smalley Explains His Reasons for Action in Trenton Abbatoir Co. Against Hummer.

In reference to the recent action brought against Justice D. D. Smalley, of the borough, by Lawyer R. M. Clark, who represents the Trenton Abbatoir Company in its suit against Irma Hummer, the Justice was seen this morning by a representative for The Daily Press.

Justice Smalley was asked upon what ground Mr. Clark had asked the Supreme Court to compell him to deliver up the papers in the case. The Justice said that his reasons for withholding the papers in the case were that the cost in the first case had not yet been paid and he believes he has a right to hold them until they are paid. However, he said he had prepared the papers in the case and would forward them to the proper authorities in due time.

DEACON CHOSEN.

B. R. Force Elected to Fill Unexpired Term of E. E. Anthony.

After the prayer-meeting at Trinity Reformed church last evening, the meeting resolved itself into a business session for the purpose of electing a deacon to fill the unexpired term of E. E. Anthony, who recently removed from the city. O. W. Dunham, was chosen chairman of the meeting and F. E. Smith secretary. There were two names presented for the office, B. R. Force and H. W. Marshall. Mr. Marshall declined the honor in favor of Mr. Force and the latter was unanimously chosen.

For Consolidation.

Some good speakers are down on the programme to address the consolidation meeting in Saengerbund Hall tonight. William L. Saunders, Jos. O. Osgood, and Senator Charles A. Reed will be the principal speakers of the evening. A large crowd will no doubt turn out to hear the advocates of a Greater Plainfield present their arguments.

At Centennial Meeting.

Big Fish and Story.

What is considered to be one of the largest carp even taken from local waters was captured in Green brook, near Washington avenue, by Bert Bilyeu, of Somerset street, yesterday afternoon. It weighs within a few ounces of fifteen pounds. The fish was caught by hand, having become stranded in a foot of water.

Netherwood Opens in June.

The Hotel Netherwood is undergoing repairs preparatory to opening it early next month. Among the improvements is the papering of all the rooms. The contract has been given to the New York Painting and Decorating Company.

Engagement Announced.

The engagement is announced of Miss Elizabeth Tompkins Ginna, daughter of Mr. and Mrs. S. A. Ginna, of Watchung avenue, to A. Erickson Perkins, of Rochester, N. Y.

PROTEST AGAINST IT.

Government Gives Hearing to Objectors Against Jersey Central's Proposed New Draw Bridge.

Protests against a recent application of the Central Railroad of New Jersey for permission from the Government to replace its present bridge across Newark bay with a lift span having but one opening, was made by the Board of Trade in behalf of Newark interests at a hearing before representatives of the U. S. engineering corps, in New York, Tuesday.

C. H. DeForest, vice president of the Central Railroad, presented the case for the company. George W. Tompkins, president of the Newark Board of Trade, protested against the granting of the application. Lieutenant-Colonel C. W. Raymond presided at the hearing.

The chief objections against the building of the new draw were that navigation would be imperilled by a new set of bridges, owing to the tide, and that the company's charter called for the erection of a pivot draw with two openings which, claim the objectors, are necessary for the safety of vessels.

VETERANS IN SESSION.

Annual Encampment of New Jersey Department of G. A. R.

The thirty-fifth annual encampment of the New Jersey Department of the Grand Army of the Republic opened at New Brunswick yesterday and is being continued today. The veterans have been given a cordial reception and the encampment is one of the best ever held.

It was reported that the total number of Posts in the State is 107, a decrease of one over last year. The total number of members is now 5,650. During the year 450 members were added to the muster roll and 77 were dropped for various reasons. The department lost 174 members by death. There was expended for relief $5,068.35. At today's session the officers will be elected.

BOROUGH HIGH WON GAME

BATTED THE LINCOLN HIGH SCHOOL'S PITCHER ALL OVER THE FIELD.

Won Game by Score of 13 to 9 —Played a Very Clean and Snappy Game.

North Plainfield High School yesterday defeated Lincoln High School, of Westfield, by the score of 13 to 9.

The North Plainfield nine played winning ball from the start and always kept well in the lead of their opponents. Their batting and fielding were superior and they showed a marked improvement over other games this season. Stevens was in the box this time and he pitched a good steady game. Owen was between the catcher's lines. For the Lincoln Myer and Clark were the battery.

Following is the summary:

STOLE A PIANO.

That is What Richmond Authorities Claim McGlinchey Did There.

Continuing their investigations, the local police are daily learning more of the past history of John B. McGlinchey, at present awaiting trial at Elizabeth for flat robbing in this city. The latest comes from Richmond, Va., where the authorities claim he performed the Hurculean task of stealing a piano and placing it in pawn. No explanation is given as to how he removed the instrument and as from McGlinchey's physical appearance he could not lift a hand organ, the fact remains a mystery.

Voted for Consolidation.

At a meeting of Paughcaughnaughsinque Tribe, I. O. R. M., held last evening, the members decided unanimously in favor of consolidation with Wetumpkah and Miantonomo tribes. It was the concensus of opinion that three tribes in the one reservation was a needless expense and the interests of the order could be furthered by uniting. Wetumpkah tribe will vote on the project this evening.

Came Without Invitation.

Christian Sorensen, Sr., of Webster place, was tendered a pleasant surprise party, last evening, by sixteen of his friends. Music was the feature of the evening, some professional musicians being among the guests. At midnight a supper was served which brought the affair to a close. The surprise was arranged by Chris Sorensen, Jr.

Miss Tallamy Entertained.

Miss Ida Tallamy, of West Front street, entertained a few of her friends at her home Wednesday evening. Miss Tallamy rendered several piano solos. During the evening refreshments were served.

HIGH SCHOOL BEATEN IN THE LAST INNING

Plainfield High Met Its Match in Game With Rutgers Prep. School Yesterday.

PLAYED AT BRUNSWICK.

THE RUTGERS PREP. BOYS WON BY A SCORE OF 7 TO 6.

Score Was 5 to 1 in Favor of Rutgers at Start of Last Inning— Then High School Won and Lost the Game in That Inning.

The Plainfield High School team met its first defeat, yesterday, since the initial game of the season. Rutgers Prep. School had the honor of doing the trick by the narrow margin of 7 to 6. The game was the most interesting and the most exciting yet played by the High School nine and in the last inning they almost succeeded in winning. The game was played on Neilson Field, New Brunswick.

At the beginning of the ninth the score stood five to one in favor of Rutgers. Plainfield came to the bat and pounded the hitherto almost invincible Hay all over the lot for a total of five runs. This left the score six to five in their favor, but an unfortunate combination of errors in the field in the last half of the ninth lost them the game.

VanAuken and Moynihan were the battery for the Plainfield High, Hay and VanVechten for Rutgers. Only five hits were made off Van, but Hay was touched up for nine.

The detailed summary follows:

NEW CHURCH CLUBHOUSE

HANDSOME GIFT TO GRACE EPISCOPAL CHURCH OF ELIZABETH.

Given by Widow and Son of Edward Clark, and Will be Named After Him.

(Special to The Daily Press.)

Elizabeth, May 22—At the anniversary celebration of Grace Episcopal church, Elizabethport, Rev. Dr. Henry Hale Sleeper, the rector, made the pleasing and surprsing announcement of a magnificent gift having been made to the parish in the form of a first-class clubhouse, which, when completed, will cost about $60,000, and is to be known as the "Edward Clark Club."

The building will adjoin the present parish-house of Grace church. There is to be a new front put to the latter, which will lengthen the parish-house twenty feet and increase its gallery to double the seating capacity it has at present.

Rev. Dr. Sleeper talked enthusiastically about the gift, which he said was made by a wealthy New York widow and her two sons. The names of the donors, Dr. Sleeper said, he could not announce at present, but it is rumored that the family of the late Edward Clark, for many years president of the Singer Sewing Machine Company, is the source from which the gift comes.

Rev. Dr. Sleeper said the clubhouse would have a gymnasium, a swimming pool, bowling alleys, reading room, cardrooms, reception room, billiard room and library, together with a hall in which to hold entertainments. It will be, he said, one of the most completely equipped and finest structures of the kind in New Jersey. It is intended to have it entirely finished and ready for occupancy by Christmas.

PERSONAL.

W. L. Hetfield, Jr., of East Front street, is confined to his home through illness.

J. M. Smalley, of Craig place, is visiting his parents on Craig place for a few days.

Mrs. Jacob Blimm, of Somerset street, is visiting friends in New York for a time.

A young son has arrived at the home of Mr. and Mrs. Winfield S. Angleman, of West Front street.

Miss H. Squire, of Grove street, has returned home after a visit to friends at Pottersville and Liberty Corner.

George E. Hall, of Belvidere avenue, has written home that he is thoroughly enjoying his trip to the Pacific Coast.

P. C. Reilly, one of the officials of the New York and New Jersey Telephone Company, has been in this city for a few days on business.

Mr. and Mrs. W. W. Brooks, of Myrtle avenue, will sail for Europe Saturday on one of the Atlantic Transport Line steamers. They will be away all summer.

Mrs. Perrine, of New York, and Mrs. H. C. Thompson, of East Orange, who have been visiting their mother, Mrs. Edward Thorn, of East Second street, have returned home.

L. V. Green, editor of The Argus at Patchogue, L. I., returned home yesterday afternoon, after a very pleasant visit at the home of his brother-in-law, Edward J. Perrin, 87 Grandview avenue.

Frank Story, of this city, has received a letter from C. E. Hepburn, formerly of Plainfield, but now of California, in which he states that he likes the climate on the Pacific coast and is doing very well.

A Former Press Man.

William A. Stimpson, formerly of The Daily Press staff, is now assistant editor of the Asbury Park Daily Press, where he is doing excellent work. During the past year Mr. Stimpson has contributed a number of interesting articles for several leading magazines and his literary work is winning praise for his effort in this direction.

Wants Others to Know.

"I have used DeWitt's Little Early Risers for constipation and torpid liver and they are all right. I am glad to indorse them for I think when we find a good thing we ought to let others know it," writes Alfred Heinze, Quincy, Ill. They never gripe or distress. Sure, safe pills. L. W. Randolph.

SEASON IS BACKWARD AT LAKE HOPATCONG

But All Will be Ready for Business As Soon as the Warm Weather Arrives.

PLANS FOR THE SEASON.

MOST OF THE LAKE HOTELS ARE PLANNING TO OPEN JUNE 1.

Some Anglers Are at the Lake Now, But Bass Season Does Not Begin Until June 15—Lake Passenger Fleet is Being Overhauled.

Business at the resorts around Jersey's favorite Lake Hopatcong is still backward, the recent chilly weather operating against lake travel, and none but cottage owners, who come to inspect their houses and grounds, and anglers put in an appearance.

The various hotels have undergone their annual spring renovation. Nearly all of the lake hotels will open for summer business about June 1. The Breslin and Lake View will open some time during the week commencing June 15. The Westmoreland, at Landing; the Hotel Villa, at Mt. Arlington, and the Lake Pavillion, at Nolan's Point, are open the year around, of course, with a large reduction of household help during the winter. These houses are convenient for anglers just now.

The main building of the Mt. Arlington Hotel was burned on April 24. The work of rebuilding will be commenced early in the fall. To accommodate patrons who have heretofore made this house their summer home, the lessee, Mr. Levy, who managed the house last year, is having a large dining room added to the lower annex, and, with the two annexes and cottages, he will be enabled to accommodate about 100 patrons, half the number he carried last year. This house will be opened for the season on Memorial Day.

It is reported that the Raccoon Island House, which was sold a few months ago to settle an estate, will be open this year, but no definite information can be obtained. Most of the rentable cottages about the lake have been engaged.

Pickerel and perch fishing is reported as fairly good, the choice places at present being in the vicinity of Bertrand Island and Nolan's Point. The bass season does not commence until June 15.

The lake passenger fleets are being overhauled. At present but one boat, the large cabin steam yacht Ada of the White Line, is running on irregular trips, principally for freighting purposes. Her cargoes consist largely of new furniture and supplies for the various hotels and cottages. The Crescent of the same line is also held in readiness for passengers who have business along the lake. The boats of this line are being thoroughly overhauled.

Owners of cottages have been making short visits to inspect their building and grounds, noting what ravages have been made by the winter storms, and making provision for such repairs as may be needed.

The Lake Hopatcong Realty Company, with office at Landing, Morris county, owns more than 1,000 acres of land about the lake, which afford fully a hundred ideal camping sites. Pursuing the plan in vogue last season, the company offers to reputable applicants these sites rent free for the season, merely stipulating that no wanton injury shall be done to the property. First come, first served.

Perseverance's Anniversary.

June 13 will mark the thirtieth anniversary of the organization of Perseverance Lodge, No. 74, K. of P. The occasion will be observed by an entertainment and general good time for the members. A committee composed of Samuel Robinson, William N. Runyon, Walter L. Hetfield, Jr., Thomas Muir and Jacob Blimm is making arrangements for the affair.

Dangerous If Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartly, Yankeetown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. L. W. Randolph.

WHAT FREEHOLDERS WILL DO

PROMISE TO HOLD UP BOROUGH IMPROVEMENTS UNTIL VOTE IS TAKEN.

Their Representative Will Attend Borough Counsel Meeting and Ask for Vote.

The Somerset county Board of Freeholders has taken a hand in the annexation fight. There is a fear abroad that citizens of the borough may cast their ballots in favor of annexation. Thus Union county would ultimately benefit if the Somerset Board of Freeholders disbursed money for improvements in North Plainfield.

John Frech, counsel for the board, will attend the next meeting of the Borough Council, and demand, in the interest of the county, that an election be speedily held. Should his demands be flouted, appropriations for work in the borough will be withheld until such time as a vote has been taken over the question.

A hitch has already occurred over the building of a new bridge on Giraud avenue, over Green brook, the dividing line between city and borough. The Somerset county Board of Freeholders has opposed joint action on the matter fearing that in the end the improvement would be for the benefit of Union county alone.

It is understood that the Borough Council will at their next session appoint a committee to confer with a similar committee appointed by the Plainfield Common Council. In any event, it is not likely that an election can be held before the fall.

At the annexation demonstration this evening a committee from the Somerset county Board of Freeholders will be present to hear the arguments advanced. It is the intention of the "antis" to hold a demonstration at some future date to refute the arguments advanced this evening.

THEATRICAL.

Saturday evening of next week, the thirty weeks' run of "The Sleeping Beauty and the Beast" at the Broadway Theatre, New York, will end, closing the most successful engagement ever played by a theatrical attraction in this country. This entertainment was first presented in New York last November, and from that time to its last performance will have played to the utmost capacity of the house. "The Sleeping Beauty and the Beast" will never be presented in New York again after Saturday evening of next week. A special matinee performance will take place Decoration Day.

WELL PLEASED.

Director MacClymont Has Men's Choral Club in Fine Form.

The Men's Choral Club, of this city, which gives its second concert of the season at the Casino Tuesday evening, is an organization made up of representative men who are ever foremost in work that redounds to the honor and credit of themselves and the community of which they are part and parcel. The net proceeds of the coming concert, are to be given to the Young Women's Club, which suffered great loss at the Babcock building fire. It promises to be a most interesting affair. Wm. E. MacClymont, the director, expresses much satisfaction over the great progress made by the individual members of the Choral Club, who not content with their own endeavors, have secured the services of Hobart Smock, the famous tenor, and the Misses Helen and Mabel Reynolds, violinist and 'cellist, for the occasion. A programme of rare excellence and merit is assured, and a crowded house will undoubtedly be in attendance. For other particulars, see advertisement.

COUNTY ENDEAVOR MEETING

ANNUAL CONVENTION TO BE HELD AT ELIZABETH, JUNE 2.

The Field Secretary of the United Society Will Be the Chief Speaker —The Programme in Detail.

Union county Christian Endeavorers are looking forward with much interest to the annual county convention to be held in the Third Presbyterian church, Elizabeth, June 2, both afternoon and evening.

Rev. Dr. C. E. Eberman, field secretary of the United Society, will be the principal speaker. He will come to New Jersey after a tour of nearly two months through the south and west, where he has been addressing large audiences and has been receiving an enthusiastic reception wherever he has spoken. F. H. Jacobs, the noted gospel singer, will also be present and add to the interest and power of the convention.

The schedule of meetings is as follows: At 2:30, conference and open parliament on Christian Endeavor methods conducted by Dr. Eberman; 4:15, Junior rally, in charge of the junior department of the Elizabeth Union, with an address by Rev. Dr. Eberman. Between 5:30 and 7 o'clock refreshments will be served to out of town delegates.

At 7 o'clock, annual business meeting of the Union; 7:45, grand rally, beginning with song service led by Mr. Jacobs, followed by addresses by Dr. Eberman and Rev. W. T. S. Lumbar, president of the New Jersey Christian Endeavor Union. The convention will close with a short consecration service.

WHAT OTHERS SAY.

Clippings From Other Newspapers Which May be of Interest to Plainfield and Its Citizens.

The feeling of brotherly love between the residents of the twin resorts of Asbury Park and Ocean Grove has been more severely strained than ever by the refusal of the Ocean Grove Campmeeting Association to modify in the least degree its iron-bound agreement with the railroad company, which prevents trains from stopping within the limits of Asbury Park on Sunday. This decision is due to the firm stand taken by Bishop FitzGerald, the president of the association, who believes that any concession in the matter would endanger the character of Ocean Grove as a religious resort. A respectful hearing was given to the Asbury Parkers, but their pleas failed to soften the hearts of the campmeeting people.

The sentiment in Asbury Park is now strongly in favor of Sunday trains, an innovation which even Mayor Bradley desires. Under the existing arrangement, all trains on Sunday stop at Interlaken, and passengers for Asbury Park and Ocean Grove are forced to take the trolley cars to reach their destination. To the strictest of Sabbatarians, this is apparently an advantage, but to others it appears to be straining a point. The stopping of trains at North Asbury Park, for instance, would not tend to disturb the sanctity of the Sabbath at Ocean Grove any more than does the running of trolley cars to the very gates of the resort, bringing worshippers from Interlaken. But the Ocean Grove people have the whip hand in the matter, and so long as they persist in holding the railroad company to its bargain Asbury Park must continue to do business without the Sunday train.—Newark News.

TEA TABLE TALK.

Short Sketches That Are Not Always News, But Just as Interesting.

Charles A. Pomeroy, of North Plainfield, the owner of the odd bank note which is two faced, being worth ten dollars on one side and twenty dollars on the other, has had an offer of $1,500 for it from Buffalo Bill. Mr. Pomeroy refuses to sell at that price and he still holds the note. His price, as stated several weeks ago in The Daily Press, when an account of the bill was given, is $2,500. The Government would like to get the bill and destroy it, but as they only offer $300 for the note, there is little chance of their getting it.

Mr. Pomeroy still continues to receive letters from all parts of the country inquiring about the note and making all kinds of offers for it. The owner knows the value of his property and will not sell until he gets his price.

Men to Give It.

The men of Grace M. E. church will give a strawberry and ice cream festival and entertainment, Thursday and Friday evenings, June 12 and 13. There will be a programme of readings, vocal and instrumental selections. There will also be music by members of the Y. M. C. A. orchestra.

Health Board Meeting.

There will be an adjourned meeting of the Board of Health Saturday afternoon, May 31, when several matters of importance will be considered.

A CONTINUED PERIL

Mont Pelee's Latest Effort Intensely Terrific.

PEOPLE FLEE FROM FORT DE FRANCE

St. Pierre Buried Still Deeper Beneath Tons of Ashes—Old Crater, Long Extinct, Shows Signs of Life.

FORT DE FRANCE, Martinique, May 22.—Mont Pelee's eruption Tuesday was ten times as violent as that which destroyed St. Pierre.

Colossal volumes of volcanic matter were ejected from the volcano, which rained huge redhot bowlders many feet in diameter on the ruins of St. Pierre and the country near it from an enormous elevation and with fearful velocity. The volcanic clouds advanced until they reached Fort de France. The rays of the rising sun lighted them until the clouds looked like molten metal suspended in the air and rolling over the city.

The spectacle was appalling and sublime beyond description. The whole population of Fort de France was thrown into a panic, during which soldiers, police, men and women, all terrified, frantic, weeping and praying, rushed through the streets.

Overhead the glowing, fiery clouds rolled relentlessly and rained down stones, still hot, amid the swirling ashes.

The steam launch of the United States cruiser Cincinnati took some refugees to the French cruiser Suchet, and nearly 100 persons sought refuge on the Cincinnati and on the United States special steamer Potomac.

At 10 o'clock the Potomac went to investigate matters, and all reports agree that Lieutenant Benjamin B. McCormick, the commander of the steamer, did great work.

He went in close to St. Pierre and found that the city had been bombarded with enormous ejected stones and that the ruins left standing after the first disaster had been nearly razed.

Millions of tons of ashes then covered the hideous city of silence and death.

Farther south smaller stones had destroyed the houses of the brave villagers who had stuck to their homes.

Lieutenant McCormick took on board the Potomac 180 refugees, the oldest of whom was seventy-two years of age and the youngest three days old. The lieutenant fed them and brought the party to Fort de France.

This work of rescue was difficult and dangerous.

It is reported that the whole population of the island is fleeing.

Three hundred refugees have just arrived here, and thousands have embarked for the neighboring islands.

Shiploads of Refugees.

POINTE A PITRE, Island of Guadeloupe, May 22.—The steamer Horten has arrived here with 200 refugees from Fort de France, Martinique, on board. It is reported here that the French steamer Salvador, with a thousand people on board who are unable to remain at Fort de France, is coming here and that everybody who can do so is leaving that port. The Salvador arrived here later in the day. The refugees who have reached here by this ship and the Horten are in a pitiable condition. They all report that on the morning of May 20 Mont Pelee vomited a thick cloud of black smoke and threw hot sand and stones over the greater part of the island, while a heavy pall of smoke overhung Fort de France. The eruption was followed by flashes of incandescent light, and the panic stricken people fled to the shore. People have been killed at Carbet, on the west coast, while Basse Pointe, on the northeast coast, is said to have been completely destroyed.

The Dixie at Martinique.

WASHINGTON, May 22.—Secretary Moody has received a cablegram from Captain Berry of the Dixie announcing the arrival of that relief ship at Fort de France. He added that he would leave half of the relief stores at Martinique, where there already was sufficient food, and carry the remainder to St. Vincent.

Kingstown In Danger.

KINGSTOWN, St. Vincent, May 22.—There is an alarming report from a credible source that Enham mountain, near the Marriaquia valley, an old and apparently extinct crater, is showing signs of activity. This volcano is only about six miles from Kingstown.

Volcanic Dust Seen.

CHARLESTON, S. C., May 22.—Forecast Official Jesunofsky of the United States weather bureau announces the presence in the air here of volcanic dust from Martinique.

Relief For the Destitute.

LONDON, May 22.—The lord mayor of Liverpool has cabled another £1,000 for the benefit of the sufferers by the volcanic eruptions on the British island of St. Vincent.

Pensions For Railway Employees.

PHILADELPHIA, May 22.—The board of directors of the Philadelphia and Reading Railway company has authorized the president and executive committee to prepare and put into effect a pension system for the benefit of employees. It is intended that a similar system shall be adopted by all of the transportation companies controlled by the Reading company.

To Enlarge Bremen Docks.

BERLIN, May 22.—The municipality of Bremen is negotiating for the acquisition of 1,000 acres of Prussian territory along the banks of the river Weser for the purpose of extending the city docks.

GENERAL WHEATON LEAVES.

Warm Praise Bestowed by Chaffee. The Cholera Record.

MANILA, May 22.—General Loyd Wheaton went on board the United States transport Sherman today. General Chaffee in ordering General Wheaton's relief from duty said the department took the occasion to pay a warm tribute to Wheaton's splendid record and invited the attention of all officers and soldiers to his conspicuous example of efficiency and devotion to duty. General Sumner will temporarily command Wheaton's department pending presidential action.

Waller, alias Howard, who was tried by court martial on the charge of deserting to the enemy from a California regiment and who was sentenced to be hanged, General Wheaton disapproving on the ground that the prisoner's identity was not indisputably established and that, further, whatever his offense the government had condoned it by sending him into the field against the enemy after his arrest, has been ordered to be released from custody.

The cholera record to date is as follows: Manila, 1,108 cases and 886 deaths; provinces, 3,592 cases and 2,604 deaths.

The Royal Bullfight.

MADRID, May 22.—The royal bullfight, which is the most typically Spanish feature of the festivities in connection with the coming of age of King Alfonso, occurred yesterday afternoon in the presence of the king, the queen mother, the royal family, the Spanish nobles and the special envoys. A great number of ladies were also present. The vast amphitheater where the fight was held was crowded with 15,000 spectators. More than 200,000 people had made applications for seats to witness the occurrence. An interesting feature of the bullfight was the revival of the old mediæval custom under which the scions of noble families fought the bulls with lances from horseback. Nine bulls were killed.

Bradbury Piano Factory Burned.

NEW YORK, May 22.—The Bradbury piano factory in Brooklyn was destroyed by fire late last night. The building was owned and the business conducted by Freeborn G. Smith. At midnight the fire was still burning, and it was estimated that the loss would reach $500,000. The features of the fire were the calling out of many fire engines from Manhattan, the danger of the burning of a large row of tenements occupied by 75 to 100 families, the placing in safety of 196 horses and 150 wagons belonging to Abraham & Straus, the dry goods merchants, from a stable near the fire, and a panic among the prisoners in Raymond street jail, directly opposite the burning building.

Violent Storm In Alabama.

BIRMINGHAM, Ala., May 22.—A violent windstorm, followed by a heavy downpour of rain and hail, has passed over Birmingham, doing considerable damage and causing the death of one boy, the serious injury of another and the slight injury of an old man. The greatest damage was done at the ball park, where a section of the grand stand was blown away. When the storm struck the ball grounds, a large crowd was en route to the park to witness a game between Birmingham and New Orleans, and a serious disaster probably was averted by the park not being opened to the public.

CONDENSED DISPATCHES.

Margaret Taylor, the abducted Ohio child, was given up to her father at Genoa, Italy, and sailed with him for home.

A prisoner in the workhouse at Canton, O., killed one man and fatally wounded another, being himself severely wounded by guards.

Five masked burglers, with a heavy charge of dynamite, blew open the safe in the Ledi (N. Y.) postoffice and secured $300 and a quantity of stamps.

CUBA CONGRATULATED.

Senate Passes Such Resolution—Immigration Bill Before House.

WASHINGTON, May 22.—Before the senate resumed consideration of the Philippine bill yesterday it adopted a resolution congratulating the republic of Cuba on its entry into the family of independent nations, and the secretary of state was directed to transmit the resolution to the president of the new republic. The senate also ordered the account of the ceremonies of the transfer from the United States to the Cuban authorities printed in The Congressional Record and as a public document.

Mr. Bacon (Ga.) again denounced the concentration policy pursued in the Philippines. He indicated that if leading Republican senators would declare it to be their purpose to give the Filipinos a free government the minority would not quarrel about the time when the government was to be established.

The house began consideration of the immigration bill. The principal speech was made by Mr. Shattuc (O.), chairman of the committee on immigration. He was especially severe in his condemnation of the manner in which immigrants are introduced through Canada and by Canadian railway and steamship companies. Mr. Underwood (Ala.) gave notice of an amendment to provide an educational test, and much of the discussion during the day was upon this subject.

The house earlier in the day settled three contested election cases in favor of sitting members and passed a number of bills of minor importance.

PALMA IN THE PALACE.

New President of Cuba Occupies Official Residence.

HAVANA, May 22.—President Palma took up his official residence at the palace yesterday and received many visitors, but he transacted no business. Governmental machinery and business will remain at a standstill during the festivities, which will not close until next Friday.

President Palma's inaugural message is not yet completed. He hopes, however, to be able to send it to congress when the latter meets next Friday. The keynote of the message will be the necessity of harmonizing the factions in the island and working in unison for the success of the republic. The message will be strong in its expression of gratitude to the United States and of the desirability of the closest commercial relations. It will devote also considerable space to the necessity of diversifying and stimulating the industries of the island.

The only unfortunate occurrence thus far reported was the raiding of several small Spanish wineshops by Cubans.

Floods In Wisconsin.

LACROSSE, Wis., May 22.—Railroad traffic is practically demoralized here owing to six hours of rain in this vicinity which caused a great many washouts on roads leading into Lacrosse. On the Chicago and Northwestern road there has not been a train in for twenty-four hours, and a couple of trains are being held at Elroy until a washed out bridge can be repaired. Near Midway half a mile of track is under water. At River Junction, on the Chicago, Milwaukee and St. Paul, a couple of miles from here, there is a large washout, and a fast mail train is held there. On the Southern Minnesota division of the same road much trouble is being experienced with the water. At Houston the whole town is practically under water.

Postal Service Transferred.

WASHINGTON, May 22.—The transfer of the postal service of Cuba is officially announced in the following cablegram received by Postmaster General Payne from M. C. Fosnes, the postoffice inspector, who now retires from the director generalship of posts: "In connection with the general transfer of government yesterday I relinquished department of posts to Fernando Figueredo, appointed director general of communications by President Palma. I leave here as soon as possible and expect to report at Washington with Inspectors Hamilton and Gregory in about a week."

Severe Storm In Oklahoma.

GUTHRIE, Okla., May 22.—A heavy wind and rain storm has passed over Oklahoma, washing out bridges, wrecking several houses and damaging crops badly. No fatalities are reported. Three miles south of Guthrie a waterspout demolished several houses. At Davenport, thirty miles east of Guthrie, six houses were wrecked and much stock was killed. At El Reno, Bridgeport, Kingfisher and the intervening country four inches of water fell.

Russia Entertains Frenchmen.

ST. PETERSBURG, May 22.—The entire capital is given over to celebrations in honor of President Loubet and the French visitors, and the decorations of the city are more brilliant than usual on such occasions. The French sailors continually fraternize with the Russians, and scenes of noisy and good natured revelry are to be witnessed in all the quarters of St. Petersburg.

Frost Ruins Crops.

HOOSICK FALLS, N. Y., May 22.—This vicinity has been visited by another heavy frost. Vegetable growth suffered severely, and many plants and shrubs were ruined by the frost's repeated attacks. Reports from numerous market gardeners prove that the strawberry yield has been cut off almost entirely, entailing great loss to growers.

Crazed Prisoner Kills Himself.

ITHACA, N. Y., May 22.—Charles Brookins, a colored prisoner in the Tompkins county jail, went suddenly insane and before he could be subdued slashed himself to death with a razor.

MEMORIAL UNVEILED.

Veterans Who Fell In Spanish War Honored.

PRESIDENT ROOSEVELT'S ADDRESS.

Shaft Was Erected at Arlington by Colonial Dames—Prominent Army Men and Large Body of Troops Witness the Ceremonies.

WASHINGTON, May 22.—President Roosevelt yesterday unveiled the memorial shaft erected at Arlington by the National Society of Colonial Dames in memory of the veterans who fell in the recent struggle between Spain and the United States. Around the platform an immense crowd gathered, among whom were many men who saw service in Cuba, Porto Rico and the Philippines.

The ceremonies were in charge of Major General John R. Brooks, commander of the department of the east, the military establishment being represented by a battalion of engineers, a battalion of marines, light battery of the Fourth artillery, two squadrons of the Second cavalry and over 500 veterans of the Spanish-American war.

As the shaft was unveiled the artillery fired the national salute, after which President Roosevelt delivered an address, which was in part as follows:

"Mrs. President and members of the society and you, my comrades, and finally officers and men of the regular army, whom we took as our models in the war four years ago, it is a pleasure to be here this afternoon to accept in the name of the nation the monument put up by your society to the memory of those who fell in the war with Spain—a short war, a war that called for the exertion of only the merest fraction of the giant strength of this nation, but a war the effects of which will be felt through the centuries to come because of the changes it wrought. It is eminently appropriate that the monument should be unveiled today, the day succeeding that on which the free republic of Cuba took its place among the nations of the world as a sequel to what was done by those men who fell and their comrades in 1898.

"We went to war for a specific purpose. We made for Cuba a specific pledge, and we redeemed that pledge to the letter. And I think, my comrades of the war, that we have peculiar reasons to be proud of one of our fellows who served with us in that war and under whom during the last years Cuba has been, under whose administration Cuba has taken those strides forward which have fitted it to stand alone. I speak of General Leonard Wood. And great though the services were that General Wood rendered during the war, they have been surpassed by the inestimable service he has rendered in peace to Cuba and therefore to our nation, for our interest was bound up in the success and welfare of Cuba."

May Stay Till June 2.

WILKESBARRE, Pa., May 22.—The three anthracite executive committees of the United Mine Workers of America at their joint meeting decided to permit the engineers, firemen and pumpmen to remain at work, provided the coal companies grant them an eight hour day at present wages. If these demands are not granted by June 2 the men shall then suspend work. Although the instructions issued to the [illegible] do not specifically say [illegible] shall leave work on that [illegible] is not granted, they [illegible] by the committeemen. [illegible] taken after two sessions [illegible] which consumed [illegible] day. At present the engineers, firemen and pumpmen work ten hours a day. Some of the firemen work twelve

In Memory of Martha Washington.

WASHINGTON, May 22.—Postmaster General Payne announces that the portrait of Martha Washington has been decided upon as the first of American women to adorn a United States postage stamp. This announcement is made on the centennial anniversary of the death of the wife of the first president. The portrait will be placed on the eight cent stamp of the new issue, which will appear some time next fall.

Watches and Watchcases.

WASHINGTON, May 22.—A special report of the census bureau on watches and watchcases has been issued, showing a capital of $22,754,483 invested in the manufacture of watches and watchcases in the forty-three establishments reporting for the United States. This does not represent the capital stock of any of the manufacturing corporations. The value of the products is $14,606,571.

National Convention Desired.

BAY CITY, Mich., May 22.—The Michigan district of the United Mine Workers of America has joined with the three striking anthracite districts of Pennsylvania in a request to National President Mitchell for a national convention of all the miners of the country to discuss a general strike of all mine workers.

Italy Prosperous.

ANXIOUS TO PLEASE.

Yesterday's Daily Press made known the fact that the much talked-of "white fence" at the North Avenue station was at last a reality. It was only another evidence that the management of the Jersey Central Railroad is anxious to do anything it can to please the public. For several months, The Daily Press has called attention to the need of painting the fence which separates the tracks at that point. The subject was brought directly to the attention of Former Vice President Warren by a delegation from the Board of Trade but with no avail. The new management has observed the need and has acted without delay.

It is very evident that General Manager W. G Besler, who has succeeded Mr. Warren in active control of this railroad, is going to be a very popular man with the Plainfield public. When he came here, his friends over in Pennsylvania had some very pleasant things to say about him. They told what excellent treatment the patrons of the Jersey Central might expect and their promises have been fulfilled.

There is yet one change which Mr. Besler can make that will be much appreciated by the Plainfield public and that is the establishment of a ticket office at the west bound station. When the old ticket office was closed and a new one located on the other side, there was a general protest. The subject was brought to the attention of Mr. Warren by the Board of Trade and he stated very emphatically that there would be but one ticket office. Mr. Besler appears, however, to be looking after the interests of the public and it is possible that he will take another view of the subject. It is sincerely to be hoped that he will decide that Plainfield is entitled to the two offices and that the rumor now current, to the effect that one is soon to be located on the west bound side, will prove to be the truth.

Elias H. Bird was named for reappointment to the office of postmaster of Plainfield without opposition. It speaks well for the man. The contest for the place, when he was first appointed, became bitter before it ended and the political sores of that day required a long time to heal. Mr. Bird has since proved his eminent fitness for the place and has conducted the business of the office with energy and dispatch. Under his direction, Plainfield has secured added facilities and may expect more before his second term shall have expired. He was so easily the proper man for the place when the question of a sucessor came up that there was no attempt made by anyone to oppose him for the place. Mr. Bird has done well in the past. His reappointment is a deserved one and he has the heartiest and best wishes of all his friends that his second term may be equally as successful as the first.

Asbury Park has just declared its independence of Ocean Grove and is preparing to secure all the good things of life without further consulting the Camp Meeting Association. It all happened at a Council meeting and Mayor Bradley took the initial steps in this declaration of war. Asbury Park's present position is even worse than that of Plainfield with North Plainfield as a part of another county.

The second of the school exhibits was held yesterday afternoon and evening at the Washington public school. Like the first it attracted many of the parents and friends of the children and proved a means of both instruction and entertainment. It is an excellent thing for the people of Plainfield to get some idea of their public schools and see how well they are managed.

An experienced advertiser affirms, according to the Philadelphnia Record, that after advertising has built up a business publicity is still necessary to keep it up. "After a business has reached a certain point of development it may not increase by leaps and bounds, but it requires continued advertising to prevent a decline."

SECOND SCHOOL EXHIBIT HDLD

(CONTINUED FROM PAGE 1.)

braced every step in the study. Arithmetic began with simple numerals and concluded with bills of sale, promissory notes and other higher forms.

Considerable favorable comment was aroused by the display of small posters announcing the beginning of new lines of work. All were by pupils in various grades and were remarkably clever both in design and execution. Among the most noticeable were those by Amy Morcom, Katherine Gray, William Connett, Georgia Ruckman, Piercy Culyer, and William Trembly. A fifth year poster by William Westphal, taken from a book design, represented much painstaking effort and by many of the visitors was thought to have been drawn by one of the teachers.

The success of the exhibit was mainly due to Miss Humpston's untiring efforts in arranging the details properly and supervising all work. It was with pardonable pride that she showed every part and it is doubtful if the coming exhibits will reveal a more hearty co-operation of teacher and pupil.

PUBLIC SHOULD GO.

Opportunity to See the Work Done in the Public Schools.

There will be an exhibit of school work in the Franklin School tomorrow afternoon and evening as also on Saturday afernoon and evening. Exhibits have already been given in some of the other schools and people who did not know what the public schools were doing have been astonished at the beauty and excellence of the work. An open invitation is extended to all to attend, and, as the Franklin School is centrally situated, no doubt a large number will take advantage of the opportunity to be present. A visit will lend to instruct and enlighten.

TO ASSESS SEPARATELY.

Plainfield Included in List of Cities Where the Change is Made.

The State Board of Taxation met at Trenton Tuesday and promulgated its annual letter of instruction, which will be distributed shortly. Accompanying the letter are the rules of the State Board for the guidance of local assessors. To the list of cities in which real estate and the buildings there must be assessed separately has been added Plainfield, East Orange, Perth Amboy, Asbury Park, Englewood, Atlantic City and Millville.

Children's Day.

The second Sunday in June will be generally observed as childern's day by most of the local churches. Following that day, the custom of holding the sessions of the Sunday-school in the morning will be followed in many of the churches.

Hour of Ordination.

The ordination of Rev. M. J. Glennon will take place in St. Patrick's cathedral, New York Saturday morning at 8:30 o'clock, instead of 9, as previously stated.

Miss Anna Prescott, of Watchung avenue, is entertaining her mother from Boston.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. Randolph.

Fresh Goods from Huylers

COLUMN FOR THE SHOPPERS

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

From Stanley, the North avenue florist, you can get clematis, hydrangeas, roses and all kinds of summer flowering plants.

Try Wirth's Boston brown bread. It is only one of the specialties which is making his bakery popular. Orders delivered promptly.

John P. Powers, the Somerset street pharmacist, has the most complete line of drugs in the city. Powers' prices are a marvel.

If you trade with S. Scheuer & Son, of West Front street, you can save money, as hundreds of people in Plainfield and vicinity can testify.

T. S. Armstrong, corner North and Park avenues, has one of the most complete description departments in the city. Prescriptions and compounding a specialty.

G. H. Kenyon, of West Front street, is particularly fortunate in being the representative of several of the leading makes of pianos, any one of which will give entire satisfaction.

W. W. Wilson, the West Third street grocer, has a choice exhibit of everything known to the grocery trade. A full fresh stock at prices away down below the surface.

Mrs. L. J. Denton, of West Front street, has established an enviable reputation in doing floral work. Her stock of flowers is complete and she always gives satisfaction in her work.

A recent close purchase of moldings has enabled the Plainfield Art Store in the Y. M. C. A. building to do picture framing very cheaply. A reduction of fifty per cent. is being made this week.

Without health a man is unfit for work. When he becomes run down then is the time he needs a tonic and at Shaw's West Front street pharmacy he can get the proper article. Compounded by Mr. Shaw especially for his trade.

Purchasers of tea, coffee and spices, or baking powder at the A. and P. Tea Company's store on West Front street, are being presented with handsome fruit sets. They comprise a large dish and tray to match. The offer is for this week only.

ORAL TESTS.

Being Made at the Borough High School Today.

Oral tests are today being conducted in the North Plainfield High School. Principal Wightman pursues the policy of selecting at stated intervals three pupils from each class, and submitting them to an oral examination. These tests will give a good idea of the work done in the class room, besides being the means of ascertaining if proper emphasis is placed on important phases of each subject.

DEATH LIST GROWS.

Coal Miners to the Number of 226 Killed In the Coal Creek Disaster.

KNOXVILLE, Tenn., May 22.—The latest estimate as to the loss of life in the Fraterville coal mine disaster at Coal Creek is 226, including contract miners, day laborers and boy helpers. The last find reported was that of thirteen bodies in an entry. Five of them had written letters before life became extinct. One of these letters gave the time of day. It was written at half past 2 o'clock Monday afternoon, thus indicating that these and perhaps other entombed men lived many hours after the terrible explosion, which occurred Monday morning at half past 7 o'clock.

The letters gave a general suggestion of the suffering that was undergone, indicating that the men were gradually being strangled to death by the foul gaseous air that was filling the mine. One piteously read, "My God, for another breath."

The letters in the main were directions to families as to what disposition should be made of the writers' bodies and business affairs and instructions as to raising the families.

The rescuing parties that went in Monday are completely exhausted, and new men have been sent into the mine.

Money is badly needed, and the outside world is urged to send in contributions to R. M. Lindsay, chairman of the relief committee, Coal Creek, Tenn.

Jeffries and Fitz to Fight.

SAN FRANCISCO, May 22.—James J. Jeffries, champion heavyweight pugilist of the world, and Robert Fitzsimmons have come to an agreement to fight for the world's championship. Fitzsimmons insisted that he would not fight unless permitted to wear surgical bandages for the protection of his hands, and after some parley on this point Jeffries receded from the position he had assumed recently in objection to the use of bandages. The articles of agreement will to all practical purposes be identical with the articles signed in New York some months ago. Seven clubs submitted bids for the fight, and the bid of the San Francisco club, offering 70 per cent of the gross receipts, was accepted. The date was not fixed.

A Battle Likely at Port au Prince.

PORT AU PRINCE, Haiti, May 22.—The people are very excited and appear determined to make a vigorous resistance to the entrance of the army of the north into this city. The general belief is that if Firmin persists in his intention to attempt to force an entry into Port au Prince a severe engagement will take place. As this dispatch is sent the beating of drums can be heard on all sides, and armed men are gathering for the battle. The members of the diplomatic corps assembled here and decided to protest against the entrance of the northern army into the capital.

The Pretoria Peace Conference.

PRETORIA, May 22.—In accordance with an arrangement made April 6 the Boer delegates who were chosen at the Vereeniging conference arrived here May 18. They consist of four representatives from the Transvaal and Orange River governments, General De Wet and General Delarey, and are accompanied by eight secretaries. The party has been lodged in a house next door to the one occupied by Lord Kitchener.

American Gets Russian Concession.

ST. PETERSBURG, May 22.—A concession for the establishment of an electric railroad from St. Petersburg to a suburb of the city has just been awarded to Murray A. Verner of Pittsburg, Pa. Mr. Verner's friends regard the granting of this concession as an indication of favorable action with regard to a concession embracing the entire surface traction system of St. Petersburg.

DOUBTFUL RUMORS.

And Still Scores of Plainfield People Accept Them as Facts.

The published statement of some stranger residing in a far away place may be true enough, but it is generally accepted as a doubtful rumor. How can it be verified. The testimony which follows is convincing proof because it comes from a resident of Plainfield:

Mr. F. O. Smith, of 686 West Front street, contractor for painting, etc., says: "There was a distressing pain across the small of my back which clung to me all the time. When I got seated at times if I moved a sharp pain struck me in the back and loins and almost made me exclaim. Any change in the weather or if I caught the least cold always aggravated the trouble and caused me to suffer severely. Doan's Kidney Pills were recommended to me by one of my employes who had been cured of a long standing case of kidney complaint by their use. I commenced the treatment, derived benefit from it immediately and before I had finished the first box I was cured."

FIVE O'CLOCK TEA TABLE.

Some Suggestions For Its Artistic Arrangement.

No home should be without a tea table. Let it be placed in a prominent position or tucked away as you will, but let it be ready for the coming guest. Nothing is so hospitable, nothing is a greater aid to conversation. The tea table is for all times of the year. Just now it supports a boiling brass or copper kettle and a tea service; later on ices and lemonades can be dispensed from it. After all, a cup of tea, a glass of lemonade and a few little cakes that can easily be made at home are small items in the household expense book, and yet they make all the difference in

A FIVE O'CLOCK TEA TABLE.

the world in a woman's popularity. Now, as regards the table itself: It should be broad and low, either round or one of the pretty artistic Turkish shapes. Some definite scheme of color harmonizing with the room should be chosen, either blue and white, pink and gold, green and yellow, and china and embroidered cloths should conform to it. An embroidered cloth to fit the outlines of the table is a necessity; next comes a copper or brass kettle over a tiny alcohol flame. The china sets usually comprise half a dozen or a dozen cups and saucers, bread and butter plates, a receptacle for lump and for powdered sugar, a cracker jar, a cream pitcher and a teapot. One or sometimes two candlesticks are pretty additions and light up the table artistically. They can be either of the china or of silver, and they are prettiest with flower shades. A small jar for tea with a double cover and a cut glass or silver dish for bonbons are useful additions.

Charming sets of Wedgwood blue are sold to go with white tables and blue and white teacloths. Empire sets of pink and gold and white and gold have the conventional wreaths and miniatures, while the ever dainty flowered Dresden china is also a favorite.

In addition to tea simple sandwiches cut in fancy shapes, toasted crumpets, candied fruits and nuts are also suitable for the 5 o'clock tea table.

AN ART NOUVEAU CORNER.

An Example of the Recent Craze In Interior Decoration.

Furniture dealers at large have gone art nouveau mad. On all furniture you may see evidences of the so called return to nature. Woods are tinted moss greens and browns, and the shadings of summer foliage are to be found in the tables and chairs. Inlaying of all kinds is in great favor, especially that which represents flowers and leaves.

The illustration shows an art nouveau corner. It is done in plain wood stained grass green. The fireplace has a cupboard with square panes of green

opalescent glass. Two shelves are below this; one carries china and jade ware, the other books and pictures. There is a seat upholstered in green leather ornamented with red and gold conventional figures. Above this is a long, narrow picture forming a frieze. The shelf below this picture is handy for books. To carry out the green and red scheme there are a palm in a red pot and a green and a red rug on the floor.

R. DE LA BAUME.

[Copyright, 1899, by Frederick A. Stokes Company.]

"If he should conclude to go abroad on a long journey without subjecting you to his impending proposal."

"On the contrary, father," admitted Agnes, "I should be everlastingly grateful to you if such a consummation could be brought about without unnecessary rudeness or cruelty towards Mr. Chatham."

"Very well, Agnes, that is all I wanted to see you about."

Agnes looked curiously at her father as if to read the purpose hidden in the depths of his inscrutable eyes. She saw nothing but a polite dismissal in his calm face; and the interview between father and daughter ended, as it had begun, with formal courtesy on both sides.

CHAPTER VIII.

THE PORTRAIT.

Sprague was seated before his ease, arranging his palette for the morning's work. The unfinished portrait of Agnes Murdock looked down upon him with eyes of living beauty. Occasionally the artist would bestow a deft touch upon the glowing canvas and would retire to a distance to note with a critical eye the new effect. Then he would consult his watch in nervous impatience; and, going to the window he would glance anxiously up and down the street. Once or twice the rumble of wheels caused him to look up in glad expectancy, which gradually gave way to gloomy discontent as the noise died away in the distance.

At length hope seemed to depart altogether from the young man's breast. He threw down his brushes, gave up all pretense of work and drifted off into a brown study. His eyes, fixed upon those of the portrait, had a troubled look in them—so troubled that it was clearly out of all proportion to the professional disappointment of a painter kept waiting for a fair subject.

So absorbed did he become in his gloomy meditations, that, when at last a carriage stopped before the house, the artist did not hear it. But when, presently, a gentle tap sounded upon the door of the studio, he sprang to his feet as if he had received an electric shock.

Perhaps he had; for it was followed by a rapid current of delicious thrills tingling through every nerve and effecting in his whole being a sudden and marvelous transformation. At once the furrowed brow was smooth; the drooping lips were wreathed in smiles; the troubled look gave way to one of glad welcome.

For she had come at last. There she stood, with laughing brown eyes and glowing cheeks, when Sprague threw open the door. Alas, as usual, she was accompanied by her maid. Never mind; was it not enough to have her there at all, to bask in the sunshine of her smile, to look into the dangerous depths of those soul-stirring eyes, to listen to the rippling of her silvery voice?

"I fear I am a little late, Mr. Sprague; I am sorry to have kept you waiting. But you see this is how it was—"

What mattered it to him now how it was? Was she not there? An eternity of suspense and misery would have been wiped out by that single entrancing fact. Her words beat upon his ear like rapturous melody; he drank them in, hardly conscious of their meaning.

Agnes Murdock, followed by her maid, proceeded at once to the dressing-room set apart for the use of the artist's models. When she returned, dressed for the sitting, she assumed under Sprague's directions the pose of the portrait, while the artist critically arranged her draperies and adjusted the shades and screens.

The maid had remained in the dressing-room.

"And so these are positively the last final touches, are they, Mr. Sprague?" asked the young girl, mischievously, after a few minutes. "You artists seem to be quite as uncertain about your farewell appearances as any famous actress or singer."

The artist looked up quickly as the girl spoke. An expression of pain crossed his features.

"Yes, Miss Murdock," he answered, gravely. "I shall not have to trouble you to pose again."

Miss Murdock's attention was attracted by the melancholy note in his voice. She observed him from the corner of her eyes in kindly curiosity.

The artist fell into a moody silence. For awhile he worked with feverish activity at the portrait; and then, gradually falling into a fit of melancholy abstraction, he sat, with poised brush, gazing intently at the beautiful girl before him. His task forgotten, he was apparently unconscious that he was taking advantage of his privileged position to stare at his fair subject. Agnes felt his burning glance and was embarrassed by it; but, womanlike, she retained control of herself, outwardly, at all events, as she uttered some commonplace remark, which broke the spell and brought the artist to his senses with a sharp consciousness of his rudeness. He replied to the young girl's question in a low, changed voice, and then relapsed into a gloomy silence. After an awkward interval he asked, suddenly:

"Are you so very glad, Miss Murdock, that our sittings are almost over?"

"Why, no, Mr. Sprague," replied Agnes; "I did not mean that. Of course I shall be glad when the portrait is finished, because I wish to have it home and to let my friends see it. But I should be indeed ungrateful if I begrudged my poor little time and trouble, when yours have been so lavishly and so ungrudgingly spent."

"These sittings have been a source of so much pleasure to me," continued Sprague, thoughtfully, "that I have selfishly overlooked the fact that they could only be an annoyance and a bore to you. I fear I have needlessly prolonged them."

"But, indeed, Mr. Sprague, I assure you it has been anything but a bore to me to pose. I am sure I shall miss the pleasant morning hours I have spent here."

"They have been the happiest hours of my life," said Sprague, earnestly, in a low voice, "and now they are nearly gone—forever."

Agnes started slightly, blushed and riveted her gaze upon the dainty white hands which lay clasped together in her lap. Her bosom rose and fell in quickened undulations.

"Why forever, Mr. Sprague?" she asked, softly; "do you think of leaving New York?"

"No," he replied quickly; "it is you who are about to desert this studio, which for a short time has been brightened by your presence—"

"Well," interrupted Agnes, "since you are not going to leave New York, I hope you will continue to call on us."

"I suppose I shall continue to call on your reception days, if that is what you mean," said Sprague, somewhat disconsolately.

"Now that," laughed Agnes, "is not in line with the polite things you have been saying."

"I did not mean to say anything rude, Miss Murdock, but a call on your reception day is a call on your guests. Surrounded as you are on such occasions, one has barely a chance to catch a glimpse of you, much less to speak with you."

"We are always glad to see our friends at other times than on our reception days."

"Do you really mean it?" asked the artist eagerly. "May I call on you sometimes when the crowd is not there?"

"We shall be happy to have you call at any time, Mr. Sprague."

Sprague thought he detected a slight emphasis on the pronoun.

"But it is not we I wish to call on. It is you, Miss Murdock."

Once more the young girl's expressive eyes fixed their gaze upon the delicate hands in her lap, and once more there was a scarcely perceptible flutter beneath the lace which lay upon her white throat.

The artist sat with intent eyes fixed upon her.

"Of course I shall be pleased to have you call at any time, Mr. Sprague," she said, after a brief instant.

What more could any sane man expect a modest girl to say? It is not so much the words spoken as the manner of their utterance that conveys meaning. But it is a truism that a lover is not a sane man. Sprague was not yet satisfied. He was about to speak again, when a knock sounded upon the door.

It was the hall-boy with a letter.

"Miss Murdock?" he inquired, glancing in the direction of the young lady.

Sun and Skin.

A physician has been investigating some of the effects of direct sunlight on the skin. Painting a band on his arm with India ink, he exposed the member to a scorching sun. The usual painful effects followed, except beneath the band, where the skin remained white and unaffected. He suggests that the tan which continued exposure produces upon the skin is a protective effect. If further experiments establish this interference, a further hypothesis will be rendered probable, namely, that the power acquired by the human skin in the tropics of secreting a pigment is really protective of its lower and functionally active layers. Offhand one would be apt to conclude that a black skin ought to increase the heat effects of the solar radiance. We are required now to learn whether the harm is really done by the heat rays, for conceivably it may be due to any other of the diverse sorts of vibration of which that radiance is now known to be a highly complex phenomenon.—Buenos Ayres Herald.

London's Afflicted.

London has its due proportion of those who are crippled by loss of sight or hearing. Of the former there are 3,556, which marks a slight increase since 1891, a tendency which is more marked in the case of the deaf—and, therefore, dumb—who number 2,057. About a quarter of the former, so great have been the strides made in the instruction of persons thus afflicted, are able to engage in some occupation, while half of the deaf are in a similarly fortunate position. Of the blind, 122 were workers in willow, cane or rush, 90 were musicians, 76 costermongers, 49 brush or broom makers and 45 musical instrument makers or tuners. Of the deaf and dumb, 94 were tailors, 72 boot and shoe makers and 71 dressmakers; 55 were engaged in laundry and washing service, 44 were domestic indoor servants and 40 bookbinders.—Detroit Free Press.

Mosquitoes and the Winds.

As the result of studies on New Jersey mosquitoes last summer, Prof. John B. Smith, of Rutgers college, says that not only will the insects travel long distances from their breeding place, but on favorable evenings large swarms rise and are carried during the night by winds. The direction in which they go is often seaward. Swarms have been met 15 miles from the shore, and they are common five miles from shore. Migration of mosquitoes with the aid of the winds Prof. Smith regards as of much importance, and as rendering the control of the mosquito nuisance a state rather than a local affair. The Anopheles mosquitoes continue to breed long after frost has set in, and even a covering of ice on ponds is not fatal to their larvae and pupae.—Youth's Companion.

Souvenir Collecting.

The carrying off of any small portable article from one's friends' houses or from hotels is reaching such proportions, under the name of "souvenir collecting," that soon chairs and tables and other pieces of heavy furniture will be the only things left untouched. Many women, so it seems, think nothing of bearing away a spoon, liquor glass or even a sugar basin, to add to their collection—one might say, of stolen goods—which are triumphantly shown to their friends in cabinets especially made for this purpose.—London King.

What Mud Has Done for Us.

Mud, that at first glance seems so unsightly, is in truth the annual blessing of the lowlands to which it is being borne. We sometimes feel impatient at the way in which sediment closes the mouths of our rivers and impedes navigation. If we could see a map of our country, with a red line surrounding all the portions that have been built out of this silt, I think it would startle most of us to recognize how much of our best land is the gift of these muddy streams.—Prof. S. C. Schmucker, in Ladies' Home Journal.

A Source of Joy.

"I suppose, of course, you disapprove of the way women are copying men's fashions."

"Disapprove of it! Great Scott, no! I wouldn't have it different for the world. Why, it was as good as a circus this morning to watch and listen to my wife when her collar button rolled under the dresser."—Chicago Post.

Her Excuse.

Aunt Mary—What! You don't mean to tell me that you actually proposed to Tom?

Mabel—Certainly, aunty. If I did wrong you are to blame for it.

"I fail to see why."

"You taught me the golden rule."—Chicago Daily News.

Hard to Please.

"Do the new neighbors annoy you as much by borrowing as their predecessors did?" asked Mr. Blykins.

"No," answered his wife. "They haven't run over to borrow a thing. I never saw anybody quite so haughty and unsociable."—Washington Star.

Forgetful Mother.

Teacher—Why didn't you attend school yesterday?

Wilhelm—Please, sir mother has written a note to you about it.

"What was the matter with you?"

"Please, I don't know what mother wrote in the note.—Fliegende Blaetter.

OUR FRENCH GUESTS

Interesting Naval Ceremonies at Annapolis.

FORMAL WELCOME IS EXTENDED.

Representatives of the Government Board the Gaulois, Just Arrived From France, and Exchange Courtesies.

ANNAPOLIS, Md., May 22.—The initial reception of the representatives of the French republic who are here to participate in the ceremonies attendant upon the unveiling of the Rochambeau monument in Washington next Friday took place on board the French battleship Gaulois in Annapolis roads at 2 o'clock yesterday. The weather was ideal, the sun shinging brightly, while a refreshing breeze was wafted from the Chesapeake bay.

The scene on Annapolis bay was picturesque and inspiring. Besides the usual contingent of sailing vessels and small craft dotting the bay there were a number of formidable representatives of the American navy at anchor in the tranquil waters of the Severn. These included, besides the Dolphin, the auxiliary cruiser Gloucester, the battleship Indiana, the training ship Chesapeake, the monitor Terror, the practice ship Standish, the torpedo boat Gwynn and the submarine boat Holland.

The commissioners representing the United States—namely, Colonel Theodore F. Bingham, superintendent of public grounds in Washington; Assistant Secretary of State H. H. D. Pierce and Commander B. R. Rodgers—reached Annapolis from Washington on the 9:15 train and at once proceeded in carriages to the wharf, where they embarked on the dispatch boat Dolphin, commanded by Captain Albert Gleaves. The commissioners were accompanied by the several members of the French embassy at Washington.

At 11:30 the Dolphin got under way, steaming slowly over the shallow channel to meet the incoming Gaulois. The Gaulois and the American escort—the Olympia, Alabama and Kearsarge—under the command of Admiral Higginson, were anchored off Greenberry point lighthouse, five miles below Annapolis.

On board the French steamer every preparation had evidently been made for a most pleasing reception of the American representatives. The giant battleship, a perfect model of modern naval architecture, was spick and span from bow to stern, and every sailor, marine and officer was in proper place to give a hearty welcome to the American visitors. As soon as the commissioners touched the deck of the Gaulois they were effusively greeted by General Brugere, Admiral Fournier and their staff officers.

Those present as commissioners from France were as follows:

General Brugere, Admiral Fournier, General de Chalendar, Lieutenant Colonel Meaux St. Marc, Lieutenant Colonel Hermite, Commandant Berthelot, Captain de Polllieue de St. Mars, Captain Filloneau, Captain Lasson, Lieutenant Commander Sauvaire Jourdan, Lieutenant Commander de Reinach de Werth and Lieutenant Commander Le Jay.

After greetings had been exchanged the visitors were escorted to the cabin, which had been tastefully decorated for the occasion with flowers and fruits, where the brief ceremony of welcome and response at once took place.

In the evening General Brugere and Admiral Fournier received at dinner Admiral Higginson, Flag Lieutenant Evans and other American officers.

A Youthful Frederick.

BERLIN, May 22.—Professor Uphues in the statue of Frederick the Great which he will make for presentation to the United States intends to represent the youthful Frederick before he was broken by the Seven Years' war. The impression prevails in artistic circles that this is a mistake, because when Frederick the Great recognized American independence he was aged and bent and supported himself with a crooked stick. America's first knowledge of Frederick the Great was derived from the English copperplates which were made after the Seven Years' war, when Frederick already stooped.

Baron Munchausen Won.

BERLIN, May 22.—Baron Munchausen, a member of the same family as the story teller, has attained distinction in the German racing world by winning the Jubilee purse of 16,000 marks ($4,000) at the Hoppegarten course with Kelibri, a selling plater, ridden by Nate Hill, the American jockey. Kelibri finished a nose ahead of the two favorites in the contest.

Baseball's Fatal Blow.

WOLCOTT, N. Y., May 22.—Porter Brockway of this place, aged sixteen years, lies in a precarious condition as the result of a blow in the face from a baseball. The ball struck him on the bridge of the nose, breaking the bone and severing an artery. Physicians seem unable to stop the flow of blood, and he will die.

SPORTING NEWS.

ON THE DIAMOND.

The Plainfield High School baseball team left on the trolley, at 1:15 o'clock yesterday afternoon, for New Brunswick, where they played Rutgers.

The management of the Somerville A. C. has been negotiating with several of the Plainfield teams for a series of games. One has been arranged with the Y. M. C. A. to take place Friday, July 4. The Somerville team is one of the strongest in this section.

St. Mary's outfield, this year, is considered to be the best it has ever had. What with Taylor in left, Lederer in centre and Casey in right, there is a combination hard to beat. "Bob" Angleman, who made such a record for long distance running after flies, last season, is to be held in reserve.

Recently one of the members of the Y. M. C. A. baseball nine wrote to the sporting editors of the New York Sun and The Press stating the facts of the game played with Dunellen. An answer was received to the effect that Y. M. C. A. was entitled to the game by a score of 9 to 0.

It has been observed of late that the spectators at the local baseball games constitute some of the most orderly crowds ever in attendance at these contests. Rowdyism is an unknown quality and nothing but gentlemanly conduct is noticed. This speaks well for Plainfield enthusiasts.

In securing "Teddy" Overton as one of its players, the Hope team is to be congratulated. A good baseball player is one who can take care of any position on the in or outfield and this is the class to which "Teddy" belongs. Some good work may be expected of him before the season closes.

Gordon, Feiring, Mague and Smith, of the Hope team, have been doing some great work with the willow this year. Gordon has developed into a vertiable LaJoie, considered to be the best batsman in the National League, and something is expected of him everytime he gets a rap. He generally comes up to the expectation as do the other members.

The Underwoods defeated the Lovell Scrubs in an exciting game of baseball yesterday by a score of 23 to 18. Glenney and Dyer played a great game in the field and at the bat. The line-up of the Underwoods was Doane, 1b; Glenney, ss; Dyer, lf; Duncan, cf; W. Douglass, c; J. Douglass, p; Willis, 3b; Barnaby, rf; Buckle, 2b. Slauson, Long, Corwin and Leland occupied the points for the Lovells.

WHIST.

The contesting teams for the American Whist League Challenge trophy last week were again the Baltimore Whist Club and the Walbrook Whist Club, and the Baltimore Club again won, this time by twelve tricks. As the time draws near when the trophy goes out of play for the season, or until the congress, the clubs from a distance consider it to be hardly worth while to make the journey for the possible chance of holding the trophy for a week or two. Consequently the matches for the trophy are generally confined between clubs in the immediate vicinity of each other.

The Newark Bay Boat Club again successfully defended the Metropolitan Challenge trophy last week, and at the same time distinguished itself by defeating the strong team from the Cosmopolitan Whist Club. The Newark Bay Boat Club joined the New Jersey Whist Association last October, and prior to that time they had not been heard of in the whist world. They lost the first few matches they played, but they profited by their experience, and have since defeated all of the strongest teams in the tournament, thus proving that they are entitled to be rated in the first rank of whist teams. The Acquackanonk Club, of Passaic, is next on the list of challengers.

GOLF.

There was no play for the Hooley cup on the links of the Park Golf Club this week, on account of the rain Tuesday.

Mrs. N. P. Rogers, who expects to enter the coming big tournaments in this State as well as the intercity tournament, is frequently seen on the Hillside Tennis and Golf Club course practicing. Mrs. Rogers was an important figure in last year's events and will no doubt secure a place this year among the leaders.

The contestants at the Hillside Tennis and Golf Club course for the Boys' cup are causing considerable surprise among the older members on account of the excellent game being played. At the rate some of the boys are playing they are capable of playing in the more important events. N. P. Rogers, Jr., is one of these fellows. He has been playing a fast game, equal to that put up by older members. The Golf committee will no doubt take a slice out of the handicaps given early in the season.

TENNIS.

A tennis tournament, open to club members only, will start on the courts of the Park Club Saturday afternoon. A goodly numb r of entries is expected.

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. W. Randolph.

PUPILS' WORK ON EXHIBITION

Third Exhibit Was Held at the Bryant School Yesterday and Today.

WHAT WORK IS SHOWN.

Display Made by Each Grade—Work is Specialized—Some Ideas of Various Subjects Taken Up—Showing in the Art Department—Those in Charge.

The third of the series of public school exhibits was given yesterday afternoon and evening and today at the Bryant School. There was a large attendance of parents and friends during the appointed hours and everyone expressed feelings of admiration of the excellent work accomplished by the pupils. The exhibit was given under the able direction of Miss Emma V. Shattuck, principal, and the following efficient corps of teachers: Miss Cora Cadmus, kindergarten; Miss Louise Runyon, first year A; Miss Emma Starr, first year B; Miss E. May Tennant, second year; Miss Sara L. Chase, third year; Miss Jessie A. Browne, fourth year A; Miss Frances Bryant, fourth year B; Miss Cassie E. Brown, fifth year A; Miss Ariadne Gilbert, fifth year B; Miss Kate A. Remer, sixth year.

Space will not permit a detailed account of this exhibit. Every grade presented work that is not only a credit to the pupils, but shows the great efficiency of the principal and her corps of teachers. From the kindergarten to the highest grade there is a marked improvement in every bit of work performed. Starting with the youngest pupils, who are taught to think and learn and the different simple studies preparatory to promotion, there is a steady advance in knowledge. This school is noteworthy for one thing, that is in each grade some one thing is specialized and made a feature of, and the pupils are taught to write about and illustrate the particular subject. This has been performed admirably as the very painstaking work shows.

Every teacher shows that she has especial fitness for her particular grade and the result is that her pupils have produced satisfactory work. Special attention was directed to the very complete work in the [grade taught by Miss Tennant. She took up the study of Japan and took her class on an imaginary trip to that country, about which they wrote. They also illustrated their studies in a clever manner. All of the work in this grade has been brought together in such a way as to have one follow the other in perfect order.

In every grade there are studies in nature, language, arithmetic, geography, etc., and these studies through various subjects are taught through written work and illustration. In the majority of cases and especially in the two highest grades, the teachers have not assisted the pupils only as they are taught. That is the actual work which has been done unaided. This is brought out to good advantage in Miss Gilbert's class, where there are samples of wood carving and the manufacture of small gears, and other useful articles.

The art work throughout is worthy of mention, it being of a high order. In so many cases the pupils have drawn from memory. In Miss Bryant's class there is one pupil, Miss Mattie Davis, colored, who has a peculiar talent for art work and she designed nearly all of the covers for the written work besides doing other work. Another thing entitled to mention is the method of teaching the pupils how to build a house, plaster it and carpet the rooms.

I. C. T. RECEPTION.

Third Affair Was as Successful as the Previous Ones.

From early last evening until after midnight, this morning, the rooms of the I. C. T. Club was filled with a merry throng of dancers on the occasion of this popular organization's third reception. Music for the occasion was furnished by Suhr's Imperial orchestra. Refreshments in abundance were furnished at midnight. The committee in charge consisted of George L. Apgar, Bert Bilyeu, Claire Bickel and Hiram S. Humes.

Continued This Evening.

The exhibition in Bryant School which was to have closed this afternoon will be continued this evening.

ANNUAL RECITAL OF MISS LUCKEY'S PUPILS

It Was Witnessed by Many Friends Who Filled the Casino Last Evening.

THOSE WHO TOOK PART.

A ONE-ACT PLAY BROUGHT THE PROGRAMME TO A CLOSE.

Series of Delsarte Movements Given by the Pupils—A Number of Recitations Cleverly Presented—The Programme in Detail.

Encouraged by the admiring glances of a host of friends who completely filled the Casino, last evening, the pupils of Miss Mary Adelaide Luckey gave their annual recital. Delsartian attitudes, declamations and finally a one act play, formed the programme, throughout which the young women who took part acquitted themselves in a faultless manner. It was highly enjoyed by the large audience and many favorable comments were passed on Miss Luckey's successful method of teaching.

A series of Delsarte movements arranged by Miss Luckey opened the programme with the following young women taking part: The Misses Muriel Collins, Florence Johnson, Caroline Lambert, Grace Stephenson and Bessie Stephenson. Twelve attitudes were given, all of which were interpreted with most becoming grace. Later in the evening a Panathenaic procession on similar lines proved most interesting, giving an idea of the grace of motion acquired by means of physical culture.

Taking part in this number as processional maidens were the Misses Mabel Pound, Mabel Dewey, Laura Wilcox, Ursula Krewson, Bessie Van Arsdale, Bessie Martin, Edna Randolph and Ruth Bullock. Miss Ellen Vandervoort acted as priestess.

The declamations were all of a high order of merit and rendered with much expression and forcefulness. The titles and pupils reciting were as follows: "Editha's Burglar," Miss Bessie Martin; "As the Moon Rose," Miss Ellen Vandervoort; "The School Ma'am's Courtin'," Miss Edna Randolph; "Birds of Killingsworth," Miss Ruth Bullock; "The Little Housekeeper," Miss Grace Stephenson; monologue, "Rosalind's Surrender," Miss Mabel Dewey; "Dorothy's Auction," Miss Caroline Lambert; "A Warning," Miss Louise Davis; "Dolly's Mamma," Miss Bessie Stephenson; "Chappie Fizzlewig," Miss Maud Wilcox; "Jemima's Courtship," Miss Elizabeth Pound; "The Gossips," Miss Muriel Collins; "Lasca," Miss Laura Plamer Wilcox; "When the Minister Comes to Tea," Miss Florence Johnson; "Swan and Gazelle," Miss Ursula Krewson; "Aunt Elnora's Hero," Miss Mabel Pound; "She Danced With Washington," Miss Marguerite Serrell. In one intermission a Carmen drill was given by the Misses Louise Davis, Mabel Dewey, Elizabeth Pound and Marguerite Serrell.

In conclusion five of the pupils gave a one act play, "The Chinese Dummy," written by Marion Campbell. It abounded with humorous situations which caused much amusement. The characters were interpreted as follows: "Grace Harlow," Miss Dewey; "Miss Artemicia" and "Miss Ella Amelia," Miss Bullock and Miss Wilcox; "Beth Newson," Miss Krewson; "Kate Newson," Miss Randolph; and "Bridget," Miss Vandervoort. All the young women were encored at intervals and many bouquets of flowers were presented by admiring friends.

Possibilities for Colored Men.

A business and social entertainment held at the Filmore Avenue Baptist church, last evening, under the auspices of the Metropolitan Mercantile and Realty Company, of New York. The principal event of the evening was an address by Lawyer J. H. Atkins, of New York, on "Business Possibilities for the Colored Man in Northern Cities." There was also an address by the pastor and singing by the church choir.

Death of Mrs. Coyle.

Mrs. Sophia A. Coyle, aged seventy-nine years, died yetserday afternoon at the home of her daughter, Mrs. Stephen Cahoone, 1126 Watchung avenue, of heart failure. The funeral services will be held from the above residence tomorrow afternoon at 4 o'clock. Interment will be at Catskill, N. Y.

MOVEMENT TO SECURE A NEW ENGINEHOUSE

What Must be Done in Order for Borough to Get the Necessary Funds.

THE PETITIONS NOW OUT.

AFTER ALL THE REST, THE QUESTION MUST BE PUT TO A VOTE.

Seems to be a Feeling in Favor of Such a Building—Said That the Borough Would Really Save Money by the Arrangement.

At the last meeting of the Borough Council the amount of $50 was set aside for the purpose of securing a desirable option on a site for the erection of a new engine house. Petitions are now being circulated throughout the borough with a view to ascertaining how many people are in favor of providing the taxpayers of North Plainfield with adequate fire protection. Julius J. Stahl, Geo. H. Fairchild, David Bodine and W. G. Debele have each a copy of the document and are soliciting the names of property-holders.

This present petition will have no final effect on the proposed idea of building. There is an abundance of red tape to be unravelled before any definite progress can be made. Thus when twenty-five per cent. of the taxpayers have signified their willingness to have work begun on the new construction, the petition will be presented to the Council through the fire, water and lamps committee.

When the council is convinced that a favorable sentiment exists, that body may order an issuance of bonds to cover the cost, but not before another petition, under its auspices, has been circulated and received the required number of signatures.

The matter does not end even here. Before the consummation of the scheme—no doubt by this time devoutly wished for—a special election must be held and a majority of voters must register their desires for or against the proposition before the new engine house may be looked upon as an established fact or a defeated project.

The circulators of the petition report that great success is rewarding their efforts. There can be no doubt but that those who are signing the paper will also sign the one to be circulated later by the mayor and Council. No decided opposition has cropped up from any quarter.

The erection of the new engine house is not calculated to increase the running expenses of the borough. True, an issuance of bonds will be necessary, but at the present time, $300 or $400 a year is disbursed in rent, besides expenditures for storage and like purposes. The money that is now swallowed up in this manner could be applied to paying the interest on the bonds and the borough would have a valuable asset to the good.

It is not likely that the question of annexation or consolidation will be allowed to influence the scheme in any way. Many men of different minds on the matter of union are a unit in the belief that an engine house is a needed improvement. An architect is now drawing up plans, but the cost of the structure has not yet been estimated nor has the site been definitely selected.

AN OLD EDITOR.

Rev. Wm. J. Leonard, of Boston, Visited in Plainfield Yesterday.

A welcome call was received at The Daily Press office yesterday from Rev. William J. Leonard, of Boston. Mr. Leonard was for several years editor of The Central New Jersey Times, and he has many warm friends in Plainfield who are glad to meet him again. He was called to Plainfield partly on business and he has combined pleasure with the trip. Mr. Leonard has changed but little since he lived in this city. He is now pastor of a Unitarian church at Boston.

POLICE AT DRILL.

The Night Patrolmen Put Through Evolutions by the Sergeant.

The night patrolman of the local police force were put through an hour's drill, in the Marsh building, yesterday afternoon. Several city officials were in attendance and also congratulated the bluecoats.

GOOD REASONS FOR UNITING

Enthusiastic Mass-Meeting Held in Saengerbund Hall Last Evening.

STRONG POINTS MADE.

Crowded With Those Who Went to Hear Arguments for Annexation and Consolidation—Senator Reed and Former Mayor Saunders Chief Speakers.

The annexationists gathered in force in Saengerbund Hall last night to pour hot shot into the camp of their opponents. There was a large crowd present, larger than at the previous meeting held there by the anti-progressionists, as they were dubbed by W. L. Saunders in the course of his speech.

It was a good-humored, patient and enthusiastic gathering. A great number stood in the aisles and around the doors until Senator C. A. Reed and Former Mayor Saunders had concluded speaking, and it was then 11 o'clock. A large crowd still remained to hear short addresses by Mayor Smalley and J. O. Osgood. The speeches were argumentative, yet eloquent, frequently punctuated by rounds of applause and by outbursts of laughter.

Martin I. Cooley was chairman of the meeting and on the stage were a large number of the vice presidents, whose names were attached to the advertised notice of the meeting. In the audience, a small representation of the more active anti-progressionists occupied seats. The gallery held a goodly contingent of the fair sex, and a few were sprinkled throughout the audience.

Martin I. Cooley, in opening the meeting, said the object of the gathering was to present the benefits of annexation and consolidation. Annexation was not a political scheme, it was a stern, business proposition. It was a progressive movement. Some years ago they drew away from the township and became a borough. He did not consider this a violation of the mandate "Thou shall not steal;" neither did he think they would be breaking that commandment if they now decided to become a city. Union would made a happy and prosperous community. He introduced Senator Reed.

Senator Reed expressed his pleasure at meeting so large an assembly. He read an extract from the Somerville Unionist-Gazette, containing a statement that might point a moral or odorn a tale. The story, he said, might illustrate that what you see in the papers or hear is not always true. He didn't mind being called a robber or even a politician but he objected to being designated a blithering idiot. He had never said that only three men were opposed to consolidation in North Plainfield; nor did he say that the people demanded consolidation. But he did say that it was a most important question, and one that always came up when there was a question about sewers or other expenditures—it came up in the Council and in the homes. People didn't want to stand the expense if they were going to consolidate.

The history of the bill was briefly sketched. The statement was true that it contained no referendum at first, but he was in favor of a referendum. He stood for the people of North Plainfield and when a question arose between North Plainfield and some other place he was always for North Plainfield.

"Thou shalt not steal," was one reason by C. W. McCutchen as against putting part of Somerset into Union county. In 1872, the township of North Plainfield as set off from Warren without any referendum—the choicest pearl was taken; sixteen or seventeen years ago the borough was set off from the township. The throne itself was gone, and Chas. W. McCutchen was one of the chief pirates. Have the rules changed of late?—at any rate the penitent thief has not returned the stolen goods.

It mattered little to the rich man who came from New York, where he lived. Years ago he built in the woods and he cares not whether property enhances in value or not. But how many are in that position? It makes a great difference to the poor man whether the tax rate goes up or goes down. Here they were next door to Plainfield, a city continually growing

(CONTINUED ON PAGE 8.)

TWO CONVENTIONS FOR SAME PLACE AND DAY

Will Nominate Candidates for Congress to Succeed the Late Joshua Salmon.

MEET AT FLEMINGTON.

BOTH CONVENTIONS CALLED FOR TUESDAY OF NEXT WEEK.

Republicans May Go to Lambertville Instead—Some of the Possibilities—Republicans Can't Find Candidate—Lots of Democrats.

It is likely that both the Republican and Democratic conventions to nominate candidates for the seat in Congress made vacant by the death of Joshua Salmon, will be held at the same place and on the same day. The Democrats have issued a call to meet at Flemington Tuesday of next week and the Republicans have practically agreed on the same date and place. It may be that the Republicans will go to Lambertville, although Flemington is said to have the call.

While no candidates have made their appearance on the Republican side, it is said that ex-Senator George H. Large, of Hunterdon county, may be prevailed upon to accept the nomination. It is regarded as an almost hopeless task to elect a Republican in the old Fourth district and for that reason the Republicans are experiencing no little difficulty in finding a candidate. Large would like very much to have the nomination in the new Fourth district, embracing Hunterdon, Mercer and Somerset, at the fall election, but the Mercer county leaders have decided to give the place to Moses Taylor Pyne, of Princeton. Were it not for this decision Large would be willing enough to make the try in the old district at this time.

It is intimated that State Senator Lewis J. Martin, of Sussex county, will be unable to capture the Democratic nomination because of the claims of Morris county to the honor. Morris has several aspirants, including Thomas H. Hoagland, Robert Foote and Edward A. Quayle.

Hunterdon county also has a candidate in the person of James M. Pidcock, son of a former Representative in Congress, but is not likely to make a very vigorous fight. The contest between the Morris and Sussex contingents promises to become very lively and it may be that a candidate from Warren or Hunterdon counties will be named.

Ex-Prosecutor William A. Stryker, of Warren, is being talked of as a compromise. He is well-known in the district and is ambitious to go to Washington. It is said he can get the solid support of his own county, which will make him an important factor in the convention.

There is a disposition on the part of the Democratic leaders against sending Senator Martin to Congress, because of the fact that it will remove a Democrat from the State Senate. It is claimed that the fights in Sussex of late years have been very costly for the Democrats and the leaders are opposed to having a senatorial contest thrust upon them this fall.

MUST WIN.

If Hopes Do Not Defeat the High School, Manager Cose is Going to Do Things to the Men.

The greatest surprise of the season in the local baseball world was the defeat of the Hopes by the High School nine five weeks ago. An underestimation of the school team proved disastrous to the crack West End nine and opened the eyes of the players.

Tomorrow the two teams are to cross bats again and speculation is rife as to the possible outcome. While it seems improbable that the students will win again, no one is absolutely certain.

Manager Cose has been putting his men through a hard course of practice, and has informed them that in case of defeat the nine will be reorganized. Some great playing may be expected from the West End boys as they are not overly anxious to be released.

Expert on Mandolin.

Samuel Siegel, considered to be the most finished mandolin players in the country, will appear at Y. M. C. A. Hall, Wednesday evening. He will be assisted by Hyman Meyer, the celebrated pianist and musical monologist. The concert will be given under the management of William VanEps, of this city.

MUSICAL TREAT BY CLEVER GLEE CLUB

Old Favorites Entertained a Large Audience at First M. E. Church Last Evening.

A HEARTY RECEPTION.

MRS. MINNIE MARSHALL SMITH WAS AGAIN A POPULAR FAVORITE.

Fine Singing by Lotus Glee Club and Miss Corrine Welsh—Solos by the Individual Members—Able Work of F. J. Smith, Conductor.

If it were possible, the Lotus Glee Club rose higher than ever in the estimation of the music loving public of Plainfield after its concert at the First M. E. church, last evening. Assisted by Mrs. Minnie Marshall Smith, dramatic reciter, and Miss Corrine Welsh, contralto, the club presented a thoroughly enjoyable programme which was listened to by an audience which nearly filled the church. The old favorites were accorded a most enthusiastic reception.

There was but one change in the personnel of the club since it was heard last season. W. Stanley Grinsted sang second bass. The other members of the famous quartette are George Seymour Lenox, first tenor; G. Morgan Sticklett, second tenor; Charles L. Lewis, first bass. The club sang in perfect time and harmony and proved itself the best male quartette that Plainfield has ever heard. The members of the quartette all sang solos and were heartily encored. Mr. Sticklett's "Where the Four Leaf Clovers Grows" and Mr. Lewis' "My Love Nell" were particularly fine. The quintette, "Ava Maria," by the quartette and Miss Welsh, was a difficult section faultlessly rendered. The work of the accompanist, Frank J. Smith, was an important factor in the success of the entire programme.

There is no reciter more popular with local audiences than Mrs. Smith and she was seen at her best. Her selections were all cleverly and feelingly given but that old favorite, "The Low Back Car," with piano accompaniment, given by request, took the audience by storm. She was repeatedly encored.

PUBLIC REHEARSAL.

Successfully Given by Y. M. C. A. Orchestra at the Association's Hall Last Evening.

By far the most successful public rehearsal which the Young Men's Christian Association orchestra has yet given was that of last evening. It was the third in number but in point of excellence seemed to be the work of a much more older musical organization. An audience which filled the large hall to the doors was in attendance.

The soloists assisting the orchestra were Mrs. Robert L. Giddes, whose rare soprano voice was never heard to better advantage, and R. Wilson Derby, with admirable bass selections. The descriptive piece, "The Capture of Santiago" and popular medleys, by the orchestra, caught the fancy of the audience.

DEATH OF JOHN CLINE.

An Old Resident Succumbed to a Complication of Troubles.

The death of John Cline, an old Plainfield resident, occurred yesterday at the home of his sister, Mrs. Mary Hines, of Liberty street. He had been ailing for a long time with a complication of troubles. He leaves one brother, Edward Cline, of Plainfield avenue.

Funeral services will be held over the remains tomorrow morning at 9 o'clock in St. Mary's church. Interment will be made in St. Mary's cemetery.

NON-UNION MEN WORK.

Strikers Attempted to Persuade Them to Quit—Two Did So.

Twelve non-union plumbers came to Plainfield yesterday and began work for A. M. Griffen, Geo. J. Tobin, C. W. Krausse and Ernest Enander. A crowd of striking plumbers and their sympathizers followed them to their boarding houses last night and attempted to induce them to quit. Two did so. The remainder are working. There was no attempt at violence.

GRADUATION FOR NURSES

Exercises Were Held in the Chapel of Crescent Avenue Church Last Evening.

THOSE WHO GRADUATED

Addresses Made by C. J. Fisk, President of Board of Governors, and Dr. F. C. Ard—About New Hospital—Ten Commandments for Nurses—Many Attended.

The annual graduation exercises for trained nurses who have completed their course were held last evening under the auspices of Muhlenberg Hospital in the chapel of the Crescent Avenue church. Like all previous events of a similar character there was a large attendance of friends of the hospital, including members of the Board of Governors and the Woman's Auxiliary. About the platform there was a pleasing arrangement of American flags and dogwood. On the platform sat Miss Young, matron at the hospital, her assistant, Miss Wilde, and the pupil nurses as well as the three graduates, Miss Margaret McGrath, Miss Nellie B. Smith and Miss May VanCampen.

The exercises opened with a tenor solo by William A. Tallamy, accompanied by his sister, Miss Ida May Tallamy. This was followed with an address by Charles J. Fisk, president of the Board of Governors. Mr. Fisk infused considerable humor into his remarks, causing much laughter. He gave a brief history of the hospital and training school for nurses. He spoke of the training school being established in 1889 and up to date there have been eighteen graduates, all of whom are doing well. There are now eight pupil nurses in the school. He referred to the suffering and distress to which nurses are called and said that their path is not one of roses.

Referring to the hospital, which was established in 1877, he said that during the past thirteen years 2,449 cases were treated and there were 1,174 operations on indoor patients. The total number of outdoor patients treated was 2,274. During the past two years 451 cases were treated and there were 215 operations. During the past year there were forty-nine private patients, twice the number of the previous year.

Referring to the proposed new hospital, Mr. Fisk said that twelve acres of land had been purchased, the plans for the new building completed and now in the hands of the contractors for bids, and he hoped before long to see the building under way. He said that the capacity of the new building provides for fifty-six patients. He also mentioned the handsome gift of J. Howard Wright and said that Mr. Wright recently wrote him that he wants the scientific room, which he provides, made as complete as possible. The other money subscribed will be used for the administration building and wards.

Mr. Fisk said that a few days ago a friends of his offered $5,000 for the new hospital, and he told him that if he would make it $15,000 he might be able to use the money. Mr. Fisk thought the gift might yet be received. At this time Mr. Fisk introduced Dr. F. C. Ard, who made an address to the graduates.

This address dwelt at some length upon the value of trained nurses and he exprersed appreciation of what had already been accomplished at Muhlenberg and by the graduated nurses. He spoke of the importance of post-graduate work. He said that today nursing is not a charity, neither is it a trade. It is something higher. Of the 27,000 trained nurses today, 15,000 have graduated during the past five years from 600 training schools. Speaking of the local school he said that 25 per cent. of the graduates are either married or engaged.

In conclusion Dr. Ard gave the following Ten Commandments which someone has formulated as suggestions for the nurse in the sick room:

1. Thou shalt remove surplus furniture and make ample room for thy work.
2. Thou shalt maintain perfect ventilation without draughts.
3. Thou shalt keep the patient clean and quiet.
4. Thou shalt forsee the needs of thy patient.
5. Thou shalt restrict visiting, loud-

WHAT PEOPLE ARE DOING

SOME BRIEF PARAGRAPHS OF A PERSONAL NATURE.

Many Folk of Greater Plainfield Are Entertaining or Being Entertained.

Miss Jennie Garretson, of Somerville, has been visiting Plainfield friends.

Miss Ethel Chamberlin, of Raritan, has been visiting friends in Plainfield for a few days.

Mrs. Fritts, of this city, has returned from a visit with Mrs. George VanNest, of Raritan.

Walter L. Hetfield, Jr., of East Front street, is able to be out again after a recent illness.

Charles Sheridan, of East Third street, has gone to Bridgeport, Conn., to accept a position.

Christian Sorensen, Sr., of Webster place, is spending a few days with relatives at Perth Amboy.

Miss Dodd, of Elizabeth, has returned home after a pleasant visit with Plainfield friends.

Mr. and Mrs. Aaron M. Higgins, of Liberty street, are entertaining company from Hunterdon county.

Constable Amos Moffett, who has been detained at home by illness, was able to be out yesterday for the first.

Mrs. Catherine Honan, of West Fourth street, has about recovered from a recent severe attack of pneumonia.

Mrs. O. T. Waring, of Park avenue, who has been quite ill, still continues to improve and will soon be able to go out.

Mrs. Mosher, wife of Justice J. E. Mosher, of East Fourth street, still continues to fail in health. Her physician gives no hope for recovery.

Miss Nellie Mullen, of Bernardsville, will return home tomorrow after spending a month with her aunt, Mrs. A. B. Lewis, of West Fifth street.

Fred VanLiew, of East Sixth street, left today for Philadelphia, where he will be located hereafter owing to the transferring of the New Jersey Central's offices.

TALENTED ARTISTS.

To Appear at Concert of Men's Choral Club Tuesday.

Hobart Smock, the tenor soloist of the concert to be given by the Men's Choral Club at the Casino Tuesday night, is not only the possessor of a splendid voice of compass and power, but he is a finished musician in every sense of the word. He has studied in Germany and Italy, and his rendition of ballads is exquisite in pathos and tenderness. He will be heard at his best on this occasion, but no less pleasing will be the work of the Misses Helen and Mabel Reynolds, who are to make their first appearance here in violin and 'cello solos. They are remarkably superior artists. The Choral Club will be heard in some splendid choruses, so a fine concert is assured.

CAUGHT BY WIRE.

John DeNise Has Filed a Claim Against 'Phone Company for It.

The law firm of Hetfield & Hetfield has notified the New York and New Jersey Telephone Company that a claim against the company has been placed in the hands of Messrs. Hetfield for adjustment. The claim is that of John DeNise who, while riding along Park avenue, on his bicycle some days ago, was struck by a falling wire. The bicycle was smashed and Mr. DeNise was thrown to the ground, receiving a severe shaking-up.

HOW LOCAL PROPERTY IS TO BE ASSESSED

Plainfield Included in Cities Which Are to be Assessed on a Separate Plan.

A CIRCULAR IS ISSUED.

ALL LOTS, EXCEPT CORNER ONES, ARE TO BE ASSESSED THE SAME.

Then Buildings and Other Improvements Are to be Assessed Separately—It Will Raise Some and Decrease Others.

Plainfield, as well as several other places in the State, will be more or less radically affected by the action taken at a meeting of the State board of taxation held at the State house in Trenton, as was told in yesterday's Daily Press. It was decided that Asbury Park, Perth Amboy, East Orange, Atlantic City, Plainfield and Millville shall hereafter be taxed according to the plan now in vogue in Newark and other of the larger cities of the commonwealth.

This plan is one of separate assessments on real estate and on the buildings or other improvements thereon. Thus the building lots in a block on the same street (except the corner lots), for instance, will all be assessed at the same valuation. Then a second assessment will be made covering the buildings or other improvements at their actual value. Separate valuations will be placed on the different grades of buildings and "lumping" valuations as now generally practiced will be stopped.

These changes are made to correct certain evils which the board claims exist in many parts of the State. It is the expressed aim of the board that all taxes be just and of equal proportions, valuations being considered in each case. It is believed that in most instances errors in valuation are made because of ignorance of the law, although, it is contended, some assessors are wilfully neglecting the work assigned them.

Circular letters have been prepared to send to all the assessors of the State urging them to give greater attention to their official duties, and calling their attention to the fact that the law requires a "diligent inquiry" and "personal investigation" into every case.

The letter also calls attention to the necessity of filing assessment statements with the State comptroller, the State Board of Taxation and the district clerks. Persons and properties coming under the provisions of the exemption from taxes are given as veterans, firemen, militiamen; school and other public property, churches, charitable institutions, cemeteries and the like.

These changes were made after a lengthy consideration of all the points at issue. The secretary of the board, Thomas B. Usher, has prepared and will send out the letters.

It is believed that the plan of two assessments on improved real estate will prove much more just and desirable than any other scheme yet tried. It will probably increase the taxes in some instances and reduce them in others.

JUNIOR FIELD DAY.

State Board of Officers Has Fixed August 14, at Asbury Park, for That Event.

A proclamation has been issued by the State board of officers, Junior Order United American Mechanics of New Jersey, designating Thursday, August 14, as field day in the State, and calling on all councils in the State to assemble at Asbury Park on that day. As yet it has not been definitely settled whether there will be a parade or a public meeting in the beach auditorium. It is said that indications point to the latter form of celebrating the day.

The board of officers will meet in the afternoon to confer with a committee from the State Council of New Jersey, Order United American Mechanics. The business before this joint committee will be the matter of consolidating the two orders as they exist in New Jersey. Both committees were appointed in October last and the subject has been discussed in many of the minor details.

It is said that each order has complete confidence in its committee, and the conclusions of the joint committee are likely to be accepted without much discussion. As they exist today in this State, the O. U. A. M. has about 7,000 members and the Jr. O. U. A. M. reports 33,000.

WHAT OTHERS SAY.

Clippings From Other Newspapers Which May be of Interest to Plainfield and Its Citizens.

In out list of patents granted we find this recorded: "T. S. Armstrong, North Plainfield, cooling appliance." History is again repeating itself. A great crisis always produces some great man. Somerset county, and North Plainfield in particular, is waxing very warm over the annexation proposition, and if such an apparatus were ever needed, now is the time. If Mr. Armstrong successfully uses his "cooling appliance" on Senator Reed and the editor of The Gazette, for instance, we may all be happy yet. At any rate it would demonstrate the fact that the "appliance" is perfectly competent to cool almost anything, no matter what may be the temperature. —Somerset Messenger.

LAST NIGHT'S MEETING.

On account of the multitude of other happenings last evening, we are not able to devote as much space to the report of the consolidation mass meeting as we would desire. Those citizens of North Plainfield, who were unable to be present at the meeting, are naturally interested to know what was said. In another column will be found a summary of the evening's speeches. It is to be hoped that a verbatim report of the proceedings will be distributed through the borough by the friends of consolidation.

There were many interesting facts brought out at last night's meeting and the committee in charge chose a wonderfully effective way of bringing these points to the particular attention of the audience that crowded Saengerbund hall. The arguments advanced by the "antis" at their meeting were carefully considered and refuted. Then there was presented such an array of unanswerable arguments that any fair minded man, who carefully considered them, could not help but see the need of annexation and consolidation to advance the best interests of the borough.

Space does not permit us now to comment on any of the arguments presented but it may fairly be said that the meeting was a huge and unqualified success.

WEDDED AT HOME.

Mrs. Annie Bailey Became the Wife of Herbert L. Randolph.

A pretty home wedding was celebrated last evening at the home of the bride, when Mrs. Annie Bailey, of Watchung avenue, was married to Herbert L. Randolph, of this city. The ceremony was performed by Rev. Charles E. Herring, pastor of the First Presbyterian church, at 8 o'clock in the presence of a few intimate friends. Later in the evening the bride and groom left for a short wedding trip, and upon their return they will reside at the home of the bride.

G. A. R. State Officers Chosen.

At the closing session of the G. A. R. encampment at New Brunswick yesterday, Enos F. Hann, of Atlantic City, was elected department commander. No honors were awarded Winfield Scott Post, of this city, but the Woman's Relief Corps was honored in securing two officers. Mrs. Margaret J. Nash was elected department treasurer, and Mrs. W. C. Smith department counsel.

New Collection Baskets.

The handsome new collection baskets, which will be used for the first time Sunday at the Mt. Olive Baptist church, were furnished by Woodhull & Martin.

—The annual summer improvements are being made at T. S. Armstrong's drug store. The front of the store is being painted an attractive shade and other improvements will be made inside.

GRADUATION FOR NURSES

(CONTINUED FROM PAGE 1.)

talking and above all whispering in the sick room.

6. Thou shalt not ask the sick what he wants to eat; rather say "I have prepared something dainty and I want you to eat it."

7. Thou shalt not annoy the sick by telling thy troubles, sad experiences and all thou knowest.

8. Thou shalt let in the sunshine and try to be sunbeam thyself.

9. Thou shalt have confidence in the attending physician.

10. Thou shalt remember that the tenth commandment is to mind thine own business, follow directions faithfully, cheerfully and promptly and the sick will arise and call thee blessed.

After a pleasing bass solos by Frederick J. Pope, accompanied by Vincent Sokol, Mr. Fisk presented the graduates with diplomas, followed by the presentation of the class pins by Charles E. Brooks, of the Board of Governors, who made a few happy remarks. This was accompanied with the presentation to each nurse of handsome bouquets of flowers from relatives and friends. This concluded the exercises and all adjourned to the room below where a reception was held and refreshments were served.

It was announced after the exercises that a friend of the hospital had very generously contributed $500 for its work and use

MAY QUEEN FESTIVAL.

Great Event Last Evening for the Congregation of the Calvary Baptist Church.

The May Queen festival given in the Calvary Baptist church, last evening, was the most successful event that has taken place in the edifice in a long time. Every seat was occupied at its commencement and many were unable to gain admittance.

Miss Mary Cary assisted by Miss Anna Howard were in charge and the folllowing young women took part: The Misses Lillie Twine, Rosa Howard, Belle Cary, Nora Cary, Mamie Carter, Fannie Scott, Mary Robinson, Laura Gains, Isabelle Scott, Bessie Gaston, Frances Johnson, May Robinson, Bettie Gaston, Effie Rogers, Annie Williams, Rosa Thomas, Hattie Gains, Maggie Foster, Belle Howard and Mrs. Fisk. At the close refreshments were served under the supervision of George H. Jones.

REORGANIZATION SALE.

Hahne & Co., of Newark, Announce an Important Event Next Week.

On another page of this issue Messrs. Hahne & Co., of Newark, announce a reorganization sale, which will begin Monday. It will be one of the greatest sales of merchandise ever held in this State, and it is doubtful if so grand an opportunity has ever been offered to the people in Newark and vicinity. Everyone of the 100 departments will contribute to make this event of intense interest to every person in the community. The immense stock of home and personal needs are new and up-to-date, and equal to any shown by the big stores in New York.

Monday and Thursday, morning and afternoon, there will be a grand concert by Newark's most famous band. During this sale Messrs. Hahne & Co. make free deliveries to all railroad stations in New Jersey and Greater New York.

Public to be Admitted.

Following the regular meeting of Perseverance Lodge, No. 74, K. of P., this evening, a good and welfare period, open to all lodge members and their friends will be held. In addition to the talent furnished by the versatile members, several outside teams will be in evidence with some novel contributions. Chancellor Commander William N. Runyon will be in charge of the proceedins.

Lacked a License.

The buying of wool clippings from tailors, considered to be one of the most profitable lines in the junkman's calling, resulted in the arrest of Abraham Gross, of New York, by Patrolman McCarthy, yesterday afternoon. He failed to produce the necessary license when called upon. In the city court, this morning, he paid a fine of $5.

—Neuman Brothers will place on sale tomorrow, 1,000 quarts of extra fancy Maryland strawberries. They are the best on the market.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. COLUMN FOR THE SHOPPERS

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

R. W. Barnes, the Park avenue grocer, carries a large stock of early summer vegetables, besides fruit and everything known to the grocery trade.

The Heywood shoe for men is one of the best known shoes throughout the country, and there is nothing better for the price. Sold by Van-Arsdale.

You can get flowers of any variety in any style from Wm. H. Brower's Sons, New York, by leaving your order with John L. Brower, of East Fifth street.

At the store of the Rogers Sea Food Company on West Second street, fish direct from the nets is received daily. Breakfast orders are made a specialty and are delivered at the time agreed upon.

One of the largest display of gold and silver novelties in the city is to be found at Coliler's. It embraces everything in the wedding or birthday present line. Clocks and watches repaired too.

T. L. Walsh, the North avenue marketman, has something of interest to all lovers of vegetables. It is one of the finest lines of fresh vegetables to be found in the county. It contains everything in season and the stock is replenished daily.

Steamer Burned at New Orleans.

NEW ORLEANS, May 23.—The steamer John K. Speed, lying at her wharf at the foot of Lafayette street, has been burned to the water's edge. The boat and cargo are a total loss. A general fire alarm was turned in, but not before the wharfs had taken fire and a very large section burned away. A fire engine which was backed near the water's edge slipped into the water because of an accident to the wedges under the wheels and now lies at the bottom of the river. The loss will be, including the cargo and the wharfs, fully $75,000.

Exposition's Greatest Day.

CHARLESTON, S. C., May 23.—Wagener day scored an attendance of 500,000 people, 10,000 more than on President Roosevelt's day, and surpassed all former civic celebrations in this city in honor of a private citizen. Stores in the city were closed. Captain Wagener is president of the exposition company and has more than once come to the aid of the exposition. There was a civic and military parade from the city to the exposition grounds.

Boxer Fatally Injured.

BOSTON, May 23.—Tommy Noonan of Chelsea is believed to be dying from concussion of the brain as a result of a blow received in a boxing contest with Eddie Dixon of Chicago at the Lenox Athletic club last night. Dixon gave himself up to the police. The men met at catch weights for a six round go and had nearly completed four rounds when the knockout blow was given.

The Blind Chaplain Injured.

WASHINGTON, May 23.—The Rev. Mr. Milburn, the blind chaplain of the senate, it is believed, will not be able to again officiate at the opening of the senate during the remainder of this session of congress. In an accident last Tuesday the toes of one of his feet were crushed.

Rear Admiral Coghlan's Assignment

WASHINGTON, May 23.—Rear Admiral Joseph B. Coghlan has been assigned to duty as second in command on the north Atlantic station and Rear Admiral J. Sands detailed as commandant of the League Island navy yard.

CONDENSED DISPATCHES.

A corporation is being formed in Chicago to consolidate 117 Indiana coal mines.

A furniture manufacturers' pool, with capital of $25,000,000, was formed in Chicago.

Andrew Carnegie has given $50,000 for the erection of public libraries at Greenwich, England.

A JEWISH EXODUS.

Crushed Down In Roumania, Many Will Come to America.

VIENNA, May 23.—A large party of Roumanian Jews, principally women, girls and young children, stopped at Vienna on their way to the United States.

A majority of the emigrants intend to join relatives in Philadelphia and Milwaukee. All are pinched with hunger and are evidently wretchedly poor. They are enthusiastically confident, however, that in the United States their condition will be bettered.

This party is only the beginning of what promises to be an exodus of Roumanian Jews during the next three months, owing, it is said, to oppressive legislation. The condition of the Jews in Roumania is fast becoming untenable. The new industrial law which excludes Jews from every department of industry will become effective next September, and it is already impossible for Jews to find employment.

TRIPLE HEADED RULE.

Tammany Hall Elects Three Leaders. A New Departure.

NEW YORK, May 23.—Radical and unprecedented action was taken by the executive committee of Tammany Hall yesterday when, by a vote of 28 to 8, an advisory committee of three members was elected to conduct the affairs of the organization. The personnel of the committee is as follows:

Charles F. Murphy, leader of the Eighteenth assembly district, chairman; Daniel F. McMahon, leader of the Seventeenth assembly district; Louis F. Haffen, leader of the Thirty-fifth assembly district, in the borough of the Bronx.

By unanimous vote the executive committee passed a resolution asking the general committee of Tammany Hall to abolish the finance committee, the chairmanship of which heretofore has carried with it the leadership of Tammany Hall.

Powder Plant Explodes.

REDDING, Cal., May 23.—The plant of the Delta Powder works, located near Delta, was blown up yesterday, killing Mrs. George Miller and her child, who resided 100 yards from the plant, and fatally injuring another child. George Miller, husband of the dead woman, and George Barber, who were working in the factory, were seriously injured. Barber may not survive. The cause of the explosion has not been ascertained.

FLEEING FROM HOME

Thousands Leave the Stricken Island of Martinique.

MONT PELEE'S CRATER EXPLORED.

Four Hours Spent on Mountain Under Dangerous and Terrifying Conditions—Intense Heat and Violent Electrical Disturbances.

FORT DE FRANCE, Martinique, May 23.—One thousand persons have gone to the island of Guadeloupe and the island of St. Lucia, and 3,000 more have left for the towns and villages in the extreme southern part of the island. Those who remain at Fort de France are calm.

A member of the colonial legislature of Martinique who has just explored the vicinity of Mont Pelee says:

"I started last Friday for Mont Pelee by the road leading along the coast from Basse Pointe, and, accompanied by M. Telliame Chancele, chief engineer of the sugar works, I reached a height of 1,235 meters without difficulty and was able to ascertain that the present crater is about 300 meters in diameter.

"On the east it is overlooked by the Morne la Croix, the culmination of the island, having an altitude of 1,350 meters, which is completely crumbled and mined at its base as a result of the volcanic action and might easily collapse. The Morne Petit Bon Homme has an incandescent aspect.

"In order to make known our presence at the point where we stood I waved a piece of white cloth attached to a stick in the air, which was replied to by a corresponding signal from an inhabitant of Morne Rouge, who signaled to me in this manner in order to show that he saw us.

"We felt a number of electric commotions, and our shoes were damaged by the heat.

"The pond which was situated near Morne la Croix is completely dried up.

"The iron cross which stood at the foot of the mountain has been melted. Only the base of the masonry on which the cross stood and the lower part of the foot of the cross can be seen.

"The rims of the crater have very much changed in appearance. The heat where we stood was intense, and the whole aspect of the mountain was terrifying.

"Stones fell around us, and we picked up large pieces of sulphur, which, however, we were unable to retain in our possession. The whole spot was charged with electricity, which became so violent that we were obliged to retreat.

"Our descent from the mountain was more difficult than our ascent. A blinding rain of ashes fell upon us, and the engineer was nearly killed by a large stone which fell near him.

"We succeeded in reaching Basse Pointe on our return, after having been four hours on the mountain under the most dangerous circumstances."

Getting Ready to Evacuate Island.

PARIS, May 23.—The government is considering the possibility of the necessity arising for the evacuation of Fort de France and even of the whole island. The ministers do not believe that any such emergency will arise, but they are taking all the necessary measures to meet it if it does.

Still Searching For Dead.

COAL CREEK, Tenn., May 23.—Twenty or twenty-two bodies of victims of the Fraterville mine horror are still missing. Searching parties have brought out 204 dead bodies and are hard at work in efforts to recover the remainder. An awful stench pervades the mine, due to the numerous dead human bodies that have been found therein and also the dead carcasses of nineteen mine mules, none of which has been brought out. Governor McMillan has issued a proclamation calling upon the people of the state to send assistance to Coal Creek.

Boston Blue Law Abolished.

BOSTON, May 23.—The so called "blue law" which prohibited the sale of ice cream, soda water and confectionery on Sunday by druggists and common victualers has been wiped off the statute books by a repealing measure which Governor Crane signed as soon as it was rushed to him from the senate. The agitation growing out of the attempt to enforce the law a few Sundays ago led to the present legislation.

A Monument to Murdered Empress.

GENEVA, May 23.—A monument to the late Empress Elizabeth of Austria, who was assassinated here Sept. 10, 1898, has been unveiled in this city in the presence of the Austrian and Bavarian ministers and representatives of the Swiss authorities. The orators at the unveiling all dwelt upon the fact that the memorial was intended to mark for all time Switzerland's detestation of anarchy.

Greenway Brewery Sold.

SYRACUSE, N. Y., May 23.—The Greenway brewery and malthouse in this city has been sold to J. M. Reid of Cleveland, O., for $200,000. Its capacity is 100,000 barrels of ale a year. A lager beer plant is to be added.

A Fatal Storm.

TOLEDO, O., May 23.—A terrific electrical and wind storm passed over northwestern Ohio. Two persons were killed, one fatally injured and many others less seriously injured. Much damage was done in the oilfields.

Tornado In Oklahoma.

OKLAHOMA CITY, Okla., May 23.—A tornado has struck six miles southeast of Elk City, wrecking a number of houses. Several persons are reported fatally injured. The damage wrought is estimated at $25,000.

TO ALEXANDER D. FRAZEE, LULU FRAZEE, BESSIE FRAZEE, CAROLINE REIFF (formerly Frazee), WILLIAM H. REIFF and LILLIA F. MEIGS.

You are hereby notified that at a public sale made by the City Collector of the City of Plainfield on the twenty-fourth day of June, nineteen hundred and one, the Inhabitants of the City of Plainfield purchased for the sum of four dollars and fifty-one cents all the land and real estate situate in the City of Plainfield, in the County of Union and State of New Jersey, fronting on Rushmore avenue, which is laid down and designated as lot No. 232-238, in block No. 456, as shown on the official assessment maps of the City of Plainfield, on file in the office of the City Collector, said sale being made pursuant to the provisions of an act of the Legislature of New Jersey, passed March 30th, 1886, entitled "An Act concerning the settlement and collection of arrearages of unpaid taxes, assessments and water rates or water rents in cities of this State, and imposing and levying a tax, assessment and lien in lieu and instead of such arrearages, and to enforce the payment thereof, and to provide for the sale of lands subjected to future taxation and assessment," and the several supplements thereto and amendments thereof.

And the certificate of said sale was afterward assigned to me. And you are further notified that you appear to have an estate or interest in said land and real estate, and unless the said lands and real estate shall be redeemed as provided in said act before the expiration of one year from and after the service hereof, and when one year has elapsed from and after the time of said sale, a deed for the same will be given, conveying to me the fee simple of said land and real estate, according to the provisions of said act.

STATUS OF STRIKE.

Rumors of a Change Denied by Leaders.

MEETING OF DISTRICT EXECUTIVES.

They Announce That Nothing Has Happened to Indicate a Settlement of the Anthracite Miners' Fight.

WILKESBARRE, Pa., May 23.—The tenth day of the anthracite coal miners' strike passed off very quietly, not a single incident developing which would in any way tend to change the present situation. Rumors were rife that something was about to take place that would alter the status quo conditions of the negotiations, but these were promptly denied by leaders of both sides to the controversy.

The action of the convention of the three district executive committees no doubt had much to do with these rumors. The members of the committees spent the greater part of the time lounging about strike headquarters, and absolutely nothing was done.

The three district presidents are still here. Mr. Mitchell said that at the morning session the committees took up general business in connection with the suspension, but he did not care to say what the nature of it was. The brief meetings gave rise to the story that the union was waiting for some information, possibly from New York, upon which action was to be taken. This was emphatically denied by Mr. Mitchell. Prominent mining superintendents who were approached on the subject said they had no information from either New York or Philadelphia or anywhere else. One of them went so far as to say that he did not expect anything that would alter the situation to come from the operators' side for some time.

Regarding the demands made by the engineers, firemen and pumpmen, a prominent labor official said that he had received indirect information which made him feel almost sure that one of the big coal companies had decided or is about to decide to grant these men what they have asked for. When the attention of the superintendent of one of the largest companies in the field was called to this, he said: "As far as I know this is not true. Speaking for our company, I can say that a definite plan has not yet been finally decided upon. We have two or three ways in which to meet the latest movement of the union, and we have ten days' time to think the matter over."

Rushing In Soft Coal.

READING, Pa., May 23.—The Reading company has about 6,000 of its cars in the bituminous trade, and the volume of coal that is now coming in from the bituminous regions in Pennsylvania and Virginia is unprecedented. Not a pound of anthracite coal is passing through Reading.

Railroad Men Restored.

SUSQUEHANNA, Pa., May 23.—It is stated here that about 8,000 men on the Erie railroad system who were suspended May 14 on account of the coal miners' strike will resume work at once. About 300 men will be affected in Susquehanna.

Standard Oil In Germany.

BERLIN, May 23.—Eight oil dealers of Magdeburg, Saxony, have complained to the municipal council of that city that they have been ruined by the German branch of the Standard Oil company underselling them at retail. The oil dealers in question have petitioned the municipal council to quash the alleged agreement between the city and the Standard Oil company which prmits the latter to sell oil in small quantities. Replying to the small dealers, the mayor of Magdeburg said that no such agreement existed.

Great Reception to French President

ST. PETERSBURG, May 23.—Considering the lack of emotion in the Russian character, President Loubet's reception during his visit to St. Petersburg must be considered phenomenal. The police allowed the populace much greater latitude than is usual, and the crowds on the central portion of the Nevsky Prospect were of unprecedented size. Traffic on the Nevsky Prospect for vehicles was almost impossible for two hours after the French president had passed.

Cotton Workers' Strike Broken.

AUGUSTA, Ga., May 23.—The King cotton mill, which was closed several weeks ago when its employees struck for an increase in wages, has started in part, 160 hands out of 500 reporting for work. It is claimed that this showing practically breaks the backbone of the strike, in which 10,000 people were involved. The mill will be filled up with nonunion help from other mills, and it is claimed by the owners that it will be running on full time at once.

King Christian Extends Time.

LONDON, May 23.—The correspondent at Copenhagen of The Morning Post says in a dispatch that King Christian has assented to the extension for one year—namely, until July 24, 1903—of the time allowed for the ratification of the treaty for the sale to the United States of the Danish West Indies, which, according to the Politiken of Copenhagen, was proposed by John Hay, the United States secretary of state.

Inauguration Festivities Ended.

HAVANA, May 23.—A grand civic procession occurred here yesterday afternoon, and the three days' festivities attendant upon the inauguration of the Cuban republic ended last night with a banquet to President Palma given by the municipal council of Havana.

THE STURGIS WAGER

A DETECTIVE STORY.

By EDGAR MORETTE.

Copyright, 1899, by Frederick A. Stokes Co.

"For me?" exclaimed Agnes, surprised.

"Yes, miss; a gentleman left it for you."

Agnes took the letter, inspected it curiously for an instant; then, excusing herself, she tore open the envelope and unfolded the note which it contained.

At once a deep flush suffused her face, and an expression of annoyance passed over her features. She glanced up hastily at Sprague, who was apparently hard at work upon the background of the picture.

The hall-boy was waiting expectantly.

"There is no answer," said Agnes quietly.

And as the stern mandates of fashion either forbid a woman to wear a pocket, or else decree that it shall be located in some particularly inaccessible position, the young girl dropped the letter and its envelope into her lap and resumed the pose.

Sprague tried to renew the conversation where it had been interrupted; but his efforts were in vain. Both he and Agnes were preoccupied during the balance of the sitting.

When at last the time came for Miss Murdock to leave, Sprague accompanied her to her carriage. After watching it until it disappeared around the corner, he returned moodily to the studio.

As he entered the room, his eyes fixed in a vacant stare upon the floor, he caught sight of something white—a sheet of paper—resting there. Mechanically he pushed it to one side with his foot.

The sunshine seemed to have gone with Agnes Murdock. A gloom had fallen upon the place and its occupant. The artist tried to work; but he was restless and depressed. At length he threw down his brushes; and rising from the easel, he put on his hat and coat and started out for a walk, in the hope that exercise would drive away the blue devils whose grip he felt tightening upon his heartstrings.

Meeting some friends in the course of his aimless wanderings, he was persuaded to spend the rest of the day in their company, and returned to his bachelor quarters late in the evening, tired enough physically to obtain that healthful sleep which is the boon of strong youth.

CHAPTER IX.

THE KNICKERBOCKER BANK.

Richard Dunlap was a man who had never missed a train nor been late in keeping an appointment. On the morning following Sprague's dinner party, he walked briskly down Broadway from City Hall. It was New Year's day; the great thoroughfare was deserted. As he turned into Wall street, the hands of the clock in Trinity steeple pointed to three minutes of nine. The financier pulled out his chronometer, found that the clock in the old belfry was right, and quickened his pace.

Wall street slumbered peacefully and silently, like a battlefield after the roar of the cannon has been hushed, after the victors and the vanquished have disappeared, leaving behind them only the ghosts of the slain. The deathlike stillness was oppressive.

At last, as Dunlap reached the Knickerbocker bank, the clock in the belfry struck the hour. The reporter was not there. The banker uttered an ejaculation of annoyance. He looked up and down the street. There was no one in sight. He resolved to give Sturgis five minutes' grace, and began to pace back and forth before the entrance to the bank. Then a thought struck him. There was another entrance on Exchange place—that generally used by the employes and officers. Perhaps the reporter was waiting there. Dunlap walked around to Exchange place and glanced up the street. He saw a man standing in the gutter and bending low over the curb. Dunlap advanced to obtain a front view of him and recognized Sturgis. The reporter had not noticed his approach; he held a magnifying glass in his hand and seemed deeply interested in a minute examination of the smooth-worn curb.

"Good morning, Mr. Sturgis," said the banker, "have you lost something?"

The reporter looked up quietly.

"No, Mr. Dunlap; I have found something—something which may possibly prove to be a hyphen."

"A what?" asked the banker, perplexed.

"A hyphen connecting two parts of a very pretty puzzle."

Dunlap stared curiously at the curb.

"I can see nothing there," said he.

Sturgis handed him the magnifying glass.

"Now look again."

He pointed out a particular portion of the curb. Dunlap looked in the direction indicated.

"I see what looks like dried mud, dust particles, and a little dark spot or stain."

"Yes," said Sturgis, "that dark spot is the hyphen. There were probably

"YES, MISS, A GENTLEMAN LEFT IT FOR YOU."

others like it on the sidewalk yesterday afternoon, but they have been obliterated by the pedestrians. Here, however, are some that have remained."

As he spoke, he led Dunlap to the Exchange place entrance of the bank, and pointed out a number of similar spots on the stone steps.

"Fortunately," he said, as if speaking to himself, "fortunately the detectives entered through the front door last night so that they did not interfere with this portion of the trail."

"But what are these spots?" asked the banker.

"They are blood-stains," replied the reporter. "I have every reason to believe them to be human blood. But that question I can settle positively as soon as we are in the bank, for I have brought a powerful microscope. Let us enter now, if you like; I have seen all there is to be seen outside. By the way, do you know this key?"

He held up a large steel key of complicated structure.

SPORTING NEWS.

ON THE DIAMOND.

The Orange Field Club will play the Plainfield High School Scrubs on the Hope grounds tomorrow afternoon at 3:30 o'clock.

Interset in baseball has been revived among the members of the local police force and a delegation practices on the St. Mary grounds daily. Arrangements are being perfected for a series of games with the Elizabeth bluecoats' nine, under similar conditions as last year's games were played.

Among the games arranged for tomorrow by the local teams are the following: Hope against Plainfield High School on latter's grounds; St. Mary's against Cathedrals, of New York, on former's grounds; Safe Works against Dunellen on former's grounds; Y. M. C. A. against Scotch Plains on latter's grounds. All games are scheduled to begin at 3:30.

GOLF.

In addition to the team match between Hillside and Hackensack on the Hillside course tomorrow, there will be the weekly play for the Boys' cup in the morning and the weekly play for the Golf Committee cup in the afternoon.

The semi-annual handicap of the Produce Exchange golfers was decided yesterday at the links of the Knollwood Country Club, near White Plains. Among the contestants were Thomas R. VanBoskerck, who made an excellent net score of 82 with a handicap of 8, and Roger F. Murray who, with a handicap of 5 made an 85 net. Murray and E. C. Halstead, of Westfield, had the same score. The lowest score was made by W. M. McCord, Knollwood, and Edward Flash, Harbor Hill, each making a 78 net.

—One thousand quarts of extra fine Maryland strawberries will be on sale at Neuman Brothers tomorrow. Buy early.

Plainfield's Delegates.

The following women from this city, representing Plainfield clubs, attended the spring meeting of the State Federation of Women's Clubs at Montclair, yesterday: The Rasores, Mrs. Horace Kimball, Mrs. Henry M. Humphrey; Monday Afternoon Club, Mrs. Josiah Browne, Mrs. D. M. Vanvliet, Mrs. Edward J. Patterson; Woman's Parliamentary Club, Miss Clementine R. Yates and Miss Edna Thayer.

GOOD REASONS FOR UNITING

(CONTINUED FROM PAGE 1.)

ahead; if they fell behind the procession their property would decrease in value; if they made the improvements their tax rate would soar above Plainfield's and their property would likewise decrease. Today they couldn't go to the train, the bank, the express office, or the hospital without saying to Plainfield, "by your leave."

The speaker here read from documents to show that county lines in New Jersey had been changed time and time again and in no case was the matter referred to the people. Up to 1850, the city of New Brunswick had been one half in Somerset county. It was taken from Somerset county without any referendum, without any compensation, to allow the people to live in one town and one county. Mr. Reed read extracts from a letter by A. V. D. Honeyman in The Press in March last on the subject of consolidation. He wanted a referendum. The referendum was granted and the Somerville Unionist-Gazette editorially stated that the "sting of the serpant was eliminated." Speaking of the resolution introduced at the last meeting of the Borough Council for an election on May 14 on annexation and consolidation a week later Senator Reed said it was a ruse.

"Oh, if you had only passed that resolution we had you," said a prominent anti-progressionist. No decision could have been reached without the stated time. The Supreme Court would have been appealed to in case they took further action. Did they not have an opportunity for an election and allowed it to slip between their fingers? would be the argument of the opponents. Again referring to the question of politics in the scheme as charged by Mr. Honeyman, he declared that at one time Mr. Honeyman was the biggest politician in the county when there were so many politicians in the county that if they were taken out, there would not be enough people left to man a Sunday-school excursion.

In conclusion Senator Reed furnished statistics to prove the falsity of statements advanced by Mr. Howland at the last meeting, and showed that he had quoted wrongly—perhaps not intentionally, but through ignorance—from records.

Mr. Saunders was the next speaker. He spoke eloquently and convincingly for more than an hour. He reviewed the history of the bill, the early opposition encountered and how it had been overcome; how the Board of Trade had approved of consolidation and annexation and committees had been appointed by both Plainfield and the Borough Councils to consider the question. This is not a matter of sentiment, it is a business proposition. The only move that they will make is one of progress. If he did not prove that consolidation was wise, that facts and figures and plain logic were with them, he was ready to step down and out. You have a railroad station, banks, factories, at present all by the grace of Plainfield. The people of the borough are as much a part of Plainfield and as dependent on it as the arm is a part of the body. The city is responsible for the borough's growth. Without Plainfield, the borough would have no more life than Fanwood or Dunellen.

Mr. Saunders here by the aid of carefully prepared diagrams showed how the tax rate had increased in North Plainfield while property had declined, while an exactly opposite condition existed in Plainfield. This plainly unnatural condition of things can go on if one wants to pay for it. Mr. McCutchen said it wasn't necessary to consolidate. It didn't matter to wealthy, rural Mr. McCutchen whether he spends a few hundred dollars a year more to keep up this environment; he is only spending his surplus revenue, but what about the wage-earner? An increase of taxes means a sum taken not from the business but from the necessities of life.

Mr. Saunders speech was an able and thorough review of the question and will be published in full in The Daily Press at a later date.

Mr. Osgood spoke for a few moments on the sewers, and showed the people could have a system and save $40,000 or $50,000 by uniting with Plainfield. The Plainfield main is only carrying 60,000 gallons a day with a capacity for 4,000,000.

Mayor Smalley dealt with the "hotels" so-called. They are to a man against consolidation, because the license is cheaper, and they have no hours for closing their bars except on Sunday. At one minute to twelve last Saturday night they said to the men in the bar: "Here, get out now, you haven't signed the register or taken a room; it's twelve o'clock; we can't keep open on Sunday." Were these hotels, he asked. Meeting then closed with cheers.

CITY JOTTINGS.

—Wednesday evening at the Waldorf-Astoria, Miss Evalina DuBois Benton, of this city, recited at an affair given by her teacher, Mrs. Alberti.

—Workmen are engaged placing new window frames in Hepburn & Company's pharmacy to replace the ones recently found to have been rotted by the rain.

Highly Endorsed.

Leo H. Battalia, the expert piano rebuilder, has just completed the removing of worn-out parts of the Weber square piano of the Franklin School and the principal, Miss Bullock, is high in her praise of the excellent condition he has restored the piano to. Mr. Battalia has many strong recommendations of his ability as a piano expert and among some of them in this city are the Board of Education, Mies Jessie M. Utter, Miss May Vincent Whitney, Mrs. T. H. Tomlinson and Andrew J. Gavett. His branch office is at 426 Watchung avenue.

Carpenters Struck.

The carpenters on certain work under contract by Wyman & Haberle, Chas. M. Wilson, John Abbott and John McNeely, struck this morning, because non-union plumbers were put on the work. It is said that Former Councilman Frost engaged union plumbers and tinners for the work on his Watchung avenue house.

Picture of an Old Landmark.

An interesting sketch of the Friends meeting house on Watchung avenue, accompanied by a picture of the meeting house, also pictures of Mrs. Sarah Clifton and Mrs. Mary Force, two aged Friends, appeared in yesterday's Newark News.

The Colored America.

A large attendance was present in Mount Olive Baptist church, last evening, when G. F. Riching gave his illustrated lecture on "The Colored America." It will be repeated this evening.

Report of Convention.

The Woman's Relief Corps will meet this evening in G. A. R. Hall, when a report of the convention held at New Brunswick this week will be presented.

Free Day.

This is free day in the borough High School. The regular free day falls next week, but on account of Decoration Day it was granted this week.

Member of Finance Committee.

Chief T. O. Doane was elected a member of the finance committee of the State Exempt Firemen's Association, at the conventon held this week.

Resigned As Corporal.

John Johnston, of Company K, has resigned his position as a corporal of the company. He will still continue as a member.

PEACE NEGOTIATIONS.

Great Britain Presents Ultimatum. Boers Expected to Accept.

LONDON, May 23.—The Daily Mail in its issue of this morning says it understands that owing to the protracted haggling of the Boer leaders at Pretoria Great Britain has presented them with what is practically an ultimatum, their reply to which is awaited and which it is expected they will accept.

Dispatches which have been received here from Pretoria, continues The Daily Mail, say that during the stay of the Boer delegates there the conference will continue at Vereeniging and that a majority of those present at the conference are trying to persuade the recalcitrant minority into a unanimous vote. In the meantime the British columns have been resting and refitting and are now all ready for immediate action. The Daily Mail says it believes the delegates at Pretoria will dispatch the ultimatum to the conference at Vereeniging for its consideration.

The Daily Chronicle this morning claims authority to say that peace in South Africa is practically assured. This is also the general impression which prevails with the other newspapers and the public, although the former do not go so far as the assertion published by The Chronicle. At a late hour last night, however, the government departments declined to give any information on the matter.

It is understood that important dispatches were received yesterday from Lord Milner, the British high commissioner in South Africa, and from Lord Kitchener, but nothing can be learned of their contents.

Miss Emma Mattox, of Newark, is visiting at the residence of Wm. J. Mattox, of Webster place.

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. W. Randolph.

ANOTHER SENSATION

Sale of Clothing.

A very large clothing manufacturer failed, as usual, we are always on hand with our ready cash and we were fortunate to secure the largest portion of MEN'S, BOYS' and CHILDREN'S CLOTHING at less than half the cost of manufacturing them. FRANKLIN DAY OF EXHIBITS

Parents and Friends Shown What is Done by Classes of the Franklin School.

YESTERDAY AND TODAY

Display From All the Classes Shown Some Clever Work—That Which Deserved Special Mention—Miss Bullock in Charge, Assisted by Her Corps of Teachers.

Those who visited the Franklin School yesterday afternoon and evening must have gone away murmuring "old times are changed, old manners gone," but surely they would not heave the minstrel's sigh of regret. It was Franklin day in the series of school exhibitions and exposed to view was an array of work suited both to please the practical man of affairs and delight the heart of a connoisseur. There was work that might gratify the mind of a pragmatic or content the soul of an aesthete.

On entering the chapel on the third story the eye immediately fell on an arrangement of drawings and water color work on a large background directly at the rear of the platform. This was the art exhibition, and was representative of the whole school, not confined to any special class or any particular order of merit. The pieces were so placed that the best effect might be obtained from the viewpoint of symmetry and shade. In this collection especially worthy of note was a water color execution of a branch of pink dogwood blossoms, the performance of Miss Grace Weeks, and another which may be most aptly described by its motto, "The evening falleth with its quiet shade over tree top, hill and meadow," which was accomplished by Miss Inez Stuart. Miss Stuart's work was a small forest glade, very realistic even to the sunset and the shadow of the trees in a nearby lake. In this department it would not be difficult to particularize still further, but it would be less easy to draw a dividing line.

Turning from the general exposition, immediately in front of the stage spread on tables was the kindergarten exhibit. Miss Rosson and Miss Angell are the kindergarten teachers, and the handicraft of the children is sufficient testimony of their ability to guide the tender thought and "teach the young idea how to shoot." On either side of the kindergarten display was the first grade work, presided over by Miss Barber. Each month has its special exercise. Thus February is the patriotic month when time is devoted to the study of lives of Washington and Lincoln, in January the tribes of the north are considered; in March, the opening of spring, the pupils are interested in the return of the song sparrow, the blue bird and the thrush, and the awakening of the maple and the elm. There is an interesting array of drawing, writing, coloring, sewing and illustrating apportioned appropriately to each month.

Proceeding down the right hand side of the hall one first meets the first grade work and so on in order till the sixth is reached at the entrance door. On the opposite side of the hall from the stage down is placed the exhibition of third grade A, fourth grade A. and fifth grade A. On tables below each exhibit together with text books and various appliances are booklets in each subject, containing the work of every pupil in the class.

That the exhibit might be more comprehensive each teacher chose some special subject which was elaborated, but not to the neglect of other studies. Every class exhibit is a general one with special attention given to some subject in the way of illustrations or short compositions, and it should be stated that in no case was the work of any pupil corrected previous to being placed before the public eye.

The special subjcet in the second grade, taught by Miss Hulier is language. "Hiawatha" is the specific study, and here may be read extracts from the poem or short compositions based on it by various pupils. Every story is illustrated by the class artist, Benjamin Samuel. The same method is pursued in the third and fourth grades, presided over by Miss Strong and Mrs. Jerome respectively. There is some very remarkable illustrative work in the fourth grade exhibit by

NEARLY LOST EYE.

Head of Match Flew Off and Struck T. A. Kurshals, Jr., on Eye Ball.

Through carelessness on the part of a friend in striking a match close to him, Theodore A. Kurzhals, Jr., of West Second street, narrowly escaped losing the sight of his left eye, Thursday evening. The head of the match flew off and struck Kurzhals squarely on the eye ball, just missing the pupil. A blister appeared which partially obscured tne sight for a time, but which has since gone away. The injury continues to be very painful.

TWO TRIBES FAVOR UNION

BUT RED MEN OF WETUMPKAH DO NOT WANT TO GIVE UP NAME.

Miantonomo Tribe Voted Last Evening in Favor of Consolidation—The Vote Was 18 to 1.

The members of Miantonomo Tribe, No. 118, Improved Order. Red Men, met last evening and received the report of the committee on consolidation through its chairman, William Newcorn. After the chairman had outlined the basis of consolidation, a secret ballot was taken, resulting in a vote of 18 to 1 in favor of consolidation. After the committee was discharged, it was again appointed and a conference was then held with a like committee from Panghcaughnaughsinque Tribe, which was present.

A report was received afterward that there appeared to be no obstacles in the way of consolidation and Saturday evening, May 31, was appointed as a time when the committee will submit the terms of consolidation in writing.

It now looks as though Wetumpkah Tribe, No. 229, will not consolidate with the other two tribes. It cannot be learned just why Wetumpkah refuses to merge with the other tiribes, but it is understood that one reason is the members do not want to give up their name of the tribe in favor of Miantonomo.

FINE RESIDENCE.

Work Started on Elaborate Home on Watchung Avenue to be Occupied by Daniel Ginna.

One of the most palatial residences in Plainfield, when completed, will be that upon which work was begun yesterday at the corner of Watchung and Kensington avenues. The structure will cost in the vicinity of $20,000 and the owner is Stephen A. Ginna, and, when completed, it will be occupied by his son, Daniel Ginna.

It will be built in the colonial style of architecture, with a piazza and colonnade of four columns in the front. On the west elevation there will also be a long piazza with a row of six fluted columns, while the east is set off by a small portico, at one of the entrances.

A glance at the plans shows that on the ground flood provision is made for a large reception room, library, oval shaped dining room, a billiard hall, opening on a cosy den, an entrance hall and a spacious side hall, besides the kitchen, butlers closet and the pastry kitchen. On the second floor are fine large chambers, three bath rooms, a rear hall and a large central hall leading out to a balcony. The attic contains four bed rooms, one bath, two store rooms, and a hall in the centre. In the basement besides the central cellar quarter, there is a boiler room, store room, coal bin and laundry. The inside frunishings will be the most gorgeous, and the woodwork decorations of the highest quality.

TO AID NINE.

Park Athletic Club Conducted a Successful Sale in Washington Park Yesterday Afternoon.

Great success attended the efforts of the Park Athletic Club members, yesterday afternoon, to raise funds for fitting out its baseball team. A ice cream, cake and lemonade sale was held on the lawn about the residence of W. J. Roome on Sycamore avenue and $32.11 was cleared. It is the largest amount the club has ever raised at an affair of this sort.

Those in charge of the different booths were as follows: Lemonade, Frank Curtis and Jack Dewey; candy, Tracey Howard, John Valiant, Charles Lyman; cake, Russell Pond and Willie Nischwitz; ice cream, Walter Vail and Laurie Milne.

To Teach in Private School.

Miss E. May Tennant, a teacher in the Bryant Public School, will sever her connection with the school at the end of the present term. Next fall she will be a member of the teaching corps at the Randolph-Cooley Collegiate School.

HOW NEW EXAMINATION FOR LAWYERS WORKS

Plan, Which Tests Candidates' Academic Knowledge, Succeeds Throughout State.

IN TWELVE COUNTIES.

REGARDED AS HIGHLY SATISFACTORY BY SUPERINTENDENT OF SCHOOLS.

It Evidently Frightened Some of the Would-be Lawyers, Because the Number Examined Was Much Smaller Than Usual Classes.

The novel plan of having young men who are seeking admission to the bar passing an academic examination on the same level with the school teachers has produced some good results, but it has evidently frightened some of the prospective limbs of the law.

The State Board of Bar Examiners, appointed by the Supreme Court for the June term, established a new precedent which provided that law students must produce a certificate for a certain amount of academic accomplishments. The new rules as promulgated requires that each candidate must be examined by six of ten studies outlined by the county examiners for school teachers. These studies are: History of the United States, general history, arithmetic, elementary algebra, grammar, geography, civics, physics, Latin and French.

The recent examination was suddenly announced, and few of the applicants were prepared for the ordeal, but so far the returns that have been made to the State Superintendent of Education, C. J. Baxter, it shows that twelve counties of the twenty-one were represented. Twenty-three passed the academic examination out of a group of twenty-eight. Superintendent Baxter states that the reports are coming in daily, and they show a strong average, all of them over ninety on the academic study, and he is preparing to issue the proper certificate.

The certificates, however, are only good for the year 1902, and it is an open question whether they are good for any subsequent period beyond the period of issue, It is generally presumed that the purpose of the certificate is to establish the academic record of the student, and that even should he fail to come up for regular bar examination at the term subsequent to that of the academic examination, the certificate will have force for subsequent examination. There is, however, doubt about this, because the circular of the State Board of Examiners announces that the certificates are good only for the June examination, and that those students who fail to appear for the June examination, must be re-examined or get their certificates indorsed. This means that the students who does not follow his academic examination, will have to be re-examined, subject to the orders of the State Board of Examiners.

The returns from the recent examination is regarded by Superintendent Baxter as highly satisfactory because of the proficiency shown. From a legal standpoint it is figured that the number examined was very light for the June class, being about one-third of the usual number. This is, to the mind of the older lawyers, as indicative of some fear on the part of students for the academic examination.

MR. MEREDITH'S WORK.

Annual Report of Schools of Nutley, Where He is the Superintendent.

The annual report of the Board of Education of Franklin township, Essex county, which includes Nutley, has just been issued and a perusal of it shows that the schools of that township are in a flourishing as well as a sound financial condition. A. B. Meredith, formerly science instructor at the Plainfield High School, is supervising principal and principal of the Nutley High School, and his work at the above place has been of a high order, giving entire satisfaction. The course of study has been revised and the progress made by the pupils is marked.

All Clerks Invited.

The Retail Clerks' Mutual Benefit Association will give an entertainment Monday evening in their rooms in G. A. R. Hall, to which all clerks, whether members or not, are invited. An attractive programme will be peesented and there will be other features.

FRESH AIR CAMP.

Will be Opened at Netherwood Next Month by Miss Sara Curry, Who Was at Westfield.

During the month of June Miss Sara Curry will bring the little children of her Little Missionary Day Nursery, 93 St. Marks place, New York, to their new summer home in Netherwood. Miss Curry, so well-known in Plainfield and surrounding towns, needs no introduction and it is firmly believed that she will have the support of many in the endeavor to give her little ones the benefit of the fine country air and wholesome food.

Many will recall Miss Curry's devoted efforts to help the work at the fresh air camp at Westfield and her success in coping with disease while there. The work will be confined to the small children ranging in age from six months to five years. Some of the influential citizens have already expressed an interest in the work and donations toward the object may be sent to J Wesley Johnson, of La Grande avenue. Further information may be obtained from Mrs. David M. Runyon, of Arlington avenue.

EXHIBIT CONTINUED.

Many Examined Work Shown at the Bryant School Yesterday Afternoon and Evening.

The exhibition at the Bryant public school was continued yesterday afternoon and evening with much success. Owing to the many affairs of the previous evening a large number of people were prevented from attending the exhibit Thursday. Yesterday the attendance was gratifying giving the principal and teachers additional pleasure in knowing that the work is appreciated.

Mention should have been made yesterday of the piano solos rendered Thursday by Miss Cassie E. Brown, and of the mandolin selections in the evening by Wm. VanEps. Miss Brown also gave piano selections yesterday.

FOR GOOD CAUSE.

Young Women's Club Will Receive Proceeds of the M. C. C. Concert.

The Young Women's Club will receive the net proceeds of the concert to be given by the Men's Choral Club at the Casino next Tuesday night. It will be remembered that at the disastrous Babcock building fire, the Young Women's organization lost all its effects including a valuable piano. The Men's Club desire to help, and to this end arranged for the forthcoming concert, and the engagement of talent in the persons of Hobart Smock, famous tenor singer, and the Misses Helen and Mabel Reynolds, violinists and 'cellists. A better combination is seldom gathered together. Mr. Smock is a whole concert in himself. His magnificent voice has thrilled many in church and on stage alike and the Misses Reynolds are wonderful players. Don't fail in attendance at this great event.

VOLCANIC DUST.

First Sample Brought to Plainfield by J. M. Bettman.

The first of the volcanic dust from Mt. Pelee to arrive in Plainfield was brought here yesterday by J. M. Bettman, of Washington Park. He very kindly remembered The Daily Press and left a sample of the dust at the office, where it can be seen. Mr. Bettman was presented with the dust by a friend, an officer on a steamer which happened to be in the vicinity of Martinique at the time of the upheaval.

To Repeat Emancipation.

The choir of the First Presbyterian church will repeat "Emancipation" at the services tomorrow evening. The services will be identically the same as when presented on a previous occasion. Besides the regular male quartette those taking part will be Mrs. Charlotte M. Ross, Mrs. Jno. H. VanWinkle, Miss Etta Raybert and Miss Julia Carman.

Mistake of One Figure.

The Plainfield sewer carries 600,000 gallons daily, instead of 60,000, as was stated in the report of the annexation meeting yesterday. 600,000 was the quantity stated by J. O. Osgood in his speech Thursday night. The sewer has a capacity for 4,000,000 gallons.

On Staff of Princeton Paper.

Ames Brooks, of West Eighth street, a student at Princeton University, was recently elected to membership on the staff of The Bric-a-Brac, one of the most important publications at Princeton. It is a yearly publication.

Engagement Announced.

The engagement of Miss Olive Irene Wikoff, of 817 Richmond street, to Walter E. Reinhart, of Cranford, is announced. The wedding will be celebrated Thursday, June 19, at the home of the bride.

SUMMER HARVEST HAS REACHED TWIN CITIES

Life at Asbury Park and the Other Nearby Resorts Has Taken a Sudden Boom.

THIEVES ARE AT WORK.

CARRIED AWAY COPPER WIRE AND TUBING FROM FISHING PIER.

Early Opening at Deal and Allenhurst—Lots of Golfers Gathering at Deal—Talk of Band Concerts Before End of June.

(Special to The Daily Press.)

Asbury Park, May 24—What with a fresh influx of automobiles, dog-carts and elegant equipages that appear daily on the avenues, and a marked increase in the population, the twin cities by the sea are beginning to experience a first taste of the summer harvest. Numerous cottage arrivals in Asbury Park, Allenhurst and Deal have contributed also to more animated scenes on the board walk, which, though deserted temporarily by Founder Bradley, is still, in the absence of anything better, the centre of attraction. The fact that the band concerts will not begin until the last week in June is deplored as a great misfortune. There is some talk of engaging, through private subscriptions, a well-known local military band for tri-weekly concerts during the first three weeks preceding the advent of Dr. Conterno.

Speaking of the board walk, a remarkable discovery was made a few days ago that a band of thrifty winter thieves had made free with copper wiring and tubing placed under the walk and fishing pier last summer by the Kitson Lighting Company, whose plant was established on the beach front. The extent of these robberies was not appreciated until the manager making a survey found that not a foot of the tubing had been left behind. The result is somewhat startling. There are thirty-eight Kitson lights on Mr. Bradley's beach domain, and everyone of these lights is crippled and out of business. If the Kitson company retubes the board walk and pavilions it will involve an additional expense of $2,000 or more and make a total loss of over $4.000 ascribable to these predatory winter nomads. Not only on the board walk, but through the town, there has been an effort to tamper with the lights. Many of them in the city are turned off and turned on without the knowledge of the lighting officials.

The Hathaway Inn at Deal, which has been leased this year by William H. Warburton, for many years chief clerk at the Ponce De Leon, Florida, is undergoing extensive improvements. The Casino will be opened on June 1. The hotel proper will be ready to receive guests on June 24. Most of the cottages connected with the Hathaway have already been rented for the season.

The early opening at Deal and Allenhurst, where the big houses now look fresh and bright, has brought many players on the golf grounds The Deal golf links are, without exception, the finest and most costly in the State. A summer schedule of events will be prepared in a few days. It is expected that some of the country's most noted players will contest for trophies on the Deal links in July and August.

The Coleman House Casino will open next week. The drug store will be run this year by a Plainfield druggist, and will be under the direct supervision of the proprietor. More than a score of the smaller hotels are now flying their flags and others will open during the ensuing week.

Ninth Anniversary.

The ninth anniversary of the Christian Endeavor Society of the First Baptist church will be celebrated Tuesday evening, May 27, when all of the local societies will be invited to attend. It is expected that Rev. Frank Smith, of Somerville, will make an address.

Interesting Pamphlets.

After the meeting in Saengerbund Hall Thursday pamphlets were distributed at the door giving thirty reasons for annexation and consolidation. It also contains a number of maps showing the relative value of property and tax rates in the borough and city.

Honor for High School Graduate.

In the award of commencement honors at Rutgers College, Elwood Linnell Davis, of Bound Brook, a graduate of the Plainfield High School, has received third honors in the Scientific School.

WHERE GRADUATES GO.

Plans of Graduate Nurses From the Hospital Training School.

Miss Nellie B. Smith, one of the trained nurses graduated from Muhlenberg Hospital Thursday night, is now taking a three months' course in New York, which will complete her entire course. Miss McGrath, another graduate, completed her course at Muhlenberg Hospital some time ago. She is now doing private nursing in Plainfield. Miss VanCampen, the third graduate, will also do private nursing in Plainfield.

PERSEVERANCE'S OPEN NIGHT

LODGE ENTERTAINED FRIENDS WITH A PLEASING PROGRAMME.

Wide Variety of Selections Rendered by Members—Illustrated Songs Made a Hit.

Despite last evening's warmth, the rooms of Perseverance Lodge, No. 74, K. of P. were filled last evening with members and their friends, it being "open" night. Always to the fore with plenty of good and welfare, the lodge officials had prepared an extra long programme for the benefit of their guests, making two hours entertainment.

Chancellor Commander William N. Runyon was in charge and did not allow the slightest relaxation in the fun. Under his supervision the following numbers were given: Vocal selections, Thomas Muir; banjo-mandolin and ocarina selections, Joseph Loughead; buck and wing dancing, Tony Lusardi and Orrie Bowers; illustrated songs, "Sing Me a Song of the Sunny South" and "I've a Longing In My Heart For You, Louise" by William N. Runyon, vocalist, and William Schorb, slide operator; selections by the Perseverance Jewsharp Orchestra, consisting of William N. Runyon, piano; Thomas Muir, zobo; Asa Pope, Samuel Couston, Jacob Blimm, J. E. Flannery, and Frank Putnam, jewsharps; monologues by Frank Liccardi; and a laughable sketch, "The Stupid Servant" by B. Collins Firstbrook and M. Dexheimer Sweeney. All the numbers were encored but the illustrated songs and the sketch were especially pleasing and received vociferous applause.

Following the entertainment ice cream and cake were served by W. W. Warnock and during their disposal, several selections were given by Chancellor Commander Runyon and phonograph selections under the direction of W. W. Warnock and Thomas Muir.

The affair was given under the lodge auspices and a special committee was in charge.

COURT AT SOMERVILLE.

Plainfielder Non-Suited in Case to Collect Commissions Alleged to be Due Him.

(Special to The Daily Press.)

Somerville, May 24—In the Somerset county courts here yesterday, Judge Schenck sentenced John Fazekas, of Bound Brook, who was convicted of illegal selling, to pay a fine of $100.

The court jury appeal case of Anna M. Hannigan ads Joseph T. Vail was next taken up. The parties are North Plainfielders and Vail sought to recover certain commissions due him for renting a property belonging to the defendant. The case was originally tried before Justice Mattison in North Plainfield, November 8, 1901, and then it was decided in favor of the defense.

After the plaintiff's witnesses had been examined W. S. Angleman, of Plainfield, counsel for Mrs. Hannigan, asked for a nonsuit on the ground that the plaintiff had not proven that there was any contract between the parties, showing that Vail was to receive a percentage for renting the property. Judge Schenck allowed the nonsuit, agreeing with Mr. Angleman. Frederick A. Pope, of this place, was Vail's lawyer.

Covenant Meeting.

One week from last evening the regular covenant meeting will be held at the First Baptist church and on the following Sunday there will be communion, at which time Dr. Yerkes is expected to be present.

Three Recitals by Pupils.

E. Arthur Janke, pianist, announces three recitals of his pupils, Tuesday afternoon at 3:30 o'clock and at 8 o'clock, and Wednesday evening at 8 o'clock, at his residence, 931 West Sixth street.

Temperance Societies to Meet.

There will be a convention of Catholic temperance societies of New Jersey at Somerville Memorial Day. It is expected that there will be a large delegation in attendance from this city.

FAMOUS FIRE HORSE ENDS ACTIVE CAREER

"Harry," One of Feiring's Grey Team, Incapacitated From Service by a Lame Foot.

IS SOON TO BE SOLD.

IN A BACK STALL HE VAINLY PLUNGES TO BE RELEASED WHEN GONG RINGS.

One of the Pets of Plainfield's Fire Department Can No Longer Serve the City—Injured in Long Run—Was Known All Over State.

Greatly to the regret of every member of the local fire department and particularly those attached to No. 3 hose company, the Councilmanic fire committee has decided to dispose of "Harry," one of the team of grey horses which have been the especial pride and pets of George Feiring for many years. A lame foot secured in answering the alarm for the Eight Row fire has incapacitated the horse for duty and it is feared he will never again be able to run before the apparatus. So despite his marvelous intelligence he has been relegated to a back stall and another equine will prance beneath his harness. As soon as a purchaser can be found, "Harry" will quit the department forever.

This particular team, of which "Jerry" is the other member, is known to every resident of Plainfield and to many firemen throughout the State. They originally pulled the chemical engine and never failed to attract attention by the proud manner in which they did their duty and obeyed implicitly Driver Feiring's voice. For five years he spent four hours daily in teaching them tricks which never failed to excite wonderment. When permission was granted by the Council in 1898 to take a team and piece of apparatus to the Labor Day celebration in Bayonne, "Harry" and "Jerry" with their teacher were selected. It is needless to say their returned with one of the prizes for looks and exhibition work. It was a triumph for Driver Feiring as he had to compete with men and horses coming from a radius of fifty miles about the Metropolis.

None of the firemen and many of the spectators have ever forgotten "Harry's" conduct one day last summer when he was felled to the ground by an accident at Plainfield avenue and Fourth street. In avoiding a collision with Chief Doane's rig the hose wagon struck a trolley pole and "Harry" fell as if dead. The vehicle was backed from him and after a few moments he recovered from a daze and struggling to his feet, bounded to the side of his mate as if anxious to continue the run. It was an example of knowing never shown by any other horse in the department.

Since his retirement from duty, "Harry" has made strenuous efforts to leave his stall every time the house gong has sounded an alarm. At times it was feared he would break out and for several hours afterward he would refuse to be quieted. His mate has also acted strangely but never in any way to interfere with his work and it is thought he will shortly get used to his new companion. But it is different with the firemen as it is doubtful if a more perfectly matched or better trained team will take their places in the local houses.

ALONG IN YEARS.

Couple Wedded Thursday Evening at a Borough Home.

A quiet home wedding was celebrated Thursday evening at 73 Grandview avenue, when Miss Emily Frances Jackson, daughter of Amos Jackson, and James M. Boice, formerly of Piscataway township, were united in marriage. The ceremony was performed by Rev. E. M. Rodman, rector of Grace Episcopal church, in the presence of the immediate relatives of the contracting parties.

The groom is seventy-two years old and this is his third matrimonial venture. The bride is forty years old. Mr. Boice has purchased a farm near Harlingen, Somerset county, and there he will take his bride to live. The groom is a brother of Squire Jacob Boice, of Harlingen.

Football Experiences.

H. R. Reiter, of foot ball fame, will speak, and Mrs. Ensign Greinsham, of the Salvation Army, will sing with auto harp accompaniment at the Y. M. C. A. meeting Sunday afternoon at 4 o'clock. "The Lessons for Life From the Gridiron," will be the subject of Mr. Reiter's address.

MEMORIAL DAY OF PYTHIANS

PROCLAMATION SENT OUT BY GREAT CHANCELLOR P. HALL PACKER.

Day Set is Tuesday, June 10, But Local Lodge Will Probably Change the Date.

A proclamation has been sent out from the office of the grand chancellor of the Knights of Pythias, located in Seabright, N. J., requesting the many lodges in the State to observe Memorial Day Tuesday, June 10. The various lodges in this city have all received copies of the proclamation.

The proclamation is addressed to the subordinate lodges, and reads as follows: Brethren—It is to be hoped and expected that each lodge in this great domain will observe Memorial Day Tuesday, June 10. Let us remember our dead brothers by placing flowers on their graves or holding a memorial service in their memory.

The following, from the supreme statutes is appended:

Tuesday following the second Sunday in June is each year is hereby set apart and established as the Memorial Day of the order of Knights of Pythias, and all bodies of the order are hereby requested and authorized to meet in their respective localities upon said day in each year, whenever practicable and convenient, for the purpose of engaging in such services and exercises as may be appropriate to the occasion; provided, that a subordinate lodge may select a different day for such services when the circumstances render it desirable.

The above statute gives all lodges the privilege to hold this service on another day, if they so desire and it is more convenient. Hoping that our brothers will observe the day, I remain,

P. Hall Packer,
Grand Chancellor.

It has been the custom for the local lodges to observe the third Sunday in June as memorial day.

OF PLAINFIELD BOYS.

The New Boys' Secretary Will Take Special Charge at State Camp.

Kenneth Robbie, the newly appointed secretary of the Y. M. C. A., will be in Plainfield July 1, and will take special charge of the Plainfield boys at the New Jersey State Y. M. C. A. boys' camp July 16 to 30. Although camp accommodation has been sufficiently increased to entertain seventy-five more than was originally intended, applications have been coming in so fast that the State secretary does not know what to do with them.

The cost for two weeks in camp, including car fare to and from New York, will be $12.50.

TOBIN GETS CONTRACT.

For Steam Heating in New Building for Reformatory.

Bids were opened Thursday for the domestic building of the New Jersey State reformatory at Rahway. The contract was awarded to Joseph Jewkes & Son, of Jersey City, as follows: Subdivision No. 1, general construction, $50,000; subdivision No. 2, general construction, $47,800; subdivision No. 3, iron work, $108,000.

George J. Tobin, of this city, was the lowest bidder on steam heating. His bid called for $11,281.

Wants Others to Know.

"I have used DeWitt's Little Early Risers for constipation and torpid liver and they are all right. I am glad to indorse them for I think when we find a good thing we ought to let others know it," writes Alfred Heinse, Quincy, Ill. They never gripe or distress. Sure, safe pills. L. W. Randolph.

GOVERNOR AT STATE CAMP

PAID HIS FIRST OFFICIAL VISIT TO THE CAMP AT SEA GIRT.

Went There to Look Over the Place Before the Projected Improvements Are Made.

(Special to The Daily Press.)

Trenton, May 24—Governor Murphy paid his first official visit to the State camp grounds at Sea Girt Tuesday night, in company with his son, Major Franklin Murphy, Jr., and Quartermaster General Donnelly.

The purpose of the Governor's visit was to look over the place before the projected improvements provided for by the last Legislature were made with a view of discovering the actual necessity of the work. The Governor expressed himself as well satisfied with the contemplated improvements.

They include the rebuilding of the rifle pits, at a cost of $7,000, the construction of an artesian well, to cost, together with tanks and complete equipment $6,380; the establishment of a drainage system and water supply, to cost $4,140, and the erection of an administration building and magazine on the rifle range, at a cost of $3,500.

The provision for the improvements was made upon the recommendation of Quartermaster-General Donnelly, who was desirous of having the Governor personally visit the camp before the work was begun.

THEATRICAL.

Martha Morton's successful comedy "The Diplomat," with William Collier in the leading part, is entering its last weeks at the Madison Square Theatre, New York, and lovers of real stage fun, who have not as yet witnessed a performance of this enjoyable farce, would do well to avail themselves of an evening of delightful mirth and endless laughter before the end of the season. Admirers of Mr. Collier's quaint fun making find huge amusement in his work in this new farce. He is seen at his best in the role of Nick Sportwick, a young New York clubman. He keeps his audience in roars of laughter from the moment he enters until the final curtain. This will be Mr. Collier's last season as an individual star, at least for the present, as next year he will become a member of Weber & Field's company, and playgoers should not miss seeing "The Diplomat," in which his talents have unlimited scope and his versatility is allowed full sway. It is doubtful if there ever has been produced on the metropolitan stage a comedy that has been so eminently successful as this amusing comedy by Martha Morton. No more amusing farce has been produced in recent years and it is unquestionably the comedy hit of the season. Mr. Collier is delightfully droll in a part that fits him like the proverbial glove and his followers are legion. He has earned his success by strict attention to the business in hand and his disregard for many of the conventions of the stage. Matinees are given at the Madison Square Theatre on Wednesday and Saturday.

Dangerous If Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartly, Yankeetown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. L. W. Randolph.

Patients Recovering.

All of the patients at the isolation hospital ill with small-pox are improving with every prospect for complete recovery within a short time. They are now able to be about the room and are beginning to feel more like themselves.

S. of V. Meeting.

John Hand Camp, No. 28, S. of V., will hold a meeting Tuesday evening, June 3, and it is earnestly hoped that every member will be present. There are several urgent matters needing attention and they will be considered that evening.

Next Council Meeting.

It is not likely that the Common Council will meet until the regular time, Monday evening, June 2. There is nothing of any great importance to engage their attention prior to that time.

Memorial Day Exercises.

Next Thursday Memorial Day exercises will be held in the North Plainfield High School.

Is Golf Catching

on to popular favor? It seems to be. A noticeable increase in sales of Painkiller comes from golf districts. The reason for this is clear, as Perry Davis' Painkiller is the oldest and best remedy extant for sprains, strains, bruises and soreness, all of which are of common occurrence, either in vigorous play or through accident. Everywhere the standard liniment and balm.

TERROR IS SUBSIDING

The People of Martinique In a Calmer Mood.

SUPPLIES POURING INTO THE ISLAND

Many Are More Desirous of Transportation Than of Relief Offered. Another Large Party Goes to Trinidad.

FORT DE FRANCE, Martinique, May 24.—All is quiet here. The French cruiser Tage is engaged in landing the relief supplies which she brought here from New Orleans.

The steamer San Dominique, from Porto Rico, brought here, consigned to Consul Ayme, fifty tons of provisions, sent on board that vessel by Governor Hunt in the name of the New York Herald. The vessel also brought 199 tons of supplies from the Martinique relief committee of Porto Rico. All these contributions have already been turned over to Governor L'Huerre.

Up to the present nearly 2,000 tons of supplies from the United States have been placed in the governor's hands. The people, however, are still more desirous of transportation out of the island than of any other relief which can be offered them.

The population is becoming much calmer, especially as the volcano is gradually losing its terrifying aspect.

Two more bodies found at St. Pierre appeared to be the remains of household servants who had died from asphyxiation.

From the heaps of cinders in the Rue de Luci, at St. Pierre, most dangerous emanations of foul gas have been discovered, and the attention of the health authorities has been directed to the spot.

Some gendarmes who returned from St. Pierre brought a number of books and valuables which they had found in the open safes there. These and the other safes had been burst open by some irresistible force. All the articles recovered are being cared for by the government.

Another large party from Fort de France, numbering nearly 1,500 people, left here last evening for Trinidad and other places.

GUATEMALAN TOWN DESTROYED

Earthquake Has Wiped Out Quezaltenango, a City of 25,000.

HAMBURG, May 24.—A special dispatch to the Hamburg Doersenhalle from Guatemala says that the town of Quezaltenango has been wholly destroyed by an earthquake which lasted three-quarters of a minute. Business is entirely suspended in Guatemala, and a great part of the coffee crop there has been destroyed.

It was reported from Guatemala City, Guatemala, April 20, that earthquake shocks which were general throughout that country April 18, 19 and 20 partly obliterated the town of Quezaltenango and badly damaged Amatitlan, Solola, Nahuala, Santa Lucia and San Juan. Two hundred persons were reported killed, mostly women, and many people were injured.

Quezaltenango has a population of about 25,000 people, is handsomely built and well paved and has a richly decorated cathedral, several other churches and a fine city hall.

Naval Movements.

WASHINGTON, May 24.—The navy department received a cablegram from Commander McCrea of the gunboat Machias announcing that vessel's arrival at Colon, where she will coal and return to Bocas del Toro, where she has been detailed to watch another impending clash between the government and Liberal forces. Telegrams have been received at the navy department announcing the departure of the Cincinnati, the Dixie and the Potomac from Fort de France, Martinique, for Kingstown, St. Vincent.

British Generals Denounced.

LONDON, May 24.—The second volume of the London Times' "History of the War" has just appeared and is attracting unusual attention on account of its scathing denunciation of British generals and the war office. The criticism is given additional weight by the fact of its appearing under the auspices of "The Thunderer." No enemy of Great Britain can have more frankly denounced British blunders.

Miss Barton In Berlin.

BERLIN, May 24.—Clara Barton, president of the American Red Cross society, and Benjamin Tillinghast are here on their way to St. Petersburg to attend the international Red Cross congress, which convenes May 29. The Russian government has arranged for luxurious free railroad transportation for Miss Barton and the other delegates to the congress from the Russian frontier.

Courtesies Extended to Investigators

WASHINGTON, May 24.—The navy department has sent forward instructions to the senior officer at the scene of the volcano disasters authorizing him to let the members of geographical societies who went on the Dixie go aboard the other United States war vessels at the scene for purposes of observation wherever it would not interfere with the work of rescue.

Virginia Town Destroyed.

RICHMOND, Va., May 24.—The town of Clover, on the Southern railway, in Halifax county, has been completely destroyed by fire. The fire started in Payne & Gregory's tobacco warehouse. The loss is about $200,000, partially insured.

Weather Probabilities.

Partly cloudy with showers; fresh winds, mostly south.

PEACE NOW ASSURED

Not Yet Announced, but Delay Is Only Technical.

BRITISH TERMS SAID TO BE LIBERAL

One Reason For Slowness Is That Boer Leaders While Themselves For Peace Are Unable to Guarantee Action of Followers.

LONDON, May 24.—There is every reason to believe that peace in South Africa is practically secured. How soon it will be announced depends apparently more upon the convenience of the Boer leaders than upon the inclination of the British government. The private and official advices just received in London from South Africa all point to the same conclusion. The delay is technical, and to end the long war seems to be the desire of both British and Boer leaders. The latter, however, are unable to convince all their followers of the wisdom of acquiescing to the terms of peace.

Information as to what transpired at yesterday's meeting of the cabinet is closely guarded, but it is not likely that the cabinet transactions were of vital import. The surmise of one well informed person places the sum total of the deliberations of the cabinet ministers at a decision regarding points of the peace agreement of entirely minor importance.

Another surmise is that the cabinet has merely sent a rather mock ultimatum to South Africa which can be used by the Boer leaders in explanation to their forces. Both these surmises probably contain an element of truth, but neither can in any way affect the widespread belief in the best informed quarters that the end of the war has come.

In fact, those persons who are best acquainted with the actual details of the present negotiations only qualify this optimistic expression of opinion by guarded reservations concerning the extent of the personal control of the Boer leaders over their commands.

Were the Boers a thoroughly disciplined force, dependent upon the action of their general officers, peace would probably be proclaimed at once, but Botha, De Wet and the other generals themselves seem unable positively to guarantee the degree to which their example will be followed.

The delegates at Vereeniging, according to information in possession of the war office, are fairly evenly divided. Consequently extreme precautions are exercised both in London and Pretoria to prevent any premature action or report which might adversely influence the burghers.

The most pessimistic forecast heard only admits that a few isolated bands of irreconcilables may be left in the field.

A member of the house of commons who is in close touch with the government said to a press representative last night that he believed everything was settled and that the British terms would be found unexpectedly liberal.

The British public is still quite ignorant of the course of events in South Africa, and there are no demonstrations on the London streets, although on all sides the question asked is, "Is it peace?" On the other hand, the Stock Exchange throughout the day was a seething mass of brokers who eagerly bought South African, while long after the close of the exchange nearly a thousand brokers crowded Throgmorton street and did a frantic curb business on the strength of the peace outlook.

The appearance of Mr. Brodrick, the secretary of state for war, at the volunteer service dinner last night was watched eagerly in the hope of gaining an inkling of the government's private frame of mind. But Mr. Brodrick's listeners had to be contented with one brief and adroitly turned reference to the present situation. Responding to the toast, "The Imperial Forces," the war secretary said:

"I would go beyond my duty should I enter into details of the communications which are now passing and which prelude, as we all hope, the surrender of the Boers."

Mr. Brodrick then proceeded to reiterate the oft declared intention of the government not to be drawn into any compromise which would jeopardize future peace in South Africa.

A HOPEFUL OUTLOOK.

Boer Delegates at Pretoria—A Deadlock at Vereeniging.

PRETORIA, May 24.—The feeling here, which has been decidedly pessimistic for several days, is now more cheerful, though no real news of the conferences between Lord Kitchener and Lord Milner and the Boer delegates has been allowed to leak out. It is known, however, that the delegates came to Pretoria as the result of a complete deadlock at Vereeniging, where the Free Staters held out for independence and the majority of the Transvaalers, though anxious for peace, refused to abandon their allies.

This is the cause of the Boer delegation being now here. It was at first thought that the delegates would merely report a refusal to accept the British terms. Everybody expected them to depart immediately and that hostilities would actively recommence. To the general surprise, however, the delegates are still here, and the hopefulness of today is the outcome of the general conviction that some arrangement is pending which may solve the difficulty at Vereeniging.

Peace Assured.

BERLIN, May 24.—The foreign office here has been advised from Pretoria that peace in South Africa is practically concluded. The articles of surrender are ready to be signed, with the exception that the approval of the British cabinet of the wording of the secondary provisions is wanted. The suspension of hostilities may be announced at any hour. This intelligence, it is understood, reaches Baron von Richthofen, the foreign secretary, through a private cablegram from the German consul at Pretoria.

BISHOP GOES FREE.

Long Trial Ends In Acquittal of Boy Charged With Murder.

BUFFALO, May 24.—Gerald Bishop of Cuba is a free boy once more. The jury which listened to the evidence in his second trial on the charge of having caused the death of Everett Austin of Belmont by exploding dynamite at the Little cottage, on Cuba lake, on July 8, 1899, returned a verdict of not guilty.

Bishop was indicted in the summer of 1899 and tried in the county court of Allegany in the winter of 1900. The trial lasted three weeks, and at the end Bishop was adjudged guilty of manslaughter in the second degree. He was fined $800 and sentenced to prison for six months. While this was light punishment for such an offense, Mrs. Bishop believed her son to be innocent, and so a fight for a new trial was made. It was secured, and as it was claimed that prejudice ran high against the boy in his home county a change of venue was asked for and granted.

No attempt was made by the prosecution to prove that Bishop had intentionally taken the life of young Everett. It merely claimed that Bishop had fired off the dynamite on the step of the cottage in a boyish prank. But the defense strenuously denied that Bishop had anything to do with the explosion and by the evidence of his mother and sister proved an alibi for him.

The verdict was a popular one, the crowd in the courtroom cheering heartily when the foreman announced the result of the jury's deliberations. The jury was out forty-two minutes.

ONE HUNDRED AND NINE DEAD.

This Is the Latest Report From the Fernie (B. C.) Mining Disaster.

SEATTLE, Wash., May 24.—A special from Vancouver, B. C., says the latest advices are that the mines at Fernie, where the terrible explosion occurred, are found not to be on fire and that the ventilation is being restored as quickly as possible. All the bodies will soon be recovered. The exact number working in the mine was 133, and 24 made their escape.

The scenes at the mines and in the village of Fernie are heartrending. Hardly a house has escaped affliction. The work of rescue is being hurried, and perfect order prevails, assistance coming from every available source.

Fernie is a town in the eastern part of the province of British Columbia, on the Crow's Nest Pass branch of the Canadian Pacific railroad. It lies in the center of a country very rich in coal deposits. The veins extend eastward into the neighboring territory of Alberta. The building of the railway four years ago was followed by the operation of the coal mines which belonged to a company composed largely of Toronto capitalists. These are the coal-fields that J. J. Hill was reported to have gained control of a year or so ago. Fernie's only industry is mining, and its population is about 5,000. Most of the miners are foreign born.

New Regime In War Office.

WASHINGTON, May 24.—The president has revoked the old executive order of Aug. 29, 1901, by which the lieutenant general commanding the army (General Miles) and the adjutant general (General Corbin) in turn are to assume the duties of secretary of war in the absence of the secretary and the assistant secretary. The president's order of revocation leaves the department without a head in the event of the absence of the secretary and assistant secretary unless such head is specifically designated on each occasion. Both the secretary and assistant secretary were absent yesterday, but Secretary Root before he left in the morning issued a special order designating Chief Clerk John C. Scofield to act.

Quiet at Port au Prince.

WASHINGTON, May 24.—The following cablegram from Commander Nickels of the Topeka has been received at the navy department: "Everything is quiet at Port au Prince, Haiti. The Haitian government is in charge of a committee of safety. Firman, with 5,000 men and a Haitian man-of-war, is at St. Marc, Haiti. It is reported that the force under his command has been withdrawn while he sends forward various representatives to confer. Establishing provisional government."

Rebels Urged to Yield.

PANAMA, May 24.—General Salazar, the governor of Panama, said in an interview: "I have appealed to the patriotism of the revolutionists to lay down their arms, offering them all guarantees, before I am compelled to attack them with the powerful army I now have. Resistance means useless bloodshed and loss of life." It is persistently rumored here that General Alfaro, ex-president of Ecuador, is preparing to start a revolution in that country.

Decision For Jackson.

BALTIMORE, May 24.—Referee Mantz stopped the bout here last night at the beginning of the tenth round between "Young Peter Jackson" and Harry Walsh of Canada and awarded the decision to Jackson. Walsh was practically knocked out.

Started Fire With Kerosene.

ALBANY, N. Y., May 24.—Pauline Sherry, aged thirteen, attempted to start a fire with kerosene oil here and was so badly injured that she died shortly afterward.

NO SIGNS OF THE END

Dull Times Around Miners' Strike Headquarters.

PRESIDENT MITCHELL IS RETICENT.

Senator Hanna's Name Connected With Various Issues—One Company Grants Demands of Engineers and Firemen.

WILKESBARRE, Pa., May 24.—It is extremely dull around the miners' strike headquarters. Ever since the suspension was a week ago last Monday has the line been strict. The three district presidents, Messrs. Nichols, Duffy and Fahy, have had long conference with National President Mitchell yesterday, after which the three district leaders departed for their homes. As in the case of most of the conferences that have been held, the nature of the discussion was not divulged. President Mitchell had no information to impart upon any phase of the situation. He said he had received no communications or offers from any one that could in any way be construed as bearing on a settlement of the difficulty.

Senator Hanna's name is invariably connected with every rumor that is telegraphed or telephoned to headquarters for verification.

The only information received from the operators' side during the last twenty-four hours is the announcement that the receivers of the Hadnock Coal company, an individual concern, had instructed the company's superintendent to grant the demand of the engineers, firemen and pump runners to take effect June 2, the date fixed by the union for the inauguration of the strike of this class of employes. The company operates the Lodson colliery at Plymouth and the Black Diamond at Luzerne. About fifty men are affected.

President Mitchell is keeping a sharp watch on the shipment of bituminous coal. He denies a published report that there is an unprecedented movement of soft coal into the anthracite territory.

L. M. Beatty of Barhill, O., a miner employed by the Midvale and Glen Coal company, was one of Mr. Mitchell's callers. He came east at the instance of his employers to get 150 striking anthracite miners to go to the company's Wainwright mines, on the Cleveland, Lorraine and Wheeling railway, in Ohio, where steady employment will be given them. Soft coal miners are scarce.

Hanna Doubts Soft Coal Strike.

WASHINGTON, May 24.—Senator Hanna has returned from a visit to Philadelphia, where he went to attend a social function and not to arrange matters connected with the coal miners' strike. Senator Hanna says he does not believe the organizations of the United Mine Workers in the bituminous districts of western Pennsylvania, Ohio, Maryland and Illinois will strike because they are working under contracts which give them what is to a large extent demanded by the anthracite miners and which the anthracite operators will not agree to. Furthermore the coal produced by these mines, he says, can supply the place of the anthracite coal only to a limited extent. In the states named a scale is agreed on every year. Eight hours is a day's work. This year in April an agreement was made, and Senator Hanna does not believe that a strike will be ordered simply to create a scarcity in places other than those supplied by the anthracite mines.

Thousands For Cancer Cure.

NEW YORK, May 24.—It is learned that $150,000 has been offered by Mrs. Collis P. Huntington to the General Memorial hospital, for the treatment of cancer and allied diseases, at One Hundred and Sixth street and Central Park West. Cancer has been made a special study at the institution, and experiments have contributed a great deal of valuable information on the treatment of this malady. Last year nearly 1,000 cases were treated there, the number of operative cases being 824.

Woman Burned to Death.

WORCESTER, Mass., May 24.—In a tenement house fire at 6 and 8 King street yesterday afternoon Miss Mary E. McLoughlin was burned to death, and Mrs. W. P. Kinnevan, taken out of the burning house on a ladder by Deputy Chief W. N. Avery, is at the City hospital badly burned. Mrs. Delia Earle, a boarder, was caught on the top floor and had a narrow escape from suffocation.

To Start Buffalo Herd.

WASHINGTON, May 24.—The secretary of the interior has submitted to congress an estimate of $30,000 for the purchase of buffaloes for Yellowstone National park. There are twenty-five or twenty-six buffaloes already there scattered about the mountains, but it is proposed to establish a new herd which will be brought from Montana and corralled near one of the public highways.

Relief For Coal Creek Sufferers.

WASHINGTON, May 24.—Representative Gibson of Tennessee has introduced a resolution appropriating $10,000 to be expended for the benefit and relief of the widows, minor children and dependent parents of the men killed May 19, 1902, by an explosion in the Coal Creek (Tenn.) mines.

A Scene at a Hanging.

WHATCOM, Wash., May 24.—Alfred Hamilton, alias Alfred Hawkins, was hanged for the murder of D. M. Woodbury at Anacortes Sept. 7, 1899. His neck was broken by the fall. He cursed the sheriff when he read the death warrant to him and rushed up the scaffold stairs two steps at a time.

WHO WILL ACT?

The arrival of the really warm weather again brings to mind the need of making some provision for open air concerts in Plainfield this summer. The people, particularly those who are unable to hurry away to mountains and seashore as soon as the warm weather settles down, are ready and anxious for them. There is a good band available for the musical part of it. All that is required is the funds to meet the actual expenses of such a series.

By dint of persistent effort, Mr. LaVere and his assistants were able last year to collect enough subscriptions to meet the expenses of a few concerts. It was not pleasant work, however, and actually resulted in a pecuniary loss to the leader of the musical organization who took the initiative. He is as willing as ever to arrange and give the concerts but declares that he will make no further effort to collect the funds.

Surely there ought to be enough public spirited men of means in Plainfield who will take the matter up and see that the people get a musical treat in the open air once a week or a fortnight, at least. The City Park offers a very satisfactory place for these concerts and they would be a means of furnishing healthful enjoyment for many at a comparatively small cost. Here is the opportunity. Are there any who will avail themselves of it?

If the Plainfield Water Supply Company could take some lessons from Manager W. G. Besler, of the Jersey Central Railroad, in regard to the treatment of the public, the people of Plainfield might be able to secure equitable treatment. The evident unfairness of charging a family of two the same rate for water as is charged a family of twelve has been pointed out many times. If Mr. Besler was with the water company, it would not be long before water meters would be introduced where they were desired.

It would have been well if every citizen of the borough had listened to the arguments advanced in favor of annexation and consolidation at the mass meeting Thursday evening. If they had been, there would be no possible doubt as to the result of the election.

Now that the street railway company has commenced watering its tracks, it is doing that work so effectually that it becomes difficult at times to find the roadway. It is a good thing to water the streets but too much of a good thing is not so enjoyable.

Former Mayor W. L. Saunders' speech in behalf of Greater Plainfield, Thursday night, was such a splendid resume of the whole situation that The Daily Press has made arrangements to publish it entire in a day or two.

Jerry Burns, of this city, has been visiting friends at Raritan.

FRANKLIN DAY OF EXHIBITS

(CONTINUED FROM PAGE 1.)

Joseph Miller, the class artist. It is certainly of a surpassing quality. In the fifth grade, under Miss Merrill, language is the specialty and Inez Stuart and Harold Luckey have illustrated in a talented manner the story of Rosa Bonheur. The sixth grade, of which Miss Davis has charge, combines language and geography. Some clever work may be seen here by Miss Grace Weeks, Charles Lyman and Joseph Chilton.

Third Grade A, teacher Miss Tennant, on the opposite side of the room is devoted to nature study as a specialty, with some very fine correlated blue prints by the pupils. Edward Burns and Donald Gaston have done creditable in illustrative work in fourth grade A as have also John Mahon and Jas. Lindzey, in fourth grade B, where Miss Clara Churton and Miss Florence Churton are the respective teachers. In fifth grade A, under Miss Force, arithmetic is the specialty and there is an interesting exposition of the sphere system. The class artists are Annie Melson and Jas. Richardson. Besides those already mentioned there was clever work by Miss Pearl De Nise, Robert Bellows and Jas. Lindzey.

Yesterday afternoon a large number of the parents and friends of the pupils, besides many actively interested in school work paid a visit to the Franklin hall and were received by Miss Noel J. Bullock, the principal, who took great care to explain thoroughly the features of the exhibition to every visitor. Miss Bullock was assisted in receiving the visitors by Miss Florence Churton. All expressed themselves as delighted and surprised by the scope and effectiveness of the work done by the pupils, and went away wondering at the remarkable change that has come over the spirit of school work since the days of the village teacher.

During the afternoon Miss Grace Weeks, Joseph Chilton, Monroe Staats, Vreeland Van Alstyne, John Yose, Geo. Wyckoff, Miss Catherine Knox and Stanley Karner acted as ushers on the different floors.

The exhibition will be continued this afternoon.

Bicyclers Attention.

If you are looking for a high grade wheel at a low figure you should examine the Queen City bicycle before purchasing elsewhere. The regular price of this wheel is $40. I will sell it to a quick buyer for $25. It is fully guaranteed, and is not made by a trust. Call and examine it. Merrell, 426 Watchung avenue, opposite Fourth street.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. Randolph.

DUNELLEN.

The funeral of the late Father Kerr, pastor of St. John's R. C. church, was held yesterday morning at Clinton. The funeral was very large and showed the love and esteem in which the deceased was held. A large number of the late pastor's congregation attended the services. The members of the church presented a beautiful floral piece, with the words "Our Pastor," in lilies.

The members of the band feel greatly encouraged over the way they played Thursday night at the Methodist church. Contrary to what was expected no mistakes were made and the whole programme went successfully.

On account of their crippled condition the members of the Dunellen A. C. will not feel greatly discouraged if they lose today's game with the Safe Works. They have hopes of winning even as it is.

The Friday Afternoon Card Club held its regular bi-weekly meeting yesterday afternoon at the home of Miss Jennie Churchill. The prize was won by Mrs. Frank Wynkoop.

Holy communion will be administered tomorrow morning at 8:30 in Holy Innocents church. In the afternoon Bishop Scarborough will be present.

William Milliken and family, of New York, have been visiting Mr. and Mrs. Elias Milliken.

The Dunellen juniors played the Clinton Avenue team on the home field this morinng.

A number from here went to New Brunswick and attended Buffalo Bill's Wild West show.

Mrs. Asa Merrell, of Newark, has been spending the past week with relatives in town.

G. T. Schenck's new house will be one of the largest in town when completed.

William Giles still continues to improve from his attack of scarlet fever.

The woodwork around the railroad station has received a coat of paint.

The checker club held a regular meeting last evening.

Christian Carl is confined to his home by illness.

NEW MARKET.

The New Market brass band will make its initial bow to the public Decoration Day where it has been engaged to play at Samptown where a number of lots will be auctioned off.

The Junior Missionary Society of Sunbeams held a meeting yesterday afternoon at the home of its president, Mrs. Elise Dayton.

Mrs. L. H. Danz has been entertaining relatives during the past week.

Prayer meeting was held last evening in the First Baptist church.

There will be no regular ball game today.

PLAINS AND FANWOOD.

The usual annual complaint is heard against pasturing cows and other animals along the roadway. Some seem to think because the animals are tied to fences or trees that it is all right. Pasturing along the highway is against the law, and transgressors will be made to stop the nuisance or pay the fine.

Funeral services of the late Mary Bornmann were held from her late home this afternoon at 2:30 o'clock. Rev. G. M. Shott, assisted by Rev. Dr. J. H. Parks, had charge of the sad services. Interment was made in the family plot in the Baptist cemetery.

Following will be the line-up in the game on the local diamond this afternoon with the Y. M. C. A., of Plainfield: Harvey, p; Ashcroft, c; Hand, 1b; Dow, 2b; Mallay, 3b; Crousins, ss; Alberts, lf; Flannery, cf; Johnston, rf. Game called at 3:30.

Glenside, the popular resort for a select colony of Newark's residents, will reopen shortly for the summer. Mr. and Mrs. Thomas Molloy, who have made the "Deserted Village" so successful as a summer resort, will be in charge again this season.

Service at the Baptist church tomorrow will be—morning preaching, subject: "The Mystery of the Wind," 10:45; Christian Endeavor service, 7; evening preaching, subject, "The Statue and the Marble," 7:45.

Rev. Mr. Bindenberger, of the Methodist church, has changed the time of the weekly prayer meeting from Saturday evening to Friday at the same hour.

The residents of the 'Plains are beginning to wonder if the Plainfield Water Company will ever begin laying its piping through the town.

The engagement is announced of Frazee Ryno, eldest son of Mr. and and Mrs. Jesse Ryno, to Miss Agnes McNair, of Plainfield.

SOUTH PLAINFIELD.

Regular services will be held at the Baptist church tomorrow. The sermon in the morning will be on the subject, "A Meditation on the Measure of Our Days"; the subject of the pastor's discourse in the evening will be "Hewing With an Axe Handle." The Christian Endeavor meeting at 7 o'clock will be led by Mrs. W. H. Manning.

The Middlesex Water Company is preparing to drill two more wells here to fulfill the heavier demand which is caused by a new factory in Metuchen. The drilling will begin Monday.

Mr. and Mrs. Livingston, of New York, have returned home after a two days' visit in town.

An auction sale of lots on the Dayton farm will be held at Samptown Decoration Day.

Robert Horn has been entertaining relatives from out of town.

Mrs. W. E. Smith is entertaining her sister from Brooklyn.

Wm. E. Smith has bought a new carriage.

GUS FABER SAVED.

Narrow Escape From Drowning for Borough Boy at Princeton.

(Special to The Daily Press.)

Princeton, May 24—Near a point in the Millstone river, where two Princeton students lost their lives two years ago, two other students, Blase Cole, of Hainesport, and Gustavus Faber, of North Plainfield, had a narrow escape Thursday eveneing. The pair were in a canoe, when it upset. Faber, who is reported as being a poor swimmer, had great difficulty in reaching shore, and he received assistance from his companion. The courage of Coe won for him much praise from his fellow-students.

Hansen Continues Work of Firm.

The painting and decorating firm of Rushton & Hansen has been dissolved by mutual consent. The junior partner will continue the business and all debts are payable to him. Mr. Hansen is an experienced painter and decorator and has contracted and finished many of the best jobs in this city. He asks for a continuance of the patronage extended the late firm.

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

John G Bantle, the Watchung avenue tailor, can put you inside of the finest suit of clothes you ever wore.

If you want to get a good catch of fish go to Fred Endress on West Front street, and he'll put you on to the best method.

I. H. Boehm, West Front street, is showing this week exceptional bargains in dress skirts and waists, as well as a fine array of millinery.

Sebring, the Park avenue tailor, is very busy these days selling seasonable clothing. An inspection of his stock will convince any man that he can be suited.

Old clocks are made almost new and watches are repaired and regulated in the most scientific manner by Brown, the Watchung avenue watchmaker. Give him a trial and be convinced.

R. H. Keenan, of East Fifth street, has been advertising some specialties in the grocery line which can't be beaten for quality and price. He delivers all orders and guarantees satisfaction.

With such a showing of dainty summer goods is it any wonder that the women of Plainfield flock to Peck's store? There is an exclusiveness in design about these goods to be found nowhere else.

If you are thinking of summer weather and what to wear you can save money, time and patience by going to the Paris Cloak and Fur store on West Front street. Women will have no trouble in selecting the best goods for summer wear. An inspection is invited.

Always in the lead with fruits and vegetables long before their season, Neuman Brothers have procured a consignment of delicious peaches. They are the best on the market and are unsurpassed for dessert. They were placed on sale today and will be disposed of at reasonable prices.

Wise prophets declare that summer weather is here to stay for awhile, and if this be true the women do not want to lose any time in selecting seasonable goods. The pick of the market is to be found at Woodhull & Martin's store. All the goods are new, best quality and select, while the prices are just as reasonable as those in New York.

SUNDAY-SCHOOL INSTITUTE.

To be Held at Vincent Chapel, June 5, by the Methodists.

At a meeting of the general committee, held in Vincent chapel, last evening, arrangements were completed for the Methodist Sunday-school institute to be held in this city, one of the three projected by Presiding Elder Halleran. The other two will include the Sunday-schools of Staten Island and the section of Raritan. Plainfield's district embraces eighteen schools, extending from Elizabeth to Raritan.

The date for this city was fixed at June 5 with Vincent chapel as the meeting place. A session will be held at 3 o'clock for discussion and after a recess an evening meeting will take place when an address will be made by Rev. Dr. Neeley, corresponding secretary of the Methodist Sunday-school Union.

Date of Encampment.

Captain W. K. Browning received official notice, yesterday, that the date of encampment of Company K would be from July 19 to 26, inclusive, and not from the 12th to the 19th, as before stated. The Third Regiment is going into camp at the latter time.

—Mr. and Mrs. George Hoagland, of Raritan, has taken up their residence in Plainfield.

STAGE STRUCK.

Lehigh Valley Passenger Train Put Plainfield Bus Out of Business For a Time.

(Special to The Daily Press.)

South Plainfield, May 24—While Joseph Noel, driver of the Lehigh Valley omnibus, which is operated between this place and Plainfield, was removing a trunk therefrom at the railroad station at 10:45 o'clock this morning, one of the pair of horses, a new one, took fright at a train which was coming into the station from New York. The horses started off and attempted to cross the main tracks. The train being there misdirected their course and they started in the opposite direction.

A Perth Amboy train was on the branch road backing up, and just as the horses were attempting to cross these tracks, the train struck the rig throwing it against the switch tower. The animals were thrown down and became entangled in the harness, while the omnibus was practically wrecked. Those who saw the accident consider it miraculous that the horses were not killed. Fortunately, no one was in the omnibus.

SETTLEMENT SOON.

Expected That Insurance Companies Will Get Loss Settled Next Week.

An insurance agent interested in the settlement of the loss on the Babcock building says that he believes a report will surely be received next week for the adjustors. There are forty odd insurance companies interested in the settlement and when it is considered that papers have been sent to each one of these companies for approval, one can get an idea of the length of time necessary for this work alone. This work has been completed and the adjustors have been completing the task of going over the details as to cost of reconstruction.

Ordained at St. Patrick's.

In St. Patrick's Cathedral, Newark, at 8 o'clock this morning Rev. Michael J. Glennon was ordained a priest by Bishop O'Connor, of Newark. Rev. P. E. Symth, of Jersey City, formerly rector of St. Mary's church, Plainfield, stood as sponsor for Father Glennon.

STRIKERS HOPEFUL.

Although There is No Change Today in Situation—Non-Union Men Still Working.

There is practically not much change in the strike situation. The new non-union men who came to town Thursday, are still here, although it is said that two of them have promised to quit tonight.

The union journeymen plumbers say that they will all be to work next week if the trouble is not settled, as men who have made contracts with boss plumbers are getting tired of waiting for them to finish their work.

The strikers seem to be hopeful that they will win. They claim that there are less than ten non-union men in town at work.

BROKE HIS PLEDGE.

John Lannon in City Court Again and Given Sixty Days Straight.

Unable to curb his liking for strong drink, John Lannon again became intoxicated, yesterday afternoon. He became abusive at his home and, on complaint of his wife, Patrolman Higgins arrested him. He was given sixty days straight at this morning's session of the city court.

The last time Lannon appeared before City Judge Runyon he gave a $20 check as a guarantee that he would refrain from drinking. It was to revert to the Children's Home but it is hardly likely the check will be drawn.

Proceedings of the Union County Board of Chosen Freeholders.

[OFFICIAL]

Regular meeting of the Board of Chosen Freeholders of the county of Union, N J., held on Thursday, May 1, 1902, at 2:30 p. m.

Roll call showed all members present, viz: 18.

The minutes of the previous meeting, receiving of bills being omitted, were on motion approved.

COMMUNICATIONS, ETC.

From the borough of Roselle Park the following communication:

Borough of Roselle Park, N. J.
April 19, 1902.

To the Board of Chosen Freeholders, Union County, N. J.

Gentlemen: The borough of Roselle Park is located immediately on the north side of the Central Railroad of New Jersey, extending down to within something less than a mile of the Elizabeth line.

Our borough contains a population of about 1,500, and is rapidly improving. One of our most urgent necessities is a sewer system; our health is constantly menaced because of the want of sewer facilities, and it is a continually increasing danger.

We have practically agreed upon terms for the perpetual right to enter and use the South Orange sewer system now in course of construction, which is to be extended along Bay Way some distance north of the Central Railroad, but we are met with obstacles in getting a right of way across that part of Union township between our borough and the Elizabeth line. One route considered by your petitioners is to pass through what is known as the Mackpherson estate, but what seems the only available street there is occupied by a sewer, which receives surface water as well as sewage, and so could not, as we are advised, connect with said South Orange system, even if they desired; besides that, that estate is in some manner involved in litigation, and its managers, so we are given to understand, do not feel justified at this time in closing negotiations such as we require.

Another and a better route, as it seems to us, is to extend our main sewer down Westfield avenue from the point where our eastern boundary crosses that highway. This, we understand, is about four thousand feet or possibly a little more, from Bay Way, and indicates the distance it would be necessary to use this avenue. As you have quite recently widened this avenue along this portion of it, the newly added portion not being paved or telfordized, the work necessary to the construction of our sewer would cause only slight and temporary inconvenience to the public during construction, and the street could without difficulty be restored to its present condition. Such use of a street is one of the most common purposes of its construction and maintainance in improved municipalities, and would be an added improvement to this avenue, as you readily see, which would naturally attract other improvements along this splendid thoroughfare.

We therefore most earnestly pray your honorable board to grant us the right to construct a main sewer along this avenue from the eastern line of this borough to Bay Way, the western line of Elizabeth, such sewer not to exceed twenty-four inches in diameter, and to be constructed under the supervision of such engineer as you may select.

We also ask that you will grant this borough the privilege of constructing such lateral sewer or sewers in that part of Westfield avenue as is within the limits of this borough, as shall be necessary to meet the wants of the residents along said avenue.

John Cummins, Mayor, John N. Herrmann, Alfred Atkins, Charles A. Potter, Sewer Committee.

Freeholder King moved that the foregoing communication be received and the permission as asked for therein be granted, under supervision of the county road committee, which was so ordered on roll call by a unanimous vote.

From the Common Council of the city of Plainfield, as follows:

Resolved, That the Plainfield members of the Board of Chosen Freeholder of Union county, be requested to take the necessary steps for the construction of a new bridge over Cedar Brook at Berckman street, also for the construction of a bridge over Cedar Brook at Jackson avenue.

Adopted by the Common Council, April 7, 1902.

Approved by the Mayor, April 7, 1902.

Olin L. Jenkins, Mayor.

Attest: James T. MacMurray, City Clerk.

On motion of Freeholder Westphal received and placed on file.

The following comunication was presented and read:

To the Honorable The Board of Chosen Freeholders of the County of Union:

The undersigned committee appointed by a mass meeting of manufacturers, property owners and residents in the neighborhood of Baltic street and the Elizabeth River, held at Saenger Hall in the City of Elizabeth on Monday, the 28th day of April, respectfully show that a great number of the employes of the Stevenson Car Works, Lefferts Sanitary Works and other manufactories established on the south side of the Elizabeth River, reside north of the river; that the most convenient point for these employes in crossing the river is at Baltic street; that said street is graded up to the river on the north side and the owners of the property on the south side have pledged themselves to grade the street south of the river to make direct communication with Bay Way.

At the time of the construction of the Stevenson Car Works, a pledge of promise was given that a bridge over Baltic street would be constructed and the grading and preparation proceeded to the point where the bridge can now be constructed and immediately used.

The committee is informed that your Honorable Board has caused plans and specifications to be prepared for the abutments and foundation of the bridge and that it is your expectation to construct the same during the coming year.

The committee, therefore, respectfully urges that an appropriation be made to this bridge by your Honorable Body at the time of making your annual appropriation, that this accommodation to the public will be afforded and completed during the present year.

Foster M. Voorhees, Chairman. Peter M. Kling, Frank Hand, George Venreitre, Henry Schimdt, George G. Hoff, Committee.

May 1, 1902.

Attached to the foregoing communication, were the names of seventy (70) manufacturers and property owners who had petitioned the City Council to take final steps on its part for the opening of the said Baltic street.

Freeholder Farrell moved that the communication be received and referred to a special committee of five (5), which was so ordered.

The director appointed as the said committee Freeholders Farrell, McCandless, King, Swain, and Krouse.

The following petition was presented and read:

To the Honorable, The Board of Chosen Freeholders of Union County, New Jersey.

Sirs: We, the respective captains of Company C, K, and I, 2d Regiment, N. G., N. J., do respectfully petition your Honorable Body that an annual appropriation of $600 from the county funds be made for the benefit of the above named companies, the same to be equally distributed. This in connection with the small sum alloted by the State to each company will make it possible to perfect said companies in military duties, and thereby reflect credit not only on the State, but upon our own county as well.

This petition is in keeping with the custom prevailing in counties throughout the State wherein military organizations are stationed.

Praying that this petition may receive favorable consideration at your hands, we remain,

Very Respectfully,

Louis J. Park, Capt. Co. C, 2d Regiment, Elizabeth, N. J.

W. Kempton Browning, Capt. Co. K, 2d Reg., N. G. N. J., Plainfield.

Conrad Hall, Capt. Co. I, Elizabeth.

On motion of Freeholder Brucklacher received and placed on file.

From Read Gordon, as follows:

Roselle Park, N. J., May 1, 1902.

To the Honorable the Board of Chosen Freeholders of the County of Union, State of New Jersey:

The subscribers, interested in and representing the owners of property lying on the south side of Westfield avenue, opposite Faitoute avenue, and extending about 600 feet easterly from Gordon street, desires to call the attention of your honorable body to what seems to him and others a violation on the part of the trolley company at present laying its line along Westfield avenue of the spirit and letter of the act authorizing its construction.

There is a strip of land fronting on Westfield avenue on the north side, extending from Faitoute avenue to the Lehigh Valley R. R. embankment, which, though condemned, does not seem to have had the attention of the commissioners appointed to award damages, although their work has been completed on both sides of the same, and the road widened in accordance with the act of the Legislature. This strip is about 700 feet long, more or less, and about half of it is opposite to the property in which your petitioner is interested.

For whatever reason the earth has not been removed and the road not widened at this place, and apparently there is no intention to do so, for it is a fact that the trolley company has set its poles on the south sidewalk of the avenue in front of the property of your petitioner and on the old sidewalk on north side, and intends to make a southerly curve from a point east of Faitoute avenue, and lay its tracks either upon or much closer to the stone road than elsewhere on its course either east or west of this point.

If this is permitted it will not only put the petitioner to a disadvantage not suffered by any others on the south side of the avenue, which is an unnecessary hardship because of driveways and not allowing as much road between curb and tracks as on other parts of the avenue, but it will be a constant menace to life and vehicles at the junction of Gordon street, which street crosses the railroad, and is a steep incline to the avenue, as there will not be sufficient room to make a safe turn in case of emergency.

Now your petitioner urgently prays that your honorable board take such measures as may be necessary to compel the widening of Westfield avenue at the point named, and thus permitting the trolley company to complete its work in accordance with law, and to prevent them from changing their course at this point and encroaching upon the middle of the road beyond the line already laid out on both sides of said strip of land.

I should be pleased to have acknowledgment of receipt of his communication and shall hope that by prompt action the trolley company may be spared unnecessary expense and your petitioner much annoyance and anxiety of mind. Yours respectfully,

Read Gordon,
Roselle Park, N. J.

On motion of Freeholder Farrell received and placed on file.

From the Board of Health of Roselle Park as follows, viz.:

Mr. Benj. King, Chairman County Road Committee.

Dear Sir: I beg to call your attention to the dangerous condition of Westfield avenue between this borough and Elizabeth, caused by the careless manner in which the trolley companies are erecting their poles; many complaints have been made by persons driving through this section, and as to the exceedingly dangerous condition of the road. Please attend to this matter at your earliest convenience and oblige,

Yours truly,
Oscar F. Peck, Clerk.

On motion of Freeholder Farrell. received and referred to the county road committee.

REPORTS OF COMMITTEES.

By the committee on bridge on Broad street, Westfield, N. J.

To the Board of Chosen Freeholders.

Gentlemen: Your committee would respectfully report that they have examined the bridge, and they recommend that a new bridge be built at a cost not to exceed $1,200. Signed.

M. M. Scudder, E. K. Adams, Noah Woodruff, John Robison, Committee.

On motion of Freeholder King, the report was received, and referred to new board.

Freeholder King, chairman of the county road committee reported progress in the matter of damages as claimed by Mrs. Margaret R. Thompson, and also in the matter of trolley switch, etc., on North Broad street.

By the special committee on conduits over certain county bridges, etc.

To the Board of Chosen Freeholders of Union county.

Gentlemen: Your committee to whom was referred the application of the N. Y. and N. J. Telephone Co. and of the Inter-State Telephone Co., would report that your committee had a meeting with the representatives of the respective companies on April 1st, last, but could at said meeting reach no conclusion or agreement with said committee as to conditions under which said conduits might be placed over the respective bridges mentioned in the respective petitions, and that the matter so far as your committee were concerned was then and there dropped.

Your committee would further report however, that afterward on or about April 25, last, the N. Y. and N. J. Telephone Co. without any authority from your committee, dug a trench and placed their conduits therein over the bridge on Westfield avenue; we thereupon informed the county attorney to take such steps as might be necessary for the county roads and bridges, who at once prepared a bill in chancery for injunction and procured a restraining order, which was served on said Co. since which, all work has ceased.

Signed, Respectfully submitted.

Joseph McCandless, Benjamin King, Henry Krouse, Committee.

May 1st, 1902.

Topic For the Week Beginning May 25, "Some Modern Missionary Achievements"—Text, Zech. iv. 6; II Chron. xvi. 9; Ps. cxviii, 23; Matt. xxi. 42—Read Matt. v.

"Blessed be he that cometh in the name of the Lord."

The last century saw more rapid and striking changes in the modes of life in many lands than any previous age with which we are acquainted. Methods of manufacture and distribution of goods were completely revolutionized. It has been thought that the church of Christ has not kept pace with the great advance in material interests. It is well to give some thought to the changes wrought in the religious aspects of the world by Christianity during the past century and see what advance has been made.

In the first place, the languages of the various sections of the earth have been learned, dictionaries made and the Christian Scriptures translated into them, printed and circulated by the millions of copies. The work of such men as William Carey should be recognized. The men who pioneered as missionaries and laid foundations for our recent great ingathering of converts should never be forgotten, though their work may lack the thrilling interest and dramatic incidents connected with that in other departments. At one time Carey had in progress the translation of the Bible into twenty-six of the oriental languages. Similar labor on a less extensive scale has been done in all parts of the world. Such achievements have not been seen since the early missionary ages of Christianity, if ever before.

Another notable matter is the exploration by missionary effort of all lands of the globe. Geographical knowledge has been more enlarged in this way than in any other. To trace on the map of the world the progress of discovery in the past hundred years is to follow the route of the missionaries' campfires through the lands of darkness. Vast tracts have by these means been opened to civilization.

The emergence of various peoples in widely separated lands, coming from savagery and barbarism to culture and enlightenment, shows the influence of Christian missions. Hawaii owes all its prosperity to this source. Japan, Korea, Fiji and the south Pacific islands and great parts of Africa have felt the thrill of new life in response to evangelizing agencies.

What a change has passed over the spirit of the church in regard to financial matters! Not long since there was little or no interest in the welfare of any people beyond one's immediate vicinity. The salvation of the heathen had scarcely a thought bestowed upon it even in the most active Christian communities. Now the great mass of the followers of Jesus are fully committed to the evangelization of the world. Even the young people give of their means to this end, and Christendom counts her annual contributions for this purpose by the scores of millions of dollars.

The workers have multiplied amazingly. An army of consecrated volunteers, with health, education and consecration, are in training or waiting to go forth. No day of earth ever before looked on such a sight.

The appliances are increased. Everything for cure of bodies and enlightenment of mind and uplift of soul has been pressed into service with holy zeal.

A little while since and one could know the details of most of the mission work of the world. Now it is so multiplied and complex that he can scarcely master the outlines of work in his own denomination.

The Motive Power.

I may not live a little, petty, self centered life, because the love of Christ constraineth me to reach out and realize in my being all that He calls me to be. I may not dwell at ease in my narrow tent, for the love of Christ constraineth me to care for all who feel the weight of sin, the power of temptation, the press of struggle, the pain and bitterness of losses. I may not seek to perfect my own soul just for the joys of timeless heaven, for the love of Christ constraineth me to find my joy in helping to bring the heavenly life into as many lives as possible. I may not wear a gloomy face or lose heart over the trials or evils of the present world, for the love of Christ constraineth me to enter into the joy of service, the victory of faith and the grandeur of life.—Rufus M. Jones.

You Will Never Be Sorry—

For living a white life, for doing your level best, for your faith in humanity, for being kind to the poor, for looking before leaping, for hearing before judging, for being candid and frank, for thinking before speaking.

No Abiding Blessing.

Without Christ and vital fellowship with Him there may be activity enough to churn an ocean and work that can be piled mountain high, and yet no abiding blessing would be with it all.—Moravian.

An Ancient Inscription.

In the ancient cathedral of Lubeck, north Germany, there is an old slab bearing the admonitory inscription:

Thus speaketh Christ our Lord to us:
Ye call Me Master and obey Me not;
Ye call Me Light and see Me not;
Ye call Me Way and walk Me not;
Ye call Me Life and desire Me not;
Ye call Me Wise and follow Me not;
Ye call Me Fair and love Me not;
Ye call Me Rich and ask Me not;
Ye call Me Eternal and seek Me not;
Ye call Me Gracious and trust Me not;
Ye call Me Noble and serve Me not;
Ye call Me Mighty and honor Me not;
Ye call Me Just and fear Me not;
If I condemn you, blame Me not.

THE STURGIS WAGER

A DETECTIVE STORY.

By EDGAR MORETTE.

Copyright, 1899, by Frederick A. Stokes Co.

"Why," exclaimed Dunlap, surprised, "that looks like the key to the Exchange place door. Where did you find it?"

"In the gutter, near the sewer opening at the corner."

"But how did it get there?" asked Dunlap, anxiously.

"Perhaps I shall be able to answer that question presently," said Sturgis. "Shall we go in now? No, not that way. Let us enter by the Wall street side, if you please."

A couple of minutes later the outer door of the Knickerbocker bank was unlocked.

"Excuse me if I pass in first," said Sturgis, entering. "I wish to see something here."

He bent low over the tiled entrance, with the magnifying glass in his hand.

"It is too bad," he muttered to himself presently. "They have trodden all over the trail here. Ah! what is this?"

"What?" inquired Dunlap.

The reporter vouchsafed no reply to this question, but asked another.

"Is Thursday a general cleaning day at the bank?"

"Yes," answered the banker. "Every evening, after the closing hour, the floors are swept, of course, and the desks are dusted; but Mondays and Thursdays are reserved for washing the windows, scrubbing the floors, and so forth."

"Then it is lucky that yesterday was Thursday," observed Sturgis. "Will you please hand me the key to this gate, and that to the inner door."

Upon entering the bank Sturgis requested his companion to seat himself on a particular chair, which he designated. He then began a critical examination of the premises. Inch by inch he scrutinized the walls, the floor, and even the ceiling; sometimes with the naked eye, sometimes through the magnifying glass. He also constantly brought into play a tape measure; and several times he called upon Dunlap for assistance, when the distances to be measured were longer than his reach.

The Wall street entrance of the Knickerbocker bank led directly into the space to which the public was admitted. This space was partitioned off, as usual, from the bookkeepers' and cashier's departments. At the farther end a door led to a reception room communicating with the president's office. This office itself opened into the cashier's department on one side, and on the other into a small room occupied by the president's secretary and typewriter, and into the vestibule of the Exchange place entrance to the bank. On the right of the vestibule was a large room in which the bank employes kept their street clothing, and to which they could retire when they were off duty. A door from the clerks' room led into the cashier's department, while another one opened into the private secretary's room.

After he had finished his inspection of the space open to the public, Sturgis, followed by Dunlap, passed into the president's reception room, and thence in turn into the other rooms, and finally into the cashier's and bookkeepers' departments.

Several times he stopped, retraced his footsteps to some particular point and then began his search anew. At times he crawled about on his hands and knees; at others he climbed upon the furniture, the better to examine some spot upon the wall. In the president's office he stopped to pick up a great number of tiny scraps of paper which lay in and around the waste basket. These he carefully placed in an envelope, which he laid upon the president's table.

On one side of the room there stood a magnificent old-fashioned carved mantelpiece. The artistic beauty of the structure did not seem to strike Sturgis, but he appeared to derive a great deal of satisfaction from an inspection of the large tiled hearth. Presently, removing his coat and his cuffs, he plunged his hand into the grimy chimney and removed a handful of soot, which he examined carefully and then threw away. He repeated the operation again and again, until at last, with evident satisfaction, he picked out a small object, which he deposited in an envelope. Then, after washing his hands in the clerks' room, he passed into the cashier's department. In a corner stood the telephone closet, the door of which was open. The receiver of the instrument was down. The reporter took it up and gazed at it long and earnestly.

Sturgis' examination of the bank must have lasted over two hours. At first Richard Dunlap looked on with a mild curiosity, in which amusement struggled with good-natured skepticism. But as time wore on the banker began to show signs of impatience, and when at last Sturgis returned to the private office and carefully deposited upon a sheet of white paper a miscellaneous assortment of tiny scraps and shreds, the banker could scarcely conceal his dissatisfaction.

"Well, Mr. Sturgis," he said, "I hope you have nearly completed your investigation; for my leisure is not so abundant that I can afford to waste it like this."

"I need one more witness at least," replied the reporter, "and I am afraid I shall have to ask you to help me obtain it."

"But," he quickly added, as he noted Dunlap's impatient gesture, "I think I can promise you that the time you are regretting has not been wasted."

The financier did not seem convinced by this assertion; but he nevertheless consented with an unwilling grace to assist the reporter to the best of his ability.

"Well, then," said Sturgis, "tell me, first of all, whether you keep firearms in the bank."

"Yes," replied Dunlap; "the cashier has a small revolver which he keeps in his desk as a means of defense in case of a sudden attack by a bank thief."

"Have you the key to the desk?"

"Yes," replied the banker.

"Will you kindly see if the revolver you mention is in its place?"

"It ought to be," said Dunlap, picking out the key on a bunch which he took from his pocket, and walking towards the cashier's department with Sturgis at his heels.

"Yes, here it is in its accustomed place."

He handed it to the reporter, who examined it attentively.

"Exactly," said Sturgis, with satisfaction; "this is what I was looking for."

"What do you mean?" asked Dunlap.

"I mean that this is the revolver which was fired twice last night in the Knickerbocker bank. See for yourself; two of the cartridges are empty, and the weapon has not been cleaned since these shots were fired."

"But who can have fired the pistol, and at whom was it fired, and why?"

"Hold on! hold on!" exclaimed Sturgis, smiling; "one thing at a time. We shall perhaps come to that soon. For the present, if you will come back to your private office, I shall endeavor to piece together the scraps of evidence which I have been able to collect. There, sit down in your own armchair, if you will, while I fit these bits of paper together; and in less than ten minutes I shall probably be ready to proceed with my story."

Dunlap was still nervous and impatient; but all trace of amusement and skepticism had vanished from his face, as he took the proffered armchair and watched Sturgis patiently piece together the tiny fragments of paper he had so carefully gathered. When this work was accomplished, the reporter went to the typewriter and wrote a few lines on a sheet of paper. He next proceeded to examine under the microscope the minute fragments and particles which he had collected in his search.

When he had finished this operation, he leaned back in his chair and looked up into space for what seemed to Dunlap an interminable length of time. Then at last he glanced at the banker, who could hardly contain his growing impatience.

"I am ready to go on now," said Sturgis, reaching for a sheet of paper, upon which he began to draw with ruler and pencil.

"At last!" sighed the banker.

"Yes; but my first, as the charades say, is a question."

"Another!" gasped Dunlap; "when is my turn to come?"

"Just a few more," replied Sturgis; "and then your turn will come for good."

"Well, out with your questions then, if you must," said Dunlap, seating himself resignedly in his chair.

THE BOOK OF THE PRESIDENTS.

By General Charles H. Grosvenor.

Twenty years member of Congress, Pronounced the most sumptuous and magnificently beautiful book ever issued in the United States. Contains 27 large full page Photogravure Portraits, reproduced from the best paintings in the White House, the Congressional Library, the Capitol Building, the Corcoran Art Gallery of Washington.

Contains Department of Autograph Letters, showing an autograph letter of each President of the United States, and Department of Armorial Bearings and Genealogical Notes. These two features have never before appeared in any book ever issued.

Both President McKinley and President Roosevelt posed specially in the White House for their portraits to be used only and exclusively in this work. This is the greatest honor ever conferred on any publication ever issued in this country. This work reflects credit upon the Nation. Every patriotic American citizen will buy it. Sells at sight. Small fortunes being made by men and women and large fortunes will be made on this publication within the next three years. High-class men and women employed on commission or part salary and part commission. $1,500 guaranteed yearly. Also Manager wanted to open a small office at home or in home town to have charge of agents and correspondence, look after the advertising and other work. Write for terms and circulars.

SPORTING NEWS.

ON THE DIAMOND.

The North Plainfield High School baseball team will play its next game at Port Richmond, S. I., May 31.

Andrew F. McKeon, of this city, has signed as catcher for the Alerts, of Jersey City, and he will play his first game Sunday. McKeon formerly played with this club.

The Underwoods defeated the Whittiers, yesterday afternoon, by the score of 15 to 3. The feature of the game was the playing of Bock and Glenney. J. Douglass and W. Douglass were the battery for the Underwoods, and Ulrich and Freeman for the Whittiers.

Roselle is now assured of a baseball team, and every indication now points to the fact that better sport than ever will be furnished here this season for the lovers of the national game. The Roselle Improvement Association is backing up the sport and arrangements are now being made to have a grand stand erected and completed at the grounds in readiness for the sport which will begin on Decoration Day, with a morning and afternoon game. The baseball management will place a strong aggregation in the field, which will be out for the championship of Union county. The visiting teams for the first games will be announced at an early date. James D. Kay will manage the sport, and Herman Fredericks, of Elizabeth, will captain the team, which will be comprised of the following well-known players: Hall, c.; Tabor, p.; Fredericks, 1b.; Campbell, 2b.; Hohmeyer, ss.; Klare, 3b.; Mills, rf.; Warner Hibbard, cf., and Astrander, lf.

TENNIS.

The first tennis event at the Hillside Tennis and Golf Club is scheduled for Thursday, May 29, when there will be play for the Mellick cup, provided the courts are ready by that time. This cup is for the women's championship, and is presented by Councilman George P. Mellick. It is to be played for by women club members, either active, non-resident, associate or junior associate. No one will be allowed to score more than one preliminary win for the cup.

GOLF.

S. D. Lounsberry and Arthur Swinton, of Somerville, have joined the Hillside Tennis and Golf Club.

There will be an interesting golf match this afternoon on the Hillside Tennis and Golf Club course between the local team and the Hackensack team.

INFORMAL MUSICALE.

Given by Miss May Vincent Whitney and Miss Alberta E. Waterbury.

Miss May Vincent Whitney and Miss Alberta E. Waterbury entertained a few friends at an informal musicale given last evening at Miss Whitney's studio in the Babcock building. There was an eight-handed piano selection by Miss Whitney, Miss Waterbury, Miss Carolyn Dewey and Mrs. Rankin, and there was a duo by Miss Whitney and Miss Waterbury also piano solos by Miss Whitney. Other features of the evening were soprano solos by Miss Etta Raybert and recitations by Miss Mary Adelaide Luckey.

SUDDEN DEATH.

George Logan, New Market's Mail Carrier, Passed Away Yesterday.

(Special to The Daily Press.)

New Market, May 24—The death occurred suddenly yesterday of George Logan, one of the best known residents of this place, from a complication of diseases. The deceased was twenty-five years of age and had for many years been the local mail carrier.

The funeral will take place Sunday afternoon from the First Baptist church and the local order of Juniors of which the deceased was a member will attend in a body. He is survived by his mother.

W. W. Wooden's Will Probated.

The will of the late William W. Wooden was admitted to probate yesterday. Louise Wooden and William H. Wooden, widow and son, are named as executors. A legacy of $2,000 is named for the son and the balance of the estate is for the use of Mrs. Wooden for life, after which it reverts to the son. Hetfield & Hetfield represents the executors.

Higgins Found It.

Patrolman Higgins saw a burning chimney on the residence of Abram Henry at 265 West Third street, at 5:26, yesterday afternoon, and sent in a still alarm. No. 2 hose wagon responded and extinguished the blaze in a few minutes. The property belongs to Mrs. Samuel Dreier.

Farewell Sermon.

Rev. H. Johnson, who has been pastor of the Swedish Lutheran Gethsemane church for a year past, will preach his farewell sermon tomorrow evening. He leaves to assume charge of a church in Connecticut.

Engagement Is Announced.

Announcement is made of the engagement of Edwin C. Fancher, of Fanwood, and Miss Laura E. Hardgrove, of Somerville.

DECLARED A FORGERY.

Marriage License Was Produced in City Court This Morning.

Grant Lievers, of Philadelphia, was arraigned in the city court, this morning, charged by Miss G. R. VanBoskerck, of the Organized Aid Association, with unlawfully living with Alice Brunny, a young woman. The couple claimed to be married and exhibited a certificate signed by a Bound Brook justice of the peace. It was pronounced a forgery and both offenders were roundly berated from the bench. They were ordered to separate under pain of heavy sentences.

REPORTS OF CONVENTION.

Presented at the Meeting of Women's Relief Corps Last Evening.

At the meeting of the Woman's Relief Corps last evening there were brief, but interesting reports of the recent convention held at New Brunswick from those who attended as delegates. After the business of the evening the members enjoyed the hospitality of Mrs. Nash, recently elected department treasurer, who provided ice cream for all present.

A social time followed and the department officer was congratulated upon her success.

ACCEPTED CHECK.

Ends Controversy Over Martine Property Sold, Then Redeemed.

Tax Collector Frank H. Smith informed a representative of The Daily Press this morning that Otto Arens had accepted the $1,300 check which he paid for the Martine property. As previously stated the deed for this property was not given to Mr. Arens, as Mr. Martine redeemed the property prior to 5 o'clock on the day set for the giving of the deed to Mr. Arens in case the owner failed to pay. This arangement was so understood between the Common Council and the collector.

Circus at Elizabeth.

(Special to The Daily Press.)

Elizabeth, May 2—Forepaugh & Sellgs' circus gave two fine performances in this city yesterday afternoon and evening, attracting immense crowds. Divalo gave clever performances of "loop-the-loop" and every feature of the show was creditable. In the evening one woman was thrown from a horse against an iron post, but she was not seriously injured.

Preaches Next Sunday.

It was announced several days ago that tomorrow would witness the last appearanoe of Rev. E. M. Rodman at Grace Episcopal church, as rector. This is not so. Dr. Rodman will hold his farewell service, Sunday, June 1, when no doubt he will have something to say about the severance of his relationship with the church.

There Was a Secret Agreement.

Decision was reserved by City Judge Runyon, this morning, in the case against Ralph Luria, charged with running a junk wagon using another man's license. Proof was brought to show that a secret agreement had been made between the defendant and a former employer which practically entitled him to run the wagon.

Funeral of John Renneman.

Funeral services over the remains of John Rennemann, who died suddenly at his home on Codington avenue, yesterday morning, will be held from his late residence Monday afternoon at 1 o'clock and from the Coontown Congregational church at 2:30.

Y. M. C. A. Met Its First Defeat at Scotch Plains—Hope Boys Beat High School.

ST. MARYS WON EASILY.

Safe Works Carried Victory Into Camp of Dunellen A. C.—A Fine Exhibition of Baseball at Westfield—Hopes Turned Tables on the City High School Nine.

Y. M. C. A., 7; Scotch Plains, 9.
Hope Y. M. A., 12; Plainfield H. S., 1.
St. Mary's, 19; Cathedral A. C., 9.
Safe Works, 8; Dunellen, 5.
Westfield, 4; New York A. C., 3.

Saturday afternoon's conflicts on the local diamonds furnished much of interest for the local enthusiasts. The hitherto invincible Y. M. C. A. nine met defeat at the hands of the Scotch Plains contingent. The Hopes administered a sound rubbing to the City High School boys in memory of their former defeat. St. Marys won from the Cathedral A. C. of New York. The Safe Works boys demonstrated their ability by taking a game from Dunellen after a hot fight. A splendid exhibition of baseball was seen at Westfield where the home team defeated the New York A. C. by a single run.

Although the afternoon was warm and sultry, good crowds witnessed all the games and the excitement ran high. All the League teams showed good form and gave promise of some exciting games when they meet.

EASY FOR ST. MARY'S.

In no game that the St. Mary team has played this season has there been such heavy batting as in the contest with the Cathedral A. C., of New York, Saturday afternoon. The St. Mary boys seemed to be possessed of unusual perception and strength and touched the crack New York twirler up for eighteen hits, bringing in nineteen runs. Half as many hits were secured by the visitors off Doyle and they secured nine runs.

From the first inning the home team pounded the leather all over the lot and the Cathedral fielders were kept busy chasing as far as Fourth street and Spooner avenue for it. Keen and Casey both made pretty three base hits, as did Carr, of the visitors. Carr also made one of the longest drives ever seen on the field. The ball landed in Spooner avenue beyond left field and he could have made a home run but for a pause on third. He then started for the plate but was nailed by Barry.

The Cathedrals are rated as a first class team but if so they must have had an off day. Their fielding was miserable and errors came almost as frequently as the St. Mary hits. On the other hand, the St. Marys played a good field game, making a total of only three errors. Doyle struck out ten men against his opponents two.

SUCCESSFULLY REPEATED.

"Emancipation" Given by Choir at First Presbyterian Church.

"Emancipation" was successfully repeated at the First Presbyterian church last evening by the quartette choir, E. Maxwell Honeyman, Elmer D. Cutting, Sydney R. Titsworth and R. Wilson Derby, assisted by Miss Etta Baybert, Mrs. John H. VanWinkle, Miss Julia Carman and Mrs Charlotte Ross. Clifford Braider presided at the organ. The pastor, Rev. C. E. Herring gave an interesting talk on music, comparing Chopin's funeral march with the work presented at the service.

C. J. M. DENCKLAU IS DEAD

OLD RESIDENT PASSED AWAY AT HIS HOME SATURDAY AFTERNOON.

Was a Naval Engineer and He Had Visited Every Quarter of Globe—Had Spent Last Years at Home.

The death of Charles J. M. Dencklau, one of Plainfield's old residents, occurred at his home on East Second street, Saturday afternoon. He had been ailing for a long time with Bright's disease but had been confined to his bed for but seven weeks.

Mr. Dencklau was sixty-three years old and had lived in this city for more than forty. He was a naval engineer by trade and in his time had visited nearly every quarter of the globe. For some years past he has been living quietly at home. He did not take any active part in affairs outside his family circles, belonging to no organizations beyond the Free Masons, being a member of Darcy Lodge, No. 187, F. and A. M., of New York.

He leaves a widow and the following children: Mrs. Jacob Bechman, Mrs. William Leihauser, Miss Elizabeth Dencklau, and Ferdinand, Harry and Frank Dencklau, of this city, and Charles Dencklau, of Boston.

The funeral will be held from his late residence tomorrow afternoon at 2:30. The local Masons will be in charge.

DIED IN CALIFORNIA.

Lewis A. Dunn, Former Plainfielder, Passed Away After Long Illness.

Lewis A. Dunn, formerly of this city, died in Pasadena, Cal., yesterday morning, the sad news being received through a telegram. He leaves a wife and two sons to mourn the loss of a loving husband and father. Mr. Dunn had been in poor health for some time.

He was sixty-one years old Thursday and was a veteran of the Civil War, returning at the close of the war as a lieutenant. He was the son of the late Theodore Dunn, who lived in East Front street, where the Powlison & Jones building now stands. For many years he was at the head of the firm of Dunn & Case, and later Dunn Bros., successful news agents on the New Jersey Central, until underbid by the present Union News Company. Mr. Dunn was a member of the Seventh-Day Baptist church, of this city.

IN NEW QUARTERS.

Auditing Department of Jersey Central Has Moved to Philadelphia.

Officials and clerks of the New Jersey Central to the number of 175, arrived in Philadelphia Friday, with the department accounts and paraphernalia, and took up its new quarters provided for them on the sixth floor of the Reading Terminal building. This is the auditing department, and everything was in readiness the next morning for business.

With the removal of this department the entire auditing force of the Jersey Central, including that of the Lehigh & Wilkesbarre Coal Company, is now domiciled in the Terminal building. D. Jones, controller of the Philadelphia and Reading, will have supervisory charge of these departments.

NEW MAIL BOXES.

A New One at Old Station and Another One at the New Station.

Postmaster E. H. Bird has arranged for mail boxes at the railroad stations. The old style box now at the North Avenue station will be taken away and in its place the latest style box will be placed directly in front of the station near the old ticket office. Another one of these boxes will be placed at the new station near the ticket office. These boxes are made of sheet iron and are extra wide, admitting the widest envelope made. They are not quite so deep. They will be aluminum color, harmonizing with the white fence.

MANY GATHERED FOR SEWING CLASS' FETE

Charming Out-of-Door Function Given on Lawn of Mrs. Evarts Tracy's Home.

THE MANY ATTRACTIONS

THOSE WHO WERE IN CHARGE OF THE DIFFERENT DEPARTMENTS.

Gypsy Encampment Was One of the Features—Ping-Pong Attracted Many—Then There Were Also Refreshments.

While the rest of the city was sweltering those who attended the lawn fete at the residence of Mrs. Evarts Tracy, Saturday afternoon, luxuriated in shade and breeze. The beautiful grounds at the corner of Hillside and Prospect avenues were open for the reception of visitors from 3 to 7 o'clock and during that interval a large number took advantage of an opportunity to attend.

Booths, stands, tables and camps dotted the lawn. In one corner was a typical gypsy encampment, but furnished somewhat more magnificiently than the usual gypsy habitation. Here one could have his fortune told as faithfully as if he had visited the Delphian oracle. In another place was a ping pong table where the ping and the pong of the ball was heard with ceaseless regularity. A candy table was situated in a shady spot overhung with branches and boughs, and decorated with Chinese lanterns.

In appropriate quarters were a refreshment table, a lemonade stand, a booth for the sale of useful articles, and a package booth. During the afternoon Korff's string orchestra were seated on the piazza of the Tracy residence and discoursed music for the occasion.

The purpose of the fete was to raise money for the bringing of poor children, whose homes are in the tenement districts of New York city, to the country for a week or so during the hot weather. It was held under the auspices of the Lenten Sewing Class, which includes Mrs. L. W. Serrell, Mrs. E. M. VanBuren, Mrs. Geo. S. Ring, Mrs. Otterson, Mrs. Evarts Tracy, Mrs. L. G. Timpson, Mrs. Wm. Tyler, Mrs. James Blake, Miss May Evans, Misses May and Florence Waring, Miss Anna Miller, Miss Maude VanBoskerck, Miss Mabel Pierson, Miss May Rodman, Miss Annie Murphy, Miss May Holly, Miss Tracy, Miss Otterson, Miss Stewart and Miss Lee.

The following women were in charge of the various departments:

Gypsy camp, Miss Rodman, Miss Stewart; candy table, Miss Margaret Holly, Mrs. E. M. VanBuren, Miss May Holly, Miss May Tracy, Mrs. Geo. S. Ring, Miss Waring, Miss Ida Borsum, Miss Agnes Minford; refreshment table, Mrs. Wm. Tyler, Miss Lincoln, Miss Pierson, Miss Strong, Mrs. Lewis E. Waring, Miss Reinhart; lemonade table, Mrs. VanBuren, Mrs. Wallace, Mrs. Lee, Miss Ryder, Miss Schroeder, Mrs. Taylor, Miss Randolph, Miss Cooley, Miss Hall; package booth, Mrs. L. G. Timpson, Mrs. Streuli, Mrs. Otterson, Miss Otterson; Miss F. Waring, Miss Clapp, Mrs. E. T. Wilson; useful articles stand, Mrs. R. H. Depew, Mrs. H. V. Borden, Miss Evans, Mrs. Eugene Moore, Miss Murphy, Mrs. E. T. Barrows; ping pong, Mrs. Evarts Tracy, Miss C. Hyatt, Miss A. Miller, Miss Ida Stewart, Mrs. Day, Miss Martin, Mrs. G. P. Mellick.

To Reduce Appropriations.

There was an important meeting of the Board of Freeholders at Elizabeth last Friday for the purpose of making up the appropriations for the year. While no information can be secured, until the result of the meeting is reported at the June meeting, it is believed that an attempt was made to reduce the general amount from what it was last year.

Another Operation.

George Meyer, of South Second street, who suffered amputation of his right foot, nearly a year ago, entered Muhlenberg Hospital, Saturday, for a second operation. The wound failed to heal and another piece had to be removed just above the ankle. He rallied from the operation and it is thought will be out again in a few weeks.

Pipe Fitters Wanted.

Four good pipe fitters can find steady employment by applying tomorrow morning at 10 o'clock to A. J. Connolly, at the Springfield pumping station of the Elizabethtown Water Company. Union wages will be paid.

MADE A FIRST-CLASS OFFICE

PLAINFIELD'S POSTOFFICE HAS BEEN OFFICIALLY ADVANCED.

Postmaster Bird Received Official Information to That Effect Yesterday Morning.

The people of Plainfield will welcome the announcement made today by Postmaster Elias H. Bird that the Plainfield postoffice is now in the first-class. He received official word to that effect yesterday morning. When Mr. Bird assumed his present position the postoffice was doing $32,000 worth of business a year. It is now doing $40,000 worth.

This promotion to the first-class does not materially affect the office, but puts it in a position whereby additional carriers and clerks can be secured if the business warrants it. The salaries of those in the postal employ are governed by the amount of business done at the office and all increases are put on that basis.

TROUBLE ON TROLLEY CAR

ONE YOUNG MAN SLAPPED THE FACE OF THE CONDUCTOR.

All Three Were Arrested and the Offender Was Fined $10—The Others Were Released.

(Special to The Daily Press.)

Westfield, May 26—Harry Spittlehouse, Richard S. Stanford and Emmett C. Glen, all young men residing at Elizabeth, were arrested at the Westfield Junction last evening about 9 o'clock, charged with assaulting a conductor on a trolley car.

They were taken before Justice Toucey and each was held in $300 bail. Bail was furnished later in the evening by Mr. Stanford's father, and the young men were released until 9 o'clock this morning. Spittelhouse admitted his guilt and was fined $10, the others were discharged.

The young men were on their way from Elizabeth on the car in charge of Conductor Norwood. There was a dispute between them and the conductor, with the result that Spittelhouse slapped the conductor in the face. The three men jumped from the car and waited for the next car following. When they reached the junction they were arrested by several railroad officials.

SURPRISE MUSICALE.

An Unexpected Feature of Exhibit at Franklin School Saturday Evening.

The exhibition at Franklin School was continued Saturday afternoon and evening. In the afternoon, as on the previous day, admission was by invitation. Miss Noel Bullock, the principal, assisted by some of the teachers, received the parents and friends of the pupils, and conducted them through the hall where the exhibit was held.

In the evening the doors were thrown open to the public. A surprise musicale had been arranged for the occasion. At a given signal an army of pupils entered the room and marched up to the platform. Kipling's "Recessional," "Old Sweet Home," "The Better Land," and "Spring" were sung in chorus. The singing was excellent, especially good being the rendition of the "Recessional" which in sentiment and metre is peculiarly fitted for the younger pupils. After the careful musical training the children must have received, and which greatly surprised the audience, there can be no possible excuse if the coming men and women are "fit for treasons, stratagems and spoils."

TROLLEY COMBINE.

Rumor of One Which Will Include the Local Company.

There is talk of a gigantic trolley syndicate to absorb and consolidate all the traction interests of northern New Jersey under one management. The proposition is now said to be well advanced. The traction companies that are to be taken into the combination are the North Jersey Street Railroad Company, the "White Line" Company, as the Jersey City, Hoboken and Paterson Company is known; the Elizabeth, Plainfield, and Central Jersey Street Railway Company, and the Orange and Passaic Valley Traction Company.

The Strike Situation.

There is no change today in the strike situation regarding the plumbers. A number of carpenters are still on a strike.

WAR VETERANS HEARD A SPECIAL SERMON

Rev. Dr. Schenck Preached to Members of Winfield Scott Post at Trinity Church.

GIVEN LAST EVENING.

TOLD MEANING OF THE STONES MARKING GRAVES OF THE SOLDIERS.

Represented What it Cost to Preserve the Union and Put Down Slavery—Said That the People Are With the Soldiers Always.

Members of Winfield Scott Post, No. 73, G. A. R., to the number of over fifty, and members of the Woman's Relief Corps, attended divine services last evening at Trinity Reformed church, when the pastor, Rev. Cornelius Schenck, preached a patriotic sermon. The church was appropriately decorated for the occasion with large American flags, while at either end of the pulpit platform there was a stack of muskets, upon which hung a canteen and a haversack.

During the evening there was special music by the choir, including an anthem and tenor solo by F. S. Lockwood. The latter sang at this church eighteen years ago. Dr. Schenck took his text from Joshua iv:6, which refers to the memorial stone which was in truth testimony of God's goodness to Israel. The pastor asked the question "What means these stones?" referring to those found in the various cemeteries marking the graves of the soldier dead. He related his experience on a trip to the south, when he visited Lookout Mountain, Orchard Knob and an early morning visit to the great National cemetery at Chattanooga, where 13,000 soldier dead are buried, 5,000 being unknown.

In the first place, Mr. Schenck said that these stones represented what it cost to put down a human wrong—slavery. The war was for the preservation of the Union and that slavery might be abolished. During the war it was a question as to whether there were to be several republics or one country, one flag and one president and that the right prevailed these memorial stones now testify, thus giving the people of the United States perfect peace and a preserved Union.

"Again," said Mr. Schenck, "these stones tell us that glory does not fade with passing years. It is a fad just now to assail the defenders of the flag, and, if it were more than a fad, it would be a stupendous crime. The soldier and sailor with unerring accuracy strove for liberty. They do not deserve this villification, because one or two members go astray. The sober sense of the people of the United States is with the army and navy."

"Lastly, the stones tell us that God has been with us. These stones are all vertical, pointing heavenward. God has been with us to lead us, a pillar of cloud by day and a pillar of fire by night. Your ranks are growing thinner, during the last year five have fallen by the way. I look in vain for the genial face of Comrades Mattox and Cortright, and I remind you to be ready when the Captain of Our Salvation calls. Will we hear the muster roll and answer 'here'?"

SHOULD BE CROWDED.

Fine Programme to be Given at the Casino Tomorrow Night.

The Casino should be crowded tomorrow night on the occasion of the second concert by the Men's Choral Club, which by the way is given for the benefit of the Young Women's Club. A splendid programme has been prepared in which of course, the several men comprising the choral club will undoubtedly appear to great advantage, but the great features will be the vocal selections of the famous tenor, Hobart Smock, and the performances of the Misses Helen and Mabel Reynolds, violinists and 'cellists. This trio of artists form in themselves a combination unexcelled in point of proficiency and reputation, and all lovers of melody and harmony should avail themselves of the opportunity offered tomorrow.

Lessons From the Gridiron.

H. R. Reiter, of Princeton 'varsity football team of '99, spoke in Y. M. C. A. Hall yesterday afternoon, his theme being "Lessons from the Gridiron." He realistically described the Yale-Princeton game of that year and drew appropriate morals for everyday life, closing with an eloquent appeal.

CAPTURED A COW.

Patrolman Myers' Early Training Stood Him in Good Stead.

Patrolman Myers' early training among the steers in the Williamsburg stockyards stood him in good stead when he ran afoul of a vicious cow at Lee place and West Sixth street, late Friday night. The bovine was inclined to be saucy but with the dexterity of a Texas plainsman, Nick lassoed her with a piece of clothes line and proudly drove her into town. She was tethered in a stall at Cole's livery and Saturday an owner put in a claim. He informed the police that the animal had broken from his yard.

TENNIS AT PARK COURTS

OPENING OF A TOURNAMENT THERE SATURDAY AFTEANOON.

Played Scratch Singles to Get an Idea of the Relative Ability of the Members.

A tennis tournament was started Saturday on the Park Club courts. The new court was opened, making three in all that were in use. For the purpose of ascertaining the ability and status of the several aspirants for honors, the tennis committee extended an invitation for general play and a large number of players responded. The afternoon was devoted to playing singles. The doubles will be played later.

It is the purpose of the tennis committee to distribute handicaps among some of the contestants, as they are not equally matched with other players. On Saturday two sets were ruled out for this reason. The winners will be given handicaps before they play again.

The scores made on Saturday are as follows:

George Dupee defeated Wallace Guilford, 6-3; J. I. Taylor defeated Morgan Townsend, 6-1; Samuel Townsend defeated William Townsend, 6-0; Wallace Guilford defeated William Townsend, 6-2; Wallace Guilford defeated Morgan Townsend, 6-0; Charles Dupee defeated Samuel Townsend, 6-4; Clifford McGee defeated Wallace Guilford, 6-2; J. I. Taylor defeated William Townsend, 6-4; Charles Dupee defeated William Townsend, 6-2; Samuel Townsend defeated Clifford McGee, 6-2; F. O. Ball defeated William Townsend, 6-3; J. I. Taylor defeated F. O. Ball, 6-4; Samuel Townsend defeated Wallace Guilford, 6-4.

TAKEN FOR HIS SON.

W. H. Sebring Wasn't Recognized by Aunt Who is Visiting Here.

Mrs. Phoebe Lawler, of Rock Rapids, Iowa, is now visiting in Plainfield for the first time in thirty-five years. She is a sister of Mrs. Catherine B. Sebring, whose building on West Front street, was crushed by the falling of the east wall of the Babcock building at the time of the fire. She is now visiting her sister and her nephews and nieces.

As she met one and another of the relatives she had little difficulty in calling them by name, but when she met William H. Sebring, and was asked if she could recall him, she replied after a minute's hesitation, that he looked like a son of William Sebring. "Aunt" Phoebe's remarks caused much laughter and Mr. Sebring was much pleased to think that he looks as young as ever.

IRVING SCHOOL EXHIBIT.

Will be Held at That Public School Tomorrow, Afternoon and Night.

The fifth of the school exhibits arranged by Superintendent H. M. Maxson will take place in the Irving building, tomorrow afternoon and evening. Miss Petrie and her entire force of assistant teachers have been busy for the past week placing the assembly hall in order for the reception of visitors and it presents a very pleasing appearance. Casts and pictures made by the pupils have been used generously in decoration and the faculty is confident it is the most interesting hall in the city. The exhibit will have features different in some cases from any of the others and will be interesting and surprising to all who like to see what children can do when they have a chance.

New Home for Brethren.

The Plymouth Brethren have taken possession of the Lattimer property at East Front street and Bank place, lately remodelled and are now holding services, Sundays and week nights. The lower floor has been thrown into one large compartment and it presents a most attractive appearance.

Mr. and Mrs. Horace Huff, of Codington avenue, are rejoicing over the arrival of a ten-pound boy this morning.

MANY GOLFERS OUT SATURDAY

Hillside Defeated Hackensack in First Team Match of the Season.

PLAY FOR THE TROPHIES.

At Hillside the Day's Honors Were Divided Among Arthur Peterson, D. H. Barrows and H. F. Baker—S. St. J. McCutchen Winner at Park and Leads for Trophy.

Beautiful weather, with the local courses in the best of condition, brought out the golfiacs in force, Saturday afternoon. There were enough exciting contests during the day to keep up the interest. The Hillside Club team played its first match of the season and defeated the Hackensack team by a score of 35 to 11. Honors for the day in the regular competitions went to Arthur Peterson, D. H. Barrows and H. F. Baker. At the Park Golf Club, S. St. J. McCutchen won first honors for the President's cup and took the lead in the contest for that cup.

PARK GOLF CLUB.

S. St. John McCutchen came to the front at the Park Golf Club Saturday afternoon in the weekly competition for the President's cup. He won first honors for the day and now leads in the race for the trophy with Senator Charles A. Reed second.

Although the sun was a trifle warm, the day was a delightful one for golf and the course was crowded most of the afternoon. Many played in the weekly competition but none of the scores were remarkable. The "regulars" are apparently still off their game. The usual Saturday afternoon tea was served by Mrs. George T. Rogers and Mrs. J. C. Peck.

Points were scored by Mr. McCutchen, Charles L. Nichols, Charles E. Murray and Jos. L. Myers. The scores better than 100 were:

	G	H	N
S. St. J. McCutchen	115	33	82
Charles L. Nichols	121	36	85
Charles E. Murray	126	40	86

Dr. A. W. Anderson	120	33	87
Charles B. Morse	113	21	92
Henry C. Wells	122	28	94

The standing for the President's cup is:

	Points.
S. St. J. McCutchen	5
Charles A. Reed	4
Charles B. Morse	3½
Charles W. McCutchen	3
Dr. A. W. Anderson	3
Charles L. Nichols	3
Arthur H. Serrell	2
William R. Richards	2
Frank Rogers	2
Samuel Townsend	1
Joseph L. Myers	1
Charles E. Murray	½

HILLSIDE CLUB.

The weekly competition for the Boys' cup at the Hillside Tennis and Golf Club course, Saturday morning, attracted a goodly number of contestants and low scores prevailed, even though the handicaps were quite large. Arthur Peterson won first honors with a net score of 76, while second and third honors were captured by Wickham Corwin and N. P. Rogers, Jr. The latter by securing one additional point is now tie with Kerro Knox for first position, while Gordon Abbott, Wickham Corwin and Arthur Peterson are tied for second with three points each.

The scores for the Boys' cup follow:

	G	H	N
Arthur Peterson	105	29	76
Wickham Corwin	100	22	78
N. P. Rogers, Jr.	80	0	80
Gordon W. Abbott	105	18	87
E. M. Daniel	117	30	87
C. C. Perkins	118	28	90
Kerro Knox	103	11	92
Howard G. Lapsley	108	16	92
Van Wyck Brooks	132	36	96
James Scott	123	18	105

The standing for the cup at present is as follows:

	Points.
Kerro Knox	5
N. P. Rogers, Jr.	5
Gordon Abbott	3
Wickham Corwin	3
W. T. Glenney	2
H. Lapsley	1½

WHAT OTHERS SAY.

Clippings From Other Newspapers Which May be of Interest to Plainfield and Its Citizens.

The deceptive character of municipal tax rates is not generally understood by people looking for sites for homes or business purposes, and mistakes are constantly being made as to advantages of location.

While the constitution of New Jersey requires that property shall be assessed at its true value, the local assessors, disregarding that mandate, set their own standards of valuation, and no two are alike.

In the large cities the rule is for a valuation of from 60 to 75 per cent. of the real value and a corresponding low rate. In the small towns and suburban and rural districts, on the other hand, the valuation is between 20 and 50 per cent., while the tax rate is high. In both cases the amount really paid by the taxpayer on each $100 of property is usually about the same.

To the local taxpayer it makes no material difference whether the rate is high or low if by the lower or higher valuation he pays just the same to the tax collector. But the stranger who is seeking a home or a site for a factory is repelled by the high tax rate, because he does not understand the method of assessment, and has no time or inclination to look into it.

Official statistics of tax rates should be accompanied by figures showing the rate of assessment. Without this comparison the tax rates have no meaning, as they do not indicate whether taxation is high or low in a municipality It is absurd to keep up the official fiction of 100 per cent. valuation, when no such basis of assessment is anywhere in vogue. It is injurious to the State.—Newark Advertiser.

Dangerous If Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartly, Yankeetown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. L. W. Randolph.

AN EMBASSADOR'S FUNERAL.

Wednesday Selected For Services Over Remains of Lord Pauncefote.

WASHINGTON, May 26.—The late Lord Pauncefote, whose death occurred Saturday morning, will have a state funeral, for that is demanded by all precedents.

The arrangements provide that the remains of the late embassador shall be taken from the embassy at 11:45 next Wednesday to St. John's Episcopal church, where he worshiped. At the church services will be held at 12 o'clock, probably conducted by Rev.

LORD PAUNCEFOTE.

Dr. Mackay-Smith, now coadjutor bishop of Philadelphia, but recently rector at St. John's.

After the church services the remains will be conveyed to Rock Creek cemetery, escorted by a military procession.

Owing to the death of Lord Pauncefote the office of dean of the diplomatic corps at Washington now devolves upon Mr. von Holleben, the German embassador, and upon him will fall the duty of directing the diplomatic body's action on the occasion of the deceased diplomat's funeral.

The entire diplomatic corps will attend the funeral in a body attired in the full uniforms of their rank and pay their last tribute to the deceased.

Sir Julian had represented Great Britain in the American capital since 1889. He came at a time when the occasion for the withdrawal of his predecessor, Lord Sackville West, made it somewhat trying.

Great Britain was the first country to seize the opportunity to raise the rank of its representative here. On March 25, 1893, Minister Pauncefote became Embassador Pauncefote. Great Britain leading the way for France, Italy and Germany, which later appointed embassadors to the American capital.

THE DEADLY TORNADO.

South Carolina Town Visited—Four Deaths Reported.

UNION, S. C., May 26.—This place was visited late yesterday afternoon by a terrific tornado. The storm came from the north, and it seems there was also one from the southwest, meeting in this vicinity. Four deaths and considerable loss of property resulted. The storm from the north was preceded by a heavy rain and what appeared to be a dark mass about a hundred yards wide. It traveled with great speed, and people barely had time to get indoors before the storm was upon the town.

Knitting Mill hill, south of the town, caught the full force of the tornado, which blew down the schoolhouse and two residences, converting them literally into kindling wood. The occupants flew from one of the houses before it went to pieces and took refuge in another near by, but this house was also crushed to splinters.

It took some time to get the victims from the debris. Every physician in the town was soon on the scene, also President Nicholson and Manager Gault of the Excelsior Knitting mills, and willing hands assisted in relieving the sufferers as much as possible. Everything that the families had was destroyed.

The property damage will aggregate about $20,000, divided among a number of persons.

The Claims of Christian Science.

WASHINGTON, May 26.—Mr. Carol Norton in a lecture delivered before a large audience in the Columbia theater asserted that 2,000,000 cases of disease have been healed in Christian Science during the thirty-five years of its history and that in that time about 700 Christian Science churches have been established and are now flourishing. He said that Christian Science was not faith cure, mind cure nor mesmerism, but that it heals the sick only through a scientific understanding of man's relation to God.

Royal Train Stoned.

NAPLES, May 26.—King Victor Emmanuel and Queen Helena arrived here last evening on their way to Palermo to open the agricultural exhibition there. During the stoppage of the royal train at the arsenal here two stones were thrown at the train by a man named Vincenzo Guerriero, who was immediately arrested. Guerriero has previously been convicted of theft. The assault resulted in a great demonstration of loyalty toward their majesties from the assembled crowd.

Two Italians Murdered.

BATAVIA, N. Y., May 26.—William Sulvas and Russo Gugena, both Italians, were shot to death in Batavia's Little Italy yesterday afternoon. Samuel Raymond, twenty-six years of age, is under arrest, charged with doing the deadly work with a revolver.

World's Cycling Record Beaten.

BERLIN, May 26.—The cycling event of the season, the contest for the "golden wheel of Friedenau," resulted in the breaking of the world's record for 100 kilometers. Rohl of Munich won the event in 1h. 38m. 18s.

SHERIFF'S SALE—In Chancery of New Jersey. Between Catherine D. Woodruff, complainant, and Joseph James Randolph et als., defendants. Fi. fa. for sale of mortgaged premises.

By viture of the above stated writ of fieri facias, to me directed, I shall expose for sale by public vendue at the Court House, in the city of Elizabeth, N. J., on

WEDNESDAY, THE EIGHTEENTH DAY OF JUNE, 1902.

at two o'clock in the afternoon of said day, all that tract or parcel of lands and premises, situate, lying and being in the city of Plainfield, in the county of Union and state of New Jersey:

Beginning in the middle of Elm street, at a corner of said Runyon's other land; thence along his line a northeasterly course one hundred and forty-five (145) feet to a corner; thence a southeasterly course forty-four (44) feet, being the rear of said lot to a corner; thence a southwesterly course one hundred and forty-five (145) feet to the middle of aforesaid Elm street; thence along the middle of said street a northwesterly course thirty-five (35) feet to the place of beginning. Containing about twelve-hundredths of an acre of land, more or less. RULED BY CURIOSITY.

Why Americans Seemingly Go Crazy Over Royal Visitors from Old-World Monarchies.

Foreign critics of America and Americans find something incongruous in the almost universal curiosity of our democratic countrymen in the persons, the habits, the characters and the acts of those who inherit the right to rule, and of their wives, sons, daughters, sisters and cousins and aunts.

One cannot deny the fact, however it may be explained, nor however contradictory to democratic principles it may be. Moreover, says the Youth's Companion, the country has just given a most conspicuous illustration of the

QUEEN MARGHERITE OF ITALY.
(Rumor Has It That She Will Visit the United States.)

trait. Upon one point it is easy for the amused foreign observer to err. He may fancy that he detects here a longing for royalty and a dissatisfaction with republican simplicity; but every American knows that the desire to see a lion does not imply a wish to own one.

The trait manifests itself in many ways. The desire of the American girl traveling abroad to be present at court and the willingness of her father to provide the appropriate raiment are expressions of it. What matter if the consciousness that she wil carry back to her native place a special distinction because of her bow in court costume to the queen of England or Italy does add a certain attraction to the experience?

But as the woman who has been presented becomes each year a more familiar object, so the royal visitor bids fair to lose his "rarity value." It is now reported that the king of Belgium, the dowager queen of Italy and the crown prince of Siam, to cite only the best-founded reports, are laying plans for American tours.

Meanwhile the king of England gives special audiences to American bankers and other monarchs of our business world. It may be that a healthy curiosity—corresponding to that which our royal visitors provoke—exists in more than one palace concerning the men whose energy and brains have won them well-nigh kingly powers of control. Indeed, it need not be feared that either the palace or the American city will suffer through gratifying so natural an instinct.

REV. JOSEPH PARKER.

London Preacher Who Rebuked King Edward for Brewing Beer and Sabbath Breaking.

There was a striking scene in the City temple of London, when, during the course of a sermon, Rev. Joseph Parker, D. D., administered a pointed rebuke to King Edward, which was loudly applauded by the congregation. Having alluded to public houses as "trapdoors of hell," Dr. Parker referred to the King's recent brewing of beer while visiting Lord Burton.

"Pray for me," said the divine, "that I may speak delicately, loyally. If the

REV. JOSEPH PARKER
(Most Eminent Non-Conformist Clergyman in England.)

king brews beer what can be wrong in the subject drinking it? What the king does is likely to be imitated by others. His majesty is more than a man and must regard all questions from a kingly point of view. If the king goes to a Sunday concert, as he did recently, he deals a deadly blow to the Englishman's Sunday. The king cannot attend a nonconformist place of worship, but he can go to a Sunday concert."

This remark called forth cries of "Shame," and Dr. Parker continued:

"If the king, who is the head of the church and defender of the faith, can violate the English Sunday, what can the people do but follow in his steps? I would rather give a great sum of gold than appear to be disloyal; but I cannot be disloyal to Christ, and it is better that these things should be said."

Rev. Dr. Joseph Parker is a Congregationalist, and has been preaching since 1848. He is noted for his frank utterances. He once startled Christendom by calling on God to damn the sultan. "I say," he exclaimed, "God damn the sultan!"

CAUGHT IN A SHOWER

French Visitors Ride With President and Get Wet.

THEIR DEPARTURE FOR NIAGARA.

Rochambeau Mission Attends Unveiling of Statue of America's Friend In Hour of Need and Passes a Quiet Sunday at the Capital.

WASHINGTON, May 26.—The members of the French mission which came to Washington to attend the ceremonies incident to the unveiling of the Rochambeau statue have finished their visit here and last night left the city for Niagara Falls on their week's tour of the east before sailing for home. There were no formal functions on the programme for the day, but the visitors found every minute of their time occupied in attending divine service, returning numerous calls, official and otherwise, and in drives about the city and suburbs.

A quite unexpected feature of the afternoon and one which pleased the visitors very much was an invitation from President Roosevelt to accompany him and several others on a horseback ride. The entire party assembled in front of the White House about 4 o'clock, the visitors in their uniforms making a very pretty picture in the bright afternoon sunlight. A photograph was taken of the group while there. The president guided the party through the northern section of the city until they reached the Zoological park. While in the park a storm began to gather, and the party came home at a lively canter. The rain over-

took them, however, and before reaching their stopping place the entire party was drenched.

THE UNVEILING CEREMONIES.

The ceremony of unveiling was fixed for 11 o'clock Saturday, but long before that hour the streets were filled with marching men and with a great crowd eager to witness the exercises and review. A battalion of French seamen arrived by special train from Annapolis early in the day and, headed by the crack band from the French battleship, swung through Pennsylvania avenue to Lafayette square, where the shrouded figure of the French field marshal awaited the signal for unveiling. The American soldiers, sailors and marines already had assembled and gave their French brothers in arms a hearty welcome. The American troops were under command of Major General S. B. M. Young.

President Roosevelt and the members of the cabinet arrived at the unveiling stand shortly before 11 o'clock and took positions immediately facing the draped figure. Alongside the presidential party sat the French embassador, M. Cambon; General Brugere, Vice Admiral Fournier and other distinguished representatives of the French government and also the Count and Countess de Rochambeau and Count de Lafayette, descendants of the gallant soldiers who fought with Washington.

After an impressive opening prayer by Dr. Stafford President Roosevelt stepped to the front of the platform and extended a generous welcome to the French guests.

As the president closed his remarks the Countess de Rochambeau drew aside the veils enveloping the figure, bringing into view the massive bronze proportions of the famous French commander, standing proudly erect, with arm outstretched, directing the fortunes of war on the field of Yorktown. A great cheer went up from Frenchmen and Americans alike, and at the same instant the Marine band broke into the inspiring strains of the "Marseillaise." As the French national hymn died away Embassador Cambon escorted to the front of the platform the youthful sculptor, M. Hamar, who executed the statue. Then the embassador, speaking in French, delivered an address.

The orator of the day was Senator Lodge of Massachusetts.

The Gaulois Starts For New York.

CAPE HENRY, Va., May 26.—The French battleship Gaulois passed out to sea last night. Admiral Higginson's squadron—the Olympia, Kearsarge and Alabama—will escort the Gaulois to New York and Boston and remain in attendance upon the visiting battleship until the Rochambeau commission takes its departure for home.

A Negro Lynched.

PARIS, Mo., May 26.—A mob broke into the jail here yesterday and after a desperate fight in which the sheriff and deputies were injured secured Abe Withrop, the negro who killed young William Grow last month, and lynched him.

Martinelli Received by the Pope.

ROME, May 26.—The pope has received Cardinal Martinelli, who gave the pontiff an account of his mission and of the situation of the church in the United States.

ACTION DISAPPROVED

Acquittal of Waller and Day Not Warranted.

FINDING OF MANILA TRIAL PUBLISHED

Marines In Samar Not Guilty of Murder, but Blamed by Reviewing Authority For Cruelties to Natives.

MANILA, May 26.—The official findings of the court martial which tried Major L. W. T. Waller and Lieutenant John H. A. Day of the marine corps for executing natives of the island of Samar without trial have been made public. The reviewing authority of the court has expressed its disapproval of the court's findings in both cases.

Referring to the case of Major Waller, the reviewing authority says:

"The sending of the natives in question to their death partook more of unlawful retaliation than a justifiable act of war. In justice to the American military service, the findings of acquittal demand that they shall not meet with unqualified approval. The marines in Samar underwent great suffering before their rescue, and their officers from their sickbeds voiced the revengeful anger of the men, who telephoned to Major Waller advising that the stevedores be killed.

"Major Waller received this message while he was still prostrate from a fever, suffering acute pain of body, due to exposure and his exertions in behalf of his men and mental anguish concerning their fate, which had long been in doubt. Major Waller was at the time in telegraphic communication with General Smith, who commanded the American forces in Samar, but he deliberately chose not to consult General Smith regarding his contemplated action, and rather than forego the execution of his unrestrained will he assumed the power the laws of war and the customs of the service confer upon commanding officers only in time of war.

"Giving heed to the mental attitude of Major Waller, as much of the findings of the court as are to the effect that Major Waller is not guilty of murder is approved, but the reviewing authority is at a loss to understand why the court did not find against Major Waller in the minor offense. With the exception noted the acquittal as it appears in the record of the proceedings is disapproved."

Referring to the case of Lieutenant Day, the reviewing authority says:

"The accused knew that for three weeks Major Waller had undergone a test of his mental and physical endurance such as few men are called upon to suffer. While fully conceding the grave responsibility assumed by a subordinate officer in willfully disobeying an order of his commanding officer, still the weighty reasons related, with which Lieutenant Day was acquainted, so tainted Major Waller's order that Lieutenant Day should have been prompted to positive disobedience. An officer must be conscientiously regardful of the unquestioned legality of his agency in taking the lives of his fellow men. Above and beyond all personal considerations, officers must guard the name and honor of the country. Had Lieutenant Day been actuated by such considerations he would probably have prevented one of the most regrettable incidents in the annals of the military service of the United States."

The cholera record up to date is as follows: Manila, 1,146 cases and 619 deaths; the provinces, 3,922 cases and 2,774 deaths.

French President In Denmark.

COPENHAGEN, May 26.—President Loubet, who after his visit to the czar of Russia left Kronstadt May 23 for France on the French cruiser Montcalm, landed here yesterday after a favorable and rapid voyage through the Baltic. As the Montcalm drew too much water to allow her to approach Copenhagen, President Loubet was transferred to the torpedo boat destroyer Cassini, which accompanied the Montcalm. The Cassini was the recipient of thunderous salutes from the forts upon her arrival in the roadstead here. King Christian, the Danish crown prince and other members of the royal family greeted the French president on his arrival.

The Chicago's Investigation Secret.

NAPLES, May 26.—The court of inquiry being held on board the United States cruiser Chicago to investigate the arrest of certain officers of that vessel at Venice on April 25 continues its sessions, but the strictest secrecy regarding the proceedings of the court is maintained. Orders have been received on the Chicago from Washington that the findings of the court shall not be divulged until they are passed upon by the United States government.

A New Knight of the Garter.

LONDON, May 26.—King Edward has approved the conferring of the Most Noble Order of the Garter upon the Duke of Marlborough in succession to the late Earl of Kimberley, who died April 8. The death of the Earl of Kimberley made a vacancy in the list of knight companions of the Most Noble Order of the Garter, which is only conferred upon sovereigns and twenty-five members of the high nobility of the United Kingdom.

Reina Won Brooklyn Handicap.

NEW YORK, May 26.—Under ideal conditions for a great running race the Brooklyn handicap at Gravesend was won by Arthur Featherstone's four-year-old chestnut filly Reina in 2:07 at 40 to 1, with O'Connor up. Reina won by a short head, leading home thirteen of the most noted racers of the American turf.

AMONG THE STRIKERS.

A Quiet Sunday In the Anthracite Region—Situation Unchanged.

WILKESBARRE, Pa., May 26.—A very quiet Sabbath was passed in the Wyoming region. Two weeks ago there was more or less excitement everywhere, because the strike order was to go into effect the following day, and one week ago there was much talk over the coming of President Mitchell to Wilkesbarre to make his headquarters, but yesterday found the offices of the coal companies entirely deserted, the clerks having completed their pay rolls early in the week, and at the strikers' headquarters no one was on duty but Miss E. C. Morris, President Mitchell's private secretary.

The circular which President Mitchell sent out warning the Polish, Slavish and Lithuanian miners to remain away from the bituminous region of Virginia and West Virginia, where strikes are now in progress, was read in many of the churches where the foreign miners attend services.

Secretary Mullahy of the Stationary Firemen's union reports that the poll of the men employed at the various collieries has just been completed and that over 90 per cent of the men will quit work on June 2 unless an eight hour day is granted them. Another officer of the union admits that the percentage of engineers who will quit work will not be as large, but very nearly so. What percentage of the pumpmen will come out is not as yet known.

Meetings of railroad men to discuss the advisability of refusing to handle nonunion and bituminous coal during the progress of the miners' strike were held in Wilkesbarre, Kingston and Ashley in the afternoon. All three meetings were secret.

ATTEMPTED ASSASSINATION.

Russian Prince Object of Peasants' Hatred.

ST. PETERSBURG, May 26.—A report has reached here of an attempt to assassinate Prince Obolensky, governor of the government of Kharhov, who was commended by the czar for suppressing the rioting among the peasants of that district.

Lieutenant General von Wahl, governor of Vilna, whose assassination was recently attempted on account of his wholesale flogging of political prisoners, many of whom were educated and who, according to custom, were therefore exempt from flogging, justifies these punishments on the ground that he was ordered to inflict them by M. von Plehwe, the minister of the interior.

Peasant political prisoners have also been whipped at Bielostock and other Polish towns.

Eighty persons who were arrested for taking part in revolutionary disturbances at Saratov were confined in a private building there. A number of rioters concentrated in the vicinity of this building, contemplating a release. The rioters were charged several times by the troops before they dispersed, and the liberation of the prisoners was thus prevented.

Armed with daggers and sticks, the townspeople of Ghirzel, in the Caucasus, have liberated a score of prisoners who claimed they were innocent.

AN ENGINEERING FEAT.

Six Span Steel Bridge Moved Without a Break In Railway Traffic.

NEW BRUNSWICK, N. J., May 26.—Pennsylvania railroad officials came here yesterday in a special car to witness the engineering feat of moving the steel bridge which spans the Raritan river and the Delaware and Hudson canal. The structure was moved a distance of fifteen feet, and there was no interruption of traffic. The bridge has six spans, is double tracked and is 900 feet long.

The moving of the bridge was made necessary in the track elevation scheme of New Brunswick. A stone bridge of greater height and four tracks will take its place.

Favorable to Peace.

PRETORIA, May 26.—The Boer deputation is still here, and the conferences at Vereeniging continue. Nothing definite of the result is known, but it is believed that the negotiations are proceeding favorably. At the celebration of Victoria day a large crowd gathered in the square here, expecting to hear a proclamation of peace. There were no disturbances. As confirming the probability that peace is not distant the Right Hon. R. J. Seddon, the premier of New Zealand, who is now visiting here, has sent a cablegram home in which he said: "I have had a satisfactory interview with Lord Kitchener and Lord Milner. I do not think another New Zealand contingent is necessary."

Carpet Weavers' Strike Averted.

PHILADELPHIA, May 26.—The threatened strike of local ingrain carpet weavers has been averted. A meeting of shop delegates to the unions has decided to accept a compromise offered by the manufacturers. This gives the weavers an advance of from 3 to 5 per cent in wages for heavy work. It goes into effect June 2. Out of 2,700 looms in the local trade 1,800 will be affected.

A Tame Anarchist Conference.

BERLIN, May 26.—It has just transpired that an anarchist conference attended by twenty-nine delegates was held at Mannheim last week. The police got wind of the meeting before it occurred and sent two officials to attend the sittings. As the proceedings of the conference were quite tame the anarchists were not molested by the public officials.

THE GUATEMALA EARTHQUAKE.

Eyewitness Tells of the Destitution of Quezaltenango and Its People.

SAN FRANCISCO, May 26.—By advices brought by the steamer City of Para it is learned that in ninety seconds 1,000 people were killed, over 4,000 maimed and crippled and the city of Quezaltenango of 40,000 people destroyed by the earthquake of April 18 in Guatemala.

A man who was in Guatemala at the time of the disturbance, whose coffee plantation is only a few miles out from Quezaltenango, was a passenger on the City of Para. In speaking of the earthquake he said:

"It came about 8:15 in the evening. I was out on open ground and had great difficulty in keeping my feet.

"The greatest damage was at Quezaltenango, and the city was practically destroyed. All the buildings that were left standing are cracked and shaky. They will have to be pulled down. The loss is irreparable. My brother had just completed a business block at a cost of $300,000, and it is a total ruin.

"There were three distinct shocks, each more severe than the one preceding, but the damage was all done within a minute and a half. Among the wealthier class the loss of life was comparatively slight, probably less than 100, though many were bruised and injured.

"The surrounding towns of San Pedro, San Marco, San Juan, Aniatitlan and Solola were also destroyed, and the total dead in these places will number nearly 1,000."

A FARMERS' COMPANY.

Mammoth Wheat and Flour Combine For Kansas and Missouri.

KANSAS CITY, Mo., May 26.—Walter Vrooman of the western co-operative movement has closed contracts for the purchase of six of the largest wheat elevators in the Kansas wheat belt and two of the largest flouring mills. The price paid is said to have been $750,000, and Mr. Vrooman, who has left for New York to complete the financial end of the plan, says the present purchase is but the beginning of a movement to center the farmers of Kansas in a co-operative branch of the Vrooman Co-operative company.

The concern will be known as the Wheat and Flour Western Co-operative company. The farmers are to be taken into the scheme upon the payment of $100 each, for which they are to receive the market value of their wheat when sold to the company and in addition will receive one-half of the profit derived, the other half going to co-operative stores through which the wheat and flour will be handled.

"The plan," said Mr. Vrooman, "is to eliminate wheat speculators and the middlemen. The farmers are in earnest sympathy with the movement. It is the only way to head off the talked of flour trust that is forming in New York."

It is intended to ship to Great Britain to be sold among the co-operative members there the surplus product not disposed of in Kansas and Missouri.

Chili Rebellion Subdued.

PEKING, May 26.—The rebellion in Chili province has been practically subdued, but the inhabitants of the province are complaining loudly of the forces under Yuan Shai Kai, the governor of Chili, and allege that his soldiers in inflicting punishments do not distinguish between the guilty and the innocent. The failure of the efforts of a German firm to secure exclusive rights of selling opium throughout the Chinese empire, for which privilege the firm in question offered to pay the Chinese government $15,000,000 a year, appears to be assured on account of the opposition to the proposal of the better class of the ministers and the palace officials.

Shot by Burglars.

CHICAGO, May 26.—Daniel Hill, a wealthy real estate owner of Morris, Ill., and partner in the firm of the George H. Phillips company on the Chicago board of trade, was shot and seriously wounded early yesterday as he lay in bed at his residence, 797 Monroe street. Six shots were fired, three taking effect. The first shot awoke Mrs. Hill, and she rushed to the window and shouted for help. The police responded in a few minutes, but in the meantime the supposed burglars had made their escape.

Refugees Reach Trinidad.

PORT OF SPAIN, Trinidad, May 26.—Four hundred more refugees from Martinique have arrived here on the French steamer Versailles, and they are all in urgent need of relief. These refugees report that the majority of those who would suffer from loss of property in Martinique are either dead or have left the island. Robberies there continue, and owing to the excessive relief distributed the laborers of Fort de France are refusing to work.

The New British Legation Secretary.

BERLIN, May 26.—Herbert Guy Dering, who has just been appointed secretary of the British legation at Washington, is now in Berlin playing in the international tennis tournament. Mr. Dering was born here in 1867. He is a son of Sir Henry Nevill Dering, the present British minister to Brazil. The new appointee at Washington was in Peking during the siege of the legations and distinguished himself there.

Leavenworth Remains Transferred.

HOBART, N. Y., May 26.—The remains of Brigadier General Henry Leavenworth were disinterred at Woodlawn cemetery, Delhi, and shipped to Fort Leavenworth, Kan., where on Memorial day they will be reinterred in the National cemetery. General Leavenworth died July 21, 1834.

ST. VINCENT'S FRIGHT

Latest Eruption Caused Great Consternation.

THE FLIGHT FROM CHATEAU BELAIR.

The Village Nearly Depopulated at Second Outbreak of Volcano—No Hope of Reclaiming the Carib Country.

KINGSTOWN, St. Vincent, May 26.—Another eruption the worst of Sunday, May 18, caused a greater fall of ashes and stones and more consternation at Chateau Belair, St. Vincent, than resulted from the eruption of May 7. Shortly after the appearance of a cloud May 18 which was lighted from the mountain by flashes of lightning enveloped the village of Chateau Belair. The inhabitants of the hamlet rent the air with their shrieks and prayed against the banks of the road leading to Cumberland in their anxious efforts to flee from the threatened danger. Many persons had their limbs broken. The darkness lasted one hour, but the exodus from Chateau Belair lasted all night. Detonations and smoke and lava from the volcano continued the next day, May 19, and the people still continued their efforts to leave Chateau Belair for Kingstown and other towns. A heavy rainfall occurred at Chateau Belair the 19th, the first in the district for two months, and the streets, huts and shops of the village were flooded. As the volcano eruptions diminished after the 19th some thirty of the inhabitants returned to Chateau Belair, but are still apprehensive of increasedly severe eruptions.

Kingstown is longing for rain, and the heat and dryness here are unprecedented. There is no hope for the resuscitation of the Carib country for years to come. The canal that supplied water to that country for domestic or manufacturing purposes has dried up, and the district is desolate. The government is treating for the purchase of an estate upon which to settle the refugees, and carpenters are engaged in erecting huts on safe locations to relieve the congestion of Kingstown.

The cloud that issued from the crater Sunday night was visible to the inhabitants of the neighboring island of St. Lucia and inspired them with awe. Vivid flashes of lightning were seen on the morning of the 19th, and these were accompanied by slight volcanic rumblings.

The number of new craters in the disturbed district cannot be ascertained, as ascent of the mountain is impossible, but there are apparently four active craters there. Rumbling sounds are heard, and vapor is still issuing from different portions of the mountain, and the lava is still flowing. Mount Enham shows no distinct signs of activity.

The United States steamer Dixie has arrived here with 900,000 rations, together with clothing, medicine and supplies.

The interruption of the cable between here and the island of St. Lucia has caused delay in the transmission of messages.

Martinique Conditions Unchanged.

POINTE A PITRE, Guadeloupe, May 26.—The steamer Lifjeld, belonging to the Guadeloupe Steamboat company, has just arrived here from Martinique and reports the conditions on that island to be unchanged. The people at Fort de France were somewhat quieter when the Lifjeld left there.

Compromise In Famous Bond Case.

KANSAS CITY, May 26.—The famous St. Clair county bond case, for which several county judges have received jail sentences because of their refusal to order the payment of $200,000 of bonds issued in 1868 to build a railway across that county, is to be compromised. Representatives of the bondholders, who now have a claim against the county for $1,500,000, including principal and interest for thirty-four years, and the present judges are to meet at Osceola to consider a proposition from the bondholders which, it is stated, will prove acceptable to the county officials and taxpayers.

New Bishop Blessed by Pope Leo XIII.

SPRINGFIELD, Mass., May 26.—The Right Rev. Dr. Philip J. Garrigan, vice rector of the Catholic university of Washington, was solemnly raised to the episcopate and consecrated bishop of Sioux City, Ia., in St. Michael's cathedral yesterday. The ceremony began at 10:30 o'clock and lasted four hours. Just before the close of the services a cablegram was received from Pope Leo XIII. congratulating Bishop Garrigan and giving the papal blessing to him and his diocese.

Fast Railroading.

DETROIT, Mich., May 26.—Engineer William Tuck, with his hand on the throttle of engine No. 611 of the Wabash railroad, drawing four coaches, made a record breaking run from Montpelier, O., to this city, a distance of ninety-seven miles, in eighty-eight minutes. The train was a special, carrying a contingent of skat players and a number of Pythians from Indianapolis to Detroit.

Two Schooners Ashore.

VINEYARD HAVEN, Mass., May 26.—Two schooners, the Arthur Seitz and the Frank A. Palmer, bound up the coast with coal, missed the entrance to Vineyard sound in the thick weather during the night and went ashore five miles south of the west channel. Both will probably go to pieces.

SUCCESS OF EXHIBITS.

Tomorrow afternoon will see the concluding exhibit at the Plainfield public schools. They have lasted for two weeks and during that time, the people of Plainfield have been given an opportunity to see just what is being done at the city schools. While there have been exhibits before, no previous efforts have been anywhere near as comprehensive as this one. It has given an insight into the work and methods, particularly of the lower grades, that has heretofore not been enjoyed.

There always has been a knowledge more or less vague concerning the city schools. While it has long been understood that Plainfield was possessed of schools considerably above the average, there have been comparatively very few who have taken enough interest in them to investigate and see just what has and is being done. While there has been no secret as to the methods employed, there has been, on the other hand, little effort to show the general scheme of work in the different grades.

A cordial invitation, extended to the public at large as well as to the parents of the children, resulted in bringing many to this series of exhibits. While the work differed at the various schools, the general scheme was the same. Those who attended school years ago were astounded at the changes which have been made in the public schools. One could not help but see the great advantages which the children of this city now enjoy, especially when compared with those of a decade or two ago. These exhibits will serve to bring the people in closer touch with the schools and thereby bring about a better understanding of the needs and demands of the city school system.

Funeral of Mrs. Coyle.

The funeral services of Mrs. Sophia A. Coyle were held Saturday afternoon from the residence of her daughter, Mrs. Stephen Cahoone, on Watchung avenue. Rev. Dr. W. R. Richards, of the Crescent Avenue church, officiated. There were a number of beautiful floral tributes. The remains were taken this morning to Catskill, N. Y., for interment.

New Communion Service.

The new sanitary communion outfit, furnished by Woodhull & Martin for the First Baptist church, will be used for the first time Sunday. It is expected that other churches will adopt the same service in the near future.

Final Arrangements.

At the meeting of Winfield Scott Post, No. 73, G. A. R., tomorrow evening final arrangements will be made for Memorial Day and reports from the recent department encampment will be presented by delegates.

At Committee Meeting.

Chief Doane attended an executive committee meeting of the State Firemen's Relief Association, at Atlantic City, Saturday. Afterward he spent some time in rambling over the ruins of the recent large fire.

Made Trouble in Borough.

Robert Hart, a moulder in the Pond Tool Works, was arrested Saturday night in the borough for being drunk and disorderly. He comes up tonight before Recorder Doud.

Rev. J. A. Metz, of Somerville, who has been at the hospital under treatment for eye trouble, has gone home very much improved.

MANY GOLFERS OUT SATURDAY

(CONTINUED FROM PAGE 1.)

terest of the afternoon was the team match between Hillside and Hackensack, the first of the season on the local course. The Hillside team walked off with the honors easily, defeating the visitors by the overwhelming score of 35 to 11. There were only four of the local team who failed to make a point, but the rest more than made up for this as the following score will show:

Hillside.		Hackensack.	
W. L. Glenney,	0	Calder,	2
Morris Dumont,	0	Moffat,	4
A. R. Fisk,	4	Temple,	0

Robert Abbott,	7	Barcley,	0
	35		11

In the weekly competition for the Golf Committee cup first honors were a tie between Dudley Barrows and H. F. Baker, each making a net score of 80, while the second and third honors were divided between Dr. B. VanD. Hedges and E. T. Newkirk, each making a net score of 82. All of the scores were quite low as the following will show:

	G	H	N
Dudley H. Barrows	90	10	80
H. F. Baker	92	12	80
B. VanD. Hedges	88	6	82
E. T. Newkirk	102	20	82

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. Randolph.

DUNELLEN.

William Cary, a reformed locomotive engineer, delivered a temperance lecture in the Presbyterian church, last evening, under the auspices of the local W. C. T. U. An unusually large congregation was present. Mr. Cary had models of an engine and cars and used them in illustrating parts of his talk which was mainly against the evils of intemperance. The talk was very interesting and much appreciated. The collection which was taken went for the benefit of the W. C. T. U.

The Dunellen Juniors again proved victories over their old rivals from Clinton avenue defeating them in a fast game by a score of 4 to 2, Saturday morning on the home grounds. The battery for the locals was Giddes and Brakeley.

Rev. A. F. Todd preached at yesterday morning's services in the Presbyterian church in the absence of the pastor who is attending a conference in New York.

No service was held in the Methodist church last evening on account of the W. C. T. U. services in the Presbyterian church.

Regular services were held in St. John's R. C. church yesterday. Rev. Father Dumphy, of Millstone, preached.

William Cary, who lectured in the Presbyterian church, last evening, was entertained by Frank Wynkoop.

Captain and Mrs. Liable, the famous dwarfs, are spending some time with friends in town.

The next game for the Dunellen A. C. will be with the Clinton Avenue team on Decoration Day.

Miss Nellie Voorhees, of New Brunswick, spent yesterday with J. S. Vane and family.

Miss Mary Crown, of Bound Brook, spent yesterday with friends in town.

Mr. and Mrs. Thomas Bodine entertained out of town relatives yesterday.

Mrs. J. B. Nelson entertained relatives from Jersey City yesterday.

Work is going rapidly forward on the factory at West Dunellen.

Mrs. E. Cottrelle entertained out of town friends yesterday.

William Giles is still improving from his recent illness.

Bernard Siriski entertained out of town friends yesterday.

NEW MARKET.

The funeral of the late George Logan was held yesterday afternoon in the First Baptist church. Rev. Frank Fletcher was in charge of the services and interment was made in Hillside cemetery at South Plainfield. The local orders of Juniors was present in a body and had charge of the services.

Regular services were held in the Seventh-Day Baptist church Saturday morning with the pastor present.

Rev. Frank Fletcher assisted at services in the First Presbyterian church at Dunellen last evening.

PLAINS AND FANWOOD.

The funeral services of the late Mary Bornmann were held from the grief-stricken home Saturday afternoon at 2:30. Rev. G. M. Shott, assisted by Rev. Dr. J. H. Parks, had charge of the services. Mr. Shott chose for his text, Luke x:40: "Lord dost thou not care that my sister has left me to serve alone." The house was filled with the sorrowing friends who gathered to pay tribute to the one they had loved in life. The floral expressions of kind sympathy from loving relatives and friends nearly covered the casket. Interment was made in the family plot in the Baptist cemetery.

The juvenile team journeyed to Plainfield, Saturday morning, to cross bats again with "Man Eater" Mullin's team who defeated them a week ago. The home team lost after a well fought game, the score being 7 to 6 in favor of the Plainfield team.

"Paul or a Transforming Ambition" was the subject discussed by the members of the Baptist Young People's Union of the Baptist church at their meeting held in the church parlors, Sunday evening.

Township Committeeman Bruchman has been badly handicapped this spring in making the annual repairs to the roads by his being unable to procure crushed stone when wanted.

Mr. and Mrs. Charles Grant, of Plainfield, have been visiting at the home of Mrs. Grant's parents, Mr. and Mrs. Thomas M. Paff, Sr.

Miss Lottie Kennedy, of Front street, has returned from a pleasant visit with relatives and friends in New York.

Wm. Alexandria has been entertaining his brother who is one of Forepaugh's & Sell's acrobats and tumblers.

John Wade led an interesting weekly meeting of the Epworth League in the Methodist church Sunday evening.

Wm. B. Manning is entertaining Mr. and Mrs. Pierce, of Asbury Park.

Joel Manning has been entertaining out-of-town relatives.

Philip Kunz is planning to move to Elizabethport.

Funeral of Lewis F. Randolph.

Funeral services were held in the Fillmore Avenue Baptist church, Friday afternoon, over the remains of Lewis F. Randolph, of Park avenue. Three ministers, Revs. J. B. Mitchell, E. J. Crudup and J. Berg, of this city, took part. Interment was made in Hillside cemetery. Those who acted as pallbearers were George Randolph, William Randolph, James Scott and Raleigh Crouse.

New Choir.

The regular quartette choir sang at the Crescent Avenue church yesterday, and gave satisfaction. The quartette is as follows: Soprano, Miss Martha M. Henry; contralto, Miss Grace J. Carroll; tenor, C. E. Anderson; baritone, Arthur H. Chamberlain; organist and choirmaster, Herbert H. Joy.

Greatest Mandolinist.

Mr. Siegel, who appears in a concert at Y. M. C. A. Hall Wednesday evening, is America's greatest mandolinist. To fail to hear him one would be missing a rare musical treat. Mr. Siegel will be ably assisted by Hyman Meyer, pianist and musical monologist.

Remarkable Feat.

A large number of Plainfielders went to New Brunswick yesterday to witness the removal of the Pennsylvania railroad bridge over the Raritan river. The bridge, which is 900 feet long, and weighs over 2,000 tons, was removed fourteen feet in less than three minutes.

Injured in Fall.

Nicholas D. Myers, aged seven years, son of Patrolman Myers, of North avenue, fell down stairs at his home last evening and severely cut his head. Dr. Jenkins was called and was obliged to take four stitches to close the opening.

COLUMN FOR THE SHOPPERS

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

The butcher shop of Smalley Brothers, on North avenue, is a well stocked establishment. Everything in season including poultry and spring lamb.

The straw hat season has arrived. At J. R. Blair's, on Park avenue, there is a large display in all the latest styles; also a fine array of summer shirts.

Porch chairs are very handy and comfortable articles in warm weather. Powlison & Jones, the East Front street furniture dealers, have a fine line. Settees of all kinds also and many other summer furniture always on hand.

This is the weather that brings joy to the heart of the soda water man. Ben Fowler is one of them and he is also giving joy to huudreds of thirsty mortals who crowd about his fountain. Nothing but pure fruit juices used in all his drinks.

The New York Decorating and Painting Company, of Park avenue, has established a reputation for honest work as the increase in business shows. The best paints are handled and the first quality of wallpapers of the latest design.

Harry Werner has placed on sale 300 fine, men's spring suits which he purchased at a sacrifice. He has decided to give his patrons the benefit and has marked them at a ridiculously low price. It will pay to inspect and make selections early.

You are no doubt getting ready to spend the summer at the seashore or mountains and if so you will want a suitable hat. But whether you go away or stay at home, Bonn's West Front street millinery store, will be able to please you with a seasonable hat at moderate cost.

Wm. W. Wilson, the West Third street grocer, is closing out a fine line of California prunes and canned vegetables at special prices. His line of vegetables is large and complete—extra Maryland strawberries, pine apples, tomatoes, wax and green string beans, lettuce, etc.

SECOND COMMANDMENT.

Rev. Mr. MacMurray Declares That Many Churches Break It.

Continning his series of sermons on the Ten Commandements, Rev. John MacMurray, of the Monroe Avenue church, declared last evening, that the second commandment is openly violated by many of the existing denominations. The commandment says, "Thou shalt have no other Gods before me" and these churches substitute idols in the form of words. Prayers are repeated by the congregations without any thought as to their construction or meaning. Mr. MacMurray also declared "From Nature to God," John Fiske's book, teaches seeking after God through His material creations.

Endeavor Social.

The Christian Endeavor Society of the Crescent Avenue church will give a social this evening in the chapel at 8 o'clock. All members are cordially invited.

Honeyman Party Arrived.

A cablegram was received this morning that the Honeyman tourist party arrived on the other side of the Atlantic this morning, just one day late.

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. W. Randolph.

HOW IT IS TO WORK.

THOSE WHO HAVE SERVED FOR THIRTY YEARS WILL BE INCLUDED.

No One Over Thirty-Five Years of Age to be Employed, With Certain Exceptions—Similar to Systems on Other Roads.

A pension system of considerable magnitude is about to be put into operation by the Philadelphia and Reading Railroad. It is expected that it will ultimately be extended to the system of the Jersey Central which is now owned by the Reading.

The first official step in this direction was taken last week by the board of directors when it authorized President Baer and the executive committee to prepare and put into effect a pension system to supplement the Philadelphia and Reading Relief Association, and to provide for employes who cannot be reached by the Relief Association.

It is intended that a similar pension system shall be adopted by all of the transportation companies which the Reading Company owns or controls.

The employes who are to be affected by the inauguration of the system include all those engaged in any capacity in the operations of the company who have attained the age of seventy-five years. These are to be retired, and if they have been thirty years in the service are to be pensioned, provided, however, that this provision shall not be mandatory in its application to executive officers appointed by the Board of Directors.

All employes sixty-five to sixty-nine years of age, both inclusive, who have been thirty or more years in the service, and who have become incapacitated, may be retired and pensioned. The monthly allowance paid each person granted a pension shall be: For each year of service one per centum of the average regular monthly pay for ten years next preceding retirement. The acceptance of a pension allowance shall not debar any former employe from engaging in other business, but such person cannot re-enter the service of the companies.

The pension board shall have power, in case a faithful employe of the company shall have received injuries which totally incapacitate him for his regular or other vocation, to take his case under consideration and award him such sum, as a pension, for such length of time as the board shall determine.

No person is to be taken into the service of the company who is over 35 years of age. As to this age limit for employment, however, the following exceptions, if the board of directors approves, are to be made:

Former employes may be re-employed within a period of three years from the time of their leaving the service, or former employes of any other transportation company owned or controlled by the Reading Company may be employed within a period of three years from the time of their leaving the service of such company; persons may, irrespective of age limit, be employed where the service for which they are needed requires professional or other special qualifications; persons may be temporarily taken into the service, irrespective of age limit, for a period not exceeding six months, subject to extension when necessary to complete the work for which engaged, and persons in the active service of any transportation company owned or controlled by the Reading may, irrespective of age limit, be transferred to and employed in the service of any such company.

SIX SHARPSHOOTERS.

Excellent Showing Made at Opening of Company K's Long Rifle Ranges Saturday Afternoon.

Company K's new 500 and 600-yard range, on Maple avenue, was opened Saturday and, as as a result, the local military organization can now boast of six sharpshooters. In order to be a sharpshooter it is imperative to make at least 56 out of a possible 70, and Saturday's result is a source of much satisfaction to the company officials. Company K now stands thirteenth in the Adjutant-General's report and Captain Browning is making every effort to land first place.

Saturday's scores were as follows:

	500 yds	500 yds.	Tot.
Captain Browning	34	30	64
Sergeant Peterson	29	28	57
Sergeant Littell	29	29	58
Corporal Pearsall	29	31	60
Private Turner	30	26	56
Private Pope	30	30	60
Hon. mem. Stewart	25	27	52

TAKEN FOR BURGLARS.

Westfield Had a Little Excitement This Morning.

(Special to The Daily Press.)

Westfield, May 26—The sounding of an alarm clock at the residence of John Darsh at 1 o'clock this morning, together with the sight of three colored men running from the residence, caused much excitement. The policeman on that beat saw the men and heard the clock and he gave chase. He discharged his revolver several times and brought the men to halt. They said that they had been to a bakery for pies and were allowed to go home.

His First Mass.

Rev. Father Glennon, who was ordained to the priesthood, Saturday, conducted his first mass in St. Mary's church, yesterday morning at 10:30. Rev. Father Smyth, of Jersey City, acted as deacon.

Awaiting His Sober Mood.

A drunk, arrested shortly before 12 o'clock, is languishing in durance vile at police headquarters.

CRAZE FOR PING-PONG.

New Yorkers in a Fever Over the New Game, and Dealers Pressed for Outfits.

New York has gone ping-pong crazy. A good ping-pong set is hard to buy because the demand is far ahead of the supply, and one enterprizing New Yorker is trying to get up a corner on ping-pong balls, states the World.

In England there is a regular Table Tennis association, to promote the interests of the sport and to arrange for championship meets.

The staidest of New York's clubs are given over to ping-pong. It was sneered at at first. Now those who come to scoff remain to play. Ping-pong parties for valuable prizes are held in dozens of fashionable houses every night.

The Crescent Athletic club of Brooklyn claims the honor of having introduced ping-pong. It has some crack ping-pongers in its ranks. The Calumet club of Fifth avenue and Twenty-ninth street has surrendered its dignified atmosphere to the delights of ping-pong. It is said that the best players in New York got their skill there.

At the big Yale club an entire room is given over to six ping-pong tables. Attendants serve the tables just as they do in the billiard rooms, and a regular charge is made for playing.

The big theater at the Strollers' new clubhouse is filled with ping-pong tables, and the click of the little balls hopping back and forth is heard till late at night.

Some exciting matches have been played there.

"We don't know where to get ping-pong balls fast enough to fill our orders," said a sporting goods dealer.

KITCHENS RUN BY CITY.

Successful Operation of Institution for Feeding the Poor in Nantes, France.

The city of Nantes, France, has evolved an inexpensive method for supplying food to the destitute. For several years the city has maintained kitchens where persons without money may present tickets and procure a warm meal. A dormitory has been added to one of the buildings where about 50 people can be accommodated. For three nights these beds are free to the same persons, when they must make way for others. During the stay at the dormitory each one is given two meal tickets a day.

The kitchens themselves are only open from October 15 to April 15 each year round. Tickets entitling the holder to anything on the bill of fare are placed in the bakeries and tobacco shops throughout the city, where they can be purchased by charitably inclined persons to be handed to the applicants for aid. Meats, fish and eggs on the bill of fare cost two cents a plate. Beans, rice, etc., are one cent.

The expense of these kitchens has been growing less each year, says the Municipal Journal and Engineer. The total expense for last year was about $9,264, and the receipts $7,720. The privilege of taking meals at these kitchens is not restricted to the destitute, but many workmen take their meals there on account of the moderate prices. A moderate substantial meal can be obtained for five cents.

NO EIGHT-FOOT MEN.

A Doubting Thomas Who Would Not Believe in Their Existence Makes Inquiry.

To decide a wager a Frankfort man writes to the Philadelphia Record as follows: "Editor of Record Dear Sir I noticed in last sundays paper an account of a young man and woman out west he 8 foot tall and she 8 foot 2 inches and weighs 400 lbs. I was telling a neighbor and old man and one supposed to be well booked up in matters and things and he said it was a lie and a fraud then I told him I saw a young lady in Barnams Museum N. Y. some years ago that was 8 foot and he said that was a lie too then I told him I saw one in the dime museum in Phil 8 foot and he said that was a lie also. Then I told him I saw in the Record a few years ago of a young man from out west 25 years old 8 foot 2 inches and weighed 365 pounds named Lewis Wilkins who has now grown to the height of 107 inches ¾ of an inch less than 9 feet then he said he didnt believe a word of it then I asked him if he would bet money on it and he said yes any amount up to $100.

"Now which is right he or me. He said there has never been a man or woman born this last 100 years 8 foot."

Birds for Fashion's Sake.

Last year in Venezuela alone 2,000,000 birds were killed for fashion's sake. One London dealer admitted 12 years ago, long before the fashion was so pitiless as now, that he sold 2,000,000 small birds every 12 months. Three recent consignments to London included 10,000 birds of paradise, nearly 800 packages of osprey feathers, 6,700 crested pigeons, 5,500 Impeyan pheasants, 500 bird skins, 270 cases of peacock feathers, 1,500 Argus pheasants and 500 various other small birds.

New Style of Balloon.

A Parisian aeronaut is building a balloon which is to carry both a refrigerating and a heating apparatus. By pressing a lever of the refrigerator he will decrease the temperature of the gas, condensing it and causing the balloon to descend. By heating the hydrogen gas it expands and the balloon rises.

Cost of Ammunition.

The quarterly target practice of the North Atlantic squadron costs $178,000 for ammunition.

Batteries Under Water.

A remarkable instance of a battery of accumulators working under water was recently given in Munich. The station is situated on an island in the Isar, and during the flood the water covered the batteries. One of the batteries which ran the car lines was completely cut out, and it was thought that the other, which furnished light, would have to be treated in the same way. The fly-wheels of the engines were half in the water. Nevertheless, as it was almost indispensable to light at least the principal streets of the city, it was decided to try to operate the submerged battery. The attempt was successful, and the battery, which had been constructed to give 6,000 ampere-hours with a 60-ampere discharge, was able to furnish 4,000 ampere-hours during the night. The remainder was lost in discharges in the water.—Scientific American.

Foreign Flowers Bring New Insects.

As birds carry the seeds of plants from one part of a country to another, and even from one country to another, so flowers and plants from countries bring new insects to this. Concealed in the bud or blossom, they lie dormant during the long voyage, but when they reach land, where climate and surroundings are congenial to their growth and activity, they come forth to establish themselves in their new habitat. From Bermuda, for example, we have brought hundreds of insects concealed in the beautiful Easter lilies that we import by the shipload. From far-distant parts of the world we have brought strange insects in the cup-like blossoms of rare orchids, to secure which hunters have risked their lives. Some of these insects live and multiply; others soon die because their new surroundings are not favorable to their survival.—Nature.

A Glance at the Future.

Prof. Collins, Pennsylvania's scientific agriculturist, some time ago was recommending to a Berks county farmer a powerfully fertilizing manure in which he was interested. After some discussion the sagacious farmer declared that he had no faith in the manure, as the proposed quantity was too small to be of any use.

"My dear sir," said the professor, "such are the wonderful discoveries in science that I should not be surprised if in the near future we carry the manure for acres of land to the field in the pocket of our coat."

"That may be so," replied the farmer, "but in that case I'm inclined to think you would carry back the crop in the pocket of your vest."—N. Y. Times.

Heat from Stars and Planets.

Experiments have been made from time to time since 1869 to measure directly the heat radiating from stars. In 1888, with an apparatus that registered a heat radiation one-one hundred and fifty thousand times as small as that of the moon, Mr. Vernon Boys found no trace of radiant heat from Venus, Jupiter and Saturn, nor from the bright stars Vega and Arcturus. The subject has lately been taken up at the Yerkes observatory of Chicago with apparatus tenfold more sensitive than that of 1888. The relative intensities of Vega, Arcturus, Jupiter, Saturn were found to be as the numbers 0.51, 1.14, 2.38, 0.37.—N. Y. Sun.

Her View of It.

"With the aid of this little book," said the canvasser, as he produced a "Mother's Guide" for the inspection of his victim, "you will be able to bring up your children properly."

She took the book and weighed it thoughtfully in her hand. Then she caught it by the edge and brought it down on the palm of her hand, as if to see if it could be handled with ease and dexterity.

"Oh, I don't know," she said at last, "I can't see that it's any better for that purpose than a slipper."—Brooklyn Eagle.

Educating Porto Ricans.

Since the United States took Porto Rico under its wing 835 new schoolhouses have been opened on the island. The distinguishing characteristic of the Porto Rican population used to be illiteracy, but all that is to be changed. And it is doubtful if the Porto Ricans will benefit a bit more from the change than will Americans. —Troy Times.

Manila Has 154 Lawyers.

There are 154 lawyers in the city of Manila, as shown by the register in the supreme court. Of these 59 are other than Spanish and Filipino, being mostly Americans. Many of both classes hold salaried positions under the government in the legal work of the departments.—Washington Star.

Her Perpetual Cry.

Jimson—He married a saleslady, you know?

Jameson—Yes.

"Well, the very next day she began calling 'Ca-a-sh!' and he says she has kept it up ever since."—Somerville (Mass.) Journal.

Moro's Many Sultans.

According to Gov. Taft, sultans are as numerous in the islands of Moro as barons in Germany and justices of the peace in the United States. This certainly tends to still further reduce our respect for the title.—Cleveland Plain Dealer.

Hint to Physicians.

"I think I can pull you through," said the physician, sagely.

"Try to pull both legs uniformly, doctor," replied the patient. "I don't wish to go through life deformed."—Ohio State Journal.

WOULD YOU LIKE THIS?

How the Daughter of a Pork Emperor Disports Herself.

You would like to be rich, would you—the wife or daughter or sister of a railway emperor or a pork and bean king? You wish you had a rope of pearls and diamonds that went around your neck six times and then hung down to your knees over a silk and lace gown worth $5,000, and that you had some sort of a "pull" whereby you could go to Europe and attend the coronation of King Edward. You would be perfectly happy if you could afford all the gowns you want, so you could be "dressed up" continually. Well, would you, now? Would you enjoy being on dress parade every minute of your waking hours, with not a second to lop down and feel at ease?

Mrs. Millions is one of the richest women in America. Her palatial residence—that is what the newspapers

MRS. MILLIONS GOES AUTOMOBILING.

call it—is of the costliest build. Mrs. Millions is fond of automobiling. She goes out in her splendid horseless coach almost every fine morning about 11 o'clock. Here is what happens when Mrs. Millions goes automobiling. It is a regular outdoor circus repeated every morning:

The magnificent glittering velvet cushioned vehicle glides noiselessly to the curbstone opposite the Millions' front door at half past 10. The motorman and the footman are in plum colored livery, the token that they are the servants of the Millions. The footman descends to the sidewalk stiffly and solemnly. He looks like the undertaker at a funeral. It would not be good form for him to smile or appear to notice anything, and he has been properly broken to his business.

Quarter to 11. The bronze doors of the Millions palace are flung open. Two house lackeys in white livery descend the marble steps with a roll of rich carpet. They move like automatons; they swing their arms like automatons or the toy animals that wag their heads when you pull a wire. Moving like wooden dolls, the two lackeys in white spread the carpet down the front steps. An infinitesimal wrinkle in it would cost them their place. They take their stand one each side the entrance, like two mutes at a funeral or two plaster images.

Newsboys and dirty faced street urchins gather in a ring to see the show. They know what it is, but it has a fascination for them every day anew. The women who live opposite and at each side of the Millions mansion cluster behind their respective curtains invisible and peep out through opera glasses to see what Mrs. Millions has on. Occasionally a policeman stops to see that there is no disturbance in the crowd.

The common herd wait anxiously agape; the moment grows tense. The servants at the entrance, the servant on the sidewalk stand like tobacco signs and give no sign. A rustle in the great hall. Without the winking of his tobacco sign eye the servant upon the sidewalk swoops the laprobe from the carriage seat and holds it upon his tobacco sign arm. Mrs. Millions descends the steps, her long peacock train spread out behind her just so every time. Arrived at the middle step, she pauses and turns her head. This is the supreme moment. The women with the opera glasses behind the curtains almost forget to breathe in their anxiety to study the styles. Mrs. Millions stands upon the steps ten minutes or so giving orders to the two tobacco signs at the door and the other two in charge of the auto. She enters the carriage. The tobacco sign with the laprobe lays it with a flourish around her. He mounts the box beside the motorman, there is a stupendous pause of two minutes and then a motion. Mrs. Millions is off.

At 1 o'clock she returns. The play with the tobacco signs is repeated to a gaping audience free, except that a different strip of carpet from that used in the morning is spread upon the front steps.

Mrs. Millions finds on her return an invitation waiting her to visit her friend, Mrs. Diamond Shoes, at her country place thirty miles away. She accepts. Next day the Millions' special car rolls from the station bearing Mrs. Millions, her luggage and lackeys, lackeys, lackeys everywhere, in the midst of another gaping crowd of ragamuffins and common people. This is the American republic. KATE SHARP.

What the New Woman Is About

"If women had the ballot, they would all vote just the way their men told them to." Would they, then? Read the story of the recent school board election in Cleveland and find out whether they would. In Cleveland school suffrage for women has for once entirely knocked out party politics and resulted in the election to the board of education of Rev. Starr Cadwallader, who is at the head of a social settlement in the slummiest district of the city. He is an honest man, a brainy and eloquent man and a "striking personality." The striking personality no doubt helped elect him. It is a quality the ordinary political candidate is conspicuously lacking in. There has been dissatisfaction with the management of the Cleveland public schools for some time. An impression was on that they must be taken out of politics, so far as was possible to imperfect human nature. Mrs. May Hanna, ex-daughter-in-law of Senator Hanna, had her share in rousing the women before the election. An enthusiasm not previously observed prevailed among both Republican and Democratic women. The large registration of 15,000 female voters was recorded. A woman's Republican league was first formed, then a Democratic one. Both "hustled" for their candidates in the liveliest manner. Cadwallader was on the Democratic ticket. The Republican candidate was a man of high standing, but a strict party man, which Cadwallader was not. Cadwallader appealed to the women voters as the other man did not, although many of the ladies were the wives of prominent and influential Republicans. So many of the Republican ladies voted for Cadwallader, because they considered his election best for the public schools of the city, that he ran far ahead of his ticket and reached the goal triumphant. Women attended the political meetings during this exciting campaign as they never had done before and listened and learned.

Farmers' wives have not too much fun in their lives. Here is something that will make glad their souls: Near Waukegan, Ill., a farm woman had prepared a fine basket of eggs for market. Her husband, like too many husbands, took it for granted that what was hers was his and what was his was his own, grabbed the basket of eggs and was making off with them to sell them for himself and keep the money. The wife, resolved that he should not do it if she could prevent, forcibly seized and attacked him to keep him from taking her basket of eggs. The result was a fight that brought the matter into court. There the judge, evidently in favor of the new woman, decided that the wife was quite justified in her attack on the man and that the man had no right in law to take the eggs. The eggs upon a farm, said the judge, belong to the farm woman for her pin money. Hear ye, hear ye! The eggs produced upon a farm belong by law to the farm woman for her pin money!

Some women enjoy their sorrows more than they do their pleasures.

I have lately seen a newspaper picture of the last graduating class of the admirable Pennsylvania State Dairy school. There are forty-five likely young men in the class and not a woman, not one. How is this? Why is this? Dairywomen are apt to be neater and more skillful in their methods than dairymen.

One of the eminent naturalists of the United States is a woman, a Norwegian at that. She is Miss Thora Steineger, who has studied animals all her life. She now has charge of the classifying of all the animals received at the Smithsonian institution, Washington.

By special charter thirteen New York state cities whose population is under 50,000 give women taxpayers the right to vote on questions of municipal taxation, but they may not vote on questions of taxation in any of the large cities. Isn't it about time for the big cities to get in line?

New York city has at length a woman ambulance surgeon, Dr. Emily Dunning. She is attached to Gouverneur hospital and received her appointment because in a competitive examination for the place she stood highest among twenty applicants, mostly men. She is a graduate in letters of Cornell university as well as a physician. She says of her new post, "I expect to do ambulance or any other kind of work."

CHAPTER X.

PIECING THE EVIDENCE.

Sturgis was still busy with his diagram. He spoke without looking up from his work.

"Who besides yourself has a key to the drawer in which this revolver is kept?"

"The cashier has one and the head bookkeeper has another."

"You mean the bookkeeper who sits at the desk at the extreme right in the bookkeepers' department?"

"Yes," replied Dunlap, "that is Mr. Arbogast's desk. Do you know him?"

"No. What did you say the gentleman's name is?" The reporter looked up and prepared to make a note of it.

"John W. Arbogast."

"A man something over 50 years of age, quite bald, with a fringe of gray hair; wears a heavy mustache and side whiskers; and had on yesterday afternoon, when you last saw him, a pepper-and-salt business suit," said Sturgis, writing down the name in his notebook.

Dunlap stared at the reporter in amazement. Sturgis smiled slightly.

"I met the gentleman yesterday afternoon," he explained.

"Oh, that accounts for it!" exclaimed the banker. "I see—but—but, then, how comes it that you did not know his name?"

"He did not tell me his name," said Sturgis, gravely, "and I did not know until just now that he was employed in the Knickerbocker bank. How long has he been with you?"

"Nearly 20 years; but only for the last five years as head bookkeeper."

"I suppose you have every confidence in his honesty?" asked the reporter, looking critically at the diagram before him.

"Of course. Such a position is not given to a man unless his record is excellent."

"And yet," observed the reporter, reflectively, "opportunity sometimes makes the thief."

"True; but the duty of a bank president is to reduce such opportunities to a minimum," said Dunlap, somewhat pompously.

"Quite so," assented Sturgis, "and this you accomplish by—"

"By having the books examined periodically," answered the banker, rubbing his hands together with calm satisfaction.

"I see," said the reporter, who had now finished his sketch. "Do the employes of the bank know when an examination of this kind is to be made?"

"They do not even know that such examinations are made. No one but the accountant and myself are in the secret; for the overhauling of the books is done entirely at night, after the bank is closed."

"Have the books been recently examined?" asked Sturgis, carelessly.

"Yes; only last week."

"Well?"

"They were found to be all right, as usual."

"May I ask by whom?"

"By Murray & Scott, the expert accountants."

"Was the examination conducted by Mr. Murray or by Mr. Scott?"

"By neither. For many years the work was done by one or the other of the members of the firm; but since their business has grown to its present proportions Messrs. Murray and Scott are no longer able to give personal attention to their customers. For the last two years they have sent us a trusted employe, Mr. Chatham—Thomas Chatham."

"Yes," said Sturgis, who was apparently wool-gathering.

A silence of several minutes followed, during which the reporter thoughtfully inspected his collection of microscopic odds and ends, while Dunlap beat the devil's tattoo upon the desk.

Presently the reporter spoke again:

"Do you know a young man, about five feet eight inches tall, with fiery red hair, who affects somewhat loud clothes?"

"Why, that is Thomas Chatham. You know him, then?"

"I? No; I never heard of him before."

"Then, how on earth do you know—?"

"He has been here recently."

"Yes; I told you he had been here last week; but—"

"No; I mean he was here yesterday afternoon," interrupted the reporter.

"Not to my knowledge," said Dunlap, incredulously.

"I thought as much," Sturgis replied, quietly; "but he was here, for all that."

The banker looked perplexed.

"Now, another thing," continued Sturgis. "I notice in the bookkeepers' department an announcement to the effect that on January 2—that is to say, to-morrow—a new system of bookkeeping will be adopted. Would this be such as to bring to light any irregularities that might exist in the books?"

"Yes; it involves the transfer of each bookkeeper every month to a different set of books. But I fail to see the drift of your questions."

"You will see it presently. Have you examined the safes this morning?"

"Yes; one of the first things I did, after you allowed me to move at all, was to examine the cash safe."

"Ah, yes; the cash safe. And you found its contents intact?"

"Perfectly," said the banker, triumphantly.

"But there is also a safe in the bookkeepers' department."

"It contains nothing but the books, which of course would have no value to anyone but ourselves."

"You have not examined this safe?"

"Why, no; I—"

"If you have no objection, I should like to see the interior of that safe. I suppose, of course, you know the combination of that as well as that of the cash safe?"

"Oh, yes; the combinations are changed every Saturday, and of course I am always informed of the new combination."

"Then may I examine the bookkeepers' safe?"

"I see no objection to your doing so, if you like."

Dunlap seemed surprised at the reporter's request; but he rose and proceeded to the bookkeepers' department. Sturgis followed an instant later.

When the reporter came within sight of the safe, Dunlap was closely inspecting the lock. Presently he uttered an exclamation of surprise.

"What is it?" asked Sturgis.

"I don't understand it," said Dunlap. "I cannot open the safe. The lock seems all right; but—"

"Perhaps the combination has been changed."

"Apparently it has," admitted the banker; "but how came it to be changed on a week day, and without my knowledge?"

"That is rather significant, isn't it?" suggested the reporter.

"Significant? What do you mean?" exclaimed Dunlap, excitedly.

Proposals For Coal.

Pursuant to a resolution adopted by the Board of Education of the City of Plainfield, N. J., at a meeting held May 5th, 1902, notice is hereby given that the Board of Education will meet on Monday evening, June 2nd, 1902, at eight o'clock, at their rooms in the Stillman School, corner of West Fifth street and Arlington avenue, in the City of Plainfield, at which time and place said Board of Education will receive sealed proposals for furnishing five hundred (500) tons, more or less, of coal best suited for steam and hot air heating, in Pea, No. 1 Chestnut, Stove, and Egg sizes, all coal to be thoroughly screened, trimmed, and placed in the bins within the public school buildings, without any extra expense to the Board for such handling, and to be delivered during the month of July next, or at such time as the Board may direct. Bids to specify the quality of coal to be furnished, and whether short or long tons. Payment for all coal contracted for to be made after September 1st next.

All proposals to be endorsed "Proposals for Coal." The Board reserves the right to reject any or all bids.

Upon receipt of the bids or proposals the Board will immediately proceed to unseal the same and publicly announce the contents in the presence of the parties bidding, or their agents, provided such parties or agents choose to be then and there present, and also to make proper record of the prices and terms upon the minutes of the Board. By order of the Board of Education

Heredity.

To account for the transmissibility of ancestral types Darwin in his work on "Pangenesis" promulgated a theory that each cell threw off what are designated "gemmules," which formed the nuclei of another series of cells whose sole destiny in the economy of nature was the propagation of its species. These "gemmules" formed the blastema, in which was contained an exceedingly microscopical impression of the animal which might ultimately be called into being. If this were the case, we should be able to submit the miniature image to our investigation by means of the microscope. But strong microscopes are wanted. The red corbuscles of human blood have been measured and the diameter is found to be about one-four-thousandth part of an inch. The number of these red corpuscles which would adhere to the point of a needle would not be less than 1,000,000. Theory teaches that the final division of matter is the atom and the atom has been measured. It is calculated that in a cube of water one-thirty-thousandth part of an inch wide there are 30,000,000,000 atoms.—London Science Gossip.

When You Are in Rome.

Everybody who comes to Rome must expect to be swindled and disappointed. There are many illusions, and you will be greatly disappointed when you approach them and they fade away. You will be swindled by shopkeepers, hackmen, peddlers, and everybody that you have anything to do with, and the beggars will annoy you with their persistence like the fakirs and flower girls that follow you upon the street, but all this is part of the experience of everybody who comes here; only such annoyances are greater in Rome than in most other places. Begging is a profession, as in every other Italian city, and the profits are much larger, because there are more strangers to appeal to. None but inexperienced beggars ever approach a native Roman, because they know it is useless, but they save all their energy and pathos for strangers, particularly Americans and English, whom they follow with the greatest persistance.—William E. Curtis, in Chicago Record-Herald.

Drive Disease Into Trees.

A very curious superstition appears to be gaining ground in Berlin and claiming a large number of supporters. Three "doctors" have established a reputation for eradicating disease from men and beasts and driving it into trees. The cures are effected at night on Tuesdays and Fridays of the week of full moon. A needle is stuck into the skin over the affected part of the body and remains there until a few drops of blood appear. The blood is collected in a sheet of paper, and the paper is rolled in the shape of a pill. The "doctor" then goes in a wood alone, carrying the pill, selects a tree, and inoculates the bark with the pill. The process of blood letting is repeated three times.—Health.

White Mice for Submarines.

Gasoline is, it appears, the fuel most suitable for submarines; but human sensations give no more warning when its collected fumes are becoming dangerous. White mice, however, are said to be extremely sensitive to this poison, and perish incontinently before human beings begin to suffer the slightest ill effects. So in all submarines of the future cages full of white mice are to be kept on the floor, whence the heavy emanations gradually rise, and it will always be some one's duty to go around and see how the mice are getting on.—Country Life.

When Snow Is Smoke.

When Prof. James Dewar inserted a small jet of flaming hydrogen into a vessel of liquid ogygen, the hydrogen continued to burn, giving off snow instead of smoke. The snow was formed by the instantaneous freezing of the water created by the combination of the burning hydrogen with the oxygen enclosing it. When he cooled liquid air until it became semi-solid he found he could draw the oxygen out of the mass with a magnet, leaving a jelly of pure nitrogen.—Science.

The Western Peril.

America, at an epoch not far distant, will constitute the common danger which will unite the members of the European family. The attempt to monopolize the traffic between America and Europe is an initial step. When the Americans are masters of the ocean they will soon be seized with the desire to force their productions upon us.—Paris Matin.

INTELLIGENCE OF ANIMALS.

A Few Peculiarities That Have Been Noticed in Elephants, Cats and Birds.

Elephants are among the most severely drilled of animals; their intelligence does not have free play in consequence. But all English trainers agree that there is a great difference in capacity between them, and that some will learn and remember a lesson far more quickly than others. Cats have very "level" brains and are too self-centered and self-contained, as a rule, to show the distinctions which exist between them. Their strongest instinct is toward a kind of domestic comfort not exactly shared with human beings, but enjoyed in their company, to which the cat perfectly adapts itself, says the London Spectator. Yet there are misanthropic cats which make no secret of their dislike and contempt for mankind in general, only come into the house under protest and would prefer to sleep in a coal cellar to taking their nap in good society. These are the exceptions in the cat world, but every one has met with them. Birds are usually regarded as possessing brains in "classes," not as individuals, the origin of the belief being probably the fact that birds of one species usually build exactly the same kind of nest. The generalization is not correct. The same species may have brains of all capacities.

THE PORT OF LONDON.

Wharves Are Redolent of Merchandise That Comes from the Orient and the Tropics.

From Australia come hides, the pelts of sheep, and bales of wool; there are iron-bound cotton bales from America, sacks of almonds from Spain, and of nigger-toes from Brazil; there are pipes of wine from Madeira and Oporto. The wharves that line the docks are redolent of the tropics and of the orient, says Scribner's. Here is a shed covering acres, in the lofty twilight of which are piled huge roughly squared logs of mahogany from the West Indies, and logs of teakwood from the East Indies, to be used in the building of iron clads. In the spacious dusk of the warehouse beyond gunny sacks rise symmetrically to the very rafters, wafting a faint, rich perfume, while in the cellars beneath, brown sugar from New Orleans lies in hogsheads, oozing treacle that gathers in black pools on the sticky floor. There are mats of dates, figs, and prunellas, hogsheads of prunes, bales of cinnamon, cloves and allspice. The sky overhead is sodden and gray, perhaps, and a film of mist swimps upon the water, but under the spell of this riot of incense the loitering red-sailed barges are like Venetian galleys.

INK AS A SOUVENIR.

Queer Performance of Canadian School-Teacher in Remembrance of Royalty.

This story comes from Canada. It is told of Canadian schoolgirls after the visit of the duke and duchess of York. It is probable that some one this side of the border could match it with a tale anent Prince Henry's flying trip, says the Chicago Post. In the scramble for souvenirs of the royal visit some things happened which ought not to be repeated on a future occasion. At Niagara, after the departure of the duke and duchess, there was a hunt for pins, which might or might not have had the honor of being worn by royalty. In Toronto some overenthusiastic young persons filled their pockets with pebbles from a gravel road over which the royal pair had driven. But the less to be admired was the action of a school-teacher whose classroom was visited by the duchess. Her royal highness graciously wrote her name in the school register. After her departure the teacher passed around the ink bottle in order that each pupil might dip a finger in the ink into which a princess had dipped a pen.

Tree That Turns to Stone.

There is a tree that grows in Mexico called the "chijol," or stone tree. It is of enormous proportions, both in circumference and height. It has a number of branches spreading out widely and carrying leaves of a yellowish-green color. The wood is extremely fine and easily worked in a green state. It is not given to either warping or splitting. The most remarkable thing about it is that after being cut the wood gets gradually harder, and in the course of a few years it is absolutely petrified, whether left in the open air or buried in the ground. From this timber houses can be built that would in a few years become completely fireproof, and would last as though built of stone.

Beating the Bookmakers.

A clandestine betting agent of Paris, prosecuted for gambling, tells a singular story of how his customers swindled him. One of them received the result of the races by pigeon post and then rushed to an organ grinder stationed under the windows of a betting agency. Each horse in the race was represented by a tune and the winner was thus easily indicated, while an accomplice in the agency backed it before the bookmaker received his telegram giving the result of the race.

Partisanship in Berlin.

An ingenious method of obtaining a reputation for patriotism has been invented by certain Berlin publicans. On their shop fronts they hang legends to this effect: "So long as the war in South Africa lasts I forbid an Englishman to enter my premises."

Y.M.C.A.'S FIRST DEFEAT.

The Y. M. C. A. team suffered its first reverse of the season at the hands of the Scotch Plains nine Saturday afternoon at Scotch Plains, by a score of 9 to 7. It was a close well contested game, both sides having put up excellent ball.

Only in two innings did either team succeed in making runs, Scotch Plains having secured four in the fourth and five in the fifth, while the Y. M. C. A. made five in the fifth and two in the eighth. Shut outs were the order in the rest of the game.

For the Y. M. C. A. Ralph Schoonmaker played brilliant ball at short stop. He made six valuable assists, and at the bat touched up Harvey, the Plains twirler, for three base hits. The pitchers on both sides were batted quite freely.

Burt and Dupee did the pitching for Y. M. C. A., with Eames and Moore behind the bat. Harvey and Ashcroft were the Scotch Plains battery.

The Y. M. C. A.'s feel confident that they can defeat Scotch Plains at their next encounter. They lost their balance somewhat in the fourth and fifth innings Saturday, allowing their opponents to obtain a big lead.

HOPE'S WON THIS TIME.

An overwhelming defeat was administered the Plainfield High School team by the Hope nine, on the latter's grounds, Saturday afternoon. It was in marked contrast to the game played five weeks previous when the school team won out after a hot game by a score of 7 to 4. Saturday's game was a one sided contest from start to finish and but for an error on Mague's part in the ninth inning, the Hopes would have shut their opponents out altogether. The score was 12 to 1, the goose egg line on the P. H. S. side being broken in the ninth when Mague, who was filling the catcher's position for Hartfelder, let a swift ball pass him, bringing Denton in from third.

It was up to the Hopes to retrieve themselves for the results of the first game and they did it in proper fashion. Every man played in League style and but two errors were made by them in the nine innings. The other was checked against Hewitt who failed to stop a red hot grounder. Brilliant plays were numerous especially in the outfield where Roseberry, George Cose and "Teddy" Overton, did some great work. Feiring did very well on first stopping a hot liner that called for applause, and Mague performed some good stunts behind the bat. It was his first attempt at this position and his work was a surprise.

Munro on third for the High School covered the base in great shape and proved a hard problem for the Hope base runners. Denton and Dyer did some good stick work but the former was a little off color in the field. Van Auken pitched in his usual good style, striking out nine men and letting but three walk. The Hopes were able to touch up his delivery better than in the first game.

DUNELLEN'S DEFEAT.

The Dunellen A. C. was defeated by a score of 8 to 5 in its game with the Safe Works team, on the latter's grounds, Saturday afternoon. It was one of the best of the day's games and was witnessed by a very large crowd.

Booth was in the box for the Safe Works and pitched a superb game. He proved to be one of the hardest propositions the Dunellenites have been up against this season. He was touched for only four hits, and struck out twelve men. The batting of Jackson, who made three hits, was another feature on the Safe Work's side of the game.

Ethinger allowed nine hits and puzzled five of the Safe men enough to make them fan. The visitors' playing was good in general, the basemen being most noticeable.

Feminine Gambling.

The ladies of the town of Arensburg, Germany, are passionate card players. Since they are not allowed to play at the local clubs, they make up games at their friends' houses and gamble all day through. As soon as the cash funds run short they take to various articles, mostly toilet belongings. Thus one lost to another her corset, one lost a bonnet, a third some lace and perfumes, and they go even so far as losing their prayer books.—Arensburg Tageblatt.

Enough Said.

A Billville exchange gives us this interesting and suggestive news item: "Wilkins' daughter, Sue-Ellen, says: 'Bill writ me a letter an' said he wuz gwine ter kill me kaze I wouldn't have him; but I met him in the road an' hit him over the head with a fence rail, an' the last I hearn tell of him he wuz slowly comin' back to his senses.'"—Atlanta Constitution.

SPORTING NEWS.

ON THE DIAMOND.

The Mountain Lions defeated the Olympias at baseball, Saturday, by a score of 16 to 13.

The Orange Field Club defeated the High School Scrubs Saturday afternoon by a score of 17 to 11 on Hope Common. The Orange Field Club put up a good exhibition of ball. The features of the game were Martin's hitting, Fenno's and Brokaw's running catches. Whitely, for the Orange Field Club, pitched a great game striking out thirteen men. The following is the score by innings:

H. S. S.	1 0 4 0 2 0 4—11
O. F. C.	1 3 2 2 4 5 x—17

LOCAL CLERKS WERE GIVEN ENTERTAINMENT

Retail Clerks' Mutual Benefit Association Gave an Open Reception Last Evening.

PLEASING PROGRAMME.

THOSE WHO ASSISTED IN ENTERTAINING THE EVENING'S GUESTS.

Programme Was Followed by a Social Hour, When Refreshments Were Served—Short Talks on the Work of the Association.

An open reception and entertainment was given last evening by the members of the Retail Clerks' Mutual Benefit Association in the rooms on East Front street, at which time a cordial greeting was extended to all clerks in the city, whether members of the association or not. A. C. Hoagland, as president of the association, was in charge while H. P. Greenwood, as chairman of the entertainment committee, announced the various numbers on the programme.

There was an opening address by J. V. E. Vanderhoef, who welcomed the members and friends and spoke a good word for the association and its benefits. Then followed an overture, violin and piano, Miss Justina Smith and Anthony Gaub, after which there were comic songs by Joseph Randall, accompanied by Mrs. Randall. Several phonographic selections by Mr. Randall preceded a pleasing bass solo by W. D. Williams, accompanied by Miss Justina Smith.

After a violin solo by Anthony Gaub, accompanied by Miss Smith, there was an address by John Becker, who made a few remarks about the benefits to the members through the association. He urged all to stand firm by the principles and objects and thus make it possible for the clerks to enjoy their evenings. Mr. Randall then favored those present with other comic songs and phonographic selections. The concluding number was a vocal solo by Miss Smith, with violin obligato by Anthony Gaub. The entire programme was enjoyed thoroughly, and Mr. Greenwood took occasion to thank all the participants for their kindness in providing a pleasant evening.

The rest of the evening was spent in social manner and ice cream and cake were served by a committee from the association. The affair had a tendency to awaken a deeper interest among the members and will result in securing many for membership.

Just before the affair terminated Whitney Frazee appeared and he favored the audience with several cornet solos, with piano accompaniment. After the meeting five applications for membership were received by the association.

CHANCE TO TALK.

"Conversation" Social Given by the Crescent Avenue Endeavorers.

A "conversation" social furnished several hours divertisement for the members of the Crescent Avenue church Christian Endeavor Society, last evening. It was well attended and all enjoyed themselves thoroughly.

Small cards, on which were printed topics, were distributed and the holders were requested to speak on the bottom subject. This was then torn off and the cards exchanged. The lowest topic was always spoken upon. It caused much interest and many of the talks were very entertaining. At the close refreshments were served.

The committee in charge consisted of Miss Evalina DuB. Benton and Miss Yerkes.

TONIGHT'S CONCERT.

Given by Men's Choral Club for Benefit of Young Women's Club.

The Young Women's Club hopes to reap substantial help from the benefit tendered it by the concert of the Men's Choral Club at the Casino tonight. It will be a notable affair in every respect. The Choral Club has put forth its best efforts and in the selection of Hobart Smock, the great tenor soloist, and the Misses Helen and Mabel Reynolds, violinist and 'cellist, to assist, has displayed good judgment, for they are artists of highest rank in the musical world. A splendid programme has been prepared, which is sure to please all classes of music lovers.

—The Plainfield Building and Loan Association held a regular monthly meeting in the office of Liefke & Laing, Park avenue, last night.

TO INCREASE MEMBERSHIP.

Grand Master Workman Nash Has Plan Which Will Work Well.

With the idea of introducing novel features into the work of the Ancient Order of United Workmen in this State, Grand Master Workman V. W. Nash has originated a plan whereby every member of the order will receive a handsome watch-charm bearing the insignia of the order as a reward for securing one new member. Details regarding the contest will be announced a little later. This scheme together with the classified assessment plan is calculated to swell the membership of the order materially.

TOOK TWO SHIRTS AND CASH

HOP LEE WAS ROBBED BY A STRANGER SATURDAY NIGHT.

Came in to Get His Laundry—Offered $5 Bill in Payment—Helped Himself and Took Money Too.

A customer entered the laundry establishment conducted by Hop Lee at 247 West Front street about 12 o'clock Saturday night, presented a check, duly demanded his weekly bundle, and offered a $5 bill payment thereof. This Chinaman had no change and this customer had no patience. When Hop asked his visitor to go out and get the five divided, said visitor swore a royal and alcoholic oath, loudly asserted that he wouldn't pay a bloomin' red cent, picked up his parcel in a huff, appropriated another belonging to a fellow mortal, and started off, $5 bill and all.

It was then that shrill shrieks disturbed the drowsy ear of night and lingering wayfarers halted on their roaming road, with visions of another boxer riot dancing before their eyes. Hop, hoppin' mad, had hopped over that counter in the tenth of a jiffy.

"Murder!" "Police!" "Robbery!" "Help!"—The celestial literally and metaphorically tore his shirt—but he could not regain the stolen shirts beneath the robber's arm. Emitting curses, not loud, but deep, he sallied for a cop, brought him to the shop—the shop owned by Hop.

The policeman shrugged his shoulders, it must be an insult in China, for the arm of the law soon saw his number written down in bold Mongolian hieroglyphics. Hop couldn't tell whether the thief was black or white, whether he wore a goatee or a moustache, whether clad in dungaree, or decked out "flash," but now he proclaims—and who will blame him—"that for ways that are dark and tricks that are vain, the 'Melican man is peculiar, which the same he is free to maintain."

G. O. P. OUTING.

Outing Committee Organized and Elected Officers Last Night—Date Will Probably be August 9.

The outing committee from the Union county Republican executive committee met in this city last evening and organized by electing J. Smyle Tucker, of Elizabeth, chairman; S. Rusling Ryno, of Rahway, secretary; and F. H. Smith, of Plainfield, as a committee of one to secure grove and attending to the printing. James White, of Elizabeth, was a committee of one on music.

The date for the clambake will probably be Saturday, August 9, if suitable quarters can be secured for that time. The committee has its eye on several suitable places, and a selection will be made within a short time.

SUCCESSFUL SALE.

Given by Girls' Friendly Society of Grace P. E. Church.

Under the auspices of the Girls' Friendly Society a very successful sale was held in the guild room of Grace P. E. church last evening. The sale was confined principally to useful articles, and the affair was gotten up under the management of the associates of the society, Miss Adams, Miss Bennett, Miss Little, Miss Egan.

During the evening Miss Helen Boch had charge of the apron and towel table, Miss Mena Boch presided at the candy table and Miss Maggie Davis looked after the notions.

The different tables as well as the guild room in general were decorated with ferns and wild flowers.

Swedish Church Social.

A concert and ice cream social will be given in the Congregational church, Thursday evening, under the auspices of the Swedish Pilgrim church. Two professional vocalists from Philadelphia and local talent will furnish entertainment. The proceeds are to be devoted to the building fund of the Swedish church.

PLAINFIELD'S FIRST HOUSE OF WORSHIP AND ITS OLDEST MEMBERS

PLAINFIELD QUAKER MEETING-HOUSE, BUILT IN 1787.

MRS. MARY L. FORCE.

MRS. SARAH CLIFTON.

The Newark News recently published a picture of the old Quaker meeting house in this city, together with photo-engravures of Mrs. Mary L. Force and Mrs. Sarah Cliffton, two of the oldest members of the Friends in Plainfield. As far back as 1746, when Plainfield was still in the lists of things to be, there was a Friends' meeting house in this vicinity. It was located in the fields and somehow they named the place Plain Field, a title which clung to the village which sprung up in later years. The building stood on the Metuchen road, south of the Plainfield of today.

Friends came there to worship from all directions and soon the rough looking structure was too small to accommodate the people. A more suitable edifice was planned and the old Rahway road, at present Watchung avenue, at the point where it is now intersected by East Third street was chosen as the site. In meeting the following committee were selected: Hugh Webster, William Shotwell, Edward Moore, Mortimer Marsh, David Vail, Edward Randolph, Benjamin Vail, Elijah Pound, John Laing, E. James Haydock, William Marsh, Joseph Shotwell, and Richard Dell. Work was begun in 1787, and in August of the following year was completed the building that still stands there today—a quaint relic of the century that witnessed the revolution and a silent reminder of the sturdy men of the colonial era.

The heavy timbers, which are visible from the interior, are fastened together by strong wooden pegs. In the rear, facing the small front doors, are two rows of benches, one elevated above the other, and on these sat the ministers and elders. Carved in the wood of these benches are the initials of many who attended the meeting in past days. The galleries surrounding the interior still remain, and likewise the peculiar wooden latches on the doors. In the centre of the room is the old stove and about it are placed more benches.

There was no other place of worship here then; in fact, there was only one general store, and it also was the post-office. People journeyed overland to Elizabethport, and there took the vessel for New York. Beyond the meeting house to the east, is the graveyard, studded with simple headstones.

The meeting flourished and in its palmy days had more than two hundred members. Surviving still are some who were regular attendants in the early part of the nineteenth century. Among these is Sarah Clitffon, whose maiden name was Sarah Vail. She is now ninety-one years of age, and has possession of all her faculties. Every Sunday she attends meeting dressed in the plain garb of the society.

The next eldest member is Mrs. Mary L. Force, eighty-seven years of age. Phoebe Vail and Catherine Webster, each seventy-eight years of age, and Sydney Vail and Mary Laing, each eighty-one years old, are others who never neglect to attend meeting. Adelbert Vail, now past seventy, is the oldest male member.

Altogether there are seventy members and every Sunday morning they gather at the quaint little edifice. Until thirty odd years ago there was a regular minister in charge, but that position is now filled by Wm. Williams.

The Friends here are attached to the New York Yearly Meeting, and annually many of their number journey to that city to hear the general condition of the society.

The photographs reproduced with this article are published by courtesy of the Newark News.

TRAIN MEN OFF.

The Port Reading Has Practically Stopped Business on Account of Coal Miners' Strike.

(Special to The Daily Press.)

Bound Brook, May 27—As the result of the coal miners' strike in Pennsylvania, most of the employes of the Port Reading Railroad at Bound Brook Junction, have been discharged or laid off temporarily, and the traffic on the road has been practically suspended.

The Port Reading is a single-track road, thirty miles long, running from Bound Brook Junction to Port Reading, near Sewaren, and is used exclusively to carry the coal of the Philadelphia and Reading Railway from its main line to New York at a point two miles west of Bound Brook to the seaboard. The crossings of the Port Reading at Bound Brook and other places are now left unguarded, and the flagmen have been discharged.

The pump engineers and telegraph operators at Bound Brook Junction have also been laid off, and Train Dispatcher Kemper, at the Port Reading docks, has been relieved of duty.

More for State Camp.

Five applications Friday and one Saturday were forwarded to the State Y. M. C. A. secretary for accommodations at Camp Wawayanda. Efforts will be made to accommodate all others who intend going to the camp, if they send in their application within the next few days.

Sang at First Baptist.

Miss Bessie Giles, of East Sixth sang with the First Baptist church choir Sunday. Her work was very acceptable.

NO HAPPY HOME.

Edward Dooley and Wife Wanted City Judge Runyon to Sever Matrimonial Bonds.

Edward Dooley, of East Fourth street, was a prisoner in the city court, this morning, charged by his wife with drunkenness and disorderly conduct at their home, last evening.

Mrs. Dooley recited a long list of domestic woes due to her husband's love of drink and said she wished to be separated. Dooley protested he was a good fellow while he had money but when his pocket was empty he was turned out of doors. He also requested the court to free him from his matrimonial bonds but as this is beyond City Judge Runyon's jurisdiction, he advised both to take it upon themselves to live apart. Both readily acquiesced, and sentence in the husband's case was suspended.

Came East With Athletes.

Walter Christie has returned to his home in California after a visit to friends in Plainfield. Mr. Christie came east with a contingent of athletes from the University of California who will take part in the intercollegiate contests in New York next Saturday.

Republican Convention.

(Special to The Daily Press.)

Phillipsburg, May 27—The Republican Congressional convention (new Fifth district) will be called for June 19 at Belvidere. There will probably be no nomination for the short term in the "Old Fourth."

Let Him Go.

Robert Hart, arrested for causing a disturbance in the borough Saturday night, was released from custody last evening.

MEMORIAL DAY.

Various Events That Will Mark the Day at the Hillside Tennis and Golf Club.

The dinner-dance arranged to be given at the Hillside Tennis and Golf Club Friday evening gives promise of being one of the delightful affairs yet given at the attractive clubhouse. Councilman George P. Mellick, who is chairman of the house committee, has the matter in charge and nothing is being left undone to make the affair a great success.

The events for the course that day will be play for the Holiday cup and a kickers' handicap. Steward Lord will prepare a fine menu for the dinner and in the evening the club will furnish music for dancing. Those desiring to stay for dinner should notify either Mr. Mellick or the steward at the earliest possible date.

Building Permits.

Building Inspector T. O. Doane has issued a permit to Manning & Harris for the erection of a one-story wooden building to be used as a carriage shed on the rear of the lot at 225 Madison avenue. A permit was likewise granted to Salmon C. Baker for the erection of a one and a half story extension, 22x16 feet, to his dwelling on West Fifth street.

Extra Car Needed.

Patrons of the Arlington avenue trolley would appreciate an extra car on that line if the company could accommodate them to that extent. During the summer months there is considerable travel to the Hillside Tennis and Golf Club as well as the cemetery, but people do not like to wait a half hour for a car.

PROMINENT MEN COMING.

To the Mass-Meeting of the Colored Churches Tomorrow Evening.

Prominent colored men from all parts of the State will be present at the colored mass meeting to be held in Reform hall, tomorrow evening. It promises to be one of the largest gatherings the race has ever had in this city. Addresses will be made by Rev. G. W. Hayes, of Lynchburg, Va., G. P. Taliaferro, of Philadelphia, and local clergymen. A choir of forty voices will render selections and a singing contest will be held between "Black Hattie" and a Plainfield vocalist.

PLAN TO GET NEW MEMBERS

TO BE CONSIDERED BY STATE BOARD OF DAUGHTERS OF LIBERTY.

Board Meets at Trenton Tomorrow to Decide on Feasability of Proposed Plan.

When the State board of officers of the Daughters of Liberty meet in Trenton tomorrow a plan will be proposed whereby it is hoped a large number of members will be added to the rolls of the councils in this State. It is intended to fix a special time for receiving applicants. This will be called "application night." It is probable that the first meeting night in July will be the one selected for this purpose. Circulars will be sent to each council, urging that members be notified of this occasion and requesting them to gather in all the applications possible for that night. As this will be a new feature in the work of the Daughters of Liberty, it is expected that many propositions will be presented.

The last meeting night in the same month will doubtless be selected as "initiation night." At this time all candidates elected will be admitted into the order. As every council will probably take an active interest in these events, it is expected that in July next more admissions will be received than in any one month in the history of the order in New Jersey. With 146 councils and about 13,000 members, it is expected that good results will be accomplished by this action of the board. If July is thought to be too near at hand for this work, some night in August will be selected.

After the board meeting tomorrow night the members will attend the meeting of Capital City Council No. 20, in Masonic Temple, Trenton. That council has arranged to tender a reception to State councillor, Mrs. Mary L. Seifert. Junior ex-State Councillor Mrs. Sarah T. Rellstab and National Vice-Councillor Herman Rellstab are members of Council No. 20.

ENROUTE TO MOON.

Price of Beef Was Advanced by the Local Retail Meat Dealers This Morning.

At 12 o'clock today the retail dealers advanced the price of meat two cents per pound. Yesterday the wholesalers increased the price by half a cent, in addition to the advance of a cent made one week ago, and before Saturday night there will be a third rise of another half a cent.

The Union Beef Company and the Plainfield Beef Company have received word from the houses in Chicago that the last car of beef shipped to these firms must bring $11.45 to $11.65 per 100 pounds. They are now charging 11½ cents per pound, 4½ cents more than the cost before the beef trust manipulation.

An ordinary steer costs today $36 more than it did six months ago. Meat has even been bought at five and six cents a pound wholesale previous to a year ago, thus making a steer that cost at that time about $40 bring today about $90. It looks like a case of the cow jumping over the moon.

ONLY ONE DRINK.

The First in Eighteen Years Put John Bly Completely Out of the Running.

One drink, after eighteen years of total abstinence, was more than John Bly, of Westfield, could stand, yesterday, and he fell helplessly drunk on East Second street. Patrolman Lunger carried him to police headquarters and this morning he was sobered sufficiently to stand before City Judge Runyon.

He was positive it was only one drink that put him out of business and he observed Plainfield rum must be in the fuss fungle class. The latter is guaranteed to start a fight in a church. As Bly was too far gone to cause any disturbance sentence was suspended.

Mrs. Andrew Love, of Duer street, is gradually improving after a recent severe illness. Dr. Buchanan is in attendance.

CHALLENGE SENT OUT FOR JOINT DEBATE

"Antis" Are Asked to Co-operate With Union Association in Arranging One.

A FAIR PROPOSITION.

TO BE CONFINED STRICTLY TO THE MERITS OF THE CASE.

Letter From Martin I. Cooley, the President of the Union Association, to C. W. McCutchen, President of the Citizens' Association.

Martin I. Cooley, president of the Union Association of North Plainfield, has written a letter to Chas. W. McCutchen, president of the Citizens' Association of North Plainfield, inviting the latter body to co-operate with him in arranging a joint public debate on the questions of annexation and consolidation in Saengerbund Hall at some future date. The proposition is the fairest that could be made.

As far back as 1879 the suggestion was made of a joint public debate on this same issue, when W. L. Saunders, both privately and through the press, challenged A. V. D. Honeyman to a discussion of the question in Saengerbund Hall. The challenge was in the nature of a reply to a letter in The Press but unfortunately the latter was too busy to accept the proposal at that period. The agitation so live at the present time is of paramount importance, and will be given precedence over all else, whether an affair of State or private business.

Following is Mr. Cooley's letter:

May 26, 1902.

"Mr. Chas. W. McCutchen,
President Citizen's Association,
North Plainfield, N. J.

"My dear Sir:

"The friends and the opponents of annexation and consolidation, having each held a public meeting at which the discussion was general; and as it is believed that a joint public debate, at which the discussion should be confined strictly to the merits of annexation and consolidation as a business proposition, without reference to any matters of a personal nature, would serve to throw light upon the subject and assist every citizen in arriving at an intelligent determination on this most important matter.

"Therefore, on behalf of the Union Association of North Plainfield, an association composed of the citizens who favor union with Plainfield in Union county, I have the honor to invite the association of which you are president, to arrange for a joint public debate in Saengerbund Hall, at which the speakers for each side shall be citizens of the borough and shall be confined to a discussion of the merits of the case; such meeting to be presided over by some gentleman, to be agreed upon by yourself and myself, who shall have full authority to confine the arguments within the points specified.

"I shall be glad to hear from you at an early date, and as this is a public matter, I have sent a copy of this letter to each of the Plainfield daily papers. "Yours most truly,

"Martin I. Cooley."

ARCANUM'S BIRTHDAY.

Quarter of a Century Anniversary Will Soon be Celebrated.

The twenty-fifth anniversary of the organization of the Royal Arcanum will be celebrated by all of the councils in the United States Monday, June 23. Plainfield Council, No. 711, Royal Arcanum, is planning to celebrate the affair on an elaborate scale It proposes to have one of the division celebrations in Plainfield and there will probably be twelve councils along the line of the New Jersey Central and vicinity to join in the affair. It has not yet been decided just where the celebration will be held, but some suitable place will be secured.

TRIAL AT FREEDOM CASTLE.

Celebrated Event to Take Place at Meeting This Evening.

The celebrated mock trial arranged for tonight at the meeting of Freedom Castle, Knights of the Golden Eagle, is sure to be interesting. Horace J. Martin has charged Dr. C. M. Luckey with stealing a pair of plyers and a mare's tooth. It will be a trial by jury before "Judge" J. Hervey Buchanan. W. J. Allen will represent the defendant and A. C. Hoagland the plaintiff. A full attendance of the members is desired so that there will be no trouble in selecting a jury.

WHAT OTHERS SAY.

Clippings From Other Newspapers Which May be of Interest to Plainfield and Its Citizens.

Superintendent W. G. Besler of the Central Railroad is already doing much to satisfy the demands of those who daily patronize the road. He is at least void of that stupid pig-headedness which characterized the Wentz management, and led it to reject all suggestions. There is now some hope of good train service, and polite consideration. Mr. Besler has a splendid record, and as he has taken up his residence in Somerset county, from which all good things come, we predict for him a brilliant future.—Somerville Unionist-Gazette.

Rev. Dr. Richards, of Plainfield, will, it now seems probable, be called to the Brick church, New York city, and the chances are that he will accept the call. If so the Presbytery of Elizabeth will lose one of its ablest ministers. Rev. Dr. Richards has been pastor of the Crescent Avenue Presbyterian church, of Plainfield, for nearly twenty years, and was ordained to preach nearly ten years before he was installed in Plainfield. He is sincerely loved in that city, and he has been so long identified with it, not only as a pastor, but socially and politically, that he would break away from it with great difficulty. Nevertheless, to be the pastor of the Brick church, the successor of Dr. Babcock and Dr. VanDyke, is an ambition to which any minister might well aspire.—Elizabeth Journal.

The Sussex county Board of Freeholders has gone so far in the matter of building good roads as to appoint a committee to investigate the matter and report at a special meeting of the board. There are but two counties in the State—Sussex and Hunterdon—that have not taken advantage of the good road laws. They have stood idly by and watched their more progressive neighbors reap the benefit of the liberal laws which have made New Jersey famous for the magnificent highways. The effect of this old fogy policy has been apparent in many ways in the two counties, and the progressive farmers and business men are now urging their representatives in the Boards of Freeholders to awaken from their lethargy.

Good roads mean more residents, more visitors, more business, cheaper transportation, to say nothing of more comfort for all who are obliged to use the highways. If the freeholders of these two counties decide to let what they call "well enough" alone, the blame for being known as back number sections must rest upon their shoulders. These counties cannot expect to progress materially so long as they refuse to maintain good roads.—Newark News.

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. W. Randolph.

LITERARY.

The Forum Publishing Company has announced that beginning with July, "The Forum" will be published quarterly instead of monthly. The general character of the magazine will be the same, but its purpose will be more specifically that of a review and outlook. The busy man may, under the new arrangements, keep in touch with all the important questions of the day by reading at his leisure.

The Popular Science Monthly for June opens with a symposium on four modern sciences, statistics, political economy, psychology and sociology, written by those who are among the leaders in the recent development of these sciences, the Hon. Carroll D. Wright and Professors Roland P. Falkner, E. A. Pace and Lester F. Ward. Professor A. C. Scott contributes an elaborately illustrated article explaining how microscopic objects can be shown with the stereopticon. M. O. Leighton gives curious statistics showing the commercial value of human life as determined by suits for damages. The number contains articles on instinct by Douglas A. Spalding, on sugar and the sugar beet by Dr. John Waddell, on the physicist, Tait, by C. K. Edmunds and on the American University by Profesor Cattell, the editor. The causes of volcanic eruptions and other timely topics are discussed in the shorter contributions.

Scribner's Magazine for June shows, in a striking manner, both the progress of the times due to the latest advances in knowledge and a wealth of original literary material—notably the two great serials by the leading American writers, Richard Harding Davis and F. Hopkinson Smith. These two stories, which reach the highest mark in the achievement of each writer, are entirely different in scope and treatment. One is a story of adventure and the other is a romance of artist-life in New York. "The New Agriculture," by W. S. Harwood, is what the author calls glimpses into "the pages of a book of magic." Another erroneous idea is exploded in "The Gulf Stream Myth and the Anti-Cyclone," by Harvey Maitland Watts, who has become recently an acknowledged authority on the subject of the weather. The last of Mr. Connolly's sketches of modern fishermen at work describes his experiences "On a Baltic Sea Sloop." Burns illustrates it from sketches made at the time. These sailor articles have put Mr. Connolly in the first rank of writers about the sea. Mrs. Wharton (whose novel "The Valley of Decision" is the success of the season), contributes a classical poem, "Artemis to Actaeon," which is strong in conception and beautiful in the melody of its verse. There are three illustrated short stories: "The Day Shall Declare It," by Jennette Lee, is a story turning on a picture by Durer, which is identified by a modern scientific invention. The tale back of it is an interesting love story. The pictures are by DuMond. "Little Tapin," by Guy Wetmore Carryl, is a story of French army life, illustrated by a new man, W. Sherman Potts. Miss Juliet Wilbor Tompkins has a charming bit of sentiment, "A Window Drama." Illustration by C. Allan Gilbert. American bronzes are discussed by Russell Sturgis in the Field of Art, with illustrations of some notable recent bronzes.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. Randolph.

TRUST AGREEMENT.

Shipping Combine's Liberal Terms For German Lines.

BERLIN, May 27.—The directors of the Hamburg-American line have issued a circular divulging the terms of the agreement arrived at between the Morgan shipping combine and the Hamburg-American and the North German Lloyd lines.

The two German companies undertake to pay the combine an annual sum equal to a dividend on shares amounting to at least 20,000,000 marks ($5,000,000). This provision was agreed upon when the capital of the German lines was 80,000,000 marks ($20,000,000) each, and in the event of an increase in the capital, a contingency which in the meantime has arisen, the combine reserved the right of increasing the annual sum accruing to it to an amount equaling dividends on 25 per cent of the capital stock.

The North Atlantic cabin passenger traffic of both parties is to be regulated by a special pooling arrangement, and it is agreed to maintain the present pool regarding steerage passengers.

The freight business will be conducted under the existing agreements, excepting mutual precautions against outside competition.

The agreement further provides for the arbitration of differences, and it becomes inoperative in the event of war between the United States and Great Britain.

The boerse has accepted the steamship agreement as advantageous for the Hamburg-American and North North German Lloyd lines. The newspapers generally are of the opinion that German interests are fully secured by the agreement, and The Boersen Courier says that many of the companies' long standing desires are satisfied.

New Invasion of Venezuela.

WILLEMSTAD, Curacao, May 27.—A report has reached here that a new invasion of the Venezuelan frontier by Venezuelan revolutionists is contemplated and will occur shortly. The Venezuelan revolutionists who [illegible] this invasion are said to be assisted by the government of Colombia with arms and money. [illegible] and men who will invade Venezuelan territory are said to be assembled at Cucuta, which is situated in Colombia, but close to the western frontier of Venezuela.

Western Labor Delegates Meet.

DENVER, May 27.—The annual convention of the Western Federation of Miners and the Western Labor union has assembled in this city. There are 300 delegates in attendance, representing over 100,000 workers in the western states and British Columbia. The two organizations work in harmony, but the conventions meet apart, both in secret session. A mass meeting was held last night at which Eugene V. Debs outlined his programme for the participation of labor unions in politics.

A Street Duel.

QUITMAN, Ga., May 27.—Deputy Sheriff Mashburn shot and killed Charles Taylor in an impromptu duel on the street. Some time ago Taylor was on trial for murder, and Mashburn was a witness against him. Taylor declared he would get even. Yesterday the men met. After a few minutes' conversation both began shooting. Taylor discharged his revolver four times, but his aim was wild. Mashburn shot five times, and four shots were effective. Taylor died within a few minutes.

LONG TALK GOES ON

Senate Begins Another Week of Philippine Debate.

QUESTION OF LYNCHINGS BROUGHT UP

Senator Gallinger Introduces a Resolution For an Investigation Regarding the Alarming Increase of Mob Law.

WASHINGTON, May 27.—Mr. Patterson (Colo.), one of the minority members of the Philippine committee of the senate, occupied the floor most of yesterday in a discussion of the Philippine question. Mr. Patterson quoted from the utterances of his newspaper, the Denver News, to show that it consistently had advocated the independence of the Filipinos since December, 1898. He said the editorials quoted by Mr. Foraker some days ago had been written prior to that time. He discussed the whole Philippine question, and several lively colloquies occurred during the speech. Mr. Foraker and Mr. Hoar had a brief debate over President McKinley's proclamation to the Filipinos. Sixty-two private pension bills were passed.

Soon after the senate convened Mr. Gallinger (N. H.) offered a resolution providing that the judiciary committee of the senate should make an investigation into the subject of lynchings in the United States with a view of ascertaining whether there is any remedy for them.

Mr. Gallinger said he introduced the resolution in full view of the fact that he might be charged with precipitating a sectional controversy, but nothing was further from his thoughts.

During the past ten years, he said, 2,658 lynchings had occurred in the United States. Of these 121 had occurred in the south and fourteen in the north; the remainder in other parts of the country. If the strong arm of the law could reach out to prevent such occurrences, he deemed it desirable that it do so.

The house of representatives devoted the day to business connected with the District of Columbia and took a recess until 11 a. m. today in order to complete the bill amending the District code.

Strike Conference In Chicago.

CHICAGO, May 27.—A conference that promises to change the aspect of the anthracite strike was held in this city yesterday between several members of the National Civic federation and union interests. President John Mitchell of the United Mine Workers of America, who has been in Chicago since Sunday relative to the situation in the bituminous coalfields, met Frank P. Sargent and Franklin MacVeagh of the federation and Samuel Keefe of the Longshoremen's union, and plans for further arbitrative endeavors on the part of the federation were discussed. The meeting was executive, and definite statements as to the details of the conference were not announced. It is understood, however, that the plan agreed upon contemplates calling another conference of the mine operators and the whole committee of the National Civic federation at New York.

Cuban Legislation.

HAVANA, May 27.—Both the senate and house have passed a bill granting President Palma $300,000 for current expenses in connection with insular affairs. The senate consumed the entire afternoon in discussing the best method of recompensing municipal judges, whether by salaries or by fees. Discussion of the question of granting amnesty to the Americans now in prison or awaiting trial in Cuba has been postponed until today.

An Offer For Monon Stock.

NEW YORK, May 27.—The banking house of J. P. Morgan & Co., as depository for the Louisville and Nashville Railroad company and the Southern Railway company, has sent a circular letter to Monon stockholders making a formal offer of 90 for the preferred stock and 78 for the common. If less than 51 per cent of the entire capital stock is on deposit with Morgan & Co. by July 1, the offer to buy may be withdrawn at the option of the prospective purchasers.

Large Gift For an Academy.

FITCHBURG, Mass., May 27.—Cushing academy at Ashburnham will receive a legacy estimated at from $200,000 to $400,000 by the will of Jacob H. Fairbanks, offered for probate here today. In addition the town of Ashburnham will receive $40,000 for a memorial town hall. Mr. Fairbanks was for years well known in this section. A native of Ashburnham, he made a fortune here in the grain and iron business.

An Oil Gusher.

FINDLAY, O., May 27.—The largest flowing oil well ever struck in Ohio has been shot on the W. H. Goons farm, east of Findlay. The oil spurted fifty feet above the top of the derrick, seventy-two feet high, for five hours. The production of the well is estimated at 1,000 barrels a day. It was drilled by the People's Oil and Gas company.

CONDENSED DISPATCHES.

Several hundred iron workers on the New York city subway went on a strike.

Duncan Moorehead, a timekeeper at the Carson washery, Hazleton, Pa., was shot in the right arm from ambush.

President John Henry Barrows, D. D., of Oberlin college was reported dangerously ill with pleuropneumonia.

PEACE NEGOTIATIONS

An Obstinate Minority In the Vereeniging Conference.

A RUPTURE MAY YET OCCUR

Issue of the Conference by No Means Certain In View of the Discordant Elements to Be Harmonized.

PRETORIA, May 27.—The prevalence throughout South Africa of the optimistic feeling in regard to the peace negotiations is hardly based upon solid facts. The protraction of the conference at Vereeniging is not necessarily a hopeful sign. The delegates to the conference, although they have abandoned their hopes of securing independence, still have many points of difference with the government, while an obstinate minority continues to regard the resumption of hostilities as the best outcome of the present situation, and at any moment these points of difference may be accentuated into a refusal to continue the negotiations.

It is most unlikely that those who are in favor of peace will throw up the sponge so long as a decent minority is desirous of continuing the struggle, and all these dissonant elements must be taken into account before it is possible to give any sort of prediction as to the issue of the present negotiations.

Forty-six Boers, with their wagons and cattle, have surrendered at Balmoral, Transvaal.

CABINET COUNCIL TODAY.

London Still Confident of Early Peace Announcement.

LONDON, May 27.—The Daily Mail this morning says the cabinet council to be held today will decide upon points of detail, mostly of a financial nature, which have been raised by the Boers in the peace negotiations. Great Britain's decision in the matter will then be communicated to the Vereeniging conference by the delegates at Pretoria, says the paper, and, being the best obtainable terms, they will almost certainly be accepted. The results should be announced officially either Thursday or Friday of this week, probably on Friday, the day upon which King Edward's birth is celebrated. Peace is quite certain, says The Daily Mail, and the delegates at Pretoria are only engaged in endeavoring to gild the pill for the Vereeniging conference to swallow.

The Daily Mail says further: "Our dispatches from Pretoria assert that numerous communications are passing between Lords Kitchener and Milner in South Africa and London.

"Lord Kitchener, although he is still full of energy, is much aged in appearance as a result of the severe and continuous strain which he has undergone. The consensus of opinion is that the recent negotiations have proved Lord Kitchener to be a great diplomatist as well as a great soldier. It is dimcult to appreciate the magnitude of the difficulties Lord Kitchener has had to contend with. The Boer leaders are all deeply impressed with his personality and trust him implicitly.

"It is understood that Lord Milner, the British high commissioner in South Africa, has gracefully admitted that the ultimate credit for the accomplishment of the great task is due to Lord Kitchener."

Praise For Lord Pauncefote.

LONDON, May 27.—On a vote in the house of commons for the maintenance of British embassies and consulates Lord Fitzmaurice took occasion to refer to the loss the country had sustained in the death of Lord Pauncefote and quoted former Secretary of State Olney's tribute to the dead embassador, which, he said, admirably expressed Lord Pauncefote's chief characteristic—namely, a judicial temperament. James Bryce said there had never been a British representative abroad who had so completely won the confidence and respect of the people of the country to which he was accredited.

Special Service For Dead Diplomat.

WASHINGTON, May 27.—A special funeral service over the remains of the late Lord Pauncefote, the British embassador, was held at the embassy this morning at 11 o'clock. This was intended for the family only, and the attendance was limited to them and to the staff of the embassy. Dr. Mackay Smith, the coadjutor of the diocese of Philadelphia and formerly pastor of St. John's Episcopal church, where the embassador worshiped, conducted the services.

Fatal Boiler Explosion.

HOUSTON, Tex., May 27.—A boiler exploded early yesterday at the home of Millionaire John H. Kirby, where a private theater and natatorium were being built. Engineer Harry Woodard of Memphis and Assistant Charles Coughlan were instantly killed. The end of the boiler went through a section of the Kirby residence, and the sleeping inmates narrowly escaped. Much damage was done.

Beef Trust Inquiry Halts.

ALBANY, N. Y., May 27.—The inquiry into the workings of the alleged beef combine which was to have been continued before Justice Chester in special term has been postponed because of the inability of the attorney general to subpoena material witnesses.

Prominent Editor Dead.

SALAMANCA, N. Y., May 27.—A. W Ferrin, editor of the Cattaraugus Republican, is dead at his home in this place, aged fifty-nine years. He served in the Union army during the civil war and had been United States Indian agent for several years.

WELCOMED AT NEW YORK.

French Battleship Enters Port For First Time In History.

NEW YORK, May 27.—The French cruiser Gaulois passed up the bay and off the Battery at 12:10 o'clock yesterday afternoon. She was escorted by the United States battleships Kearsarge and Alabama and the Olympia, Admiral Dewey's former flagship.

The Gaulois came from Annapolis and is here to participate in the Rochambeau celebration. She passed by Governors island with a crowded deck and fired a saluting gun from a hull cannon. Almost simultaneously the Governors island saluting gun was fired, and both sides kept it up for some seconds.

The Gaulois' salutations were very pretty, as she fired first from a hull gun, then from a deck gun and then from a gun in one of the masts. The firing drew a big crowd to the Battery wall, which was lined several persons deep as the Frenchman passed up.

Captain Fournier, the Gaulois' commander, ran up a signal of "Thanks" as he passed the Sandy Hook marine operators, who had hung out a signal of "Welcome."

The Gaulois is an 11,000 ton vessel, 385 feet long and has a speed of 18 knots an hour. She carries a crew of 632 men.

Launches were soon dropped, and in a short time the official visits had been paid. Soon after the vessels anchored the dispatch boat Dolphin, with the French visitors on board, passed up the Hudson on its way to West Point.

New York is prepared to receive the French visitors when they return to this city from West Point at 3:30 this afternoon. They will be met at the Battery by the mayor's secretary, who will escort them to the city hall, where the official reception will be held.

French Mission at Niagara.

BUFFALO, May 27.—The distinguished guests of the nation comprising the members of the French mission who participated in the ceremonies incident to the unveiling of the statue of Count de Rochambeau at Washington, accompanied by Embassador Cambon, Mme. Cambon, members of the staff of the French embassy and the president's commission, spent a pleasant day at Niagara Falls and again turned toward the east, leaving for West Point at 5 o'clock in the afternoon over the West Shore railroad.

THE STRIKE SITUATION.

Firemen Will Go Out Next Monday. Engineers' Action Is Doubtful.

WILKESBARRE, Pa., May 27.—It is still a matter of conjecture whether the mines in the anthracite region will be completely shut down next Monday when the order issued by the executive boards of the United Mine Workers governing the hours of labor and wages to be paid engineers, firemen and pump runners goes into effect. The operators claim they will have all the help necessary to keep the pumps and engines in running order.

The United Mine Workers and the officers of the Stationary Firemen's association, on the other hand, claim that unless the coal companies grant the demands made upon them the great bulk of the engineers, firemen and pumpmen will quit work. There seems to be no question but that both sides are straining every nerve to make the best showing possible.

While the position that will be taken by a great many of the engineers and pumpmen is not known, it is known for a certainty where the firemen stand. They will strike almost to a man, and the operators will be compelled to secure green hands to take their places.

Killed His Sweetheart.

KANSAS CITY, May 27. — Frank Robinson, aged twenty years, shot and killed his sweetheart, Gertie Rawlins, aged sixteen years; shot and fatally wounded his rival, Albert H. Ferguson, aged nineteen years, and shot and fatally injured himself in an apartment in this city. Shortly before the tragedy Robinson wrote a note to his mother in which he said that as Ferguson had supplanted him in the affections of the girl he purposed to kill them both and then himself.

New Belgian Congress.

BRUSSELS, May 27.—The final election returns show that the new chamber of representatives will be composed of 96 Catholics, 34 Liberals, 34 Socialists and 2 Christian Democrats. The government thus has a majority of twenty-six as compared to a majority of twenty before the elections. The new Belgian senate will contain 62 Catholics, 41 Liberals and 6 Socialists, thus increasing the government's majority in this body by one.

To Be the Kaiser's Guests.

BERLIN, May 27.—Emperor William has directed that Adjutant General Corbin, General S. B. M. Young and General Leonard Wood shall be his guests at the German military maneuvers next fall. More than this, the foreign office declares that the emperor is very glad that the American generals are coming to Germany.

A Bird Burial.

NEW YORK, May 27.—The body of Polly, a red and green parrot that belonged to Mrs. Hermann Oelrichs for a quarter of a century, has been shipped to Newport, and today the walnut casket containing the mortal remains of the bird will be buried on the grounds of the Oelrichs estate. The interment will be private.

Miners Returning to Europe.

NEW YORK, May 27.—One hundred men, women and children, the men being miners from the Pennsylvania coal regions, are in Hoboken, booked to sail to Europe on the steamers Scotia and Pennsylvania.

The Labor of Preparing 1,095 Meals falls on some one in every home every year. Any labor-saver should have consideration, and that is one great point of

NONE SUCH MINCE MEAT

It has the largest sale of any prepared mince meat, because it is the best. We sold ten million packages last year. It is "compressed"—sold in clean, dainty cartons.

Avoid "wet" mince meat, sold from open pails that stand on dirty floors and in dusty doorways.

"NONE SUCH" is 10c a package, which makes two large, juicy pies. "Like mother used to make." Beware of packages made in close imitation of ours—insist on receiving "a package of NONE SUCH."

AIDING THE EXODUS.

French Government to Pay Passage of Fleeing Martiniquans.

FORT DE FRANCE, May 27.—The minister of the colonies, M. Decrais, has authorized the governor of Martinique, M. L'Huerre, to pay out of the relief funds the expenses of transportation to France or to the French colonies of all the inhabitants of Martinique who are desirous of leaving that island provided they are able to show that they have relatives or resources at the place of their destination. Already 967 persons have been thus assisted to reach the island of Guadeloupe.

Professor Robert T. Hill, the eminent geologist, with his party, has chartered a steamer and is carefully studying the volcano from the sea. George Kennan, with a land party, is examining the northern part of the island.

Mont Pelee is fairly quiet, although there has been a big eruption of ashes, which covered the extreme north of the island. A new crater is active.

The scientists are divided in opinion as to whether or not new and more violent outbursts are to be expected. A majority of them think volcanic energy will be displayed for a long time, but that no further loss of life will occur, as there are no large places left to be destroyed, and Fort de France, they say, is absolutely safe from any possible outburst of Mont Pelee.

Fort de France looks deserted. Nearly 2,000 persons have gone to the islands of Guadeloupe, Dominica and St. Lucia, and as many more are trying to get away. The one object of all minds is to escape from the island.

Lumber For Volcano Sufferers.

WASHINGTON, May 27.—The navy department has added one more and perhaps the last to the good offices which it has been called on to perform in behalf of the West Indian volcanic sufferers by undertaking to transport to the homeless people of St. Vincent a large quantity of building lumber which the Canadian government has donated. The lumber is coming by rail from Canada through to Norfolk, the treasury officials authorizing its passage through the United States in bond and without payment of duty. At Norfolk the lumber will be loaded on the collier Leonidas and transported directly to St. Vincent.

FILIPINO TREACHERY.

Moro With Flag of Truce Cuts Off Sergeant's Arm.

MANILA, May 27.—While Second Lieutenant Robert C. Humber of the Tenth infantry and Sergeant Walling of the same regiment were walking about six miles from Camp Vickars, in Mindanao, they perceived a single Moro carrying a flag of truce. When the native had approached close to the Americans, he suddenly drew his creese and slashed Sergeant Walling, cutting his arm completely off. Lieutenant Humber attempted to shoot the Moro, but his revolver missed fire, and the native escaped in the tall grass.

General Davis, the commander of the American forces in Mindanao, has reiterated his orders that no American soldiers are to leave camp unless in a party of at least eight men, who must be armed and prepared for any emergency.

Eight Persons Killed.

CHARLESTON, S. C., May 27.—Specials from Union show that the reports of the tornado which passed over that section of the state Sunday were not exaggerated. So far as known eight people were killed, three of them being negroes. The section between Jonesville and Santuc suffered most, fifty houses and cabins being wrecked. Hail accompanied the storm.

A TERRIBLE DROUGHT

A Seven Years' Visitation In Australia.

SHEEP DYING BY THE MILLIONS.

Rivers Drying Up and Agricultural Interests Generally Suffering. The Unemployed Flocking to the Cities.

LONDON, May 27.—Cabling from Sydney, New South Wales, the correspondent there of The Daily Mail gives an account of the terrible drought from which as a climax to seven dry years Australia is now suffering. The correspondent says that the horses in stock in Australia since 1860 amount to $75,000,000.

Unemployed men are drifting into the cities by the thousands, and there the state governments are providing them with relief. The only districts that have escaped the drought are the northern rivers district of New South Wales, and parts of the Riverina district.

The situation has been aggravated by the federal duties on fodder, which prevent its importation. Communication in the interior has been paralyzed, as the waterways are unnavigable. Owing to the expense of fodder the firm which had the contract has abandoned the hauling of the mail in Queensland, the cost of this transportation having risen from $30,000 to $150,000 annually.

The sheep are dying by the million, continues the correspondent, and even the rabbits are starving. Animals have stripped the bark from the trees for food. A common method of treating exhausted horses is to slit the animal's palate with a knife. The horse is revived by swallowing his own blood. Numbers of "sundowners" and "swagmen" have been found dead by the waysides. The governments are doing everything possible to alleviate these conditions, but meteorologists despair of an early change in the weather conditions.

Struck by Lightning, Yet Living.

CAMBRIA, Va., May 27.—Frank Kester, a farmer of Montgomery county, while driving Mrs. Akers and child to shelter from an approaching storm was struck by a bolt of lightning which ran down the umbrella Mrs. Akers was holding over him and passed down his back, burning the flesh and passing thence through his boot to the buggy. The horse was killed, the buggy demolished and its three occupants thrown to the ground. The husband of Mrs. Akers came up and found his wife and child little hurt and Mr. Kester apparently dead. There being some evidence of life, a doctor was summoned, and it is now announced that Kester will recover. The case is considered a remarkable one in this section.

Death of Hon. H. C. McCormick.

WILLIAMSPORT, Pa., May 27.—Hon. Henry Clay McCormick, formerly congressman from the Sixteenth Pennsylvania district for two terms and attorney general during the administration of Governor Hastings, is dead. The cause of death was acute Bright's disease, complicated with blood poisoning. Mr. McCormick's illness was of less than a week's duration, as only last week he was at State Senator Cochran's country home in Virginia, and he attended to business after his return. He was fifty-eight years of age.

A Caterpillar Hunt.

KINGSTON, N. Y., May 27.—Hewitt Boice, a wealthy and well known resident of this section of the state, advertised last Friday to pay 10 cents for each fruit jar of caterpillars which are infesting hundreds of shade trees here. The jars were to be delivered at his barn. Up to last night he had paid out nearly $100 to 500 persons, ranging from grandfathers to five-year-old children. He says he expected $3 or $4 would cover the cost. The caterpillars were destroyed as soon as paid for.

Balloon Struck by Lightning.

BERLIN, May 27.—A military balloon was struck by lightning near Augsburg, Bavaria, at an altitude of 500 meters. The only occupant of the basket at the time of this occurrence was Lieutenant von Hiller, who was telephoning his observations to soldiers on the ground below him. When the balloon was struck, it burst into flames and fell rapidly to the earth. Lieutenant von Hiller had the bones in both feet broken, but escaped further injury.

Rebels Wipe Out Turkish Troops.

LONDON, May 27.—A dispatch to The Daily Express from Cairo, Egypt, says a report has reached there that a whole battalion of Turkish troops has been annihilated by rebels near the seaport of Mocha, in the Turkish vilayet of Yemen, in the southwestern part of Arabia. The governor of Mocha is said to have been carried away by the rebels as a hostage. The rebels are being joined by numbers of Turkish troops who are deserting.

Minister McCormick's Ball.

VIENNA, May 27.—Robert S. McCormick, the United States minister here, gave a ball at the legation last night in honor of Miss Eleanor Patterson of Chicago, which was attended by a distinguished gathering of nearly 200 persons, including members of the Viennese aristocracy and the diplomatic representatives here.

Noted Knight Templar Dead.

NEW YORK, May 27.—Henry Perkins of Akron, O., past grand commander of the Knights Templars of the state of Ohio, is dead in this city. His body will be taken to Akron for burial.

MORE CARS NEEDED.

Now that the warm weather is here, the traffic on the trolley cars is growing with rapid bounds. The open cars are on duty once more and they are again a popular place for those who are anxious to keep cool. While the better of the old open cars are still in service on the local lines, the new double truck cars, which were put into service late last season, are running on the through trip to Elizabeth. Then there is a promise of more new cars in the near future.

The present administration of the Elizabeth, Plainfield and Central Jersey Street Railway Company has shown a desire to improve its service. It has promised a number of things which will materially advance the local service. Among these are new cars and shorter headway during the rush hours. If these promises are kept, the local trolley system will stand well in comparison with those of other cities, a thing which it certainly has not done in the past.

Trolley rides have already been proven a very popular and inexpensive means of enjoyment. Thousands from this city found much pleasure in them last season and there is every reason to believe that they will be more popular than ever this summer. Several parks are to be open this summer along the line of the trolley, where they can be reached by cars from this city and they will serve to attract more people than ever on the open cars.

If the traction company, that owns the local lines, is really anxious to cater to the desires of the public, it will provide the best possible cars and run them at frequent enough intervals to accommodate the traffic. A trolley ride is a very pleasant thing but half the enjoyment is gone if the passenger is compelled to hang on to a step with a crowd of other people. There are times when it is to be expected that the cars will be overcrowded but additional cars will very often relieve the overcrowding and induce many others to join in the pleasure, and incidentally help to swell the coffers of the trolley company.

Friday will be the opening day of the City Baseball League. It promises to arouse more interest in the National game than was ever seen here before. Each of the four teams has its crowd of adherants and every partizan is positively sure of the victory of the favorite team. Naturally somebody is going to be disappointed and grievously so. It is sincerely to be hoped that, in the excitement of the battles on the diamond, no one will forget that the chief aim of it all is true sportsmanship. So far there has not been the slightest suggestion of any rowdyism or ungentlemanly behavior on the part of any of the league teams. Let that record be continued to the end. While it is not pleasant to be defeated, it is far better to meet defeat like a man than to indulge in any unfair or cowardly practices which some teams have been known to resort to in critical moments. Let the baseball season of 1902 be memorable on account of the clean, gentlemanly game played by all the local teams, even in moments of great excitement.

Plainfield now possesses one of the thirteen first class postoffices of the State. This change, which removed Plainfield from the second to the first class, puts Plainfield where it belongs, with the leading cities of the State. This was accomplished simply by increasing the business at the local office. If all Plainfielders would remember that fact and purchase their stamps in this city instead of at New York and Newark, it would be possible to still further improve the local service and give them the advantages that would come from additional clerks and carriers. There are many residents of this city, whose offices are in New York, who annually buy thousands of dollars' worth of stamps in that city. If they would transfer that business to Plainfield, they would better their own interests as well as those of the community.

A periodical which is devoted to newspaper interests notes that the development of the rural free delivery system has enormously increased the circulation of the city morning newspapers in the country and made them more valuable to advertisers, comments the Philadelphia Record. The morning newspapers reach the suburbs and farming sections a few hours after they go to press, while the evening papers lie in the postoffice all night.

Every day, we receive the congratulations of numerous friends over the fact that the "white fence" at the North Avenue station is finally a reality. It was surely a wise move on the part of the railway officials. Now that it is painted, no reasonable person can fail to see the great advantage of the change which was advocated by The Daily Press for so long.

These rumors of a contemplated consolidation of trolley interests through this part of New Jersey contain boundless possibilities. The change would have little effect on Plainfield, however, unless it might be to bring better cars. The local system would, however, become a very small "toad" in a very large "puddle."

Former Mayor W. L. Saunders' speech, which was delivered at the consolidation mass meeting, will be published in full in tomorrow's Daily Press. It makes very interesting reading.

The location of mail boxes at both railroad stations is a decided convenience for the public.

TEA TABLE TALK.

Short Sketches That Are Not Always News, But Just as Interesting.

The career of a man who belonged to a town in his boyhood always possesses deep interest for the citizens of the town. Hence the interest with which the face of Rev. Everett D. Burr is seen in the group of prominent men who will gather at Mohonk Lake this week to discuss Arbitration, a picture of which is given in the Sunday Tribune, May 25. Mr. Burr is spoken of in the accompanying sketch as "One of the young and progressive clergymen of Boston. He is the pastor of the First Baptist church at Newton, one of Boston's beautiful suburbs."

C. M. Hawkins, State fish and game warden, accompanied by Deputy Warden Gray B. Lester, of Elizabeth, was a caller at The Daily Press office last week. Mr. Hawkins reports everything quiet along the line and little violation of the fish and game laws. One day last week Mr. Hawkins placed 2,000 fish in Lake Hopatcong, Budd's Lake, Freehold Pond and the lake at Long Branch. This carload of fish included strawberry bass, white bass, wall eyed pike and channel catfish and were taken from Lake Erie. The week previous Mr. Hawkins placed 2,000 fish in Greenwood lake.

The State warden is keeping his eyes open for the young men and boys who go about with flobert rifles shooting song and other birds that are protected by law. Since he apprehended several boys at Elizabeth a few weeks ago for this practice, there have been few violations of the law.

DUNELLEN.

Court Dunellen, I. O. F., held its regular bi-weekly meeting last evening in Apgar Hall. A considerable portion of the time was taken up with the paying of dues as yesterday was the last day for paying. After the business of the evening the members listened to an interesting description by Past High Chief Ranger Titsworth of his recent trip to California as a delegate to the National I. O. F. convention at Los Angeles.

The Central offices were moved last week to Philadelphia and consequently a considerable number of the clerks have been thrown out of employment. Several from here moved with the offices, among them being Harry Apgar and Fred Giddes. A number of others will follow at a later date.

A game of baseball will be played on Decoration Day between two local teams. The Dunellen A. C. will play two games, in the morning the Cuban Giants, and in the afternoon the Clinton Avenue team.

The members of the graduating class of Whittier School are practicing their essays in preparation for commencement day.

The new porch on A. H. Gray's house has been almost finished and greatly improved the looks of the place.

The Dunellen Juniors are trying to arranged some games with some of the crack junior teams from Plainfield.

Work will be started soon on the work of macadamizing a portion of Washington avenue.

Mr. and Mrs. Hurley, of North avenue, are rejoicing over the arrival of a young son.

The Dunellen Literary Circle will hold its final meeting and dinner in a short time.

Several new members have been admitted to the Friday Afternoon Card Club.

William Anderson, of Westfield, spent yesterday with friends in town.

The checker club will hold a regular weekly meeting this evening.

Wm. G. Holton Council will hold a regular meeting this evening.

No services will be held in St. John's church this evening.

NEW MARKET.

Thursday evening an entertainment will be given under the auspices of Lakeside Council in Friendship Hall. The principal part of the programme will be the presentation of a piece entitled, "A Darkey Wedding." A good time is promised to all who attend.

Roger's boats have not been patronized to any great extent as yet, but when hot weather sets in it is thought that the patronage will be better than ever.

The baseball team played the scrub team on Saturday afternoon and beat them easy.

Friendship Social Circle will hold a regular meeting tomorrow afternoon.

J. L. Horne, of Metuchen, spent yesterday in town on business.

PLAINS AND FANWOOD.

Mallay, who has been putting up such a great game at third base, has left the baseball team, having had an offer from the Glovervsille team of the New York State League. Manager Johnston will have hard work finding a man to fill the vacant spot on the team. Mallay, while only playing four games with the team, had won many friends by his being fair and square in a game and while the fans will miss his familiar face still all wish him success in his new field.

Manager Johnston, of the baseball team, is on a still hunt for an extra pitcher to help Harvey, the regular, out at times. In Malloy the team had an all around player that could do fine work in the box. As it now is the club has but one pitcher and three games will be played this week, two Decoration Day and one on Saturday afternoon.

Peter Smith and family, of Lincoln, have been visiting at the home of Mrs. Smiths' parents, Mr. and Mrs. Joseph Clark.

Mrs. Thornton, of Brooklyn, is visiting at the home of her mother, Mrs. D. C. Allen, of Westfield avenue.

Miss Ada Buckley, of Plainfield, is spending a few days with her grandmother, Mrs. James Buckley.

Fanwood Council, R. A., will hold its regular semi-monthly meeting in the library rooms tonight.

Richard Robison has returned from a pleasant visit with friends at Camden, this State.

Rev. G. M. Shott spent Monday with friends in New York.

SOUTH PLAINFIELD.

TenEyck & Harris are running a stage coach between here and Plainfield to take the place of the omnibus which was wrecked Saturday.

Mrs. Brown, of Brooklyn, has returned home after spending two days with her sister, Mrs. W. E. Smith, of this place.

Thomas Brantingham expects to put "Myrtle Twig" on the track, Decoration Day.

The prayer meeting at the Baptist church tonight will be led by the pastor.

George Smith's new house on Myrtle avenue is now completed.

Masters to Meet.

There will be an important meeting of the Master Mechanics' Association this evening at 8 o'clock in the rooms of the Grocers' Protective Association. It is expected that matters in reference to the troubles now being experienced by the boss carpenters will be discussed, as well as other matters of interest to the other bosses.

Straw Hats for Firemen.

Chief Doane placed an order, yesterday, for the straw headgear for the members of the local fire department. Heretofore the hats have been of brown straw, but this year they will be white. The drivers will have the conventional straw, while the chiefs will wear the fedora make.

Pension Granted.

Through the efforts of H. C. Runyon, a pension of $8 per month has been granted Mrs. Joseph T. Dunham, of Park avenue. She is also allowed back pension from June, 1900.

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

The sale of tea kettles advertised by Woodhull & Martin for today will be continued tomorrow, on account of the storm.

Don't let any one talk you into buying something you don't want. Go to Willett & Son and get the big summer assortment.

A good reliable time piece is an indispensable article in these days. L. Moraller & Son on Park avenue can sell you the best watch at the cheapest price.

George W. Kirch, Liberty and West Fourth streets, is making extra efforts to obtain the very best of table supplies. His Rockdale and Oxford print butter is the best to be obtained.

Buyers of meat never get inferior cuts at J. W. VanSickle's North avenue market. He makes a specialty of dealing in the best beef, veal, mutton and pork. Give him a trial order.

John H. Doane, the shoe merchant, is displaying an attractive line of summer shoes for men, women and children. The prices compare favorably with those in the larger cities, while the stock is as complete.

Drop in at Nagle's pharmacy these warm days and quaff a glass of his famous soda, made from pure fruit juices, or have a cooling glace. Neither can be surpassed by any fountain in the city and at Nagle's, courteous treatment is a feature.

The beef trust has put the price of meat beyond ordinary mortals but no one suffers as long as fine fresh seafood, such as Foss & Jeter sell, can be had so cheaply. They bring all their fish direct from the nets and it is delivered in time for breakfast fresh and nice.

Hill & Shupp, the dry goods merchants, are now conducting one of the big summer sales and it is a great success. The store is just filled with seasonable goods and now is the time to make selections. The goods are first-class, while the prices are just as low as those in New York.

Dangerous If Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartly, Yankeetown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. L. W. Randolph.

HOSPITAL HAS A DEFICIT

EXTRAORDINARY EXPENSES EXCEED RECEIPTS BY $3,000.

Reported at Annual Meeting of the Board of Governors—The Officers Were Elected.

The board of governors of Muhlenberg hospital held its annual meeting at the public library last evening. Officers were elected for the ensuing year, reports were received from the treasurer and secretary and an important move was made in the matter of the new hospital building, besides a large amount of routine business transacted.

The following officers are the officers chosen: President, C. J. Fisk; first vice president, Wm. R. Cock; second vice president, Francis Wood; secretary, Chas. E. Brooks; treasurer, W. C. Kinney; managing committee, Samuel Huntington, Chas. E. Brooks, Geo. H. Goddard, H. P. Reynolds, Wm. R. Cock.; finance committee, E. R. Ackerman, W. L. Saunders, G. A. Chapman, E. H. Ladd, B. A. Hegeman, Jr.

The treasurer's report showed that the amount of $3,000 was owed by the hospital management on current expenses, being money borrowed on notes. This deficit is due chiefly to the fact that the hospital has been more than usually active during the past twelve months; more patients were received than in any previous year; the superintendent had put forth extra efforts to make the institution more up-to-date, and extraordinary expenditures had been incurred in keeping the old buildings in proper condition.

The building committee, along with the board of governors, was appointed to visit the new hospital still on the corner of Randolph road and Park avenue, Decoration Day morning at 10 o'clock, to assist the architect in the laying out of the new buildings.

SCORERS APPOINTED.

Meeting of League Officials Completed Details for the Season.

A meeting of the Plainfield Amateur Baseball League officials was held, last evening, for the purpose of arranging a few minor matters before the schedule commences.

Last season's foul rule was adopted and H. C. Brose and Ralph Lane were appointed official scorers. The umpires were assigned for the season's games but these were not made public. This finishes all preliminary buisness before the opening games.

To Wed at Milltown.

Invitations have been issued for the wedding of Miss Elizabeth M Dehmer, of Milltown, and Harry Pound, of West Front street. The affair will be celebrated Wednesday afternoon, June 11, at 4 o'clock, at the residence of the bride's sister, Mrs. John H. Kuhlthau, of Milltown.

Ordination of H. K. Wright.

The Presbytery of Elizabeth will meet in the Crescent Avenue church Thursday evening at 8 o'clock to ordain Harrison K. Wright to the ministry for service in the mission field. Robert E. Speer has promised to preach the sermon.

New Front.

The old front in the store on East Front street to be used by the Plainfield Trust Company has been removed preparatory to placing in a modern new front. The company hopes to begin business by the middle of June.

Will Tell of General Assembly.

At the prayer meeting service at the First Presbyterian church tomorrow evening, the pastor, Rev. C. E. Herring, will have something to say regarding the recent session of the general assembly in New York.

Has a Sign.

Protective Conclave, No. 505, Improved Order Heptasophs, has placed a handsome new sign at the entrance to its rooms, corner Park and North avenues.

Blinding Foods.

Some foods, it is said, are very injurious to the sight. "A case was brought under the notice of an eye specialist," says the Dioptic Review, "in which the eyes of a whole family were affected by eating rabbit pie. In each instance the patient had become afflicted with a peculiar defect of vision that is technically known as 'failure of accommodation.' Stale sausages and sour cream cause a weakness of the sight known as 'amblobia.' Blindness resulting from eating tainted fish has been found almost impossible to cure, and quinine is also responsible for some persons' half blind condition. This drug affects the optic nerve in a manner that sometimes ends in blindness." We might add for our part that alcohol occasionally makes people "blind."—London Leader.

The Metric System in England.

One hundred and seventy-two members of parliament have notified their approval of the compulsory adoption of the metric system of weights and measures throughout Great Britain. The Decimal association points out in a circular that in the interests of trade the reform should be made at once. The metric system is already permissive and legal in Great Britain and in the United States. Any manufacturer or merchant who wishes to increase his foreign trade is entirely at liberty to make his goods with metric dimensions and to invoice them in metric measures. How trade is to be increased by forcing him to do so is a mystery not yet explained by the busy advocates of the Decimal association.—N. Y. Sun.

The Suitor.

Once upon a time a young man fell desperately in love with a girl who consumed many sweets, as also many after-theater suppers, at his expense He gave her numerous presents and spent a large proportion of his salary for her pleasure.

Finally they were married, and trouble began, for the man could not spend as much on his wife as he had on his fiancee. Then she treated him cruelly and in an unwifely manner, and he brought suit for divorce from her. The court granted his petition, but decreed that he should pay costs and alimony.

Moral: He who goes to court must pay the costs.—N. Y. Herald.

Lo and the White Man.

"Is your hair cut?"

"It is," answered the Indian.

"Have you washed all the paint off your face, and instead anointed yourself with bay rum?"

"I have."

"Have you cultivated habits of thrift and saved up some money?"

"I have."

"Sure you've saved up money?"

"Yes."

"Well, come on. You are ready for the next step in civilization. I will now teach you how to play poker."—Washington Star.

July Marriage Custom.

Every July the Prussian royal family follows the curious custom of selecting half a dozen young couples too poor to marry and having them wedded in the garrison church at Potsdam on the anniversary of the death of Queen Louise of Prussia. After the ceremony each bride receives a gift of a sum equivalent to about $125 and a handsome family Bible. The function took place as usual last year in the presence of Princess Margarethe, the eldest unmarried daughter of the Prussian royal family.—Indiana Weekly.

Smallpox Is Air-Borne.

Dr. J. F. Thresh, in a report to the Essex county council, enumerates 75 cases of smallpox attributed to the proximity of the smallpox hospital ships in the Thames. There has, he says, in these cases been no communication personally, and whenever smallpox has been under treatment on the hospital ships outbreaks of the disease have occurred. Similar contagion has been experienced on the opposite side of the Thames, indicating that the disease is air-borne.—Cardiff Mail.

He Had a "Large Package."

"Car ahead," said the conductor to the unstead man, who was having difficulty in getting aboard.

"But tha's a baggage car," protested the unsteady one.

"Well, that's the place to carry a 'package,' isn't it?" retorted the conductor.—Chicago Post.

THE ACCIDENT ROLL.

It Proves That There Is a Destiny That Shapes Our Ends.

Sometimes the Merest Trifles Cause Death, at Other Times Terrible Calamities Have No Effect—The Theory Illustrated.

To take the accident roll of the United States for a week, one might find in the little things that cause death a measure of proof of the doctrine of the fatalist. When an engine boiler blows up without scratching the engineer, and when the prick of a needle causes death in a few days, one may well wonder at the fates.

Miss Blanche Young, of Wabash, Ind., was the victim of the needle point. She was at work in a millinery store and in sewing she stuck the point of a needle deep in her finger. She went on with her work, however, and the poisonous dyes in the fabric caused the finger to swell terribly. Blood poisoning developed rapidly, from which the young woman died in agony.

No less strange was the death of Edgar P. Seeger, of Chicago, at Utica, N. Y. A pimple appeared on the young man's face and he carelessly pricked it with a pin. Inflammation followed, blood poison set in, and death was the result.

Within a week the dentist's chair has cost three lives in a more or less direct way. At Sioux City, Ia., the filling of a tooth caused a stroke of apoplexy to Dr. Adelaide E. Kilbourne, and she died as she was leaving the chair. At Loyal, Wis., an aching tooth drove Kimbal J. Berry to a dentist with the request that it be pulled at any cost. It was a molar far back in the jaw, and was so firmly rooted that in the pulling of it the jaw bone was fractured. The accident was discovered at once, and remedies applied, but blood poison set in killing the patient in a few days. In Chicago the other day Miss Mamie Ferry, of Oak Park, died from fear of the dentist's chair, to which she was going in the Chicago College of Dental Surgery. She was troubled with a weak heart

VICTIM OF A NEEDLE POINT.

and the nervous strain to which she was subjected caused her to fall dead in the street.

Among the inconsequential things to cause death an acorn, the shell of a peanut, and a grain of corn are the least.

Barbara Bothman, a little girl living in Jackson, Miss., was the victim of the acorn. She had been complaining of pains in her right side, and the physicians who were called in decided upon an operation for appendicitis. In the appendix the acorn was found, much enlarged from the heat and moisture. The child recalled having swallowed it in her play. The shock of the operation was too much for her and she died.

Lloyd Rogers, four-year-old son of an Illinois farmer, near Galesburg, got a grain of corn in his trachea. A violent fit of coughing followed, in which the corn dropped into the right bronchial tube, out of reach. The kernel would move for several inches freely, but the physicians could not recover it and the child died from exhaustion.

Near Rockford, Ill., the seven-months-old son of Edward Fisher was allowed to play with a peanut. Putting it in its mouth the nut found its way into the child's windpipe, choking it to death before the parents discovered the accident.

One of the strangest deaths recorded recently in Illinois was that which came to the 13-year-old son of Thornton Daniel, of Scotland county. Another brother of the boy was on his road to a neighbor's house, riding a horse and carrying a sharp butchering knife in his hip pocket. The boy asked to go along, and was allowed to get up behind the brother on the horse. The horse began plunging with them, in which the younger brother was thrown against the sharp knife, which pierced his heart.

Joseph Carter, 22 years old, killed Edward Campbell, aged 44, with a single blow of his fist. The two men had been at enmity, and Campbell on one occasion had threatened Carter with a knife. Finally, at Campbell's challenge, the two met to fight out their grievances with fists. Carter landed the first blow just over Campbell's heart and the man dropped dead without a sound.

"You may figure it through the whole range of accidents," said a fatalist to a Chicago Tribune man. "You either 'get it,' as the soldier puts it, or you don't get it; and you couldn't explain why in an age."

How She Squelched Him.

He was a howling balloon of the Metropolitan club, and went too far. This is what he wrote her:

"It is with the greatest difficulty that I have resisted the temptation to respond to your frequent and pressing invitations to call on you at your home, and I feel that I shall not long be able to withstand them."

And she replied:

"I do not feel that I ought to add to your burdens, but if you should succumb so far as to call, mamma will be delighted to see you."

"There," said she, as she splashed the mauve wax on the back and stamped it with her cuff button, "when that pricks through his thick-skinned conceit he will not be able to sail around the Washington monument and back to the club in 30 minutes without stopping to pump up his tires."—Washington Post.

Mummies in America.

Comparatively few Americans realize that right here in their new-old land are to be found counterparts of Egypt's great wonder—veritable catacombs of mummies, as genuine as any that exist in the land of the Nile. It is now a generally received fact that the so-called "cliff dwellers" are not an unknown race at all, but our own peace-loving Pueblo Indians, who in the old days built their great stone houses much as we now build our forts, for purposes of defence. These wonderful stone houses, far up the steep cliffs of Arizona and New Mexico, abound in relics of prehistoric days, not least among them being the mummied bodies of their former occupants. In Peru also, at the time of its discovery by the Spaniards, the natives were very skillful in the art of mummy making.—N. Y. Herald.

Poisoned to Save Leg.

A Chinese boy was brought into the Peking hospital terribly injured by a heavy log falling upon him. The doctors cut off his leg to save his life. The mother came, apparently to help to nurse the lad. The patient, however, almost immediately afterward died, and expert examination showed that his mother had given him arsenic. Her reason, it is supposed, was to prevent her son from the disgrace of reaching the next world in a maimed condition. This is a very strong point with the Chinese, who always pickle an amputated member or have it buried with them when they eventually die. In this instance, the family being poor and the whole leg being difficult to pickle, the simpler course was taken of poisoning the boy, so that he and his leg might go together.—Indian Medical Gazette.

Sacred Fires of Balkans.

In the homes of Balkan peasants nothing is prized so highly as the fire on the hearth, for it is regarded as sacred, and is never allowed to go out. Tradition says that if it is extinguished misfortune will surely come, and that in many cases the death of the fire is a sure token that some member of the family will speedily die. Another time-honored tradition says that the sacred fire is able to cure many maladies, and this is supposed to be the main reason it is guarded so carefully throughout the Carpathians and the Balkan peninsula.—London Mail.

Soudanese Currency.

In a handbook for travelers in the Soudan, issued by the Egyptian government, referring to the currency, it is quaintly observed that "in the more undressed parts of the country" beads and bracelets are current. In the section on shooting there is a pleasant reference to the sporting tourist, who is warned that only crocodiles may be shot at from steamers, and even this practice is deprecated as being "more dangerous to the riverain population than the crocodile."—Detroit Free Press.

A Question of Climate.

An old colored preacher was telling his congregation that after death they would probably go to the moon. After meeting one of the best informed of the brethren said to him:

"Br'er Jinkins, don't you know dat de moon is col' ez ice, en ain't got no fire tail in it?"

"Br'er Thomas," replied the parson, "ef hit's fire you a-wantin', des keep on in de way yoo gwine en you can't miss it."—Atlanta Constitution.

Lucy Kemp-Welsh, R. B. A.

ENGLAND has a large number of women who can paint well. Ladylike drawing and dabbling in water color painting have been time out of mind included in the education of every British girl of good social standing, albeit the drawing was pitifully whopper jawed and the painting ofttimes produced nightmare impressions on one sensitive to color effects. Nevertheless English women were learning, for of late years feminine British artists begin to hold their own with the best of their brother painters.

Notably this is true of Miss Lucy Kemp-Welsh, who two years ago produced the spirited, noble picture "Lord Dundonald's Dash Upon Ladysmith." It was the picture of the season in England and won for the girl artist instant and wide recognition. Miss Kemp-Welsh has luck as well as genius, for from the beginning of her career she has been able to sell her work at excellent prices. For one of her first attempts, "Colt Hunting In the New Forest," she received $2,600. At this time, 1896, she was scarcely out of art school. In 1900 she had advanced so well along the road to high prices as to obtain $5,000 for her "Horses Bathing In the Sea." Her horse paintings are only second probably to those of Rosa Bonheur, now of priceless value.

Beyond doubt the new woman movement has been working on the mind of the ancient Royal Society of British Artists, now one hundred and seventeen years old. It required a generation to strike in, and only this year has the R. B. A. let down its bars and admitted women members. The new woman movement and the splendid horse paintings of Miss Kemp-Welsh were too much for it. It yielded most gracefully, and for the first time in its history the society allowed a woman to take her seat along with the men—two women, in truth, Lucy Kemp-Welsh and Mrs. Jopling. The specialty of Mrs. Jopling is portrait painting.

Miss Kemp-Welsh obtained most of her training from the gifted but erratic artist and teacher Hubert O. Herkomer at Bushey, a beautiful historic village forty miles from London. There Herkomer has his art school, there he has built his private residence, an immensely costly structure that looks the embodiment of high art

LUCY KEMP-WELSH, R. B. A.

knocked crazy. In sight of its gloomy and eccentric eaves Miss Kemp-Welsh worked and walked, serious, earnest, patient, simplicity itself in dress and manner. Her art style is the same, simple, direct, without any overloading of ornament, but full of a power and an enthusiasm over her theme that react on the beholder and draw him into sympathy too. A noble future is certainly before Lucy Kemp-Welsh.

Quite different is the other lady R. B. A., Mrs. Jopling the artist. Mrs. Jopling the woman. Perhaps her art specialty, portraiture, brings her more into social life. Besides being an artist, she is a musician and a writer. She had the advantage of gaining her art instruction in Paris, an advantage that can hardly be overestimated. The French have the gift of expression—expression in all directions—beyond any other race alive. In art their infinite painstaking is only equaled by the Japanese. Patiently they work, year after year, to gain the mechanical mastery over their theme, whether it be painting, music or dramatic representation or only the making of a garment. In the mechanical finish of a picture all the world must sit at the feet of France. American would be artists ought to know this.

Mrs. Jopling also received valuable instruction from Millais himself. Her portraits are characterized by brilliancy of expression and fineness of finish. She has exhibited frequently both in London and Paris. The painstaking patience she learned in Paris has been to her of value in another department of her profession. It has enabled her to be uncommonly successful as a teacher of drawing and painting.

MARY EDITH DAY.

THE STURGIS WAGER

A DETECTIVE STORY.

By EDGAR MORETTE.

Copyright, 1899, by Frederick A. Stokes Co.

"I mean that Arbogast was a defaulter. What his system of defraud-

"WHAT DO YOU MAKE OUT?" ASKED STURGIS.

ing the bank was I do not yet know; but an examination of the books will no doubt reveal this; and I should advise you, Mr. Dunlap, to lose no time in having it made."

"But," argued Dunlap, anxiously, "I tell you the books were examined last week."

"Yes; by Arbogast's accomplice."

"What, Chatham his accomplice?" exclaimed Dunlap, faintly.

"Chatham was in the plot beyond a doubt," answered Sturgis. "So long as no one had access to the books except his accomplice Chatham, of course Arbogast felt secure. But when, yesterday, the announcement was made that after the beginning of the new year his books would pass to the custody of another man, he saw that the game was up."

The men had returned to the president's office.

"Those are his very words," continued the reporter; "those he telegraphed to Chatham yesterday, as you will see if you hold before that mirror this sheet of blotting paper which I found on Arbogast's desk."

Dunlap, with an unsteady hand, took the blotting paper; and, holding it before the glass, studied the reflection intently.

"What do you make out?" asked Sturgis.

"Nothing whatever," replied the banker, promptly.

"What?" exclaimed the reporter; "do you mean to say that you do not distinguish any marks on the blotting paper?"

"I mean to say that I do not see anything to which I can attach any semblance of a meaning. The blotting paper has been used, and, of course, there are ink marks upon it; but, as far as I can see, these are wholly disconnected. They are entirely void of sense to my eyes, at any rate."

"Examine the blotter again carefully in this direction," said Sturgis, drawing an imaginary line upon the mirror, "and pay no attention to any other marks which seem to cross these lines. Now do you see anything?"

The banker examined the image in the mirror for some time before replying.

"If I allow my imagination to enter into play, I can complete several isolated letters."

"Will you dictate these while I note them here. Be careful to distinguish between capital and lower-case letters. Also separate the lines, and state whether letters come close together or are separated by a space."

"Very well," agreed Dunlap, who then proceeded to read off the letters he saw in the reflection of the blotter in the mirror.

When he had finished, Sturgis handed him the paper, upon which were transcribed the letters he had dictated. They presented the appearance shown below:

s Ch m D 1 6
y
G e p t m l t y
r r th l s s
r ry J g t

"Well," said the banker, "if you can make anything out of that gibberish, your imagination is more active than mine."

"It is not a question of imagination," said Sturgis; "let us proceed systematically. Here is a telegram blank detached from a pad I found on Arbogast's desk. Compare its size with the outline of the marks on the blotter, and you will see, in the first place, that the message would just fit snugly on this sheet. Next, you will probably admit that the first line of marks on the blotter probably contain a date; the second, a name; the third, an address; the last, a signature, and the intermediate lines, a message."

"I am quite willing to concede so much; for no business man would be likely to write a telegram differently."

"Very well. Now, then, let me hold this blank so that the reflection of its vertical rulings may appear just above the image of the message. These lines, remember, separate the words of the message. Extend them mentally, and note how they divide the letters of the blotter. Will you hold these sheets while I transcribe the result?"

In a few minutes more the reporter had drawn several lines on his copy of the reflection in the mirror.

"I don't see that you are any better off now than you were before," remarked Dunlap, examining the result.

"Wait a minute. These vertical lines, we say, divide the words of the message. There are five words to the line; only two on the last line before the signature; that is to say, 12 words in the message. Now, consider the first word. Evidently the 'G' begins this word since it is a capital; and the flourish on the tail of the 'e' tells us plainly enough where the word ends. Note the space between the 'G' and the 'e.' Have you ever taken the trouble to ascertain how constant in any given handwriting is the space occupied by the different letters? Try it some time. Count the characters which you have written in a number of different lines, reckoning spaces and punctuation marks each as one character, and observe how closely the results will tally. Basing my conclusions on this fact, I may safely affirm that the first word of the message is 'Game,' 'Gave,' 'Give,' or some other word of four letters beginning with 'G' and ending with 'e.' I shall proceed to fill up the balance of the message as I read it between the letters."

Sturgis wrote slowly and carefully for a few minutes.

"There; behold the result."

The message had now assumed this form:

Dec. 31, 1896.

Thomas Chatham, ——, B'way, City.

Game up Meet me to-day
corner South and Wall streets
J. W. Arbogast.

"Compare this with the reflection of the original and tell me if you do not now detect various isolated marks and incomplete letters, all of which tally with the text I have inserted here."

Dunlap made the comparison.

"I am obliged to admit that your conclusions now appear plausible," he reluctantly admitted.

Sturgis shrugged his shoulders.

"Well, call them plausible, and let us proceed. Chatham kept the appointment yesterday; but for some reason Arbogast was delayed in leaving the bank. Perhaps the necessary preparations for his flight took longer than he expected."

"You think he intended to abscond?"

"Why should he have changed the combination of his safe, as he did, if not to give himself as much time as possible to reach a place of comparative safety before the books could be examined?" asked Sturgis. "Chatham, becoming impatient, forgot the dictates of prudence and started for the bank to ascertain the cause of his accomplice's delay. He met Arbogast at the Wall street door. The two men reentered, Arbogast setting down his satchel in the vestibule and leaving the outer door ajar, as Quinlan found it a few minutes later, when he stole the satchel. I have every reason to believe that it was at Chatham's request that the men returned. He wished to use the telephone, and he did so."

"Your story is connected, and it is certainly not lacking in details," said Dunlap, incredulously; "in fact, the details are far too abundant for the evidence thus far advanced."

"Every one of the details is based upon facts," replied Sturgis. "What I have accomplished thus far has been simple enough, because luck has favored us. Yesterday being cleaning day at the bank, the floors were scrubbed some time during the afternoon, before Arbogast was ready to leave and before Chatham had arrived. It thus happens that almost every footstep of the two men has remained faintly but distinctly outlined upon the wet floors, which have since dried, preserving the record. The detectives last night obliterated a portion of this record, but they have left traces enough for our purpose. If you care to crawl around on all fours as I did you can *readily distinguish these traces for* yourself."

"No, thank you," answered the banker. "I prefer to take your word for this part of the evidence."

"Then I shall resume my story," said Sturgis. "The footprints show that Arbogast stood at his desk while the scrubbing was going on. We may safely say it was after half-past four o'clock when he started to leave the bank; for otherwise it is presumable that Chatham would have waited for him at the corner of South and Wall streets, as he was asked to do in the bookkeeper's telegram. He first walked over to the safe and closed it, changing the combination, so that the lock could not be opened until he had had a fair start. Next he went to the clerks' room for his hat and coat and for the satchel in which he had packed just the few necessities for immediate use in his flight. He started to leave the building through the Exchange place door; but probably remembered that the Wall street door was not locked, and went back to lock it. As he was about to close the outer door, Chatham arrived on the scene, and the two men reentered, as we have already seen. The footprints tell their story fully and absolutely, their chronological order being established by the occasional obliteration of a footprint in one trail by another in a subsequent trail. The two men walked back into the room in which we now are. Their actions after this will be clearer to you if you will follow on this diagram."

Mrs. M. A. Hall, of 219 Prescott place, says: "For several years I had a dull aching pain across my back, at times extending to my hips. I was compelled to lie in just one position all night and stooping, lifting or bending forward aggravated the pain. Although I used different remedies that were recommended to me I obtained little, if any relief. I saw Doan's Kidney Pills highly endorsed in our daily papers and procured a box at L. W. Randolph's drug store. It was not long before I felt great relief and I was surprised how quickly the pain in my back disappeared."

For sale by all dealers; price 50 cents a box. [Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Ancient Choristers.

One of the most remarkable clubs of modern times has its headquarters in Alameda, Cal. It is known as the "Old Men's Singing club," no one being admitted to it who has not the gift of song and who has not passed at least his sixty-first birthday. The club has 101 members, with an aggregate age of 6,666 years. The only woman artist was the Senora Benina Barone, aged 103 years, who danced and sang "La Tolla." This old Spanish woman was born in Mexico in 1798; she danced in the Spanish city of Mexico while in the first blush of maidenhood, and the picturesque cavaliers of those times pelted her with roses. To the tinkling accompaniment of a guitar they sang love songs underneath her window. Those, she says, were merry days. The weary feet, which at their owner's request danced once more in order that a few extra dollars might be added to the fund for the poor, were as light as in bygone days, and if the aged voice quavered no one noticed it.—The Strand.

New Order for Women.

A graceful compliment, it is reported, is to be paid to Queen Alexandra by the king at the coronation in the institution of a new order for ladies with which her name will be associated. As far back as the seventeenth century female orders of distinction were established. In 1652 an order for ladies was founded by the duke of Wurtemburg, with the curious name of "The Order of Death's Head," the badge being a white enameled death's head with jeweled cross. Empress Eleanora of Austria founded "The Ladies' Order of the Cross," and in 1662 instituted another having the peculiar title "The Order of Ladies, Slaves to Virtue," with a golden sun as badge, encircled with laurel. In 1708 Empress Elizabeth originated "The Order of Neighborly Love," with a golden cross for a badge. In the nineteenth century orders for ladies were instituted in Prussia, Portugal, Russia and Spain.—London Chronicle.

Origin of the Sabbath.

The Sabbath as a religious institution is far older than the Pentateuchal legislation. It, too, can be traced back to a Babylonian prototype, not, however, as a day of rest from labor, but as a kind of atonement day, when by various rites and by observing certain restricted regulations the anger of the gods could be appeased. On this old institution the Hebrews ingrafted their religious ideas and produced the unique institution of a day observed as a respite from the week's toil, and which, being an "inauspicious" occasion, a dies irae, is viewed as a "delight."—Independent.

One View of It.

"Now, you're squabbling again," said the mother.

"Well, Dorothy got mad and I got mad," explained the little one, "and we both said mean things."

"But you shouldn't," urged the mother. "You should have more self-control."

"I don't want it," retorted the little one. "I'm willing to let Dorothy have all of it."

"All of what?"

"The self-control."—Chicago Post.

HER FAMILY HISTORY.

Sarah Bernhardt Tells Some Intimate Facts to Insurance Doctor and Gets Big Risk.

The $100,000 insurance risk recently taken out by Sarah Bernhardt was divided among several large English companies, and each received a copy of the original examination by a physician of the company that accepted the great actress. A copy of the papers in the possession of an English visitor in Chicago shows that if Mme. Berndardt dies M. Maurice Jean Ambroise Bernhardt, her son, married and about 35, will inherit the insurance money, together with $100,000 worth of real estate in Paris, an estate elsewhere in France and much money, bonds and other valuables.

MME. SARAH BERNHARDT.
(Considered by Critics the Greatest Living Actress.)

The statement is to the effect that the divine Sarah was born on October 23, 1844, that her father died at 37 and her mother at 51. She has no brother. Of her two sisters, one died of accidental poisoning, the other of pneumonia. The physician makes especial mention of the fact that Mme. Bernhardt submitted most affably to the physical examination, and that, all things considered, she is the best risk he has ever examined.

In answer to various questions the actress said she had been ill only once in her life, when a serious surgical operation was necessary. She never wore stays. Her full name is Sarah Bernhardt Damala. She owned $100,000 worth of Paris real estate and earned $10,000 a week in the theatrical season.

Her home is on the island of Belle Isle, on the west coast of France, a place immortalized by Alexander Dumas the elder in "The Three Guardsmen." Her height was five feet 6½ inches and her weight 130 pounds.

In the matter of wines and other liquors she confines herself to one glass of champagne at dinner each day. Her principal food is the juice pressed from fresh beef.

Her art takes up all her time, and to prevent the small but worrying things of every-day life from interfering with it she carries with her a woman companion and a masseuse, two maids and two men servants. Her daily routine she gives as follows: She arises between 11 a. m. and noon. She takes a cold bath. She gives herself over into the hands of her masseuse. She has a light breakfast. If the weather is nice and dry she takes a drive; if not, she studies, reads or talks.

She has a light dinner, the principal ingredient of which is the juice pressed from beef; drinks her glass of champagne and goes to the theater at eight o'clock.

a wide experience in public office. He came into national notice as interstate commerce commissioner and went to Cuba as a special commissioner to investigate the affair of Gen. Ruiz. He was offered the choice of several other places by President McKinley, but his personal affairs needed his attention. Mr. Calhoun was born at Hubbard, O., in 1850, and he was a schoolmate of William McKinley. In 1896 he was an important factor in capturing the Illinois delegation to the national convention for his old friend.

Milk Kept in Frozen Chunks.

There are but few cows in Labrador. No wonder. The natives procure their milk for the winter and then kill their cows. The milk is kept in barrels, where it freezes and never threatens to sour throughout the entire season. When one wishes any milk he has simply to go to the barrel and cut out a slice.

SPORTING NEWS.

ON THE DIAMOND.

The Clinton Avenue team will cross bats with the Dunellen A. C., at Dunellen, Friday morning. In the afternoon they will journey to High Bridge and play the Taylor Steel Works team.

Another baseball game scheduled for Friday morning is one between members of the O B Joyful Club and the Cuban Giants. It will take place on the latter's grounds at Arlington avenue and Randolph road.

Just a hint as to what Fred Booth, the Safe Works twirler, is capable of, was shown by him in Saturday's game. The Dunellen batsmen secured but four hits from him and he allowed only two men to walk. This is practically his first attempt in this city and Manager Muir is confident he can surpass it with ease.

Manager Cose, of the Hope team, has decided to place Joseph Kennedy, his latest twirling acquisition, in the box against the St. Marys Friday morning. Kennedy is a student at Union College but will summer in Plainfield and take part in all the League games with the Hope nine. He is rated as one of the best pitchers ever produced by the college and has a ball that is more of a mystery than the famous Chinese puzzle.

The boss horse shoers and the journeymen horse shoers, of this city, are practicing for a baseball game to be played Decoration Day morning. Jimmy Kane as catcher and Dick Birmingham as pitcher, will form the battery for the journeymen, and the bosses think they have an invincible pair in Jerry Connors and Frank Hand. Connors will pitch and it is said he is going to bewilder the journeymen with a curve of his own called the "horseshoe bend."

The League games commence Saturday and it may not be a miss to state when where and how the teams contest. In the morning beginning at 10:30 the Hopes play the St. Marys on the latter's field and the Y. M. C. A. and Safe Works meet on the latter's field. In the afternoon, commencing at 3:30, the Hope and Safe Works meet on Hope Common and St. Mary and Y. M. C. A. play on Pittis' field. Special accommodations have been made for the reception of the gentler sex.

Decoration Day morning beginning at 10 o'clock, the Cartarets with McGee, the New York League ex-pitcher, will try to clean up the Westfields. The Manjer A. C., of Brooklyn, will be on hand at 3 in the afternoon. This team defeated Westfield 2 to 0 last Labor Day afternoon. Saturday the Y. M. C. A. team, of this city, will have a shy at the semi-professionals. Will Rushmore, of Park avenue, who joins Montclair after June 1, will be in the box for Westfield against the Cartarets.

The Hope team "got even" when they met the City High School nine Saturday. Although the score tells a story of complete victory for Hope an analysis of the game is very interesting. Hope made six runs in the first inning—only one was an earned run. A hot grounder to Munro was well fielded but an error at first made the runner safe. Then a drive to right field was badly handled. A fly muffed at centre was the next misfortune. Correct playing should have left two out against Hope at this juncture—possibly three; at any rate only one run was earned in the whole inning. For the next five innings Hope was blanked every time. Had High School not gone to pieces in the beginning there might be a different story to tell at the end. Thus High School made seven base hits, and only got one run, while Hope, with only ten base hits, secured twelve runs.

GOLF.

S. A. Cruikshank, of Belvidere avenue, played for the Non-residents' cup at the Colonia Club Saturday, making a net score of 96. His handicap was 26.

The Middlebrook Country Club at Bound Brook will hold a golf tournament on Memorial Doy. The club is having tennis courts laid out and a place to play croquet is being prepared.

Mr. McCarthy, the expert and caddymaster at the Hillside Tennis and Golf Club, is becoming very popular. He is thoroughly competent to teach the game and the club has given him that permission.

Two games in the tournament of the East Jersey League were played Saturday. The Forest Hill team won from the South Orange Field Club by a score of 17 to 1, and East Orange defeated the Elizabeth Town and Country Club team 12 to 0.

J. Whitney Baker, of Stelle avenue, has entirely recovered from an attack of measles and expects to resume golf playing. He and Roger F. Murray are two from the Hillside Tennis and Golf Club who have entered the State tournament to be played a little later.

Just ten minutes before time to begin the golf match Saturday on the Hillside Tennis and Golf Club course, word was received that Howard Wright could not be present and play. Captain Dumont had counted on him as a worthy player and his absence was felt, although the home team did win by a large score.

WHIST.

The Forest Hill Whist Club team played the Newark Bay Boat Club team Friday night and won, 13 to 10.

The Baltimore Whist Club added another victory to its already long string by defeating the Maryland Country Club Saturday by twenty-three tricks.

The Newark Bay Boat Club won another victory for the Metropolitan Challenge trophy a week ago. This time the defeated team was the Acquackanonk Club, of Passaic. The Newark Bay Boat Club did not make many gains in this match, but those they did make were large, one being of six tricks and another of four.

TENNIS.

The second round of tennis will be played Friday on the Park Club courts, the present tournament being the best two out of three, the winner to be presented with a cup.

WHAT PEOPLE ARE DOING

SOME BRIEF PARAGRAPHS OF A PERSONAL NATURE.

Many Folk of Greater Plainfield Are Entertaining or Being Entertained.

A. Kane, of Fillmore avenue, has returned from a visit with Philadelphia relatives.

Mr. and Mrs. William Wyman, of East Front street, have returned home after visiting relatives in Hunterdon county.

A baby boy, who came last evening, is the center of attraction at the home of Mr. and Mrs. Albert Boe, of Chatham street.

The condition of Joseph Carbone, of Park avenue, who has been ill for the past two weeks, has become critical. A New York specialist was called in consultation last evening.

W. L. Holbert, representing the International Correspondence Schools, of Scranton, Pa., through Plainfield and Somerville district, is in the city on his regular weekly business trip. Mr. Holbert is in no way connected with the display of the schools here, he claims.

Mrs. J. Herbert Case, of 83 Duer street, is ill with pneumonia and typhoid fever. As yet the attack is not in a severe form and the attending physician, Dr. Jenkins, hopes to prevent a serious attack. Mrs. Case had a very good night, and this morning she was resting comfortably. A trained nurse is in constant attendance.

COMPLETE SHUT-DOWN.

All Work Suspended at Lehigh Coal Wharves at Perth Amboy Saturday Night.

(Special to The Daily Press.)

Perth Amboy, May 27—All work was indefinitely suspended at the Lehigh coal wharves here Saturday night. This means a complete shutdown of the shipment of coal at this place, on the wharves and from the storage grounds.

The supply of coal in the storage grounds is about exhausted. At Port Reading, the Philadelphia and Reading Company is doing nothing, but at South Amboy the Pennsylvania, which handles soft coal, is rushed beyond all precedent. All the ships are blocked with boats and barges awaiting cargoes, and large tows are being received twice a day.

Home From Cuba.

After three years military service in Cuba, as a member of the Second Cavalry Band, Frederick W. Bowden, a former Plainfield boy, is in town visiting friends and renewing old acquaintances. He was discharged yesterday from Fort Meyer, Va., his term of enlistment having expired. It is Mr Bowden's intention to remain in Plainfield until the arrival of his brother, Corporal John Bowden, now on his way from the Philippines. Both will then probably re-enlist.

Shirt-Waist Luncheon.

At Mrs. Truell's of Central avenue, a shirt-waist luncheon was given yesterday by Miss M. Stephanie Krom in honor of Miss Gertrude Hardman, of New York. The table was smartly decorated with pink roses and smilax, pink being the prevailing tint of the floral adornments of the room. Several young women were present and the function was most delightful and successful.

To Start Plant.

The Meyer Rubber plant at Milltown, which was closed six years ago, has been sold to the International Wheel and Fibre Company, of Newton, Mass., for $300,000 and will be started at once with 200 hand.

Exhibition Continued.

The exhibition of work at Irving School will be continued tomorrow afternoon and evening, as owing to the inclemency of the weather today, many people will be prevented from attending.

New Member Sworn In.

The Borough Board of Education met last evening. James R. Joy was chosen chairman, and John Valiant was sworn in as a new member of the board. No other important business was transacted.

FOUND DEAD.

Passing Away of B.B. Holmes, Principal of Public School No. 1, Shocks Elizabethport.

Residents of Elizabethport were much shocked yesterday when they learned that Barnabas B. Holmes, who for thirty-six years had been the highly esteemed principal of Public School No. 1, the largest in New Jersey, was found dead in bed.

Death is believed to have been caused by heart failure brought on by an acute atack of indigestion. The body was removed to Smith's morgue, where an examination of it will be made by County Physician Westcott.

Mr. Holmes was a member of Graystone Presbyterian church. He is reported to have left considerable money, the savings of a lifetime.

CITY JOTTINGS.

—Harry Lunger of West Sixth street, has resigned his position as night operator at the local telephone exchange. His place is being taken temporarily by Day Chief Charles McCann.

Read What Interests You.

What you need first of all for your course of reading is a vital interest in some one subject. Having that, the field is before you. In tracing the thread of one interest through the mazes of life, relying much upon yourself for the connecting links, you will find yourself reading and thinking as you have not read or thought before. Your own mind will be at work, and it will grow and strengthen with its original labor. Nothing is more deadening to my interest than a long list of books and authors. That is why I urge you to start with some one idea in mind, letting that naturally grow and expand.—Ada C. Sweet, in Woman's Home Companion.

Curious Frost Screens.

In California, where fruit is frequently damaged by sudden warming at sunrise after being exposed to frost at night, it has been found that a screen of lath, poised like a roof above the trees, serves as an effectual protection by preventing the too precipitate action of the sun's rays. The investigation has shown that "air drainage" plays an important part in the prevention of frost, little damage being being caused by the latter in places where the air is in motion. Where the air is stagnant the injury from frost is found to be marked.—Science.

Well-Founded Superstitions.

"Superstitious!" he exclaimed. "Of course I am superstitious. I sat down to dinner as one of a party of 13 once on the 13th of the month, and 13 courses were served."

"And one of them died?"

"Yes, sir. One of them died."

"How soon after the dinner?"

"Thirteen years after. Oh, I tell you, when 13 sit down to dinner it's a dead sure thing that somebody is going to die some time."—Stray Stories.

Her Way.

"Her husband is very handsome, don't you think so?"

"Yes, quite handsome."

"Isn't his plain wife jealous?"

"Not a bit of it. If he gets a little flirtatious she simply cuts off his weekly allowance of nine dollars, and that ends it."—Cleveland Plain Dealer.

Preferred the Lesser Evil.

"I'm sorry you don't like the new nurse," she said to her husband. "She's so good about singing to baby and keeping him quiet."

"Yes," was the calm reply, "but I would rather hear the baby cry."—Stray Stories.

HOPE TO PAY.

Calvary Baptist Church Has Until Tomorrow Afternoon to Save Its Church Building.

The troubles of the Calvary Baptist church are still unsettled. Tomorrow afternoon at 2 o'clock is the time set for the sale of the property unless the balance, $1,178 is paid by the members. The judgment is held by W. C. Smith, contractor, who is represented by Lawyer William Newcorn.

Five weeks ago the church paid $200 on account of the total amount, $1,378. The interested parties met this morning and held a conference. It was promised at the time that the balance would be paid by 5 o'clock this afternoon, Lawyer Robert M. Clark, having recently been called in to assist in the settlement.

GOOD REASONS FOR UNION OF THE CITY AND BOROUGH

Former Mayor Wm. L. Saunders' Able Address at the Mass-Meeting of the Union Association.

CLEAR EXPOSITION OF SITUATION.

SKETCHED THE HISTORY OF THE MOVEMENT WHICH AIMED TO FORM A GREATER PLAINFIELD.

Plain Statement of Facts Concerning What is to be Gained by the Borough in Becoming a Part of Union County and Uniting With the City of Plainfield—Advantage of One Set of Officials—The Saloon Question—The Sewers—Interests of Two Places Are One and Government Should, Therefore, be the Same.

The promise was made a few days ago that the able speech delivered by W. L. Saunders at the annexation meeting would be reproduced in The Daily Press in full. Today it is duly presented.

The speech was not delivered exactly as follows, since owing to the lateness of the hour, the less striking portions were omitted. The strongest part of Mr. Saunders' address was the elaborate presentation of reasons and figures in graphic diagrams, but lack of space prevents their publication today. However, these figures have been reproduced in a pamphlet entitled "Thirty Reasons for Annexation and Consolidation," which may be obtained by applying to this office.

Following is the substance of Mr. Saunder's speech:

"As I was coming home on the train the other day thinking of this meeting, I read a little story in the Commercial Advertiser. Perhaps it will serve to introduce me to this audience. A colored man was in court, and someone turned to him and said, 'Are you the defendant?' 'No, sah,' he replied, 'I ain't done nuffin to be called names like dat, ax my lawyer he does de talkin.' 'Well then, who are you'? he was asked, and Sam replied, 'I'se only de gentleman wat stole de chickens.' This is my first apology for addressing you tonight. My second and last is a serious one. I want to express my regret that during the past six years of earnest effort on behalf of consolidation some one more capable and influential than I should not have taken hold with equal enthusiasm. One might almost conclude that a cause so worthy, an issue so plainly in the public interest, a result so logical and so certain would come to pass of its own accord; that the public and especially the taxpayers would rise in a body and consolidate.

"History, my friends, does not record an instance where changes of great public importance and which bring happiness, prosperity or liberty to the people are initiated in any other way than by one or two individuals, perhaps obscure and unknown, yet willing to do the work that must be done in order to begin. 'If we would remove mountains we must begin on grains of sand.' The engine will not start until the little spark has kindled the flame under the boiler, 'What is everybody's business, is nobody's business.'

"It was the poor, fanatical John Brown who precipitated a conflict that settled for all time the preeminenee of this Nation over the States, and made plain the truth expressed in the motto, 'In union there is strength.'

"Shortly after these bills had been introduced in the House of Assembly, a discussion took place at Senator Reed's house between the Senator, Mr. Henry McGee, and myself on the merits of the case. Mr. McGee said that criticisms had been made that one or two individuals had attempted to do that which belonged to the people as a whole, but he added, 'I told them that no great change of public importance was ever brought about until (turning to me) somebody has gone crazy over it.' But it does seem that entirely too much importance is given to individuals in this matter. Of what consequence is it who suggests a plan of action when the plan in all its details is before the public for discussion and action? Does anybody remember who the individual was who started the movement to incorporate this borough out of the township? Somebody must have started it, it could not start itself. Progressive movements in the world are not sudden and spontaneous uprisings like volcanic eruptions. Perhaps it was the chairman of the Anti-Progressionists meeting the other night who started it. I am told that he supported this robbery of a poor rural township by taking the borough away from it! But I would do him justice and say frankly that I do not believe it. He is too good a Baptist, and too rural in his inclinations and sympathies. 'Thou canst not say, I did it,' I was not here. They tell me that there was a referendum in this case of kidnapping, just as there is in the consolidation crime, and I believe it went to vote once and was defeated, just as consolidation was. Yet they had the audacity to bring it up again, they held public meetings just as we are doing, and it won just as we will win. Of course it won because it was a wise progressive measure, a business proposition opposed by sentiment. It was probably supported by a gang of 'Scheming Politicians' just like the Consolidation measure. It would be interesting to know how the vice presidents of the recent 'Anti' meeting stood on that borough incorporation. I think you will find many of their names on the opposition list. Pass a bill to give a ten dollar note to each man in the State and you will get opposition. You will surely hear that there is a political scheme in it. A new thing is always looked upon with suspicion until it is understood. Throw the full light of public criticism upon a measure, get down to every root and branch of it, and if there is any rottenness there it will show up. If the real facts and figures bear logically against it, the structure will fall. As a firm believer in Consolidation, and with reasons for my belief, there is nothing which I more earnestly desire than public discussion. Begin as far far back as you will, ask any questions that are in your mind, put me on the witness stand as the defendant if you wish and while I may not be able to answer all questions, because my knowledge is limited, yet you should know that so far as within me lies, I will tell you the truth and the whole truth. Let me briefly review the history of this movement.

"In 1896 thirty-two people signed a paper which began with these words: 'The undersigned, citizens of North Plainfield, favor the consolidation of city and borough.' Early in 1897 a meeting was held and an organization affected. A circular, a copy of which is before me, was printed and distributed, about the borough, a second distribution was made about two years later. There were numerous contributions to the newspapers, and editorials appeared from time to time discussing the pros and cons of the matter. In 1898 the Board of Trade after discussion and approval of consolidation, requested the Mayors of Plainfield and North Plainfield to each appoint a committee of three to act with a committee from the Board as a joint committee on Consolidation. This committee held several meetings, and among the resolutions which were passed, with but one dissenting vote were the following.

"Resolved, 'That Consolidation is desirable.'

"Resolved, 'That a Committee be appointed to prepare and submit to the Legislature a bill which will provide for the consolidation of Plainfield and North Plainfield.'

"It was decided to test sentiment in the borough, and the broad question of consolidation was put on the regular ballot, and through the efforts of Mr. Smalley, Senator Reed and the solid Republican organization, it was defeated. Less than half of the voters expressed themselves on the subject. The friends of the movement were not discouraged. Discussions went on in the newspapers, and among individuals. It became plain that the subject was so complex and so many impractical plans were proposed, that it was decided to frame a legal basis for consolidation by presenting a concrete plan to the Legislature, so that after the passage of the necessary laws, the people might have the opportunity to consolidate if they wanted to. Three years had elapsed since the question had been voted on. Some who had voted against it did so because no legal basis had been outlined. Taxes had been going up, there was a strong sentiment for sewers. The Plainfield system had stood the test, and sentiment for consolidation had grown. A few of the active friends of the movement decided to prepare the necessary bills and make an effort to get legislation.

"A referendum was always attached to the consolidation bill. It was there when the bill was first presented to the Assembly. In order to cover the legal and the practical points involved it was thought wise to provide a separate bill changing the county line, so that when the proper time came for Plainfield and North Plainfield to confer and vote upon the question of consolidation, the obstacles of county differences would have been removed, so that the terms and conditions of consolidation might be agreed upon. There was no referendum attached to this county line bill until it was put there by Senator Reed, when the bill went before the Senate Committee. County lines are mere political divisions of States. They are created by Legislatures and are changed from time to time to meet changed conditions. Who, but an office-holder cares what county he lives in? It is the duty of the Legislature as the representative body of the people to give a hearing, to listen to and weigh objections which might be raised to a proposed act, and it is the privilege of every citizen to go to Trenton and protest. A referendum is unprecedented in a bill changing a county line; but it is a fair proposition and the friends of this movement have never had the slightest objection to it, because we set out only to make a legal platform for the people to stand on if they wished to do so, and these laws as they are presented to you are to the fullest extent, Democratic laws dependent upon action by the people. The issue is absolutely in your hands, and I am not here to plead with you to vote for or against this proposition, but to present to you in a plain business like manner the facts and figures which bear upon the question, and which have so forcibly convinced me as a citizen and taxpayer that the true destiny of our beautiful borough is with Plainfield and Union county. No one proposes that you should move either from the county or the borough; Union county and Plainfield are to come to us. We will remain exactly where we are. The only move that we will make is one of forward progress. If I do not prove that consolidation is wise, that the facts and figures and the plain logic of the situation are with us, then I will step down and out, because I am like you, seeking only that which is best, for my home, my property and my fellow citizens. But before we begin I want to ask you to remove from your minds all sentiment and prejudice. Drop the personal side of this case. Free your minds from the idea that there is anything dishonest about drawing the line of Union county around this property of yours. Don't be fooled by the holier-than-thou Prophets who would imply that the fifty vice presidents of this meeting would lend their names to a measure which is not above reproach. Next, let sentiment take second place, when weighing this business proposition. I confess to a great liking for the sentimental side of things. I once tried poetry but found that it didn't pay. Only the wealthy can afford to put sentiment ahead of hard business economy in this world. There are too many people of moderate means in

FINE SHOWING AT THE IRVING

Excellent Exhibit of Pupils' Work Held at Irving School Yesterday and Today.

ART WORK A FEATURE.

Each Class Gave a Comprehensive Exhibit of the Work Done and Made a Special Feature of Some Particular Line—Miss Petrie, Principal, is Ably Assisted.

Exceeding the most sanguine expectations of the host of visitors who visited the Irving school, yesterday afternoon and evening the pupils exhibit at that building was a marvel of educational work. Beyond a doubt it was the most artistically and attractively arranged of any display in the school series and was a revelation to all.

The assembly hall had been set aside for the exhibition and its beautiful permanent wall decorations of casts and paintings formed a most appropriate background for the vari-colored class displays. Miss Genevieve Petrie, principal of the school, supervised the reception of visitors and her corps of teachers explained minutely each grade's work. They were ably helped by Miss Daisy Gilbert and Miss Hedwig Grotman, who registered all comers, and Masters Walter Gray, Ralph Taylor, George Fisher, John Fritts, Willie Briggs and John Rittenhouse who acted as ushers.

Art work predominated in the entire exhibit and it demonstrated the amount of ability capable of being displayed by pupils when the proper pressure is brought to bear upon them. Much of it would reflect credit on many adults and that most of it was executed by childish hands averaging ten years seems impossible. All was free hand object drawing and the color scheme, accomplished by brushes, would be hard to improve upon.

Each grade's display was a general one, embracing the class curriculum, but in most cases the teachers had brought out prominently some feature in which a group of pupils excelled. None were neglected, however, each child having some exercise on view. Beginning with the kindergarten, taught by Miss Lilian Glen and Miss Bessy Fitz-Randolph, there was a large display of elaborate mounted work, with an added attraction in the form of pretty booklets prepared by Miss Glen.

The first grade A, one of the half day classes at this school owing to the limited room, taught by Miss Mary Griswold and Miss Mary Buckle, had one of the largest and prettiest displays of any the school exhibits. It consisted of construction work from dictation, measurements, original drawings, picture colorings and free hand cutting. Some passepartout work showed much aptness and pretty embroidered silk winders, pin trays, handkerchiefs and waste baskets revealed to a small extent the patience possessed by the nimble fingers of the manual training pupils. Arthur Briggs, Willie Thompson, Felix Janke and Mary Wilson had remarkably good designs in this group.

Construction work was the feature of the first year B grade in charge of Miss Harriet Filmer, where a whole set of parlor furniture was seen. The drawing was original and the cutting was of great interest. The best art work was that of May Rhodes, Robert Scott, Emma Edmunds, Haze and John Apgar. Miss Lucia Wood had charge of the first year C work and had a great variety of drawing in ink and color and some very good writing. In construction work there was a whole set of bedroom and dining room furniture made by the pupils from cardboard. Edson Woodhull and Jamie Manning were the originators of some pretty designs in this display.

Class work in general was shown by Miss Louise Egan in her display of first grade A designs. The construction work was novel, embracing a set of kitchen furniture, trains of cars and other attractive articles made by the pupils. Finely illustrated papers, attractive boxes and picture frames, were some of the useful articles seen in the second year B in charge of Miss Lucy Brown. Some results of raphia work, or weaving, which begins in this grade, were greatly admired.

Third grade A display, supervised by Miss Ada Clark, featured some neatly illustrated papers showing the general work of the grade. A more elaborate showing of raphia work was seen in this section. Miss Alice Lee, teacher of the third year B, showed some very beautifully illustrated written papers, especially in language and geography. The construction work here was very attractive, both for its excellence and variety. The raphia work was very well done and showed neatness and skill on the part of the pupils.

Neatly written papers were also prominent in the fourth year B, in charge of Miss Lottie B. Stillamn, those in language being the best. Creditable illustrations were appended to each exercise. The manual work and napkin rings made from raphia were very much admired. Among the pupils having excellent work were Clarence Hoffman, Grace Mundy, Phillip Mosher, Arthur Stryker, Lizzie Porter and Harold Schenck.

Miss Florence M. Hughes had reason to be proud of the fourth year B exhibit, as nearly every visitor lingered over the beautiful art work and paused to admire its arrangement. The drawing was original and attractive especially in the way of designs of color and ink. Attention was called also by original compositions, neat arithmetic papers and map drawings. In this class was seen some very attractive hats, mats and various articles made from braided raphia. Pupils worthy of mention were Archie Thompson, Arthur Anderson, Jack Hallard, Claude Kingslow, Nellie Squire, Agnes Hendry and Florence Brown.

Excellent language papers with illustrations, were prominent in the fifth year grade, Miss Frances E. Cory, teacher. The drawing in this grade especially the pose work, was very well done, while the pen and ink work was conceded to be the best in the exhibit. Special mention for excellence in this department is due Miss Hedwig Grotman and Harold Miner. Miss Grotman's work was of a high order and by following the proper course she will undoubtedly make a name for herself.

The exhibit concluded with the sixth grade display which was excellence itself. Miss Anna W. Watson was in charge and she had made a specialty of enlarged drawings which were indeed remarkable. To many they passed as the work of experienced artists. The drawing was executed in connection with the study of Greek and Roman architecture and consisted of small pictures enlarged nine times, by Ralph Taylor, John Fritts, George Fisher, Fred Gray and Walter Gray. John Fritts had two admirable pictures done in charcoal. In this display also was a varied display of basket work which called for many favorable comments form the visitors.

The exhibit will be continued this afternoon and evening.

TO DEWEY PARK.

Aluminum Press and Plate Works Will be Moved From This City in a Short Time.

The deal was closed yesterday afternoon whereby the entire plant of the Aluminum Press and Plate Works is to be moved from this city to Dewey Park, where the company has purchased ten acres of land. Work will be started just as soon as possible to erect large commodious buildings for the company. The idea in moving from this city is that the company desire ten acres of land, with the privilege of getting more if nceessary.

The company has orders ahead which will keep the works running steady for fifteen months and an era of prosperity is predicted for this concern. The site chosen at Dewey Park is one of the finest and it was obtained through S. D. Drake, who is always wide-awake and doing something.

VALUABLE PROPERTY.

Offered for Sale in East End by Elston M. French.

A number of building lots in the eastern section of the city are being offered at private sale by Elston M. French. The lots are situated at the corner of East Second street and Terrill road, on the main trolley line. The street, on which the land abuts, is macadamized and the sidewalks are flagged and curbed. The terms of sale are ten per cent. down, with five per cent. monthly payments. Special inducements will be given to cash buyers.

New Ladder Received.

A new thirty-foot ladder was received at fire headquarters yesterday to replace the one destroyed in the Babcock fire. The frame of the ladder is made of ash, while the rungs are of oak. It is much easier to handle than the old one, although it is less than half its weight.

MARKED NINTH YEAR OF ENDEAVOR SOCIETY

The Anniversary Observed at the First Baptist Church Last Evening.

GEO. F. BROWN PRESIDED.

ADDRESS OF EVENING WAS MADE BY REV. F. SMITH, OF SOMERVILLE.

Talked on "The Value of Volunteer Service," and Impressed His Hearers With Need of Spiritual and Spontaneous Work.

In a pleasing and appropriate manner the Christian Endeavor Society of the First Baptist church celebrated its ninth aniversary last evening, when members from the various Endeavor societies and Epworth Leagues of the city and borough were present to join in the happy event. The affair was held in the Sunday-school room of the church which was attractively decorated with palms, ferns, flowers and an American flag, while the Endeavor colors, green and white, were given a prominent position.

In the absence of Dr. Norman H. Probasco, president of the society, George F. Brown took charge of the programme and gave the visiting young people a cordial welcome.

Rev. Frank Smith was introduced and made an interesting address on the "Value of Volunteer Service." Mr. Smith said that if service for Christ is to amount to anything it must be spontaneous. The speaker characterized apathy as sanctified laziness. The second important point noted by Mr. Smith was that service must be sacrificial. Lastly, the speaker said that one must be spiritual to be successful in serving Christ. This he said was most essential.

After the address, there was a soprano solo by Mrs. Robert Giddes, accompanied on the piano by Mrs. Buckley, followed with a banjo solo by Herbert J. DuBois, accompanied by Mrs. Buckley. There were several recitations by Miss Mary Adelaide Luckley, which were well received, and mandolin solos by Fred Kanen, also acompanied by Mrs. Buckley.

This concluded the programme and the rest of the evening was devoted to social features, during which refreshments were served under the direction of the social committee, Herbert J. DuBois, chairman. Miss Ella H. Serrll, Miss Grace Yerkes and N. Douglass Drake.

MOORE WILL UPHELD.

Sustained by Final Decision of the Prerogative Court Given Out Yesterday—Victory for Lawyer.

Vice Ordinary Alfred Reed, of the Prerogative court, at Trenton, filed a decision, yesterday, sustaining the will of the late George W. Moore and affirming the order of Judge Vail of the Orphan's court at Elizabeth.

The decision comprises eight folios and upholds Councillor George Ball, of this city, appearing for the executors and heirs, in all his argument.

The will was drawn by Counsellor Ball and defended by him from the start. The case was taken to the Prerogative court on appeal from Judge Vail's opinion rendered in December, 1901. Counsellor W. S. Angleman appeared for the widow and contestant, Alletta S. Moore.

Through this decision the following heirs will receive their bequests: Edward H. Moore, Caroline Bangs, Charles Dodd, Jr., and John Hand Camp, Sons of Veterans.

OUTING FOR INSURANCE MEN.

Supt. Ball, of Prudential Company, Will Give One to His Staff.

As a reward for faithful services, Sperintendent Charles E. Ball, of the Prudential Insurance Company, will give his staff and a few of their friends a pleasant outing on Memorial Day. He has engaged a special car on the New Jersey Central and will take the staff to Mauch Chunk. The party will comprise about sixty people and everything will be arranged for the entertainment of the party going and coming.

Daughters of Isabella.

There will be a regular meeting of Watchung Council, K. of C., at 8 o'clock this evening. After the meeting some women friends of the lodge will be entertained, and a new council, Daughters of Isabella, will be instituted.

—Neuman Brothers have the largest display of fresh vegetables to be seen in this city. Consignments received daily.

DR. RICHARDS WAS CALLED

Unanimous Call Extended by Brick Presbyterian Church, of New York, Last Night.

IS NOW CONSIDERING IT.

Generally Believed That Rev. Dr. W. R. Richards Will Give Up the Pastorate of the Crescent Avenue Church to Accept the Call to the Big New York Church.

As was generally expected by those who have known the situation, a unanimous call has been extended to Rev. Dr. William R. Richards, of the Crescent Avenue Presbyterian church, to become the pastor of the Brick Presbyterian church, New York, at a salary of $12,000 a year. This call was extended to Dr. Richards at a meeting of the congregation of the Brick church held in New York last evening, when three hundred and fifty out of the 750 members of the church were present at a meeting presided over by Dr. Henry vanDyke. The latter, as previously stated, announced the name of Dr. Richards and in doing so said that he could make no better recommendation and he was sure that Dr. Richards would accept the call.

"I have known Dr. Richards for a great many years," he said. "He is a man of strong personality, attractive to young people, a favortite preacher in the colleges, a courteous gentleman and a splendid preacher. I know of no better thing that I can say of him than that he was selected by the congregation of the late Dr. Babcock's church, to succeed him, when Dr. Babcock became your minister. I earnestly recommend that he be called to the pulpit of the Brick Presbyterian church."

When Dr. vanDyke then sat down there was applause, and John E. Parsons rose and moved that a call be sent to Dr. Richards. Mr. Parsons said that he had known Dr. Richards for twenty-six years, and knew his family and that there was nothing against him, save that he had two brothers who were lawyers.

William Henry Harrison Moore seconded Mr. Parson's motion, and other speeches in favor of making a call on Dr. Richards were made by Adam Campbell, Dr. W. W. Atterbury, Henry L. Smith, J. Cleveland Cady and Morris K. Jessup. After the unanimous vote to call Dr. Richards, a vote of thanks was given to Dr. vanDyke for assistance he had rendered the church.

Dr. vanDyke appointed John E. Parsons, J. Cleveland Cady and Morris K. Jesup a committee to sign the call on behalf of the congregation, and Dr. L. Duncan Bulkley, Alexander Maitland and William H. H. Moore, a committee to act with Messrs. Parsons, Cady and Jesup in presenting the call to Dr. Richards and prosecuting the call before the Presbytery of New York.

Dr. Richards was seen this morning by a representative of The Daily Press and he admitted that a call has been extended to him. However, he denied emphatically the statement in one of the New York morning papers that he had decided to accept the call in accordance with a conference alleged to have been held between him and trustees of the Brick Presbyterian church. Dr. Richards said that now that a call has been given he will take sufficient time to consider it. He said that he would first have a conference with his own people and other friends preparatory to giving his decision in the matter. There are many interests in the Crescent Avenue church to be considered before Dr. Richards will give an answer to the call, and until they have been so considered no response will be made.

However, it is generally understood that Dr. Richards will probably accept the call to New York. As expressed by one of the most prominent members of the Crescent Avenue church, this morning, the members of the Brick Presbyterian church would not place themselves in a position to be turned down after extending a call to Dr. Richards. This member said that it was perfectly safe in believing that the members of the Brick church were sure of their position in the matter and that in extending a call to Dr. Richards it was believed that he would accept after due deliberation.

GOOD REASONS FOR THE UNION

(CONTINUED FROM PAGE 1.)

this borough to justify a course in public affairs that would sacrifice one dollar of the people's money to gratify the pride of the rich or to add one plant to his flower garden. Let us reason together.

"This movement is in all respects a progressive one. It follows the march of progress which is going on in every State in the union. A little farming cluster of people, situated on favorable lines of transportation, or with natural advantages of location or rich in mineral wealth, grows into a village, a village into a township, a township into a borough, and a borough into a city. One follows the other as prosperity and population increase. There is always some well defined influential reason for growth. Sometimes it is in shipping, again in manufacturing, or mining. Perhaps it is in one case because of a salubrious soil and climate, but whatever the reason may be, there are inevitably certain plain conditions that accompany growth and prosperity. Stores, banks, postoffices, business blocks grow and aid in making up a city. What have we of this kind in the borough, and what does the future promise us? A railway station? Yes, by the grace of Plainfield. A postoffice? Yes, through Plainfield banks. Offices and stores? Yes, by the will of Plainfield. Factories where labor may get employment and which pay cash into the town and give it life, yes, by your leave, O Plainfield! Build a wall along Green brook and try to make this borough truly independent and the place would stagnate and decay. We are as much a part of Plainfield and as dependent upon it as your right arm is a part of your body. As slow as our growth has been it cannot be denied that the city is responsible for this growth. Without Plainfield the borough would have no more life than Fanwood or Dunellen. Now, is not this plain? If not, I will quote the chairman of the Anti-Progressionists meeting. 'We contribute to the prosperity of Plainfield; we patronize the merchants and their well ordered bazaars; we contribute to their public and benevolent institutions; we participate in the benefits of their churches, and in every sense of the word, we are a homogeneous community—a part of Plainfield.' This is good sound consolidation argument, and when I listened to it I almost expected to see the worthy chairman flop over to our side, but he put forth these reasons for not following the logical issue. Here is his excuse. 'In the first place it is not necessary. In the second place it is not wise.' Let us see if it is necessary or wise. This is a matter of dollars and cents to some of us."

At this point Mr. Saunders introduced his diagrams already referred to. After fully explaining their import, he continued:

"Now, this plainly unnatural condition of things can go on if we want to pay for it. In the words of Mr. McCutchen it is not necessary that we consolidate even in the face of these figures. What does it matter to wealthy Mr. McCutchen whether he pays a few hundred dollars a year more to keep up this environment: but let us not forget the wage earner who builds his little home out of his yearly savings, and to whom an increase in taxes of even five dollars a year means that sum taken, not from the luxuries, but perhaps from the necessities of life.

"We are told that we may lose our identity, our independence. Lose something that we haven't got! Where is our civic pride? Men at one time unselfishly opposed consolidation, and tried to work up some spirit in this town. They wanted a postoffice over here, they put signs up at the brook and electric lights too, so that people would not stumble over the county line, I suppose. They even tried to change the name of the town so as to get away from this Plainfield mustard plaster at our side. People were told to deal only at the borough stores, and how did all this work? Like the automobile it was a go until it broke down. Nature was against these good people and nature is always right. There is one sure and only way to make this borough independent, and that is to pick it up and plant it there over the mountain. So long as we leave it where it is, it will steadily and surely gravitate towards Plainfield. You can keep it where it is if you are willing to pay the bills. It costs money to fight against nature. Take the other horn of this dilemma if you will and keep taxes down by standing still and our future will be in the sweet embrace of innocuous desuetude.

"It was not necessary for us to build railroads, for we might jog along in the old stage coaches and be happy. It was not necessary to replace the horse car by the quick moving trolley. It was not necessary to light up the world by electricity, for the old candle was more aesthetic, and besides the poor thing is an inheritance from our forefathers, and like dear and ancient Somerset county, we should have an affection for it! Picture these 'Antis' in lacrimonious embrace over poor old mother Somerset and a tallow candle! Finally, it was not necessary to organize this borough out of a township. 'Let well enough alone' is the cry of those who would put brakes on the wheels of progress; but my friends if you will throw your robe of sentiment to the ground, and look at the plain facts and figures which I have presented, you must realize that a better cry than 'Let well enough alone' is one that has come down to us as a truth of Holy Writ: 'Let him that thinketh he standeth, take heed lest he fall.'

"I have quoted the consolidation argument of the president of the recent Anti-Progressionists meeting, and now let us see what some of the vice presidents have said. Those vice presidents were strange bed-fellows. They were the lions, the tigers and the lambs, all together in peace and harmony. It reminded me of a circus story. A visitor came to a cage where there was a lion, a tiger and a lamb.

He had never seen such a thing before, and calling to the keeper he asked if they were real? 'Oh! yes, was the reply.' 'Well, have they been together like than in one cage all the time?' 'Yes.' 'How long?' 'Oh! a few weeks; but,' he added, 'We have had to renew the lamb several times.' I fear that our friends in the opposition will have to watch their flock, for some of them give us good consolidation arguments. Here is what one of them said a few years ago.

"'Among the valued opinions which The Daily Press has already published regarding borough and city annexation, the following from Rev. W. E. Honeyman, Secretary of the Board of Health, will be read by many with a great deal of interest. Mr. Honeyman spoke in part as follows: 'Two governments in places so nearly joined as the city and borough do not offer the best possible advantages that are to be obtained from a single government. In the first place there are difficulties existing between the two Boards of Health, which would be obviated if we were one city, and then there is the saloons. In the borough they can keep open all night, while in the city they are forced to close at eleven o'clock at night. Under one government these institutions would be managed far better. As it is now, after eleven o'clock in the evening, the borough is a receptacle for an undesirable class of people who make the night hideous. In a great many respects our interests are one.'

"Another vice president was Dr. Carroll, who signed the consolidation call in 1896 and who was one of the joint committee of the Board of Trade. In 1898 Mr. Carroll said to me: 'Every fair minded man must admit that these two places ought to be one, but I do not expect to live to see it brought about, because you cannot get the politicians to give you the necessary legislation.' My reply was that the politicians might postpone a good measure like this, but they cannot kill it, and I expect to live to see them in line with us. We have them now almost to a man. If consolidation was a good thing a few years ago, without the politicians, why is it not equally good now? The politicians are the workers as distinguished from the drones in the bee hive of industry. They are the practical men who do things, and so long as they are honest they should be blessed. There have been many groundless charges and innuendos cast against this movement, but none is so false as that there is a political scheme in it. I have been in it up to my ears from the beginning. My eyes and ears have been wide open all the time, and I tell you that if there is a scheme in this, I should be carried to Dr. Cooley's sanitarium, for I don't know it. No, the charge is absurd, there is no scheme in it either to benefit the politicians or the water company.

"Charles McCutchen in his speech to the governor intimated that the Plainfield Water Company was behind these bills, and Mr. Honeyman in his address at the opposition meeting did the same thing, and said that Plainfield has agreed upon a ten year contract with the water company. I have taken the trouble to look into this, and I find that Plainfield's contract with the water company expires in less than one year. I find also that this water company is operated under an old State Charter granted in 1869. This Charter gives the right to lay pipes and supply water to 'The village of Plainfield and adjoining towns.' I am not interested in this water company, but as its president, an able lawyer, drew these bills at my request, I know that the water company has no direct or indirect interest in this matter, and I ask and expect that my friends in the opposition will take my word for it. 'Thou shalt not bear false witness against thy neighbor.'

"I have prepared a little pamphlet called 'Thirty Reasons for Annexation and Consolidation.' I will not read them but as copies of the pamphlet will be distributed at the door as you go out, I trust that you will take it home with you. An effort is made to point out the practical reasons why this community which is one in interest, should be one in fact and law. This movement is a progressive one, in line with the spirit of the times. The man who is satisfied to let this borough remain as a small rural town has no place in our ranks. You cannot stay the march of progress, and I feel that in this gallant fight now going on against us, the ultimate result must be like that which befell the Indian who lassoed the locomotive out west. When the engineer saw him whirled through space at the rate of fifty miles an hour, fast to his own lasso, he rested his head upon his hand watching from the window said: 'Indian, I admire your pluck, but damn your judgment.'"

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. W. Randolph.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. BRINGS SUMMER BOARDERS.

A Large Metropolitan Newspaper Which is Helping the Summer Resorts.

The Brooklyn Eagle several years ago established a Bureau of Information in Brooklyn, where the public could, free of charge, secure details of hotels and boarding houses for the summer. The idea at once became popular, and branch bureaus were opened in Manhattan and other cities. Country hotels and boarding houses by sending to this Bureau can secure a listing blank, fill it out and return it and then be represented free of cost, and send their circulars and cards for free disribution.

The Brooklyn Eagle has also been considered for years the best medium for summer boarders in New York City.

The Rocky Point Inn, in the Adirondacks, said: "We are giving the Eagle a larger share of advertising than most other papers, as experience has demonstrated its value to us in past seasons."

Chauncey B. Newkirk, of Wurtsboro, Sullivan, county, said: "Last season one small ad brought me five guests."

La Rue Bros., proprietors of the American Hotel of Sharon Springs, N. Y., wrote: "Our house is full and mostly by Brooklyn people. Daily we recieve applications for rooms, and all on account of our standing ad. in the Eagle."

THE HOSPITAL DEFICIT.

The information, announced at the annual meeting of the Board of Governors of Muhlenberg Hospital and made public in yesterday's Daily Press, that the receipts for the support of the hospital had been running behind the expenditures, was somewhat of a surprise to many. Those who have kept in touch with that institution are not surprised however. It is well to say right here that the deficiency is not due to mismanagement or extravagance but rather is brought on by a combination of events.

It has been more costly than most people suppose to keep the old buildings in proper and sanitary condition. The need of the new quarters has been brought to the attention of the governors with more than the usual force. Then, too, the past year has been the most active one since the hospital has been opened. While those patients, who can afford it, make regular payments, they are utterly inadequate to meet the running expenses of the establishment. Voluntary contributions are the chief source of revenue. While there has been a decided increase in the work to be done at the hospital, the subscriptions have not shown a corresponding increase. A constant demand to keep up to the times has resulted in new and improved methods which have, in some instances, proved expensive.

Some of the people of Plainfield seem to think that, because a new hospital is to be built, the cost of running the old suddenly becomes nothing. While giving liberally for the new home for the institution, they forget to assist in providing for the maintenance of the old.

This deficiency must be met and the running expenses met besides. There is going to be no decrease in the latter. The usefulness of the hospital was proved long ago. It is now one of the most important of the semi-public institutions of the city. Money spent in its support is well spent. It is to be hoped that the generous hearted people of Plainfield will not allow the present condition of affairs to remain this way long and that another year, when the hospital moves into its new home, will see the present indebtedness cleared away and the current expenses all paid.

A joint debate on the question of annexation and consolidation would be an excellent thing as has been said in these columns many times before. We cannot see how there could be but one result nevertheless it would be perfectly fair for both sides and would give the citizens of the borough an excellent opportunity to compare the arguments. While it could not do otherwise than help the projects of annexation and consolidation, we cannot see on what grounds the "antis" can refuse to meet their opponents in fair debate.

There is a nursery rhyme which relates the dramatic departure of the "dish" and the "spoon" and the subsequent high dive on the part of the cow. It has been well said that the present operations of the beef trust are in a fair way to again cause the cow to jump over the moon, in price at least.

There are all sorts of things to happen in Plainfield on Memorial Day. From present prospects, the holiday is going to be a lively one here, at least. There will be the regular celebration of the day under the direction of the G. A. R. veterans while outdoor sport of all kinds will flourish.

SPLENDID MUSIC BY MEN'S CHORAL CLUB

Concert at Casino for Benefit of Young Women's Club Was a Decided Success.

ABLE ARTISTS THERE.

SOLOS BY THE MISSES REYNOLDS AND HOBART SMOCK WELL RENDERED.

It Was a Finished Performance and Greatly Pleased the Fashionable Audience Which Thronged the Casino Last Evening.

A very large audience was present at the Casino last evening to greet the Men's Choral Club. There was not a vacant seat in the hall and standing room was at a premium. A particularly strong programme had been prepared for the occasion—a programme that not only heartily pleased the assembled listeners, but which in its execution cast special credit on the performers. The affair was a notable success for Wm. E. MacClymont, the conductor of the evening, and to whose efforts was largely due the excellence of the entertainment.

The choral club appeared in eight choruses, all of a classic vein, ranging from forest idyll to a vikin sea song, and all highly appreciated by the audience. A piece that immediately caught the ear of the house was "Tom, the Piper's Son," a unique metrical travesty, a repetition of which was quickly demanded.

The members of the club, who took part in the various choruses, were: First tenors, J. D. Bailey, E. D. Cutting, E. Maxwell Honeyman, W. M. Miner, E. E. Runyon, L. S. Schutt; first bass, S. H. Craig, James Dodd, W. B. Gilbert, F. B. Moffett, Ralph K. Miner, J. Y. O'Keefe, G. F. Schoonmaker; second tenors, Dr. R. W. Emerson, Dr. C. B. Lufburrow, M. C. VanArsdale, Dr. O. B. Whitford, L. H. Biglow, president of the club; second bass, Charles Barlow, F. S. Cutter, F. C. Kreidler, E. C. Martin, J. C. Martin, Rev. Dr. W. R. Richards, I. W. Travell, H. W. Wells.

The initial number on the card was a serenade by a trio composed of Miss Helen Reynolds, 'celler, and H. R. Kingsley at the piano, the accompanist of the evening. This was a pleasing introduction, but it was as soloists that the Misses Reynolds particularly distinguished themselves.

Miss Helen Reynolds on the violin completely captivated her audience. She wields the bow with deftness and possesses the faculty of infusing feeling into her playing. She was deservedly encored at each appearance. On the 'cello, Miss Mabel Reynolds came in for a goodly share of applause. Her rendiiton of 'Berceuse" from Jocelyn and Gavotte brought her to the front in each case a second time, first in "Solome" and secondly in "Golden Wedding."

H. Hobart Smock's singing "Oh! Away! Awake" in the first part of the programme won for him the plaudits of the house, and he responded with "Mighty Lak' a Rose." His second appearance in "Auf Wie der Sehn" was the signal for an ovation and he was forced to answer to a double encore. Mr. Smock is too well known to a Plainfield audience to demand further praise.

The net proceeds of the concert are to be given to the Young Women's Club, which suffered heavy loss from the fire in the Babcock building last winter.

BEEF TRUST BLAMED.

Quarrel Started Over Chickens and Landed One in Borough Court.

Wm. Galloway, quarrelling with a neighbor over some chickens—another evil to be laid at the door of the beef trust—was arrested by Chief Campbell in the borough yesterday. Last evening before Recorder Doud he was fined $5.

This morning a drunk as yet unable to give his name, was arrested by the chief near the corner of Washington avenue and Park place. He will be tried tonight.

Second Luncheon.

Mrs. Benjamin Arrowsmith Hegeman, Jr., gave the second of a series of luncheons at her home yesterday afternoon. Covers were laid for ten people. The home was prettily decorated and the affair was a charming one.

Daniel Stephens, of Monhegan, Maine, is the guest of George Wharton Edwards, of Franklin place.

DUNELLEN.

The medal contest in speaking was held last evening in the Presbyterian chapel under the auspices of the local W. C. T. U. and much interest developed. The judges finally decided that the best work had been done by Miss Maude Wilcox and she was accordingly awarded the prize. Music was furnished by the banjo club and was much enjoyed. The attendance was not as large as could have been desired.

Christian Schepflin has been elected president of the Middlesex Bowling Green Club for the ensuing year. A meeting of the club was held Saturday at Mr. Schepflin's home and many interesting games were played.

The Dunellen A. C. has lost a good player in Fred Giddes who has moved to Philadelphia with the Central offices. Bob Carpenter will make an excellent substitute, however, after a little practice.

The brass band will hold an open air concert and ice cream and strawberry festival on Kuldoshes' lawn, Friday evening, for the benefit of the band fund.

Rev. N. J. Sproull will occupy his pulpit in the Presbyterian church next Sunday after being away for two weeks.

Work on the new factory is going forward rapidly and it is hoped can be finished during the early fall.

Several members of Court Dunellen, I. O. F., attended a meeting of a Plainfield court, last evening.

Mr. and Mrs. William Milliken are spending this week at the home of relatives in town.

Prayer meeting will be held this evening in the Presbyterian church at the usual time.

Wm. G. Holton Council met last evening and transacted routine business.

H. L. Terry, of Plainfield, visited his father, W. H. Terry, last evening.

Prayer meeting will be held this evening in the Methodist church.

The brass band will meet for practice this evening in Apgar Hall.

William Giles is still improving from his attack of scarlet fever.

S. L. Horn has recovered from a slight illness.

NEW MARKET.

The entertainment which was to have been given Thursday evening under the auspices of Lakeside Council in Apgar Hall has been postponed indefinitely and may not be given at all.

Mrs. Davis, the aged mother of W. J. Davis, is seriously ill at his home and last night was not expected to live many hours.

Rev. L. E. Livermore has returned home after attending the Baptist conference on Staten Island.

W. E. Carr, of Metuchen, spent yesterday with friends in town.

The road commissioners will inspect a road at Lincoln today.

PLAINS AND FANWOOD.

The Epworth League of the Methodist church has arranged to hold a monthly social gathering during the summer for the members and their friends. Business of interest will be transacted at the meetings after which a social hour or two will be passed by the members and their friends.

Fanwood Council, R. A., held a large and interesting meeting in its rooms last night. During the past two months a number of new members have been added to the membership and the council is in a flourishing condition.

Decoration Day exercises will be held at the public school tomorrow. A small delegation from Winfield Scott Post, G. A. R., of Plainfield, will be present and several addresses appropriate to the day will be heard.

The special police on duty Sunday kept a sharp lookout for automobiles going beyond the speed allowed by law but nearly everyone had learned of the ordinance and regulated the speed accordingly.

The Thursday evening teachers' meeting of the Baptist Sunday-school will be held this week at the home of Dr. and Mrs. F. W. Westcott, of the borough.

Hervey Marsh, captain of the junior ball team, is trying to arrange a game for Saturday with the Westfield High School team.

There will be dancing at Ivany's pavillion Thursday evening. Music will be by Naylor's full orchestra.

Miss Gladys Marsh has recovered from her recent severe illness and is able to be around again.

SOUTH PLAINFIELD.

The coal storage operators are feeling the effects of the miners' strike in Pennsylvania. Already a number of men have been laid off because of slack work.

The Middlesex Water Company has begun drilling two new wells near the pumping station.

The rain of yesterday was much welcomed here by the farmers and truckstersers.

Angling in the pond and streams here is good. A number are enjoying the sport.

Miss Nellie B. Maninng has returned after a short stay in Bound Brook.

Should be Supported.

Plainfield people ought to respond to William P. VanEps' enterprise in getting such an artist as Samuel Siegel, America's greatest mandolinist. Hyman Myers, who appears tonight with Mr. Siegel at Y. M. C. A. Hall, is recognized as one of the cleverest entertainers in New York.

Operation on Eye-Lid.

Benjamin Schenck, of L. W. Randolph's drug store, has had a growth the lower eye-lid of the right eye and it has given him much trouble. Last Monday Dr. Pittis performed an operation which will result in the disappearance of the lump.

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

Fred H. Firsthrook, the Liberty street grocer, has a large and complete line of table delicacies, in addition to vegetables and fruit in season.

If you want your shirts, collars and cuffs done up in first-class fashion, without suffering wear and tear, you should go to Meissner's Hand Laundry on Watchung avenue.

"Heywood shoes wear" says Van Arsdale, and VanArsdale can be relied upon. These shoes for men are made for comfort as well as service and the possessor of a pair is an envied mortal.

E. S. F. Randolph, the druggist, corner of Watchung and North avenues, compounds prescriptions with the greatest possible care and has one of the most attractive stores in the city.

As a spring medicine and blood purifier, Hodge's Sarsaparilla has no equal. It tones the system and gives a new lease of life to the worn-out, tried sufferer. Sold only at Hodge's pharmacy in the Y. M. C. A. building.

Every day fresh catches of fish are received at Fred Endress's market in the seafood department. The best place in the city to make your selections. No "wild" meats at this market; nothing but the best fed beef, veal, mutton and lamb.

EVERY BONE BROKEN.

Six-Year-Old Son of Harry Jenkins Fatally Injured at Bethlehem—He Died Sunday Morning.

Word has been received in this city of the accidental death of Newton Jenkins, the six-year-old son of Mr. and Mrs. Harry Jenkins, of Bethlehem, Pa., former well known Plainfield residents.

The little fellow was riding in a mill wagon with several companions, Saturday afternoon, when a jolt threw him out and against the brake beam. He fell against a wheel and every bone in his body was broken. He died Sunday morning, but was conscious to the last and insisted that he wasn't hurt. The funeral services were held from his parent's home this morning.

Mr. Jenkins' mother, Mrs. Mary Jenkins, of East Sixth street, was visiting at his home at the time of the accident.

JOS. CARBONE DEAD.

Well-Known Fruit Dealer Passed Away After a Three-Weeks Illness.

The death of Joseph Carbone, the well-konwn Park avenue fruit dealer, occurred at his home early this morning. He had been ill the past three weeks with a complication of troubles.

Mr. Carbone was forty years old and had a large circle of acquaintances in this city where he had lived for a long time. He was in business on North avenue for many years before removing where the store is now located. A widow and two children, the eldest twelve years old, survive him.

The funeral will be held from his late residence on Park avenue at 2 o'clock tomorrow afternoon. The remains will be taken to Brooklyn.

Dangerous If Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartly, Yankeetown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. L. W. Randolph.

NO OPPOSITION TO FOWLER

HIS UNANIMOUS NOMINATIION EXPECTED IN NEW FOURTH DISTRICT.

Congressional Convention Called for June 19 at Belvidere—The County Representation.

(Special to The Daily Press.)

Phillipsburg, May 28—The Congressional committee of the new Fifth district met here yesterday and settled on a date for the Congressional convention as was stated in despatch from here yesterday. The convention will be held at Belvidere, the county seat of Warren, June 19 at noon. The three counties in the district are Union, Morris and Warren.

Dr. Holmes, of Rahway, was chosen chairman of the committee and George T. Pool, of Morristown, secretary. Former Mayor Charles J. Fisk, of Plainfield, was the other member from Union. The basis of representation will be one delegate for each hundred Republican votes cast at the last Congressional election. On this basis, Union will have 126 delegates, Morris seventy-five and Warren thirty-nine.

There is little prospect that any opposition will develope against the nomination of Congressman Charles N. Fowler, of Elizabeth. Union will be solidly for him and Warren and Morris have both expressed their satisafction with his candidacy. It is expected that his nomination will be unanimous.

ROAD APPROVED.

Commissioners Made Public Thoroughfare of Road Between Lincoln and Bound Brook.

(Special to The Daily Press.)

Lincoln, May 28—The road commissioners appointed by the courts made a trip this morning, accompanied by Counsel Suydam, over the Lincoln boulevard, between Lincoln and Bound Brook, thereby making that mile road a public thoroughfare. The party was led by S. D. Drake. By opening this road to public traffic, it makes a shorter cut between Bound Brook and this place as well as Plainfield.

After going over the road, the party adjourned to Taylor's Hotel where dinner was served and speeches were made. In honor of the event flags were displayed at Lincoln all day.

Result of a Fall.

Miss Ida Furman, of Craig place, is very ill at the home of her mother, Mrs. M. A. Furman, of Englewood. She left on a visit Sunday and was taken ill that evening, presumably from the effects of a fall received two weeks ago. Yesterdey afternoon she sank into a comatose condition from which physicians have been unable to revive her.

Another New Resident.

Elston M. French has rented the handsome residence on Rockview avenue, owned by Mrs. Weir-Lewis, to G. G. Davidge, of the leather trust, New York. Mr. Davidge has hitherto been a resident of Brooklyn, but will in the future make his home in Plainfield.

Four Take Examinations.

Civil service examinations are being conducted in Plainfield this morning There are five applications for postoffice position, four for carriers, one for clerk.

Hotel at Lincoln Sold.

The hotel at Lincoln was sold yesterday to D. W. Taylor, of Bound Brook, who, will in the future conduct a first-class hostelry.

Dogs Must be Muzzled.

Owing to numerous complaints being received at police headquarters, Chief Kiely decided to enforce the provisions named in the ordinance requiring muzzles for dogs. It permits the arrest and finding of owners who allow their canines to run at large without the proper safeguard. Where violations are allowed no discrimination will be shown.

Rochambeau Mission Visited West Point Earlier In the Day—A Banquet at the Waldorf-Astoria In the Evening.

NEW YORK, May 28.—New York's official welcome was extended yesterday afternoon to the distinguished visitors sent across the ocean to aid in the ceremonies of unveiling the Rochambeau monument at Washington.

There was nothing lacking to make the occasion enjoyable for hosts and guests but the weather, which had been unpleasant all day. The heavy rain of the night and morning had soaked stands and draperies, and the lowering skies that lasted all the afternoon marred a bit the splendor and glitter of the show, though there was no apparent lack of enthusiasm in the participants.

When the party returned to the city from a visit to West Point, they were escorted by soldiers and sailors of two countries from the Battery to city hall, where Mayor Low read an address of welcome. Mayor Low spoke as follows:

Mr. Embassador and gentlemen of the Rochambeau mission, who so worthily represent the republic of France, the mayor of the city of New York carries on his business in the presence of the portrait of Lafayette, who represents to us Americans the generous ardor of the French people for the ideals of political liberty. The representatives of New York are glad to have the opportunity today, in greeting your distinguished delegation, to acknowledge the services to this city of the French nation through the co-operation of the regular army and navy with the forces of the American colonies. The decisive battle resulting from this co-operation was fought at Yorktown, upon the soil of Virginia, but it ushered in the historic scene at Fraunce's tavern in this city where Washington bade farewell to the officers who had been his comrades in arms at the end of the Revolutionary war.

This fortunate result was directly due to the co-operation of France, but even the services of the volunteer Lafayette and of Rochambeau and De Grasse of the French army and navy do not comprise all that we owe to the generous nation which you represent. You freely supplied the American forces with sinews of war, and your help in another form has made the French name of Le Bonhomme Richard as familiar in our ears as Yorktown itself.

These things we, the city of New York, hold in grateful remembrance, but we do not forget that France itself has interpreted their permanent significance in the statue that the French people have placed in our beautiful harbor of "Liberty Enlightening the World." That is the deep and eternal purpose of liberty, that it should throw light upon the path that civilization itself must follow with the process of the ages.

We of America do not owe more to France in the domain of political liberty than we owe to her in the fine example she sets of freedom in the domain of art. Science today in all lands is happily free, but the whole world goes to the French school of the beautiful arts because under the free sky of liberty in the realm of art the art of France has become the teacher of the nations. For all these reasons and many others that might be told I have the honor to welcome you in the name of the city of New York to our beloved city.

M. Cambon responded for the commission, expressing the appreciation of its members for their reception and making a few remarks complimentary to the city.

The assembly then adjourned to the governor's room, where the line was formed to proceed to the carriages. When the procession was conducted to the city hall steps, Mayor Low leading the way, the military escort formed in line once more, and, with bands playing, the commission, the board of aldermen and the other city officials began their northward course toward the reviewing stand in Madison square, the marines preceding the carriages and the cavalry walking close behind.

The order of the first division of the parade was as follows: General Roe and staff, French band and 200 French marines from the Gaulois, 200 American marines, forty carriages, Squadron A and band, Troop C of Brooklyn, the Twenty-third regiment of engineers, the Thirteenth regiment of heavy artillery, the First and Third batteries.

The second division of the parade, composed of the Second brigade and made up of the Fourteenth, Twenty-third and Forty-seventh regiments of Brooklyn and the Seventeenth company of Flushing, was next. This division was followed by the First brigade, composed of the Seventh, Eighth, Ninth, Twelfth, Sixty-ninth and Seventy-first regiments. The First and Second battalions of the naval militia completed the procession.

The French delegates at the dedication of the Rochambeau memorial were the guests of honor last night at a banquet given at the Waldorf-Astoria hotel by members of the Order of the Cincinnati in commemoration of the victories of the American and French forces in the war of independence and of the institution of the order. The banquet was held in the Astor gallery, covers being laid for 100 at a single gigantic oval table laid out in the fashion of a garden, with great beds of deep red peonies interspersed with branches of cherry and apple blossoms and tall standards of American Beauty roses.

The scene was one of great brilliancy, all the military and naval officers appearing in full uniform and the diplomats and members of the order wearing their official ribbons and decorations.

The Visit to West Point.

WEST POINT, May 28.—Count de Rochambeau and party reached the United States Military academy here with the rain falling in torrents. They were met by Colonel Mills and staff and, with an escort of cavalry, were driven to the parade ground, where the cadets, muffled in raincoats, passed in review before the visitors, who stood on the green, with the rain drenching them. After passing around once the cadets were drawn up in close formation, and, headed by Count de Rochambeau, the entire party marched around the six companies for a closer view, inspecting them while the band played the French national anthem. Several maneuvers were then gone through by the cadets, and the party was then taken to the gymnasium, where a gymnastic exhibition by the fourth class was witnessed. At the conclusion of this the count congratulated the young men on their athletics. A tour of inspection of the barracks and academy departments was made, and the visitors then boarded the United States dispatch boat Dolphin and were taken to New York city.

A DISTRESSING ACCIDENT.

Three Killed and Many Injured by a Bridge Crash.

NEW YORK, May 28.—Three persons were killed and more may die from injuries received by being thrown, with nearly 200 others, into an excavation for a new building at the northwest corner of Fifth avenue and Eighteenth street late yesterday afternoon. The accident was caused by the collapse of a temporary sidewalk erected for use while the building operations are in progress.

The accident happened while thousands lined Fifth avenue watching the parade in honor of the French mission that was officially welcomed to the city. With a roar the structure gave way, enguling all who stood on it, and in an instant the enthusiastic, cheering crowd was panic stricken and horror struck.

In a moment the line of parade was broken. The Twenty-second regiment was passing at the time, and the soldiers broke ranks and ran to the aid of the police on the scene, who were unable to handle the crowd. The Red Cross corps was called into action, and the work of rescue was begun.

The platform broke in the middle, and it was those who stood at this part who were most seriously injured. At this point the excavation is seventeen feet deep.

BEEF TRUST INQUIRY.

Hearing at Albany Resumed—Several Witnesses Heard.

ALBANY, N. Y., May 28.—The hearing into the operation of the alleged beef combine was yesterday resumed before former Justice Judson S. Landon as referee.

Albany and Troy managers of branch offices of the various western beef packing concerns were examined relative to the workings of their offices. Their evidence tended to show that an agreement had existed between the various concerns whereby retail dealers who did not pay promptly for meat delivered were listed by an arbitration agent, and no firm was permitted to furnish them with meat unless they paid for it immediately upon delivery. The firms subscribed to a fund which was to be forfeited if they failed to live up to the terms of the credit agreement. All of the witnesses examined denied any knowledge of any cartage agreement between the firms. The inquiry was conducted by Attorney General Davies, assisted by Special Deputies J. Newton Fiero and Mason.

Kansas Republicans Meet.

WICHITA, Kan., May 28.—The Republican state convention opened here today. Former Congressman Bailey is a candidate for governor against a field of four others who have combined under the leadership of Senator Burton. National Committeeman Mulvane and Congressmen Miller and Curtis. Mr. Bailey is backed by former Pension Agent Cyrus Leland, Congressman Lang, the state organization and Fourth Assistant Postmaster General Bristow. The contest will test the question of leadership between Senator Burton and Mr. Leland.

Fortune For French Chef.

LEXINGTON, Ky., May 28.—Henry Devillard, chef in a local hotel here, has received a letter from his former home in Bollo, France, telling of the death of his mother, who leaves an estate of 337,000 francs. Devillard is an only son and says his father was General Henry Devillard, who was killed in the Franco-Prussian war. He says he himself was a lieutenant in the French army and had to leave the country on account of dueling. He has been in the United States eighteen years.

Twenty Saved From Wrecked Ship.

NAPLES, May 28. — The German steamer Koenig Albert, bound from Yokohama and Singapore for Hamburg, has landed at this port twenty survivors of the British steamer Camorta. The steamer foundered during a cyclone on May 6. Besides her 650 passengers, the Camorta had a crew of eighty-nine.

ALL FOR HANNA.

Ohio Republicans In Convention Honor the Senator.

CLEVELAND, O., May 28.—The feature of the Republican state convention here yesterday was the unanimity of sentiment in favor of Senator Hanna. He has been the center of interest since his arrival from Washington last Sunday. The conferences of leaders with him continued, but when it came to the meeting of the delegates at 2 p. m. by congressional districts the sentiment for him was demonstrated in an unprecedented degree.

His friends had claimed eighteen out of the twenty-one districts and more than realized their expectations. Interest centered in the selection of state committeemen, as the new state central committee selected will have control next year when members of the legislature are elected who will choose the successor to Hanna in the senate. It is claimed that there was only one anti-Hanna man selected on the new state committee and that he "has been reconciled."

Above the platform were suspended large portraits of McKinley and Roosevelt. Secretary of State Laylin, who will be renominated today to head the state ticket, and other state officers and leaders were seated on the platform.

The Gaynor-Greene Case.

QUEBEC, May 28.—Mr. L. A. Taschereau, counsel for Colonel Gaynor and Captain Greene, has filed his answers to Detective Carpenter's affidavit produced in the supreme court last week. Besides denying the allegations of the affidavit in general counsel for the accused denies that Carpenter was a Dominion or provincial police officer and had no authority whatever to serve the warrant issued by Magistrate La Fontaine, that the warrant was illegal and that Carpenter had arrested the accused in an illegal manner and had carried them away by force to Montreal on board a steamer illegally leased for that purpose and after having deceived the petitioner.

Bloody Fight With Chinese Rebels.

LONDON, May 28.—Cabling from Shanghai, the correspondent of The Daily Mail says the southern rebellion is in full activity and that a severe battle has been fought at Shuluhsien in which the rebels were defeated by the government forces, with losses amounting to 1,500 men in killed or wounded. The government troops pursued the rebels to their intrenched villages and cut off their supplies. The insurgents, continues the correspondent, who included boys and women, made desperate sorties from the villages and forced the government troops to retreat. The rebel leader, Ching Ting Pin, was killed.

Snow In Maryland.

CUMBERLAND, Md., May 28.—Snow to the depth of nearly an inch fell yesterday at Terra Alta, Berlin and other points in the Alleghanies. The temperature in this city went down to 50 degrees.

Clancy Acquitted.

NEW YORK, May 28.—John F. Clancy, who has been on trial for the murder of John Clark, a Long Island City politician, was acquitted by a jury before Judge Newburger. Clancy shot Clark during a quarrel on the night of June 21 last, and the acquittal was on the ground that the killing was done in self defense.

THE STURGIS WAGER

A DETECTIVE STORY.

By EDGAR MORETTE.

Copyright, 1899, by Frederick A. Stokes Co

CHAPTER XI.

A RECONSTRUCTED DRAMA.

As he spoke, Sturgis handed Dunlap the sheet of paper upon which he had traced a plan of the Knickerbocker bank.

"From this point on," he continued, "I have indicated the various trails on the diagram. The dotted lines represent Arbogast's footprints; the continuous lines show Chatham's trail."

"How can you distinguish between the two?" inquired Dunlap.

"There is no difficulty about that," replied Sturgis. "The differences are very marked. I know Arbogast's foot because I have seen it; and I know that the other one is Chatham's because you recognized the man from the description I gave of him."

"Yes, I know. But how could you describe him so accurately when you have never seen him?"

"I shall come to that presently," said Sturgis, *smiling*; "you must let me tell my story in my own way, if I am to tell it connectedly"

"Very well," said the banker, resignedly. "Hold on, though," he exclaimed; "you speak of two sets of trails; but what is this third set of lines, marked by alternate dots and dashes?"

"They represent the traces of a third individual, who will appear upon the scene later on. He has not yet received his cue. But, since you mention him, we may put him down in the cast as 'X,' the unknown quantity of the problem; for I do not yet know his name. Now, then; let me see. Where was I? Your interruption has made me lose the thread. Oh, yes; the men were in this room. Arbogast, nervous and excited, paced back and forth, like a caged animal. Chatham was more collected. It was warm in the bank, as compared with the intense cold outside; he removed his overcoat and threw it over the back of that chair in the corner. This fact is shown by the direction of the footsteps toward the chair, and by a mark directly below the arm of the chair where the garment trailed upon the wet floor. Chatham's carelessness was fraught with serious consequences; for, as luck would have it, there was, in one of the pockets of his coat, an important letter, which slipped out and fell upon the floor superscription uppermost. Here is the envelope itself, which I have pieced together. You will see that it is soiled only upon the back, and here near the chair is the faint oblong mark which is left upon the floor. Chatham went to the telephone in the cashier's office. He *probably* did not see the letter fall. It caught Arbogast's eye, however; and you can imagine his surprise when he saw that it was addressed to his *wife*. What had his accomplice to write to his wife? Arbogast evidently was not restrained by any feelings of delicacy in the matter, or else he was already suspicious of Chatham; for he picked up the envelope, tore it open, and read the letter which lies before you, as I have pieced it together. It makes interesting reading. I do not wonder that Arbogast lost his head when he saw it. Read it for yourself."

"Why," exclaimed Dunlap, after reading the letter, "this announces his intention of committing suicide."

"Precisely; and yet Arbogast did not commit suicide; probably never had any intention of doing so; and, at any rate, did not write that letter. You will observe that it is not signed; the name is typewritten, like the rest of the letter, which, moreover, was not written here, as the superscription would seem to indicate. I have tried your typewriter, and although it is of the same make as the one upon which this letter was written, there are several characteristic differences in the alignment and in the imperfections of the type.

"Besides," continued Sturgis, thoughtfully, "the letter itself bears evidence, on its face, that it could not have been written by Arbogast. Your bookkeeper was of a weak, nervous, excitable temperament, as all his actions plainly show. Before such a man is brought to the point of taking his own life, he must have passed through a more or less protracted period of agonizing nervous tension, of which you and I can hardly form any adequate conception. Under the circumstances, if he loved his wife, conscious that by his guilt he was about to plunge her into the depths of grief and shame, he might have written her an incoherent and hysterical letter, or a tender and repentant letter, but never this frigid, matter-of-fact statement of a supreme decision. This letter is the work of a cold and calculating nature, incapable of ordinary human feeling. The man who wrote it would not have written to his wife at all, or would have written only to serve some selfish purpose. From what I know of Arbogast, I do not believe he was capable of composing these lines."

"You think, then, that the letter was written by Chatham," said Dunlap. "But what object could Chatham have for writing such a letter?"

"No," answered Sturgis. "I do not think that Chatham wrote this letter. That is the curious part of it. I cannot believe that if Chatham had been aware of the important nature of its contents, he could have been willing to leave it for an instant within Arbogast's reach."

"But who, then, could have been its author, and why should he have intrusted the letter to Chatham?"

"As to your second question, my answer is, probably because he wanted it mailed from the main post office at about the time that Arbogast would leave the bank. To the first, I cannot yet give any positive answer, although, as you will presently see, there are some clews pointing to our unknown quantity 'X' as the author of this letter. But let us not anticipate. Suppose we return to our drama. When Arbogast read this letter, he evidently thought, as I do, that somebody was playing him false; that he was to be gotten rid of in some safer way than exile; in short, that, as somebody said of one of the Turkish sultans, he was to be 'suicided.' He must have had strong reasons to suspect Chatham of treachery; for he at once impulsively jumped to the conclusion that his only chance of safety lay in striking before he could be struck. At any rate, while the accountant was busy at the telephone, Arbogast stood near this desk, mechanically tearing to pieces this letter, while he planned the accountant's death. He had taken with him your revolver. As the thought of it flashed upon his mind, his resolution was instantly taken. He stealthily crept to the paying teller's wicket. Through it he could see the telephone closet, the door of which stood open. Chatham was in direct range, as Arbogast raised the pistol, and, without a word of warning, fired. The accountant held the receiver of the telephone to his ear. This *saved his life; for the bullet entered his* left hand and remained embedded in his flesh. When the bullet struck him, Chatham fell forward, striking his head against a corner of the telephone box, and inflicting a slight scalp wound. I found a few hairs of an intensely red hue, which are evidently his. I also found shreds of his clothing which caught on a projecting nail as he fell; and I infer from these his taste for loud dress. He recovered himself before Arbogast was ready to fire a second time and ran into the clerk's room, probably hoping to make his way to the street through the Exchange Place door. But at the same time, Arbogast rushed through the reception room and this office, reaching the vestibule in time to head off Chatham, who then turned back and ran through the secretary's room, with Arbogast in pursuit. In the meantime 'X,' to whom I have already alluded, was waiting in Exchange place, where Chatham had a cab. Upon hearing the pistol shot he went to the accountant's assistance. He passed into this office, which he probably reached in time to see Chatham rush in from the secretary's room, closely followed by Arbogast. 'X' seized that chair over there in the corner and sprang between the hunted man and his pursuer as the latter raised his arm to fire. Our anonymous friend is probably a man of great strength; for with one blow of the chair he broke the bookkeeper's wrist. The hammer fell, but the weapon was deflected and the bullet, instead of reaching its intended victim, passed through the upper lobe of Arbogast's left lung and out at the back at an angle of about 60 degrees. The bookkeeper was standing not far from the mantelpiece yonder. Do you see that broad black line on the hearth? That was made by the bullet. Its direction and the angle enabled me at once to see that it must have ricochetted into the fireplace; and there, sure enough, I found it in the soot in the bend of the chimney. Here it is."

Dunlap had listened to this narrative with evident interest. But now, recovering from the spell of Sturgis' persuasive conviction, his skepticism regained the ascendancy for a moment.

"Mr. Sturgis, you have missed your vocation," he said, laughing good naturedly; "you ought to have been a playwright. You have a most convincing way of presenting both your facts and your theories. While you are speaking, one is ready to admit the plausibility of every statement you make. But now that you have finished, I have become a hard-headed banker once more, and I beg to submit one or two facts—since we are seeking facts—which it seems to me are enough to demolish all your elaborate structure."

TO BAR INTOXICANTS

Senate Votes Against Sale In the Capitol.

IMMIGRATION STATIONS TO BE DRY

The Shattuc Bill Passed—Some of Its Provisions—Fruitless Effort to Fix a Voting Date on the Philippine Bill.

WASHINGTON, May 28.—The house yesterday passed the Shattuc immigration bill. The feature of the day was a lively debate on the question of prohibiting the sale of intoxicating liquors at immigration stations. It was precipitated by an amendment offered by Mr. Bowersock (Kan.) to prohibit such sale, which was carried, 83 to 18. Mr. Landis (Ind.) followed this victory with an amendment to prohibit the sale of intoxicants in the capitol, and it prevailed by a still larger majority—108 to 19.

The bill brings together into one act all the scattered legislation heretofore enacted in regard to the immigration of aliens into the United States, arranges it in sequence, etc., eliminates what has become obsolete by reason of subsequent legislation, amends some of the administrative features and also adds provisions to the general laws and others made necessary by the extension of the territorial limits of the United States.

Among the more important changes are those increasing the head tax on aliens coming into the United States by land transportation from $1 to $1.50, adding to the excluded classes epileptics, persons who have been insane within five years, anarchists or persons who advocate the overthrow of government by force, prostitutes and procurers (whose importation is now a felony, but whose entry is not prohibited), broadening the word "contract" in the contract labor law to include "offer, solicitation or promise," providing for the fine of steamship companies which receive at the port of departure aliens afflicted with loathsome or contagious disease instead of providing, as now, for their deportation on arrival here; extending the time within which an alien who becomes a public charge may be deported from one to two years and providing that immigrants over fifteen years of age should be able to read in some language.

A fruitless effort was made just before the adjournment of the senate to secure an agreement on a time for a vote on the Philippine bill. The discussion indicated that some day next week eventually would be agreed upon, but no time was fixed.

An Advance For Furnace Workers.

BUFFALO, May 28. — It was announced yesterday afternoon at the office of the Buffalo Union Furnace company, the local plant of the Hanna interests, that the wages of all employees of the Buffalo company, about 800 in number, are to be raised 10 per cent on June 1. It was also stated that the wages of other employees of the same interests at the blast furnaces in the vicinity of Pittsburg are to be increased 10 per cent.

More Bodies Found at Fernie.

VANCOUVER, B. C., May 28.—Eight more bodies have been taken from the Crow's Nest mines. The company is in possession of a complete list of all the men who met death. The names of the contract workers are not known, and therefore the exact number of victims will never be accurately ascertained. The number of dead is estimated at 151. Many of the surviving white miners are arranging to leave Fernie.

Bench Warrant For Missouri Official.

ST. LOUIS, May 28.—A bench warrant was issued yesterday afternoon at the instance of the grand jury against Charles F. FAILED TO CONVICT HIM

RESULT OF MOCK TRIAL OF THE GOLDEN EAGLES.

Dr. Luckey Was Charged With Stealing Pair of Pliers and a Mare's Tooth.

H. J. Martin knows something of the law's delay this morning. A miscarriage of justice, or collusion between the opposing counsel, or the fact that the hitherto unspotted ermine has been soiled, or that the jury had been lined with the long green, prevented him last evening from having Dr. C. M. Luckey sent to Coventry for stealing a pair of pliers and a mare's tooth from Mr. Martin. This remarkable trial was held at Freedom Castle, Knights of the Golden Eagle, and notwithstanding a preponderance of testimony against the accused, Justice Buchanan charged heavily in favor of the prisoner and the jury—a suborned jury, Mr. Martin thinks—failed to agree on a verdict.

Kenneth Anderson, Mr. Martin's servant girl, being sworn, deposed that he saw Luckey stealing the pliers and tooth. This looked like incontrovertible evidence and the case against the prisoner appeared to be clinched when Lafayette Rosensteihl testified that a false tooth inserted in his jaw bone by the defendant proved to be made from a mare's molar. Jas. Bailey was a corroborating witness.

Theodore Kurzhals and A. R. Vail for the defense attempted to prove an alibi. They swore that Dr. Luckey was in their company "doing the midway" at Coney Island when the robbery was committed. The jury evidently believed their story.

J. Hervey Buchanan was the presiding justice, A. C. Hoagland lawyer for plaintiff and W. J. Allen for defense. The names of the jury are given for future reference: Jno. Becker, foreman; L. A. Hummer, S. Frank Runyon, Charles Hummer, Thos. Horner, Fred Boice.

OLD TROUBLE AGAIN.

Hollingsworth Mill Owners After Water Companies for Stealing.

Monday morning before Vice-Chancellor Emery in Chancery chambers, Newark, the application of the Harper, Hollingsworth & Derby Company, of Scotch Plains, for an injunction restraining the Mountain Water Company, the Commonwealth Water Company and the Essex and Union Water and Light Company from drawing water from the sources of Green brook, on which stream the complainant company has a mill in North Plainfield, was considered. Reed & Coddington, of this city, are counsel for the complainant, and Riker & Riker, and Frank Bergen, of Elizabeth, for the defendants. Decision was reserved.

Three Dead Dogs.

Two harmless canines which have been bothering Mr. Voorhees, of North Front street, were despatched by Patrolman Higgins at police headquarters, last evening. This morning Mrs. Voorhees brought a third dog to the station and its existence was ended by Doorman McCue who has been tutored by Exterminator Higgins.

Admitted it Was Drink.

Patrolman McCarthy found John Burk, of Dunellen, helplessly drunk on an East Front street porch, yesterday afternoon. He was carried to the police station and this morning pleaded guilty to drinking too much. Mayor Jenkins, who was on the bench in the absence of City Judge Runyon, suspended sentence.

Family Trouble.

Edward Washington was a prisoner in the city court, this morning, charged by his father-in-law, William Manning, with being disorderly. At the request of Chief Kiely, Mayor Jenkins remanded him until tomorrow when City Judge Runyon will preside.

ONE OF UNCLE SAM'S ABLEST MEN

E. H. Bird, Who Has Just Placed Plainfield's Postoffice in the First-Class, and Has Been Reappointed to Office.

The announcement of the news Monday that the Plainfield postoffice is now among the offices of the first-class in New Jersey, was welcomed by many Plainfielders who interest themselves in this matter. That the local office has been making rapid strides is recognized by all who know anything about the office. Under the direction of Postmaster Elias H. Bird, the office has been conducted during the past four years in a very satisfactory manner, in fact, it is now very seldom that a complaint is received about the operations of the office.

When Mr. Bird took the office in July, 1898, the receipts for the previous year amounted to $32,418.81 and at that time there were eleven carriers and four clerks. The receipts for the last four quarters ending March 31 last, were $40,500, it being necessary to reach the $40,000 mark to get in the first-class. Beginning with July 1 next, the office will have five clerks outside of the postmaster and his assistant, two special messengers, a janitor and fourteen carriers, and after all bills, including salaries, expenses, etc., Mr. Bird will be able to forward to the postal department $20,000 from last year's business.

Postmaster Elias H. Bird.

In 1898, it cost 57 per cent. of the receipts to run the office. Last year 56 per cent. was required and when it is considered that expenses have increased, new carriers and clerks have been appointed this showing is remarkable. All of the clerks, with the exception of one or two, will receive a raise in salary beginning July 1. These clerks are required and expected to put in any number of hours necessary to complete their work, while the carriers can only work eight hours a day, according to the postal law.

It is an important promotion to have an office placed in the first-class list. There are twelve such offices in New Jersey and Plainfield makes the thirteenth. Those having such offices are Atlantic City, Camden, East Orange, Elizabeth, Jersey City, Montclair, Newark, New Brunswick, Orange, Paterson, Trenton and Hoboken. Of these Camden, Jersey City, Newark, Paterson, Trenton and Hoboken have Government buildings. New Brunswick has one in course of construction.

At this time a word about Plainfield's postmaster is not out of place. Elias H. Bird was born near Gallia, Somerset county, and when a mere lad came to North Plainfield, where he remained long enough to cast his first vote for a Republican president. Soon after that he moved to Plainfield and for twenty-one years he filled the position of clerk in a local store. A strange coincidence is that since moving to Plainfield Mr. Bird has always voted in the First ward and he has always supported the Republican ticket straight.

In 1892, he was elected for a term of two years to the Common Council and at the expiration of the two years he was re-elected for another term of two years. In 1896, he was appointed collector of taxes, it having been determined by the corporation counsel that Collector Johnson's term expired then. The point was contested and Mr. Johnson won. In the meantime Mr. Bird served the city as delinquent tax collector until he was elected collector January 1, 1897. This position he held until August 1, 1898. He was appointed postmaster July 1, 1898, and he held that position as well as the one of collector. He relinquished his duties in August of that year, when Mr. Smith, the present official was appointed and relieved him.

While in the Council Mr. Bird served four years as a member of the fire committee, two years on the alms committee and two years on the street committee. He was also a member of the sewer committee. In committee work as well as in the other work of the Council Mr. Bird was faithful and conscientious in the discharge of his duties and he always labored for the best interests of the city. While Mr. Bird's father, as well as most of his relatives, were strong Democrats, he early joined the ranks of the Republicans and signified a liking for that party.

It is believed that the people of Plainfild will congratulate Mr. Bird upon his success in the past and wish him continued success in the future. His appointment for a second term, which was made a few days ago by President Roosevelt, was without opposition which speaks well for this worthy official.

LIEUT. KITCHELL.

Elected to Fill Vacancy in Company K, of Second Lieut. J. P. Mosher, Resigned.

Company K held a special election, last evening, with a full membership, to place in office a new second lieutenant to fill the vacancy caused by the resignation of J. P. Mosher. Commissary Sergeant Harry B. Kitchell, one of the most popular members of the organization secured the coveted honor, securing thirty-eight votes. There were two other nominations, Sergeant Robt. M. Clark and Sergeant P. B. Cregar, who secured twelve and seven votes respectively. The election was in charge of Major N. Y. Dungan, of Somerville.

Other elections were as follows: Corporal A. M. Seiders to sergeant; Privates George L. Apgar and Elias Giles to corporals. Following the transaction of all business the company adjourned to Jensen's hotel where the members dined at the expense of the new officers.

Officially Recognized.

PROGRESS AT THE WHITTIER

Concluding Public School Exhibit Was Held at the Whittier School Yesterday.

WAS VERY INTERESTING

Each Class Made a Special Feature of One Line and Gave a General But Comprehensive Idea of the Rest of the Work—Each Display Was Held in the Rooms.

At the Whittier School yesterday afternoon and evening was given the concluding exhibition of the series which has ben attracting and interesting the public mind within the past fortnight. Although this was the last of the series it could not by any construction be called the least. The work shown in each department was of a highly creditable order, and spoke volumes for the efficiency of the instructors who imparted the training that made such a remarkable display possible. The salient feature of the exposition was the art work, ranking very highly as a whole, but containing individual pieces of surpassing merit.

There is not at Whittier School such an opportunity to give a striking effect to the handicraft of the pupils as in some of the other institutions, because there is no large hall in which a general display could be made. Thus the exhibition was made up of a series of smaller exhibits in each class room and was therefore subjected to a closer scrutiny than if confined to a single apartment. But where the inspection was so minute and where the praise was so universal, the honor accruing must have been much greater.

During the period that the doors were open to the public, there was a continual influx of visitors, composed chiefly of parents and friends of the pupils. Miss Anna M. Day, the principal, assisted by her corps of teachers, was on hand to receive the guests and explain to them the significance and scope of the various exhibits. They were few who did not lavish laudatory words on the quality of the work and those who were sparing in their encomiums secretly admired.

Each teacher had chosen some subject to which special attention was directed, and in which consequently the pupils were more proficient, lent in every department there was an array of pambhlets and booklets containing the general work of the year, and examination of which proved that if particular progress had been made in one subject, there was no corresponding tendency to lag behind in another.

In eighth grade C, conducted by Miss Day, history was the specialty. The text matter was arranged according to epochs, beginning with the mound builders, proceeding to the early explorations, the colonies, and thus in chronolgical order down to the Hispano-American war. This gave a cursory but comprehensive view of American history, and at the same time the industrial development of the country was noted. There were drawings of the collon gin, the steam engine, the telephone and a parallel illustration of the old and new method of travel by water, the canoe being contrasted with the ocean liner and the modern monitor. Noted historical personages were given prominence in their proper eras.

Illustrations in this department by Wm. Gaston were, without possible exception, the best yet seen in any of the city exhibits. That of a railroad passenger car required a close inspection to distinguish it from an engraving. Arthur Aalholm had some pen and pencil work that closely approached the standard set by Master Gaston. In designs for the pamphlet covers there was remarkable drawing by Ruth Thompson, Harold Lavell and Maud VanAuken.

Language was the specialty in eighth grade B, teacher Miss Griffen. Here each pupil had a portfolio where the compositions of the year were kept separately and as a distinctive feature, appropriately mounted with the Perry pictures. Free hand drawings of the Renaissance architectural style were well executed, and there were many neat examples of well written business forms, letters and invitations. The work was all of a superior rank.

Miss Lansing, in eighth grade A, had mathemetics and science for a specialty. Inventional geometry was a prominent feature of the department, the pupil having been given a proposition, from which the figure was constructed, and a demonstration formulated. Miss Maud Bullman and Miss Marion Lovell deserve particular mention for well executed pen and pencil drawing.

In grades six and seven presided over by Miss Grinnell and Miss Wilber, respectively, the exhibitor was combined. Miss Grinnell has charge of the language work in both these grades and Miss Wilber has the arithmetic. Space here was also devoted to illustrations that showed the progress pupils had made in nature study, some beautiful water color work, and compositions partly original but based on class work, were illustrated by pen and pencil drawing. A water-color vase by Violet S. VanWinkle is especially worthy of note, as is similar work by Katherine Brown and Offley Brown. Highly creditable were the exhibits by Alice Havene, Constance Wilcox, Josephine Serrell, Cornelia Christofferson and Nellie Thompson.

Geography was the special subject in Miss Manktelow's room. Physical geography and commercial geography came in for a large share of attention. The designing and arranging was very effective but it would be difficult to particularize.

The higher grade seven had mathematics and arithmetic with prominence also to history and science. Some beautiful maps, history and science illustration were done by Mabel Cubberley, Bertha Jones, Christella MacMurray, Luella Derby and Gertrude Abbott. Miss Moore is the teacher.

A unique feature of the work under Miss Whitney was the reproduction of Ernest Thompson-Seton's animal stories, with pen and ink illustrations. Perhaps more worthy of note were the pencil sketches of Byzantine and Saracenic art, including the mosque of St. Sophia and other famous structures. The pupils had been imparted a knowledge of the various styles of architecture. Deserving honorable note for excellent work are Clara Hallard, Edna Reilly, Marjery Brown, May Cogan, Jack VanDeventer, Arthur Loizeaux, Tredwell Slauson, Elsie Rimmer and Allene Vanderhaef.

A line of work shown at Whittier, what has not been seen in any of the other schools, was the sewing exhibition comprising embroidery and fancy needle work. An hour is devoted every Friday to needle work when the boys are absent at the cadet drill at the High School. There were some beautiful pieces by some of the pupils.

TRIED TO BLIND THEM.

Serious Charge Made Against Edward Washington by His Mother-in-Law.

A charge of attempting to blind his children by throwing poison in their eyes and also one of general disorderly conduct, was preferred against Edward Washington, by his mother-in-law, Mrs. William H. Manning in the city court, this morning.

No positive proof was brought to substantiate the former charge but enough was told of his acts about his mother-in-law's home to warrant the sixty days in jail which City Judge Runyon gave him. There was no alternative fine.

NETHERWOOD OPEN.

First Guests Were Received at That Hostelry Today—To Open June 14.

The Hotel Netherwood was opened today and several guests arrived. Others will arrive tomorrow and Saturday and it is expected that there will be fifty guests for over Sunday. The regular opening will occur on Saturday, June 14, when the music will be present and other features will add to the pleasant occasion. Thomas L. Brown will manage the hotel this year for Major Coleman, who has been ill. The latter with his family will be at the hotel and have general oversight. The first dinner will be served this evening.

CHANGES AT THE STATION

Another Ticket Office Will be Established in the West-bound Station Soon.

TO HAVE TWO OF THEM.

The Baggage and Telegraph Departments to Occupy East End—United States Express Co. Will Take Possession of Rooms Now Occupied by These Departments.

Particularly welcome to the people of Plainfield will be the news that it is the intention of the Jersey Central Railroad to open another ticket office at the North Avenue station. It will be located in the old west bound station where the office was originally located. The work of fitting up the new office for business started the first thing this morning It will be ready before a week is over. It is another of the acts of General Manager Besler.

For years, there was a demand for an east bound station. Finally it was granted and the new station was built. When it was put into use, the old ticket office on the north side of the tracks was closed and all purchasers of tickets had to go to the new station. That was all right for the passengers going east but those bound for Philadelphia and points to the west seriously objected to the double trip through the tunnel. The subject was brought to the attention of Mr. Warren, then vice president and general manager. He declared that there would never be two ticket offices for Plainfield.

Since Mr. Besler has assumed the management of the Jersey Central, there have been rumors, which bore the marks of truth, to the effect that the office in the west-bound station would soon be opened. This report has just been confirmed and The Daily Press can now speak with assurance and state that the office will again be doing business in June.

This action was taken by Mr. Besler after consultation with Station Agent J. A. Haynes who has long seen the real need of such a move. The commutation tickets will be divided between the two offices according to letters to relieve the rush on the one office when the time comes for the distribution of the tickets at the close of each month.

After preparations are started for the new ticket office, another change will also be arranged, which will utilize the room at the eastern end of the west bound station, formerly used as a smoking room and recently boarded up and left vacant. It is authoratively announced that the baggage room and telegraph offices are to be moved to that end of the station while the two rooms now occupied by those departments, will be used and occupied by the United States Express Company.

There has been more or less complaint about the desolate appearance of the old abandoned smoking room. At first the windows were simply boarded up. Then Mr. Warren heard the protest of the Board of Trade and had the boards covered with curtains. The change will utilize that room and make the office of the express company more convenient for the patrons of the railway, besides making it easier for the company itself in the handling of its express matter.

The work of fitting the new quarters for the baggage and telegraph departments will start the first of next month and it will only require a few weeks to put the place in order so that the change can be made. The express company will probably move when its lease expires.

Reform Club Meeting.

Benj. W. Hand will have charge of the meeting at the Reform Club this evening. There will be good speaking and singing and James Stryker will give gramophone solos. Ice cream and cake will be served free and a cordial invitation is extended to all.

Preparatory Services.

Preparatory services will be held tomorrow evening at Trinity Reformed church, Warren chapel and the First Baptist church at 8 o'clock, and Sunday morning the Lord's Supper will be celebrated.

—No breakfast is complete without a cup of coffee made from Neuman Brothers high-grade Mocha and Java. Simply delicious.

HIGH SCHOOL CADETS ON PARADE

Annual Exhibition Drill of Plainfield High School Cadet Battalion Held at Pittis' Field This Morning.

Pittis field wore a decidedly military aspect this morning when the Plainfield High School battalion came out for its ninth annual exhibition drill. The drill was under the direction of the cadet officers, with former Commandant George F. Edwards and Captain W. K. Browning, and First Sergeant Charles Peterson, N. G. N. J., as reviewing officers and judges.

The programme consisted of a battalion review, a competitive company drill, a competitive individual drill, a battalion drill, a battalion parade, the publishing of orders and the distribution of prizes, including the award of the company pennant.

Officers of High School Battalion.

The company drills and the battalion parade were a sight worth seeing. Every manoeuver was exercised with military precision and the spectators who were present were enthusiastic in their comments on the manner in which the army of cadets bore themselves while carrying out the commands of their superior officers.

In the company drill, Company B, Captain Kenneth Bulkley, was the winner of the banner.

Fred VanAuken, Cyril Brown and Jose Tweedy were the three best in the individual drill The winner of the medal will be announced on commencement day.

At the close of the drill the following general orders, announcing the promotions, were read:

Headquarters, High School Battalion,
Plainfield, N. J., May 29, 1902.
Series 1901-1902.
Orders No. 14.

1. The following promotions are announced to take place September 10.

Commissioned: Captain E. D. Murphey to be major, Sergeant G. L. Babcock to be adjutant, Sergeant L. T. Koons to be quartermaster, Lieutenant A. E. Moore to be captain, Sergeant A. F. Conant to be first lieutenant, First Sergeant R. S. Lane to be first lieutenant, First Sergeant V. W. Brooks to be second lieutenant, Sergeant A. D. Beers to be second lieutenant, Sergeant M. T. Moynihan to be second lieutenant; warranted: Sergeant L. L. Sheppard to be quartermaster sergeant, Sergeant F. K. Anderson to be color sergeant, Sergeant J. L. Tweedy to be first sergeant, Sergeant V. B. Miner to be first sergeant, Cadet N. C. Hill to be sergeant, Corporal H. M. Slauson to be sergeant, Corporal C. F. Neagle to be sergeant, Cadet C. N. Doolittle to be sergeant, Corporal E. I. Weseman to be sergeant, Corporal C. Elliot to be sergeant, Cadet F. H. Lock to be sergeant, Corporal H. A. Brownell to be sergeant, Corporal R. R. Eckert to be sergeant, Cadet A. F. Yaeger to be corporal, Cadet S. Freeman to be corporal, Cadet H. E. Lavelle to be corporal, Cadet C. P. Titsworth to be corporal.

2. Assignments to companies and promotions to fill remaining vacancies will be made in the fall.

3. Commandant's medal will be awarded at commencement.

By order of
L. W. Bridgeman,
Alden E. Moore, Major.
Adjutant.
James D. Macnab,
Commandant.

Military training in the Plainfield High School began in 1893 at which time all of the pupils, boys and girls, received instruction in the various marchings under the direction of Mr Travell, the principal, and Mr. Hoick, the instructor in science. At the end of that year there was a competitive drill between the boys and the girls which resulted in a tie.

The next year the work was carried on along the same lines and under the same instructors.

In '95-'96 Captain George F. Edwards came in as an assistant and later organized a separate volunteer company which met for drill outside of school hours. Forty rifles were obtained from the State and the members of the company provided themselves with uniforms. Hundred per cent. medals were offered by Captain Edwards for perfect attendance at drills. The work continued in this line for three years. The girls did not take part in the work after the second year.

In the fall of '99, it was found that the company, with attendance optional, had ceased to be a representative school organization, as practically none of the upper classes were in it. On November 2 of that year the matter was placed before the boys at a meeting called for that purpose and by a large majority it was decided to make military drill a part of the regular school work. This vote was laid before the Board of Education with the result that military drill is now required of all of the boys in the High School unless excused by reason of physical disability.

A. B. Meredith, the instructor in science, was made commandant and David Townsend Mason, cadet major. The other commissioned officers were: Walter Squires, adjutant; Charles H. Fountain, quartermaster; Lawrence L. Tweedy, Fred R. Mason, and Charles A. Brooks, captains; W. Holloway Titus, David S. Pond and Edward A. Janes, lieutenants. The membership was 107. During this year additional rifles were purchased by the Board of Education. At the exhibition drill held the latter part of the year a fine stand of national colors was presented to the battalion by Lieutenant, now Captain T. N. Horne, of the Engineer Corps, and J. H. Harman gave a bugle.

The year of 1900-1901 saw but three changes among the commissioned officers: W. H. Titus was promoted to be adjutant vice Squires graduated; Cyrus H. Kinsman was made quartermaster vice Fountain graduated; and Andrew M. Tweedy, the sergeant major of the preceding year, was advanced to be lieutenant vice Titus promoted. The membership during the year was 109. At the exhibition drill a pennant was presented to the battalion by Charles E. Brooks with the understanding that it be contested for from year to year by the several companies. It was won last year by Company A. A silver medal for the best individual work at the final drill was offered by Alexander Gilbert and was won by Edson J. Davis, a private of Company A, with Cyril Brown a close second.

During the fall of 1901-1902 the eighth grade of the Whittier school obtained permission from Superintendent Maxson to drill with the

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

For a Decoration Day drive you want to get one of those handsome rigs for which Love's livery stable has become famous.

Clubs and social organizations should note the fact that W. Warnock, West Front street, has made for himself an enviable reputation as a first-class caterer.

VanWinkle on North avenue can sell you the latest model in bicycles at a remarkably low price. If you are going on a short outing in the country he will let you a bike.

Whatever you buy at the drugstore of T. S. Armstrong, on Park avenue, you may feel confident that you are getting a good article. Special care is devoted to prescriptions.

Farm and garden implements, in fact, everything in the hardware line, can be found at the Gayle Hardware Company store, corner of Park avenue and Front street, in great variety.

Callahan and Son, the Richmond street grocer can supply you with everything known to the family grocery trade. They have a large stock of choice vegetables now on hand.

The painting and papering of a house is an art and Charles Conover & Company, of 115 Elmwood place, are prepared to do a first class job for you at prices consistent with high grade work.

A more complete stock of clothing for men, boys and children cannot be found than at the New York Clothing Company's store on West Front street. All new and seasonable goods at lowest prices.

If you carry any one of the first class makes of watches sold by J. Hervey Doane, the Park avenue jeweler, your troubles will be greatly lessened. They are sure time-keepers and require little attention.

Jos. W. Gavett, West Front street, is showing a large array of glassware in numerous styles, ice cream sets, lemonade and sherbet glasses, stone water coolers, etc., all articles that you are sure to need in the hot weather.

A BIG COAL PILE.

It is Right Here Almost at Our Own Doors.

The coal reserve at South Plainfield has been gaining for some time, in anticipation of trouble at the mines, the Lehigh Valley Railroad having prepared for a long tie-up. This storage is probably the largest one in the world, and once full can stand a long strike.

Within the past year South Plainfield has been made the coaling station for the Lehigh for all freight and passenger engines.

To Start on Time.

Owing to a larger number of pupils than usual taking part, Miss Addie Parker Jackson's class reception, this evening, will begin promptly at 7:45. The doors will be closed during the opening march and first drill.

His Anniversary.

It will be fifteen years ago Saturday that William J. Ford, the North avenue shoemaker, came to Plainfield, and on that day he will appropriately celebrate the event by "sticking to his last."

Improving His Home.

Dr. J. B. Probasco has recently had his residence on East Front street treated to a stylish coat of paint, and the interior of the house has been renovated and redecorated.

Early in June.

The annual strawberry festival, under the auspices of the Ladies' Aid Society of the Seventh-Day Baptist church, will be held early in June.

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. W. Randolph.

MEMORIAL DAY ORDERS FOR G. A. R. VETERANS

Winfield Scott Post Plans to Observe Memorial Day in Plainfield.

A PARADE IN MORNING.

SPECIAL EXERCISES IN REFORM HALL DURING THE AFTERNOON.

Details Which Will Look After the Decoration of the Old Soldiers' Graves in Local Cemeteries—Addressed Schools Today.

Commander J. F. Berg, of Winfield Scott Post, No. 72, G. A. R., has issued his annual order for the proper observance of Memorial Day and the Post will commemorate the day in a fitting manner. The Post assembled at headquarters this morning at 7:30 o'clock in full uniform to attend Memorial exercises in the Public Schools, as follows: High School, 8:20; Franklin, Bryant, Irving and Washington Schools at 9 o'clock; North Plainfield High School, 11 o'clock; Primary department, 2 o'clock this afternoon and at the Parochial school at the same hour.

Comrade J. Worth Coddington has been appointed marshal for Memorial Day. Tomorrow morning the comrades will report at headquarters at 7 o'clock, and under command of Senior Vice Commander Charles B. Stephens proceed in a body to Scotch Plains, there to report to Comrade W. D. Johnson, who is detailed to the decorations in the cemetery at that place. Samuel W. Reese is detailed to Westfield cemetery, Comrade R. E. Manning to South Plainfield cemetery, and Sentinel J. W. Wagner to New Market cemetery. The Quaker, Catholic, Hillside and Seventh-Day Baptist cemeteries will be decorated by special detail.

At 9:30 o'clock the Post will report back to headquarters and prepare for the parade. The parade will form on East Front street, right resting on Watchung avenue, and at 10 o'clock parade will move as follows: Watchung avenue to Chatham street, to North Plainfield cemetery, to Somerset street, to Front street, to Park avenue, to Seventh street, to Plainfield avenue, to Evergreen cemetery, to Fifth street, to Central avenue, to Front street, to Post Headquarters and dismiss.

At 2 o'clock in the afternoon the Post will re-assemble at headquarters and march to Reform Hall, where public Memorial services will be held. These exercises will consist of singing by a chorus of children, a service to be conducted by the veterans, an address by Rev. William C. O'Donnell, of Jersey City, vocal and instrumental music and recitations. The Post has engaged the Independent Fife and Drum Corps and music for the parade will be furnished by the corps. The children's exercises at Reform Hall will be in charge of the Woman's Relief Corps.

FIRST DINNER-DANCE.

Will be Held at Hillside Clubhouse Tomorrow Evening.

Members of the Hillside Tennis and Golf Club are looking forward to the first dinner-dance of the season which is to be given at the clubhouse Friday night. Dinner will be served at 7 o'clock. Arrangements have been made to accommodate all who wish to attend and there is no danger of overcrowding. Any who have not as yet notified the steward of their intention to be present should do so at once. Pound, of New York, will furnish music.

HAPPENINGS ON MEMORIAL DAY

Varied Attractions for Plainfield People Which Are Scheduled for Tomorrow.

THE OUT DOOR SPORTS.

Plainfield Amateur Baseball League Opens Its Season—Lots of Minor Games—Activity at Local Golf Clubs—Tennis Will be Popular —Many Other Events.

With words of eulogy and floral garlands, the memory of those who fought in defence of their country will be honored tomorrow. All over this broad land, Memorial Day will be observed by the people, that brave band of veterans of the Civil War known as the Grand Army of the Republic taking the initiative. Plainfield will share in the commemoration of the day, for which a programme has been prepared by Winfield Scott Post, the local branch of the G. A. R., the full details of which will be found in another column. Besides the more serious events, Memorial Day in Plainfield will be filled with numerous attractions in outdoor sport. If the promise of a pleasant day, made by the weather prophets, is only fulfilled, Memorial Day will be memorable in more ways than one.

What with baseball, golf, tennis and bicycling, the local lovers of outdoor sport promise to have almost a surfeit of enjoyment. While of late years, Memorial Day has grown to become the real opening of the season of summer sports, it has been a long time since Plainfield had such an array of events prepared for the holiday. Both in quantity and quality will the attractions be of special interest.

Nothing, which takes place on the holiday, promises to attract more general interest than the formal opening of the Plainfield Amateur Baseball League. The league was organized in this city this spring with four clubs included in its membership. All have made a strong showing so far and there is every evidence of a spirited contest as the season progresses. Special interest attaches to these opening games tomorrow as they will give the first opportunity to really see how well the teams are matched. Interest in baseball has been growing steadily until now it has reached a pitch almost equal to that of the days when the National game was at its height.

Four games are scheduled for tomorrow in the league. In the morning, the Hopes will play the St. Marys on the latter's field on West Fourth street near Darrow avenue. It can be reached by the Fourth street trolley cars. The game is called for 10:30 o'clock. At the same hour the Y. M. C. A. and Hibbard-Rodman-Ely Safe Works teams will meet on the latter's grounds on South Second street, near Clinton avenue. Spectators for this game will find the Front street trolley cars land them close to the grounds. A small admission will be charged with an extra fee for the grand stand.

The Hopes and Safe Works teams meet in the afternoon at 3:30 o'clock on Hope Common, which is located on Sherman avenue, near Grant avenue. It can be most easily reached from West Eighth street and Spooner avenue. The nearest trolley is the Fourth street line, leaving it at Spooner avenue. At the same time, the St. Mary's and Y. M. C. A. nines will meet on Pittis field. These grounds are located on Stelle avenue, between Division street and Central avenue, and can be reached by trolley, either by taking the Arlington avenue line to West Ninth street or the Fourth street line to Central avenue. As at the other games, a small admission fee is charged with an additional charge for the grand stands.

Then there are a host of minor games scheduled for the day. The Clinton Avenues will go to Dunellen in the morning, Scotch Plains has two games on for the day on its own diamond, one with New Providence in the morning and the Riversides, of Newark, in the afternoon. The O Be Joyfuls and the Cuban Giants will meet in the field at the corner of Randolph Road and Arlington avenue during the morning hours. The boss and journeyman horseshoers are also to meet in the morning.

The annual baseball match between the firemen of the Warren Engine Company and the West End Hose Company will be played on the Myrtle avenue grounds tomorrow morning. There is promise of a hot game on Pittis Field in the morning when the nine from the Rutgers Prep School will play a return game with City High School. The game is called for 10:30.

At Westfield, two games are scheduled. In the morning, the Carterets will be there and in the afternoon the Maujer A. C. will be the opposing team.

A day full of activity is promised at the Hillside Tennis and Golf Club. The golf events for the day consist of play for the Holiday cup in the morning at 10 o'clock, a kicker's handicap in the afternoon, beginning at 2 o'clock, and a clock golf contest for the women starting an hour later. On the tennis courts there will be play for the Decoration Day cup for men all day. Play will start at 10 o'clock. A ping-pong tournament for women will start at the club house at 5 o'clock. In the evening, the first of the series of dinner dances will be held. Members can make arrangements with the steward for the dinners and all will be invited to participate in the dancing which will follow.

At the Park Golf Club, Memorial Day promises to be a busy day. In the morning, there will be a handicap ball sweepstakes for the men, eighteen holes, medal play. In the afternoon, play for the Holiday handicap cup starts at 2 o'clock. It is eighteen holes, medal play. At 4:30, a driving contest will be started from the first tee and an approaching and putting contest for mixed couples on the ninth green. Tea will be served during the afternoon and a number of the women of the club will receive the guests. Luncheon and supper will be served to those who desire it on due notification to the steward.

Tennis will be the chief attraction at the Park Club tomorrow where the courts will be busy all day if the weather permits. A special tournament for club members will be played. The courts of the Cedar Brook Tennis Club will also be the scene of much activity although no formal events have been arranged for the holiday.

While Memorial Day used to see half the city awheel, the devotees of the bicycle are much fewer in number this year than they were five years ago. Nevertheless quite a number will undoubtedly ride over to Milburn tomorrow morning to witness the famous Irvington-Milburn road race. It is scheduled to start at 11 o'clock. A motor race will precede it and start at 10 o'clock.

Lovers of horseflesh and fast horses will go to New Brunswick in the afternoon to see the programme of trotting and pacing events which are booked to take place at the Highland Park track.

Every Plainfielder, who owns an automobile, will undoubtedly be out to enjoy the holiday spinning over the good roads of this county. Then there will be a host of these vehicles from other cities which will pass through here during the day. Some of the latter may prove desirable acquaintances to keep as far from as possible as these strange chaffeurs too often forget the rights of the public in their desire to make fast time.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. Randolph.

ANOTHER TICKET OFFICE.

The much desired has come to pass. It is authoratively stated that before another month shall pass by, there will be two ticket offices at the North Avenue station, one on the east-bound station and the other in the west-bound station. It is something for which the Plainfield public has been clamoring for a long time, ever since the new east-bound station was put in service.

It is well to note just who is responsible for this change. During the comparatively brief time, W. G. Besler has served as general manager of the Jersey Central, he has granted many requests of the Plainfield patrons of the Central. This is only another instrance.

As has already been remarked in these columns, Mr. Besler has demonstrated the fact that he wants to please the people who use the Jersey Central. He is a business man but he believes that the way to win success for his railroad is to make it as popular as possible. And he is doing it. When he came here, there was a continual howl from the Plainfield patrons over the treatment they were receiving. That has stopped now and, instead, words of hearty praise are beginning to be heard on every hand. If this policy is continued, the Jersey Central will regain all its old-time popularity and stand even higher than before in the estimation of the public.

The Republicans of Union county are planning to give an outing some time in August. It is to be hoped that they will select a location where the mosquitoes will not be so thick as to hide all the booms which will be thrown to the winds on that occasion.

On account of the rush of news which will follow the holiday, all notices for the regular church column, Saturday, must reach this office not later than 9 o'clock to insure insertion.

Press of advertisements in today's Daily Press has made it necessary to publish local news on pages three, six and seven, in addition to the second and other regular local pages.

As tomorrow will be Memorial Day, a legal holiday in New Jersey, The Daily Press will not be issued on that day.

Wants Others to Know.

"I have used DeWitt's Little Early Risers for constipation and torpid liver and they are all right. I am glad to indorse them for I think when we find a good thing we ought to let others know it," writes Alfred Heinze, Quincy, Ill. They never gripe or distress. Sure, safe pills. L. W. Randolph.

WANT CLEAN PLAYING IN AMATEUR LEAGUE

Letter to Umpires From President of the City League, Wm. N. Runyon.

UMPIRES ARE ASSIGNED.

THOSE WHO WILL OFFICIATE IN TO-MORROW'S LEAGUE GAMES.

President Runyon Quotes Constitution and Asks for a Strict Observance of the Rules—Must be No Rowdyism in the Games.

The following umpires will rule the diamonds at the various League games tomorrow: Y. M. C. A. against Safe Works, Brown and Satphen; St. Mary against Hope, Young and Townley. In the afternoon Y. M. C. A. against St. Mary's, Brown and Young; Hope against Safe Works, Bodine and Townley.

The president of the league, W. N. Runyon, has sent the following letter to the umpires:

Gentlemen:—

The sections of the Constitution of the Plainfield Baseball League referring to the umpires and thier duties and powers are as follows:

Umpires.

"1. Four umpires shall be selected by the Executive Committee before the fifteenth day of May, 1902, and two umpires assigned to each game."

"2. All complaints and questions of ruilngs of the umpire are tob e argued solely by the captains of the oppoisng teams. Any player becoimng offensive to the umpire in any manner whatsoever may be dismissed by such umpire from taking further part in the game then being played; and upon refusal to leave the game, or upon the refusal of the captain of his team to enforce the order of the umpire, it shall be the duty of said umpire to declare the game forfeited to the opposing team."

"3. In case any umpire appointed as herein provided for, shall for any cause be disabled from umpiring a game, the Executive Committee shall appoint a substitute umpire."

Another section of the constitution provides that the National League rules shall govern in all cases not otherwise specified. The only rule to which your attention is directed at this time, is the one relating to discretionary foul balls. The Executive Committee has voted to dispense with this rule altogether, and to substitute in place thereof the rule which obtained last year, which declares all foul balls strikes until two strikes have been called against the batsman.

It is sincerely to be hoped that each and every one of you will not be at all backward in enforcing your powers when the occasion may demand. The public expects and is entitled to good clean ball playing, and anything that savors of rowdyism must be frowned upon at once. You may rest assured that the officers of the League stand ready at all times to back you up in your efforts to maintain the thoroughly high standard of baseball.

With entire confidence in your ability to do your part in making the League a sucess, I remain,

Yours truly,
Wm. N. Runyon,
President.

SUBURBAN NEWS

A Department Devoted to the Minor Events in Greater Plainfield's Suburbs by Our Own Correspondents.

DUNELLEN.

The Dunellen A. C. will play two games of baseball tomorrow. In the morning they will line up against the Clinton Avenue A. C. In the afternoon they will play a team of scrubs composed of a number of the old players about town and as the scrubs will have a good pitcher an excellent game is expected. In the morning before the regular game a game will be played between two teams captained by Abner Coriell and Lewis Churchill.

The brass band held a lengthy practice last evening and played all the pieces that they will play at their concert tomorrow evening.

Appropriate exercises will be held in the public schools today in honor of Decoration Day. The schools will be closed tomorrow.

The Dunellen Juniors will play a team from Plainfield tomorrow on the Clinton Avenue grounds.

Prayer meeting was held last evening in the Presbyterian church and was well attended.

Mrs. Randolph, of Front street, has returned home after a visit with out of town friends.

W. L. Larrabee has received a large shipment of strawberry baskets for the spring trade.

A number of New York business men will have a holiday tomorrow and Saturday.

Mrs. Nancy Thomas is spending a few days at the home of Mrs. George Churchill.

Miss Mary Adams, of Newark, *spent* yesterday with friends in town.

The W. C. T. U. will hold its regular weekly meeting today.

Prayer meeting was held last evening in the Methodist church.

Garretson & Gray have purchased a large horse for use in carting.

Dr. Brakeley has purchased a new horse for use in his practice.

T. L. Cory is visiting out of town friends for a few days.

NEW MARKET.

Lakeside Council will present its entertainment in Friendship Hall this evening contrary to the report that it would be postponed.

There will be very little amusement of any sort in town tomorrow but a considerable number will visit out of town.

A heavy frost is reported through this section last night but it is not thought crops will be harmed much

Mrs. Davis, the aged mother of W. J. Davis, has improved from a severe illness.

The cornet band will meet in Recreation Hall for practice this evening.

PLAINS AND FANWOOD.

The management of the baseball team is anticipating a large crowd of the lovers of the national game at both the morning and afternoon games tomorrow. In the morning the team will meet the strong Murray Hill team and a good game is assured. In the afternoon, The Riverside, Newark's crack team, will be present and try conclusions with the boys. Saturday afternoon at 3:30, the Dunellens will be on hand. There is no doubt but the lovers of the game will turn out in force and encourage the club in maintaining a winning team.

Decoration Day in the village will be observed in the usual way. The several fire companies, assisted by a number of the school children, will meet a delegation from Winfield Scott Post, G. A. R., of Plainfield, at 9 o'clock at the Park avenue trolley crossing, from there a short line of march will be given. At the cemetery the graves of the heroes of the late war will be decorated. At the cemetery Rev. Dr. J. H. Parks and Rev. G. M. Shott will make short addresses. Children are asked to bring as many flowers as possible.

The members of Excelsior Hook and Ladder Company were out for drill last evening. The band engine which has recently been repaired, was tested and found to work satisfactorally again.

Twilight Council, Jr. O. U. A. M., will hold its regular weekly meeting in the Library rooms tonight. A full attendance of the members is desired as considerable business will be transacted.

Isaac Ryno's baseball team will cross bats Decoration Day morning with the West End team, of Dunellen. The game will be played at the latter place.

The Friday evening prayer meeting at the church will be held Friday evening as usual in both the Methodist and Baptist churches.

Rev. Mr. Bindenberger, of the Methodist church, has left for a ten days' vacation with friends in Pennsylvania.

Miss Sadie Reger was the guest of friends in Plainfield last night.

SOUTH PLAINFIELD.

The old railroad bridge over the creek near the depot is being removed and a new one put in its place. The new bridge arrived yesterday, and as soon as it can be put together, the old bridge will be replaced. The work will be done without delaying railroad traffic.

The teacher and pupils of the eighth grade of the local school attended a class meeting at the New Market school, yesterday afternoon, to arrange for graduation.

Nathan Blackford had several strokes of paralysis, Tuesday night. Yesterday he was very weak.

Walter Smith is now carrying the local Press route. He has bought it of Clarence Hoffman.

FENNER FAMILY REUNION.

The Annual Event Will be Held at Roycefield Tomorrow.

The Fenner family, which holds a reunion every year on May 30, will meet tomorrow for the annual festivities at the home of Geo. Wortman in Roycefield. There are more than eighty members of the family in New Jersey, about twelve of whom reside in Plainfield.

Rev. Mr. Hart, of Raritan, will deliver an address before the reunion meeting tomorrow. Horace J. Martin is president of the society and Mrs. Chas. Foster, secretary.

Not as Well as Usual.

Since returning from the south, Rev. Dr. D. J. Yerkes has not been feeling as well as usual, owing to a change in the climate. As soon as the weather becomes seasonable he will no doubt regain his health.

Mr. and Mrs. W. W. Coriell, of West Front street, are visiting C. V. D. Corle, of New York.

Dangerous If Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartly, Yankeetown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. L. W. Randolph.

ANNUAL RECITAL.

Given by the Pupils of Miss Minnie Marsh Yesterday Afternoon.

The annual piano recital by the pupils of Miss Minnie Marsh took place yesterday afternoon at the home of Miss Marsh, 915 Madison avenue, when a large number of people including the parents and friends of the pupils were present to enjoy the event.

The pupils all acquitted themselves creditably and the teacher, as well as her pupils, came in for a generous share of praise for the result of the year's work. Miss Marsh was assisted in receiving by her sister, Mrs. S. St. John McCutchen. After the recital there was a social time and light refreshments were served.

The pupils who presented the programme include the Misses Gladys Peck, Margaret Townsend, Anna Scott Yerkes, Marjory Howard, Alice Elizabeth McGee, Dorothy Howard, Marguerite Lee, May F. Cogan, Ruth Constance Fredericks, Dorothy Fisk, Norma Northrop, Helen W. Stevens, Helen Cowles Lee, Florence Ethel Forbes, Annie L. Jennings, Adelaide W. Howard and George B. Yerkes and Sidney Gough.

MEMORIAL DAY EXERCISES.

Held at the North Plainfield High School This Morning.

Memorial Day exercises were held in the North Plainfield High School today. In the morning an appropriate programme was carried out by the primary department and this afternoon there were exercises suitable to the day by the grammar class.

The morning programme began with the singing of "America." Recitations were given by Clara Runyon, Elsie Debele, Edythe Schenck, Helen George, Edmund LaPorte, Ada Mills, Susie Bennett, Myra Hinkle, Edith Campbell, Lizzie Smalley, Kathryn Day, Karl Mathiasen, Celeste Kolb, Bessie Conroy and Agnes Yorgenson, Edna Sebring, Harry Mowry and Myra Lippincott. A number of choruses were sung by the pupils, principally patriotic, ending with "Our Country's Flag."

The programme in the advanced grades opened with the singing of "Sleep, Comrades, Sleep," by 125 voices. Recitations were delivered by Otto Menck, Miss Krewson, the Misses Alice Martin, Leah Hammond, Marie Woolston, and Florence Lawson.

BURNED IN EXPLOSION.

Something in Waste Basket Exploded When Put in Furance.

Part of Janitor Stephenson R. Hope's hair and beard and the skin from both palms are missing today as a result of an explosion which occurred early this morning, among the contents of waste paper baskets which he was burning in the furnace at the Bryant School.

A sharp report rang out and was followed instantly by a sheet of flame which completely enveloped him and set his clothing on fire. He put the flames out but not before he was badly burned. His injuries were dressed at a local pharmacy.

STUDYING SEWAGE DISPOSAL.

Four Lafayette Men and Professor Visited City's Beds.

Four students from Lafayette College, Pennsylvania, and Prof. A. Prescott Folwell, of that institution, are in the city today for the purpose of learning something about Plainfield's sewage system. The young men were taken to the sewage beds by Street Commissioner Gavett, who explained the system in detail. From here they will go to Little Falls, and thence to New Rochelle to view the chemical sewage disposal works at that place.

Worse for Drink.

Joseph Oliver, a very old man, was picked up by Patrolman Saffron in the West End, last night, very much the worse for drink. In the city court, this morning, he pleaded for forgiveness and it was granted in the way of a suspension of sentence.

VETERANS SPOKE.

Delivered Brief Addresses at the City Public Schools This Morning.

Memorial Day exercises were held in all the city schools today. Suitable programmes were carried out in the High School, also in Washington, Irving, Bryant, Lincoln, Franklin and Irving Schools.

At the exercises in the High School Commander J. F. Berg, of Winfield Scott Post, introduced Comrade Reese, of Westfield, who delivered an address containing his personal reminiscences of the Civil War. Mr Reese afterwards spoke at Washintgon School as did also Jacob Wagoner. At Bryant, Major Bogart of the U. S. drum corps and W. C. Smith, Winfield Scott Post, made short speeches.

Mr. Smith and Major Bogart, accompanied by Capt. M. C. Dobbins, afterward visited Lincoln School, where becoming exercises were carried out. Capt. Dobbins previously made an address at Irving.

Programmes were also presented in Franklin and Whittier Schools.

BROKE HIS NOSE.

A Carpenter Met a Brick With Serious Results.

Chas. Leonard, a carpenter of Stebbins place, while working in the rear of the Babcock building yesterday afternoon, was struck on the head by a brick.

Mr. Leonard was rendered unconscious for several minutes. Dr. Dundon dressed the wounds, and found that the man's nose was badly broken, his face bruised, and that he sustained slight scalp injuries. Mr. Leonard is able to be around again this morning.

Authorized to Begin Business.

A certificate of authority has been issued by William Bettle, commissioner of banking and insurance, stating that the Plainfield Trust Company has complied with all the provisions of the State laws and has authority to commence business, that the company is duly and legally organized and is authorized to transact business as a trust company in New Jersey.

Funeral of Jos. Carbone.

Following a simple service at his late home on Park avenue, this afternoon, the remains of Joseph Carbone were taken to Brooklyn where a further service will be held in St. Anthony's R. C. church, Sunday morning. Interment will be made in Calvary cemetery.

A BIG MEMORIAL DAY RACE

THINGS LOOK BRIGHT FOR IRVINGTON-MILBURN ROAD RACE.

Large Field of Entries and Plenty of Prizes—A Ten-Mile Motor Race First.

Things look bright for the success of the Irvington-Millburn road race on Memorial Day. A large number of riders have already entered and more entries are coming in every day. Present indications point to even a larger field than there was last year.

J. A. Acborn, of New York, who won the time prize last year, has sent his entry, as have dozens of other good riders from all parts of this State, New York and Pennsylvania. Charles Schlee, the well-known Newark rider and Vailsburg favorite, is pected to start. The Century Wheelmen, of New York, have sent a large number of entries, intent seemingly upon winning the silver cup, which is to go to the club having the largest number of starters.

The prizes are well worth trying for, with a motor-bicycle for the first man to cross the tape, and tapering down to a variegated assortment of bicycle sundries to the slower ones. Second prize will give the winner the choice of any high-grade bicycle made by the A. B. C., third prize will be a Yale racing wheel; fourth a Reading Standard racing wheel; fifth a Regal racer, and so on down to the tires and other things. There will also be five time prizes, beginning with a chainless bicycle for the winner and high-grade wheels for the second and third man, respectively.

The race will be started promptly at 11 o'clock. The ten-mile motor race, which is to be the preliminary event of the day, is to start at 10 o'clock.

ON THE DIAMOND.

The Safe Works team will cross bats with the Clinton Avenues, Saturday afternoon. The game will be played on the latter's grounds.

The North Plainfield High School nine will play at Port Richmond, S. I., Saturday. The borough boys intend to finish the season strong.

A return game with the Garwood A. C. will be played by the Hopes in this city, Saturday afternoon. The local nine defeated the Garwoods by a score of 17 to 16 some weeks ago.

Manager Muir, of the Safe Works' contingent, has signed three more men to add to his pennant chasers. All are good players but cannot be placed in league games for several weeks yet. In the meantime they will try out with practice games.

Many of the local baseball enthusiasts would like to see another game—the "rubber"—between Hope chapel and Plainfield High School. One stout admirer of the school nine asserted yesterday that the latter could hold its own with any team in the Plainfield League.

An excellent group picture of the Hope team was secured, Saturday afternoon, previous to the High School game. In addition to the players President Runyon, of the Y. M. A. and Manager Cose were taken. The other League teams will also have pictures taken within the coming week.

Manager Johnston, of the Scotch Plains baseball team, has announced the following schedule of games booked: May 30, morning, New Providence Field Club; afternoon, the strong Riverside team, of Newark; Saturday, May 31, the Dunellen team will be the opponent. These are all home games. June 7, the team cross bats with its old opponents, the Springfields, at Springfield; June 14 is still open; June 21, a return game will be played with Springfield; June 28, Dunellen at Dunellen; July 12, the team goes to Roselle to meet the Roselle Field Club. As the team has so far been playing winning ball the chances are it will hold its own and have a fair credit of wins out. The home games are being well patronized, and the outlook for a successful season is very bright.

Another Policeman.

At the next meeting of the Common Council Mayor Jenkins will probably appoint a special policeman to do regular duty. If after a trial is given, the man shows himself efficient he will no doubt be appointed as a regular. There are four applications for the position and it is not known as yet who will be the lucky man.

Building New Factory.

The work of erecting the new iron factory at Dewey Park for W. A. Garrigues, of this city, is progressing favorably. Nearly a hundred men are engaged in the work, with the purpose of completing the factory at the earliest possible date.

TWO CLEVER ENTERTAINERS

FINE MANDOLIN MUSIC BY SAMUEL SIEGEL, REMARKABLE PLAYER.

Assisted by Hyman Meyer, Pianist and Musical Monologist, Who Also Greatly Pleased.

It has been said that Siegel has done for the mandolin what Paginini did for the violin. However that may be, it would be almost impossible to understand the versatile range of the instrument, until it is heard beneath the magic touch of Samuel Siegel. Last evening in Y. M. C. A. hall Mr. Siegel gave a recital, assisted by Hyman Meyer, the pianist and delightful entertainer.

The first mandolin selection was a "caprice de concert" unaccompanied, introducing right hand harmonics duo form, left hand pizzicato, quartette form, and presto chord movements, followed by a cradle song, a duo for one mandolin.

Among other pieces on the programme by Mr. Siegel was a "Spring Song," "An Autumn Serenade," and "Nearer My God to Thee." He is certainly an artis tin his favorite line, and during the entertainment was forced to respond to several encores. Hyman Meyer in his musical impersonations immediately jumped into favor with the audience. His "Educated Chicken," being a ventriloquistic performance, representing a chicken singing to an accompaniment, "The Mocking Bird," was amusing and laughable. This was followed by a vocal imitation reproducing the mandolin tremolo. In response to an encore he picked up a newspaper and sang a clothing advertisement in mock heroic style, which completely brought down the house.

"At the Grand Opera," a delightful satire on Italian opera, gave Mr. Meyer an opportunity to further show the scope of his attainments. He here impersonated, while playing his own accompaniment, both the heroine and the hero, and changed with remarkable ease from the soprano tone of the one to the bass of the other. The dramatic action of the usual opera was likewise satirized.

FIREMEN TO MEET.

Famous Game of Baseball Between Warren and West End Companies on Myrtle Avenue.

A game of baseball that has been looked forward to with great interest and on the result of hich admirers of the two teams have staked reputation and lucré is that to be played on the cricket grounds, Myrtle avenue, tomorrow morning. Warren Engine House and West End Hose Company will be the competing nines.

Behold the talent of West End Hose Company: Catcher, D. Bagly, captain; pitcher, Frank Perry; first base, L. Bimble, Sr.; second base, Wm. Demarest; third base, Frank Kellar; short stop, Chas. Kellar; left field, L. Bimble, Jr.; right field, Chas. Greder; centre field, Wm. Pasch.

BRIDGE BUILDERS STRUCK.

Work Stopped on Structure Over Middle Brook, Near Bound Brook.

(Special to The Daily Press.)

Bound Brook, May 29—The men employed by the American Bridge Company in building a new bridge for the Central Railroad, across the Middlebrook, west of town, have been persuaded by a walking delegate to quit work. There is no union here, and it is outside any union district, nevertheless all work is at a standstill because the American Bridge Company and the union had trouble at Philadelphia some time ago. What the upshot will be is hard to determine.

POSTAL CLERKS TO MEET.

Annual Convention of State Association Will be Held Tomorrow.

The annual convention of the New Jersey State Association of Postoffice Clerks will be held in Elizabeth tomorrow. State Secretary Maurice E. McGrath, of New Brunswick, has received advices that there will be at least sixty delegates present, representing three hundred offices in this State. Plainfield will send her share of delegates. At the convention the question of selecting a delegate to represent the association at the national convention to be held in Kansas City on Labor Day will be decided.

Memorial Day at Bound Brook.

(Special to The Daily Press.)

Bound Brook, May 29—Decoration Day will be observed in this place by a parade of members of the Grand Army of the Republic and the fire department. There are about seventy-five soldiers buried in the cemeteries here and their graves will be decorated. The exercises will take place in the morning.

THE STURGIS WAGER

A DETECTIVE STORY.

By EDGAR MORETTE.

Copyright, 1899, by Frederick A. Stokes Co.

"Go on," said Sturgis; "it goes without saying that any theory is worthless unless it takes into account and explains every existing fact. If there are any in this case which have escaped me—a contingency which is quite possible, for I have no pretension to infallibilty—I shall be glad to hear about them; and, naturally, if my conclusions do not tally with the facts, the conclusions must be altered, since facts are absolute."

"Well, then," said Dunlap, "assuming, for the sake of the argument,

HE BROKE THE BOOKKEEPER'S WRIST WITH ONE BLOW.

that these various marks which you have called trails were made by the feet of three different people; admitting even that one of these individuals was Arbogast, who often stays here after banking hours, I do not see that you have established by any satisfactory evidence your assumption that the other so-called trails are those of Chatham and a stranger. For aught I know to the contrary, they may have been made by some of the bank employes in the discharge of their regular duties. Chatham's coat may have caught on a nail in the telephone closet last week, while he was here in his legitimate capacity of expert accountant. The change of the combination of the safe may be the result of an error; for we have no direct proof whatever that Arbogast is a defaulter. And, then, when it comes to your interesting description of the alleged shooting of Arbogast, it strikes me that you are entirely carried away by your enthusiasm; for, in your minute description of the path of the bullet, at a certain angle, of which you seem to know the measure almost to the fraction of a second, you overlook several important things. Two shots were fired yesterday in or near the Knickerbocker bank. In, say you, because here is a revolver with two empty cartridge shells; here is a black mark, which may have been produced by the ricochet of a bullet, and here is a shapeless piece of lead, which may be that bullet. As, however, one bullet cannot account for two shots, you are forced at once to assume that Chatham has carried away the second one in the palm of his hand. This is ingenious, very ingenious, but—"

"His blood is on the telephone receiver," observed Sturgis, quietly.

"Blood!" exclaimed Dunlap; "why, with the carnage that you have imagined here, there should be oceans of blood. Here is a man, running around with a wounded hand, who leaves a few drops of blood on the telephone receiver, and nowhere else. And here is another man, shot through the lungs—excuse me, through the upper lobe of the left lung—who does not bleed at all. And where is he now? Such a wound as you have given him must, I take it, be fatal, or, at any rate, serious. Yet here is a dead or, at least, a dying man, calmly walking off as if—as if the curtain had fallen at the end of your drama, and the corpse had hurried off to his dressing-room."

"You have forgotten something else," suggested the reporter, smiling.

Dunlap looked at him questioningly.

"Yes; you have forgotten the pistol replaced in the drawer after Arbogast was shot, and the doors of the bank carefully locked."

"True. No, my dear sir; your elaborate theory will not bear an instant's calm examination."

"And yet," rejoined Sturgis, "my conclusions, as far as they go, are absolutely correct. Every objection which you raise is plausible enough when considered by itself; but we have not to deal with a lot of isolated facts, but with a series of connected events, each of which depends upon and supports all the others. Let me finish my story, and I think you will then be prepared to admit that what seems to you now a flight of fancy on my part, is nothing but a sober exposition of plain, unvarnished facts."

Dunlap, with a deprecating gesture, settled back into his chair once more.

"We left Arbogast shot through the left lung—fatally wounded, as you have just remarked. He probably fell like a log; while Chatham, weak from shock, leaned against the door jamb yonder. He had probably stanched his wound with his free hand as he ran; I have been unable to find any trace of blood between the telephone and this spot. On the door jamb, however, the blood left a stain which has not been completely wiped out and which enabled me to judge of Chatham's height. 'X' was the only one of the trio who knew what he was about at this time. I have a genuine admiration for 'X;' he must be a man of marvelous nerve. Instead of flying panic-stricken from the scene, as any ordinary criminal would have done, he calmly proceeded to protect his retreat and to systematically cover his trail. His first step was to lock the Wall street gate and the inside door. Quinlan had doubtless pulled the outer door to as he ran away, so that 'X' probably thought this also locked. He then, with Chatham's assistance, helped Arbogast, who was not yet dead, and who perhaps by this time, had regained consciousness, into the cab which was waiting near by in Exchange place, where I found the blood-stains on the curb, as you will remember. After starting off his two accomplices in the cab, he returned to the bank, put away the pistol in its proper place, which, by the way, he seems to have known, and washed up all or nearly all the blood stains. There is a sponge and bucket under the sink in the clerks' room, which were used in this operation. After, as he thought, completely obliterating all traces of the tragedy, he quietly walked off by the Exchange place entrance, locked the door and threw away the key. All this, while Policeman Flynn was chasing Quinlan. You will note that 'X,' knowing nothing of the Quinlan episode, was quite justified in believing that the shots had failed to attract any attention outside of the bank. Very likely he was disturbed by the return of the policeman and Quinlan; I cannot otherwise account for his having left the gas burning. Had he had the time, I feel confident that, with his customary thoroughness, he would have turned it out. As to my minute description of Arbogast's wounds, there is nothing remarkable in that. I know that the weapon used by 'X' was yonder chair, because I found particles of the bookkeeper's epidermis upon one of the legs, which was considerably lessened by the blow. But I know exactly what the wounds were, because I have examined them. I told you that I had seen Arbogast yesterday."

"What!" exclaimed Dunlap; "you mean after he was wounded?"

"Yes," replied Sturgis; "his body is at the morgue now. You might call there this afternoon to identify it, if you choose; but, everything considered, it might be as well not to make the identification public until we are well on the track of Chatham and our friend 'X.'"

This is the statement of a citizen. The testimony of a neighbor. You can readily investigate it. The proof should convince you.

Mrs. M. A. Hall, of 219 Prescott place, says: "For several years I had a dull aching pain across my back, at times extending to my hips. I was compelled to lie in just one position all night and stooping, lifting or bending forward aggravated the pain. Although I used different remedies that were recommended to me I obtained little, if any relief. I saw Doan's Kidney Pills highly endorsed in our daily papers and procured a box at L. W. Randolph's drug store. It was not long before I felt great relief and I was surprised how quickly the pain in my back disappeared."

URGED COLORED MAN TO GREATER EFFORT

Mass-Meeting Was Held by That Race at Reform Hall Last Evening.

SEVERAL OF SPEAKERS.

REV. DR. TALIAFERRO, OF PHILADELPHIA, WAS PRINCIPAL SPEAKER.

Subject of All Was the Improvement of the Colored Race—Rev. E. E. Jackson Presided—Chorus and Orchestra Assisted.

The reunion of the colored people of Plainfield attracted a large audience to Reform Hall last evening. The mass meeting was held under the auspices of a number of leaders of the race of this city and sevreal prominent men of the race from other cities were present to join in speaking in behalf of the colored people. There was a chorus of forty voices and a programme of well-known selections was well given. An orchestra was also present and rendered a number of popular selections.

Rev. E. E. Jackson, pastor of the Mt. Olive Baptist church, was in charge of the meeting, but William Kline, Jr., announced the several numbers on the programme and the speakers.

After the opening hymn, "Holy, Holy, Holy," Rev. E. E. Jackson made a few appropriate remarks and Rev. E. J. Crudup, of the Fillmore Baptist church, offered prayer. Another selection by the choir preceded an able address by Rev. Dr. G. L. P. Talliaferro, of Philadelphia, who spoke on the possibilities of the negro in the world. His chief thought was that the negro should by earnest effort make a place for himself and seek greater opportunities to improve his condition. He said that the negro who is happy with nothing will never get anything.

Other addresses on the subject of improving the colored race were made by Rev. Mr. Beam, of the Mt. Zion A. M. E. church; Rev. E. J. Crudup and Lawyer Atkins, of New York, who represented Dr. C. T. Walker, of New York, who could not be present. Each address was filled with timely advice for the colored people.

In addition to the addresses there was a soprano solo, "The Holy City," by "Black Hattie," a contralto solo by Mrs. M. Erby and a recitation, "The Dying Soldier," by Miss Cora Pierson. Each number was received with loud and hearty applause. Interspersing these selections the orchestra rendered attractive numbers.

At the conclusion of the programme all adjourned to the basement of the hall where a banquet was enjoyed and refreshments were served by a number of women under the direction of Mrs. Martha Yetman, chairman. The whole affair was a great success and proved to be very beneficial as well as interesting.

GOLF.

The caddymaster of the Hillside Tennis and Golf Club, Eugene Mc Carthy, has laid in a full stock of golf and lawn tennis supplies and is prepared to sell golf clubs, balls, tennis racquets and tennis balls, all of first-class make at New York prices.

The second play for the Ackerman cup, women's competition, will take place Saturday afternoon, June 14, on the Hillside Tennis and Golf Club course. No contestant is allowed to score more than one preliminary win for this cup. Mrs. Edward M. Van-Buren is the first one to score a win.

Notwithstanding the fact that the boys who are competing for the Boys' cup on the Hillside Tennis and Golf Club course have had their handicaps reduced, they still continue to play good golf and make low scores. At the present rate they will be in a class with the older members.

TENNIS.

The first competition at tennis for the Mellick cup for singles, open to women members of the Hillside Tennis and Golf Club, active, non-resident, associate or junior associate, is being held this afternoon on the new courts of the club. The competition for the Decoration Day cup for men's singles will be played tomorrow morning at 10 o'clock, all matches best two sets out of three, 'vantage sets, except finals, which are three out of five. This is the opening of the tennis season and a very successful one is promised at the club.

NEW SAFE.

Just Installed in New Quarters of The Plainfield Trust Company.

The Mosler Safe Company has just put in the office of the Plainfield Trust Company a safe weighing nine tons. It was brought from New York to Plainfield on one of the company's largest trucks, which was drawn by four horses. Owing to the great weight of the safe it was necessary to put extra supports beneath the floor and these columns will make the floor perfectly solid. The safe was put in position without a mishap of any kind.

Took a Day Off.

MEMORIAL DAY WITH GOLFERS

Much Activity and Large Attendance Marked the Day at Local Golf Clubs.

VARIETY OF EVENTS.

Hillside Club Had Golf, Tennis and Ping-Pong as Attractions—Dinner-Dance Followed—Park Golf Club Had Many Events—Courses Were in Excellent Condition.

Memorial Day proved a big day at the local golf clubs. Interesting programmes of competitions and social features had been provided and large crowds of members were present at the two club houses all day to enjoy them. The weather was delightful although the high wind interfered somewhat with the accuracy of the playing.

PARK GOLF CLUB.

A large turnout marked the day at the Park Golf Club, yesterday. In the morning, the chief event was a handicap ball sweepstakes, eighteen holes, medal play, for which a field of sixteen started. There were prizes for the first three places. The scores, better than 100, were:

	G	H	N
Charles A. Reed	108	30	78
William A. Townsend	109	22	87
Charles B. Morse	111	22	89
S. St. J. McCutchen	119	27	92
J. H. Simpson	100	5	95
William R. Faber	119	24	95
J. C. Barcalow	108	12	96
Dr. A. W. Anderson	128	30	98

Three events were held during the afternoon. First came a handicap competition for the Holiday cup, eighteen holes medal play. The trophy was permanently won by William A. Townsend. The scores, better than 100, were:

	G	H	N
Wm. A. Townsend	99	22	75
Charles A. Reed	107	30	77
S. St. J. McCutchen	105	27	78
A. W. Anderson	115	30	85
Lesley W. Hallock	108	20	88
J. H. Howell	117	28	89
J. C. Barcalow	102	12	90
Charles B. Morse	114	22	92
Morgan T. Townsend	100	7	93
Samuel Townsend	123	30	93
J. H. Simpson	100	5	95
H. Studdiford	127	30	97

Then came a driving contest which was won by S. St. J. McCutchen with three drives averaging 177 yards. Dr. A. W. Anderson was second and Charles B. Morse third. The high wind interfered with the driving, nearly every competitor sending one or more drives out of bounds. The longest single drive was 196 yards by William A. Townsend. The others who competed were Morgan T. Townsend, Wallace M. Brown, J. C. Barcalow, J. H. Simpson, William A. Townsend, Augustus VanDeventer and Hervey Studdiford.

An approaching and putting contest completed the afternoon's programme. It was won by Rev. and Mrs. C. L. Goodrich, who made three approaches in ten strokes. Mrs. Samuel Townsend and M. T. Townsend and Mrs. George D. Hallock and Charles E. Faber were tied for second place with twelve each. The other pairs which competed were Miss Shreve and Samuel Townsend, Senator and Mrs. Charles A. Reed, Miss Helen Phillips and William R. Faber, Mrs. S. St. J. McCutchen and Wallace M. Brown, Mrs. George T. Rogers and Charles B. Morse, Miss Edna French and Lesley M. Hallock, and Mrs. J. C. Peck and George D. Hallock.

An informal reception was held during the afternoon at which tea was served by Mrs. S. St. John McCutchen and Mrs. Charles A. Reed.

HILLSIDE CLUB.

One of the best list of events ever arranged by the Hillside Tennis and Golf Club was that of yesterday. From early in the morning till late in the afternoon a host of members enjoyed golf, tennis, and ping pong, while in the evening the first of the dinner-dances was given. Dinner was served at 7 o'clock to a large number of people, after which there was dancing until 11 o'clock, music for which was furnished by Pound, of New York.

In the morning play for the Holiday cup was the event. This was won by Walter F. Murray. The scores for this

NEW TRUST COMPANY'S STAFF

ASSISTANTS SELECTED FOR THE VARIOUS DEPARTMENTS.

Edward F. Feickert Will be the Teller of the Plainfield Trust Company.

The Plainfield Trust Company's several departments will be in charge of the following persons who have been selected for their respective positions by reason of their special qualifications. Edward F. Feickert, for the past eleven years with Kountze Brothers, the bankers at 120 Broadway, New York, has been engaged to fill the position of teller.

Mr. Feickert recently leased the Beckman property, corner of Fairview avenue and Verdon street, and is very favorably known to the directors of the company. He brings to this position a great deal of valuable knowledge acquired during his banking experience.

The services of Daniel E. Davis, a valued and respected citizen of Plainfield for years, have been secured for the position of bookkeeper. Mr. Davis for twenty years held a confidential position as accountant and bookkeeper with the late firm of Wallace Elliott & Co., who dissolved partnership recently.

Raymond Stevens, a well-known young man of the borough, a graduate of the North Plainfield High School Class of '02, has been engaged as junior clerk and Mrs. Adeline P. Robinson, for several years with Harvey Fisk & Sons, bankers, has secured the position of stenographer.

GAVE A CONCERT.

Raised Funds for Swedish Evangelical Pilgrim Church With an Excellent Programme.

A pleasing concert was given Thursday evening in the Congregational church under the auspices of the Swedish Evangelical Pilgrim church and an appreciative audience gathered to enjoy it. The programme included a prayer by Rev. Charles L. Goodrich, selections by the Pilgrim church string band, piano solos and organ selections by John T. Erickson, vocal solos by J. A. Scott, violin solos by George H. Spier, violin duets by George H Pier and John Tinglof.

The programme was an excellent one and it was well rendered, each number being heartily received. Following the enetertainment there was an informal social during which refreshments were served by the women of the church. The affair was a success, netting a goodly sum for the church under whose auspices it was given.

HURT IN RUNAWAY.

Three Residents of Stony Hill Were Thrown Out of Wagon.

Louis Funk, Louis Burkmiller and Manning Frazee, all of Stony Hill, were the victims of a runaway accident while driving from that place to witness the ball game at Scotch Plains yesterday. Going down Spencer's hill the harness broke, the horse became frightened and started to run. All three occupants of the carriage were thrown heavily to the ground.

Burkmiller escaped unhurt, but Frazee had his arm broken, and Funk was severely bruised and cut about the face and head, several stitches being required in some of his wounds. Dr. Westcott attended the injured men.

FIRST DINNER-DANCE.

Successful Social Event at Hillside Tennis and Golf Club.

The first of the series of dinner-dances given at the Hillside Tennis and Golf Club last evening was a unqualified success. There were nearly 130 guests at dinner and the menu and service by Steward Lord were all to be desired. The dancing in the evening which was continued until 11 o'clock was one of the most delightful ever held and assures other similar affairs during the season. The success of the house affairs is due to the house committee of which Councilman George P. Mellick is chairman. The golf committee, of which T. R. VanBoskerck is the chairman, deserves much credit for its efforts.

Informal Affair.

An informal reception was given Thursday evening by Mr. and Mrs. F. S. Cutter at their home on Sandford avenue, in honor of their guests, Mr. and Mrs. Willett, of New York. The social features were greatly enjoyed by all.

The opening of the Plainfield Amateur Baseball League overshadowed all other events in the local baseball world, yesterday. Hope Y. M. A. came to the fore in sensational fashion, winning both its games and taking the lead in the league. The Y. M. C. A., of which so much was expected, was defeated by the Safe Works and St. Marys and went to the bottom of the column. The other two teams scored a victory and a defeat each.

All the league games were close enough to be exciting and the interest in them, combined with the delightful weather served to attract great audiences to all the games. For three of the games, a thousand turned out to each. While there was heaps of enthusaism and excitement all the games were free from any unpleasant features.

Of the contests, besides those of the league, the return game between the Plainfield High School and Rutgers Prep attracted many. Rutgers had an comparatively easy thing of it by the score of 15 to 5. That famous contest between the firemen of North Plainfield resulted in victory for the West End Hose Company. Scotch Plains won two games and Westfield added two exciting games to the list. Dunellen also had its share of baseball.

HOPE'S FIRST VICTORY.

Superior playing by the Hope Y. M. A. boys gave them their first League game, yesterday morning, when they defeated the St. Marys on the latter's grounds, by a score of 11 to 6.

From the start the St. Mary members played loose ball, the six runs made being scored in the fifth inning when Hewitt attempted to continue pitching with a sprained wrist, caused by a hot grounder. Up to then he did very well, striking out four men and allowing but very few hits. Fifteen hits were made off Doyle but he made himself solid by striking out ten men. The St. Marys' total number of hits was twelve, from Montross and Hewitt.

In the field the Hope team played in splendid shape, as did also Casey, Taylor and Scott of the St. Marys. Montross and Scott both made home runs. The crowd witnessing the game numbered a thousand and spent its enthusiasm in vociferous cheering for its favorites.

SAFE WORKS' GAME.

Good clean exciting ball, in spite of numerous errors on both sides, characterized the morning game on the South Second street grounds between the Y. M. C. A. and Safe Works. After a hot struggle the Safe Works team won out by the narrow margin of 6 to 4.

It was hardly a pitcher's battle. Both twirlers succeeded in keeping the hits down pretty well, but Fish and Ward each succeeded in negotiating a two-bagger off Burt. These drives meant runs, and are responsible for the winning of the game.

At first bag, Dupee put up a good game for Y. M. C. A. and Ward at second for Safe Works played excellent ball, and Seigford at short handled the sphere with consummate skill.

The detailed summary follows:

HOPE'S SECOND WIN.

Confident of their ability to win after their morning victory, the Hope Y. M. A. boys crossed bats in the afternoon with the Hibbard-Rodman-Ely Safe Works team and won out. By so doing it placed the doughty West End players at the head of the League. It was an exciting game throughout and was won by the close score of 11 to 9.

Montross pitched the entire game for the Hopes while the shopmen used Booth and Burns. Heavy slugging was a feature on both sides and two and three baggers were frequent occurrences. The Safe Works players got ten hits and the Hopes fifteen. While a number of errors were made on both sides, withal the game was snappy and caught the fancy of the large crowd of spectators.

"Teddy" Overton, Hope's diminutive rightfielder, played faultlessly and won the plaudits of everybody. Martin, Gordon, Roseberry, Siegfried, Allen and Jackson were noticeable for clever plays. The first half of the last inning was intensely exciting as a combination of circumstances put the Safe Works dangerously near the Hope score.

Following is the summary:

KNOCKED DOWN BY AN AUTO

CONDUCTOR PATRICK FAHY HAD HIS COLLAR BONE BROKEN.

Electric Machine, Run by T. J. Mumford, Was Moving Slowly—Mumford Was Arrested.

While crossing the street from his car to the curb at the Watchung avenue trolley terminus, yesterday morning, Patrick Fahy, of West Fourth street, a conductor on the Fourth street trolley line, was knocked down by an electric automobile owned and driven by T. J. Mumford, of 319 West Ninth street. At Muhlenberg hospital, where he was immediately taken in the ambulance, it was found he had sustained a scalp wound, a broken collar-bone and numerous abrasions. This morning he was greatly improved from the shock and will not be detained at the institution long.

At the time the accident occurred, Mumford was sending his machine along at a speed of about five miles an hour. He was on the left side of the street owing to a jam of wagons and trolley cars. He was keeping a sharp lookout but Fahy came from behind a car and stepped in front of him before he could check the vehicle's speed. Mumford was placed under arrest by Patrolman McCarthy but was bailed out after spending two hours at police headquarters.

At Mr. Mumford's request, his family physician, Dr. Endicott, was placed in charge of the case. He will continue to attend the injured man until he is entirely well.

WANT A SETTLEMENT.

Journeymen Carpenters Ask That Plumbers Strike Be Settled Without Delay.

The Journeymen Carpenters' Association, becoming tired of the existing troubles between the master and journeymen plumbers, which compels the carpenters to stop work at frequent intervals, is insisting that the differences be adjusted at the earliest possible minute. In consequence a communication has been sent by the journeymen plumbers to the boss plumbers signed by the journeymen carpenters as well as the journeymen plumbers, asking for a conference with a view to settling the trouble. This meeting may be held this evening.

It is estimated that during the month that the journeymen plumbers have been on a strike there has been at least $3,000 lost in that trade.

FENNER REUNION.

Eighty of That Family Gathered at Roycefield Yesterday.

The annual Fenner reunion was held at Roycefield yesterday. About eighty members of the family were present, but a large number were detained at Point Pleasant owing to the burning of the bridge over the Manisquan river.

A very pleasant day was spent in social intercourse, and addresses were made by Rev. Mr. Hart, of Raritan, Rev. Mr. Schaefer, of Millstone, and Rev. Mr. Hegeman, a retired clergyman living at Roycefield.

When the election of officers took place, John Fenner was chosen president for the ensuing year and Mrs. Amos Fenner secretary.

FOUGHT POLICEMAN.

Woman Objected to Being Taken to the Lockup.

Lizzie McKee, a female of Amazonian instincts, sought to beat Patrolman Overbaugh when he placed her under arrest for begging on Park avenue, Thursday evening. The bluecoat's helmet was knocked spinning from his head and he himself got several thumps on the cranium. Fearing she would think of the usual female prisoner's method and jab him with a hatpin, he was forced to hurry her along in straight fashion. She told a hard luck story in the city court this morning, and sentence was suspended.

Mayors Opened Games.

Both the city and borough's chief executive took part in the City League baseball games, yesterday. The Hope-St. Mary game in the morning was opened by Mayor Smalley, who heaved an annexation twist over the home plate. In the afternoon, Mayor Jenkins took a shy at the ball and pitched the first curve in the Hope-H. R. E. Safe Works game.

Mrs. Kain, of Philadelphia, is visiting at the home of her brother, Councilman Charles Lee, of Grove street.

HONORED THE SOLDIER DEAD

Observance of Memorial Day Under Charge of Winfield Scott Post, G. A. R.

A PARADE IN MORNING.

Exercises Held at Reform Hall During the Afternoon—Address by Rev. W. C. O'Donnell—Company K Acted as Escort for Post—Services Held at Cemeteries.

The observance of Memorial Day by the veterans of Winfield Scott Post, No. 73, G. A. R., was in perfect keeping with the day. Once again they remembered the soldier dead by placing beautiful flowers on the graves in the various cemeteries in this city and vicinity.

Early yesterday morning the members of the Post assembled at headquarters and details were sent to the cemeteries with flowers. These flowers were collected and arranged by members of the Woman's Relief Corps. Upon the return of the details preparations were made for the short parade.

This year, for the first time, the whole Post, accompanied by the Independent Fife and Drum Corps, went to Scotch Plains, where appropriate services were held in the cemetery over the grave of John Hand, the first Plainfielder killed in the Civil War. At Scotch Plains the public school children, under direction of Principal White, Rev. G. M. Shott and Rev. Dr. Parks, together with the members of the fire department, and officers of the Post, took part in the services.

Upon returning from Scotch Plains the Post, with the members of Company K, under the command of Captain W. K. Browning, as an escort, took up the line of parade, as previously published. At the North Plainfield cemetery appropriate services were held over the grave of Edward C. Morse and in the Plainfield Avenue cemetery similar services were held over the grave of Isaac Brokaw. These services were conducted by Commander Berg and Post Officers Charles B. Stephens, Chaplain John Goodwin and Isaac L. McVoy. Comrade J. Worth Coddington was marshal of the day and he led the parade. After these services were held the Post and Company K were dismissed.

At 2 o'clock in the afternoon the members of the Post assembled at headquarters and preceded to Reform Hall, where interesting exercises were held under the direction of Commander Berg. There was a chorus of children which, under the supervision of the Woman's Relief Corps, sang patriotic songs, and a stringed orchestra rendered appropriate selections. Features of the programme were the bass solos by Charles L. Lewis and soprano solos by Miss Jennie Smith.

Considerable interest was manifested in the address delivered by Rev. William C. O'Donnell, formerly of the Monroe Avenue church, but now of Jersey City. Mr. O'Donnell is a Son of Veteran and filled with a patriotic spirit. His remarks held the closest attention of the large assemblage of people, as he reviewed scenes and incidents of the late rebellion and how the brave soldiers fought for the liberty now enjoyed today. He praised the veterans and the members of the Woman's Relief Corps for the part taken. Throughout his address there was frequent applause.

The other part of this programme was devoted to an impressive exercise known as "Remembering the unknown dead." In this exercise Commander Berg and a number of the Post officers recited several parts in memoriam, while the children laid flowers on an improvised grave.

There was a vocal duet by Elmer Bohan and Harry Smith, also vocal selections by the Misses Carrie Kliner, Leanna Satterlee, Lavinia Seader, Mamie Prentice, May Smith, Tessa Dunavan, Olive Mills, Edith Whitney, Nellie Mattox, Clara Smith, Ethel Manchester and Florence Hartley.

According to the annual custom the official orders from national headquarters were read by Commander Berg and Lincoln's address at Gettysburg was also read. After the exercises were over the children in the chorus were served with ice cream and cake in the basement of the hall.

SUNDAY GOLF?

Morris County Country Club is Confronted With a Problem Hard to Answer.

(Special to The Daily Press.)

Morristown, May 31—A perplexing question confronts the Board of Governors of the Morris County Country Golf Club. The club is one of the very few that has never allowed Sunday golf playing. At present, the managers, who naturally gave way in the making of club laws to the predominant sentiment of the club membership, are witnessing a decline here of interest in golf playing on week days.

The gates of the neighboring Baltusrol are open to the golfers on Sunday, and the Morristown representation at Baltusrol is not only larger on the Sabbath, but the representation on week days is also increasing. The governors of the Morris County Country Club realize that they must win the wandering membership back, and the question with them is: "Can we do it without opening the golf course on Sunday?"

CHANGE IN ELIZABETH TIMES.

Gaius S. Merwin Has Bought Unsubscribed Stock of Newspaper.

Gaius S. Merwin, formerly of the New York News, has bought up the unsubscribed stock in The Elizabeth Evening Times Publishing Company and has assumed the position of business manager. Chauncey F. Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. W. Randolph.

HARRISON K. WRIGHT ORDAINED TO MIN'STRY

The Ordination Services Were Held in the Crescent Avenue Presbyterian Church.

ON THURSDAY EVENING.

ADDRESS OF THE EVENING WAS MADE BY ROBERT E. SPEER.

Moderator Mendenhall Put Constitutional Questions to Candidate and All Were Answered Satisfactorily—Able Divines Here.

Harrison K. Wright was ordained to the ministry in the Crescent Avenue Presbyterian church Thursday evening. Mr. Wright was licensed by the Elizabeth Presbytery, at Elizabeth, April 28.

The ceremonies opened with prayer by Rev. J. A. McKelvey, of Warren chapel. Reading of Scripture by Rev. John Kerr, of Elizabeth, followed. The ordination sermon was preached by Robert E. Speer, secretary of the Presbyterian Board of Foreign Missions. At the conclusion of the sermon, which was an able and eloquent effort, Rev. Mr. Mendenhall, of Perth Amboy, the moderator of the Elizabeth Presbytery, put the constitutional questions to the candidate for the ministry, all of which were answered satisfactorily in a clear strong voice.

When the candidate had demonstrated his fitness for the approaching honor to be conferred upon him, Rev. Dr. W. R. Richards made the ordination prayer, after which took place the impressive laying on of hands by Rev. Mr. Mendenhall, moderator; Rev. Dr. W. R. Richards, Rev. J. O. McKelvey, Rev. Mr. Sproul, of Dunellen, Rev. Mr. Kerr, of Elizabeth, Rev. Mr. Parry, of Pluckemin, and Rev. C. E. Herring, of the First Presbyterian church.

Rev. Mr. Parry then solemnly charged the newly ordained minister that he was henceforward consecrated to the service of God, and advised him to be prayerful always, and ever to have the utmost confidence in God, and concluded by wishing that God might grant him a happy, a useful and a fruitful ministry.

After prayer offered by Rev. Mr. Kerr, were read the minutes of the last meeting of the Presbytery containing the statement that Harrison R. Wright had been duly licensed at that meeting. The Presbytery then adjourned.

After singing by the congregation Rev. Mr. Wright pronounced the benediction.

Robert E. Speer in his sermon spoke on missionary enterprise. He chose for his text "The Father sent the Son to be the Savior of the World." In the realm of missionary work was apparent that God was obeyed and loved at the present day, not so much because it was commanded but because it was commended. The often disappointing results of missionary enterprise suggested some thought on the deeper ground for the love of God, and upon the place of missions in the thought of God. Man could never retain his Christian conception of God without keeping in view his universality. If he appeared on earth amid a narrow people, he selected that race because a beginning was necessary somewhere. The gospel could not have been preached two thousand years before the coming of Christ because there was no language medium to import it. A suitable terminology had to be created.

His coming was a missionary enterprise. According to His own words "The Father sent Me." He came on a mission from Heaven. His prayers were missionary prayers, and showed the universality of His idea. His command "Go ye into the uttermost post of the earth" was a missonary command. These words were yet but a specific statement of the dominant spirit of the Bible. Take the missionary spirit out of the Bible and there is little left.

The Atheist could not understand modern persecutions, such as the Armenian massacres. They have their explanation in Christ's command to carry the gospel throughout the world. He has received the command from His Heavenly Father. And if the Almighty God had seen fit to send His only begotten Son to save mankind, what better could man do than give his son for the same purpose.

No mere synopsis can do justice to the eloquent and impressive sermon delivered by Mr. Speer.

CHANGED TO LADIES' GUILD

ANNUAL MEETING OF WOMAN'S FRIENDLY SOCIETY OF HEAVENLY REST.

Officers Elected and Reports Were Received—Guild Arranged for the Annual Fair.

The annual meeting of the Woman's Friendly Society of the Church of the Heavenly Rest was held Thursday afternoon, in the parish house and the largest attendance of members in the history of the society was recorded. For sometime past the society has been considering the question of changing the name, and by a unanimous vote the members decided to change the name to the Ladies' Guild of the Church of the Heavenly Rest.

The reports of the various officers showed that the guild is in a flourishing condition financially and otherwise. W. W. Moore presided at the meeting for the last time. He is now being engaged in business in New York and will be unable to devote as much time to the work of the guild as formerly.

The following officers were chosen for the ensuing year: President, Mrs. Charles Graves; vice president, Mrs. Edward E. Brown; secretary, Mrs. Benjamin K. Burke; treasurer, Mrs. H. W. Fraleigh.

After the business of the meeting was concluded luncheon was served and a few appropriate remarks were made by the rector, Rev. Harris C. Rush. It was decided by the members to hold the annual fair on Friday, June 12, in the parish house.

NEARLY LOST MANAGER.

John Cose, Manager of Hope Nine, Injured in Collision Between a Carriage and Bicycle Thursday.

The Hope baseball team came near playing yesterday without the guidance of its manager, John Cose, through an injury which he sustained in a severe bicycle and wagon collision, Thursday afternoon.

He was riding the former along Fourth street and at Madison avenue turned to one side for a little girl crossing. As he did so, a horse driven by Adam Blair, dashed across the avenue and crashed into him. He went to earth and the horse leaped clear over him, but the wagon wheels passed over his prostrate body. The bicycle was completely demolished.

Cose made his way to Dr. Probasco's office where his injuries, the chief of which was a sprained knee, were attended and he was advised to remain quietly at home for several days. Love of the National game and anxiety to cheer on his team induced him to disobey and he is just able to hobble about.

All Testimony In.

All of the testimony is now in regarding the case of the Harper, Hollingsworth and Derby Company, of Scotch Plains, against several water companies who have been using the water from Green brook. The case will be argued early in July.

Farewell as Rector.

Rev. E. M. Rodman will officiate at Grace Episcopal church tomorrow for the last time as rector. He will preach his farewell sermon and will undoubtedly have something to say of interest to the members of the church.

Building Lodge Gate.

William C. Smith, of the borough, has commenced the work on the handsome lodge gate to be erected at the entrance to the Hyde property in North Plainfield. The gate will cost, it is said, several thousand dollars.

Summer Complaint

is not always brought about by change of air and water. The "stay-at-homes" are just as susceptible to diarrhoea; due, generally, to over-eating, as unripe fruit, etc., and, drinking ice water; all accompanied by painful bowel discharges; and, if not checked, results seriously. Perry Davis' Painkiller is the only purely reliable remedy. 25 and 50c.

MISS JACKSON'S PUPILS GAVE ANNUAL RECITAL

Classes in Physical Culture and Rendering Gave Their Recital at the Casino.

CLEVER RECITATIONS.

PROGRAMME, ALTHOUGH LENGTHY, WAS GREATLY ENJOYED.

One-Act Play and Several Monologues Were Special Features of a Cleverly Arranged Entertainment—Audience Pleased.

An audience which almost exceeded the Casino's capacity attended the reception of Miss Addie Parker Jackson's classes in physical culture and rendering, Thursday evening. Enthusiasm was unbounded and the pupils, young and old, received unstinted applause for the grace and true rendition which characterized every number.

A lengthy and diversified programme was presented and it held the interest of the audience throughout. As each number was given it not only demonstrated the pupil's capabilities but also the success attained by Miss Jackson in her chosen field. She is possessed of much dramatic art, no small portion of which has been imparted to her classes.

Prominent among the features of the programme were the physical culture drills, which were the initial numbers, representing the three distinct departments of physical work. They were the hygienic drill, or exercises for good position, deep breathing and equal muscular development; the aesthetic drill, for grace and harmony of movement; and the dramatic drill for complete expression of thought, in which the following movements were gone through with: Flight, surprise, fear, defiance, command, excited appeal, thought, hesitation, and benediction. In these drills the following pupils took part:

First, Arthur Robinson, leader, Margery Dohrman, Marion Taylor, Ella Case, Carolyn Welles, Charles Orth and Tracy Pray; second, Miss Aimee Conant, and the Misses Gertrude Abbott, Dorothy Hoar, Edith Jarvis, Jessie Maclay, Hazel Grant, Marjorie Collins, Helen Adams and Eloise Haven; third, the Misses Margaret Abbott, Janet Carter, Lydie Loizeaux, Alice Conant, Stephanie Krom, Mildred Spicer, Aimee Conant and Lucie Budlong.

One of the most entertaining numbers on the programme was the first act from the comedy, "Sunbonnets," which revealed a glimpse of New England life. It was highly entertaining as the characters were depicted with a native simplicity that lent a "down east" atmosphere to the scene.

The characters and those interpreting them were as follows: "Mrs. Butterfield, a practical person who takes summer boarders," Miss Janet Carter; "Charlina, her fourteen-year-old daughter," Miss Eloise Haven; "Mrs. DuBois, an unpractical city woman who boards with Mrs. Butterfield," Miss Edith Jarvis; "Mildred, her sixteen-year-old daughter," Miss Jessie Macaly; "Miss Tryphenia Sandford, an inquisitive postmistress," Miss Lucie Budlong; "Mrs. Phelan, a kindly old friend of Mrs. Butterfield," Miss Marjorie Collins.

The statue scene from "Pygmalion and Galatea," by Miss Aimee Conant and Miss Gertrude Abbott, a monologue, "The American Girl," by Miss Alice Conant, a monologue, "Rosalind's Surrender," by Miss Margaret Abbott and a dialect recitation, "De Surprise Pa'ty at de Qua'tahs," by Miss Ella Case, found favor with the audience and were longly applauded. Especially so in this way was Miss Case's recitation as she received an ovation and was twice recalled.

The remainder of the numbers consisted of recitations all of which were well received. They were as follows: "The Romance of a Rose," Miss Dorothy Hoar; "A Trip to the Land of Nod," Miss Marion Taylor; "The Ballad of Elkinah B. Atkinson," Miss Mildred Spicer; "The Story of Flash," Arthur Robinson; "The Keeper of the Light," Miss Lydie Loizeaux; "The Gypsy Flower Girl," Miss Stephanie Krom; "Tom's Misdirected Valentines," Charles Orth; "The Spinning Wheel Song," Miss Anna Conant; "Around the May Pole," Miss Marjorie Dohrman; "Aunt Peggy and High Art," Miss Helen Adams; and "The Peacock on the Wall," Miss Hazel Grant.

All the pupils were presented with huge masses of flowers by admiring friends and during an intermission Miss Jackson was called to the front and also received a beautiful bouquet, the gift of her classes.

Novelty Festival.

A novelty festival will be given at the First Presbyterian church Thursday evening, June 12, under the auspices of the women of the church.

Gray Hair A Crime?

Thousands of men and women are turned out of positions and many fail to secure situations because their gray hairs make them look old. This need not be.

Hay's Hair-Health

makes age halt and keeps thousands in employment because it takes years from their apparent age. HAIR-HEALTH will positively restore gray, faded or bleached hair to its youthful color. It is not a dye. Its use cannot be detected. Equally good for men and women.

Gentlemen:—At forty my hair and mustache began turning gray. A friend on my road lost his place because his gray hair made him look older than he was. Profiting by his experience, I began using **Hay's Hair-Health**, with the result that I have the same dark-brown curly hair that I had at 21. Have held my position, although many younger men, whose only fault was their gray hair, have been dismissed. I thank you for my position.

WHAT PEOPLE ARE DOING

SOME BRIEF PARAGRAPHS OF A PERSONAL NATURE.

Many Folk of Greater Plainfield Are Entertaining or Being Entertained.

Mrs. J. A. Staats, of the Hotel Kensington, has been detained to her room by illness.

Miss Watts, of Newark, has returned home after a visit with Miss Ida Spicer, of West Fifth street.

Mrs. George Morton, of Westfield, has been visiting her mother, Mrs. L. M. Case, of Central avenue.

Miss Ritchey, of Trenton, is a guest at the home of Mr. and Mrs. Chas. J. Fisk, of West Seventh street.

Miss Niles, of Boston, Mass., has returned home after visiting Miss Burroughs, of Watchung avenue.

Mrs. Pliny Fisk, of West Seventh street, will give the second of a series of luncheons at her home Wednesday.

Miss Clementine R. Yates, of East Seventh street, has returned home after an absence of several days from the city.

Miss Genevra M. Miner, of Freeport, L. I., is visiting at the home of her uncle, Joseph E. Morse, of Franklin place.

Charles W. Burton and daughter, Mrs. Harriot Burton Ford, of Watchung avenue, have returned from a pleasant stay at Atlantic City.

Miss Cora Hand, of Elmwood place, who has been quite ill with typhoid fever, has sufficiently recovered to leave her room. She hopes to be able to go out doors soon.

CITY JOTTINGS.

—The regular communion service will be held at the First Baptist church tomorrow morning.

—Harold Brownell, of Elmwood place, has secured a position at Nagle's pharmacy for the summer months.

—The regular meeting of the McAll Auxiliary will be held at the Public Library Wednesday morning, at 11 o'clock.

—There will be a special communication of Jerusalem Lodge, No. 26, F. and A. M., this evening, at which time the fellowcraft degree will be conferred on three candidates.

A Safe Place.

If you are going away for the summer you want a place to store your valuables. If you put them in Doane's safe deposit vault you will have no cause for worry. Trunks are stored for a nominal sum and lock boxes can be rented reasonably. When one leaves his valuables at home there is always more or less anxiety as to safety, and when these things can be stored so cheaply there is no excuse.

U. V. U. at Divine Service.

Antietam Command, Union Veterans' Union, will attend divine service at the Westfield M. E. church, by invitation, Sunday evening. Rev. A. Anderson will deliver an appropriate sermon. The members are requested to assemble in the post rooms at 7 o'clock and be prepared to take the 7:15 trolley from the North avenue terminus.

Chilly Days These.

According to Weather Observer Neagle, the thermometer flirted with the thirty-four degree mark, Thursday morning. Hunterdon county reports of the peach crop failure in consequence, are expected to be brought in by Patrolman Lunger who left for Sunnyside, Wednesday afternoon, for the purpose of being on the spot.

Vacation for Firemen.

Vacations will begin at fire headquarters, Monday. The first to go is Driver S. B. Frazee, who will spend his ten days among the rustic delights of Hammockton, near Trenton. He will be followed by Chemical Driver Freeman who will sojourn with relatives at Goshen, N. Y.

Salary Increased.

Postmaster Elias H. Bird has received notice that his salary has been increased from $2,900 to $3,000. This news is gratifying, coming at a time when the Plainfield postoffice is promoted to the first class.

Lots of Business.

There will be plenty of business at the June meeting of the Common Council to be held Monday evening. Several matters in relation to the streets, police, etc., will be brought up at that time.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. L. W. Randolph.

MEMORIAL DAY.

Another Memorial Day has passed into history. There are more graves in the local cemeteries, above which wave the tiny stars and stripes than there were a year ago. One by one, the veterans of the Civil War are departing from this world to a better and happier land. There is still a goodly band of them left, many of them hale and hearty and vigorous enough to live more than a score of years yet. But the day is bound to come when the Grand Army of the Republic will cease to exist and the last of the old soldiers will have passed away. So it is well to honor them while they are in the land of the living and not wait until they are no more before beginning to recognize their worth.

Memorial Day in Plainfield proved to be an active day for many. Besides the observation of the day under the auspices of the Winfield Scott Post, G. A. R., outdoor sport flourished. Baseball, tennis, golf and other sports were all well patronized. Probably the most important event was the opening of the Plainfield Amateur Baseball League. Four games were played and the interest was very high at every game. There is every indication that the National game will be the all important outdoor attraction this summer.

While cooler than the customary Memorial Day, the day was a pleasant one and decidedly propitious for outdoor sport of various kinds. It was also far more comfortable for those who took part in the parade of the morning and gathered at Reform Hall in the afternoon. Little more could have been asked in the way of weather.

The fine showing made by the Plainfield High School battalion at its annual review and exhibition Thursday speaks well for the man who has had charge of their instruction during the past year. Under the direction of James D. Macnab, the battalion has made great progress and reflected much credit on that gentleman for his painstaking and hard work of the school year, now drawing to a close.

And so Plainfield's baseball league has started. There were some disappointed people yesterday morning and more in the afternoon. But then, everybody could not win and so it is to be expected that the partisans of some of the nines in the league will have to see their fondest hopes dashed to the ground and their rivals in the lead.

The demand for advertising space in The Daily Press continues so great that we are again compelled to sacrifice the space usually devoted to general telegrapic news for local news. Local news is to be found today on every page of The Daily Press.

Delightful Summer Plans.

Mr. and Mrs. T. S. Wheeler, of Park avenue, will leave today for a drive up through Connecticut and Massachussets, and then to their place at Dover, N. Y., where they will stay until the first of July after which they will go to the St. Lawrence river to cruise on their houseboat and steam yacht for the summer.

Wants Others to Know.

"I have used DeWitt's Little Early Risers for constipation and torpid liver and they are all right. I am glad to indorse them for I think when we find a good thing we ought to let others know it," writes Alfred Heinze, Quincy, Ill. They never gripe or distress. Sure, safe pills. L. W. Randolph.

WON IN LAST INNING.

St. Marys and Y. M. C. A., the two defeated teams of the morning, met on Pittis field in the afternoon. Both sides were anxious to retrieve their lost laurels, and both put up a snappy variety of ball. It was the star game of the day.

With the score 6 to 1, in the last half of the seventh in favor of St. Marys, Y. M. C. A. took on a batting streak and evened matters up. Both were blanked in the eighth and it looked like anybody's game. St. Marys by tallying two in the first part of the ninth and then shutting their opponents out ended the argument.

Emes, Y. M. C. A., out in right garden, played the fanciest article of ball on the field. He gathered in seven flies and made one valuable assist. Taylor at left for St. Mary's accepted some hard chances. The summary:

CITY'S HIGH'S DAY OFF.

Rutgers Preparatory School captured another game from Plainfield High on Pittis field yesterday morning by a score of 15 to 5.

Van Auken was enjoying the holiday and allowed Rutgers to slash him about for fourteen singles. The entire High School team played a ragged game. Cole, twirler for the visitors, kept his opponents down to four scattered base hits, but Denton drove a long one out into the prairie for three bags. Hay relieved Cole in the box in the eighth.

The batting order and summary follows:

TWO WINS FOR 'PLAINS.

The Scotch Plains baseball team added two more victories to its unbroken record yesterday, when it crossed bats with the Murray Hill Field Club, of New Providence, and the Riversides, of Newark. The Murray Hills were the morning visitors and put up a fast article of ball and for seven innings held the lead but timely batting in the lucky seventh and eighth brought Scotch Plains in the lead by a safe margin and won the game.

Score by innings:

S. P. . . . . 0 0 1 0 1 0 2 3 x—7

Attendance, 300. Struck out by Harvey, 2; by Garris, 6.

The Riversides were taken into camp in the afternoon game after one of the hardest fights of the season. Munion, of the visiting team, did not seem to be hard for the local batters but the support given him was of the best. Scotch Plains began its run making in the second, scoring one run. One run was added in the third and fourth and for six innings the game stood 3 to 0, in favor of the local team. A couple of base hits, assisted by a wild throw of Brogan cleaned the bases and tied the score. The tie was broken in the eighth when the home team batted out five runs. Score by innings:

R. F. C . . 0 0 0 0 0 1 2 0 0—3
S. P. . . . . 0 1 1 1 0 0 0 5 x—8

Attendance, 400. Stuck out, by Harvey, 7; by Munion, 3.

FIREMEN ON DIAMOND.

Warren Engine Company and West End Hose Company, of the borough fire department, came together on the Myrtle avenue grounds in the morning. This game started about two months ago, but the first ball was pitched yesterday. After a long hard contest, West End came off victorious in the ninth round by a score of 16 to 12.

Alex. DeCamp pitched for Warren, and Walter Bennett did the catching. Frank Perry and D. Bagly were the battery for West End. Perry was a mystery for the batting eye of his opponents. The line up was as follows:

Warren—Catcher, Walter Bennett; pitcher, A. DeCamp; 1b., John Schenck; 2b., L. Feiring; ss., Ed. Smith, l.f., J. Walker; r.f., Bert Bodine, captain; c.f., Harry Codington.

West End — Catcher, D. Bagly; pitcher, Frank Perry; 1b., L. Bimble, Sr.; 2b., W. Demarest; 3b., Frank Kellar; s.s., Chas. Kellar; l.f., L. Bimble, Jr.; r.f., Chas. Greder; c.f., Wm. Pasch.

Following is the score by innings:

West End. 2 3 1 2 1 2 1 0 4—16
Warren. . . 4 2 1 0 2 1 1 0 1—12

DUNELLEN DEFEATED.

The Dunellen A. C. met the Clinton Avenue team on the Dunellen grounds Friday morning and was defeated in a heavy batting game by a score of 12 to 10. The game was exciting from start to finish and abounded with good plays. Smith and Craig for Dunellen put up a star game and Brown displayed his usual good form behind the bat. Ettinger was effective at critical times but some costly errors handicapped him. For Clinton Avenue Squires pitched in good style and was caught in good style by Kelly. Dodd at third also put up a good game. Dunellen will play at Scotch Plains this afternoon.

AT HIGH BRIDGE.

The Clinton Avenue baseball team journeyed to High Bridge, yesterday afternoon, and were defeated by a score of 7 to 2. It was a good game throughout, the Plainfield team acquitting itself nobly.

FORFEITED GAME.

The Cuban Giants failed to put in an appearance for their game with the O B Joyfuls, yesterday morning. Accordingly the umpire declared the latter the winners by a score of 9 to 0.

CONDENSED DISPATCHES.

An El Paso (Tex.) grand jury indicted fifty-two gamblers.

King Edward's official birthday was celebrated in London. The actual anniversary falls on Nov. 9.

The Rochambeau party was entertained at Newport, where they placed a wreath on the grave of Chevalier de Ternay.

Tennessee Democrats in convention at Nashville named J. B. Frazer for governor and reaffirmed the Kansas City platform.

A party of Chicago men returning from celebrating the acquittal of a man tried for murder killed a passerby who would not join them.

Pennsylvania Won Junior Varsity.

PHILADELPHIA, May 31.—The University of Pennsylvania won the junior varsity boat race from Columbia and Cornell on the national course on the Schuylkill river in Fairmount park yesterday afternoon. Columbia was two lengths behind Pennsylvania at the finish, and Cornell was five lengths to the rear of Columbia. The course was 1½ miles straight away, and Pennsylvania's time was 8:48. Considering the conditions the race was a good one. A strong wind blew directly up the course, which made the water choppy.

Cornell Won at Ithaca.

ITHACA, N. Y., May 31.—Cornell easily won the triangular eight oared boat race on Lake Cayuga yesterday. Syracuse finished second, over three lengths behind the winner, and Harvard's Newell club eight was beaten by more than four boat lengths. Cornell covered the two miles in 10:48.

Hammer Throwing Record Broken.

NEW YORK, May 31.—During the trials in the sixteen pound hammer throw at Berkeley oval J. R. Dewitt of Princeton broke all previous intercollegiate records with a throw of 164 feet 10 inches.

Arkansas River Subsiding.

WICHITA, Kan., May 31.—The Arkansas river, which has been on a rampage, threatening serious damage, has receded materially, and the likelihood of a bad flood now seems to be past. Railway traffic generally has been resumed.

Serious Trolley Collision.

POUGHKEEPSIE, N. Y., May 31.—By a rear end collision on the New Paltz trolley road about three miles west of Poughkeepsie seven persons were injured.

DUNELLEN.

The concert and strawberry and ice cream festival given last evening by the Dunelen Brass Band was a great success and another evidence of the excellent playing that the local organization can do. A large number were present on Kuldoshes' lawn where the concert was held and enjoyed the music. A considerable sum was realized from the sale of ice cream.

Jas. Craig & Co., chair manufacturers, have broken ground for the erection of their new factory to replace the one which was partially destroyed by fire some time ago. The new structure will be larger than the old one.

A number of interesting sets were played yesterday afternoon on the court of the Dunellen Tennis Club and from present appearances the coming season will be a very lively one.

The Dunellen A. C. will play the crack Scotch Plains aggregation on the latter's grounds this afternoon and a large number of rooters are preparing to accompany the team.

Under the will of the late Mrs. Alice Newton, the Methodist church has been left $500 with the promise that $2,500 additional be raised.

An interesting game of baseball was played yesterday morning between two teams captained by Lewis Churchill and Abner Coriell.

Walter Bodine, of New York, and Mr. and Mrs. William Hamilton, of Westfield, spent yesterday with Mr. and Mrs. Thomas Bodine.

Messers. Garrabrandt, Meade and Ginder, have removed to Philadelphia and will take their families there during the summer.

George Reed, of New York, has rented the Handren house on Grove street and will take possession June 1.

Mrs. J. B. Terry, of Brooklyn, has been spending a portion of this week with Mr. and Mrs. W. H. Terry.

Luke Hurley is suffering from an injury to his eye sustained while at work in the Pond Tool Works.

William Giles, who is suffering from an attack of scarlet fever, shows slight improvement.

Gilbert Herlich, of Hoboken, has returned home after a visit with relatives in town.

The Dunellen Juniors will play the Davis A. C. at Clinton avenue, this morning.

The regular meeting of the W. C. T. U. was held as usual Thursday afternoon.

A concrete walk will shortly be put in front of St. John's Catholic church.

Mr. and Mrs. George Giles, of Plainfield, visited in town yesterday.

Mrs. Edward Teel is spending a few days with Easton relatives.

A. A. Lake entertained out of town relatives yesterday.

The residence of Maurice L. Rauche has been painted.

NEW MARKET.

The entertainment in Friendship Hall Thursday evening, under the auspices of Lakeside Council, attracted a large audience. Two mirth provoking sketches, "Burglars" and "A Pair of Lunatics," were given and "A Darkey Wedding" was another attraction. The entertainment was a success in every way.

Daniel Moody is at present carrying the mail and will do so until a new man is appointed.

The local brass band played creditably at the auction of lots at Samptown, yesterday.

Mr. and Mrs. Harry Hayes, of Randolphville, are the proud parents of a young son.

William Piddington has secured a new and better position in New York.

Prayer meeting was held in the First Baptist church last evening.

Landlord Dent has purchased a new piano.

PLAINS AND FANWOOD.

The Decoration Day exercises in town passed off very pleasantly. In the morning at 8:30, the fire companies assembled at their headquarters and together with a number of the school children marched to the Park avenue crossing of the trolley where the delegation from the Winfield Scott Post, G. A. R., of Plainfield, was met. The line of march, headed by the fife and drum corps, was taken up to the cemetery where the graves of heroes of the late war were decorated. At the cemetery, speeches were made by Rev. Dr. J. H. Parks and Rev. G. M. Shott. At the close of the exercises at the yard the march was again taken up and the delegation of the G. A. R. was escorted back to the trolley.

Galvin's Park, formerly Recreation Park, opened to the public yesterday. The resort was well filled all day and from the present outlook Manager Galvin will have a prosperous season.

The Methodist pulpit will be occupied Sunday by a supply, Rev. Mr. Bindenberger being away on a ten days' vacation, which is being spent with friends in Pennsylvania.

Services at the Baptist church tomorrow will be, Sunday-school at 9:30; morning preaching, 10:45; B. Y. P. U. meeting, 7; and evening preaching, 7:45.

John B. Stillger and family have been visiting at the home of Mr. Stillger's parents, Mr. and Mrs. George Stillger, of Front street.

A number of the lovers of wheeling in town attended the bicycle race at Millburn Decoration Day morning.

Mr. and Mrs. A. L. Jimerson, of Westfield, spent yesterday with their daughter, Mrs. George W. Marsh.

The local baseball team is crossing bats this afternoon on the home diamond with the Dunellen team.

Harry Messler, of Rahway, has been visiting at the home of friends in town.

SOUTH PLAINFIELD.

Attractions out of town drew many from here yesterday. Among these attractions, the chief were baseball and Memorial Day exercises in Plainfield, the opening of Florida Grove and Boynton Beach, and the trotting and pacing events at New Brunswick.

Mr. and Mrs. Peck, of Brooklyn, have rented Wm. E. Smith's house on Brookside avenue. They will take up their residence here and will live here during the summer months.

Many homes here were tastefully decorated with flags and bunting, yesterday, in honor of Memorial Day.

Wm. Hamilton closed his blacksmith shop, yesterday, to enjoy the holiday.

Mr. Hazen, of Plainfield, spent yesterday at the home of Oscar Thorne.

Local commuters to New York enjoyed the holiday, yesterday, at home.

One of the chief events of the afternoon was the kickers' handicap. The lucky score was chosen between 79 and 89 and happened to be 84. There were ten contestants that made this score and the event was decided by a draw, Robert Rushmore winning the prize, a cigar-holder. The scores for this event are as follows:

Roger F. Murray, 97, 20—77; E. J. Patterson, 109, 30—79; Daniel F. Ginna, 108, 28—80; D. H. Barrows, 100, 20—80; E. T. Newkirk, 105, 25—80; Robert Abbot, 90, 10—80; W. L. Glenney, 85, 5—80; H. M. Slauson, 115, 35—80; Walter Peterson, 98, 17—81; H. C. Tracy, 111, 30—81; Evarts Tracy, 117, 36—81; E. T. Barrows, 107, 25—82; Howard Lapsley, 113, 30—83; L. H. VanBuren, 108, 25—83; J. A. Tompkins, 113, 30—83; Dr. Endicott, 102, 18—84; Arthur Murphy, 111, 27—84; S. D. Lounsbury, 100, 16—84; D. H. Rowland, 104, 20—84; F. H. Andrews, 124, 40—84; S. H. Paterson, 131, 47—84; C. W. Abbott, 96, 12—84; E. M. Daniel, 119, 35—84; Robert Rushmore, 115, 31—84; Arthur Peterson, 111, 27—84; J. P. Murray, 105, 20—85; F. A. Barnaby, 112, 27—85; W. T. Kaufman, 111, 25—86; Geo. T. VanBoskerck, 99, 12—87; H. W. Beebe, 107, 18—89; G. H. Squires, 110, 22—88; Chas. A. Stover, 114, 25—89; C. C. Burke, 116, 27—89; Lawrence Tweedy, 109, 18—91; Dr. B. VanD. Hedges, 103, 10—93.

Another interesting event was the clock golf contest for women. There was a large number of entries and the play attracted a good sized gallery. Miss Margaret Goddard won the prize, a miniature silver golf cup, with a score of 26. Mrs. E. R. Ackerman was second with a score of 28 and Miss Mary Whiton finished third with a score of 29.

The ping pong tournament for women was played on the back piazza of the clubhouse and like the other events there was a large entry list. Miss Sarah Schuyler won the events and received a silver golf cup, miniature size.

The tennis season opened on the Hillside courts yesterday beginning at 10 o'clock in the morning with play for the Decoration Day cup, men's competition.

In the preliminary round A. H. Chamberlain defeated A. D. Beers, 4-6, 6-1, 6-3; G. H. Taylor beat G. W. Cooley, 6-0, 6-0. In the first round F. W. Goddard defeated C. B. Tyler, 8-6, 6-1; Kenneth Bulkley defeated A. H. Chamberlian, 7-5, 6-3; G. H. Taylor defeated W. S. Tyler, 5-7, 12-10, 6-3; T. M. Day, Jr., defeated Arthur Murphy, 6-3, 6-0. In the semi-finals Kenneth Bulkley defeated F. W. Goddard, 6-0, 2-6, 6-1. The match between G. H. Taylor and T. M. Day, Jr., and the final semi-final match between the winner and Kenneth Bulkley will be played today.

FORESTERS IN SESSION.

Court Plainfield Heard Reports of National Convention and Enjoyed a Good Time Generally.

Following the regular meeting, last evening, Court Plainfield, No. 114, I. O. F., heard an interesting report of the recent convention held at Los Angeles, Cal., from their Supreme Court representative, Dr. H. H. Lowrie. Afterward a programme of vocal and instrumental music was rendered by several members. Phonograph selections by Brother Robert Laramour were especially well received.

Dr. Lowrie presented the court with a set of orange wood gavels made in Los Angeles by a former Plainfielder. Brother William Monsell was made the recipient of a handsome medal from the brothers for his work as an entertainer.

The evening's entertainment concluded with the distribution of ice cream, cake and cigars by Brothers Henry Hansen, Otto Nurr and Thomas Fitzgerald.

Dangerous If Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartly, Yankeetown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. L. W. Randolph.

SUNDAY-SCHOOL INSTITUTE

WILL BE HELD BY METHODISTS OF PLAINFIELD AND VICINITY.

At Vincent Chapel Thursday Afternoon and Evening—The Speakers and Subjects.

The Methodist Sunday-schools in the vicinity of Plainfield are arranging for a Sunday-school institute to be held in the Vincent chapel of the First Methodist church Thursday afternoon and evening. The afternoon session will begin at 3 o'clock and the following topics will be discussed:

"Better Teaching and How to Get it," Rev. Dr. Chas. Roads, field secretary of the Sunday-school Union, will open the discussion with an address on this subject to be followed in brief addresses by Rev. Dr. C. M. Anderson, of Westfield, and Rev. Dr. E. L. Earp, of Grace church, North Plainfield. Rev. Dr. H. M. Simpson, of Roselle, will consider the subject of "Grading in Sunday-school work." The subject of "Attendance" will also be considered.

Under the subject of "Newer Lines of Work," W. D. Murray, of this city, will talk about "The Cradle Roll." Miss Josephine Baldwin, of Newark, State secretary for primary work, will discuss "New Ideas in the Primary Department," and "The Home Department" will also receive attention at the hands of an experienced Sunday-school worker.

In the evening at 7:45 there will be a praise service conducted by Walter M. McGee, superintendent of the Monroe Avenue Sunday-school. Rev. Dr. T. B. Neely, of New York city, editor of the Sunday-school Journal, will deliver the evening address. Rev. Dr. Daniel Halleron, presiding elder of the Elizabeth district, will preside at both sessions. A collation will be served between the sessions furnished by the Methodist Sunday-schools of Plainfield.

Sunday-schools along the line of the Central Railroad of New Jersey, from Elizabeth to Raritan, are to be represented in this gathering and all Sunday-school workers are invited.

COUNTY ENDEAVORERS.

County Convention Will be Held at Third Presbyterian Church, Elizabeth, Monday.

The Christian Endeavorers of Union county will meet Monday in county convention. Afternoon and evening sessions will be held in the Third Presbyterian church, Elizabeth, and it is hoped that there will be large delegations from all parts of the county.

A workers' conference at 2:30 o'clock will be followed by a junior rally at 4:15 o'clock, both meetings to be addressed by Rev. C. E. Eberman, field secretary for the United Society of Christian Endeavor. A collation will be served to all out-of-town delegates at 6 o'clock, and at 7 o'clock the annual business meeting of the union, with election of officers, etc., will be held.

The mass meeting at 7:45 o'clock, with addresses by Field Secretary Eberman and the State president, Rev. W. T. S. Lumbar, special music under the direction of F. H. Jacobs, the widely-known soloist and leader, the award of the county banner to the society having present the largest percentage of its active membership, a solo by Miss Helen S. Baxter, of New York, and a consecration service led by Mr. Jacobs, will be the principal session of the convention. All young people are invited, whether identified with Christian Endeavor or not.

NEW TEACHERS.

Being Selected by the Bound Brook Board of Education.

(Special to The Daily Press.)

Bound Brook, May 31—A new teacher in the primary department of the public school will be added next fall. Miss Bolen, of South Somerville, has been engaged for the position. The Misses Van Syckel and Myers have resigned, the former on account of ill health, and the latter to prepare for a wedding which it is rumored will take place in the fall.

Miss Burt, of Dunellen, has been engaged in Miss Van Syckel's place. The Board of Education are weighing the merits of two applicants for Miss Myers' place. All the other teachers have been re-engaged.

Reviving Interest.

Rev. Mr. Duensing, pastor of the German Lutheran church, is doing a good work among the people of that denomination. Since coming to Plainfield he has revived the interest and the attendance at the services is more satisfactory.

Last Meeting.

The last meeting of the volunteer league of the Y. M. C. A., will be held Monday evening at 8 o'clock. "Gospel Work in Papal Lands" is the phase of missionary work to be considered.

Mrs. Patton, of Watchung avenue, has returned from a visit at Westfield.

Proposals For Coal.

Pursuant to a resolution adopted by the Board of Education of the City of Plainfield, N. J., at a meeting held May 5th, 1902, notice is hereby given that the Board of Education will meet on Monday evening, June 2nd, 1902, at eight o'clock, at their rooms in the Stillman School, corner of West Fifth street and Arlington avenue, in the City of Plainfield, at which time and place said Board of Education will receive sealed proposals for furnishing five hundred (500) tons, more or less, of coal best suited for steam and hot air heating, in Pea, No. 1 Chestnut, Stove, and Egg sizes, all coal to be thoroughly screened, trimmed, and placed in the bins within the public school buildings, without any extra expense to the Board for such handling, and to be delivered during the month of July next, or at such time as the Board may direct. Bids to specify the quality of coal to be furnished, and whether short or long tons. Payment for all coal contracted for to be made after September 1st next.

All proposals to be endorsed "Proposals for Coal." The Board reserves the right to reject any or all bids.

Upon receipt of the bids or proposals the Board will immediately proceed to unseal the same and publicly announce the contents in the presence of the parties bidding, or their agents, provided such parties or agents choose to be then and there present, and also to make proper record of the prices and terms upon the minutes of the Board. By order of the Board of Education

Topic For the Week Beginning June 1, "The Purpose of His Coming." Text, Matt. xviii. 11; John x. 10.

"I am come that they might have life and that they might have it more abundantly."

The Scriptures ever represent man as lost. The purpose of Jesus in coming to earth was to seek and save the lost.

Our experience shows the correctness of the Bible view of the condition of men. None is exempt from sin. Everywhere men have been seeking escape by every possible device. Bodies are diseased. Truth is unknown. Evil and enmity rule the soul. Life is strife and torment. Where is the power to deliver? Who shall show us the way out? Hope of a deliverer in human form has never been entirely lost.

Whoever he be, whenever and wherever he appears his task must be appalling. He can expect little or no cooperation from those he comes to help. Because they have lost the true idea and direction of life and all impulse and relish for the pure and gentle and are diseased in all their nature they will oppose him and resist his efforts to save them. Only as he can make the saved life more attractive than the lost one can there be any expectation that he can reach and lift them.

This is just what Jesus does. His miracles of healing were not intended merely to relieve for the time being the bodily sufferings of those whose diseases He cured. They were signs of His life giving power and purpose. Real health, abounding life, even of the physical nature, lies in the close contact and harmonious working of natural powers under the divine guidance. Disease is always a sign of a break in the circuit, an imperfection which is unnecessary, a derangement of the machinery. It points to wrong in the man's position as related to God and His world. Healing calls attention to the intended condition of man in God's universe and of God's power to secure him and save him and restore him to that right position.

The teaching of Jesus restores the right direction to men's thoughts. His sayings are the miracle ideas of all ages. They are signs of the true philosophy of human and divine life and co-operation. They give the clew to the mystery of existence and reveal the true nature of man. God is more than maker of body and soul, more than preserver and judge and benefactor. He is Father. We are His offspring, hence like Him. Lost because we have willfully denied our origin and nature by preferring the lower elements in our composition, lost because we have made spirit slave to the flesh! Jesus shows us the truth. He not only announces and teaches it, but becomes Truth, and we see in Him its full meaning. He is Son of Man really because He is Son of God, the first and only begotten and the first among many brethren.

More than healer of bodies and restorer of truth Jesus is to us. He saves by reaching the citadel of the soul. Men in slavery to sin can be saved only as they are set free in will to do the right. He shows obedience to the Father's will and law. He learned obedience by the things He suffered and was saved in that He feared. To every one who receives Him He gives the same power to become a son of God. He attracts to Himself as the most admirable of all men. He gives power to all who receive Him and makes them into His image.

Fishing In Many Waters.

Few successful fishermen stay in one place waiting for the fish to come to them. They move about, trying different places. Patience is not all of fishing, by any means. When Jesus said, "I will make you fishers of men," He meant more than "still fishers." He Himself "went about doing good." We lack spiritual enterprise. We wait for people to blunder upon us, and then, if we are not preoccupied or asleep, we try to be of service to them. Does not that account for empty baskets, for fruitless lives? Why not "go about" more, asking: "Whom can I help? Who needs sympathy, encouragement? Whom can I try to catch for my Master? Lord, where wilt Thou have me to go?" So in many an unpromising day shall we count for the kingdom and catch fish in unlikely places.—Maltbie D. Babcock.

Faith That Is Worth the Name.

Faith that is worth being called by the name can turn its prayers into promises. The Lord in His promises of answer to prayer has taught us to expect the thing for which we ask. While our weakness leads us to offer many improper petitions and we do not always get the answer we expect, there should not be a failure to expect an answer when we take up the petitions our Lord has taught us to offer. It should not take the mighty faith of a Paul to turn "deliver us from evil" into "the Lord shall deliver me from every evil work."—United Presbyterian.

Christianity.

Christianity is not merely a collection of propositions whether ethical or religious, but, rather, the revelation of a Saviour in Jesus of Nazareth. Its power and value reside in Him, in what He was and is and in what He did and said and in what He is still doing. We can detach the platonic philosophy from Plato without harming it, but we cannot detach Christianity from Christ, since He Himself is the substance and essence of the whole system.—Independent.

As God Sees.

God sees everything as now. Nothing is past, nothing is future to Him. He sees things that are not as though they were and things that shall be as though they had been.—Spurgeon.

CHAPTER XII.

THE BOOKKEEPER'S CONFESSION.

Late that same evening Sturgis returned to his lodgings, after a busy day spent in working upon the Knickerbocker bank case. He was tired and he was perplexed; for, with all his unflagging energy, his quick intelligence and his plodding perseverance, he had come to a standstill in his investigation. The Evening Tempest had appeared with no further mention of the Quinlan case, and with only a perfunctory report of the cab mystery, no attempt having been made to connect the two, for Sturgis would not consent to publish his evidence until he was sure of complete success in his undertaking.

As he approached the house the reporter saw a light in his window, and inferred that a visitor was awaiting his coming. It was Mr. Dunlap, who, pale and careworn, was striding nervously back and forth in the room, with his hands behind his back and his head bent forward upon his breast.

"Ah, there you are at last!" exclaimed the banker, eagerly; "I have been waiting for you for over an hour."

"Has something new turned up?" asked Sturgis.

"Yes; read that."

At the same time Dunlap handed the reporter a letter.

"Let me tell you about it first. After leaving you this morning I went to the ague and saw the body. You were right; it is Arbogast's. I had been only half convinced by your evidence; but I now saw that you were probably right in all your other inductions, and I became anxious to learn something definite concerning the amount of Arbogast's defalcation. As I could not reach the books for some time, I called upon Mrs. Arbogast, thinking I might be able to learn something from her. You had not been to see her, had you?"

"No," answered Sturgis, gravely, "I did not think it likely she knew as much about this matter as we do, and I shrank from the ordeal of revealing to her the fact of her husband's crime and tragic death. I wished, at any rate, to exhaust all other means of obtaining information before resorting to this one."

"Of course, of course," said Dunlap, somewhat impatiently; "the woman is naturally to be pitied; but I could not allow any sentimental consideration to stand in the way of the discharge of my duty to our depositors."

"What did you learn from her?" asked the reporter.

"When I reached the house the maid told me that Mrs. Arbogast had spent the previous evening at her sister's house in the country and had not yet come back. I was about to leave, intending to return later in the evening, when the lady herself arrived. Upon learning who I was she seemed somewhat surprised, but invited me in. As we passed into the parlor the maid handed her mistress a letter, stating that it had come by the morning's mail. Mrs. Arbogast glanced at the envelope, but did not open it. At my first cautious questions she seemed to be very much surprised. Arbogast had announced to her by telegram the previous day that he would be obliged to go out of town for a few days on business. He allowed her to infer that he would soon return, and that his business was connected with the affairs of the bank. She could not understand how it happened that I knew nothing of this trip. 'But,' said she, 'I have just received a letter from him, which will doubtless explain matters.' She evidently knew nothing of her husband's peculation. Thereupon she opened the envelope and took out this letter. I observed her closely. At the first words I saw her cheeks blanch and a look of agony pass over her features as she instinctively pressed her hand to her heart. I knew then that the letter contained some important revelation, and I became anxious to obtain possession of it. When she had done, I could see that she was laboring under a strong emotion; but she controlled herself, replaced the letter in its envelope and said, merely: 'This does not tell me my husband's whereabouts; but I shall doubtless have further news of him in the course of a few days.' I saw that she was attempting to shield him in the supposition that he was still alive. I therefore broke the news of his death to her as gently as I could. The first shock seemed to utterly unnerve her; but after awhile she became somewhat calmer. 'After all, it is better so,' she said, at last. Then she handed me this letter. There was no further reason for withholding it. Read it now."

SHE WAS LABORING UNDER A STRONG EMOTION.

"It is postmarked at the general post office at five o'clock," said Sturgis; "it was therefore mailed before or during Chatham's visit to the bank. It may have been mailed by Arbogast before the scrubbing was done, or perhaps by the chorewoman when she left the bank."

CHRISTIAN ENDEAVOR.

Topic For Week Beginning June 1. Comment by Rev. S. H. Doyle.

TOPIC.—The purpose of His coming.—Matt. xviii, 11; John x, 10.

The mission of Jesus Christ on the earth was to seek and to save the lost. He Himself thus describes His mission when he says, "The Son of Man is come to save that which was lost." The mission of Christ on the earth is also the mission of the church. The church exists to carry out His mission and to do the work that He came to do. After His ascension He sent the Holy Ghost as His representative to guide the church in its important work. And under the direction of the Spirit the purpose of the church's existence is to seek and save the lost. Like the mission of Christ, it is not to kill and to destroy, but to give life, eternal life, and it more abundantly.

The mission of Christ being still the mission of His church and His people, we may well study His motives and methods in fulfilling His mission as our model and inspiration in continuing His work.

Christ was actuated in His mission by at least two great facts: (1) He realized the value of the soul. Had He not known that the soul was of infinite value, more valuable than all the world, He would not have left heaven to come to earth to die for it. But He realized the soul's value and hence was willing to do so. We also must have a realization of the value of the soul if we are to fulfill Christ's mission to our utmost ability. (2) Christ realized that the soul away from God in sin is lost. He sought it because He knew it was lost. The lostness of the soul must impress us before we will seek it that we may save it. The shepherd did not seek the lost sheep until he knew it was lost. How little today we realize the lost condition of the soul! We do not see sin as God sees it in its awful character and consequences or we would be on fire to seek and save the souls of men from eternal death and to eternal life.

The methods of Christ in fulfilling His mission should be ours in continuing it. (1) Christ was prayerful in His work. He prayed to God for the safety of Peter and of others. So we must pray if we would be soul winners. (2) Christ was tactful in His mission work. He used judgment and intelligence in His times and ways of presenting the truth, and so we must be wise as serpents if we become successful fishers of men. (3) Christ was unconventional in His methods. (4) Christ ignored all class distinctions in seeking to save men. (5) Christ practiced self denial in fulfilling His mission. He died on the cross that He might give life, and give it more abundantly. Let us be willing to spend and be spent in continuing His mission on earth.

Our Naval Chaplains.

At the recent meeting of the New York Methodist preachers the Rev. E. G. Strobridge of Stamford, Conn., made the following statements concerning the treatment of the United States navy chaplains: "There are some who are of the opinion that the time has long since arrived when the people of this country and their lawmakers should know that the chaplains of the United States navy are the victims of an invidious discrimination as compared with the other officers of the service. This abuse relates to their support, their uniform and their general treatment. The pay of a chaplain is $2,800, with $109 ration money. This is his salary, however, only when he is at sea. When detailed for shore duty, his support is reduced to $2,300 and "waiting orders" is $1,900. Out of this insignificant and jealously curtailed salary the chaplain must pay an average of $30 per month mess bill, support the establishment of his family on shore and meet the expensive outlay necessary to his station on shipboard. This latter item is no fiction. The officers, as a rule, live high, and, although the chaplain may be quiet in his tastes and moderate in his habits, he is constantly taxed to contribute his share to meet the demands of his extravagant environment.

"Now, it is true that we treat our chaplains better than any other nation does, but, then, we treat all our officers better than other nations do, but of all our officers we treat the chaplains the worst. The mistakes, frailties and shortcomings of the chaplains simply prove that they are human. Besides, these aberrations are more severely criticised in them than in any of their associates. Although an occasional chaplain in the history of the navy may have dishonored his office, the same is true, only in a greater degree, in every other corps, and, at the same time, the chaplains have less encouragement in well doing than any other class of officers. The large majority of the chaplains, considering their opportunities, have been as faithful and efficient in their work as the representative ministers anywhere to be found, and the record of many of them is such as no Christian minister need be ashamed of. Such of them as have proved unworthy did not become so by reason of their connection with the navy, but had shown themselves undeserving of confidence beforehand."

No Sin Shall Remain Unforgiven.

God will never forgive any sin—it remains unpardonable—as long as we continue untoward, refractory; as long as we close up our minds and hearts to the powers which operate for good, the influence which spreads abroad in benignity and love. But no sin shall remain unforgiven when we in contrition humble ourselves before our Father and God.—Universalist.

BOROUGH HIGH'S GRADUATES

THOSE WHO WILL RECEIVE THEIR DIPLOMAS JUNE 20.

Planning to Produce "The School for Scandal" at the Class Day Exercises.

Under the direction of Miss Bush and Miss Snodgrass, Sheridan's classical drama, "The School for Scandal," is being prepared by this year's graduates at the North Plainfield High School. The play will be given on class night, June 13.

Great progress has been made in recent rehearsals and when the pupils appear before the foot-lights a welcome treat may be expected. The effort to bring before the public such high class dramas as "The School for Scandal" is one highly to be commended.

The commencement exercises of the school will be held Friday evening, June 20. Already a programme is in preparation. Those who will be graduated from the institution on that date are: Nettie Louise Bauersachs, Winifred Charlotte Carroll, Elizabeth Cameron Davenport, Robert F. Hand, Nellie Mantz, Edward White Overton, Ella Pearson, Anna Mabel Stevens, Raymond Sperry Stevens, Charles Frederick Windham, Adelaide Carney, Jennie May Everitt, Alice Emily Martin, Harriet Bainbridge Messersmith, Elizabeth M. Ryan, Nellie Elizabeth Vermeule. Many of the graduates will, in the coming autumn, renew their studies in leading colleges throughout the country.

THEATRICAL.

The Proctor's Twenty-third Street Theatre, New York, with its bill of continuous vaudeville, has Joe Welch as its top-liner. Kelly and Adams, an Irish team of more than ordinary ability, are second features. At the Fifty-eighth Street Theatre, the Proctor Stock Company, headed by Alden Bass, will present "Peaceful Valley." "Lord Chumley" will be the bill at the One Hundred and Twenty-fifth Street. Wallace Erskine will play the name part and Adelaide Keim will lead the Proctor players in support. The Fifth Avenue will have Clyde Fitch's clever comedy, "A Modern Match," as the Proctor stock offering. There will be the usual amount of good vaudeville between acts, the feature being Craig and Ardelle, musicians. Billy Carter, an expert banjoist; Mattie Lockette, a soprano soloist, Smith and Cross, in witty duologue, and etn other clever specialties will keep the performance continuous. Souvenir matinees on Saturday will be a feature at this house hereafter. Over in Newark the bill at Proctor's will employ the living art studies, the third successful week; C. W. Litle field, Lyn Welcher, Mason and Francis, Howley and Leslie and ten other clever vaudeville acts. Souvenirs are given to the women in attendance upon the daily bargain matinees.

Pennsylvania Railroad Reduced Rates to Minneapolis or St. Paul, Account National Meeting, Fraternal Order of Eagles.

On account of the National meeting, Fraternal Order of Eagles, at Minneapolis, Minn., June 3 to 8, the Pennsylvania Railroad Company will sell excursion tickets from all stations on its lines to Minneapolis or St. Paul, May 31 to June 2, good to return not earlier than June 3, and not later than June 9, at greatly reduced rates. These tickets will be good for return passage only when executed by joint agent at St. Paul or Minneapolis and payment of 25 cents made for this service. DEATH OF MRS. MOSHER.

Wife of Justice Mosher Passed Away Last Evening After Long Illness.

After an illness of fourteen months, accompanied by intense suffering with a complication of diseases, Mrs. Elizabeth Russell Mosher, wife of Justice J. E. Mosher, aged sixty-six years, died last evening at her home in East Fourth street. For a number of weeks past she had been detained to her bed and gradually failed every day.

Mrs. Mosher's maiden name was Miss Elizabeth Russell Loring and she was born in Boston. She was Mr. Mosher's second wife, and a sister of his first wife. She had lived in Plainfield forty years. She was a sincere and devoted Christian, patient in suffering and never complaining. She was a member of the Seventh-Day Baptist church.

The funeral services will be held tomorrow afternoon at 3 o'clock from the residence of her son, William R. Mosher, 407 New street.

ONE OF CITY'S OLDEST MEN

JAMES M'GINLEY DIED AT HIS SON'S HOME YESTERDAY.

Was Nearly a Century Old and Had Resided Here Over Sixty Years.

The death of James McGinley, one of Plainfield's oldest residents occurred at the home of his only son, Charles McGinley, of East Third street, yesterday. He had attained the remarkable age of ninety-five years and although not hale and hearty, up to one year ago he was strong and possessed of all his faculties. His advanced age brought on a complication of troubles and he has been slowly passing away for the last ten months.

Mr. MGcinley was born in Ireland but came to this country in the early '40's, settling in the hamlet that preceded Plainfield. He always lived in the same section, the house where he died originally being the home of a farmer by whom he was employed. A brother, Charles McGinley, died some years ago, also at a very old age.

Besides his son, Charles, he is survived by four grandchildren, one of whom is Patrolman Arthur McGinley, of the local police force.

Funeral services will be held from his late residence, Monday morning at 8:30, and from St. Mary's church at 9. Interment will be made in St. Mary's cemetery.

Operated on Eye.

Alex. W. Muir, manager of the Safe Works ball team, underwent an operation at Muhlenberg hospital, Thursday afternoon, for the removal of a tumor from the right eye. It was performed by Drs. Ard and Murray and was successful. Another foreign growth was discovered and a second operation will be performed within a short time.

Given a Surprise.

A pleasant surprise party was tendered to Harry Hann, of Somerset place, last evening. The affair was arranged by Lawrence Fahn, Albert Cowling, Harry Shepard and Joseph Finney, and there were thirty guests present to enjoy the festivities.

Mr. and Mrs. Charles J. Ward, of Clinton avenue, are rejoicing over the arrival of a son.
